## BRONCHOS TO PLAY WILDCATS FRIDAY NIGHT AT CANADIAN

The Clarendon Bronchos will take to the road again Friday night to play the Wildcats at Canadian. This will be the Bronchos second conference game of the season and the boys all seem to have the same thought and determination—to get back on the winning side and stay on that side until the season is finished. Everyone planning to attend the game is reminded that the game time has been changed to 7:30, and it is about 95 miles to Canadian.

Coach Harrell reports that the Bronchos will be back nearer to full strength Friday night than they have been since the first quarter of the Childhood game, and that they have that fighting spirit that is needed to win ball games. Lovell Myers and Earl Morrow will both be back in the backfield and Jimmy Lamberth will be back in at center as well as some of the subs that have been on the injured list. "Everything looks just right and the Bronchos can win if they really try," Harrell added.

An all-around Pep Rally will be held Friday afternoon at 1 o'clock just before the Bronchos leave for Canadian. Every Bronco fan is invited to join the group in front of the Legion Hall at that time to give the boys a real send-off. The probable starting line-up will be the same as in previous weeks with the exception of Myers and Morrow in the backfield with Johnson and Hall and Lamberth back in the center position.

## Hall County Action Improves Outlook Of Highway 70

Highway 70, in Hall County, received a real boost last week when members of the Hall County Commissioners Court voted three to one to apply their 1953-54 Federal allotment for secondary road construction to that portion of Highway 70 north of Turkey, in Hall County.

The Clarendon Chamber of Commerce and interested citizens have long cherished the thought of the road from Clarendon to Turkey and have worked unceasingly. This action by the Hall County Commissioners is hailed as another step in making the road a reality.

Attention will now have to be directed to the two or three miles of road in Briscoe County, on which there has been no recent information.

## Revival To Begin At First Christian Church October 29th

Revival dates at the First Christian Church have been set for October 29th through November 9th with services each evening at 7:30.

Music will be under the direction of Nationally famous singing evangelists, "The Hagood Sisters". Everyone is invited. "Come sing the old Gospel hymns; hear soul-thrilling Vibra-Harp renditions; see beautiful Hymn drawings; think on Truthful Gospel Sermons", stated L. L. Oliver, local pastor and evangelist, who believes the Gospel of Christ to be the Power of God unto Salvation and preaches it, in love without compromise. Strictly undenominational, he has a message for everyone, both the saved and the unsaved.

The Schulz Trio, consisting of Miss Leona Koehler, soprano; Mr. Nekolny, baritone, and Mr. Roberts-Schulz, harpist, will be presented in concert by the Donley County Concert Association, Monday evening at 8 o'clock in the College Auditorium.

## Financial Report Released by Outdoor Entertainment Ass'n

In order that all interested parties in the Clarendon Outdoor Entertainment Association might know the exact financial status of the organization, a financial statement prepared by Maurice (Butch) Lane, covering the past year is being published by the Officers and directors in this issue of the Leader. The statement may be found on page three. It is a statement of which the officials of the organization are quite proud and they wish to point out that it was made possible through the cooperation of all those who had a part, large or small, in Clarendon's July 4th celebration. The statement shows the Association to be completely out of debt with a cash balance of \$959.67 as of September 30, 1952. "It is a grand feeling to know we are out of debt at the present time, for at the same time we are faced with the proposition of adding more seating capacity as the biggest complaint on the last celebration was the overcrowded condition which can only be eliminated by adding new bleachers", stated J. W. Murphy, president of the Association.

## Pro-Fight Card To Attract Fans From Entire Panhandle Area

### Notice To All Water Consumers

The City is ready to begin work on all water main valves. Water will be cut off at various times to repair valves in order to make it possible to cut the water off in sections when necessary and not the whole town. We will not cut the water off until after 8 a. m. and will have it back on as soon as possible. Anyone who has a boiler or something that might blow up, call the city office, phone 432, and we will notify you when you will be effected. We will notify the whole town if it is necessary to shut down the entire water system.

This work has been given considerable thought for some time and the proposed work is the recommendation of the State Fire Commission following their inspection here three years ago. Every effort will be used to give you service as soon as possible. This is a big job and will take possibly all winter. When we get it where we can cut off small sections at a time it won't hurt near so badly. Our water main valves are in bad shape because of long service. We will put in new valves where necessary and repair the rest of them. At the present time, we can cut off the southeast part of town without effecting the normal supply of water to the rest of our city. We know this will be very inconvenient at times, but this job must be done.

Orville Housden, Water Superintendent, Major B. Hudson, Mayor

The Colts came back and scored next on a 50 yard pass and run from John Payne to Joe Don Davis. White Deer came back and led 13-6 at half time. They scored again shortly after the half but the Colts brought the score up to 20-13 on a 10 yard plunge by Chester Mann and scored again on a 2 yard end run by James Phillely.

### Coming Events

There's always plenty to do and lots of coming events which many are scheduled to attend. Since there are so many things taking place and so many conflicts, the Leader is proposing the publishing of a coming events column on the front page each week to see if it would help matters any. It will take the cooperation of everyone to make this column work to the best advantage. If you are in a position to set a date for any event, call the Leader office and tell us what it is, the time and date and we will give it a try. As each event passes, we will drop it from the column. Drop us a card if you think the idea is worthwhile.

### CONGREGATIONAL MEETING TO BE HELD AT THE PRESBYTERIAN CHURCH

A congregational meeting for members of the Presbyterian Church has been called for Sunday morning, October 26. The meeting will be held immediately following Sunday School. The purpose of the gathering will be to hear a report from the Pulpit Committee.

All members are urged to be present.

Clarendon boxing fans as well as fans from all over the Panhandle area are eagerly awaiting the actual time of the Pro-Boxing event which will be held here at the College gym next Tuesday evening at 8 o'clock. Ticket sales have been brisk with a very good run reported on the choice seats. Bill Bentley reports plenty of good seats still left but those desiring these seats should get their tickets soon as a big rush is expected the night of the fights.

Bentley reports that the card has been definitely completed with a very good pro-fight program. The main event is a 10-round Featherweight bout between Clarendon's own Ken Davis and Jimmie Rivera of Nuevo Laredo, Mexico. The semi-main event is a 6-round Lightweight bout between Armond Goetter of Los Angeles and Johnnie Lovett of San Antonio. This bout is expected to give the main bout plenty of competition for interest. The special 6-round bout is a heavyweight event between Sporty Harvey of San Antonio and Johnnie Hollins of Austin. The first of the 4-round preliminary bouts is a lightweight bout between Lefty Perez of San Antonio and Bobby Jones of Austin; the second 4-rounder is a featherweight, between Cookie Jarimillo of San Antonio and Baby Baypan of Austin.

J. C. Oakley of Plainview will be the chief referee with Doug Graham and Dean Webb, both of Amarillo, alternating as referees and judges.

Davis and Goetter have been here the past several days going through their regular routine in preparation for their respective fights and are working out each afternoon at 4 o'clock in the City Hall. The public is invited to come out and watch them any time. The other fighters listed on the card are expected to arrive here Sunday night, Bentley stated.

Bentley pointed out that a raised ring would be used in the gym so everyone, regardless of location of seat, can see what is taking place.

Tickets are on sale at Clyde Wilson's Texaco and Eddie's Conoco.

### Jr. High Colts To Play Skellytown And Crown Queen Tonite

The Clarendon Jr. High Colts will meet the Skellytown Jr. High team in a conference game at Broncho stadium tonight in their last home game of the season. Last year the Colts were defeated by the Skellytown boys 6-0, and the Colts will be looking for revenge tonight. The Colts have a fighting team and are determined to win this one.

As an added feature, the Colts will crown their football queen during the half-time intermission period. Members of the court will be the Pep Squad, Band and the football boys. This will be an attraction worth seeing as well as watching the Colts play some real spirited football.

GASOLINE—4,500 GVW to 50,000 GVW  
DIESEL—15,500 GVW to 100,000 GVW

HERE'S the new gasoline-powered GMC Model 472-30A—the tractor that will haul more payload within the 45,000 GVW limit than any ever built, by as much as 1,200 EXTRA pounds of cargo in some cases!

Fueled and ready for the road, this revolutionary new highway tractor weighs a trim 8,000 pounds—the result of new engineering techniques, developed by GMC, which eliminate load-robbing "dead weight" from truck design.

A good example is this GMC's revolutionary new "302" valve-in-head engine—pound for pound the mightiest

in truck history. It achieves a record-breaking 7.2 to 1 high-compression ratio from regular fuel, produces 145 horsepower—yet weighs as much as 500 pounds less than competitive engines!

It has all the features you want in a great truck. Standard equipment includes full air brakes and husky rear axle rated to accommodate 10,000/20 tires. Available in conventional and cab-over-engine models in a variety of wheelbases.

It's waiting—ready to haul a bigger payload than you've ever been able to put behind your tractor before!

Wildlife Federation Offering Prizes In Cartoon Contest

WASHINGTON, D. C. — The National Wildlife Federation has asked the high school students of America to create a cartoon character which can be used to tell the story of conservation—and offered prizes totaling \$700 in a nationwide contest.  
The cartoon contest will take the place of the annual conservation poster contest which the Federation has sponsored for 15 years. Entries must be submitted by next January 31st and winners will be announced during National Wildlife Week in March, 1953.  
As in the previous poster contests, the cartoon competition will be divided into junior-high and senior-high groups. Students anywhere in the United States,

from the seventh grade through the last year in high school, are eligible.  
First prize in the Junior division—grades 7, 8 and 9—is \$100. The second best entry will win \$50; third, \$25; the next ten best, \$10 each.  
Top winner in the Senior division—grades 10, 11 and 12—will get \$250. Second prize is \$50; third, \$25; next ten, \$10 each.  
The Federation said the contest was inspired by the success of "Smokey Bear," the cartoon character developed by the U. S. Forest Service in its advertising campaign to prevent forest fires. The wildlife organization hopes to find a similar cartoon symbol which can be used to urge Americans to take care of their natural resources.

The Federation had these suggestions for young artists:  
Entries may be a caricature of an animal or person, or the personification of an animal in the manner of a Disney character. It cautioned, however, against copying the style of another artist. In order to win an entry must be original in design.  
The cartoon character may be depicted in an action or pose suggestive of some conservation problem or practice and should be accompanied by an appropriate legend or slogan. The theme may be soil conservation, forestry, water pollution control, flood prevention, protection of wildlife or plant life, or another phase of natural resource management.  
The drawing should be done in pen and ink, pencil, charcoal, scratchboard, water color, or other standard medium suitable for reproduction in a newspaper or magazine.  
For a copy of the contest rules and other information, write to the Cartoon Contest, National Wildlife Federation, 3308 Fourteenth Street, N. W., Washington 10, D. C.

## THE GARDEN CLUB

The Garden Club held its final meeting of the year with a guest day on Thursday, October 16th, in the home of Mrs. Jim McMurtry.

The theme of the display was "Holiday Arrangements." Each member showed an arrangement suitable for a holiday.

For a New Year's Party, Mrs. Ralph Porter and Mrs. Rayburn Smith had lovely arrangements of flowers, bells and figurines. Mrs. Joe Goldston's Valentine centerpiece was dainty with miniature red flowers, hearts and fans. Mrs. Lee Holland used Abraham Lincoln's log cabin in a setting of berry plants.

Geo. Washington's birthday was appropriately represented with cherry trees, hatchet and patriotic hat filled with red carnations—these by Mrs. Charlie Seeds and Mrs. McDowell. Mrs. Phelan Sr. in her St. Patrick's arrangement used white mums and small chrysanthemums, green satin ribbon and foliage.

Easter was depicted by Mrs. Antrobus with white cross and white flowers, pink baskets filled with tiny candies. Mrs. Harry Brumley's "Easter Morning" was a beautiful church made of cube sugar, with candy dolls carrying tiny easter lilies.

Mrs. Edwin Eanes' table for a child's 4th July party was complete with cake drum, horns, star-

decorated plates and napkins. Another clever 4th July arrangement by Mrs. Jno. Goldston and Mrs. Alfred McMurtry, featured a merry-go-round with decorated cookie animals.

Halloween with its witches, pumpkins and black cats were designed by Mrs. Phelan Jr. and Mrs. O. C. Watson. Miss Marjorie Harlan's Halloween table was artistically decorated with African marigolds, colored masks, and brown satin ribbon.

Mrs. Howze's Thanksgiving basket of fruit included clever crepe paper turkeys. A hand-hewn wooden bowl held Mrs. Bill Greene's "Cotton-pickin'" Thanksgiving.

Mrs. Kunz's game table had an unusual 1 rd tablecloth. November 4th was represented with ballot-box, the donkey and elephant—by Mrs. Jno. Blocker.

Fall arrangements were by Mrs. Will Johnson and Mrs. Rumpy.

Among the many Christmas arrangements were: An exquisite all white mantle scene with the Nativity figures by Mrs. Jim McMurtry. A lovely white church scene by Mrs. Jno. Goldston; a Madonna with candles by Mrs. Phelan Sr. An enchanting Cinderella with her wand, Christmas tree and gaily wrapped packages was designed by Mrs. Jack Brooks. Mrs. H. T. Warner's under-water-red-candle was unusual. And vari-colored tree balls

arrangements by Mrs. Sam Darden and Mrs. Jim McMurtry. Mrs. Will Johnson's lemon tree with fruit and a colorful shrimp plant of Mrs. Chase's added variety.

The tea table was most attractive with the mirrored top reflecting a miniature garden fence covered with pink roses. Cookies cut to represent flowers were served with coffee to about 75 members and guests.

## P. T. A. MEETING FEATURES FILM SHOWING

The educational film "Assignment Tomorrow" played to a full house last Thursday evening at the annual evening meeting of the Sims P.T.A. in the projection room at the Junior High School building.

Mrs. Lawrence Neece, P.T.A. president, conducted a brief business meeting before the film was shown. Minutes from the September meeting were read by the secretary, Mrs. C. R. Brown. Short committee reports were given by Mrs. Frank Phelan, Sr., Mrs. L. E. Yankie, and Mrs. Fontayne Elmore. Mrs. H. M. Breedlove was elected to serve as Health chairman for the rest of the year following the resignation of Mrs. R. C. Jenkins from this office.

After the showing of the film, Mrs. Homer Estlack, program director, divided the audience into groups of six and allowed a few minutes for the groups to discuss, "Why Do Fathers Not Attend P.T.A. Meetings?"

Each group selected a chairman to present a summary of its discussion to the meeting. Speaking for their groups, Mr. W. A. Riney, Mrs. Homer Bones, Mrs. Lee Shaller, Mr. H. M. Breedlove, Mr. Homer Estlack, and Mrs. H. M. Breedlove revealed that each group had offered the same explanations—inconvenience of the meeting time and the idea that fathers considered P.T.A. to be the business of the mothers. It was suggested that fathers be made aware that the Parent part of the P.T.A. meant fathers as well as mothers.

Mrs. Loyd Johnson's room was given the dollar for having the largest number of parents present.

Annual guest day for the Book Club was observed Tuesday afternoon in the First Methodist Church at which time Al Evans of KGNC reviewed "The Silver Chalice" by Thomas Costain. Guests were welcomed by the president, Mrs. Thelma Darden, who also introduced the speaker.

"The Silver Chalice" has a biblical background, dealing with a legend concerning the cup from which Jesus drank at the Last Supper. A number of both biblical and historical characters of that period were woven into the story and ably portrayed by the reviewer.

During the social hour, Mrs. William Lewis poured coffee from a serving table laid with a pale green cloth and centered with a cornucopia from which poured many types of luscious fruits. ### News From The Office of Price Stabilization

R. G. Berle, OPS regional auto chief, has announced in Dallas that his agency has a bit of timely advice for prospective buyers of used cars. "Be sure to check the ceiling price before you buy!"

The Dallas Office of Price Stabilization is receiving an increasing number of complaints from buyers and prospective purchasers of used cars in the northern half of Texas that they are being asked to pay over-ceiling prices.

The unusual number of complaints, Mr. Berle believes, is probably caused by the recent upsurge in used car sales.

CPS regulations, he explained, were basically designed to protect the consumer. "However," Mr. Berle pointed out, "prospective purchasers of used cars must assume the primary responsibility for seeing that they are not overcharged."

"First," he advised, "Look for the tag or label on the used car you are thinking about buying, and see that it contains the ceiling price and other specific information that OPS requires."

"Second, if you are not completely sure that the price you are asked to pay is at or below OPS ceiling, by all means contact

the Dallas, Fort Worth or Lubbock offices of the OPS. We will be very glad to explain the regulations and tell you the exact ceiling price for the automobile you are considering purchasing."

"Third, make sure that you receive an invoice from the dealer. OPS requires that the invoice give certain descriptive information about the car, also the ceiling price, selling price, finance and extra equipment charges, and the name of the finance company."

### Texas Clubwomen Launch Plans For Voter's Roundup

WORTHAM—Texas clubwomen launched plans for a voter's roundup last week with a "Get-Out-the-Vote" campaign headed by Mrs. John J. Perry of Sweetwater, state chairman.

Each clubwoman is asked to be responsible for getting ten people to the polls November 4, according to Mrs. Perry. She explained "We want to better our 1948 record, when only 25% of the Texans who had the right to vote exercised their privilege."

Mrs. Van Hook Stubbs of Wortham, president of the Texas Federation of Women's Clubs, threw her full support behind the

voter's roundup. She stressed that the project is bi-partisan, and underlined that getting people to vote is the object, not how they vote.

The Texas Federation of Women's Clubs is a non-political organization with a membership of over 50,000.

The voter's roundup is directed by the federation's new Americanism department. Object is to build interest in our way of life and government, and to emphasize full citizenship responsibility.

Clubs participating in the contest to Get-Out-the-Vote are to report by November 15 to district chairmen in accordance with contest rules available at General Federation headquarters in Washington. District chairmen turn in the number of persons contacted by participating clubs and voting to the state chairman by November 20. Prizes up to \$500, depending on the size of the club, are offered by GFWC for the largest roundup of voters resulting from club efforts.

Nolan Barker of Sweetwater spent the week end with his uncle and aunt, Mr. and Mrs. A. O. Hefner.

Mrs. Dwayne Hudson of Amarillo spent the weekend with Mr. and Mrs. Neeley Hudson.

### Health Notes

AUSTIN—Every school should have a definite school health program. Situations such as, the kind of drinking water, arrangements for the school lunch, the lighting, seating, ventilation and cleanliness of the schoolroom, and the personal practices of the teachers and children are the basis of the school health program, said Dr. Geo. W. Cox, State Health Officer.

Every school has tremendous opportunities to promote the health of its pupils and of its community. From early childhood to early manhood and womanhood, most children are enrolled in schools and are under the supervision of school staffs for a substantial part of the day for approximately half the days of the year. The conditions under which they live in school, the help which they are given in solving their health problems, the ideals of individual and community health which they are taught and the information and understanding that they acquire of themselves are factors which operate to develop attitudes and behavior conducive to healthy, happy and successful living.

Schools alone, however, cannot enable children to attain all the desirable goals of individual and

community health. Considering the magnitude and multitude of the diverse and continuing efforts that must be made to satisfy the health needs of children, many people and groups, in addition to schools and health departments, should be interested in promoting health.

Parents have a prime responsibility. Physicians, dentists, nurses, social and welfare workers organizations, such as medical, dental, nursing societies, and voluntary health agencies should all lend their support to local and state health departments in their effort to secure better health not only for school children but the community as a whole.

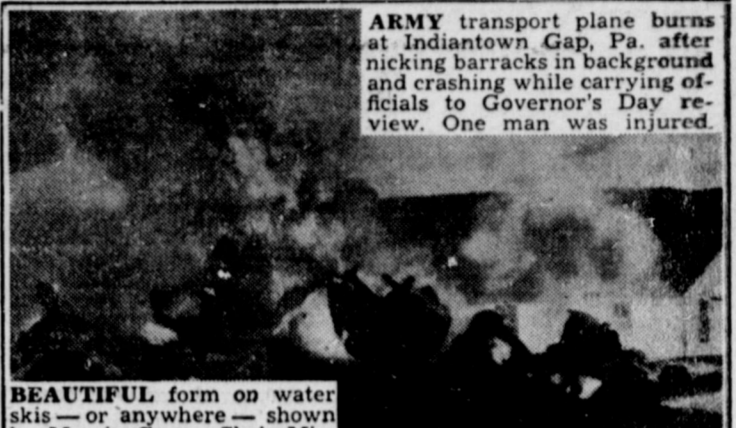

### Clear Vision Sought On Texas Highways

AUSTIN—How much clear vision should you have to pass another automobile when it is going 50 miles an hour and you are going 60?

This is one of the problems facing Texas highway planners in their efforts to modernize Texas highways and make them safer. They must make it possible for you to see a half-mile ahead, or you are taking a chance at passing another vehicle traveling at a mile a minute.

### FARM NEWS

From the County FMA Committee

#### HAY PROGRAM:

There have been five (5) cars of hay received and delivered to date. The only kind of hay so far received has been mixed hay.

The producers who purchased this hay were "Bud" Hermes-meyer, Ansil Adamson, Maurice Risley, Lee Muse, and J. B. Lane. Out of the five cars of hay received, four out of the five cars came from Iowa, and the fifth car came from Wisconsin.

Any producer who has ordered more than ten (10) tons of hay will possibly have to wait for two cars to come in before his order can be completed. There has been an average of eleven (11) tons of hay in each car received; therefore, those producers who have ordered more than 10 or 11 tons will be a little longer getting their order filled.

According to the majority of reports, the hay received is much better than most of the producers had planned on receiving. It seems that the better hay has come from Iowa.

If some of you other producers are waiting to see the hay before you order your supply, look around and see the hay already received. You still have an opportunity to place an application in the county office.

#### 1953 ACP FARM-BY-FARM CONTRACTS:

The progress of the farm-by-farm contracts has been good considering the busy time of the year. Most of the committeemen have had a difficult time trying to make contracts and gather their crops. If it is at all possible, try to have your 1953 ACP practices planned when your committeeman comes around in order to save him extra time and trips to your farm.

### Indians Scalp Bronchos 53-7

The Quanah Indians of District 4-AA, a team which has the makings of a state championship squad, maintained their undefeated record last Friday night by defeating the Bronchos of District 1-A by a score of 53-7. The Bronchos held their own pretty well in face of the opposition they were up against. A pass from Johnson to Murff accounted for the Bronchos TD and Hall plunged over for the extra. The Bronchos were at their lowest strength of the season with a number of subs filling various holes. Mike Murff was the outstanding player on the Bronchos squad, playing even a harder game than he did against Memphis.

"Yes, Judy, cooking on our Electric Range is exciting! Electric cooking is so clean, so fast and so easy!

"And we certainly make the best use of our Electric Range to cook complete meals. . . Dad sure loves those delicious roasts, tasty pies and cakes, and he's proud of those economy meals. Our food tastes better, cooks easier, and we save time and energy, too. By the way, dear—those cake layers should be ready by now. That bell you just heard was the automatic reminder. It's saying, 'Cake's done!'"

"You might say that our Electric Range is like an automatic cook. It does the work, and you don't have to worry about it.

"Another nice thing, you don't have to clean the kitchen so often, because there's no smoke and no soot. The kitchen stays cooler, too, because the heat goes into the food, not the air."

**Did You Know . . .**  
*with an Electric Range you can:*  
Melt chocolate squares in waxed paper on a surface unit . . . save natural vitamins and minerals by cooking vegetables with very little water . . . roast meats perfectly with a minimum of shrinkage . . . pop corn or sterilize baby's bottles in the deep-well cooker . . . have delicious "charcoal-type" broiling with no flame? Did you know that housewives everywhere are switching to Electric Cooking, the modern way?

The modern Electric Range is truly automatic. The automatic clock timer starts the oven, shuts it off when things are done—while you are doing other work, or just relaxing.

For real convenience and economy the deep-well cooker can't be beat. You can warm rolls, make stew and soups, bake beans, even cook complete meals in this wonderful cooker.

## Blowin' Out the Corners

Much has been said about the beer cans along our highways leading in and out of Amarillo. Last week James M. Harris of the State Highway Maintenance Dept gave us the following information on these roads in an article written for the Amarillo Globe-News-times. According to Mr. Harris four men work continually on one highway or the other picking up these cans and bottles. \$350.00 per week in the peak season is spent picking up this litter. When the beer industry prints in glowing words the great amount of taxes that they pay; items such as these are never mentioned by them. This would amount to almost \$100.00 per week per highway leading out of town. I wonder just how many of the slop-joints it would take to pay just this expense with their great amount of taxes.

According to a recent article written by Ray Cromley for the Wall Street Journal the master minds of Europe are busy mapping out a giant Marshall plan for the future in which Uncle Sam will continue to pour our dollars into their open rat-holes. They are going to ask for a world support price for all the farmers of the whole world with dear old big hearted Uncle Sam doing all the supporting. Anyway, I would like the answer to the following little poem:

This one question I would like to ask  
Before we begin this mighty task:  
Will they love us or will they not,  
After our money they have "Done got."

One of the heaviest loads that we can carry around is a chip on our shoulder.

"The liberal soul shall be made fat; and he that watereth also himself." Proverbs 11:25.

There's a pretty good thought in the following old Scotch Toast: who knows our good friend Uncle Bob might have toasted it in his days.

"Here's to you, as good as you are,  
And here's to me, as bad as I am;  
But as good as you are, and as bad as I am,  
I'm as good as you are, as bad as I am."  
After reading the above I wonder who I am or if I am.

One Texan remarked that just about the only thing that we are short on in Texas is words to describe our wonderful state.

Heard a preacher say that his congregation had torn the wonderful old song "I'm Bound For The Promised Land" out of all their song books and never intended to sing it anymore; being in Texas, they thought, they were already there.

Just this one little paragraph about politics as it is so near election. Two more short weeks and we will pick the man who will try to lead us for the next four years. One thing for sure we ought to vote. If we fail to vote, and to vote as our heart and mind tells us we are failing those who will have to take our place as citizens of this great country. We will have to confess to them that

we let them down. So let's all vote. Let's all vote our sentiments. The sentiments that our better judgment tells us are right, and I, for one, have a lot of faith of the verdict that is reached When America Speaks.

"For I will not trust in my bow, neither will my sword save me." Psalms 44:6.

Mr. and Mrs. A. D. Estlack, Barbara and Dana spent the week end with Mr. and Mrs. Kenneth Sams at Lamesa. Benny Edens accompanied them and went on to Midland to visit his mother and brother. Mr. Sams and Mr. Estlack saw the Tech-Baylor football game at Lubbock Saturday night.

Mr. and Mrs. Claude Fulton, their children Sue, Neil and Jerry visited Saturday in the W. L. Jordan home.

Mr. and Mrs. J. C. Estlack are visiting Mr. and Mrs. E. H. Estlack and family at Austin, and seeing the country in that part of the state.

### Wonder How Miss Gilbert Is in "History"?

By now I guess you've heard about the spelling errors in the kids' report cards this week.

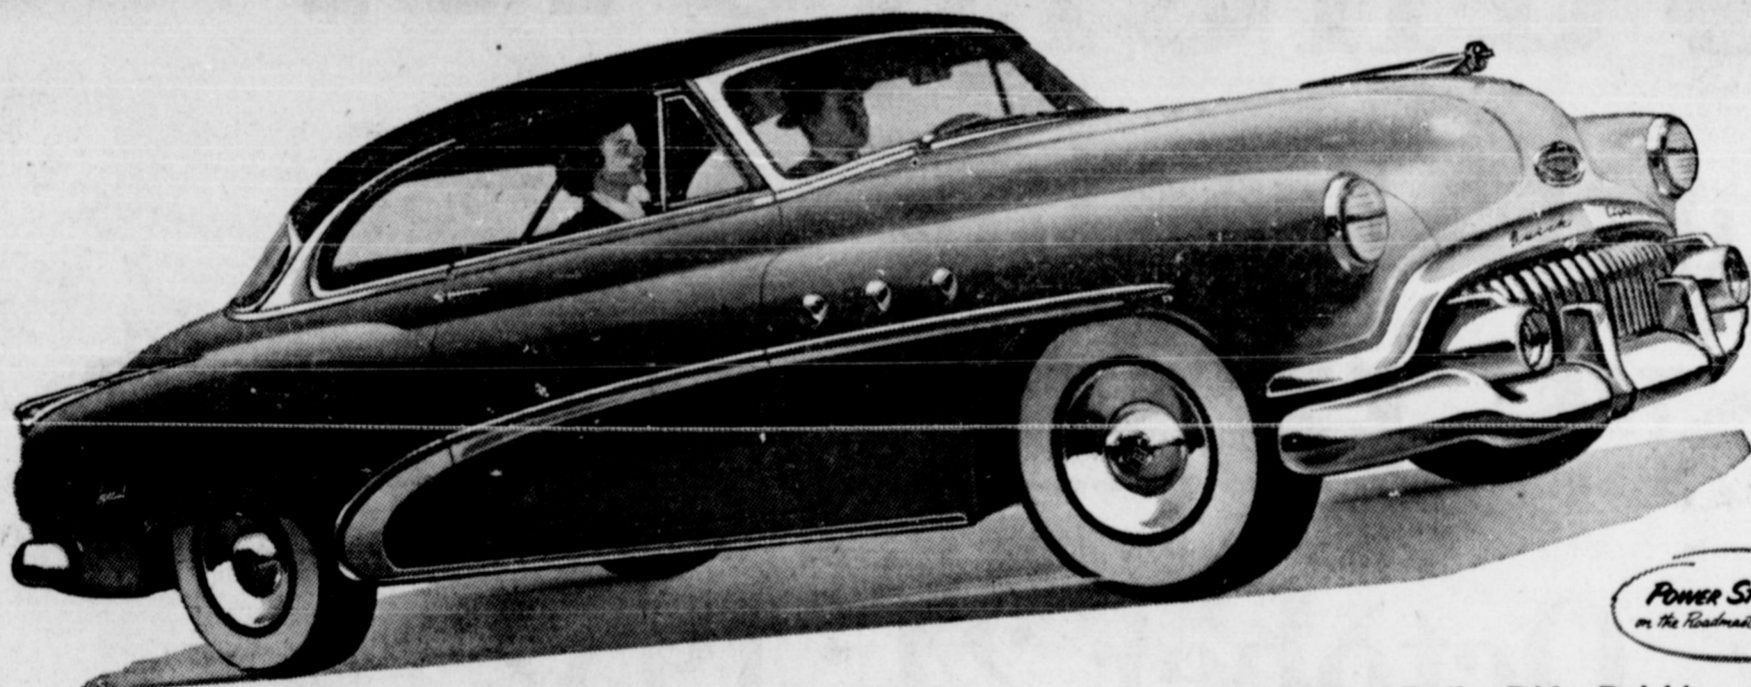

A typical card looked like this:  
Arithmetic . . . . . B  
Geography . . . . . B-  
Spelling . . . . . C  
Grammar . . . . . B

I don't know if Miss Gilbert, the principal, actually wrote those cards, but she took full responsibility. This morning I hear she got up in the Assembly Hall—before all the students—and started writing GRAMMAR with two "n's" on the blackboard 100 times!

From where I sit, I'll bet this makes her even more popular with the students. It's nice to see an expert admit she occasionally makes a mistake. Too many so-called "experts" claim they're never wrong on such subjects as what you or I ought to eat . . . what we should wear . . . whether we should enjoy beer or butter-milk. A really wise person never claims to "know all the answers" all the time.

# "Best Seller" that's too good to miss

**YES, this is a RIVIERA.** Sleek and swift-lined, like a convertible. Solid-topped like a sedan. Six-passenger roomy—and just about the smartest number that's made its bow in years. And how folks love it. The day it was first displayed, orders started rolling in. The rest of the industry took a look—and decided to make a carbon copy. Over the years, these "hard top" jobs have spread to every price range—

including the big-volume, lower-priced three. But this Buick version has forged ahead in popularity—and today it's the "best seller" in the whole "hard top" field—bar none. What's the reason? Well, it is—as you can see—a smoothie to look at and a smoothie to drive. It's a Buick—with Buick's famous Fireball 8 Engine—Buick's marvel

Million Dollar Ride—Buick's exclusive Dynaflo Drive\*—Buick room—Buick's Power Steering†—Buick comfort, Buick style—and Buick durability.

And when it comes to price—you will find out this: What you pay for a SPECIAL, a SUPER or a ROADMASTER RIVIERA will shine by comparison with the price tag of anything in their fields.

Isn't that enough to make you want to try out a RIVIERA today?

### GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

"Billy Buys a Dog" by Elizabeth Laing Stewart was donated to the Children's section of the Library by Judy Greene. It is without an exception one of the most cleverly arranged books for first and second graders that I've ever seen. It is a real story in a vocabulary strictly limited to that of the child's first reader. It will permit the child to use his new skill in reading at the psychological moment when he needs easy success to find pleasure and confidence. While we had ten new pre-primers for the little people in the summer they could not read them as they were not familiar with the vocabulary.

"The Higher Happiness" by Ralph W. Sockman is a memorial copy. It will be appreciated by my reading list who enjoy this type of book. Then we have another memorial copy that is Norman Vincent Peale's "The Power of Positive Thinking." This book of Dr. Peale's clearly and practically shows that an attitude of the mind can change lives, win success in all things, and overcome obstacles simply by using faith and optimism as guides to positive thinking.

Yes, and we possess Edna Ferber's "Giant." It is certainly a "tall Texas Tale." Quite a few probably read it as a serial in the Ladies Home Journal.

A Garden Club member gave me a donation the past week to purchase two books for their study course this next Garden Club year. The study course with one optional from the supplementary list is at list price \$56.40. The Library has a list of these books.

### TEXAS HAS MANY UNSAFE BRIDGES

AUSTIN—There's an old saying about not crossing a bridge until you get to it, but Texas has some 12,000 that are unsafe to cross.

A minimum of \$304 million dollars is needed to bring these

water-way spans to a point of safety, according to Highway Department estimates now being studied by the Texas Good Roads Association.

More than half of these structures, which total 276 miles in length, are inadequate for traffic demands made on them every day. One of every ten is incap-

able of supporting the legal load limit, while half of them are too narrow to permit passing, too low for clearance or too weak to accommodate today's modern traffic load.

Many of these bridges, particularly on through highways, now are being widened. Many more, however, are not on the new sur-

veys and will not be widened. Meantime, only precaution by the drivers will prevent many serious accidents. — Texas Good Roads Association.

Mrs. Lena Antrobus went to Amarillo Monday where she left by plane for Oklahoma City. She will visit relatives there.

### DONLEY COUNTY SOIL CONSERVATION DISTRICT NEWS

A few farmers in the Donley County Soil Conservation District are planning on doing some conservation work in spite of the dry weather. Last week we staked a farm and ranch pond for Allen Bryan on his ranch south of Lella Lake. The site is in the southwest part of his ranch and is for the purpose of furnishing livestock water in this area for better distribution of grazing. Plenty of livestock water well distributed is one of the first requirements of any good ranch plan. We can terrace lines on Mrs. L. B. Merrell's place and also the adjoining place owned by Mr. Merrell. Troy Guy is farming both of these places. H. T. Warner

is the contractor for the construction of these terraces. Tom Tate north of Hedley requested assistance in enlarging a farm waterway through his place. This work was surveyed and laid out to prevent an area of low flat land from being flooded and eroded when and if it ever rains again. Tate plans on seeding this protected area to alfalfa. A number of farmers have requested assistance on irrigation plans. We helped Hall Hardin locate a site for an irrigation well on his home place and also a location for a second well on his place near Martin. H. S. Mehaffey, Ashtola, and a number of other farmers are planning on having test wells drilled in the near future to determine the possibilities for irrigation.

### Dobie Writes Story Of Wild Horses

The story of the wild horses that roamed the plains of Texas and the entire Southwest is presented with all its wealth of lore, legend, and anecdote in **THE MUSTANGS** by J. Frank Dobie published by Little, Brown and Company September 29. Dobie, author of **THE LONGHORNS**, to which **THE MUSTANGS** serves admirably as a companion book, estimates that there were two million wild horses in the Southwest a hundred

**ONE THOUSAND MEN AND A GIRL**—All G.I. eyes follow pretty USO dancer Margaret Brown as she whirls through a fast tap-dance routine for the members of the Army's 2nd Division in Korea. Real appreciation for entertainment is shown by United States fighting men in Korea who turn out en masse for all USO shows put on for their enjoyment. Margaret, above, seems to be enjoying the G.I.'s approval as much as they enjoy her dance.

red years ago, more than a million of them in the state of Texas alone. **THE MUSTANGS** tells about the Spaniards who brought the original horses here, about the Indians who stole them, about the stampedes that set thousands of horses free and started the wild herds that extended in level country, travelers reported, "as far as the eye could see." All of the famous legends, many never before put on paper, are told by the Texas author whom many acknowledge to be "America's foremost teller of tales". The big 376-page book is illustrated with 35 line drawings by the distinguished Oklahoma artist, Charles Banks Wilson. In telling of the mustangers, the man who hunted the mustangs both for profit and for glory, Dobie unfolds stories of Indian horses and horsemanship, of the "Comanche Moon", and Indian horse stealing and mustanging, of the great stallions and their manadas, of captive mustangs, of the legend of the "Pacing White Mustang". He writes of Diablo, the Black Devil, of Blue Streak who led his mares in a death plunge sooner than he captured, of Starface "the magnificent thief that the Cimarron ranges had ever known."

Celebrated figures of the period emerge under Dobie's pen as flesh-and-blood people: Frank Lockard who spent thirty-one days following the famous wild stallion Black Kettle, of whom it was said that "for grace, speed, and endurance he excelled every other wild horse in Western Kansas"; Ellie Newman who rode as if he were "growed to the animal"; and Little Aubry whose six day ride from Santa Fe, New Mexico, to Independence, Missouri, Dobie ranks as "supreme in the whole riding tradition of the West."

This history of the wild horses is an essential part of the history of Texas and the entire Southwest as is shown by the place names that the mustangs have left behind them: "Mustang Bayou, Mustang Prairie, Mustang

Island, Pinto Canyon, Horse Pen Bayou, Yegua Creek and Horsehead Crossing in Texas; Wild Horse Draw and Wild Horse Lake in Western Kansas; Wild Horse Mountain, Red Horse Creek, and Horse Pen Creek in Oklahoma; Wild Horse Butte and Wild Horse Hill in Nebraska; Pony Hills and Wild Horse Creek—one of scores by that name over the land—in South Dakota; Wild Horse Mesa, Mustang Mountains, and Wild Horse Canyon in Arizona, and White Horse Spring, where a never-roped mare drank alone with a succession of white colts; Caballo Mountains in New Mexico, and Potrillo Mountain, too, where some Mestenero roped a colt; Canyon de Las Yeguas, now a place of United States Navy Shipyards, where a solitary wild mare ran with a herd of elk; Wild Horse Town and Wild Horse Plains in Colorado; Spotted Horse Creek in Wyoming; Wild Horse Diggings in Montana; Broken Flat in Oregon; Horse Plains in Idaho; White Horse Plains in Alberta." As Dobie says: "The wild horses have left a kind of song."

It's not monkey business when we say—Radios  
 need inspection too. It's a fact.  
 A radio is one thing you can't monkey with.  
 If your radio hasn't been inspected within the  
 last six months we suggest that you let us test  
 the tubes and give the set a general check-up.

**STOP, LOOK & LISTEN**

Let's use our heads this year, with our short feed  
 crop, for it is very necessary. Grind every grain  
 of feed, and save one third or more.

Feed, tried and proven, mixed feeds. Chic-O-Line  
 or Wes-Tex will deliver the goods. None better at  
 any price.

I will pay above the market for your surplus  
 grains and keep it in the county where it should  
 remain.

Give us a chance and get more for your feed.
