THE  
EDITOR'S  
MAIL

I want to go see dad and mother next Sunday. Well we will try and go. So she washes, irons, patches, cans and sees after the chickens and cooks three meals a day and cleans house all week. Sunday comes and husband says well I don't see how we can go to see your dad today. I got to go over to Joe's and get a piece for the tractor. I'll be back by noon, and we'll go to singing. Off he goes and she cleans house, cooks dinner has it ready on time, but no husband and night night. He comes in, well I aimed to come back at noon but just couldn't get away from Joe. Well we'll go to your dad's next Sunday.

It's the same hard work over all the week and Sunday comes again, I don't see how we can go to your dad's today, I got to go see Bill Jones today, about that cow so off he goes she stays all day just her and the kids. Well Monday morning comes, husband said I am going to town this morning if your dad and mother get ready and hurry, well the dishes aren't washed, the milk is not put up.

Well if you are going, hurry, she runs in gets her dress and pulls it over her head and puts the baby's dress on in the car and a way they go and she gets about half way to town, she said oh, I forgot to bring mother any milk, well maybe I will think of it next time. They get to where he gets out, now you hurry I will be ready to go back in a few minutes, now don't stay long, hear. Hello mother, how are you and dad, well I can't stay long Bill told his to hurry, mother I got off in such a hurry I forgot to bring you any milk. So in the car she goes back to town. Husband said, I told you to hurry and I have been waiting a half hour. Well I didn't even sit down, husband never asks in your dad and mother well, he doesn't have time, he has to get back and fix the tractor. Now you can see why dad and mother are forgotten. These young people don't have time to fool around, since tractors and combines came in style. Poor old dad and mother have to make a go of it the very best they can. If they get by it's

fine and if they don't the young folks just can't help it but remember you are going to get old yourself someday and there is coming on a faster generation than this one, you better look out you will be neglected too. Mrs. S. N.)

**"MURDER IN GREENWICH VILLAGE" BOOKED FOR LIBERTY ON THURSDAY**  
Death and laughter pool their resources for entertainment's sake in the new Columbia picture, "Murder in Greenwich Village," which is scheduled Thursday only at the Liberty Theatre. There may not be anything funny about a murder—or even two murders—but the complications arising therefrom might possibly be humorous if done as cleverly as this film is supposed to be.

Richard Arlen, lately featured in "Artists and Models" and "Silent Barriers," plays the leading male role in the picture. Fay Wray, whose most recent appearance was in "It Happened in Hollywood," portrays the top feminine part. These two stars, incidentally, have to their credit a long string of successful screen appearances together.

Steve Jackson (Arlen), an energetic young commercial photographer, gets involved in a murder case when Kay Cabot (Miss Wray) whom he meets accidentally, is accused of murdering a painter in Steve's building. The girl maintains that she was in the building visiting Steve. Things get more and more tangled up as one of Steve's models suggests blackmailing Kay's father and is found strangled to death.

The picture reportedly builds up at a fast pace from this point on with romance and plenty of mystery tossing the principals about with wild abandon. The stormy waters do not subside, as a matter of fact, until there is at least one more spirited killing.

Featured with Richard Arlen and Fay Wray in the picture are Raymond Walburn, Wynne Gibson, Scott Colton and Mary Russell. Albert Rogell directed. Michael L. Simmons wrote the screen play, from the story by Robert T. Shannon.

Mrs. Leona Gott of Abilene spent Sunday here with her sister, Mrs. W. J. Gray.

## PARTNERS IN SAFETY!

**SELECT AND BUY Firestone GUM-DIPPED TIRES**

YOU may never drive your car at the record-breaking speeds made by America's famous race drivers — but isn't it a comforting thought to know that Firestone Gum-Dipped Tires have proved their SAFETY at speeds much higher than you will ever drive? In planning your Fourth of July trip or your summer vacation tour, guard your life and the lives of your family with the only tires made that are Triple-Safe.

By Triple-Safe we mean —

First: Every fiber in every cord of every ply is saturated and coated with liquid rubber by the Firestone patented process of Gum-Dipping which counteracts tire-destroying internal friction and heat. That means protection against blowouts.

Second: They have two extra layers of Gum-Dipped cords under the tread. That means protection against punctures.

Third: They have a scientifically designed tread that stops your car up to 25% quicker. That means protection against skidding.

Only Firestone gives you these patented and exclusive SAFETY features. Join the Firestone Save-A-Life Campaign today by equipping your car with a set of new Firestone Tires — the only tires made that are safety-proved on the speedways for your protection on the highways.
