Pills and salts give temporary relief from constipation only at the expense of permanent injury, says an eminent medical authority.

Science has found a newer, better way-a means as simple as Nature

In perfect health a natural lubricant keeps the food waste soft and moving. But when constipation exists this natural lubricant is not sufficient. Medical authorities have found that the gentle lubricating action of Nuiol most closely resembles that of Nature's own lubricant. As Nujol is not a laxative it cannot gripe. It is in no sense a predicine. - And like pure water it is harmless and pleasant

## YOUNG GIRLS NEED CARE

### Mothers, watch your Daughters' Health

Health Is Happiness

From the time a girl reaches the age of twelve until womanhood is established, she needs all the care a thoughtful mother can give.

The condition that the girl is then passing through is societical, and may have such far-reaching effects upon her future happiness and health, that it is almost criminal for a mother or guardian to withhold counsel or advice.

Many a woman has suffered years of prolonged pain and misery through having been the victim of thoughtlessness or ignorance on the part of those who should have guided her through the dangers and difficulties

that beset this period. Mothers should teach their girls what danger comes from standing around with cold or wet feet, from lifting heavy articles, and from over-working. Do not let them over-study. If they complain of headache, pains in the back and lower limbs, they need a mother's thoughtful care and

## YOUNG GIRLS NEED CARE

Mothers, watch your Daughters' Health

Health Is Happiness sister and sister-in-law take it and have only the highest praise for it. It has been a household word in my mother's house for years." — Mrs. KATHERYN LYND, 2431 Gladys Ave., Chicago, III.

Chicago, Ill.

From the time a girl reaches the age of twelve until womanhood is established, she needs all the care a thoughtful mother can give.

The condition that the girl is then passing through is so catical, and may have such far reaching effects upon her future happiness and health, that it is almost criminal for a mother or guardian to withhold counsel or advice.

Many a woman has suffered years of prolonged pain and misery through having been the victim of thoughtlessness or ignorance on the part of those who should have guided her through the dangers and difficulties that beset this period.

Mothers should teach their girls what danger comes from standing around with cold or wet feet, from lifting heavy articles, and from overworking. Do not let them over-study.
If they complain of headache, pains in the back and lower limbs, they need a mother's thoughtful care and

### Shame on Them.

PERHAPS there are a few mothers who do not know the virtues of Fletcher's Castoria. Perhaps there are a few who know that there are imitations on the market, and knowing this demand Fletcher's. It is to ALL motherhood, then, that we call attention to the numerous imitations and counterfeits that may be set before them.

It is to all motherhood everywhere that we ring out the warning to beware of the "Just-as-good". For over thirty years Fletcher's Castoria has been an aid in the upbuilding of our population; an aid in the saving of babies.

And yet there are those who would ask you to try something new. Try this. Try that. Even try the same remedy for the tiny, scarcely breathing, babe that you in all your robust womanhood would use for yourself. Shame on them.

HARDING CONTEMPLATES TAK ING OVER RAILOADS AND ANTHRACITE MINES.

#### GOOD SERVICE ALTERNATIVE

Otherwise Administration Will Seek Legislation Authorizing U. S. Operation.

Washington. - The administration authorizing the taking over of certain railroads and anthracite mines if there is not a radical improvement in the industrial situation within a few days, it was indicated after Senator Cummins, chairman of the Senate Interstate Commerce Committee, and Attorney General Daugherty had conferred with President Harding for more than an hour.

Railroads will be given an opportunity to demonstrate their ability to furnish adequate service, it was declared, but those which can not give proper service will be taken over by the Government under pres-

If production of anthracite is not resumed "within a few days," it was added, a bill will be introduced in Congress to authorize the Government to take over the mines and produce coal. Legislation to enable such seizures, Senator Cummins predicted, would quickly be rushed

through Congress. Likewise, he said, the railroads would be given a "reasonable" time in which to demonstrate their ability to furnish adequate service and that those unable to do so would be taken over.

It was indicated that consideration of these steps would not operate to interfere with the proposed legislation now pending and designed to curb profiteering in coal.

The White House conference followed a survey of the whole situation at the regular Cabinet meeting and the termination without result of the conference at New York between railroad executives and unio

ening to march into Germany in an effort to compel the payment of war indemnities, a slender hope remain that a reparations agreement may be reached.

This hope is the proposal of Germany that treaties be negotiated with Belgium and France, calling for the delivery of goods from large industrial establishments. The German Government would reimburse those making the deliveries. Heavy penalties would be attached for failure to live up to the terms of the proposed agreement.

While There Will Be a Bumper Harvest, Farmer May Get Only Low Financia: Returns.

Washington.-With the exception of South Carolina, Georgia, New Mexico, Washington and Oregon, which are suffering from the ill ef fects of prolonged drouths, every State in the Union will produce crops this year; and, for the first time in four years, North Dakota and Wyom ing will be favored with an extraordinary yield. In fact, these two will seek legislation from Congress States stand one and two, respectively, in the official reports of the De partment of Agriculture's harvest predictions, showing an actual bump er crop margin over every other State in the Union.

The corn belt has made a remark able showing, and an estimated crop of more than 3,000,000,000 bushels is forecast. This anticipated corn crop will be one of the five largest harvests ever recorded by the Depart ment of Agriculture. The largest corn crop on record was 3,209,000,000 bushels and was gatherel in 1920. The potato crop will be the largest

on record-about 440,000,000 bushels -with New Jersey leading her sister States in this production. Sweet potatoes also will reach a new high mark. Garden truck, fruits and melons have registered record-break ing bumper crops, with the exception of the popular watermelon, whose chances to share in the honors, along with many other agricultural pro ducts, went awry when the prolonged drouth struck Georgia.

The farmer shares with the con sumer in the paradoxical situation. relative to bounteous crops and little returns. The bumper harvest, based on the law of supply and demand, forecasts low financial returns to the agriculturist, whose buying power has declined to sixty-nine points compared to the high mark of purchasing power 100 points, established in 1913. This year's mark is the lowest purchasing power status reached by the farmer in the history of the Bureau of Agricultural Econo with but one exception, in 1921, when a low ebb of sixty-seven points in purchasing power was recorded

#### CROPS IN 43 STATES | SEES PLOT TO SMASH UNIONS SAYS JEWELL

Hale Holden and Others of Western Lines Deny There is Split Over Seniority Issue.

New York .- A majority group of the Association of Railway Executives by a vote of 254 to 4 rejected the proposal of the big five train per vice brotherhoods, that carriers end the Nationwide shopmen's strike by reinstating the men with seniority unimpaired, and Bert M. Jewell, offi cial spokesman for the strikers, de clared the association had closed the door to peace and voted for a lockout to smash unionism. Splitting away from the majority

was a group of twenty-five railroads, principally Western lines, which debated a new suggestion of the brotherhoods that individual settlements e effected. This minority, while professing to stand with the majority on seniority, indicated that it desired to hear further regarding the individual settlement suggestion. Hale Holden, president of the Chi-

cago, Burlington & Quincy, joined with members of the majority group in denying that there was any split. "There is no question of a split," he asserted. "The railroads are all standing pat on seniority, and any individual settlement will have to be made in the light of that understand-

"You tolks go to bed; I'll watch

outside and see that no prowlers about the premises." Thus spoke Earnest Bartield, aged 28, last Saturday night, when his fiancee, Miss Calanthe Atkins, 15, told him that she and her sister, Mrs. Joe Taylor, with whom she was living in the tri-state city, had been bothe ed with prowlers at night

The girl and her oldest sister re ired, secure in the belief Barfield would be on guard and protect them. Shortly afterward, however, the women heard a noise about the house and heard someone try one of the doors. They waited, expecting Barfield to act and when he did not do so, they crept to a window on side of the house where Barfield had stationed bimself and softly called to him. They received no answer. Miss Atkins decided to go to him to ascertain why he did not accost the prowler. She crawled through a window and advanced toward the automobile in which Barfield was

When but a few feet from the automobile a pistol shot rang out and Miss Atkins dropped dead. Officers are the opinion Barfield had gone to sleep in his car and was awakened suddenly by the approach o' the girl and fired at her without a word of warning, supposing she was the prowler. The bullet, fired from a .32-caliber automatic pistol, entered the girl's head at the nose and passed entirely through her head, coming out at the base of the
