Band Sells Cleanser For Uniform Money

The Cross Plains Buffalo Band will be participating in a major fund raising project this week. Members will be striving to raise money for 10 new uniforms which, it is projected, will be needed next year.

According to Band Booster Club President Connie Kirkham, this additional 10 uniforms should make the supply adequate for the next several years.

Members of the band will be selling "Brite", featuring four different types of cleansers, all-purpose cleanser, white wall cleanser, hard surface cleanser and tub and tile cleanser. It is reported to be a great cleanser line. A local lady who tried a sample of the tub and tile cleanser said that it was just great on her tub and shower as you all know how our hard water leaves the deposits on fixtures.

Buffalo bandmen and boosters hope the public will give these products a try. The band members will take orders this afternoon through Sunday, Feb. 19. The cleansers will be delivered in three weeks. Payment is to be made upon delivery, according to Mrs. Kirkham.

She continued that if any person is not called upon by a band member and would like to order cleanser, please contact Connie Kirkham 725-6500, Kay Horan 725-6472 or Joyce McCoy 725-6653.

It was emphasized that the band does appreciate the people's support.

Carolyn's Corner

By Carolyn Glover

This poem was submitted to this column by Virgie Adams of Burkett and is entitled "Rules For Daily Living".

1. Begin the day with God. Kneel down with Him in prayer lift up the heart to His throne and seek His love to share.

2. Open the Book of God, and read a part in there, that it may hallow all thy thoughts and sweeten all the care.

3. Go through the day with God, whatever thy work may be, where'er thou art, at home or abroad, He will still hear thee.

4. Converse in mind with God, thy sins to Him confess, Trust in the Lords atoning blood and plead His righteousness.

5. Lie down at night with God who gives His servants sleep, and when thou treadst the valley of death, He will guard and keep.

New Technology To Serve Continental's Baird Area

Continental Telephone officials recently announced that DCRIS will be serving the Baird area beginning April 28. DCRIS is an application of new technology that will revolutionize the way Continental operates and offer a dramatic service improvement for customers.

According to Continental Director of Public Affairs, Loma Allen. "The telephone industry, including Continental, has been traveling on a paper railroad for many years. Our customer service representatives fill out more than

60 forms to complete a routine customer transaction. After several years of development, a system that will computerize this process is being installed in Texas."

In order to obtain the full benefit of DCRIS, certain functions now performed in the service offices in Baird and elsewhere in the West Texas area need to be centralized at the DCRIS center. The center will be located at Andrews and will provide service to 27 exchanges throughout West Texas. The map attached is a graphic portrayal of the DCRIS serving area, illustrating the operating efficiencies that can be established through this network.

Allen adds, "DCRIS is simply the next step in the company's ongoing efforts to improve customer service and maximize operating efficiencies."

The only functions to be centralized in the DCRIS center are the service order and trouble recording functions. This involves the displacement of only five of Continental's 33 employees now located in Baird. The service in Baird will continue to operate for the principal purpose of accommodating customers who choose to walk in to pay their bills or obtain service. Most customers, however, will notice little difference in the way they do business with Continental. Should they need new service, wish to make changes in their present service, report trouble or inquire about a bill, etc., customers can continue to dial the service numbers listed in their telephone directory. The only difference will be that customers will be talking to service representatives at the DCRIS center in Andrews.

Because of DCRIS, the customer will spend considerably less time on the telephone placing an order for service, checking a bill, getting answers to questions, etc. With DCRIS, the information needed will be virtually at the service representatives' fingertips. Even more important is the accuracy provided by DCRIS so that errors become almost nonexistent.

Allen concludes, "The DCRIS system strives to achieve the highest levels of efficiency at the lowest possible costs. The ultimate beneficiary is our customer."

All Recipients Must Report S.S.I. Status

Supplemental Security Income payments are made to needy individuals who are aged, blind, or disabled. However, the right to receive such benefits carries with it the responsibility of reporting changes which may affect your right to receive benefits. As a recipient, you must report the following changes, according to Glyn Hammons, district manager of Abilene Social Security Office.

Changes in address or place of residence such as when one moves, enters an institution or leaves the United States.

Changes in the family's income.

Changes in the family's resources.

Changes in marital status.

When these changes are reported promptly, action can usually be made to adjust benefit amounts in the proper manner. However, if Social Security is not promptly advised of these changes, the recipient may become overpaid, or underpaid. Additionally, the recipient's delay in reporting changes may result in a penalty being charged in addition to the overpayment.

To avoid problems with your Supplemental Security Income payments, contact the Abilene Social Security office located at 142 S. Pioneer or call 915-698-1366 to report any change in your situation, Hammons encourages.

Help Your Heart

Coronary Bypass Surgery

"Bypass" surgery has become a common procedure for restoring health and vigor to persons suffering from narrowing of the coronary arteries by fatty deposits. More than 160,000 Americans this year will undergo the operation, which involves using veins from another part of the body to bypass obstructed sections of the heart's arteries (see illustration). The blood supply thus is restored to areas of heart muscle where it had been reduced by the obstructions.

If you must undergo this open heart surgery, you and your family should have sufficient information to relieve everyone's anxiety. Discuss your concerns with your doctor. Admission to the hospital is usually scheduled for two or three days before your operation to allow time for certain tests. During this time, you will become acquainted with the team of surgeons, cardiologists, anesthesiologists, nurses and therapists that will provide your care during and after the operation.

Nervousness or anxiety before surgery is a normal reaction just as athletes often are nervous before important games. Understanding the need for the operation, meeting members of the professional team and asking them questions should help calm you.

On the day before surgery, much of your body hair will be shaved and areas of the incisions will be scrubbed with antiseptic surgical soap. On the day of the operation, you will receive medication to produce drowsiness. Atten-

dants will move you to the operating room on a rolling bed. After you are given an anesthetic that brings sleep and freedom from pain, the operation will be performed. Generally it takes from three to six hours, but it may be longer.

After the operation, you probably will stay in the hospital for one to two weeks. As your recovery progresses, you will appreciate the effects of the surgery. Increased blood flow to the heart muscle should mean less of the chest pain called "angina." You may find you need much less medication, if any, and that you are better able to sustain physical activity. In addition to making you feel better, there is a chance the operation may prolong your life, particularly if you help your heart by keeping high blood pressure under control and your weight down, eating food low in salt, saturated fats and cholesterol, and not smoking cigarettes.

Cash Flow.

In 1803, America found herself up the river. The Mississippi, that is, that is, Valuable goods were being produced in the Midwest, and the mighty Mississippi was our only link to the sea. But the outlet in New Orleans belonged to France.

So President Jefferson sent agents to Paris to negotiate for the addition of New Orleans. Surprisingly, Napoleon offered to sell the entire Louisiana Territory for only \$15,000,000.

And that included what is today Arkansas, Missouri, Iowa, North and South Dakota, Nebraska, Louisiana, Oklahoma, most of Minnesota, and parts of Wyoming and Colorado.

Thanks to Americans taking stock in their new country by buying over \$11,000,000 in government securities,

we made the purchase. And doubled our size overnight.

Today, Americans still take stock in their country by buying U.S. Savings Bonds through the Payroll Savings Plan.

They know there's no safer way to save for an education, vacation or retirement. And they know that while they're helping themselves, they're helping America, too.

So buy U.S. Savings Bonds. And help your cash flow into savings.

Take stock in America.

U.S. Bonds pay 8% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

We are sorry to report the death of Buddy Oliver Monday evening of last week at Overall-Morris Memorial Hospital since Mid-December. Funeral services were held at Walker Funeral Home in Coleman at 1 p.m. Wednesday and burial in the Burkett Cemetery. Sympathy goes to his daughter, Lela Jo Crocker, her husband and two sons of San Antonio and to his sister, Lillian Brown of Burkett. Lela Jo was at her father's bedside the entire time he was hospitalized.

The Burkett-Adams Cemetery has received donations amounting to \$92.70. Donors are Jack and Zora DeBusk, \$20 in memory of E. L. Garrett; Olene Chambers Johnson and Artie Bagle \$10 each and both in memory of L. L. Morgan; Mrs. A. M. Brown \$10 in memory of A. H. (Buddy) Oliver and Mattie Webb Estate \$42.70. Each and every gift to this association is appreciated very much and for the kind thoughts for which they are given.

According to the latest news, Willie Henderson is recuperating at home following surgery at Scott and White Hospital in Temple and is getting stronger day by day. We hope he will be able to be out and about soon.

Mr. Eugene Carruth and Van Stevens of Ft. Worth visited Birdie and Gill Helms Thursday. They were bird hunting on the Helms farm.

Mr. and Mrs. Sam Hunter of Coleman visited his mother, Mrs. Eula Hunter Sunday.

Mrs. Lula Havner of Bangs spent Tuesday to Thursday of last week visiting with her sisters, Mrs. Marie Strawn of Grosvenor and Mrs. Raymond Jennings of Burkett.

Carl Bludworth is a patient at West Texas Hospital in Abilene. He will be transferred to Harris Memorial Hospital in Fort Worth as soon as they have room for him. He possibly will undergo heart surgery there. We hope Carl soon will be better. W. B. Bludworth and Lucille Gould spent Sunday evening with him.

Most of our news lately is of sickness and deaths for which we regret.

Another former Burkett man, Clarence Porter of Fort Worth until about a year ago when he moved in with his nephew and

wife, Mr. and Mrs. Donnie Porter of Blanket, passed away in Brownwood Regional Hospital of pneumonia and heart condition last Wednesday evening. Funeral services were held at Walker Funeral Home in Coleman Saturday and burial in the Burkett Cemetery.

I wish to thank everyone that has let me handle their subscription for this paper. A list of subscribers were printed for all those that I mailed in up to the last week in December. Following is a list of those mailed in since that time: Jo Davee, R. D. Young and Mrs. Verna Swann. If I failed to include anyone's name please call me and it will be in a later news column.

Because Pete Golson of Rankin and Randy Golson of Big Lake were in Burkett for the week end and because Liz and Low Golson wanted to show off their newest grandson, the family gathered at Liz and Low's for barbecue Saturday night. Besides Randy and Pete, out-of-town visitors were Michelle Wilkovich, Kelsey and Logan, of San Angelo and Robin, Stormy and Tob Golson of Merkel.

The weather sure has been nice. We had 30 of an inch of rain Wednesday night. Saturday night we had a shower. Seems like everyone is getting their gardens ready to plant. We have got our onions planted. Sure hope we can get some rain soon. If we don't get some soon, there won't be any need to plant anything.

Robbie Alfred from Henrietta, Mo., has been visiting with Frank and Shirley Snodgrass this week. He has been helping Frank cut wood and has tilled my garden for me. He also planted onions for me. Other visitors this week were Idella Hollis, L. J. Coker, Sandra Tennison and children. Shirley and Robbie were business visitors in Cisco and Eastland Friday and Saturday.

Visiting with Bill and Idella Hollis this week end were Travis and Debbie Townsend and children of Abilene. Thank you, Travis, for doing some shopping for us. Bill has been doing some gardening. He has planted his onions. Their visitors this week were Wayne and Lena Gage of Cross Plains, Raymond Hollis of Abilene, Bill and Lorene Ramsey, Dub Ramsey and Francis Gatson all of Eastland.

Mr. and Mrs. Mack McConz held a birthday party for their grandsons last week end. They were Chris who was 3 and Cody was 1. Those attending were the parents, Scott and Luann Sandahl and Bubba and Tammie McConz all of Austin, Jackie, Rexie and Shena Jo Thomas of Cross Plains. Their great grandparents also attended. They are Mr. and Mrs. M. G. McConz of Glenrose and Mr. and Mrs. Byron Harden of Granbury.

Visiting with Mr. and Mrs. Arza Green Saturday were Jim, Becky and Randy Blackwell. Zed Green from Cisco visited Sunday. Nora went over to Bobby and Wanda Blackwells for awhile Sunday afternoon.

Thursday Mr. and Mrs. Truitt Dawkins traveled to Eastland to see their Dentist, Oma Cox and daughter, Mary Ann came Thursday for Mary Ann to take some pictures of farm life. Calvin Morris of Cross Plains visited with them Sunday afternoon.

I hate to print bad news but someone has to do it. Jack Rector has taken a turn for the worse. The brain tumor has started to growing and cannot be removed. We all need to pray for Jack and all his family. Robbie's child on are with her in San Antonio and Mr. and Mrs. Rector are going down there today to be with them.

Ophelia Lawson said she sure was enjoying her grandsons and their families coming by several times a week to see her. They are David and Gary Harris. Ophelia went to visit Charlie Baugh and stopped by to see her aunt Pell

Eastland FHA Accepting Farm Loan Applications

Applications for emergency farm loans for losses caused by this summer's drought and extremely high temperatures are being accepted at the Farmers Home Administration (FmHA) office located in Eastland, Texas, FmHA County Supervisor Jack S. Phillips has said.

Eastland County is one of 73 in Texas recently named by Secretary of Agriculture John R. Block as eligible for loans to cover part of actual production losses resulting from the drought.

Phillips said farmers may be eligible for loans of up to 80 percent of their actual losses, or the operating loan needed to continue in business, or \$500,000, whichever is less. For farmers unable to obtain credit from private commercial lenders, the interest rate on the first \$100,000 borrowed is 5 percent; interest rate is 8 percent on the balance borrowed over that amount. For farmers who can obtain commercial credit but who choose to borrow from FmHA, the interest rate is 13.75 percent.

As a general rule, a farmer must have suffered at least a 30-

per cent loss of production to be eligible for an FmHA emergency loan, Phillips said. Farmers participating in the PIK or federal crop insurance programs will have to figure in proceeds from those programs in determining their loss.

Applications for loans under this emergency designation will be accepted until August 1, 1984, but farmers should apply as soon as possible. Delays in applying could create backlogs in processing and possibly carry over into the new farming season, Phillips said.

FmHA is a credit agency of the U. S. Department of Agriculture. It is authorized to provide disaster emergency loans to recognized farmers who work at and rely on farming for a substantial part of their living. Eligibility is extended to individual farmers who are U. S. citizens, and to farming partnerships, corporations or cooperatives in which U. S. citizens hold a majority interest.

The FmHA office in Eastland is open from 8 a.m. until 12 noon, and from 1 p.m. to 5 p.m. Monday through Friday.

That white ball of fur that you see laying around the Rising Star Nursing Center is a Persian cat named Snowball. He really doesn't belong to anyone (does any cat?), but his care-taker is Mr. Bibby. During the cold weather he lives in a box inside a box just outside the center's front door. But once his home was in the big Mulberry tree in the center's front yard, Mr. Bibby would gather scraps from the kitchen, place them in a bowl and put them up in the tree. This kept Snowball and his food away from the neighborhood dogs.) Now Snowball is so fat he can barely get up in the tree so Mr. Bibby places him and his food up in the safe dwelling. For the protection of Mr. Bibby, the residents, and visitors at the center, Snowball has been given a rabies vaccination and medication for various parasites.

Mr. Bibby has acquired a nickname — Popeye. He is always seen with a pipe in his mouth. (But I don't really ever remember seeing smoke come out of it.) He likes to be called by his nickname, but I find that he con-

ducts himself with too much prestige and dignity for that name. You know Ernest Hemingway, Norman Rockwell, and Cary Grant smoked a pipe too. (They not to mention my own daddy.)

Let me give you some advice about pipe smokers — don't touch their pipe. Dad once left one of his "well seasoned" pipes laying on the table. It must have been his favorite for he only smoked that particular pipe and left all the pretty shiny ones in a rack. Due to the fact that it had a lot of "stuff" built up in the bowl and had a definite odor it was taken to the kitchen sink for a good scrubbing. A knife easily removed all that "stuff" after the pipe had been soaked in soapy water. It then looked and smelled almost like new. But remember don't touch a smokers pipe, they just don't seem to appreciate it.

Oh, and don't ask Mr. Bibby for one of Snowball's kittens (like my son did one time) because he will just smile at you. Snowball is a "tom".

BAKING TIPS from Betty Crocker

Frosting Can Make The Difference

"It's the frosting on the cake" is an oft-repeated expression referring to something special — the crowning touch. Actually, real, honest-to-goodness frosting does much more than add a decorative topping or filling for desserts. It provides a protective coating which seals in moisture. It also complements the cake with flavor, color and texture.

Most frostings are variations of four basic types: fondant, seven-minute and boiled, all of which require cooking, and the popular uncooked buttercream. Add glazes, sauces, whipped- and pudding-type toppings, and you have a smorgasbord selection to enhance favorite desserts.

Homemade frostings, particularly the cooked types, require close attention to measuring, beating instructions and cooking times for smooth, spreadable results with a soft, lustrous appearance. Frostings require just the right consistency to adhere without tearing or causing

crumbling. For foolproof results, consider using a frosting mix or ready-to-spread frosting.

In choosing a frosting, select a flavor and type which will team tastefully with the flavor, consistency and appearance of the dessert. A cake to be frosted should be cooled and brushed free of loose crumbs. If you are frosting it right on the serving plate, protect the plate by placing four strips of waxed paper around the cake base while you do your decorat-

ing. If the frosting seems too thick to spread easily, try thinning with a few drops of water or other liquid.

For the bottom layer of a cake, spread 1/3 to 1/2 cup frosting over an inverted layer to within 1/4 inch of the edge. Cover with second layer, rounded side up, and cover side with a thin layer of frosting to seal in crumbs. Then, add more frosting, building up a 1/4-inch rim around the top edge.

Finally, spread remaining frosting over top to meet raised edge. With spatula, knife or back of spoon, add decorator touches with a light, feathery touch — swirls, spirals, peaks, crisscross or circle patterns.

With Betty Crocker frosting mixes and ready-to-spread frostings, fun need not be limited to cake decorating. Fondue for dipping fruits and cake cubes is ready in minutes by warming a tub of Creamy Deluxe chocolate ready-to-spread frosting. From mixes come a myriad of ideas for easy-to-do candies, flavored popcorns, frosted pretzels, meringue shells, ice-cream toppings, glazes, pie fillings and even ice cream.

For every "sweet" occasion, you will find many innovative recipe ideas right on the packages. Many require no cooking, so even junior cooks can safely and easily create treats for family and friends.

A Boulder APPROACH: OR how Hoover Gave a DAM.

In the early 1900's, a concrete solution was needed to prevent flooding along the Colorado River. The Hoover administration provided it. 4,400,000 cubic yards' worth. Enough concrete to pave a two-lane highway between New York and San Francisco. It was the Hoover Dam at Boulder City, Nevada. And it not only controlled flooding and irrigation, but today it generates power for Southern California, Arizona and Nevada. The cost: \$385 million. And one of the ways money was generated was by Americans buying government securities and taking stock in America. Today, you can take stock in America by buying United States Savings Bonds. It's easy when you join the Payroll Savings Plan. That way, a little is automatically set aside from each paycheck to buy Bonds. Before you know it, you'll build up a nice reservoir of savings. So buy Bonds. It's one savings plan that holds water.

Take stock in America.

MICROWAVE BASICS

Browning Microwaved Foods

Foods prepared in the microwave, because of shorter cooking times, often do not have the browned appearance of conventionally cooked foods. If you find this to be a disadvantage, there are several things you can do to enhance their appearance. Baked goods, such as cakes and quick breads, can be sprinkled before baking with nuts, toasted coconut or raisins. Meats and poultry can be brushed with bottled browning sauce, catsup or Worcestershire sauce.

An alternative method to the above suggestions is to use frozen prepared convenience products in the microwave that only need reheating.

Try the recipe below created by the Banquet Foods Test Kitchens with both eye and appetite appeal in mind.

Italian Open-Faced Beef Sandwiches

1 package (32 oz.) BANQUET American Favorites Gravy & Sliced Beef Buffet Supper Main Dish	1 tablespoon Worcestershire sauce
1 can (6 oz.) tomato paste	1 teaspoon Italian seasoning
1/2 cup chopped green pepper	1/2 teaspoon garlic powder
	1 loaf Italian bread, halved and toasted
	1/2 cup (2 oz.) shredded mozzarella cheese

Remove gravy and sliced beef from foil tray and place in 2-quart oblong glass baking dish. Heat, covered, on HIGH 7 to 9 minutes or until thawed. Stir in tomato paste, green pepper, Worcestershire sauce, Italian seasoning and garlic powder. Re-cover. Heat on HIGH 7 to 9 minutes or until hot, stirring occasionally. Place bread on microwave-safe plate; spoon beef mixture on top. Sprinkle cheese on top. Heat on HIGH 2 to 3 minutes or until cheese melts. Makes 5 servings.

Rick Perry is Seeking 64th Legislative Place

State Representative candidate Rick Perry this week cited state funding, education, highways, water, and the state prison system, and many other topics, as the major issues confronting the next session of the Legislature.

"These issues are as diverse as our great state and no individual can promise simple solutions to any or all of them," said Perry.

"During the last several weeks we have traveled throughout the 64th Legislative District visiting with people about our candidacy and these issues. Our only promise up to this point in the campaign is that we will listen to both sides of any issue and then act as the voice of the majority of the district in voting," said Perry.

According to Perry, each of these issues will have several proposed solutions and solutions will be more acceptable to our district than others.

"In education, for example, several proposals will erect schools

in our district very differently. To address this problem, we are in the process of naming an advisory committee with representation from across the district to consider the various proposals and make specific recommendations," said Perry.

Perry added that he is in touch with various teaching organizations, administrations and school Board Associations seeking information concerning education related issues.

Each of these issues is of vital importance to the group they effect and many will effect virtually everyone in the state in some manner or another," said Perry. "We hope to give each issue the attention they demand in serving in the best interest of the state in general and the 64th district in particular," Perry added.

The Perry campaign headquarters has been opened at 530 S. 2nd St. in Haskell and anyone needing information is asked to visit the office or call 817-864-2051.

WTU Pays Back Interim Rates; Area Unaffected

West Texas Utilities customers who paid interim rates the later part of 1983 will begin receiving refunds this month.

However, all refunds will be small, and some customers won't get them at all, company officials said.

"They'll be small because the higher rates were charged for only a short time. Some customers won't be affected because their rates were not changed during the period.

WTU started charging interim rates on October 22 when it became evident that a requested rate increase filed June 10, 1983, would be delayed indefinitely by the Public Utility Commission of Texas. Interim rates were allowed by state law, subject to refund, if after three months the PUC had not ruled on the company's request.

WTU has asked for an increase

of \$26 million annually and the PUC staff recommended \$10 million. The Commission eventually approved \$12 million, with the new rates, plus 12.83 per cent interest. Refunds are being credited to customer bills, while checks are being mailed to those who have disconnected from the WTU system.

Amounts to residential customers are averaging less than \$5, including interest.

Customers in the following towns which had denied the rate request and appealed to the commission, are not affected: Hawley, Tuscola, Lawn, Merkel, Putnam, Clyde, Cross Plains, Santa Anna, Linderos, Aspermont, Jayton, Marfa, Valentine, Presidio, Alpine, Balmorhea, Rankin, Iraan, Estelline, Quitaque, Turkey, Memphis, Dodson, Shamrock, Sonora, Sterling City, Bonte, Menard, Junction and Miles.

Pioneer News Items

By Laverne Hutton

It has been some time since I've attempted to write the Pioneer Community news. With God's help, I pray that I can be of some service to the community by joining the team with Matie Halsell and Gail Flippin.

We should be thankful to Ruby McCowen and Vera Pearl Bunnell for warning us of the plans to produce such a blasphemous movie "The Last Temptation of Christ." May we all realize the unimportance of writing a personal letter in opposition to this production. Yes, I have written my letter.

Now, for another urgent matter. On February 29 the appropriations measure to the Continuing Resolution for the Treasury Appropriations Bill expires. It is very pressing that a Religious Liberty Amendment be added at this time. Without this Amendment the I. R. S. will in time have power over all religious schools and churches, to determine policies. Past history teaches us that power to determine policies is power to control. When that comes about, the existence of churches and religious schools will be neutralized if not destroyed. Plans were written back in 1932 in the book "Toward Soviet America," by William Foster, then National Chairman of the Communist Party, U.S.A. It states "The churches will remain free to continue their services but their special tax and other privileges will be liquidated. Their buildings will revert to the State. Religious schools will be abolished and organized religious training for minors prohibited.

As of June 1983, there were 6,000 cases in the courts pending against churches, 60 of them for failure to pay back taxes. Write your Senators now! Address 240
