Without offence to friends or foes we sketch Cross Plains exactly as it goes.

VOL. XXII 6 PAGES THIS WEEK CROSS PLAINS, TEXAS, "When The One Great Scorer Comes To Write Against Your Name He Writes Not If You Won Or Lost But How You Played The Game" FRIDAY, JUNE 30, 1933 5c PER COPY No. 26

HOME TOWN GOSSIP

The fight is on. The bitterest political battle of the century will be waged in Texas between now and August 26, when voters go to the polls to determine whether this state is to be 'theoretically dry' or wet.

Both forces met in Austin the past week, appointed delegates and formulated campaign plans. Texas' fiercest political orators have pledged their services to the two respective causes and are already on the 'stump'. A couple of the best may be brought here for the picnic in order that both sides of the important issue may be intelligently discussed.

Cecil Lotief was in Austin during the two conventions. But as yet we have been unable to learn with which side he has allied, speak up Judge; on which side of the fence are you standing?

We hit our guess about Franz Freeman last week, in stating that he had been notified about the court-house and that in all probability the Dressy musician was about to embark upon the sea of matrimony.

Franz took the fatal plunge with Miss Alpha Wright, of Burkett, Wednesday morning. Congratulations, to the newly weds and may all of their troubles be little fiddle players.

It is always bad policy to start an argument with a woman, but this week we must begin to differ with Miss Eliza Gilliland, editor of the Baird Star, concerning a statement she made about rattlesnakes.

In an article announcing the fact that a local citizen had been bitten by one of the reptiles last week, the Star stated that the snake "imbedded all four fangs".

Now we have never been on intimate terms with the poisonous creatures and had no occasion to examine their buccal cavities, but we frankly contend that a rattlesnake has but two fangs. And would like to know if the citizen in question was attacked by two of the serpents or just an unusual specimen.

Miss Gilliland has resided in this county—a rattlesnake stronghold—for a number of years and will no doubt be able to offer sufficient explanation. We shall pass the information along, as soon as it is received.

Why is it everyone insists on calling this insignificant scribbler 'Mr' Scott, simply because we took that fatal leap last week? We'd much rather be just plain Jack.

'Snip' Caton, Dave Lee, Seaborn Collins and 'Cheesy' Carmichael were enticed into hard labor this week by the promise of an unusually good wage. The boys were to buck pipeline.

Well, Monday morning they went out on the job believing that prosperity had returned. But after more than a hour of juggling tongs, 'Cheesy' was beginning to wonder if the work was n't a bit hard and how much nicer it would be in his cafe down town. 'Snip', who is a little man for such work anyway, started pinning for the cool Variety Store fan but did his best to 'stick with it', despite 'Cheesy's' persistent proposal that they quit.

The second day out, 'Snip' lost eight pounds and the disillusioned 'Cheesy' was none the heavier. Hence the fellows are back in town, leaving the pipeline business to Dave and Seaborn.

In justice to the fellows, who quit, it should be said however, that the work was so tough one man completely passed out.

Word reaches this department that Herbert Maddux is about to join the ranks of weldlock. Our information was unverified at 'press time' however.

And would you believe it, Ed Priest has confided in friends that he plans to take the nuptial leap July fourth. However, we are placing little confidence in his statement, and still label him the 'Lone Wolf', with no place to howl.

FARMERS MEET THURSDAY

T. C. KELLY MADE FOREMAN OF GAS WORK

CREW AT WORK NOW MOVING PIPE HERE FROM STEPHENVILLE

Wage Scale For Laborers Set At \$1.80 Day; Third Cash, Two-Third Script

"T. C. Kelly has been named construction foreman for Cross Plains municipal gas system and will superintend work when it actually begins", said a member of the city council to the Review Thursday morning. Pipe has been contracted for and part moved here.

Aldermen were hesitant to state as to when work would actually get underway but declared emphatically that the gas system was going to be built.

The labor scale will call for \$1.80 a day. One-third of the amount is to be paid in cash and the remainder in city script, good for water, sewer or gas accommodations. T. C. Kelly will have charge of employing men and organizing the work.

"Pipe was hauled in this week from Stephenville. Enough has been contracted for, if it meets with the city's specifications", said Charles F. Hemphill, secretary of the city council yesterday.

A crew of local men: Olan Mitchell, T. C. Kelly, B. B. Huntington, Nathan Oliver; are in Stephenville this week disconnecting the pipe and preparing it for transportation to Cross Plains. The pipe was purchased at three and one-half cents per foot.

STORES HERE TO BE CLOSED TUESDAY TO CELEBRATE JULY 4

Practically all Cross Plains stores will be closed Tuesday—July fourth—in celebration of Independence Day. While announcements from all local firms were not available yesterday the Review was assured by a number of businessmen that practically everything would be closed, with the exception of drug stores, cafes and filling stations.

Cross Plains Lions Club will not meet Tuesday, according to a statement from Jesse McAdams, President, last night. The club will abandon next week's meeting entirely in commemoration of July fourth.

Most stores are announcing through the advertising columns of the Review this week that they will be closed Tuesday.

WATER SERVICE EXTENDED INTO CITY CEMETERY HERE

Water service has been placed in the city cemetery by members of the city council for the convenience of city council for the convenience of 'lot owners' in irrigating shrubs and flowers.

A local official asked the Review to urge people not to use the water service for things other than watering vegetation in the cemetery and drinking. It is being supplied without cost.

SINCLAIR STATION WILL GIVE FREE OIL SATURDAY

Ray Jones, of this place, has taken over the management of the Sinclair Service Station, on Main Street, formerly operated by Lorin Barr. Mr. Jones makes formal announcement of his taking over the business through the advertising columns of this week's Review.

One quart of oil will be given each driver purchasing five gallons or more of gasoline Saturday, according to the advertisement, which appears on another page of this paper.

Local Farmer Goes Burbank One Better

Mr. Burbank would probably turn over in his grave if he could hear this one.

Tom Nordyke, a local farmer who resides near Cottonwood, has crossed Irish potatoes and Bermuda grass. And perhaps the most unusual part of the situation is that it came about by accident.

In digging potatoes recently, Mr. Nordyke discovered a handsome specimen from which Bermuda grass was sprouting. The unusual potato is on display at the Review office.

FAIRCLOTH WINNER OF COUNTRY CLUB GOLF TOURNAMENT

Gid Faircloth, of Ranger, took first place and a handsome silver loving cup for first place, in Phil Pe Co country club's first annual invitation golf tournament Sunday. The youthful Ranger golfer came from behind to win from B. P. Blutworth, at the nineteenth hole after the latter appeared certain to win-one stroke from the eighteenth tee box.

Blutworth had Faircloth one down as they drove off on the eighteenth. His drive was 245 yards down the fairway. Faircloth got in the brush and appeared to be doomed, in lieu of the fact that he was already one down. Blutworth dubbed his attempt to approach and the Ranger youth took advantage of the break and shot from the shinnery straight for the cup. He won the hole, thus squaring the match and came through again to cop the nineteenth.

Ross J. Newton, of Cross Plains, won the driving contest with an average of 225 yards for three shots.

Prizes were awarded winners and runners up in each division. Complete results of the tournament follow.

Veteran Tramp Printer Pays Review Last Visit; Heads Back To Georgia To Die

J. C. Osburn, veteran tramp printer, who has dropped in regularly for brief visits at the Review office for almost a quarter century, came by Monday to make his last call. After more than 40 years of barn-storming, working one day here and another there, he is going back to Georgia his boyhood home, to die.

Osburn, who is nearing sixty eighth year, started picking type in his father's print-shop more than 50 years ago. He has worked in 22 states and a number of the Southwest's largest publishing plants.

He was a printer on the old Fort

Worth Star—now the Star Telegram—when Amos G. Carter was a city reporter. Osburn remembers Carter, who is now publisher of the Star Telegram, as an alert, ambitious, young newspaperman.

"I've rambled a long time, seen many sights and worked in countless number of printshops, but I'm headed back to Georgia, my boyhood home, to take up where I left off 40 years ago. I'm going back to die but I think I will work in a little plant in the home town until I make that flight to Paradise, he told the Review editor in emotional terms Monday morning.

The following statement concerning postal rates was submitted the Review Tuesday morning by Ike H. Kendrick, local postmaster.

PRISON GATES CLOSE BEHIND BEN CHANEY, CALLAHAN KIDNAPER

KENDRICK EXPLAINS NEW POSTAL RATES; 2c LOCAL CHARGE

Prison gates closed behind Ben F. Chaney, Callahan burglar and kidnaper, Thursday morning as he entered the state penitentiary at Huntsville, to begin a 125 year sentence.

He left the Taylor County jail at Abilene, Tuesday morning in a party with 14 other prisoners. In this county Chaney received 50 years for an alleged attempt to kidnap Pauline Shanks, 11, of Clyde, and 10 years each on five burglary indictments.

He was given another 25 years on two charges in Taylor County.

The sentences were recently affirmed by the court of criminal appeals and motions for rehearings not filed. Chaney has served time in the state prison before for burglary.

BEGIN FEEDING CALVES FOR SHOW NEXT SPRING

Miss Clara Nell McDermitt began Monday feeding two pure bred Herford calves for the Vocational Agriculture stock show to be staged here next Spring, by V. A. Underwood and students of Vocational Agriculture.

Several other local boys and girls have picked calves and will begin grooming them for exhibition within the very near future.

TO DISCUSS COTTON ACREAGE REDUCTION PLAN FOR CALLAHAN

Dressy And Cottonwood Session Are Transferred Here For Consolidated Parley

Farmers of the Cross Plains trade territory were scheduled to meet in the high school auditorium here Thursday night, where an explanation of the federal government's cotton acreage reduction plan was to be explained by authorities in charge of the work in this county.

The meeting had been originally called for nine o'clock Thursday morning but Mr. Jenkins, chairman of this county's program, was unable to attend and called here authorizing that the meetings at Dressy, Cottonwood and Cross Plains be consolidated and held at the same time here Thursday night.

The schedule first called for a meeting here Thursday morning, another at Dressy that afternoon and a final gathering at Cottonwood Thursday night.

The meeting Thursday night was to be called to order at seven thirty, in the high school auditorium.

JULY 6 AND 7 ARE NAMED AS BURKETT RODEO PICNIC DAYS

Friday and Saturday, July sixth and seventh have been set as dates for Burkett's big annual picnic and rodeo, to be staged in the beautiful picnic grounds beneath the towering pecan grove under the large bridge which spans the Bayou on highway 23, just outside of the city limits at Burkett.

The committee in charge told the Review this week that a carnival and all of the heretofore attractions would be included in this year's entertainment calendar.

ANDERSON CHEVROLET CO. CUTS PRICE OF REPAIRS

Anderson Chevrolet Company announces through the advertising columns of this week's Review a reduction in the price of all automobile repair and garage work.

Main Features Industrial Recovery Bill

President Roosevelt's industrial recovery bill, which is intended to provide jobs for thousands of unemployed, activity of the nation, completed its congressional course June 13, and was sent to the white house where it received presidential approval.

Machinery has already been put in motion to make the law operative for healing a sick business and industrial situation.

The main features of the act, for which it is intended as a substitute while the national anti-trust Sherman law during its suspension, is as follows:

Gives President Roosevelt and his administrators wide powers to promote self regulation of industry under federal supervision as a means of curtailing overproduction, improving wages, shortening hours and thus increasing prices an employment;

Authorizes a \$3,300,000,000 bond issue to finance construction of federal state, local and public-benefiting private projects to create new employment;

Invests the President with authority to work out codes of fair competition to be accepted by industry voluntarily, with additional power for the Chief Executive to compel adoption of the codes and subject violators to a \$500 fine;

Provides the President with power

to license an industry so as to force unwilling minorities into line;

The bond issue will require \$220,000,000 annually for financing. To meet the cost the following new taxes are provided:

A tax of 1 of 1 per cent on the net worth of corporations, with a 5 per cent additional assessment on earnings above 12½ per cent; a 5 per cent tax on corporation dividends, to be deducted at the source; an increase of ½ cent in the present gasoline tax; three-year extension of corporation consolidation return authority, with increase of 1 per cent in income tax rate on consolidated returns, instead of the present ¾ of 1 per cent.

Extends for one year also all special excise taxes voted by the last congress and makes administrative changes in the tax law to prevent carrying over into subsequent years stock and bond losses which exceed the gains in the year in which they occur. These apply to both corporations and individuals.

Not less than \$400,000,000 of the total public works money will be granted outright to the States for roads with no strings attached seventhly to be allotted on the basis of existing law calling for apportionment on the basis of one-third each for road mileage now existing, area and population, and one-third

on the basis of population.

The public works program, as finally agreed upon, stipulates no special project, but includes, among other general work, the following:

Construction, repair and improvement of public highways and park ways, public buildings, conservation and development of natural resources, prevention of water power and transmission of electrical energy, river and harbor improvements and flood control.

Low-cost housing and slum-clearance projects, dry docks, naval vessels permitted under the London treaty, heavier-than-air craft and technical construction for the army air corps.

The public works administrator—the Senate amendment for a board of three having been eliminated—would be empowered to make grants to States and municipalities for construction and improvement projects up to 30 per cent of the cost of labor and materials.

The President is authorized to institute proceedings before the Tariff Commission and to embargo or limit imports where they interfere with the purposes of the act in raising wages and prices.

It also authorizes \$100,000,000 for distribution by the farm relief administrators.

FROM OUR EXCHANGES

Whats doing in other towns as told in papers received at the editor's desk.

DUBLIN

One hundred ninety forest army men are encamped at the City Park. They were sent here to reclaim waste farm lands and pastures as a part of the public works program sponsored by the government for the relief of unemployed. Their work, directed by the extension Service of A. & M. College, will consist of building small dams and checking the flow of water through gullies and small streams.

ANSON

While Anson has not entered on a building campaign, it can safely be said that she is now on a repair program. A number of houses are being repaired and have been reworked in one or another capacity, and just now several jobs are in progress.

10 homes have recently been repainted, remodeled and improved.

COLEMAN

Last minute decisions by promoters shifted the location of Coleman's modern swimming pool from the old city lake just west of the city to Lake Scarborough, four miles north, where there is an abundance of water and better facilities.

Actual construction work started Monday.

DELEON

A mass meeting composed of citizens from De Leon and Sipe Springs a representative from Rising Star, and property owners along the route of the proposed De Leon-Sipe Springs Highway, met at the City Hall here Tuesday of this week and formulated definite working plans toward acquiring the 17 miles of roadway and getting it accepted as a government project. The Sipe Springs and Rising Star business men will push a similar project, to connect the road up between those cities.

RISING STAR

Gus Bowden was in Saturday to bring in the rain report for May, as shown by the federal official gauge kept on his farm. The report shows better than average for the month, the precipitation being 4.78. However the same month last year shows 6.39, which was, however, a little unusual.

COMANCHE

The Cheese Plant being installed by the Fort Worth Poultry and Egg Company at the local ice plant will be ready for operation Monday, June 26, when the initial run will be made.

Fourteen milk routes have been tentatively selected and nearly every section within fifteen miles of Comanche will be accessible to one of these routes.

BAIRD

A concrete curb is being put around the court house lawn. A large force of men is engaged in this work. The R. F. C. Fund is being used to pay for the labor.

With the curb to prevent washing the work of beautifying the court house lawn will be much easier.

MERKEL

An intensive drive to collect delinquent city taxes was launched by Mayor W. M. Elliott and members of the city council at a special meeting held on Friday night. Joe E. Childers Abilene attorney, has been employed to assist in the collection of these taxes and the plan in detail is fully explained in the accompanying resolution, which the city authorities adopted at the above special meeting.

SPUR

The Commissioners Court was in session as a County Board of Equalization Monday and Tuesday of last week. The intention of the board being not only to equalize taxes but to reduce them as much as possible to stay within the limits of the bonded indebtedness. The assessable valuations in 1932 was \$5,217,186.

"I Told You So"
 Mr. Autry

Several months ago the Review through its editorial columns predicted \$1.00 wheat and 10 cent cotton by Fall. A number of newspapers and individuals commented upon our optimism but frankly labeled the idea as a ridiculousity.

Among our good friends to poke sarcasm at the idea was R. A. Autry, through the Coleman County Chronicle, of which he is editor.

Mr. Autry stated that the Review editor also attempted to predict the outcome of football games during the Fall and was occasionally right and that he trusted we might have even better luck with our agricultural estimate. However he placed little stock in the idea and left us the target of his humorous comment.

Now, every bird has his hour to chirp, and this is ours.

Wheat soared to more than a dollar this week and cotton borders on the 10 cent mark as this is written.
 A mere, "I told you so", is our reply to friend Autry.

Its All Up To The Farmer Now

An important issue—the most paramount in recent years—hangs in the balance. It is that of reducing cotton acreage throughout the South and restoring the business of farming to a profitable business.

Callahan farmers are being interviewed by government representatives, who are asking that they cooperate by destroying a part of their crop; no more than fifty percent. An accurate scale has been worked out whereby every farmer will be either paid in cash, or part cash and option on government cotton, for the number of acres that he destroys.

The plan will actually pay more than two dollars an acre to the farmer for destroying his cotton than he made by gathering it last year. Too, another crop is to be cultivated where the cotton is removed and the land does not remain idle.

No other method on earth could be more beneficial to the farmer as a whole. The plan will go a long way toward removing the great surplus that has cast its shadows of darkness over markets so long. It will mean ready money as well.

Just what the plan will mean to Callahan County farmers remains to be seen. The destiny of the whole thing is in their hands. Nothing is compulsory, it is simply a "take it or leave it" proposition. If it meets with their approval and goes over; this country will witness an agricultural boom within 12 months.

There are nearly 700 trees growing on Fifth Avenue.

SPORTS

When the United States won the girls' basketball championship from Canada the other night there was a riot. Women fans from Edmonton exchanged punches with women fans from Durant, Okla.

Johnny Farrell, American open golf champion in 1928, has forwarded his entry for the British Open to be played at St. Andrew's in Scotland, July 3-7.

In the competition for the Davis Cup, international tennis trophy, Australia will meet Japan and England will meet Czechoslovakia in the semi-final round. Australia and England will be a difficult hurdle for the American players to leap.

In a ball game between the New York Yankees and the Chicago White Sox in New York the other day the Yankees came to bat in the last half of the eighth inning trailing by a score of 11 to 3. The Yankees proceeded to score 12 runs coming within two runs of equalling a major league mark.

The concrete stadium at the West Side Tennis Club, Forest Hills, Long Island, New York, will be used for three weeks this year. It seats 13,000 and it has always been a problem to fill the bowl during the early rounds. This year it is hoped there will be many overseas entries to attract the crowds.

Baseball fans who follow the fortunes of the National League are seeing a beautiful race. One team will jump into the lead one day only to lose it the next. In the American League the New York Yankees manage to maintain something which resembles a lead.

Baseball followers everywhere were pleased with the news that Walter Johnson, one of the most famous pitchers of all times, is going to manage the Cleveland Indians. Even the fans who support rival teams are wishing Johnson the best of luck.

TO BE UNDERSTOOD

FINALLY Jesus knew the necessity for repetition and practised it. One of the sons of President Garfield was traveling with him through Ohio, when the President was addressing county fairs. At the close of the day he asked his boy what he thought of his speeches. The boy was embarrassed by the question:

"Why . . . why they were fine, dad," he stammered, but I felt awfully uncomfortable part of the time. You repeated yourself so often; once you said the very same thing in different words four times over."

Garfield slapped the boy's shoulder with a hearty laugh. "So you thought your old dad was running out of ideas, did you?" he cried. "Well, I don't blame you; but there's a method in his madness. Tomorrow when I reach that passage in my talk, you watch the audience. The first time I make the point, you'll see by their faces that a few folks near the platform get it. But further back there will be noise and commotion; people will be turning their heads to find out who has just driven up, or what sort of a hat Mrs. Jones has on and they won't hear me at all. When I repeat it the first time a few faces in the middle of the crowd will show a response; on the third go, I'll make still more converts, and on the fourth trial they'll all have a notion of what I am talking about. But it takes four shots to land them all; experience with all sorts of audiences has made me sure of that.

It has been said that "reputation is repetition." No important truth can be impressed upon the minds of any large number of people by being said only once. The thoughts which Jesus had to give the world were revolutionary, but they were few in number. "God is your father," he said "caring more for the welfare of every one of you than any human father can possibly care for his children. His Kingdom is happiness! his rule is love. This is happiness! his rule is love." This is what he had to teach, but he knew the necessity of driving it home from every possible angle.

So in one of his stories God is the shepherd searching the wilds for one wandering sheep; in another, the Father welcoming home a prodigal boy; in another a King who forgives his his debtors large amounts and expects them to be forgiving in turn—many stories, many advertisements, but the same big idea.

Because the advertisements were unforgettable, the idea lived, and is today the one most powerful influence on human action and thought. To be sure the work of the advertisements is far from complete. The idea that God is the Father of all men—not merely of a specially selected few—has still to penetrate some creeds, and to establish its dominanc in society.

Thousands of Women Have Taken Cardui on Their Mothers' Advice

It is an impressive fact that many women have said they learned of the value of Cardui from their mothers.

What stronger evidence of her confidence in a medicine could a mother have than that she advises her daughter to take it!

Cardui is given the credit for relieving so many cases of womanly suffering that it is widely and favorably known. Druggists, everywhere, sell it.

If you are weak, run-down, suffering monthly, take Cardui. Take it for a reasonable length of time and try it thoroughly. As your health improves, you will share the enthusiasm of thousands of women who have written to say: "Cardui helped me."

FUNERAL NOTICES

Funeral notices are something of which none of us wish to think, and as a result they are often forgotten with the funeral arrangements. It is an item that should not be overlooked.

CHEAP LIVING

No need for anybody sidling up to me—to insist that the highest priced food is the best. It isn't. In fact, it's often the other way around. Some of the most important things—we couldn't live without—cost us nothing whatever!

Sunshine and air cost nothing, yet what would we do without them? And water—free, or costs next to nothing. Walking—saves car fare, and is excellent for health. Smiles cost you nothing. The simplest foods are not only cheapest but BEST. One of my contemporaries says "sleep is a whole lot cheaper than whoopee; the real health program is not expensive—it's the flub-dubs that dram away the hard-earned dimes."

How true he speaks—you can prove it out on yourself. Listen—a good hash, well-made, from cheaper cuts of meats—it fills all the inclinations for a meat-diet. Don't make it out of stale, waste leavings—make it fresh and good . . . Dry bread is quite as good in soup as are crackers. May be more nutritious. And soup if made well, is fine as a pre-dinner appetizer. I can visualize a ten-cent meal!

Part of the year, in the country, beans may be had for the gathering; fresh vegetables and fruits—the country abounds in them. Cabbage, next to being given away. Liver—even dignified to the place of a valuable blood-making medicine! I direct some of my patients to eat raw turnips, raw cabbage, raw lettuce, young onions,—and almost any variety of raw fruit and berries. Get your Vitamin-D from sunshine—and be independent of broadcasting fakirs.

Oh, the call for old-fashioned horse-sense in living! Horse-sense doesn't cost anything either—and is mighty close to being a treasure in itself to its possessor. Wish I had more of it.

ANNUAL PICNIC IS WELL ATTENDED THE PAST WEEK

The picnic Wednesday and Thursday of last week was in most respects an outstanding success. Both days were pleasant and about as enjoyable as one could hope for.

Chief among the attractions were: balloon ascensions, tennis tournament, various booths and baseball games.

An unusually large crowd was present.

MISS MARY ROBERTSON PARTY HOSTESS MONDAY

Miss Mary Robertson gave a forty-two party at her home Monday night in honor of Miss Lillie Collins of Stamford. The color scheme was red and white throughout. The favors were dainty cards tied with red geraniums and white oleanders. Refreshments of pimento sandwiches and pineapple sherbert were served to Misses Willie and Lois Elliott, McGowan, Cornell and the honor guest and Messrs. Thompson, Carter, Bagwell and Robertson.

PEOPLE 'ON THE GO' AT SABANNO THE PAST WEEK

Rev. Collins filled his regular appointment here Sunday at eleven and eight o'clock.

Miss Vivian Rutherford of Scranton spent Sunday with friends at this place.

Marian Erwin and Roy Stanforde of Nimrod visited G. R. Erwin Sunday.

Mrs. Joe Brown returned home Tuesday of last week, after an extended visit to relatives out West.

Miss Emma Davis of Cross Plains visited friends here Sunday.

Mrs. F. T. Scott, Mrs. Lee Hickey and Miss Ella Lee Hickey, all of San Angelo, returned home Sunday afternoon after a brief visit with friends and relatives in Cross Plains.

Much interest is being shown among poultry breeders and 4-H Club members of Texas in the proposed Capon Show to be held at the 1933 State Fair of Texas. It will be one of the first Capon Shows ever held in Texas and will show the bird on hoof for two days and dressed the third day. A big dinner at which the prize winning birds will be served is also being planned.

Street roller skating is becoming more and more popular here.

CROSS CUT

By Norris Chambers

This hot weather is getting our columnist down. It not affects his news-gathering ability, but it affects his writing. If he has nothing to say in the way of news, it is only natural that he will add a lot of nonsense 'hat shouldn't be added. But after all, the depression seems to be lifting. The price of oil is rising and more oil wells are being drilled in this vicinity. But that doesn't help this tormenting weather. Whew!

And it seems as if the little lecture that we gave those lazy crooks took no effect, for they are at their petty thievery again. Mr. Arledge lost a flock of chickens a few nights ago. The same night some more chickens were stolen.

Mrs. Loy Westerman and Mrs. Buela Waters of Spur, Texas, are visiting friends and relatives in this community.

The great revival meeting that has been underway the past week has been a tremendous success. Rev. C. N. Morton has done the preaching, and his son, Mr. Grady Morton, has done the directing of the singing.

A few of the Cross Cut citizens attended the singing at Williams Sunday. It is held every two weeks.

The work on the new road will probably come to a successful conclusion soon, for the new work has almost intersected the old Cross Cut-Brownwood road. There will, however, be several bridges and tin-horns to install after the principal grading is completed. We shall certainly be glad when the road is finished; not that we want any men to lose their jobs, but we want the new road.

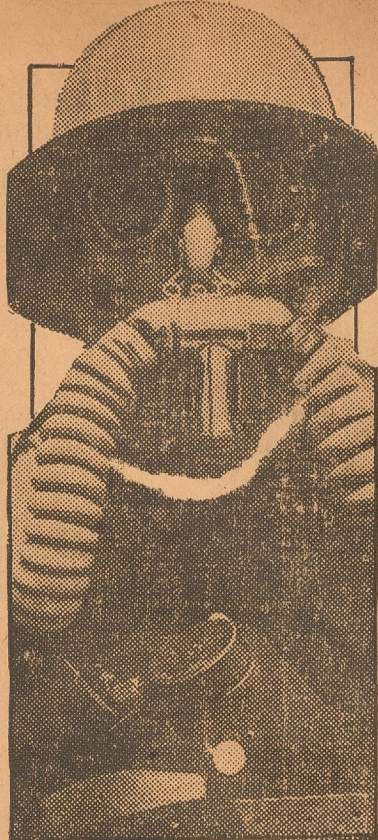

Mrs. Velma Penny of Oklahoma is visiting her parents, Mr. and Mrs. Andre Biehl.

Miss Elva Stockton was visiting Mrs. Lorene Pittman Saturday.

Well, in conclusion, let us all give three cheers and five million congratulations to Mr. Jack Scott, the newly married editor of this splendid paper.

A TONIC Laxative

CONSTIPATION, with the annoying symptoms that usually come with it, cuts down organic force and disturbs normal health and well-being. A thorough cleansing of the digestive tract is of great assistance in the removal of sickening constipation symptoms.

When excessive accumulated waste matter disturbs and strains the muscles of the large intestines, rendering them temporarily unable to perform their wave-like evacuating movements, Thedford's Black-Draught is useful in stimulating them to activity, which, again started, should continue regularly until some future disturbance interferes. In this way Thedford's Black-Draught is one of the TONIC laxatives, tending, as it does, to establish a regular habit of evacuation.

Modern Electric Service . . . a Partner of Industry

Modern transmission line electric service has played an important and vital part in the progress and development of West Texas. With a new period of expansion awaiting this territory during the next few years—this dependable, economical and elastic power supply is destined to play an even greater role in the industrial drama to be enacted here.

Electricity has been the equalizing force that has enabled progressive small towns to compete on an industrial basis with large centers of population. Because of the adequate, inexpensive power supply furnished to this territory by the West Texas Utilities Company, it is possible for West Texas cities to go after, and secure, the valuable payrolls of industrial establishments. Much progress has been made during the past ten years—and considerably greater advances will be made during the coming decade.

The West Texas Utilities Company, serving 161 progressive cities, towns and communities in this "Land of Opportunity," will continue to work for the development of West Texas. With three major generating stations, nineteen auxiliary plants, more than 2,600 miles of transmission lines and scores of office buildings and warehouses throughout the 250,000 square miles it serves—this company's future and yours are inseparably linked. Working together we will accomplish marvels of progress during the next few years.

Do you know that your increased use of Electric Service is billed on a surprising low rate schedule... and adds only a small amount to your total bill?

CISCO PLANS FOURTH OF JULY CELEBRATION

The complete program for the annual Fourth of July picnic to be sponsored by the Chamber of Commerce at Lake Cisco next week has been announced by the general committee in charge of the arrangements. The program includes a rodeo, swimming meet and water carnival during which a flaming human figure will leap forty feet into a pool, golf and tennis tournaments, addresses on the prohibition repeal question by Joseph Weldon Bailey, representing the wet side and Rev. Frank Norris, representing the dries, and a variety of other attractions.

The rodeo, in which more than 100 cowboys and rodeo performers of this section have been invited to participate, will be held at 7:30 p. m. under the flood lights of Chesley field, with seating accommodations for 10,000.

Bucking broncs that have never been ridden have been secured for this attraction while a general variety of rodeo entertainment will be offered. It will be the only event for which an admission charge will be made.

Another attraction will be the appearance of Benny Wilson, junior middleweight wrestling champion of the world, who will defend his title Pete Cardiel, of Torres, Mexico. Other matches are scheduled on the same card. The attraction is free.

The use of broad, shady parks equipped with barbecue pits, tables, seats, running water and other utilities will be available free of charge to those who bring their lunches.

The program begins at nine Tuesday morning with tennis and golf tournaments at the Cisco Country Club which borders on Lake Cisco adjacent to the big concrete swimming pool and the city parks where the celebration will center. These tournaments are open to all comers. An athletic program, including track and field events, horseshoe pitching, washer pitching and other sports, will take place during the morning.

At four in the afternoon the Cisco Red Sox and the Sproles team of Fort Worth will play a baseball game.

Franz Freeman and Miss Alpha Wright Are Wed Thursday

Franz Freeman and Miss Alpha Wright, of Burkett, were united in marriage at the home of Rev. DeWitt Van Pelt, at Dressy, in an early morning ceremony Wednesday. The rites were solemnized in the presence of only a few friends and relatives. The bride is the daughter of Mr. and Mrs. Joe Wright, of Burkett and the groom is the son of Mr. and Mrs. J. C. Freeman, pioneer residents of this section. The couple left shortly after the ceremony for a bridal trip through West Texas.

SABANNO

By Ovada Westerman

A Worker's Conference for the Baptist Cisco Association was held at Sabanno Tuesday. Sabanno people of other denominations and visiting Baptists from all parts of the county were guests. The morning program consisted of songs, and two addresses. Rev. Roy Shaban of Moran spoke on "Getting Ready for the Soul Winning Campaign", and Rev. C. V. Edwards of Belton spoke on "Baylor College."

An old fashioned dinner served in an old-fashioned way was served at twelve thirty.

After a brief Board Meeting, the afternoon was devoted to the discussion of Prohibition. Rev. E. S. James of Cisco gave the principle address. Then Rev. J. L. Rodin, Chairman of the Eastland County Prohibition Campaign, explained his work and gave encouragement and directions for a dry campaign of this community.

Mr. and Mrs. Grant Linsey of Wingo visited her parents, Mr. and Mrs. Jim Matlock over the week end.

NEIGHBORS

When you came into the world, it was the neighbors who cheered your parents by praising your first smile.

Now that you are a man, with a citizen's responsibilities, it is your neighbors who help carry these responsibilities and who stand by to help you in your defeats and to cheer you in your victories.

When you die your neighbors will shed a few tears, and sing a few songs, and say a prayer for you.

When you have a favor to bestow, even though it be only the favor of your patronage, wouldn't it be good sportsmanship to bestow that favor upon your neighbor?

In a thousand ways you are a partner in business with every man in your home town. Your interests are common. If all your neighbors should fail, you wouldn't remain in business a week. If all your neighbors succeed, you almost certainly will succeed with them.

So, when you find yourself in need of a monkey wrench a pair of pants, shoes, automobiles, groceries, etc., or an insurance policy—to buy it from your neighbor is the next best thing to buying it from yourself.

Independence Day JULY 4TH

THE eagle's wings have lost none of their strength—

He can still soar to great heights . . . And it is symbolic of the capabilities of this nation to again attain prosperity and plenty for all . . . Independence is still a cherished ideal of our peoples who have proved their ability to face the darkest issues as did our forefathers in the founding and building of this nation . . . Independence Day this year should be the occasion for every American to salute the flag, buckle his armor anew and go forth with the resolve to see our nation through . . . to a complete victory. We pledge our best abilities.

As is our usual custom our store will be closed all day Tuesday, July 4th so that our employees may have the day off to join in celebrating our nation's greatest holiday.

Open Wednesday as usual and will appreciate your business. Ask to see our after inventory specials.

Mr. Lou Wilson, of Wilson, was visiting friends here last week. He went from here to Erath county to see his father.

Resolution of Respect

During the past year: Shadows have mingled with no sunshine, and today we miss the presence of a loved one who we mourn, she has been called to serve in the chapter.

With profound sorrow we record the death of our beloved Ethel, Sister Ethel Bruce who on May 16, 1933, at the Graham Hospital at Cisco, Texas, God saw fit to take her away.

Here in her home town where most of her life has been spent among her friends and members we laid her to rest.

From our chain a link has fallen, in the East a Star has set, but enbrined in memories tablet, her true worth we will never forget; sleep on our comrade, sleep on, until time unfold for us, sleep until the dawn of life awakens and together we enter eternal rest.

One by one each link must fall, death's stern mandate comes to all, may our golden chain of love no links when joined above. Our hearts are filled with loving sympathy for all those bereaved, and our prayer is that the great comforter may be near them.

Resolved that a copy of the resolution be spread upon the minutes, a copy furnished the Review Publishing Company and a copy for the family.

BACK IN 1933

A merchant, having been told he had but a month to live, called in a lawyer and said:

"Fix it so my overdraft at the bank goes to my wife; she can explain it. My equity in my car goes to my son; he will then have to work to keep up the payments. Give my good-will to the supply houses; they took an awful chance on me and are entitled to something. My equipment you can give to the junk man; he has had his eyes on for years. I want six creditors for pall bearers; they have carried me so long they might as well finish the job.

Mr. and Mrs. Edwin Baum were in Cisco during the week end.
