measuring device believed to be more accurate than general 'give-away'' rain gauges.

The Texas Almanac states that annual rainfall for Callahan County is 24.92 inches. The 25.50 inches received here in 1979 surpassed the normal for this area by .58 of an inch.

It was also explained that totals could vary widely in different sections of this locality, due to the "hit and miss" nature of many of the showers Plains Public Library. which roamed over this section during the past year.

Gay Rights Bill Is **Now Before Congress**

There is a bill HR 2074 entitled "The National Gay Rights Act" before United States Congress. This would prohibit "discriminatin" against homosexuals by providing them special consideration and protection under the law.

All citizens are encouraged to write Congressman Charles Stenholm and ask him to vote against HR 2074, and encourage him to support HCR 166 which. provides that homosexuals will not receive special protection under the law.

Congressman Stenholm's address is U. S. House of Representatives, 1610 Longworth Office Building, Washington, D. C.

THANKS Hick & Wilda

The Board of Education, administration, school staff, student body and patrons of the **Cross Plains Independent School District wish** to express our sincere appreciation to Mr. and Mrs. Hick Edington for entering into a leasepurchase agreement with the school making possible the construction of our vocational agriculture building. Other possible sources of funding had been sought but to no avail. Since funds were not available through lending institutions, the building had to be financed by an individual or group of individuals. Without the help of Hick and Wilda, the building could not have been built.

Also, monies provided by the lease-purchase agreement built a building that meets floor space requirements necessary to obtain

matching funds from the state for tools. The matching funds were obtained, the tools were purchased, and the interior of the building completed primarily by the vocational agriculture teachers, student help, and volunteer labor. Thanks to the funding provided by Hick and Wilda and the hard work of two dedicated vocational agriculture teachers, we now have a well-equipped facility that is second to none. (Incidently, the final building payment was made to Hick on December 20, 1979.)

A special thanks from the students in the vocational agriculture classes is extended to Hick and Wilda for making our nice facility possible.
