TEXAS

A slender young fellow alighted from the Sunshine Special late on a bright July afternoon in 1921, carried a suitcase four blocks to the business section, registered at the Stanley Hotel and inquired the way to the Daily Oil Belt News office.

The big boom had ended only a few weeks before and everybody was broke. Of course, that didn't bother me; I was used to it.

However, as showing the glorious uncertainty of oil, although thousands of holes costing many millions of dollars had been drilled in the county from 1917 through 1920, the Lake Eastland pool was discovered three miles northwest of town, soon after my arrival and the almost deserted streets took on life again. Then the Martin pool was found, just a mile south of town; and still later, down in the southwestern corner of the county, the Pioneer field was discovered—and one of the wells there was rated as bigger than the biggest during the great rush.

Sam Knepley, an independent operator back in the 20's in Eastland, had one of the best natural gifts of humor I've ever known. He told of having seen a stage mystery play, "The Cat and Canary" in St. Louis. "Was it scary?" somebody wanted to know. "Why," Knepley said, "it was so scary that I just spent the rest of the night in the theater."

When Lindbergh took off to cross the Atlantic Ocean, football fans in the Oil Belt quit talking about their favorite pastime to wonder if the Lone Eagle, would make it. "I'll take Lindbergh if you'll give me six points," Knepley remarked.

He expressed the opinion freely and frequently that Jack Dempsey would whip Gene Tunney in their second fight. That night, however, after Tunney had won the battle of the "long count," Knepley (noted for his fondness for thick steaks) came out of the Majestic Cafe wielding a toothpick ostentatiously and remarking, as if to himself, "That chili certainly was good." Then he walked up to a group on the Palace of Sweets corner (he knew them all very well) and said, "Men, I'm a stranger in town; can you direct me to the Salvation Army?"

Here and there: "Isn't it great to live in Paris, Texas, instead of Paris, France?" asks Lon Boynton of the Lamar County Echo—to which we echo, "Yes, brother."—"Jarring John" Kimbrough, All-American fullback of Texas A&M and hero of the Sugar Bowl victory, is for Jerry Sadler for Governor because "he is interested in seeing that something is done to help young men and young women. Naturally, Jerry Sadler would think of us young folks because he is a young man—32 years old. Furthermore, he would think of the young man desperately looking for work because Jerry Sadler has known what it is to be broke and hunting for a job."—And C. S. Boyles, Jr., editor of the Lufkin Daily News, "scores" again by sending a staff member, Clayte Binion, all the way to Philadelphia to "cover" the recent Republican national convention.

More Eastland County memories: There was the time that an eccentric old woman, after having been acquitted of murder, began farming and applied to the bank for a loan, her letter reading: "For security, I can give you County Attorney W. J. Barnes and a bull yearling." The banker, after a hearty laugh, accepted the yearling as sufficient security.

Beside the highway between Eastland and Cisco, there is a little country cemetery. Once a church stood nearby but it burned down

Fines Recently Assessed By AAA Give Notice Regulations Will Be Enforced

Fines recently assessed against Cameron county residents for violations of the marketing quota provisions of the Agricultural Adjustment Act leave no doubt but that the AAA will enforce these regulations, J. Lester Farmer, chairman of the Callahan County ACA committee, points out.

Federal Judge James V. Allred assessed fines ranging from \$1,000 to \$10,000 against the two partners in a San Benito gin, the book-keeper for the firm, and a farmer, all of whom pled guilty to violating the marketing quota regulations. The two owners were fined \$10,000 each with \$9,000 suspended pending good behavior for three years.

The owners and the farmer had been indicted for conspiracy to defeat and evade the AAA act of 1938 and to defraud the U. S. government of penalties due on cotton sold in excess of allotments granted to certain farms. All four defendants were indicted for conspiracy to violate the 1938 act and to defeat, evade and impair the agricultural policy of the U. S. Government by submitting false and fraudulent reports.

Under the Agricultural Adjustment Act of 1938 a national marketing quota for cotton is proclaimed whenever the cotton supply is too large and the price too low. To make the quota effective, cotton farmers throughout the nation must approve it by a two-thirds majority. Otherwise it is not enforced. When quotas are in effect, a three-cent per pound penalty is

collected on cotton marketed in excess of quotas, but the producer may market all the cotton produced within his acreage allotment without penalty.

All-risk crop insurance indemnity payments to Callahan county growers who suffered losses have passed the \$1800,000 mark with adjustment work still going on.

Applications for indemnity payments have been filed by 28 wheat producers in the county for a total of \$3000,000, Fred W. Stacy, Insurance Supervisor, announced. Of these, 28 have already been certified to the Federal Crop Insurance Corporation and checks or wheat have been delivered to 14 growers.

Most loss claims in the county were due to drought and hail, Mr. Stacy explained, with about 50 percent of the loss claims constituting total losses, the producers receiving the full 75 percent of their crop for which they were insured.

Indemnity payments are made either in bushels of wheat or the cash equivalent at the going market, the AAA chairman explained. If payment is taken in wheat, that wheat is eligible for a loan from the Commodity Credit Corporation, if the farmer wants to hold it for a better market by putting it under the loan.

Horace Kittrell was a business visitor in Fort Worth and Dallas Thursday, Friday and Saturday.

New Statute Saves Callahan Farmers \$16,500 Annually

Farmers in Callahan County will save about \$16,500 a year as a result of legislation just enacted by Congress affecting interest rates on Federal Land Bank and Land Bank Commissioner loan, it is pointed out by M. H. Perkins of Clyde.

The temporary rate of 3 1/2 percent on first mortgage Land Bank loans will be continued for two years ending June 30, 1942. During this period the interest rate of first and second mortgage Land Bank Commissioner loans will be reduced from 4 to 3 1/2 percent. Land Bank and Commissioner loans were originally written at contract rates averaging about 5 percent.

At present about 407 Callahan County farmers have Land Bank and Commissioner loans outstanding aggregating \$1,106,140.00. The difference between the contract rate and the temporary rate thus effects a substantial saving for farmers.

In a statement from Washington, A. G. Black, Governor of the Farm Credit Administration, said that the saving to farmers through the reduced interest rate will have the same effect as an addition to the farmers' net income.

"The ultimate purpose of the reduced interest rate of Land Bank

and Commissioner loans to farmers keep down their charges and thus leave more for the retirement of debt principal or to meet necessary operating and living expenses," Governor said.

"Money saved on interest will thus be reflected in lower purchasing power, benefiting industry and agriculture, and will help in a measure to raising living standards and safeguarding ownership."

Roy Rutledge has had a guest here recently his mother near Brownwood.

**Deer Plains Schools \$1,530. More from State Funds**

County will receive from the state this year more than it did last year. This is the first time since the assumption that the state will have the same number of schools next year as it had last year.

Deer Plains school trustees said the action of the state board of education in raising the per capita from \$22 to \$22.50 is a step toward bettering the educational facilities of Texas.

Deer Plains has led the fight for state per capita appropriation since he came into office. He first elected was \$16, which was raised year by year to \$20 mark has been established.

Deer Plains pointed out that the state assistance to schools, efficient management and teaching methods have been responsible for Texas educational progress. The union from the low level which it held in 1932, is expected that the additional per capita appropriation will state expenditures as Deer Plains pointed out, since the population has decreased in some localities.

**UNITY POLITICAL RALLY AT MIDWAY ON FRIDAY NIGHT JULY 1**

YEAGER ADMINISTRATION REDUCES INTEREST RATE FROM 6 TO 2 PER CENT A SAVING OF \$1000 ON INTEREST EACH YEAR

In asking the citizenship of Callahan county to elect me as the next county judge, I am not unmindful of the duties and responsibilities that go with the office, and I feel that I am fully qualified to attend to the duties that go with this important office and can fill it as it should be filled.

I think that every person who has held, or now holds, any public office has an official record, and the citizenship are entitled to know just what that record is.

During my term of office as county commissioner I supported each and every measure that I thought would be going forward and would be of benefit to the greatest number of people and make Callahan county a better place in which to live.

Many questions came before the court during the time I was commissioner which were very unpopular at the time. When the resolution was offered to start the eradication it was very unpopular, and it is not necessary for me to go into the details; but I supported and voted for the resolution, even though it was unpopular and it carried, and the ticks were killed out. Who would say now we were wrong? When the question of employing a farm agent was raised it was another very unpopular question and the court was divided.

One other thing and I will leave county affairs. About 1922, the Mexia bridge was washed out leaving a ditch about ten or twelve feet deep and the county judge said we could not re-build the bridge.

I was elected as mayor of Putnam 1938. When I asked for the office I did not want the office for what it paid as I knew the city did not have a dime to pay anything.

I wanted to be mayor on account of the things I might do for myself and the citizens of Putnam. The town had \$31,000 outstanding bonds with about \$13,000 accrued interest that could not be paid.

One of the first things I did officially after I was installed as mayor was to draw up a proposal to the bond holders on a refinancing plan. The plan offered was the city would give the holders an equal

amount of new bonds for the old; but the city should have in exchange for this the cancellation of all accrued interest and a rate of interest not to exceed 2 per cent for the first ten years and never to go above 3.25 per cent.

The bonds run for thirty years. Interest on old bonds was \$1900 per year. Now we can take the amount we were being charged for interest and pay our interest which will be \$590 and put \$1399 in the sinking fund and have a balance of \$409 left.

This was not enough to put in a water supply like we had planned, so we had to make other arrangements. We have been using water from a lake east of Putnam for the past fifteen years, built by the Texas & Pacific RR; but they had given private parties a limited water right, in exchange for a 99 year lease on the premises.

I have always believed that when a person was elected to an office he was elected for some purpose. And I have always been active in trying to promote everything that would be of benefit to the citizens of Callahan county.

I am not making any set promises, since I feel you will be able to judge what I will do, if elected, by my past record. If anyone has been in office a number of years and has failed to accomplish anything that can be pointed to, as having been accomplished, it is reasonably safe to predict that if he is elected again he will still not accomplish anything.

If you agree with me and think I would make the county the best judge I will appreciate your vote and influence. Thank you.

Immigration in Texas from fore-

 to Texas population than to that  
 of any other Southern state. With  
 the exception of Mexico, Germany

### EVANS, HARGROVE TESTS NEAR COTTONWOOD ARE DRILLING PAST 400 FEET

Bill West No. 1 Bill Evans, oil  
 test located in the northeast corner  
 of Mary Anthony survey, 2 miles  
 west and a little south of Cotton-  
 wood is drilling ahead this week,  
 according to West. "I made a deal  
 with Hightower last week whereby  
 the well will be drilled from its  
 present depth of 425 feet to 500  
 feet as per contract," West said in  
 a statement to the Review.

Work was resumed Monday and  
 the test will be drilled to com-  
 pletion as rapidly as possible.

Hydrick No. 1 Ben Hargrove is  
 drilling past 400 feet. The test en-  
 countered a nice showing of oil at  
 160 feet. The sand was six feet  
 through. Operators are understood  
 to be planning to drill the test to  
 1,800 feet. It is located 3 miles  
 northwest of Cottonwood.

Bill West, contractor on the  
 Evans well, thinks prospects for  
 commercial production in that area  
 are good, he told The Review. Geology  
 on the block was worked out  
 last year by a Dr. Paul, of New  
 York City, who is well known in  
 this section and credited with dis-  
 covering a number of pools.

“CHOCTAW BILL” ROBINSON A COLORFUL TEXAS MINISTER

By BILL COWAN
Taking in his stride a dozen jobs to which most men devote a lifetime, "Choctaw Bill" Robinson, early Texas minister, crowded into his four-score years and nine farming and ranching, teaching, merchandising, manufacturing, and public service—but was a preacher first, last and always. He coaxed his little mule over Indian trails in preaching to settlements scattered from Rusk County to the Concho and beyond. Even while helping organize Erath and Johnson counties, serving as Paluxy postmaster, and providing beef for Fort Belknap's soldiers during the Civil War, Robinson kept his Bible and hymn book handy.

MUNICIPALLY OWNED JUNIOR COLLEGE TO BE OPENED AT CISCO

Cisco, July 11.—The Cisco Junior college, a municipal institution under the control of the Cisco independent school district, will open for its first term in September of this year, it was announced today. The college will be a first class school being organized to meet all requirements of the state accrediting authorities, assuring students who attend it of receiving full credit for work done at other colleges and institutions of higher learning. The tuition rate will be \$45 per semester, or \$90 per year, payable monthly. Transportation to and from Cisco on the school bus system is available.

Hitch-Hikers Find a Haven By Road Side
ALBION, Mich.—Weary hitchhikers have found such comfort in the "depot" set up by Thomas J. Broomfield that they stop at the rate of 300 each and every week of the year. Broomfield, the operator of a filling station, built the popular resting place a year ago. While hitch-hikers sit on a big bench under the great shade trees, a large painted thumb tells the passing motorists that they are willing to ride awhile. The thumb is adjustable and it may be turned to point down either way.

HONOR RECENT BRIDE AT SHOWER THURSDAY

A miscellaneous shower honoring Mrs. Lewis Emerick, who until her recent marriage was Miss Sara Collins, was to be held at the home of Mrs. Tom Bryant Thursday evening from eight until nine, with Mrs. Bryant and Mrs. J. Henry McGowan as joint hostesses. Complete details will be found in next week's issue of this newspaper.

Patriotism

ON every hand American citizens are being exhorted to be "patriotic." Once more Americans are learning to stand when the Star Spangled Banner is played and to salute when the flag passes on the street. It is not unusual to pick up newspapers with advertisements by patriotic societies and editorially urging American citizens to remain "true to their colors" and to "show what they are made of." Most of the time these statements stop without explaining what American citizens should do to be truly patriotic.

Medical Manpower Survey of U. S. Is Begun In Chicago

CHICAGO—A survey of the manpower within the medical profession which would be available to the nation in the event of war has been started by the American Medical Association. Dr. Irvin Abell, Louisville, chairman of the A. M. A. committee on medical preparedness, announced in the A. M. A. Journal: "In response to a request from the surgeons-general of the Army, Navy and Public Health Service the American Medical Association has set its machinery in motion to secure information relative to the availability and qualifications of professional personnel for service in the Federal preparedness program." Dr. Abell said 32,000 A. M. A. members voluntarily served with the armed forces in the first World War. Dr. Morris Fishbein, editor of the A. M. A. Journal, has cancelled all speaking engagements to devote full time to editorial duties, including a new section on medical preparedness. The Old Testament mentions angling as a sport.

ASIDE FROM BEING INTERESTED IN SINGING VARIOUS PREPAREDNESS PROGRAMS PROSECUTED TO A SUCCESSFUL CONCLUSION, JUST WHAT OBLIGATIONS DOES THIS BUSINESS OF BEING A PATRIOTIC, LOYAL AMERICAN ENTAIL?

A loyal, patriotic American citizen is not one who wants to get as much as possible from his government without putting anything into it. A good citizen is one who pays additional taxes without grumbling and one who does

PLANS COMPLETE FOR BIG BURKETT PICNIC
All arrangements for the annual three day picnic to be held at Burkett, 12 miles southwest of here, are now complete, according to members of the committee in charge. This year's celebration is to be held in Canon Grove, beneath the highway bridge which spans Pecan Bayou, at the Western edge of the Burkett township. Prominent speakers, including virtually all district, county and a number of state candidates, have been invited. Many have already notified of their intention to be present. Carnival entertainment will be provided by Schafer Shows, which is reported to be bringing a large array of carnival entertainment to Burkett. Rev. Floyd W. Thrash will be in the pulpit at the Methodist church for both preaching hours Sunday. At 9:30 a. m. he will preach a sermon on "The Christian Church and the Working Man." At 8:30 p. m. the sermon subject will be "The Bondage and Liberty of Christians." At 2 p. m. Sunday the Cross Plains Community singing will be held at the church. All who enjoy singing are cordially invited to come. Calvin O. Long, son of L. D. Long of Cross Plains enlisted in the United States Army July 13, and was assigned to the field artillery at Fort Bliss, El Paso.
