HOME TOWN GOSSIP

Stanley Carmichael received quite a setback Tuesday night while endeavoring to acquaint a new Cross Plains resident with the historic sights about town.

His audience—an attractive young woman—had been listening very attentively until 'Stan' pointing out across the picnic grounds at Turkey Creek said, "Until 1912 the town of Cross Plains was located here".

"Good, did they move it because of the mosquitoes?", came a quick reply.

Now Stanley is a very public spirited young man and knows quite a bit about his home town but he couldn't think—regardless of how hard he tried—just why the town was ever moved at all. Will someone please tell him?

Some sort of a trophy should be presented 'Skipper' Wright. He is telling the most unbelievable fish story heard on the streets of Cross Plains in many days.

The 'Skipper', so the yarn goes, was out at the country club fishing. His luck was extraordinarily good while other anglers were not getting even a nibble. When queried as to what method he pursued, the 'Skipper' replied in his bragacious sort of way, "I simply give the fish a variety of bait". He picked up a large one—about three pounds—and said: "This one, I caught with my little finger by merely sticking it in the water and waiting for a fish to grab on". He displayed a small blood stained scratch on his finger as evidence of a fish bite.

Its a good thing 'Heavy' Roberts hasn't heard this one. He is sap enough to believe anything the 'Skipper' says and we can imagine just how silly 'Heavy' would look to the citizens of Munday lying out on a creek bank, dangling his fingers in the water.

After the longest session in history our state legislature has decided to adjourn 'sine die', which the Latin students tell us means without time for another convening set.

Cecil Lotief will be home Sunday to tell home folks just how everything was done and why more wasn't. We 'sorta' wonder how the little Cross Plains Israelite will feel peddling socks again, after 'hobnobbing' about five months with the state's big shots.

It is our sad duty to inform readers this week that Fat Clark and Blix Pittman are no longer the same sweet pair. After more than a year of devotedness to each other their ways have parted.

Tom Bryant, Jr. is back in town and informs this department that he is ready to take up the reins as 'The Duke of Callahan', where his big brother Elliott so abruptly stopped, a few months ago to become a family man.

We predict an even more brilliant success for Tom than was even enjoyed by Elliott in his more gallant days. Up and at 'em Tom.

Haven't heard anymore of the book on barbershop gossip that Grady Tyson intends to write. If he is wanting for subject matter, Grady can breathe an optimistic breath. For with the forthcoming election August 26, there will be plenty of prohibition talk about his place—enough to fill one chapter at least.

COTTONWOOD TEAM TRIMS WEBBVILLE HERE SUNDAY

After a winning streak of nine games, Webbville's baseball team dipped their colors in defeat to Cottonwood on the local diamond Sunday afternoon. The score was Cottonwood nine, Webbville two.

The victors contained their lead throughout the contest and were never in danger.

Local Boy Drowns In Tank Near Here Monday

FUNERAL RITES FOR DELTON RAY TATE, 8, HELD HERE MONDAY

Desperate Efforts To Revive Youth With Oxygen Is Futile

Delton Ray Tate, eight, was drowned in a small pond just beyond the Eastern boundary of the city limits, on highway 23, Monday afternoon. He and a young friend—Jackie Preston, seven—were in the water on a raft, which overturned throwing them off and pinning Delton beneath.

Funeral rites were conducted from the Baptist Church here Tuesday afternoon, with Rev. W. L. Bryan officiating. He was assisted by a Rising Star minister.

When the Preston boy saw that he would be unable to rescue his drowning playmate, he rushed to a nearby house for aid but no one was at home. He then ran back to the tank gathered up the clothes of his friend and went rushing to the boy's home, four blocks down the highway toward town.

Ike Kendrick was first to reach the scene of the fatality and together with Bill Davidson pulled the boy from the water. An oxygen artificial breathing apparatus was rushed from Pioneer and two employees of the Phillips plant, of that place, made a desperate effort to revive the boy. Three hours of working was in vain however.

Delton Ray is survived by his parents, Mr. and Mrs. Arthur Tate, two brothers and two sisters.

FIGHTERS MEET FOR CHAMPIONSHIP BELT HERE FRIDAY NIGHT

Woody Windham and Jimmie Dowd will meet in a championship bout, with the lightweight title of the South-west at stake, as the feature attraction of the Cross Plains American Legion post's boxing card, in the Electric Theater building, here Friday night. They are scheduled to go six rounds.

Windham, the title holder, agreed to meet Dowd, the challenger, here, due to the fact that he was already in this vicinity—having fought in Ranger Monday night. Dowd is reputed to have been tossing challenges at the champion for quite a while, but Friday night will be his first official chance at the belt.

Leonard Davidson, of this place, will meet Orville Curtiss, of Cisco, in a semi-final feature. The local boy is yet undefeated and has more than a dozen knockouts to his credit. But Friday night will be his first real test against a fighter with any great amount of ring experience.

R. D. Bowman, of Rising Star, and Jake Smith, of Cisco, will provide the other semi-final scrap. Both youths have reported that they are in the pink of condition and expect victory Friday night.

A battle royal and other matches are promised by promoters of the boxing program.

A vaudeville attraction is also scheduled at the theater Friday night. The two performances will be grouped for an admission price of 25 cents for adults and 15 cents for children.

PLAY TO BE PRESENTED AT BURNT BRANCH FRIDAY

A three act play will be presented at Burnt Branch school Friday night, entitled 'Closed Lips'. There will be no admission charge. The entire public has been invited to attend.

Will Be Seen Here Saturday

'Bunny' Dryden, known in theatrical circles as the 'Great Lafayette' will display his ability on high and low wires in Cross Plains Saturday. Two performances are scheduled, one in the morning and another in the afternoon. The feature of Dryden's exhibitions will be in the afternoon when we walk a wire 40 feet high across Main Street with a passenger on his back. Above photo shows Dryden completing a somersault on the wire.

INVITATION TOURNEY SCHEDULED AT PHIL PE CO COUNTRY CLUB

An invitation golf tournament with a calcutta pool and all of its trimmings, is scheduled at Phil Pe Co country club the last week end in this month—June 23, 24 and 25.

"15 handsome prizes will be awarded", said Ted R. Smith, club secretary, yesterday.

Those in charge of the tournament have informed the Review that several of West Texas leading golfers are expected to be on hand and participate. Invitations are being extended practically every "nibble" wielder of any significance throughout the state.

M. S. Sellers, of Rising Star, is general chairman of the committee in charge of arranging for the tournament.

TENNIS TOURNAMENT WILL BEGIN SUNDAY AT COUNTRY CLUB

Phil-Pe-Co Country Club annual tennis tournament will begin Sunday afternoon. Jake Dupree, chairman of the club tennis committee, has asked that all entries be on hand and be ready to begin play at that time.

"Those who have not yet entered, may be placed in the pairings, if their intentions are expressed by Saturday noon", Dupree told the Review yesterday.

The Phil Pe Co tennis loving cup will be at stake again this year. The cup must be won three successive years to become a permanent possession. Frank Bucy, Rastus Bucy and Jack Scott have each won the cup one year and it is at present in possession of the latter.

M. C. Baum Begins 23rd Year Thursday As Rural Mail Carrier From This Place

When M. C. Baum pulled away from the curb at the Cross Plains postoffice yesterday morning loaded with letters and packages, he began his twenty-third year as a rural mail carrier from this place.

He made the first R. F. D. run ever to go from Cross Plains, June first 1911. Two of the patrons to whom he delivered mail that first day are still on his route. They are Noah Johnson and Jim Rone.

Reminiscing over his span of service, Mr. Baum points out many changes which have taken place in the delivery of rural mail during the 22 years of delivering mail.

When asked by the Review editor if he could point out any single incident as the most unusual during his past 23 years, Mr. Baum said, "No, it is just from one mail box to another every day, but I like it."

His old horse drawn hack has been replaced for faster con-

veyances nine times. He has worn out eight automobiles and one mail cab since then. Whereas it used to take seven hours to cover his route, Mr. Baum now makes it in less than three and there are more than twice as many boxes.

Mr. Baum has served under six postmasters: Tillman F. Wolf, John M. Hembry, Joe H. Shackelford, Robert H. Daveney, C. W. Barr and Ike H. Kendrick.

Save for a single link of one year, which was spent in military service during the World War, Mr. Baum's service has been continuous. He enlisted in the United States army June first, 1918 and was discharged on the same date one year later. He believes that June first is a significant day in his life.

Under the present postal regulations he will have to serve 17 years more to be retired with civil service compensation.

CROSS PLAINS MAY GET ANOTHER STATE HIGHWAY THRU HERE

Brownwood Launching Fight To Secure New Designation Of Road 191

Efforts have been instituted to get highway 191, recently designated by way of Coleman to Baird, changed to come from Brownwood through Cross Plains and on to Baird. In the event that the efforts prove successful the highway would enter Cross Plains at one end of Main Street and run the entire length, curving westward to Baird from there, the Review has been authoritatively informed.

"District Engineer Leo Elinger has recommended the proposed change and Brownwood chamber of commerce and service clubs are backing him up—if he needs any backing", says the Brownwood Bulletin.

Cross Plains Lions Club, in their regular weekly meeting Tuesday, voted to assist Mr. Elinger and the Brownwood force in securing the altered designation of highway 191. Clubmen will discuss the matter with Brownwood citizens next week and plans for even more work in this connection are expected to be outlined at that time.

Mr. Elinger has recommended the change in the designation of the highway pointing out that Brown county has constructed the grading and drainage structures and secured a 100 foot-of-way on a satisfactory location on the road from Brownwood through Cross Cut to Cross Plains. He states that all work has been done in accordance with latest specifications and designs of the state highway department.

In discussing the road last week, the Brownwood Bulletin said:

"Brown county is ready to turn over the section in Brown county already constructed, except six miles, and on which they have spent approximately \$400,000 and upon which has been built all drainage structures of concrete or steel including two large structures, one across the Jim Ned creek arm of Lake Brownwood and the other across Pecan Bayou.

"The Coleman Chamber of Commerce and the commissioners court also have taken the matter up with the Highway Department in an attempt to prevent the contemplated change, according to news dispatches from Coleman."

SENTENCE AFFIRMED FOR BEN F. CHANEY CALLAHAN KIDNAPER

The court of criminal appeals Wednesday affirmed six cases of the state versus Ben Chaney, against whom sentences totaling 100 years were assessed by juries in 42nd district court of Callahan county.

Chaney was given 50 years in connection with the attempted kidnaping of Pauline Shanks, daughter of Mr. and Mrs. Homer Shanks of Clyde, last January, and 10 years in each of five burglary charges.

The child was snatched from her bed where she slept with her twin sister, and muffled into a heavy coat, carried by her abductor. As she screamed, awakening members of the household, he dropped her onto a divan and fled barefoot from the home.

Chaney is also under two sentences for burglary in Taylor county. The terms are 10 and 15 years.

Rev. Graves Darby visited his wife in Waco this week.

BUNNY DRYDEN WILL WALK WIRE 40 FEET IN SKY TOMORROW

Merchants Cooperate To Bring Him Here As Attraction For Week End

Bunny Dryden, theatrically called 'The Great Lafayette', will walk across Main Street on a high wire, 40 feet above the pavement, here Saturday. His exhibition is being brought to Cross Plains by local merchants.

Rumors to the effect that Dryden would not be here and that he had gone to Chicago, to appear on the famous Ripley 'Believe it or Not' program at the Worlds Fair, were dispelled in a telephone interview with the Review Thursday morning. "Certainly I'll be in Cross Plains and I'd have decided to do my entire exhibition on the high wire instead of dividing time on a lower one. I'm going to give Cross Plains a real treat", he said.

To Carry Passenger
If a local girl will agree, Dryden will carry her across on his shoulders as he accomplishes the unusual feat of crossing the street on a wire.

"In the event that no local girl wants to make the crossing with me I will carry my wife", Dryden told the Review. He was married Wednesday to Miss Irene Scott, Rising Star school teacher.

Everything In Readiness
Wires have already been stretched and everything is in readiness for Dryden's two performances Saturday. The first is scheduled at 10 in the morning and the other at six in the afternoon. He will spend the entire day in Cross Plains and aside from walking the wire will display his ability to bend 60 penny nails in his hands as well as probably burst a few inner tubes with lung power.

In a letter to the Review Monday, Dryden said that he would present Mayor S. P. Collins with an agreement waving all responsibility from Cross Plains merchants in the event that he falls and is injured.

LIONS WILL CHOOSE OFFICERS TUESDAY

Officers will be chosen at the regular weekly meeting of the Cross Plains Lions Club Tuesday noon, in the basement of the Methodist Church. Those elected will be installed the first meeting in July.

LOCAL COUPLE IS WED AT BAIRD WEDNESDAY

Miss Willie Robbins and Tod Jordan, both of this place, were married at Baird Wednesday of last week, with Justice of Peace, Tom White officiating.

The bride is the daughter of Mrs. Winnie Robbins and has resided here virtually all of her life. The groom is the son of Mr. and Mrs. J. W. Jordan and has lived here a number of years. Both are well known. They will make their home with the groom's parents.

NEW TAILOR SHOP OPEN IN EAST PART OF TOWN

A. B. Cross and Frank McGary announce through the advertising columns of this week's Review their opening of a suburban tailor shop, adjoining Bob Young's barber shop, in the East part of town.

Both Mr. Cross and McGary are well known in Cross Plains having been connected with the tailor business at intervals for a number of years.

Grady Tyson has been visiting his family at Fort Worth past two weeks.

Looking Back Down Memory's Lane

From The Review Files Of 23 Years Ago Today

Editor's note:

The Review is indebted to Mr. P. A. Arrowood for a copy of the Review, dated May 27, 1910. A copy of this paper was not on file in the office but Mr. Arrowood very generously loaned the Review a copy which he has in his possession since the date of issue.

A business mens professional club was organized in Cross Plains Tuesday. Belmont L. Shields was named president; Walton Wagner secretary and Taylor Bond treasurer.

The purpose of the club will be to promote civic improvement.

Last Saturday evening the Review man and Mrs. Shields and Miss 'Tootsie' accepted an invitation to meet the young people of Cross Plains at the home of Mr. and Mrs. W. A. Hall. Later in the evening we were invited to the home of Mr. and Mrs. W. E. Butler, where a number of young people met to enjoy music rendered by Messrs. Brantley, Cross and Butler.

We accepted both invitations and needless to say, we enjoyed ourself. The music was fine at both places and the young people were very lively. We played that newest of new games—Snap.

Cross Plains promises the whole world a surprise in road building in the near future. We have discovered a new process for treating sandy roads that makes them hard as pavement. We will treat all roads in the Plains country with this solution. Water doesn't effect it and harvest freight wagons will roll over without cracking it. Watch for the Cross Plains way of building roads.

A brick plant is being planned for Cross Plains. We have the dirt and as soon as the railroad is completed, we will have a territory from Thurbler, West for considerable distance, that could be supplied with Cross Plains brick. If you are interested it will pay you to investigate at once.

ANOTHER LOCAL PAIR MENTIONED IN GROUP OF W. T. PIONEERS

The Fort Worth Star Telegram's West Texas pioneer column again made mention of Cross Plains folk the past week. The following article concerning Rev. and Mrs. L. Jackson was carried in Monday's paper.

The experiences of a bride accustomed to Eastern civilization on a honeymoon which she and her preacher husband spent traveling to isolated churches and communities and conducting services are recalled by Mrs. Flora Jackson of Cross Plains.

She and Rev. L. Jackson were married at Dickens, a county seat town, then 90 miles from a railroad. Mrs. Jackson received her first fright when awakened by the howling of coyotes, the noise of barking six-shooters and the sight of a stampeding herd of cattle.

Her husband preached the first sermon heard in Spur, holding services in a tent. They traveled over many counties, holding services in school-houses and brush arbors and many times in the dugout homes of the frontiersmen.

Mrs. Jackson would like to hear from those whom they served during those years. Rev. Mr. Jackson was a minister in the Methodist Episcopal Church, South.

Babe Ruth, of the New York Yankees, will receive more money for playing ball this year than an entire club in the Pacific Coast league.

LOST 40 POUNDS ON DOCTOR'S ADVICE

"I'm a user of Kruschen Salts as a reducing remedy and can say they are fine. Have lost more than 40 lbs. in the past year. Am gradually reducing as my doctor advises." Miss Bertha Waldo, Hamian, N. Dak. (Oct. 30, '32).

Once a day take Kruschen Salts—one half teaspoonful in a glass of hot water first thing every morning. Besides losing ugly fat SAFELY you'll gain in health and physical attractiveness—constipation, gas and acidity will cease to bother—you'll feel younger—more active—full of ambition—clear skin—sparkling eyes.

A jar that lasts 4 weeks costs but a trifle at Smith Drug Store or any drugstore in the world—but demand and get Kruschen and if one bottle doesn't joyfully please you—money back.

THIS SECTION WINS A & P CONTEST FOR F. D. R. MONTH SALES

Atlantic and Pacific stores throughout this section of Texas have been announced as winners of a contest, recently conducted by that company for sales increases. The winning district will be awarded a banquet sometime this month. It is composed of Cross Plains, Coleman, Banger, Eastland, Brownwood, Hamilton, Stephenville, Comanche and Dublin.

The contest covered a period of 30 days, which was designated as Franklin Delano Roosevelt month.

S. Freeman, manager of the local A & P store, told the Review yesterday that sales here increased proportionately with others throughout the winning district.

How Cardui Helps Women

"Mal-nutrition" means that your body is not getting enough to keep it up, so that what it has to do is not done well. You may not be eating enough to keep up the work of the body, or there may be something wrong that keeps you from getting full value from the food you eat. Because of mal-nutrition, some women have aches and pains every month. Such pains should not be neglected. Take Cardui to give you a better appetite, to give you more strength from the food you eat—to build up and increase your feeling of well-being. Aches and pains go away as you build up with the help of Cardui.

The Sensation of the Year "Here Saturday

Cross Plains merchants especially invite every person in the Cross Plains trade territory to be in town Saturday afternoon and see 'THE GREAT LAFAYETTE' defy death on a high wire, stretched from the Citizens State Bank Building to the Farmers National Bank Building.

He will accomplish feats that you would think impossible. Run, dance and even carry a passenger on the high wire 40 feet above the street. Two performances are scheduled. One in the morning at 10 o'clock and another that afternoon at six o'clock. No admission charge. Everything free with the compliments of Cross Plains merchants.

'The Great Lafayette' will also perform on a low wire, exhibiting tricks surpassing anything ever seen in this section heretofore. This is really an opportunity to see a world famous artist in your home town—by all means don't miss it.

Farm Prices Rise In Fastest Gain Since Spring After World's War

WASHINGTON, D. C., May 30—Farm prices are going up in the fastest rise since the spring after the World war's end.

A steady climb has been under way since April 15, and up to yesterday the bureau of agricultural economics reported it still under way. The last upswing to compare was in April, 1919, after the government relaxed war-time milling regulations.

Leading the way in the trek toward levels of prosperous days have been the farmer's faithful draft animals, horses and mules. From April 15 to mid-May, the bureau said, the average farm price for horses went from \$67 to \$71, while mules mount-

ed from \$73 to \$77. Wool, however, scored the sharpest rise of any commodity, increasing 75 per cent from April 15's average farm price of 10.1 cents a pound to 17.7 cents a month later.

The increase in farm purchasing power was exactly equal to the price increase for the price level of goods farmers buy made no change. On May 15 as well as on April 15 the prices for consumption goods were equal to the pre-war-level of 1909-1914.

Farm prices, despite the increase, are still below the pre-war level. Using 100 to represent pre-war prices the May 15 index figures for the same group of commodities was 62,

a gain of 9 points since April 15, and a gain of 12 points since March 15.

To return farm prices to a level where they will bear the same relationship to prices of goods purchased by farmers as the two bore to each other before the war, is the goal of the new farm act which Secretary Wallace and his aides are now striving to get into operation.

The bureau attributed the new price rise to three factors: Anticipation of inflation; anticipation of a brisk business revival, and poor prospects for some crops due to bad weather conditions, particularly for winter wheat, corn and some grains.

A marked catalogue in the Poultry Department, will be issued at the 1933 State Fair of Texas, which will be held Oct. 7 to 22, it has been announced by J. J. Eckford and W. I.

Yopp, directors in charge of the department. The catalogue will show all the prize winners in the poultry department, the rabbit winners and prizes awarded for the best pigeons.

SINCLAIR MINSTRELS...on 35 NBC Stations every Monday evening

Why don't you use "that fast-steppin' gas"?

And a "fast-steppin' gas" it surely is—that Sinclair Regular Gasoline! Its new nickname comes from the men in the Sinclair refineries who are refining it to a formula originally developed for quick getaway and flashy pick-up in the congested traffic of great cities.

Sinclair Regular Gasoline is refined for keeping traffic policemen pleasant. It's a fast, light gasoline with a world of punch—a gasoline you can rely on whenever you need a quick, responsive surge of power at your toe-tip. Try it in your own city traffic—then take it out on the highway for a long, smooth spin. Here's a new motoring enjoyment for you! Ask for Sinclair Regular Gasoline.

NOTE: For best results, use either Sinclair Opaline Motor Oil or Sinclair-Pennsylvania Motor Oil. These oils have been de-waxed, and freed from petroleum jelly at as low as 60° F. below zero.

Idea Number 4 For Summer Picnic

By Jack Scott

This is the fourth of a series of suggestory editorials published by the Review to stimulate interest in Cross Plains' annual picnic this summer, which will mark the fiftieth annual celebration on the banks of Turkey Creek by citizens of this and adjoining communities. It is the hope of the Review that some of the ideas set forth through these columns may be beneficial in making this year's cele-

bration a fit commemoration of a half century's progress.

Promoters of large celebrations learned a great number of years ago that no single feature attracts people more an array of pretty girls and have capitalized upon the idea extensively.

For this year's picnic we believe that it would be a unique idea and an attractive feature for Cross Plains to add to the entertainment program a 'Cowgirl Revue'. The plan would be for all adjoining communities and towns to send their prettiest maidens to the Cross Plains picnic dressed in Western regalia. From the group could be adjudged the most typical and attractive cowgirl and a prize awarded.

The idea would harmonize splendidly with the theme of this year's celebration, which will in all probability be to commemorate and pay tribute to those trail blazing pioneers, who gathered on the banks of Turkey Creek 50 years ago in that first Cross Plains picnic.

Made In Cross Plains

Any local enterprise of unusual nature, which stimulates business from the outside, is of unmeasurable importance to any town. Cross Plains is fortunate in having a number of local establishments which manufacture wares for wholesale and retail trade.

Among the most recent of

The Track Was Gone—They Stopped the Train

The cloud which opened the heavens in a downpour that washed out a railroad track had a silver lining for these six youngsters, all members of an Orphan's Home at Passaic, N. J. ... Seeing the embankment give way, and from their windows, they rushed down the track waving raincoats and flagging a commuters' train carrying 500 people, the engine stopping 50 feet from the racing waters. ... Their reward is to be Babe Ruth's guests at a ball game and a trip to the World's Fair at Chicago by the Erie R.R. They are; bottom row (left to right), Frank Mazzola, Douglas Fleming, Michael Muzzola; at top, John Murdock, Jacob Merlnizek and Rudolph Barsche.

our acquisitions in this line is a modern, well equipped tin shop, running ever day. Cross Plains had a tin shop, which did a good business, several years ago but it was disbanded with the advent of decreased activities in the oil industry.

The shop here at present is running every day, turning out hundreds of articles which heretofore shipped here from other industrial centers. A mere visit to the well equipped plant operated by J. E. Henkel and which keeps one man consistently employed, should convince any citizen that Cross Plains' needs in the tin and light metal business can certainly be supplied at home.

The Review is indeed proud to welcome any new manufact-

uring establishment to local business circles and since the Cross Plains tin shop has no local competition feels quite justified in offering this word of commendation and best wishes.

New York's famous flea circus has gone to Chicago for the world's fair. The circus has been here for seven years. It is really worth seeing.

The New Yorker gets his fill of cement sidewalks and asphalt streets during the week so that when the weekend comes he likes to get his feet on real dirt. Walking clubs are becoming increasingly popular in the suburbs.

NEW YORK

They are selling pencils in New York with enough lead in them to last two years.

A Western visitor wanted to know how it happens that so many New Yorkers like to have their cigarettes mentholated. A common practice in many homes is to place a quarter's worth of menthol crystals in the bottom of a cigarette box.

New York is one of the cities where men—and women too—carry walking sticks and where it can be done without being noticed. And it is a curious fact that many visitors to New York bring sticks with them.

The latest service at one of the big motion picture theatres here is shoe repairing. When a woman's high heel is twisted off from her shoe, as often happens in a mis-step on a stairway, she is ushered into the ladies lounge, a matron removes her shoe and it is sent out to be fixed.

Single men in New York have gotten into a curious habit. They report to their offices at 9 o'clock, hang up their overcoats and hats and then go to a restaurant in the building for breakfast. This practice became so noticeable in the offices of one large corporation that the president had to take steps to stop it.

Airplanes with colored signs attached and trailing on behind are to be seen constantly over New York.

It was said of the late David

Belasco, noted New York theatrical producer, that he boasted that he had never had his shoes shined.

There is a theatrical producer here who has filled his Long Island home with properties of his shows which have failed. The place looks like a museum.

There is a famous night club hostess here who has 19 floor lamps in the living room of her apartment.

A man stumbling along East 29th Street bearing the weight of a sandwich board across his shoulders, carrying a large red letter invitation to the males of the world to go to a certain shop for a "quick shave—no waiting," had his own face hidden beneath a growth that had been waiting for nearly a week.

It is proposed to open beauty parlors for men in New York.

There are professional cheese tasters in New York.

But five authors are listed in the classified telephone book in this little old town. There are thousands but they prefer not to have their occupation listed.

Nearly 100,000 persons use the elevators of a single building here every day.

Ten thousand Portuguese soccer fans travelled from various parts of Portugal to Madrid, Spain, the Spain-Portugal soccer game. The Portuguese take their sports seriously.

Once in every five days a New Yorker is killed for participating in a family argument.

PICKING HIS MARKET

JESUS' preaching was almost incidental. On only one occasion did he deliver a long discourse, and that was probably interrupted often by questions and debates. He did not come to establish a theology but to lead a life. Living more healthfully than any of his contemporaries He spread health wherever He expressed himself in thoughts of surpassing beauty, as naturally as a plant bursts into bloom. His sermons, if they may be called sermons, were chiefly explanatory of His service. He healed a lame man, gave sight to a blind man, fed the hungry, cheered the poor; and by these works He was advertised much more than by His words.

The church, which covets advertising and receives little, is much more faithful in such good work than the man on the street suspects. Most of our colleges were founded under its inspiration; most of our hospitals grew out of, and are supported by its membership; the ideals that animate all civic enterprises are its ideals; and its members furnish to such movements the most dependable support. More than this, the day by day life of any genuine pastor is a constant succession of healings and helpings, as any one who has been privileged to grow up in a minister's family very well knows. The door-bell rings at breakfast-time; it rings at dinner-time; it rings late at night—and every ring means that some one has come to cast his burden upon the parsonage. A man comes blinded by his greed or hatred or fear—he opens his heart to the pastor, and goes away having received his sight. A parent whose child is dead in selfishness, comes leading the child by the hand. And sometimes the preacher is able to touch the withered veins of conscience, and life becomes normal and wholesome again. A man out of work, whose family is hungry, knocks timidly at the parsonage door. And somehow, from the parson's few loaves and fishes, the other family is fed.

These are Jesus's works, done in Jesus' name. If He were to live again, in these modern days, He would find a way to make them known—to be advertised by His service, not merely by his sermons. One thing is certain: He would not neglect the market-place. Few of His sermons were delivered in synagogues. For the most part He was in the crowded places; the Temple Court, the city squares, the centers where goods were bought and sold. I emphasized this fact once to a group of preachers.

CROSS CUT

By Norris Chambers

This column has changed forces, and the new staff is going to do all in its power to cover the Cross Cut district. The news is going to be told accurately and impartially, as far as possible. But even with a large staff like we now possess, it is impossible to record every interesting incident, and to narrate the ones which we do chronicle as they really occurred, so if we say something about you that is not true, and you resent the fact, come around and talk it over with us. We ask for the hearty cooperation of every reader of this paper in the Cross Cut territory. If you have some little news item that you want to appear in our column, bring it around and we'll be glad to print it and acknowledge you as writer.

It remains to be seen whether we can successfully keep up this news column. It seems as if we have always done things backwards. We tried to write bed-time stories, and we turned out Gothic Romance without a particle of realism; we attempted to produce a few novels, they were only extended bed-time stories, so don't be surprised if this column turns out to be a regularly kept DAIRY instead of a chronicle.

Mrs. Lawrence Beihl is on the sick list this week. It gives us very much to start our weekly feature by writing of such distressing topics, but it is our duty. Perhaps she will be well by next week. We all hope so at least.

A heavy rain fell Thursday night, of last week; it had been preceded by showers all week. The farmers were glad to see the first of the rains, but as they continued to come all week, and the weeds and Johnson grass continued to peep forth and spring higher, they became 'rain sick,' and wished the water from Heaven would stop falling, and the ground would dry up enough for them to return to their plowing.

Mrs. Deoma Triplitt, who has been teaching away from home, has returned.

Clifton Chambers, who has been attending school at Williams, has returned to his home. And since goat roping is the latest fad—threatening to reach the tremendous popularity of the jig-saw puzzle and technocracy—he and Lawrence Byrd have bought five goats. But this column has been informed indirectly that Gulf has been informed indirectly that Cliff intends to trade his goat for a 'possum dog.'

CROSS CUT H. D. CLUB MEETS IN PRATER HOME

The Cross Cut home demonstration club, met with Mrs. J. R. and Miss Thelma Prater, Friday, May 26.

The president, Mrs. Bill Wright presided at the meeting. Monthly reports were called for and turned over to the secretary, Mrs. Lon Anderson.

The chairman of the achievement day program, Mrs. Volley McDonough presented her plans to the club. She has planned to make it an all-day affair in the form of a fair. Committees and complete plans will be named in the near future.

There were 14 members present.

Norman H. Davis

Norman H. Davis, official European representative of the U. S. and President Roosevelt's Ambassador, at-large to the Geneva Disarmament Conference and the World Economic Conference, which opens at London June 12, is an American very much in the news today. Mr. Davis has held many important posts since the World War. He was a member of the Armistice Commission; Financial adviser to President Wilson, negotiating peace; Under-secretary of State; U. S. member of International Economic Conference in 1927; and, is now a member of the Board of Trustees of the Carnegie Endowment for International Peace.

The meeting adjourned to the arena where potato and keg races were run on horse back. Miss Thelma and Myra Prater, Miss Willie Mae Gaines and Mrs. Less Byrd were the performers.

The next meeting will be at the home of Mrs. E. J. Pyle, the second Friday afternoon in June. Miss Malone, the county agent will demonstrate on the arrangement of flowers.

A FRIENDLY TALK

I have just read in a big daily newspaper, a very learned discussion by a high-powered health-columnist, of the action and uses of THYROID. Of course many physicians may be attracted by the heading, and read for their edification what a brother has to say to lay readers. But I am of the opinion that the article was worth next to nothing for the average business man or family.

The ultimate effect of thyroid when administered as a medicine is a subject for serious debate among skilled scientists; all do not agree by any means, upon its action, or, the chief indications for its use—Then, why introduce it to the lay readers? Since it takes many years of intense application to make a skilled physician, why try to make the average newspaper reader into a bewildered pseudo-scientist?

Thyroid should never be taken or administered without the advice of a capable physician. I have had middle-aged ladies ask me, 'doctor, don't you think I need THYROID?' All she knew about the powerful gland extract she had gleaned from the newspaper! It was only a step for this woman to go to the drug-store and buy a package of thyroid tablets—and go to taking them on her own initiative! And—nine times out of ten—the very thing she did not need.

I must say to my readers that I am exceedingly 'leary' of the discussion of powerful, dangerous drugs to the layman. It may lean the best of people into harm.

That's why my 'talks' abound in simplicity. I'd rather give you a hint based on common-sense—how to behave in emergency—or how to deal with a sore toe to the best advantage. I wouldn't stuff my reader with chemical equations and disputed theories on vitamins and hormones—even if I were qualified to do so. My technical talk belongs in the medical society.

The Biggest News Since Fresh Gas... That Good Gulf Gasoline is now lubricated!

Gulf stations from Maine to Mexico are now offering a motor fuel that surpasses everything that has gone before.

This great fuel is new in everything but name. It actually gives greater mileage and cuts repair costs—because it lubricates the upper cylinder and valves.

The new lubricating Good Gulf Gasoline contains an upper cylinder lubricant made by an exclusive Gulf process. This lubricant—correctly blended with that Good Gulf Gasoline, the famous fresh gas

—makes today's greatest non-premium fuel for modern motors!

It lubricates the intake valves, prevents sticking, and forms little or no carbon!

If you want to get more and lower cost miles out of a gallon of gas, try the new Good Gulf Gasoline today. It doesn't cost a penny more.

ABILENE CHURCH TO OBSERVE OLD TIME RELIGION DAY 11th

June 11 will mark the ending of a five year's ministry of the Rev. Johnnie Lovell of Abilene, Texas as pastor of the Trinity Baptist Church. On that day the church is going to have what they call the "Old Religion Day," which means the people will come to church in wagons and buggies; the men will wear overalls and the women mother hubbards and the music will consist of an old-fashioned organ and there will be all the other trimmings of the old-time religion. This will be Rev. Lovell's farewell day with his church.

Rev. Lovell is resigning at the insistence of several doctors who have been working on his case and all of whom say he must give up his work and rest at least one full year in order to overcome his extreme nervousness and gain his strength back that he might carry on his regular work. Lovell plans to spend the year in Florida.

Rev. Lovell graduated at Simmons University in 1931. He worked his way through High school and college. He has been preaching six years, the very day he resigns. During that time he has conducted 35 evangelistic campaigns; has preached something like three thousand sermons and baptised approximately 1500 people during his ministry as pastor of the Trinity Baptist Church. The church has grown from a membership of fourteen to a membership of 2700. The present building seats around three thousand people. Lovell invites all his friends and radio listeners everywhere to be present on his farewell day June 11.

When You Need Fine PRINTING "YOUR'S FOR SERVICE"

Mrs. E. O. Adams, Billie Mac and B. W. were in Santa Anna Tuesday. New York's stock exchange was organized in 1792.

LET US CONSIDER OUR CLOTHES---

There is a difference, when your clothes are cleaned properly with modern scientific equipment and when merely dampened and rushed through the age old process of years ago. A complete clarifying system with cleaning fluid, to remove all presence of foreign substance, is used at our plant, assuring an entirely fresh, clean and new fluid for each piece cleaned. Where this plan is not followed, grit, grease, unsanitation from one article may be transmitted to another.

20 years of experience and the best equipped shop of its size in West Texas, are your insurance of perfect workmanship with us.

It is really beneficial to clothes when they are cleaned properly but on the other hand an obsolete method is even more injurious to the fabric and life of your suits and dresses. In this case quality certainly must not be sacrificed.

Our presses are the latest word in mechanical perfection. We believe you appreciate the service we have spent years of diligent effort endeavoring to build up in Cross Plains and upon these points we sincerely beg your continued patronage.
