## Flea Market, Near Putnam, Draws Nationwide Attention Through AP

PUTNAM — R. W. Reynolds, superintendent of the Putnam Schools, who along with his family, moonlight on weekends at their flea market in the old oil tank east of Putnam, does not know who took the picture sent out over the Associated Press wires, but he is sure of one thing: it just about tripled the traffic passing through the market the past two weekends.

Many of those coming in mention of having seen the picture in his local paper. And, from reports Reynolds has had, the papers over the country have given it pretty good coverage. One man in Boston called by telephone wanting to know more about the operation.

Reynolds said that most of the people entering the tank for the first time are awed by its hugeness. Most of the men will stand on the ramp inside the door with their hands on their hips as they survey the vastness of the interior before proceeding to explore further.

A lot of people have suggestions on the different uses the tanks (there are three of them) could be put to. Some of those suggested are: theater, skating rink, motel, apartments, swimming pool, hay barn, warehouse, garage, and auction barn to name a few.

If you have not visited the tanks, it is worth a trip over to see it from the inside.

# STATE CAPITAL Highlights AND Sidelights

by Bill Boykin  
TEXAS PRESS ASSOCIATION

AUSTIN — Insurance again made headline news on three fronts here.

President Nixon's Phase 2 inflation controls, the State Insurance Board said, will mean lower premium rates for hundreds of thousands of Texas homeowners.

Lawmakers threatened to "put the state in the insurance business" unless rates are reduced for a new catastrophe pool designed to protect hurricane and other disaster-prone areas.

An American Insurance Association executive offered to "guarantee" that no-fault auto insurance in Texas would bring a minimum cut of 25 per cent in bodily injury and property damage coverage rates.

New homeowners' insurance rates are expected to be issued May 1, effective June 1. A federal price commission order of a 37.5 per cent cut in the Board's "trend factor" (aimed at keeping rates up with normal inflation) may mean a reduction of 2.1 per cent in the Central Inland Territory Usual rating formulas would have meant an increase of 5.9 per cent there.

While most fire and extended coverage rates will go up, the rise will be lower than expected due to new federal limits.

The State Insurance Board purpose to cut catastrophe pool rates for non-beach property about a third. Insurance companies strongly resisted. Legislators at a rate hearing reported that the state may have to get into the insurance business.

Under the pool, authorized last year by the legislature, insurance companies are required join in providing coverage for areas of the coast which cannot buy policies in the regular market.

The State Board of Insurance is studying effect of various no-fault insurance plans which provide compensation from a driver's own policy regardless of whether he was at fault in an accident.

**MORE TIME SOUGHT** — Texas is seeking more time to avoid loss of \$24 million highway funds.

Gov. Preston Smith has asked U. S. Secretary of Transportation John Volpe to extend the deadline for adopting prohibitions against additional erection of billboards adjacent to interstate and primary highways. A transportation department hearing officer proposed a May 31 deadline for the state act. Smith asked until September 1, start of the new fiscal year.

The Governor noted a special session of the legislature must be called to enact appropriations for the fiscal year beginning September 1.

The session may be timed before

May 31, Smith said, but a later date would be "preferable."

Lt. Gov. Ben Barnes said the potential penalty of \$24 million for lack of a bill-board act demands that Smith call an immediate special session of the legislature.

**BRINE DISCHARGES HIT** — Parks and Wildlife Department Executive Director James Cross told a Senate study committee the Railroad Commission overruled 100 P.W.D. objections to brine discharges into public waters last year.

The Railroad Commission has authority to permit the discharges from oil field operations, although P.W.D. has assigned responsibilities to protect marine life.

A Commission staff member could remember no case where an oil operator's application for a discharge permit had been turned down. He said the Commission attempts to "educate" operators to avoid oil spills or threatens to revoke production allowances where conditions appear likely to cause spillage.

Cross suggested reviving of a bill to authorize the state to demand compensation for fish kills due to pollution.

**AG OPINIONS** — Atty. Gen. Crawford Martin held the state cannot pay the cost of primary elections with legislative authorization and appropriation, but he went back to a Dallas federal court for guidance.

In other recent opinions, Martin concluded:

The Legislative Property Tax Committee can employ attorneys and purchase or rent a law library for its codification re-

### Belle Plain Cemetery Assn. Holds Meeting

BAIRD — The Belle Plain Cemetery Association met in its annual session Friday, Feb. 11 at the courthouse.

Due to the inclement weather only a few members were present, however, a quorum was present and the following business was transacted:

Mr. Warren Price was elected to the Board of Directors to fill Howard Farmers place, as his term expired; Howard Farmer, Frank Austin and R. B. Taylor were named as Ex-Officio members of the Board. The minutes were read and approved.

The Treasurer gave the following report: \$10,900 had been invested, \$403.41 interested has been received on investments, \$339.73 was spent on expenditures, leaving a balance of \$429.00.

No other business, and the meeting was adjourned to meet in February 1973.

Mrs. Heyser stated the Association still accepts and appreciates donations to the Cemetery.

search. The same committee, headed by Sen. James S. Bates of Edinburg, must purchase its supplies, materials and equipment through the State Board of Control as all other departments of state government do.

Texas State Technical Institute has no authority to grant baccalaureate or bachelor degrees in technical education or technology at its James Connally campus in Waco.

Texas Water Quality Board and Water Development Board must approve state loans to local governments for construction of waste water treatment facilities.

A private non-profit water supply corporation cannot receive financial assistance from the state.

**OIL ALLOWABLE SOARS** — Texas Railroad Commission lifted the oil production allowable to 36 per cent of potential — highest in 13 months and third highest since "wide open" days right after World War II.

At the same time, Chairman Byron Tunnel warned that crude oil stocks - at 87.9 million barrels - are the lowest since 1966 and 20.2 million barrels less than a year ago.

Tunnel said pumping at the rate of a year ago would yield 100,000 barrels a day less oil.

Highest previous allowables since post-World War II days were 87.3 per cent in November

1970 and 87 per cent in October 1970. Maximum production for March is 4,074,850 barrels a day.

**FEED LOT RULE REWRITE ORDERED** — Texas Water Quality Board staff members have been ordered to rewrite a proposed regulation which would permit WQB Executive Director Hugh Yantis to issue or deny feed lot permits.

Both ecologists and cattle and poultry raisers opposed allowing Yantis such authority without requirement of notice or public hearing. Cattle and poultry industry spokesmen expressed doubt they could comply and opposed defining agricultural wastes as "ecological contaminants."

**COURTS SPEAK** — Texas Supreme Court will consider March 22 whether Southwestern Bell Telephone Company was justified in building a parking lot at its Spring Valley office after the city said it couldn't.

The High Court heard arguments that Rusk Mayor E. H. Whitehead should be allowed to run for the legislature (from District 15, Leon, Houston, Limestone and Cherokee Counties). A decision is expected before February 28, when candidates draw for ballot places.

Supreme Court judges will hear March 15 an appeal over constitutionality of requiring a minor to conform to an Odessa city charter regulation on per-

sonal injury damages. Conviction of a Corpus Christi film projectionist for exhibiting obscene movies was reversed by the Court of Criminal Appeals.

**SHORT SNORTS**  
State Securities Commissioner Truman G. Halladay will retire effective April 1 and will be succeeded by his deputy, Roy W. Mauer, 37.  
Parks and Wildlife Commis-

sion is expected to review the Mustang Island purchase controversy at a Friday, Feb. 25, meeting.

Sen. John Tower designated as his re-election campaign manager Mrs. Nola Smith of Austin, first Texas woman to run a statewide campaign.

Republican National Committeeman Peter O'Donnell Jr. of Dallas resigned his job; a suc-

cessor will be named March 13. Guidelines for implementing a new quarter system for Texas schools were reviewed here last week.

A record turnover in both the House and Senate is seen. April 2-8 is Environmental Education Week.
