School begins here Monday morning with some of the child-eager to go and some not quite decided if they are ready for class work and home work. Our youngest is more than ready and the oldest is beginning to want to go back. I guess, however it matters not whether they are ready, the time is here. The teachers began their year Monday, Aug. 13. What a short summer.

The following article was contributed by Mrs. Marvin (Eunice) Pierce of Alpine, Texas.

It is entitled "Lost Day Found".

GREEN BELT, Md. (NWR) — Recent work by a computer shows the sun really did stand still or, in modern language, the earth halted in its orbit, as recorded in Joshua 10:13. The computer also found the backward movement of the sundial in II Kings 20.

According to Harold Hill, president of the Curtis Engine Company in Baltimore, Maryland, and a consultant in the space program, our astronauts and space scientists at Green Belt, Maryland, were recently checking what position the sun, moon and planets would have in space in 100 and 1000 years. He explained, "We have to know this so we don't send a satellite up and have it bump into something later in its orbit. We have to lay out the orbits in terms of the life of the satellite and where the planets will be so they will not collide."

"While the computer was being operated back and forth over the centuries, it suddenly came to a halt, showing a red signal. This meant there was something wrong, either with the information fed into it or with the results as compared to the standards."

"They called in the Service Department to check it out," Mr. Hill added, "and they said, 'It's perfect.' No one could figure out how a day could be missing in space in elapsed time."

"Then, according to Mr. Hill, 'One religious fellow on the team said, 'You know, one time I was in Sunday School and they talked about the sun standing still.' He got a Bible and looked in the book of Joshua. There they found the verse in which Joshua asked the Lord to make the sun stand still.' Then, using the computer, they went back to the time the event took place and found it was almost a whole day — 23 hours and 20 minutes, to be exact."

There were still 40 minutes to be accounted for, so the experts also considered II Kings 20. Here, in response to Isaiah's request, the Lord brought the sundial's shadow back ten degrees — exactly 40 minutes.

Adding together the 23 hours and 20 minutes in Joshua 10 and the 40 minutes in II Kings 20 gives a total of 24 hours. "The space travelers had to record this in the logbook as the missing day in the universe," Mr. Hill concluded.

old settlers in Callahan County and this area enjoyed the 43rd Callahan County Pioneer Reunion held Saturday at Treadaway Park in Cross Plains.

Burkett Lady Back From Oriental Missionary Tour

Yuna V. Burkett has recently returned from a three-week missionary tour into six countries with a Nora Lam tour of over 200 people from many states and Canada. Taiwan, Japan, the Philippines, Hong Kong, Mainland China and Hawaii were visited.

The main missionary outreach was in Taiwan and the Philippines where Nora Lam is honored because of her staunch stand against Communism in her homeland of China. Nora, as a young lady, taught in the Communist University. She was later called in for questioning because her grandfather was very rich and her father was a famous doctor.

Under the brutal questioning, she suddenly decided she did want to be a Christian. (Her mother has been influenced by Madame Chiang Kai-Shek to educate Nora in a Methodist Missionary school.) Nora was sentenced to die before a firing squad because of her Christian confession. When she was still standing after lanished her from the country. In Mainland China all the farming observed by Mrs. Burkett was done with water buffalo. One small

tractor, slightly larger than a garden tractor was seen abandoned in a muddy field. The tour was accommodated in a beautiful hotel in China, but the hygienic conditions around are city were very primitive. A Chinese acrobatic performance of unbelievable feats was enjoyed by the group.

An orphanage, the large Bilidki Prison, the American Military Cemetery, and a leprosy colony were among the things visited in the Philippines. The school observed in the Philippines has classes all year. Because of crowded conditions, pupils go to school in 4-hour periods, from 6 a.m. to 10 a.m., 10 a.m. to 2 p.m. or 2 p.m. to 6 p.m. The school was conducted in part of the lower floors of a seven-story government apartment house. On the principal's door was the sign, "God Bless this House." The school girls in all the countries visited, except Hawaii, wore uniforms of navy blue skirts and white blouses. Mrs. Burkett may give more details of her trip at the next "Jesus Talk" at the Cross Plains Multi-Purpose Center.

State Capital HIGHLIGHTS

By Lyndell Williams

Intended for last week

AUSTIN — Texas Democrats fired right back last week, quickly inviting their party's presidential ticket to visit the Capitol on the heels of President Ronald Reagan and Vice President George Bush.

Walter Mondal, Geraldine Ferraro and a few state officials tossed speeches, challenges and wit from the Capitol steps, attacking Reagan's record of budget deficits. The ticket-toppers made campaign stops in Houston and San Antonio before leaving for out-of-state destinations.

Meanwhile, a statewide Republican poll released by vacating U. S. Senator John Tower last week showed Reagan-Bush leading Mondal-Ferraro by 27 percentage points in Texas, 59 to 32. Republican strength was shown as concentrated in Houston, Dallas, Fort Worth and portions of West Texas in the poll conducted by Lance Tarrance of Houston.

Those figures contrasted with a nation-wide poll released about the same time by pollster Louis Harris which showed the GOP ticket ahead only two points, 50-48.

Water from the Desert

While most of the state officials were partaking of the campaign flurry, Texas Land Commissioner Garry Mauro and State Sen. Bill Sims were mapping plans to capture water from arid land.

Sims showed Mauro an area called Rocky Creek near San Angelo where 40,000 acres were cleared of brush for water conservation. Clearing brush replenishes the aquifer Sims said.

"After the brush was cleared, the springs started flowing again," he said. "We wanted Garry to see that."

Mauro plans to visit Israel this month to inspect their technology in water transfer.

Water Plan

Sims, a widely respected rancher who represents most of the drought-plagued West Texas areas in the Legislature, is working on a bill to provide cooperation between the state and private landowners in brush-clearing efforts. The program to eradicate excess brush which traps and withholds water from useful purposes will probably be incorporated into water plan legislation in January. Mauro manages Texas' public lands, including thousands of acres in Sims' West Texas district, and he has an eye on installing brush control as part of his conservation program.

The fact that Sims, called "a conservative's conservative," and Mauro, who won his office on a progressive theme, have their heads together bodes well for the political strength that a brush control water plan could move forward.

Smoking Areas Law?

Another piece of legislation which might emerge during next spring's regular session would create a new law setting up separate dining areas for smokers and non-smokers.

Yet another poll released last week, the Texas Poll from Texas A&M University and Harte-Hanks Communication, Inc., reflects that almost 75 percent of Texas voters support mandatory smoking and non-smoking areas in restaurants.

Almost two-thirds of the respondents favored such a law separating smokers from non-smokers at work.

Houston is the only major Texas city with a law banning smoking in many public places. Whether a similar bill would make it past the Legislature's smoke-filled rooms is anyone's guess.

Fuel Tax

The law to increase revenues for education and highways became effective last week.

Gasoline prices for both regular and unleaded rose an extra five cents a gallon.

An additional 3.5 cents per gallon for diesel was tacked on in the recent special session.

Retailers estimate that the average fuel bill for Texas will go up \$40 a year, unless competitive market forces keep it lower. The tax is actually paid by the supplier, who normally passes it on to the consumer.

Two Resign

Two top officials in state agencies resigned last week. Texas Secretary of State John Fainter and Texas Veterans Land Board Executive Secretary Harmon Lisnow.

Fainter, top political assistant to Gov. Mark White for years, will resume his private law practice at a much higher salary.

Lisnow, whom some consider the best administrator in state government, leaves Land Commissioner Garry Mauro's employ to take work for Attorney General Jim Mattox.

Under Mauro and Lisnow, the new Veterans Housing Program approved 6,000 home loans for veterans.

Sabanno

By Shirley Snodgrass

I'm sorry for not writing the news lately, but I have been gone. I have a new granddaughter I just had to go see. While I was down there, I visited my parents and other daughter. I went fishing while I was there. We spent the night and didn't catch anything but polly wogs. I came home on Monday, and then went to Marlow, Okla., for a few days to visit with Frank's brother and family. We went to rodeos while we were there. His niece runs barrels, so we had to see her ride. We really did enjoy our visit, but were real worn out when we came home. It is really good to be back in good ol' Sabanno.

We got 1.80 inches of rain Saturday and Sunday. We also had lots of hard wind. I called over to De Leon to the hospital and talked to Robbie Rector. She said Jack is still critical, and hasn't known her or anyone for about two weeks. He is in Room 21, and the phone number is (817) 893-2011. She would love to hear from you all and would like for each of you to pray for them.

Lorene Ramsey of Eastland visited Bill and Idella Hollis last Tuesday, Wednesday they had cake and ice cream for Bill's birthday. I won't say how old he is, but he can draw social security now. Those attending were Wayne and Lena Gage and Frank and Shirley Snodgrass. Lena made the cake and Idella the ice cream, and the rest of us made pigs of ourselves. Needless to say, it was delicious.

Ophelia Lawson's brother, Joe Phillips, came down from Odessa, and built her a bar on her kitchen. She attended the reunion at Pioneer and Cross Plains. She went to the musical at Cisco Saturday and attended the tea for the new doctor in Cross Plains Sunday.

Mr. and Mrs. Arza Green's daughter, Nora Lee Blackwell, and Jeff Gordon were married in the Green's back yard recently. Nora said it was really pretty. Arza and Nora went to the rodeo and visited Mary Morton and family. They also visited Jim, Becky, Randy and little Jim while they were there. Sunday Nora Lee and Jeff came over and ate lunch with them. Zed and Mae Green of Cisco visited them Sunday. Mr. and Mrs. Mage Notgrass visited them Saturday.

Mr. and Mrs. Truitt Dawkins' nephew and family, Mr. and Mrs. Nick Anderson, Vickie and David, visited them last week. They all stayed at the Brownwood Lake and fished. Truitt said the fishing was poor. They caught some but not much. Friday night Nunnie

Brooks and Mr. and Mrs. Cox and two daughters of Cisco came down and ate supper with them.

Mindy Watson of New Castle spent the week end with Troy and Mae Watson. Their other visitors were Terry and Sheryl Watson of Sabanno, Barbara Kanady of Rising Star, Mr. and Mrs. Grady Wooten of Putnam and Nan Warwarm.

Kye King has been visiting Mr. and Mrs. Lester King. Mrs. King said they had rain on all their crops.

Dennis Shawver spent a week with his mother, Inez Shawver. They hauled sheep to San Angelo to sell and cut wood for this winter. She said they had a very busy week.

I'm sorry if I missed you this week. I kept getting busy signals. I think it may have been the phone lines. Let's remember to pray for the sick in our community.

The Gibbs rain gauge measured 50 of an inch of rain from Sunday's showers. This will benefit dried up pastures and Milo crops. Warren Price gauged 1.50 inches of rain from these same clouds Sunday morning.

Those that had gardens ran up high electric bills for irrigation during the heat and made one wonder if it was worth that much to have fresh vegetables.

Descendants of Andrew and Lee Ann Burks met for reunion at the Multi-Purpose Center in Cross Plains Sunday. Those from this area attending were Lizzie Burks, Johnso and Robert Burks. Emma reported all had a good time but fewer were in attendance this year. She also reported that her nephew, Norban Burks of Truth or Consequences N.M. had to undergo open heart surgery last week. He came through surgery fine and some of his family were with him.
