## HOME TOWN GOSSIP

The longest telephone call of the year from the local office was placed Tuesday night. Elliott Bryant called a little girl in Nashville, Tennessee, and poured out his devotion. We predict a "Social Event".

Cleve Callaway had his first birthday cake Tuesday. Pardon us for revealing the secret but there were 47 candles on it.

Tommie Webb and 'Shortie' Neef are estranged again. It has lasted three days this time. Bet a Schooley doughnut, against a mudpie they're "holsy gotsy" again by Saturday.

Cross Plains has always been more or less 'renown for its good looking girls and that reputation gained even further supremacy when Miss Elizabeth McDermitt paraded around the gymnasium at Pioneer, in the beauty contest, Saturday night.

She won in a walk. Hats off, to the little girl. She certainly electrified a multitude of people with that little smile and purple and gold basket ball suit.

"Choice things come in small packages", says 'Goober' Keyes in reply to our statement that he was mistaken for a little boy sometime ago.

Phil Bingham tells this department that his popularity has certainly skyrocketed since he bought that big, blue Essex, even if he doesn't still have the diamond.

A matter that should be brought to public attention is that of Lucille Burlett and Art Carmichael. Two months ago each was as serious minded as a country minister in his first sermon. Now they even 'giggle' in public.

Reports come from Brownwood that Wilma Pratt has already attracted the social spotlight of Brownwood and that other debutantes have been regulated to oblivion. And from the attractive maiden that Seaborn Collins is escorting about we conclude that the Cross Plains children are doing splendidly in the Brown County seat.

A boot is scratched and a windshield is broken. Could there be any connection? Harlie Neef says not.

Haven't heard any right good scandal on Paul Harrell and Taylor Bond in months. If the old boys don't liven up, we'll be forced to quit snooping on them. It just isn't profitable, that's all.

It is the pleasure of this column to introduce to readers a cancellation test this week to measure one's ability to concentrate. Be sure to not look at the test before you begin.

Two minutes are allotted to finish. Here is the idea. Take a pencil and scan through the columns of figures, cancelling out all figure fives (5). Accuracy is as important as speed. However no more than two minutes—120 seconds—should be taken, in any event.

There are 25 fives in the column of figures. If you scratched 24 of them in two minutes you may conclude that your concentration is efficient. That is, provided you did not take longer than two minutes.

## Cottonwood And Cross Cut Teams Share Honors In Basket Ball Tourney At Pioneer Saturday

### 1,000 PEOPLE CROWD GYMNASIUM DURING 2 DAYS TO SEE GAMES

#### Cross Plains Girl Voted Most Beautiful Athlete At Tournament

Cottonwood boys and Cross Cut girls shared honors in the invitation basket ball tournament held at Pioneer, Friday and Saturday.

1,000 people crowded the new Pioneer high school gymnasium far beyond capacity and scores of others were unable to even get inside the building during the two days of playing.

High spot of the tourney was Saturday evening at six, when all athletes, coaches, superintendents and friends of Pioneer, assembled in the high school building for an athletic dinner, to which members of the Pioneer Parent Teachers Association were hosts. More than 300 people attended the banquet. Superintendent Ira Davenport was master-of-ceremonies. He introduced speakers from all towns represented in the tournament as well as from several other neighboring places, which did not have entries in the athletic competition.

Tournament play was resumed in the gymnasium at seven thirty with Cross Cut girls meeting Crews in the final match for the sextet championship. Cross Cut won and its center, Miss Leta Byrd presented such a brilliant display of basket ball that she was voted the best feminine athlete present at the tournament. The next and final game was between Cottonwood and May boys, with the Callahan county delegation winning by a decisive majority. Diminutive Captain Steele, of May, was voted the best individual performer among boys.

Large, handsome awards were presented Cross Cut and Cottonwood teams immediately after the deciding games by Superintendent Ira Davenport. He also awarded the best individual performers gold basket balls.

In the beauty contest of all girl athletes, Miss Elizabeth McDermitt, of Cross Plains, was voted most beautiful and received a gift from Pioneer school in remembrance of the occasion. Judges in the pulchritude parade were Arthur Seymour, Mineral Wells, W. E. Tyler, Fred Tunnell, Frank Robertson and M. S. Sellers, all of Rising Star, and Jack Scott, Cross Plains.

The tournament was declared by hundreds of people as the most successful athletic festivity of its kind ever staged in this section of Texas. Winifred Brigner, of Cross Plains, refereed boys' game and Lewis Norman of Cross Plains, refereed girls.

### GROUNDHOG SEES SHADOW; 6 WEEKS MORE OF WINTER WEATHER EXPECTED HERE

If tradition runs true to form, citizens of the Cross Plains trade territory are scheduled to have six weeks more of cold weather.

Thursday was 'groundhog day' and the sun shone, giving belief to the idea that the hibernating animal saw his shadow and scampered back into his hole for another six weeks.

Petition of Miss Wilson, a telephone operator, states she purchased the drink at the Woolworth's lunch counter in the local store, November 26, 1932, and drank a portion before discovering it contained particles of glass.

Thursday in a Cisco hospital from heart attack as a result of weakened condition caused by pneumonia. Funeral services were conducted by Rev. C. C. Armstrong, Cross Plains, from the First Methodist Church, Rising Star.

Miss Kaltenbaugh returned home Wednesday from John Tarleton College, Stephenville, where she was a student. That night she became seriously ill and was taken to a Cisco hospital, where she died the following afternoon shortly after six o'clock.

Members of Pioneer high school football team, dressed in letter sweaters, acted as pall bearers; while girl classmates formed a flower escort.

### CROSS PLAINS HAS FOUR BIRTHS TO EACH DEATH

For years the Review has heralded to the world that Cross Plains was a thriving place. Further proof of the point was sustained Thursday afternoon, in a check of death and birth certificates with Justice of the Peace W. C. Adams.

In 1932 there were four times as many births here as deaths. 44 were born and 11 died.

Mr. Adams' record covers only persons who were actually born or died here. They do not take in local people dying in out of town hospital or babies born in hospitals located elsewhere. He stated however that the births and deaths of local people in outside hospitals would be practically the same numbers.

### LOTIEF RESOLUTION TO AIR 'NEPOTISM' PASSES 144 TO 0.

A resolution introduced by Cecil A. Lotief, of Cross Plains, in the House of Representatives, Austin, the past week to investigate state departments for violation of the nepotism law, passed with a majority of 144 to nothing.

Article 434 of the Penal Code of Texas (Nepotism Law) prohibits state officials employing relatives to fill governmental positions. "Rumors are abroad that this law is being evaded by 'trading'", the resolution stated.

In a statement to the Review Monday, Representative Lotief said: "I have been told that departmental heads are getting together and agreeing to employ each other relatives in order to evade our nepotism law. I believe it should be investigated."

The resolution as passed by the House follows:

WHEREAS, Article 434 of the Penal Code of the State of Texas, 1925, prohibits the evasion of the nepotism law by trading between the heads of the Departments of our State Government in order to evade said law; and

Approximately \$700, has been subscribed by merchants and friends of the local school system to pay for materials in the construction of the gymnasium. Labor will be paid for from R. F. C. funds. The school building at Union Hill will be torn down and that material used in building the gymnasium. Detail work was practically complete yesterday at noon for the beginning of widening right-of-ways and improving of the road toward Cross Cut, to the Callahan County line.

DERRICK SLANTS Oil News From Authentic Sources

Greetings, you once respected citizens of the crude oil industry. This column is dedicated to your prosperity and pledged at all times to any movement sponsored to elevate oil conditions to normalcy. It is the hope of this department that oil men throughout this section will avail themselves to the privilege to publishing such oil news herein each week as may be of benefit to the industry throughout West Central Texas.

There is in the Review office a report on every well and lease in the following counties: Brown, Callahan, Coleman, Comanche, Eastland, Erath, Fisher, Haskell, Jones, Palo Pinto, Runnels, Shackelford, Stephens, Throckmorton, Taylor and the South half of Young county. This report is at the disposal of oil men throughout this section and may be examined at any time by them.

Deputy Supervisor Omar Burkett's report to the Railroad Commission for the month of February contained the following information which is of interest to members of the oil fraternity.

Callahan County has 1,626 producing wells with a potential production of 3,428 barrels. 2,893 barrels are being taken daily. There are 35 other producers in this county with no pipeline connection. Most of the 84 barrel allowable of these disconnected wells is being marketed through independent refiners.

In Coleman County there are 422 wells with pipeline connections, producing 3,128 barrels daily. Only 2,375 are being run however. Coleman has 31 producers without pipeline connections. The majority of their 143 barrel allowable is sold to independents, while the remainder is held in storage.

Eastland County has 675 producers with pipeline connections. Potentiality of the county is estimated at 4,366 barrels daily. 4,090 barrels are being run. There are 27 wells in the county without pipeline connections producing 152 barrels.

Brown County leads Callahan by 10 in the number of wells with connections. Allowable in Brown is approximately 700 barrels more daily however. Brown County has 1,686 wells with pipeline connections. Their allowable is 3,644 barrels; 3,598 of which is being taken. There are 63 producers in the county that have no connections, yielding 100 barrels daily.

RHEUMATISM

Mrs. Betty Luedeke of Dayton writes: "I am using Kruschen to reduce weight—I lost 10 pounds in one week and cannot say too much to recommend it."

To take off fat easily, SAFELY and HARMLESSLY—take one half teaspoonful of Kruschen in a glass of hot water in the morning before breakfast—it is the safe way to lose unsightly fat and one bottle that lasts 4 weeks costs but a trifle. Get it at Smith's drug store or any drug-store in America. If this first bottle fails to convince you this is the safest way to lose fat—money back.

But be sure and get Kruschen Salts—imitations are numerous and you must safeguard your health.

Mr. and Mrs. Curtis Burkett and Mr. and Mrs. Edwin Baum, Jr. visited in Coleman Sunday afternoon.

Mrs. M. E. Wakefield and son Murrah, of Brownwood, visited friends in Cross Plains Sunday.

Helped By Cardui

Here's the true story of how Cardui helped Mrs. H. E. Dunaway, of McComb, Miss., as written by herself:

"I was sick and rather discouraged. I was so weak and thin, I was not able to do my work as it should be done. This made me fret a good deal, and did not help my condition."

"I had pains across my back and lower part of my body. My nights were spent in rolling from one side of the bed to the other, hoping I would soon go to sleep. Then when morning would come, I would be just as tired as when I went to bed. A neighbor, seeing how badly I felt, told me to try Cardui. After I had taken one bottle, I was much better. I kept on taking Cardui, and I was stronger and slept much better at night."

### SAMPLES OF SUNNY SQUIBLET

In these dishonest times, people seem willing to take everything except advice.

The people holler about their rights, but they whisper about their duties.

Our people are said to have lost interest in walking, but anyway they want the ghost to walk regularly.

Formerly the girls entertained us by giving us good things to eat which they had cooked themselves, but now they invite us to take them out to some swell joint.

Fifty thousand persons disappear annually in this country but many times that number can't be found when they owe money.

Long tailed coats do not seem as popular as formerly, but they were mighty convenient to pull on when people talked too long.

The young people are urged to keep up with the times, but it is more difficult for the times to keep up with them.

The 48 states live together pretty harmoniously, except the state of matrimony.

If the "underworld" keeps on as it is going, it will soon be the underground world.

### HOME TOWN THOUGHTS

If your home town is good enough to live in, it is good enough to support, by giving its stores your patronage when you buy your supplies.

If you can see faults in your home town, you have probably helped create them by your own negligence.

Out of sight, out of mind, says the old proverb, and it applies to people who keep out of sight through failure to advertise.

They are flavoring a certain brand of lipstick here with different brands of wine. Wine flavored kisses—that's the idea.

Some men here are wearing shoes made of goat skin.

## DIZZINESS

relieved by Black-Draught

"I decided to take Theoford's Black-Draught, as I had been having bilious spells," writes Mr. Charles E. Stevens, of Columbus, Ind. "When I get bilious, I feel sleepy and tired and do not feel like doing my work. It is hard to tell how I feel, but I do not feel good. I get awfully dizzy. I know then that I had better take something. After I found how good Black-Draught is, that is what I have used. I guess it rids me of the bile, for I feel better—don't feel like I am dropping off to sleep every time I sit down. That, to me, is a very bad feeling." Now you can get Black-Draught in the form of a SYRUP, for CHILDREN.

Here's gas to excite motors. It makes them quick on the trigger . . . fast on the move. Choking is hardly required for a quick, snappy start and a take-off like a quail on the wing.

Even old motors . . . wheezy, snorting, complaining motors . . . cut capers you just can't believe. If you doubt it, just try it. It's like rich, racing blood injected into old veins.

This gasoline is so new . . . so "different" . . . so quick, fast, powerful, and economical, it's hard to give it a name. Perhaps YOU can. When you FEEL your motor's response, it may come to you like a flash.

Ask at any Conoco station for the new bronze-colored, high-test gasoline—and an entry blank. Help name it and describe it. You may win a part of \$10,000.00. You are SURE to win a grand, new thrill, and that is worth a heap. Make the test TODAY.

With Pride We Salute A Coming Industry

Depressions and adversities may come and go but there is one source of revenue in the Cross Plains trade territory that will ever survive. The poultry and egg industry is now during the slack season of the year, supporting hundreds of families and stimulating business for more than 50 local merchants.

Saturday alone, 1,860 dozens of eggs were bought by the five produce buyers here. Each of the local produce companies also reports heavy buying of poultry.

The produce business is an industry that should be boosted by every citizen of this section of Texas. It has kept literally hundreds of families from destitute circumstances, and tided an entire community across perilous periods.

Cross Plains is rapidly becoming recognized as one of the most important inland produce markets in the state. The fact that five buyers are located here to bid for farmers' products insures sellers that there will be competitive bidding and that the 'top market quotations' will be recited.

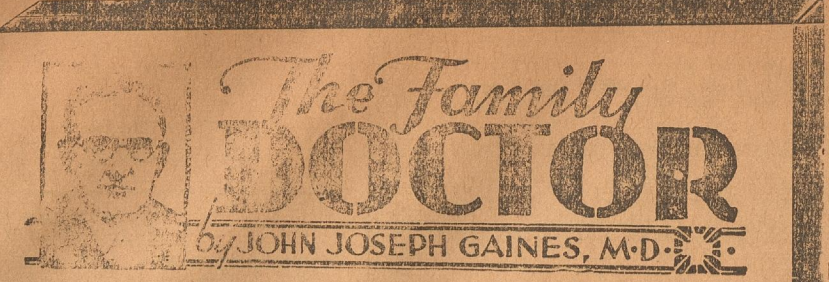

Credit for the fact that Cross Plains has more produce companies than any of her neighboring towns is due entirely to farmers of this locality.

Their vision is to be complimented and their confidence will eventually be repaid with handsome profits.

It is with sincere confidence that we embrace the future of the produce industry for this section of Texas and predict that the cackle of a lonesome hen may be first to announce the truthful return of prosperity.

THIS IS NO FABLE

He was one of the outstanding characters of a great city of the middle West. He had accumulated a splendid fortune — no finer business man. I have just laid aside the paper that detailed his love of home, friends — his love of a bountiful table. He was a wonderful carver of meats, was at his happiest when seated at the festal board, serving his guests. He loved to preface his club meetings and business conferences with the most elaborate dinners — six o'clock, on all week-days, but the Sunday feast shortly after noon.

He had a magnificent mind — could do without sleep in a very astonishing way; often did not retire till after midnight. His associate business men noticed that he dropped asleep frequently on cars, at his desk, or just anywhere that a slight lull in business offered. He was not at all an aged man — not that; why, he was under sixty, if I mistake not.

He almost literally dropped dead in his splendid home the other evening. The city, state, and much of the nation was shocked; there was almost universal mourning. The old old story, "heart disease."

He hadn't learned HOW TO TAKE CARE OF HIS MOST PRECIOUS POSSESSION — HIS LIFE. WHY did he have "heart disease?" There is a cause for every effect. My answer is, OVERFEEDING AT IMPROPER HOURS. Protein food is not to be trifled with. The six o'clock dinner is NEVER perfectly digested in the full-grown human being. Eating heavily at this hour is deadly, if persisted in by the aging man. Note the "sleepy spell," coming on at unseemly hours — the forerunner of apoplexy. The six o'clock dinner is almost universally overweight — has "adipose" stowed away about him to last a year — ballast! Killing more people than alcohol! The wonder is, when will men learn bettel and stop this American blight of "heart disease?" Still, "gluttony and ignorance" wouldn't do at all, I suppose — but that heart was not to blame.

Local Citizens Begin Petition To Be Circulated Over Entire State

The following petition begun in Cross Plains will be circulated and the United States have been hounded, brow beaten, bulldozed, harassed and oppressed, by the great multiply of laws and law enforcing agencies such as commissions, boards, and deputies appointed by them, almost past endurance.

And whereas: it is our honest and sincere opinion that if the present load of excess government is maintained not to say increased, the whole morale of the good people of this state will break down because tax stealing is the greatest source of revenue of all the businesses in this state and nation today.

And whereas; the present legislature now in session is showing no signs of retrenchment but rather signs of expansion; We, the undersigned citizens respectfully petition the forty third legislature of Texas, that during present session, to forget the passage of new laws and supply themselves to the serious business of repealing regulatory laws and especially the laws that created the boards and commissions, and empowered them to employ deputies for the purpose of taking over the duties of the Sheriff. Beginning with the railroad commission, highway commission, banking commission, insurance commission, fish game and oyster commission, and all other commissions who employ deputies to go out over the state and enforce the rules of their commission. Because we sincerely believe that the old established force of law enforcing officers, the Sheriff departments, will enforce any and all laws better and more in accordance with the established plan of Democratic government. We know that will bring the government back closer to the people and there would be no budget balancing to worry about, as you would have more taxes than is needed and the people of this country would be far more happy and contented. Respectfully.

Persons in sympathy with ideas set out in above petition to be presented to State Legislature sign name and address on above blank and either bring clipping or mail to this paper. It will then be placed in hands of committee working on above idea.

Good Health Depends On Mineral Balance  
 Lee's Mineral Compound With Vitamins Builds Bodily Strength and Vigor by Supplying Needed Minerals and Vitamins  
 In the light of recent scientific discoveries, leading Physicians and Health authorities agree that the human race could be practically free from most ailments, and could live to a ripe old age if the system could be regularly supplied with a sufficient quantity of the essential Minerals and Vitamins.  
 AMAZING NEW FORMULA  
 Fortunately for humanity, science has found a way to prevent most of these conditions. After years of careful research and experimentation, a new and remarkable formula has been perfected. This preparation, known as LEE'S MINERAL COMPOUND is a scientific combination of the eleven most essential Mineral Elements of the human body combined with Vitamins. It is not, in any sense, a patent medicine but is more in the nature of a FOOD VITALIZER. By supplying the system with the necessary Minerals and Vitamins, it aids nature in quickly balancing the Mineral content of the body so that good health naturally follows.  
 DEFICIENCY OF MINERALS  
 The process of refining modern foods; bleaching of flour, rice, sugar, etc.; together with improper cooking takes out of our foods the very things that God intended we should have.  
 ACIDITY DESTROYS HEALTH  
 As the Mineral content of the body is lowered, slowly but surely the acid content of the system is increased until it finally reaches the point where the organs of assimilation and elimination cannot perform their natural functions. Our powers of resistance are lowered. Disease germs creep into the blood. The system becomes clogged with impurities. Various aches and pains appear, and before we realize what is taking place, we are on the very verge of a physical break-down.  
 BRINGS QUICK RELIEF  
 Stomach disorders, such as indigestion, hyperacidity, "heart-burn," gas, and bloating soon yield to this amazing natural compound. Constipation and attendant ills, such as nervousness, headaches, biliousness, bad breath and hollow skin, soon give way to a feeling of renewed strength and vigor.  
 MAKE THIS 10 DAY TEST  
 Convince Yourself!  
 Stop dosing yourself with "patent medicines," harsh purgatives, oils and cathartics for just 10 days. Go to your nearest Druggist and secure a bottle of LEE'S MINERAL COMPOUND. Take it regularly, and watch the results. You'll be amazed at the feeling of renewed strength and vigor that soon appears. No narcotics or alcohol to "boost you up" but a natural method of restoring health and energy.  
 FOR SALE BY SIMS DRUG CO., CROSS PLAINS and other gooddealers everywhere, or send \$1.25 to Lee's Laboratories, 12 Gilmer St., Atlanta, Ga., for large bottle, postage paid

## WOMAN LOST TWO LBS. IN A WEEK

Mrs. Betty Luedeke of Dayton writes: "I am using Kruschen to reduce weight—I lost 10 pounds in one week and cannot say too much to recommend it."

To take off fat easily, SAFELY and HARMLESSLY—take one half teaspoonful of Kruschen in a glass of hot water in the morning before breakfast—it is the safe way to lose unsightly fat and one bottle that lasts 4 weeks costs but a trifle. Get it at Smith's drug store or any drug store in America. If this first bottle fails to convince you this is the safest way to lose fat—money back.

But be sure and get Kruschen Salts—imitations are numerous and you must safeguard your health.
