PREVENTATIVES FOR PNEUMONIA TOLD BY HEALTH DEPARTMENT

Pneumonia is a seasonal disease, n that the incidence and mortality s much increased during wet, cold weather, according to Dr. Geo. W. prevalent and serious in towns where contacts with people are more common. Pneumonia is ly so to persons in a run down condition. This accounts for the number of cases following illness with

The germs that cause pneumonia tre spread by careless coughers, meezers, spitters, and the things symptoms are usually a severe chill and fever, a very sick feeling, loss of appetite, rapid breathing, and a heavy sensation in the chest. Sometimes coughing brings up blood from the inflamed lungs. Any of these signs should be the signal for going to bed at once and sending for your doctor, says the Texas de-

partment of health. The familiar rules of the preventon of other respiratory diseases apply to pneumonia. These rules not be put on or off at times of prevalence or absence of disease. Persons should avoid careless coughers and sneezers, even if you have to be rude. Wash your hands thoroughly before each meal. Keep your hands, pencils, money and oth- influence any more than I. er such things away from your mouth and nose. Get plenty of fresh air day and night. Exercise and eat in moderation and wear clothing suitable for the weather.
