It is reported that the entire democratic ticket was elected in Taylor Co.

The election has about wiped up what was left of the populist party four years ago.

Defeat does not kill the democratic party, if it would have the democratic party.

The democratic party looks a good deal like a ferocious bear after a collision with a freight train.

Don't lay the disaster to the democratic party on Bryan because no one could have won on the Kansas City platform.

It doesn't seem to be such a jump affair from Populism to Hamiltonism as many in this county made the jump without any qualms of conscience during their electoral careers.

No, dad blame his, it's not pleasant to run over by the band wagon. We hope this will be sufficient answer to all those who are so anxious to know how the STAR feels over the national election.

The old democratic party is good enough, but if Mr. Fitzgerald and other malcontents want to go out and form a new party is them so. The democratic party will still do business as of old stand, though it is probable that it will change its platform to suit the times and the progress of the age.

Baird still remains the Gibraltar of Democracy in Callahan County. As compared with the vote in 1890 the democratic vote since the republican vote shows an increase in the republican vote over former years. Two votes in the county went republican, something that cannot happen in this county and that we look for the republicans to poll a large vote in this county in the future.

Well boys, what do you think of it for or not so? The delegates at the county democratic convention at Baird last summer were perfectly delighted with the ease in which they ran over the Editor, I. N. Jackson, and a few others who played with the wire.

Mr. Austin is authorized to receipt for any money paid on these accounts. Most of these accounts have now been carried over nearly a year. We cannot afford to carry them any longer. R. Judge J. E. Thomas, of Dallas, was in town last week attending District Court and granting old friends who are glad to see him again.

THE ELECTION.

The election Tuesday was a regular Waterloo for the democracy, the worst defeat the party has met since the war. Even Seymour made as good a show as he could with nearly all the Southern states under carpet-bag rule or not voting.

The reports give McKinley 333 votes in Baird. This is a net loss of 33 votes over 1896 for Bryan. Considering all the circumstances, no party has had more disastrous defeats in the past fifty years, and any other than the democratic party would be annihilated, but time has proven that the democratic party can survive most anything. That the party will rise again more powerful than ever, we have not a doubt. All that is needed is co-operative action and wise leadership and four years from now we will all surely elect a democratic president.

All we need is courage and all will be well. Never give up the ship should and will be the motto of every true democrat.

The writer does not consider that he is an old man, yet he has passed through seven presidential campaigns since the civil war. The Greely campaign was the first at which the democratic party was forever destroyed, yet four years later Samuel J. Tilden was elected by a majority of 10 in the electoral college, though the congress counted him out and gave his unsuccessful rival, Hayes, 20 of his votes. In 1884 the party was again defeated, but elected Cleveland in 1894.

The republicans have made a clean sweep and have both branches of congress and cannot escape responsibility which they would have attempted had the democrats carried the house. It is better for the democratic party and better for the country that they have the house of representatives as long as they have the senate and chief magistrate. A democratic house could have done little better for the country in the face of a hostile senate and chief magistrate, and in the next campaign the republicans, being as escape goats by the republicans to carry the sins of omission and commission by that party.

Though, but it will come out all right in four years from now. The democratic party will get back to old time principles, which they have in some instances drifted away from. A tariff for revenue only and sound money have always been cardinal principles of the democratic party. We have ignored the first in the last two campaigns and by advocating it to have, to say the least of it, been mischievous. By committing it to a law have caused most of the business men of the county to turn against the party. At best it is only a question of judgment and not principle, because so one knows what 422 grains of silver would be worth with a mint coinage of the free coinage of silver. The democratic theory is, or at least up to 96, was that a silver dollar must have one dollar's worth of silver in it and a gold dollar the same. The party went to sea and got shipwrecked twice on the 16 to 1 or best policy, and no one will hardly have the hardihood to lay the party make the third attempt. The party will learn wisdom from past mistakes. It is at four years from the party who are rejecting so much over one defeat and discomfited will have faces yawning long when the returns come in.

THE ELECTION AT BAIRD.

The election Tuesday was about the quietest and most spiritless presidential election we ever witnessed at Baird. Only 211 votes were polled, about one hundred less than the voting strength of the city. The democratic national ticket received 201 votes and republican 35, a net loss of nine for the democracy and three for the republicans compared with the vote of 1896.

FOR GOVERNOR.

Sayers, Dem., 1896, 215
Hannay, Rep., 1896, 13
The District and County tickets received about the same as the democratic ticket.

The Western Union ran a wire into Hotel Seay where the bulletins were received by H. N. Tread, operator. A large crowd gathered there to hear the news, democratic and republican alike, confident of success for their respective tickets. The first news from the east was most encouraging for Bryan and the democrats raised a wren-song that made the republican look mighty sore. For a bit it looked like a good slide for Bryan, but within a few moments the returns showed a strong republican trend and the republican supporters were confident and showed their pleasure by telling the democrats they knew it all the time. By 10 p. m. news of democratic disaster in the east caused the democrats to lose hope and most of them went home and left the field to the republicans.

A democratic bill would have been the best that would save the day, but when returns later showed losses instead of gains in the western states the only consolation was how big would McKinley's majority be. News from the county is that the vote is light at every box, probably 100 to 1000 over 1700. The democratic vote for governor falls below 100 in the county we will have only 2 votes in the next democratic state convention unless we had had the county. However, Sayers is running ahead of the national ticket, and probably there will be no change on that score.

The democrats have made a clean sweep in the county and elected all the county officers, including the commissioners, something that has not happened also the rise of the Union Labor and afterward the populist party.

The following is a list of the county officers elected:
B. Russell, County Judge.
W. P. Cochran, Co. Atty. Gen.

We have heard it said that some towns in East Texas are paying one cent per pound more for cotton than Baird. We publish one week Galveston and Baird prices and it can be seen that the price at Baird are better than paid at Galveston counting freight. The merchants of Baird have always paid as much or more than cotton is worth on the market. Nine times in ten they pay more and no one has any room to grumble at prices paid here because they are at good and better than many adjacent towns are paying.

No town in Texas pays more for cotton than Baird, counting freight. If there is, give us the name of such a town and we will publish it. As a matter of fact, we know that for the last ten years the Baird merchants have paid thousands of dollars more for cotton than they sold it for. We remember a few years ago when the losses on cotton bought by Baird merchants amounted to over ten thousand dollars. We doubt if there is a merchant in Baird who has ever come out without loss every year, occasionally they make a little, but we believe they lose three times as much as they make. If cotton was worth 8 or 9¢ in Galveston some 4 or 5¢ in Baird. This is not reasonable. The Baird means pay every cent they can afford and more too if they do not make a profit on goods sold.

As They Appear to Have Carried All of the Doubtful States.

Popular Majority of McKinley Will be Much Reduced, Perhaps Overcome.

New York, Nov. 7.—President McKinley has been re-elected by a sweep. His majority in the electoral college will not materially differ from the figures of 1896, but there have been decided changes in his plurality. He is 100,000 under his former plurality in New York. He is much in Pennsylvania, 50,000 less in Massachusetts, and these percentages of reduction hold good in a number of states. In the states which he has carried his aggregate plurality is possibly more than a million under his aggregate plurality in the same states in 1896. The returns from the certain Democratic states are too meager yet to determine whether Bryan has maintained his former pluralities in those states. If he has, it is likely that McKinley has lost his popular plurality of four years ago and more than 600,000, or at least the greater part of it, and it may even prove when later returns are at hand that Bryan, hopelessly in the minority as regards the electoral college, has actually received a popular plurality. In the east, with the exception of a few lead cities, McKinley has received less votes than he obtained in 1896, and his increased correspondingly, but in no instance has the change been serious for the Republicans. Their margins were so great that they could well afford to lose many, and they expected to lose many. Indications are that in all of the northern states the total vote will be greater than four years ago. There have been great Democratic gains in cities like New York, Boston, Chicago, Cleveland, Buffalo, Jersey City and Philadelphia, due to Bryan's popularity among the laboring men. All these cities voted heavily against Bryan formerly, and now he has overturned adverse majorities and carried most of them. Good standard Democratic names, the business men have apparently again voted solidly for McKinley, and to them he is again favored for his election. In the middle west, where Bryan's substantial losses, made good his claims of gains in the rural precincts, while they suffered losses in labor centers. McKinley has carried the following states by pronounced pluralities:

New Hampshire, 4; Vermont, 4; Massachusetts, 15; Rhode Island, 4; New York, 16; Pennsylvania, 22; New Jersey, 10; Michigan, 14; Minnesota, 9; Wisconsin, 12; Iowa, 14; Missouri, 17; Ohio, 25. These states have a total of 212 electoral votes, or just twelve short of the number necessary to elect, leaving Maryland, Indiana, Wm. Virginia, Delaware, Kansas, the Dakotas and the Pacific states of California, Oregon and Washington, with a total of sixty-six votes, all claimed by Republicans, to draw from.

If, as appears now, McKinley has carried all of these, his vote in the electoral college will be 276, as against 271 in 1896.

Bryan has certainly carried the following:

Maryland, Baltimore, Md. Nov. 7.—McKinley has carried Maryland beyond the shadow of a doubt. His majority there is about 19,000. Chairman Vandiver of the Democratic state central committee admits Bryan's defeat in the state. It is also certain that the Republicans have elected four out of the congressmen, while the remaining two will probably be Democratic, although later returns may change this picture.

Indiana, Indianapolis, Ind. Nov. 7.—Both the Democratic and Republican committees claim the state, though they fret and fume in support of their claims. The Louisville newspapers think that Bryan and Berkham or McKinley and Yerkes have gained the victory in this state, just according to whether the papers supported the Democratic or Republican tickets in the campaign just closed. McKinley's majority in 18 Indiana is 402. In the same precinct the majority of Yerkes, Republican candidate for governor, over Democratic, is 449. The Democrats are claiming gains out in the state.

Wisconsin, Milwaukee, Wis. Nov. 7.—Returns from Wisconsin up to 10 o'clock last night are comparatively few, but show on their face, when compared with the vote of four years ago, that McKinley has carried the state by a large plurality, equal if not exceeding the figures of 1896, which were 105,812. M. LaFollette, Republican candidate for governor, and all the Republican congressional candidates are elected.

Minnesota, Minneapolis, Minn. Nov. 7.—Returns from Minnesota up to 10 o'clock last night are comparatively few, but show on their face, when compared with the vote of four years ago, that McKinley has carried the state by a large plurality, equal if not exceeding the figures of 1896, which were 105,812. Lincoln, Neb. Nov. 7.—Mr. Bryan re-elected returns at his residence in this city. His house was lively every night by newspaper men and telegraph operators. The first bullet was one announcing that Poughkeepsie, N. Y., had given McKinley a majority of 137, and this was followed by another bulletin to the effect that Bluff had gone for Bryan by 1723 majority. When shown this message he simply remarked that it was encouraging.

The other bulletins from New York come in thick and fast after that, and while Mr. Bryan made no comment there was a feeling among those present that he was disappointed in the returns from New York city and Brooklyn. On the other hand there was considerable encouragement from the interior of New York state, and especially gratifying was a message from National Committeeman Mack saying that Buffalo had given McKinley a majority of only about 3000, against a plurality of 12,000 four years ago. Coming closely upon the heels of the Buffalo dispatch was one from a friend in Boston announcing that city to have gone for Bryan by a majority of 7000, as against 17,000 for McKinley four years ago.

The early dispatches indicated the loss of Maryland, and this was also a disappointment for it had been believed that that state was fairly safe for the Democratic ticket. After receiving the earlier returns in this city Mr. Bryan retired to his private apartments, which were visited with a special wire. Both he and Mr. Bryan were in a cheerful mood. At 8 o'clock, when the newspaper men at Mr. Bryan's house sought to get a statement from Mr. Bryan, they were told that he had just gone to sleep and could not be disturbed.

From Madison, Canton, O. Nov. 7.—The president's first congratulations from headquarters came from J. H. Manly at New York city as follows: "Praise God for whom all blessings flow. Your triumphant re-election is conceded by Democratic managers. I am glad to see the state returns. We are very happy at headquarters."

Canton, O. Nov. 7.—President McKinley cast his ballot at 3:30 Tuesday morning. He had gathered in front of the booth and the precinct about hands with many and greeted them pleasantly. Down Market street he and Judge Day walked at the head of the parade and the president was enjoying his hat to the many greetings along the way. The windows of one of the stores were crowded with workmen who gave him a cheer as he passed. At the voting place a crowd had collected to see the president enter. He shook hands with some of the officials and then stood while the operations required by law were asked. His registration number was 502 and his vote was 127. The total vote in the precinct was 212. The question answered, the president started into the booth and remained fully a minute scanning the ticket before casting it into the ballot box. Judge Day then voted and the party started back to the house.

State's Statement. New York, Nov. 7.—Ex-Gov. Stone at midnight last night made the following announcement: "I give up. The returns telegraphed to me from New York, New Jersey and Connecticut show that these states have gone Republican. Returns are incomplete from Maryland and West Virginia. My information from the middle and western states is so indefinite that I cannot form an opinion as to the results. As I do not know the facts I will wait before I will say what I think of the final result."

Both 'Union Reports. Louisville, Ky. Nov. 7.—Both the Democratic and Republican committees claim the state, though they fret and fume in support of their claims. What Payne Says. Chicago, Ill. Nov. 7.—Vice Chairman Payne of the Republican national committee issued the following statement: "McKinley has surely carried all the states claimed by me, excepting those by Kentucky, and returns indicating that we have beaten Bryan in Nebraska. There was high good humor at Republican headquarters all through the early part of the night, and as the returns came in the way to add to the good feeling, the crowd that thronged the headquarters rent the air with applause and cheers. A message from the state was received by Mr. Payne, reading as follows: "All New England, Maryland and West Virginia are in the Republican column."

The hilarity rose high when a message was received saying that Sioux Falls, S. D., the home of Senator Pettigrew, had given McKinley a plurality of 485. "Here we stand again, out-ginged by our 'Good Boy Pettigrew,' and Mr. Payne urged Chairman Hanna 'It's time to fill up.' "Lentville, following close upon that from Sioux Falls declaring that Congressman John J. Leach had been beaten in Ohio received even a more hot response. Dispatches from Bloomington stating that Stevenson's precinct had been carried by McKinley by 308 to 112, a surprising showing, which was redoubled later on by the announcement that Bryan's precinct had been carried by McKinley by 208 to 20 men at the Democratic committee (refused to acknowledge the election of McKinley, saying that the early returns were all in favor of the Republican candidate, and there was much ironical applause for Chairman Stone, National Committeeman New in Indianapolis, who had been elected city and county clerk. "I am not getting of half-bred, but we have certainly carried Indiana by an increased majority over 1896."

At the state where we have already claimed," said Mr. Payne. "We now hold the following: Kansas, 16, California, with the vote Bryan lost in 1896, 2, South Dakota, 2, North Dakota, 2, Utah, 2, Washington, and Wyoming 3 votes, making a total of 295 electoral votes for McKinley. To these will probably be added Kentucky, with the vote lost four years ago, and Idaho with three, making a total of 299 votes."

At 11 p. m. Chairman Rowe of the Republican state central committee gave out the following statement: "I see no reason at this hour to change figures of the state central committee issued before the election. McKinley has carried the state by 16,000 outside of Cook county. In Cook county the indications are that both McKinley and Yates III have a majority with McKinley in the lead by about 15,000. I estimate his plurality in Cook county at 25,000. Chairman Watson of the Democratic state central committee refused to concede the state to McKinley, and claimed that Alchew, Democratic candidate for governor, had carried the state by a large majority."

Conceded Nothing. Chicago, Ill. Nov. 7.—The belief prevailed last night at the Democratic national headquarters that the battle in fact and the McKinley has been elected by a larger plurality than he received four years ago. Senator Jones, near whom was seated Ex-Gov. Alchew, was one of the work of West street gathered bulletins from various states and commenting upon the figures. He said: "I do not know yet. The returns are too meager to make a prediction. "We are going to win yet," said Ex-Gov. Hogg. "These figures are dictated by the work of West street gangsters. They do not represent the will of the people."

While conversing with the two ex-governors, Senator Jones was shown a telegram from New York stating that W. J. Stone had conceded the state to McKinley by over 100,000. This only comment was: "Well, that may be right, but I am not going to concede anything now."

Liquidators of the Old Texas Express Company

AFTER WELLS-FARGO PEOPLE

For Bill a Times Dollars, and Also Be sure an Advertiser of Fifty Thousand.

New Orleans, La., Nov. 6.—In the civil district court Monday a suit that really ranks as the biggest trial here in recent years was entered by the liquidators of the Texas Express company, a corporation established in this city in 1846. The suit involves the liquidation of the partnership existing between the Wells-Fargo Express company and the old Texas Express company, and a sum that will reach over \$500,000. The damages sued for amount to \$500,000, and besides that sum an additional \$50,000 is claimed as recompense for the alleged appropriation by the Wells-Fargo Express company of the personal property of the plaintiff company. The Texas Express company at one time had an extensive business in this city and Texas. Besides the monetary interests involved the suit has for its object the forcing of an accounting and certain partnership arrangements formerly existing between the Texas company and the Wells-Fargo company.

The arrangement provided for a joint express business over roads between New Orleans and El Paso, Tex., the business to be operated by the Wells-Fargo company. The complaint is that the last mentioned company did not fairly account for this business, and suddenly terminated it without the purpose of appropriating to itself the good will and established business of the joint concern. It is charged that the Wells-Fargo company appropriated all the property of the joint concern. After a lengthy statement of the arrangement in question and of the business, the petitioner claims the value of the personal property of the joint concern, stated to be over \$100,000, and for an accounting of the partnership business and claim \$500,000 as the value of the good will and established business of the defendant company and its own property appropriated to itself and its own use. The liquidators, in whose name the action is brought, are E. P. Lousiana of New York, J. J. Virginia and C. L. Loop of Chattanooga.

Mother Hubbard's parade.
Wheeling, W. Va., Nov. 5.—"Mother Hubbard's parade," the evening before presidential election, when the members of the marching clubs of all parties come together and join in a great demonstration in honor of the Woman's Suffrage candidate for president, is unique and original with this city. Monday night's affair in honor of Mrs. Catt was the largest on record, fully 2000 marchers being in line.

The real woman's suffragists had, however, on this occasion, entered an emphatic protest against the demonstration, but the opposition seemed to add to the favor with which the march looked at it. Over 30,000 people filled the streets and laughed at the speaker and his distasteful comments—the marchers were brought home.

Pritchard, from Boston Oct. 27, which arrived here Sunday morning, brought fifty members of the crew of the fishing schooner Mary Mowatt, which the Saxonia sank off Gloucester on the day of her departure from Boston. One of the crew was drowned. The Cunard-er was not damaged. Dr. Bond of Chelsea, Mass., one of the attending physicians, made the following statement regarding the accident:

"We were proceeding at reduced speed in the fog and blowing the whistle, when about 6 p. m. a lookout man reported a sail ahead. The engines were stopped, but the steamer's way carried her into the Mary Mowatt, making a big opening amidship and flooding the schooner."

"By this time the Saxonia's passengers were in a panic. The boat was one of great motion, while appalling shouts proceeded from the schooner, whose crew, however, worked vigorously and got out two boats into three fifteen of the crew scurried and put off from the sinking vessel.

"At the moment of the collision the schooner's lifeboats were all empty and scattered life belts. Fortunately the sea was smooth. Twenty minutes later a dory came alongside with ten men and five of whom had been rescued from a sinking dory and the other of whom had fallen into the sea and narrowly escaped drowning. All the men are Portuguese."

Shoenfelt Urges that Congress Protect Indians

FROM THE GREED OF WHITES.

In His Annual Report He Insists that Congress Stop Unlawful Occupation of Red Men's Land.

Washington, Nov. 6.—United States Indian Agent Shoenfelt, in charge of the Union Agency, whose jurisdiction comprises the five civilized tribes, protests in his annual report against unlawful occupation of the Indian lands and urges rigid congressional legislation to protect the Indian citizen against the encroachment of aggressive white men. Of 2000 complaints filed against the Indians in the past fiscal year a large majority were against white men who had encroached themselves upon the Indian lands and obtained their confidence to a sufficient degree to secure possession of their prospective allots. The total population of the five civilized tribes is estimated at 47,700, comprising 20,250 Choctaws and freedmen, 10,500 Chickasaws and freedmen, 10,000 Creeks and freedmen, 4000 Seminoles and freedmen, and 2000 others. They lands comprise a total of 1,878,968 acres.

A large number of these white men are actually making their settlements on the Indian lands and are obtaining their confidence to a sufficient degree to secure possession of their prospective allots.

The report recommends that congress appropriate out of the Cherokee lands a sufficient amount to pay the indebtedness of the nation; that congress pass a law to prevent the sale of land in fee simple; that congress pass a law to prevent the sale of land in fee simple; that congress pass a law to prevent the sale of land in fee simple.
