The Scrap Metal Drive

The drive for scrap metal of all kinds started in earnest Wednesday. This drive is sponsored by the Government and ten trucks and ten men are assigned to Callahan County to gather up the scrap metal.

The City of Baird is cooperating also in the drive and Mayor Hugh Ross is planning a "Junk Rally" for Baird and vicinity; full details of which will be given in our next weeks edition.

County Commissioner, Hub Warren of Precinct 1, donated the first truck load of 2000 pounds to be hauled in Wednesday morning, the metal being gathered from his farm west of Baird.

The junk is being stored just west of the T and P Depot.

See next weeks Star for full details of the Junk Rally.

Shall Brave Men Die Because You Failed To Help?

Heeding the call of brave men for implements of war America is today busy with one of the most extensive drives in history...that of collecting every available ounce of scrap metal. Every home in Callahan county is being asked to furnish as many pounds as possible.

Government trucks are available now and will be for several days more to visit any farm in the county and haul the scrap to concentration points. Anyone living outside the limits of an incorporated city who has scrap should notify the County Agent or County Judge, and a truck will be sent out immediately. A penny post card or telephone call is all that is necessary.

A government receipt will be issued for the scrap and a check will be mailed out promptly. Or, donations may be made directly to the government if the authorized truckers are so advised.

Let your motto be: "Brave men shall not die because I failed to provide the metal to equip them with the tools of war"

B. H. FREELAND.

M. T. Hughes Died Tuesday

Matthew T. Hughes, 78, retired Callahan County farmer, died at his home here Tuesday morning at one o'clock, following an illness of several weeks.

Funeral services were held at the Methodist Church Tuesday afternoon at 4 p. m., services being held by Rev. Cal C. Wright, of Stamford, former pastor of the Baird Methodist Church, assisted by Rev. Alsie H. Carleton, pastor.

Burial was made in Ross cemetery under direction of Wylie Funeral Home.

Pall Bearers were: D.L. Carman, Haward Farmer, Ace Hickman, A. R. Kelton, J. Brice Jones and Jim Smedley.

Mr. Hughes was born in Richland county, Illinois, April 14, 1864. He moved to Callahan county in 1909, settling on a farm at Belle Plain, where he lived until retiring some years ago, when he moved to Baird where he has since resided.

Mr. Hughes is survived by his wife, and one son L. R. Hughes of Baird, also one brother, Mike Hughes of Baird and two sisters, Mrs. Margaret Padgett, Albany, Ill. and Mrs. Sina Burr, of Bone Gap, Ill.

Surgical Dressing

Mrs. L. L. Blackburn, chairman informs us that the rooms up stairs in the First State bank building are being fitted up for the Red Cross for the purpose of making surgical dressing for the U. S. Army.

Mrs. Blackburn says they need chairs and tables, prefer tables 4 feet wide and all who can, are asked to donate the use of chairs and tables, which will be returned when the work is finished.

The work will start just as soon as supplies are received from Red Cross Headquarters.

Mrs. Blackburn and Mrs. Fetterly attended a two-day school of instruction in this work in Abilene last week.

Perry Gilliland of Palacios, is at home for a few days visit. Perry holds a civil service position as plumber.

City Of Baird Equips School Lunch Room

The City of Baird donated \$400 to the local P. T. A. to equip the lunch room which will be open for operation when school begins.

The money donated comes from the profit on the Municipal Light Plant, and not one cent of the tax payers money was used, according to the City Council.

The school officials and all interested patrons are very grateful to the City of Baird for this fine gesture, and want the City Officials to know that their action is sincerely appreciated.

Members of the P. T. A., who have been serving on special committees to get the lunch room ready are also to be complimented on their fine work, said Mr. South, local school superintendent.

WHEAT CROP INSURANCE DEADLINE AUGUST 31

If you want to insure your 1943 wheat crop, you'd better hurry to your county AAA office and get your name on the dotted line.

For Monday, August 31, is the last day on which applications for Federal all-risk wheat crop insurance can be obtained under the new plan in which the producer insures his crops for the next three years. E. R. Duke, Texas wheat crop insurance supervisor, warned this week.

To date 3,387 applications for insurance have been received in the state office, but several thousand more are expected.

Meanwhile, 1942 insured producers who had crop losses have been receiving indemnity payments. Duke reports 5,493 claims totaling 941,249 bushels have been paid to Texas producers so far.

News From AAA Office

By Russell W. Sanders, Secretary Callahan County A. C. A.

Wheat crop insurance indemnity payments are beginning to flow into Callahan County, helping to offset the loss of the grain crop this year.

Already, 75 claims totaling 15313 bushels of wheat have been approved here and forwarded to the Federal Crop Insurance Corporation for payment.

The heavy damage to this year's wheat crop by green bugs left many of the county's farmers in a serious position, but those who had insured their wheat production with the FCIC are now deriving the benefits of their forethought in taking out insurance.

Federal all-risk wheat crop insurance this year is being sold only on a three-year contract rather than on a yearly basis as in the past.

The three-year contract makes it possible for the wheat grower to know what his minimum income from wheat will be for the next three years, since the Federal Crop Insurance Corporation guarantees that it will not lower the yield or increase the premium rate during the life of the contract.

At the same time, the grower has the privilege of cancelling the contract and signing up for a new three-year period in any year when the yield and rate established for his farm would be more advantageous to him.

In other words, farmers in this area who suffered crop losses this year, 1943, will not have their rates raised or their yields lowered during the life of the contract, but producers whose yields and rates would be more favorable will be able to take advantage of them. The grower who takes out insurance this year will have coverage during the three year period at the rates and yields in effect this year, unless he wishes to cancel the contract and sign for another three-year period.

Deadline is August 31 for wheat insurance application.

HOUSING FOR WAAC TROOPS AUTHORIZED

Construction of housing and other facilities for five companies of the Women's Army Auxiliary Corps in the Southwest has been authorized by the War Department, according to Colonel Stanley L. Scott, Dallas, Southwestern Division Engineer.

The building will consist of troop type barracks, mess halls and administration buildings. They will be located at Fort Sam Houston and Fort Bliss, Texas, Fort Sill, Oklahoma, and Fort Huachuca, Arizona. Construction will be under the supervision of the U. S. District Engineers at San Antonio and Denison, Texas, and Albuquerque, New Mexico.

Two other important construction authorizations in the Southwest announced today by Colonel Scott are for military installations in Texas and Oklahoma to cost approximately \$2,000,000 each. Construction will be under the supervision of the District Engineers at Galveston, Texas, and Tulsa, Oklahoma.

Contracts for construction on these projects will be awarded within the next few weeks. Builders interested in bidding on the work should write the Division Engineer, Southwestern Division, Cotton Exchange Building, Dallas, Texas, for further information.

A PLEA FOR SAFETY FROM WEEDS AND GRASS FIRES

A plea for fire safety, issued jointly by Fire Chief Edd Freeman and Marvin Hall, State Fire Insurance Commissioner, points to the extreme hazards created by dry grass and weeds.

Chief Freeman stated that vacant lots covered with weeds and grass at this time are a serious menace to all surrounding buildings.

"Because fire can be started easily in such places," he said, "we must exercise extreme caution to prevent fires due to carelessness. Grass fires spread rapidly, and can easily result in excessive damage to adjacent property."

"If we make certain that all matches, cigars and cigarettes are 'blocked out' before they are discarded, we can prevent many fires. Make certain that children do not have an opportunity to play with matches. Avoid starting any kind of fire where there may be a chance of its spreading to grass-covered lots.

"However, if a grass fire is discovered, lose no time in turning in an alarm. Don't give it a chance to spread before calling the fire department."

Commissioner Hall reported that grass fires have shown an alarming increase over the state during the past few days.

Fire hazards created by dry grass are more serious now than in several years, Hall declared. This is true in both city and rural areas, and it presents a problem for every fire department in Texas.

We can ill afford the cost of a 'scorched earth policy' at a time when all our resources are needed by our armed forces and the forces of the United Nations. It behooves all of us to prevent the outbreak of every fire.

WHEAT TO MEAT

College Station, Aug. 17.—Texas farmers will pay from 85 cents to 92 cents for feed wheat which is being sold under the new "wheat to meat" program of the U. S. Department of Agriculture.

Recent Congressional action permits the sale of 125,000,000 bushels of Commodity Credit Corporation wheat at not less than 85 percent of the parity price of corn.

Sale of feed wheat on this basis will help utilize part of the tremendous wheat surplus, thus relieving storage space congestion, and, at the same time, will provide America with more badly-needed meat supplies, B. F. Vance, chair-

FEWER TRAFFIC DEATHS

AUSTIN, July 19.—There were fewer traffic deaths in Texas in the first six months of 1942 than during any similar period since accurate records were started in 1938, State Police Director Homer Garrison announced today.

For the half year, Texas recorded a flat 20 per cent reduction in traffic fatalities, from 863 in the 1941 period to 689 this year. Nationally the reduction was 11 per cent for the first five months. The six-month average has not yet been announced.

As the Texas Highway Traffic Advisory Committee's conservation program began to make noteworthy progress in June, deaths fell to 194 as compared to 151 for June of 1941. Leading the safety race were cities and small towns, with reductions of 30 and 29 per cent, respectively. Highway deaths were down 17 per cent; those on county roads, 14 per cent.

Highway Patrol Chief Hill Foreman reported that arrests and warnings by the Highway Patrol increased 22.5 per cent over last June, from 18,327 to 22,400.

CHAPLAINS NEEDED FOR U. S. NAVY SERVICE

Four hundred chaplains from all faiths are needed now by the United States Navy, it was announced today by Eighth Naval District Public Relations Office in Dallas.

Practicing clergymen less than 44 years old who are college graduates with at least three years additional ecclesiastical training in accredited theological institutions are eligible for commissioning in the Chaplain Corps of the United States Naval Reserve. They must be fully ordained, be citizens of the United States and present the endorsement by authorities in their respective denomination. Candidates are required to be competent mentally and spiritually for leadership among men. They also must be in sound physical condition.

Ranks of Lieutenant (junior grade) or full Lieutenant will be given practicing clergymen who qualify.

Applicants are particularly needed for the following denominations: Catholic, Baptist, Methodist, Episcopalian, Lutheran, Reformed, Congregational, Christian, Disciples of Christ, United Brethren, Unitarian and Presbyterian.

Applications for ministers and priests living in North Texas should be made to the Office of Naval Officer Procurement, 1530 Allen Building, Dallas.

BRINING VEGETABLES

Brining vegetables is preferable to allowing them to spoil when no other means of preservation is available.

If necessary, string beans, cauliflower, corn, green peppers, green tomatoes, cabbage, cucumbers and turnips may be preserved by brining. Beans, corn and cauliflower may be cooked after soaking out the stalt and prepared for serving as fresh vegetables. Green peppers may be used for stuffing and green tomatoes in pies.

Vegetables which may be preserved in a 10 percent brine are string beans, cucumbers, green tomatoes, beets, turnips and corn on the cob. The amount of brine necessary to cover vegetables is equal to about one-half the volume of the material to be fermented. To make the 10 percent brine use 3 and one-fourths cups of dairy salt to 1 and one-half gallons of soft water. Pour over the vegetables and the next day add one pound of salt (which is two and three-eighths cups) for every ten pounds of vegetables used.

At the end of the first week and the end of each succeeding five weeks, add one-quarter pound of salt (approximately five eighths of a cup) for each 10 pounds of vegetables. Place the salt on the cover to prevent sinking and skim off the scum.

Before using, brined vegetables should be placed in a suitable vessel, covered with fresh water and slowly heated to lukewarm temperature. Hold at that point stirring frequently. Then pour off the water and repeat the process if necessary until the vegetables have only a slightly salty taste.

METHOD TO CONTROL MOSS IN STOCK TANKS

Many ranchmen and livestock farmers are having trouble controlling moss in stock tanks and also many tanks have little or no

fish production.

Recommendations received by J. C. Shockley, County Agent Callahan County, from R. E. Callender, Game Management Specialist of the Texas Extension Service to use 100 pounds 6-8-4 fertilizer plus 10 pounds of nitrate of soda for each surface acre of water, or use 300 pounds of cottonseed meal plus 50 pounds of superphosphate per surface acre of water. Either of the fertilizer materials should be applied broadcast over the tank in sufficient amounts to color the water a deep green. This green color keeps the sunlight out and kills the moss also aids in fish production because of aiding in microscopic plant growth which greatly helps fish production. The fertilizer should be applied every 30 days enough to keep the water colored green.

Any moss or other vegetation growing on the surface of tanks will not be killed by this material and will have to be cut to below the surface of the water.

RENT REGULATIONS ARE CLARIFIED

Factors constituting a "major capital improvement," one ground on which landlords may petition for increases in rents, are clarified further in a statement issued today by OPA rent control officials.

Maximum rent regulations when issued for a defense-rental area cut rents back to what they were on the maximum rent date with certain exceptions, one of which is when a landlord has made a substantial change in the housing accommodations by a "major capital improvement" since the maximum rent date. When the improvement has been made before the regulation goes into effect in an area, the maximum rent is the first rent after the improvement, subject to review by the area rent director.

When the improvement is made

after the regulation goes into effect, the landlord is not entitled to an automatic increase in the rent; however, he may petition the area rent director for an upward adjustment of the maximum rent.

The statement issued today places a "major capital improvement" in one of three categories—1. a structural addition; 2. a structural betterment; 3. a complete rehabilitation, and defines and illustrates all three.

Bomb 'em with JUNK

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee... If you live on a farm, and have found no means of disposing of your Junk, get in touch with the County War Board or your farm implement dealer.

Chinese, Finnish, Tagalog, Dutch, Spanish—programs in more than a dozen tongues go out from the towers of General Electric stations WGEA and WGOE, Schenectady, and KGEL, San Francisco.

1. They provide authentic war information for news-starved peoples around the globe, entertainment for U.S. forces abroad. These G-E short-wave stations...

2. ... have special antennas "pointed" at Australia, South America, China, Europe—making reception there almost as strong as from local stations.

3. They provided the only U.S. programs that reached Bataan. People in conquered lands risk their lives to listen. Smuggled letters say they bring hope of release.

4. Some announcers are regular G-E production employees, working on war work. They tell people in their native lands that America is determined on victory.

General Electric believes that its first duty as a good citizen is to be a good soldier.

Clyde Public Schools Open Monday

The Clyde Public Schools will open its doors for the 1942-43 school term on Monday morning at 8:30 o'clock, and so ends the dream of many children that maybe somehow they would forget to have school this year. How cold and barren the above announcement must look in print to the average child, yet everyone knows that within a few short days they will have become happily adjusted again and all will be well. Following the opening assembly at 10:15 o'clock classes will be assembled for assignments. After this the children will be dismissed for the day, except for those who may have special schedule problems to be worked out. Buses will make the return trips at 12:15 Monday. The general public will be welcomed to the opening program at 10:15 Monday, which will include an address by Rev. E. A. Irvine, pastor of the local Methodist church. New faculty members will be introduced.

The same time schedule will be followed as was employed since April of last school term. The building will be opened at 8:30 and classes convened at 9:00 a. m. Lunch period will be from 12:00 to 1:00 and dismissal at 4:00, except for the elementary children. Buses will leave in the mornings at 7:00 o'clock and will make essentially the same routes as last year. First return trips will be made at 3:20 in the afternoon. The school lunchroom will be in operation again this year, and well balanced and nutritious meals will be served at 10 cents per meal. It is hoped that this service will be opened on Tuesday, Sept. 1st. Mr. Jodie E. Baker of Bayou has accepted the principalship of the high school and will succeed Mr. Bailey Johnson, who has accepted the principalship of the Baird schools. Mrs. Baker will teach first grade. Both Mr. and Mrs.

Baker have been employed for the past three years in the Bayou school and come to us with fine recommendations. Mr. Baker will teach high school mathematics and coach athletics. The Bakers are graduates of Howard Payne College.

Other new teachers added to the faculty include Mrs. Gene Cantrell, who will teach music and history in the high school; Mrs. Iva Lou Ashley, teacher of Homemaking and teacher in the Eastland schools during the past year; Miss La Verne Edwards, teacher of Fourth Grade, formerly at Eula school; and Miss Winnie Dean Modgling, who will direct the band and teach other classes in the grades. Miss Modgling is a graduate of Hardin-Simmons University, where she played in the Cowgirl band.

A teacher for high school science has not yet been secured. Rev. E. A. Irvine, formerly a teacher in the Perryton schools, will teach science courses until a permanent selection has been made.

Notice has been received from the State Department of Education that all Homemaking courses in Clyde high school have been accepted for affiliation, three and one-half units in all. This department is only three years old.

FAMILY REUNION AND BIRTHDAY CELEBRATED

Nine of the eleven children of Mr. and Mrs. J. F. Osborn have been here for a family reunion. The occasion that brought the children home was the 80th birthday of Mr. Osborn, Sunday, August 23. Preaching service was held Sunday morning at the family home just west of Clyde with one of the sons doing the preaching.

Those present were Rev. and Mrs. William Osborn, Chicago; Mr. and Mrs. George Herndon, San Angelo; Mr. and Mrs. Perry Elliott, San Angelo; Mr. and Mrs. A. D. Osborn, Roswell, New Mexico; Mrs. B. F. Paige and daughters, Lubbock; J. J. Osborn, Clyde;

Mrs. Florence Yonkers and baby, Hernado, Miss.; Mr. and Mrs. John Osborn and son, Silver City, New Mexico; Rev. and Mrs. Sam Osborn and baby, Hernado, Miss. Two daughters Mrs. Mary Johnson, San Francisco, and Mrs. Anna Denison, Salt Lake City, were unable to be present.

A number of friends called at the home during the day. Mr. and Mrs. Osborn have resided at Clyde for 35 years.

WEDDING OF JANICE JOHNSON, DR. L. F. JACKSON JR

Miss Janice Johnson, daughter of Mrs. Hiram Van Zandt Johnson of Terrell, became the bride of Dr. Leland Forney Jackson Jr. at the First Baptist Church of Terrell Saturday evening, August 15th. NOTICE OF INTENTION TO ISSUE REFUNDING BONDS

The State of Texas, County of Callahan.

To The Property Taxpaying Voters of Callahan County, Texas, And All Other Interested Persons:

NOTICE IS HEREBY GIVEN that it is the intention of the Commissioners Court of Callahan County, Texas, on the 29th day of September, 1942, to pass all necessary orders to provide for the issuance of Callahan County Road and Bridge Refunding Bonds, in the maximum amount of \$11,595.00 bearing interest at the rate of 5 per cent per annum, with maximum maturity date April 10, 1957, and to issue such Refunding Bonds for the purpose of refunding an equal amount of Callahan County Warrants, which are payable from the Road and Bridge Funds, being \$5,145.00 Callahan County Road Machinery 5 per cent Warrants, Series I of 1942, dated February 21, 1942, and \$6,450.00 Callahan County Road Machinery 5 per cent Warrants, Series II of 1942, dated April 28, 1942.

WITNESS MY OFFICIAL SIGNATURE this 12th day of August, 1942.

B. H. FREELAND, County Judge, Callahan County, Texas.

Farmer's Advised To Hold Cotton For 22 Cents

AUSTIN, August 12.—Don't sell your cotton below 22 cents for 15-16 middling Fob ports or mill centers. Commissioner of Agriculture J. E. McDonald today urged Texas farmers, declaring that the recent crop forecast had exerted a bearish influence on the market.

At the same time, McDonald urged the farmers to take advantage of the government cotton loan offer and put every bale into government loan until the market reaches the true parity price of 22 cents.

"The farmer must have this price for the 1942 crop if he is to have purchasing power with which to support other vital industries," McDonald said. "It will be very unfortunate if our cotton farmers allow themselves to become confused and market their cotton for less than its intrinsic value."

Congress provided that ceiling prices on cotton goods should not be fixed below a price justifying 21.47 for 15-16 middling cotton, interior points, McDonald said. They also provided that no government owned or loan cotton should be sold below full parity, set by the U. S. Department at 18.85. The Congress also provided a government loan equaling 85 percent of parity.

"There is no justification for the farmer losing confidence and selling below these figures," McDonald asserted. "Prices of things the farmer must buy, the wages he pays for labor and the increased taxes justify 22-cent cotton."

RADIO INSTRUCTORS ARE NEEDED AT KELLEY FIELD

Civilian radio instructors are urgently needed for duty in connection with the war program at Kelly Field, San Antonio, Texas, the Tenth U. S. Civil Service district announced this week.

Two years of experience as a commercial radio operator are needed to qualify for appointment at \$2,600 per year. For appointment at \$2,000 a year, possession of a First Class Radio Operator's license, a First or Second Class Radiotelegraph Operator's license, a Restricted Radio Telegraph Operator's license, or a Class A Amateur Radio Operator's license will qualify, or six months of appropriate experience as a radio operator.

Junior stenographers who can take dictation at 96 words per minute are also urgently needed in Washington, D. C. \$120 per month is the entrance salary for junior stenographers, and 18 years the minimum age limit.

Positions in Pearl Harbor and the Panama Canal Zone for various craftsmen are also open, with applicants urgently needed, particularly in aircraft and marine lines.

Information on all positions except the radio operator can be obtained from any first or second class post office in Louisiana or Texas, or from the manager, 10th U. S. Civil Service district, Customhouse, New Orleans. Applicants for the radio operator's position should write directly to the New Orleans district office.

CALLAHAN COUNTY BOYS AND GIRLS EMPLOYED AT FORT WORTH PLANT

Five Callahan County youth, John A. Christian, Charlie Tate and Douglas White of Clyde; Juanita Brown of star route 2, Baird, and Elizabeth Parker of Baird, who have been receiving training at the National Youth Administration War Work Center in Ranger, have secured employment with Consolidated Aircraft Corporation in Fort Worth this week. Fifteen other girls and nine other boys also went to work with them.

The Ranger War Work Center is one of fourteen Master Projects in Texas on which boys and girls are given training which will enable them to secure employment in some field of war industry.

At the Ranger NYA Center, training is offered to both boys and girls in the fields of Aircraft Sheet Metal and Riveting, General Sheet Metal, Radio, Machine Shop and Welding. The boys and girls who went to work this week were employed in Aircraft Sheet Metal and Riveting and in the Machine Shop at Consolidated.

Training is open to girls between the ages of 19 and 24 1/2 and to boys between the ages of 17 1/2 and 24 1/2. Each youth assigned to the Ranger War Work Center receives food, lodging, medical attention, work clothing and laundry. In addition to this they are paid \$10.80 per month for incidental expenses. According to local officials of NYA there are a few vacancies in the center at Ranger and in some of the other centers at present and any boy or girl interested in taking advantage of the training offered should write to the National Youth Administration, Box 168, Ranger, Texas.

NOTICE TO THE PUBLIC

All clothing orders to be issued in August, are now ready and can be had by calling at warehouse in Baird, Texas, between 8 a. m. and 2 p. m. any day except Saturday.
