BUFFALOES IN REGIONAL PLAY

VIE WITH CRANE IN THREE GAME SERIES STARTING WEDNESDAY

Cranes Come Here Friday For Second Contest In Local Gym. Big Crowd Expected

Cross Plains and Crane will meet in a three game series this week end to determine the regional basketball champion, the winner of which will win the right to enter the state tournament at Austin for the Texas championship.

First game is to be played at Crane Wednesday night. Then Friday night the two squads square off in Cross Plains high school gymnasium. If a third game is necessary it will be played at San Angelo Saturday night.

Cross Plains won the right to enter regional competition by winning the second and third games of a three game series with Dublin last week. The locals dropped the initial contest to Dublin here by one point. Thursday night, however, the Buffaloes journeyed to Dublin and evened the count with a seven point triumph. The deciding game was played here Saturday night before a packed house. Cross Plains after leading all the way trounced Dublin 39 to 30.

High scoring honors in the Saturday night game were divided between "Putter" Joy and Leonard Pillans, Cross Plains forward and guard, with 12 apiece.

Coch Coach Socrates Walker, Superintendent Leo Varner and number one fan Pat Allen, of Cross Plains, scouted the Crane cagers against Monahans two weeks ago. They are agreed that the local quintet has a better than average chance to defeat the Cranes and win the right to enter the state tournament at Austin. However, against Anson for the bi-district title last week, the Crane boys displayed rare form. Those who saw the game say the Crane boys are capable of making a fight of it with any team they meet.

The largest crowd of the season is expected in the Cross Plains gymnasium Friday night when Crane comes here. It will be the first time Cross Plains fans have ever had the opportunity to see their boys in regional competition on the local court.

Local Girl Weds Gainsville Man On February 12

Announcement was made this week of the marriage of Miss Frankie Petterson, of this city, and Sergeant Robert Young, Jr., of Camp Bowie, Thursday night, February 12, in the First Christian at Cisco, with the pastor, J. R. Wright, reading the ceremony.

The couple were attended by Sergeant Garland Snellgrove, of Camp Bowie, and Miss Earlyne Smith, of Cross Plains.

The bride is the daughter of W. A. Petterson, of this place. She is attending Cross Plains high school and will continue to make her home here until her husband is permanently stationed.

The groom is the son of Robert H. Young, of Gainsville. He was graduated from Gainsville high school and Gainsville Junior College, before joining the army, about two years ago. He is stationed in the medical detachment of Camp Bowie, at Brownwood.

Mr. and Mrs. R. L. Young and son, Ronald, and Mrs. A. J. Mathie visited friends and relatives in Dublin last Sunday.

TIRE SHORTAGE IS BLAMED AS PAVING HERE IS DELAYED

A shortage of truck tires was given as the only reason for failing to pave highway 36 from the city limits of Cross Plains to the junction of highway 181 by the state highway department Friday.

Commissioners Brady Gentry, Ruben Williams and Robert Lee Bobbitt all expressed themselves as being highly anxious to see the road completed, but pointed out that the shortage of truck tires had prevented their doing this type of work in various sections of Texas.

Members of the committee from Callahan county appearing before the commission included: B. H. Freeland, C. R. Nurdyke, B. O. Brame, Fred V. Tunnell and Jack Scott.

"When the ban on truck tires is lifted you may expect work on the road you ask to be promptly begun", chairman Gentry declared.

Edgar Prater Gets 15 Years In Death Of Cross Cut Man

Edgar Prater, 56, Cross Cut farmer, was found guilty Thursday night in 35th district court at Brownwood of murder in the fatal shooting of Cecil Moore, his neighbor, on June 21, 1940, near Cross Cut.

The jury assessed a fifteen-year prison sentence.

The case was given to the jury at 8:10 Thursday night and the verdict was returned at 11:25.

This was the second trial of the case. In the first case Prater was found guilty and was given the same penalty, fifteen years. The first case was reversed by the Court of Criminal Appeals.

It had been charged by the state that Prater had murdered Moore with malice aforethought. State attorneys contended in their arguments Thursday afternoon that the evidence pointed toward this conclusion.

Defense attorneys sought to show in the evidence presented that Prater killed Moore in self defense. They sought to prove that tracks inside the Prater field were those of Cecil Moore and that he had jumped the fence between the two fields and had beaten Edgar Prater, and kicked and stomped him immediately before Prater shot Moore.

They also cited testimony that Cecil and Charlie Moore had made threats against the life of Edgar Prater, although this was denied by state witnesses.

Arguments between Moore and Prater had arisen before the killing over drainage rights and levee, ditch, and tank dam cuttings.

Judge John L. Sutton, San Angelo, presided during the case, as Judge A. O. Newman, district judge of the 35th district, was disqualified because he was the district attorney at the time of the first trial of the case.

J. E. Whiteside, Brownwood oil man, was foreman of the jury including: V. V. Cjlberson, F. H. Herring, R. H. Cason, B. F. Pinnell, Frank Parson, Allen Gisher, Archie Adams, E. H. McCreery, Chas. E. Newton, M. L. Guthrie and W. V. Horner. (From Brownwood Bulletin.)

Important Data On Operator's License Given By Nurdyke

All Texas Operator's License bearing the serial numbers from 450,001 to 900,000 will expire March 31, 1942. Some license were stamped by the highway patrolmen in the early part of last year, and were stamped "good until April 1, 1942."

These license along with the above mentioned serial numbers will expire and cannot be renewed after that date. After a license expires, the only way to obtain a new one is to see an examiner and take an examination for a new license, announced Sheriff C. R. Nurdyke.

Information concerning the driving rules on cars as well as trucks can be obtained in the Sheriff's Office in Baird. A Highway Patrolman is in the office each Thursday from 9 A. M., until 4 P. M., for the purpose of issuing new license.

JAMES HUTSON LEAVES FRIDAY FOR THE ARMY

James Hutson, who passed all examinations in Abilene, February 3, preparatory to being inducted into military service, received notice this week to report in Baird Friday evening, February 27. He will go to Baird Friday afternoon, and join the contingent of Callahan County boys being inducted into military service.

The camp, where he is to be stationed, was not immediately learned.

Mr. and Mrs. Milton Newton, of Arlington, visited friends and relatives here and at Pioneer the past week end.

Mr. and Mrs. James Ross of Baird, and Mr. and Mrs. Carl Haley, of Camp Barkeley, Abilene, were the Sunday guests of Mr. and Mrs. Lon Haley.

W. B. Starr Urges Farmers Attend Meeting In Abilene

Farmers in this county are urged to attend the Farm Bureau meeting at Hotel Wooten, Abilene at 10 a. m., Friday, March sixth, W. B. Starr, President, of the Eastland County Farm Bureau, announced yesterday.

This meeting will be one of the series of 19 similar gatherings called by the Texas Farm Bureau Federation, Mr. Starr pointed out. "Farmers must realize their position and responsibility during the war," Starr said. "We will produce all possible foods and fibers for victory, and we ask only for fair prices and other equalities."

"The Farm Bureau Federation has gained the present fair prices for cotton, wheat, peanut and rice farmers. Producers of every farm product have been helped by this organization, and farmers should not forget these facts. I know of no other force in our nation that can and will do more to avoid collapse after this war than the Farm Bureau. Fair prices on all agricultural products in the policy of our organization."

Cemetery Committee Must Have \$50. By First Of The Week

Cross Plains cemetery association must have \$50 by Monday. That announcement was made yesterday by Drew I. Hill and V. C. Walker, members of the committee delegated with the responsibility of raising the money.

It is pointed out that some additional land was recently purchased for the cemetery and the association was forced to borrow money to make the trade. The note will be Monday.

"If people who reside outside the city limits will contribute \$25, the city government of Cross Plains will match it with an additional \$25," the committee states.

Contributions may be made to any of the following: Mr. Hill, Mr. Walker, Mayor C. S. Martin, E. I. Vestal, S. F. Bond, or left at the Citizens State Bank.

W. O. Peavy Is Honored On 75th Birthday Sunday

Friends and relatives surprised W. O. Peavy on the occasion of his seventy-fifth birthday, Sunday, February 22, by gathering at his home and arranging a birthday dinner. A pink and white decorated cake was presented to the honoree.

Dinner was served to the following: Mr. and Mrs. O. W. Newton, Cross Plains; Mr. and Mrs. Elmer Peavy, Lawa; Ned Fairbairn, Abilene; W. D. Peavy and daughter, Billie, Pioneer; Mr. and Mrs. F. F. Champion, Mr. and Mrs. G. H. Clifton and daughter, George Ruth, Mr. and Mrs. M. A. Arvin, G. W. Coats, Mrs. John Ivy, Mrs. V. L. Wiseman, Mr. and Mrs. R. S. Peavy, and sons, R. T. and Oran, Mrs. H. T. Peavy and children and Mr. and Mrs. W. O. Peavy of Cottonwood.

LeRoy Butler left Thursday for Bakersfield, California, where he is to be employed.

Mr. and Mrs. Frank Taylor have as their guests this week, Mr. and Mrs. Earl Forbes and Mrs. Kate Forbes, of Arp.

RUSH PERIOD NEARS IN CAR TAG BUYING

The rush for obtaining automobile tags is near.

"You can aid in lessening that rush," declares Mrs. T. W. Briscoe, tax collector, "by remembering to bring with you your certificate of title."

It is pointed out that unless a vehicle happens to fall under the exemption given in the title law, the owner will be required to submit a certificate of title when securing license tags.

"If no title has ever been applied for," Mrs. Briscoe cautions, "bring all your papers with you. Since many boys in the service have been compelled to leave their cars with someone else the regulations have been modified to allow the purchase of tags, provided application for title is made at the same time."

There will be a place in the tax collector's office for depositing old car tags for those who care to contribute this old metal for national defense.

Burkett Basketballs Go Into The Regional Tournament At Abilene

W. R. Chambers, the man of basketball wonders, has come up with another bi-district cage champion at Burkett. His quintet defeated Millersview 20 to 12 Friday night for the right to enter regional play at Abilene this week end.

The Burkett boys had split even with Millersview in the first two contests of a three game series, and Friday's triumph was the pay-off. The first game was played at Millersview with Burkett losing 18 to 20. In a game at Burkett Tuesday night of last week Chamber's protagonists triumphed 20 to 15. Then the third and "sugar game" was played on the neutral court at Centennial.

As the Review went to press no word had been received in Cross Plains as to whom Burkett would play in the first round of regional competition.

Hand Observations

A world war is still being waged in Libya, in other places with as far, nothing exactly will do about entering preparations seem a great spring campaign and on the Mediterranean.

Considerable uneasiness throughout Canada a few days ago when it became known that the Dionne quintuplets, suffering from an unknown ailment of the bone in her leg, specialists were called for a thorough examination of the malady as not serious.

Texas' own quadruplets, the sisters—Jeraldine, Joyce and Joan—celebrated their third birthday on Sunday, with open house for friends who contributed money to the building of a \$20,000 home in Gail.

It is reported that the cake were served the day for them it was a birthday.

At the instigation of the duetion Board recently the Willamita, which the interned since before the States' entry into the war, the ship yielded a greatly increased egg production this year, and if the need be, it will take many more eggs than last year, according to poultrymen.

J. Jones of Coleman attended the state-wide meeting of hatchery men, grain men, equipment men, and others interested in the poultry business at Fort Worth Saturday.

The meeting they set up a Poultry War Board, composed of one representative each from the major sections of the poultry industry.

The Kinghome of the United States Department of Agriculture announced that the government has purchased 24,000,000 dozen more eggs this year than were purchased last year. This means Texalmen must step up their production 1,514 car loads of eggs that of 1941.

Means of reaching this goal outlined: 1. Start with chicks of better quality. 2. Feed a combination of high quality ingredients. 3. Fill all available poultry space. 4. Protect health of poultry. 5. Increase profits by marketing quality.

Government's floor of 25 cents under eggs until 1943 guaranteed a fair price for all that can be produced, leaders in the industry.

SHORTAGE OF TIRES IS SEEN AS BOON FOR SMALL TOWN BUSINESS

The following editorial from the Delano (Mich.) Eagle gives a new slant on what the war may mean to the small towns of our country.

But these are not the only ways in which the small town is going to benefit from the war. Should any of our big cities be bombed, should any of our big industrial concentrations be wiped out by an attack from the air, even the big businessmen would realize what many a small town booster has long preached.

The war has already proven the advantage of sub-letting and sub-contracting in speeding up industry and making mass production more efficient.

Reports from Henry Ford's plantation in Brazil are that the 3,651,000 rubber trees, planted with cooperation of United States Department of Agriculture experts, and the Brazilian Government, are growing slowly.

Now things are changing. With new cars off the market and tires rationed, the people are going to stay home more often.

AFTER DEFEAT

Millions of citizens of the United Nations are naturally discouraged over the progress of the war up to now. But, when we look at the present at the same time we look back into the past we may take courage from the many examples of men and women making victory out of defeat.

We are reminded of the time when Hannibal, Carthaginian General (247-183 B.C.), was winning one victory after another from the Roman armies that the ancient Romans worked all the harder to make up for their losses and never gave up.

NEWS BRIEFS OF BYGONE DAYS

Little Squibs Gleaned From Files Of Review

September 7, 1917: On Tuesday night Owen Baum and Miss Annie Fortune and Tom Thorn and Miss Colie Baum were united in marriage in Brownwood. This double wedding came as a surprise to their many friends. Mr. Baum is the youngest son of Mrs. Lovelady and his bride is a daughter of the widow Fortune of Burnt Branch. Mr. Thorn is the son of Mr. and Mrs. T. C. Thorn and his bride is a sister of Miss Cora Baum, all well known families of the Cross Plains community. We wish them much happiness in life.

August 31, 1917: Eugene Mangham and family are to move to Brownwood where Mr. Mangham will work in the Norwood barber shop. Mr. Mangham disposed of his interest in the shop here to Walter Westerman some months ago. He and a brother of Mr. Norwood, the proprietor of the shop at Brownwood he is to work in, were business partners a number of years ago in Tyler. We are sorry to lose Mr. Mangham and family but he states that he is leaving in order to find more work and for school advantages. He likes Cross Plains fine but conditions are such that he thinks it better to move.

August 10, 1917: Clinton Underwood of Ballinger, Tom and Mrs. Willie Underwood, of May, M. L. Bruton and family, of Bangs, Luther Bruton and family of Byrds, and W. A. Williams and family of this place, spent Thursday of last week with Mrs. Joe McDonough. The three Underwoods are half-brothers and the Brutons are brothers of Mrs. McDonough. It had been twenty-two years since Clinton Underwood and his sister had met.

July 27, 1917: Miss Ora Odum entertained a few of the young people on Tuesday night in honor of her niece, Miss Lurline Ramsey, of Baird. Various games were engaged in and delicious refreshments partaken of. Those present were: Misses Laura Boyles, Cutbirth, Luella Bell, of Mansfield, Lurline Ramsey, of Baird, and Messrs. Baum, Pope, Benge, Hampton, Murman McGoveva and Ralph Odum.

September 7, 1917: Murman McGoveva who has been stationed at Abilene for a month with the National guard, visited his folks here

last week. He returned on Friday to Abilene, whence he was to leave with his company on Saturday night for their cantonment at Fort Worth. Murman states that he may visit here from Fort Worth. He does not know anything about when he will be called to France.

July 20, 1917: Sunday night Drew Hill's home in the southwest part of town was consumed by fire. Some furniture was saved. Fire originated in the kitchen and was started, so Drew thinks, from a lighted match that had been used in lighting a lamp. The house and furniture were partially covered by insurance. They are now living in a tent preparatory to rebuilding at an early date.

REPAIR OF FARM MACHINERY IS VERY IMPORTANT

Repair of farm machinery now is just one more step toward a solid war front, Sam W. Chatham, chairman of the Erath County USDA War Board, said this week.

"Food is just as important in total war as tanks, guns, planes and ships, and delivering the goods is our pledge to help whip Hitler, the Japs and the Italians," the chairman said.

In connection with the farm machinery repair program in this country, Mr. Chatham outlined 3 reasons why immediate action is important:

(1). Farmers are being called upon to produce more food than ever before.

(2). Expected shortage of farm labor means more farm work with machines.

(3). Manufacture of new farm machinery has been restricted by need for critical materials in war industries.

Reconditioning every available piece of farm machinery, and ordering all repair parts during the present slack period, will offset shortage of labor and machinery later, Chatham said.

BLACKOUT AND AIR RAID PROTECTION ORDINANCE

AN ORDINANCE RELATING TO AIR RAID PROTECTION; AUTHORIZED BLACKOUT AND AIR RAID PROTECTION ORDERS, RULES AND REGULATIONS; PRESCRIBING PENALTIES FOR VIOLATION THEREOF; AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CROSS PLAINS, TEXAS.

Section 1. AUTHORITY TO PROMULGATE NECESSARY ORDERS, RULES AND REGULATIONS FOR BLACKOUTS AND AIR RAIDS. In order to protect life and property in the City of Cross Plains, Texas, from enemy aircraft (or other authorized official) is authorized and directed to carry out blackouts and air raid protection measures in said City at such times and for such periods as are authorized or ordered by the Army or Navy and to promulgate such orders, rules, and regulations as may be necessary to insure the success of the blackouts and air raid protection measures and to protect life and property during such periods. Said orders, rules and regulations shall include traffic movements of emergency or other vehicles, evacuation of residents, congregation of persons on public streets, sidewalks, and in public places or buildings, but this enumeration or any enumeration contained in this ordinance shall not be taken as a limitation on the power to promulgate orders, rules, and regulations governing any other subjects, persons or property which shall be regulated in order to insure the proper carrying out of any duly authorized blackouts or air raid protection measure. Practice blackouts and air raid drills may be carried out at such times and for such periods as the Mayor (or other authorized official) shall in his discretion deem appropriate or necessary but subject always to the orders and directions of the Army or Navy, and the orders, rules and regulations authorized herein.

Section 2. A "blackout" is hereby defined as any period of time designated by United States Military or Naval Authorities for extinguishing or effectively screening lights of all kinds. During such periods it shall be unlawful:

(1). For any person in the occupancy or in the possession or control of any building or structure to fail to turn out or cause to be turned out all exterior lights thereon or connected therewith.

(2). For any person to allow any light in any house, room or apartment to be visible from the outside. Managements of hotels, apartments, lodging houses and office buildings shall be responsible for all exterior lights, lights in passageways, stairways, halls, corridors and other places not occupied by tenants or other persons and in all unoccupied rooms, apartments or offices.

(3). For any person excepting as may be herein otherwise provided to display or allow to shine, any light in any open space, or for any person owning or controlling any sign to allow the same to be illuminated or any light to be displayed therefrom.

(4). For any person to drive an emergency vehicle with the lights on unless screened and shielded according to regulations promulgated by the Mayor or by United States Military or Naval Authority.

(5). For any person to place or leave any vehicle or any obstruction of any character in any public street, avenue or alley in such a manner as to obstruct traffic, fire hydrants, or exits from public.

Section 3. No Municipal or Private Liability. This Ordinance is an exercise by the City of its governmental functions for the protection of the public peace, health and safety and neither the City of Cross Plains, the agents and representatives of said city, or any individual, receiver, firm, partnership, corporation, association, or trustee, or any of the agents thereof, in good faith carrying out, complying with or attempting to comply with any order, rule, or regulation promulgated pursuant to the provisions of this ordinance shall be liable for any damage sustained to person or property as the result of said activity.

Section 4. LIGHTS DURING BLACKOUT DECLARED PUBLIC NUISANCE. Any light displayed contrary to any order, rule or regulation promulgated pursuant to the provisions of this ordinance constitutes a public nuisance and when deemed necessary in order to protect life or property during a blackout or air raid the police, or the special police authorized herein, are authorized and directed to enter upon any premises within the City, using reasonable force, and extinguish lights or take other necessary action to make effective any order, rule or regulation promulgated under the authority conferred by this ordinance.

Section 5. CONFLICTING ORDINANCES, ORDERS, RULES AND REGULATIONS SUSPENDED. At

all times when the orders, rules and regulations made and promulgated pursuant to this ordinance shall be in effect, they shall supersede all existing ordinances, orders, rules and regulations insofar as the latter may be inconsistent therewith.

Section 6. NO CONFLICT WITH STATE OR FEDERAL STATUTES. This ordinance shall not be construed so as to conflict with any State or Federal statute or with any Military or Naval order, rule or regulation.

Section 7. PENALTIES FOR VIOLATIONS. Any person, firm or corporation violating any of the provisions of this ordinance or any order, rule or regulation issued pursuant thereto shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not exceeding One Hundred (\$100.00) Dollars.

Section 8. SEPARABILITY OF PROVISIONS. It is the intention of the City Council that such separate provision of this Ordinance shall be deemed independent of all other provisions herein, and it is further the intention of the City Council that if any provision of this Ordinance is declared to be invalid all other provisions thereof shall remain valid and enforceable.

Section 9. This Ordinance is hereby declared to be an emergency measure and shall take effect immediately upon its passage and approval.

Passed and approved this 17 day of February, 1942.

WORRY AND GLOOM IS FORM OF SABOTAGE

AUSTIN. — "Indulging in worry and spreading gloom is a form of sabotage," Dr. Geo. W. Cox, state health officer, said today in commenting on the necessity for cheerfulness and courage in face of our national crisis.

Dr. Cox asserted that failure to rise and meet our difficulties with determination and cheerfulness will undermine our national strength more seriously than can the enemy acting from without.

"It has been proved in industry that a gloomy, worried mental state is conducive to accidents, and the President has issued a proclamation declaring the reduction of accidental injuries as essential to national strength," Dr. Cox stated.

"Your State Health Department stresses a warning against worry that is carried to the extreme. If you notice a growing tendency to worry, try by the exercise of your own will to stop this futile, de-vitalizing habit," he urged.

Dr. Cox pointed out that these are troubled times, and it is natural that we should feel concerned about national affairs. It is one thing, he pointed out, to feel this concern and do whatever we can that may be constructive in solving our difficulties, but it is worse than folly to add, to abandon ourselves to the ravages of worry and fear.

Off-Hand Observations

Personally, we believe all Ministers of the Gospel should be eligible to purchase new tires for his automobile when needed. Very few preachers would abuse the privilege and the average minister has his car in use a great portion of his time.

At first the preachers were on the list of eligibles, according to reports, but for some reason have been taken off. Mark McGee, state rationing administrator for Texas recently announced from Austin that the OPA is studying the question and additional information would likely be available within ten days.

The police chief of Santa Fe, New Mexico has recently accepted some thirty-five former sheriffs and policemen and three women added to his staff as emergency deputies. Answering a question as to whether the women would be armed, the sheriff said, "Yes, you're damned right they are allowed six shooters, and there's nothing on earth I am more afraid of than a woman with a gun."

From different places comes the news that the mule has again come into prominence since our entry into the war and in several instances the prices per pair have reached the \$500 peak. For the first time in many years mules are said to be scarce and the supply inadequate to fill the buyer's needs.

The wealthiest woman in Mexico, Dona Catalina Escandon, died during the past week. She was 83 years old and was known and beloved throughout the Republic of Mexico for her liberal gifts to various charities. She owned vast properties in the State of Vera Cruz and other sections and was never too busy to heed the call of those less fortunate.

She was the widow of Don Pablo Escandon, chief of staff of former President Porfirio Diaz and was at one time minister to Great Britain. She was with her husband in Britain and was presented at the court of Queen Victoria.

It is said that her lot was a full life well lived.

It seems the Baron Rothschild estate, once known as the greatest estate in the world, has again been leveled upon. This time an 1800 acre tract with costly improvements near Paris has been seized by the government. The seizure is said to have been made under a law which allows the state to take over lands for the fight against unemployment.

Already the Rothschilds have been deprived of their French nationality, art collections, and many other properties said to have been taken over under other laws.

The country was occupied by troops on maneuvers. A bottle problem had been in progress for nearly a week when a lady, approaching a bridge, was halted by a sentry. "Lady, you can't cross that bridge. It has been blown up."

Superphosphate Is The Stuff!
Continued cultivation and use of agricultural and pasture land of Texas is depleting the soil of humus, nitrogen and minerals, and as a result, the productivity of the land has been declining at an alarming rate for the past decade.

According to M. K. Thornton, agricultural chemist of the A. and M. College Extension Service, the soils must be improved and those elements which have become, or are becoming, depleted must be restored before these farms can be returned to their once prosperous condition. Nitrogen and humus may be added through the use of legumes as green manure crops, whereas phosphorus, potash and the lime content of the soil can be increased only by direct addition.

To offset the depletion many farmers are now using phosphatic fertilizers with both summer and winter legumes as soil improvement practices. This has not only improved the land but also furnished temporary grazing of high protein forage at a time of year when it was most needed. Thornton says. Reports from 65 counties indicate that during 1941 a total of 1,559 farmers and ranchmen fertilized 58,199 acres of pastures, representing an increase of 340 percent in the number of individuals and 550 percent in acreage over the preceding year.

During 1941, 312.75 tons of triple superphosphate and 348.50 tons of calcium phosphate manufactured by the Tennessee Valley Authority were received for demonstration on Texas farms. The fertilizer used in these demonstrations was equivalent to approximately 1,800 tons of 20 percent phosphate, or 294 pounds of 20 percent phosphate per acre treated.

In many counties, Thornton explains, the demonstrators report excellent results from the use of ground limestone along with phosphate, and about 80 carloads of ground limestone and oyster shells were applied to pastures and meadows seeded to adapted legumes. On cropland, it was applied and the cooperated seeded two successive legume crop to be turned under and succeeded by cash crops, the treatment being repeated in three years. This put into rotation the soil improvement practices which fit well into regular farming practices and rapidly build up the land.

In the western portion where rainfall is low and unpredictable this program was followed as far as possible, but in areas where sand has tendency to blow it was modified to include grass rooted crops during the period when sand movement was at its worst.

In the areas which have been known to low in phosphorus, the results from the use of phosphate and legumes have been demonstrated largely by increase in crops and the carrying capacity of pastures, Thornton says. Quality of the crops has been greatly improved, livestock production increased, and the quality of calves, lambs and other young stuff also improved. Betterment of the farm family life accompanied these improvements and farmers were given a more optimistic outlook.

Many of the demonstrators in trying to make improvements in the soil through use of phosphates and legumes have altered their entire farm setup in both ratio of cash cropland and pasture land, as well as increasing the number of sources of cash income. These changes have resulted in a better balanced farm setup which has been profitable.

Funeral Friday For Mrs. Nancy J. Dean

Who Died Feb. 24th

Mrs. Nancy J. Dean, 80, affectionately called "Grandmother" by her many friends, died at the home of her son A. L. Dean in the East part of town late Tuesday night.

Services were being delayed in order to give one of the children in California an opportunity to reach here in time for the rites.

Attending physicians report that death resulted from pneumonia.

Nancy Joanna Dyer was born on June 22, 1861. She was at the time of her death 80 years, seven months and 23 days.

For the past 14 years Mrs. Dean had made her home with her son in Cross Plains.

PIONEER

Twenty-five families of the Pioneer Community met in the high school auditorium Tuesday evening, February 17, at eight o'clock and organized a "Food For Victory" Club and elected the following officers:

Crane Noses Out Cross Plains In Regional Contest

Regional basketball game Cross Plains dropped to San Angelo Saturday as a heart-breaker. Had also only packed a portable typewriter. All practically new. Would trade typewriter for Royal Portable with more accessories, or an Upright Royal.

First game of the series was played at Crane with the host team winning by six points. The second affair was played on the hardwoods at Cross Plains high school gymnasium with the Buffaloes leading out an 18 point decision.

Each of the two squads journeyed to San Angelo for the "sugar" contest. Crane grabbed an early lead and maintained it throughout the entire game. Only once did the Buffaloes seriously threaten and that was in the closing minutes of the fourth quarter when they rallied to within two points of the far West Texans.

The rally collapsed and Crane stretched the margin to five points before the timer's gun halted play.

Inability to sink free pitches was blamed by many of the spectators for Cross Plains' failure to emerge victorious. Whereas Cross Plains sank one of nine free throws in the first quarter the Crane boys dropped four out of four. In the second half the percentage was nearly the same.

By virtue of their conquest of the Cross Plains quintet the Crane team this week plays in the state tournament at Austin for the class A championship of Texas.

Cemetery Free Of Debt As Friends Rally To Appeal

In response to an appeal for funds made by the Cross Plains cemetery association through the columns of this newspaper the necessary money was paid in by Monday and a debt created for the recent purchase of additional acreage paid off.
