Lieut. Crawford **Hughes Comes Home**

Lieut .Crawford Hughes, one of the survivors of a plane crash of New Brittain Island on May 24, 1942, and who was rescued some four weeks ago, came home Saturday evening.

Lieut Hughes came to Abilene by plane where he was met by his parents, Mr. and Mrs. Virgil Hughes of Baird, his sister Clara Neile Hughes of Ailene, a nubmer of relatives and friends. The family waited several hours in Abilene for Lieut. Hughes youngest brother, Pvt. Linton Hughes of La. Junta, Colo, who had returned to his post on Tuesday, but through Red Cross was permitted to return home for a few days visit with his brother.

Lieut. Hughes old friends from Belle Plain entertained him at a picnic Sunday night at th Belle Plain school house. Monday he talked to the students of Baird High School, and many friends were there to hear of his thrilling experiences and today Lieut. Hughes with his parents and sister are guests of McMurray College where he was a former student. The entire citizenship of Baird and Callahan County welcome Lieut. Hughes home.

Note-We hope to get to talk with Lieut Hughes and then give our readers some of his experiences.

000.00 has been reached, in the Second War Loan Drive. The drive extended through Friday, April 30th, and Judge B. H. Freeland, Chairman of the County's War Finance Committee urges the people of Calalhan County to tontinue to buy bonds in order that the County may exceed \$200,000.00 which is the goal set by the County Committee.

Let every citizen continue to work in the interest of the drive through Friday, April 30th in order that we may attain the record made by all our neighboring counties.

The War Bond Rally was a splendid success. Some of the larger buyers were:

\$24,000.00 Baird Refining Co. Octane Oil Refining Co. 15,000.00 Lone Star Gas Co. The Amicable Life Insurance Company 20,000.00

(Ashby White local Rep.) In the auction there was considerable interest. Lloyd Hughes donated a gallon can of lubricating oil which brought \$1050.00 in bonds. Ace Hickman contributed a gallon of home-made sorghum, which brought \$1,000.00 in bonds. A shoe stamp No. 17 brought \$250.00 in bonds. A pair of shoes "swiped" by Sheriff Brame from Jones Dry Goods brought \$250.00 in bonds. There were other articles donated and perhaps other sales, which we did not get.

DOLF may not live long enough to pay for his mass murders by actually sitting in the "hot seat." But electricity is already hastening the day of his doom!

Electricity drives delicate machines that turn out time fuses-and thundering presses that forge tank armor. Electricity is a basic part of every bayonet, bomber and battleship - of all America's roaring war production.

Even when war began, America had more electric power than all the Axis countries combined. It's no military secret that today our power supply is far greater. And it's no secret, either, that the electric companies under experienced business management supply about seven-eighths of it!

Free Americans set world production records primarily because they are freebecause they have grown up under a business system that encourages initiative and invention - instead of reducing them to the ranks of Axis slaves.

Free Americans are freely giving billions of dollars to help put Hitler in the chair. But once he's there, a cent's worth of electricity will finish the job! Which goes to show what BIG things penny-priced electricity can

for Victory, it's easy for me to understand why it's so important for the folks back home to sacrifice and do without. But you, Mom, are doing a swell job even though you're far away from this mess . . . and that makes me specially proud. Thanks for saving fats and greases. . . . I hear them go off with an almighty bang every day. Thanks for saving food. . . . I'm eating some of it now. Thanks for buying bonds. . . . God knows we need the tanks and guns and planes that are bought with your and Dad's money. Honest, Mom, I think they should give medals to women like you who are fighting the good fight for freedom back on the home front!"

Under Price Control

brought under price control for the first time on Monday, April 26, the Callahan County War Price and Rationing Board was advised by the office of Price Administration.

The OPA described this move os sharply reducing abnormal prices being charged by some sellers.

Covered by the new regulation, known as Maximum Price Regulation No. 341, (Used Commercial Motor Vehicles', are complete trucks, tractors, full-trailers, semi-trailers, ambulances, hearses, omnibuses, carryal suburbans, dlivery sedans, utility sedans, coupes fitted with pickup boxes cab pickups, as well as chassis and bodied for all of-the foregoing.

The regulation applies to all sales whetheh made by a dealer or a private owner or at an auction, thus pre venting "schemes" such as the sale of trucks by an "individual" in reality "fronting" for a speculator.

The sharpest price reductions will be felt in late model vehicles, where OPA studies showed that prices in some cases advanced the value of the machine when new.

The survey revealed that more thon 70 percent of all reported sales of 1941 madels of used commercial vehicles during August and September, 1942, exceeded the delivered prices of the vehicles whe nnew. On 1940 models, sales have been consistently at more than 90 percent of original cost, and recently 1939 ond 1938 mohave been selling at similar inflated levels.

By establishing ceilings at a percentage of the value of the vehicle when new, the new regulation is ex pected to halt the activities of speculators which have resulted in some in stances in prices that 200 percent of more over the normal value of the used truck.

The actio nis also expected to result in the release of many used vehicles which have been withheld from sale by speculators in anticipation of a shortage of transportation vehicles causing furher price advances.

Production of new trucks has been curtailed and wartime transportation needs have resulted in heavy demand for second-hand vehicles. This demand can not be satisfied unless older type models, many of which are not now in operation, are brought back into the market. The new regulation recognizes this by an incentive provided

for the reconditioning of used model, Results of the survey, conducted by OPA Price Ofifcials is more than a score of large cities, are tabulated in a statement of considerations which accompanied the regulation. The tables show the "actual retail price," the "retail price calculoted upon a normal depreciation basis" and the "actual price" as a percentage of normal price for typical models, dur ing certain periods from March, 1941 to September, 1942, and show conciusively that all models now are being sold at prices which are out of line with normal values.

Although values of used vehicles decline with advancing age, depreciation has not been a factor in present prices and in fact prices have risen in dollars and cents.

The OPA action will have little effect on the average prices currently being charged for trucks more than six years old since the "incentive spread" for reconditioning the older models wil lprobably encourage most dealers to rehabilitate the trucks.

Following are the percentage al-

The major exception to this general rul is that any dealer who reconditions used commercial motor vehicle and guarantees it for satisfactory operation for at least 1,000 miles or 30 days may add to the maximum price, calctulated by the above general rule, 5 percent of such price and also the maximum prices permitted by OPA for the parts, labor, and material needed and used in the reconditioning process. The limit placed on the reconditioned value istermed an "absolue ceiling", as contracted with the gerenal ceiling on the "as is" basis. In no event may the price of a recondidioned and guaranteed vehicle exceed the absolute ceiling calculated by the percentages in the following table: a
