THIS COUNTRY HAS one of the poorest voter-turnout records in the world. On an ordinry American election day, only about half of the qualified voters may be expected to take the time and trouble to make it to the polls.

Other countries have as high as 90 per cent of the qualified voters cast a ballot on election day.

It seems paradoxical to us that the United States -- considered a bulwark of freedom and the democratic process should have this inexcusable record.

Next Tuesday, Americans will pick the man who will lead them for the next your years. We in Callahan County will also vote on a governor to head our state, a senator and a congressman who will make our laws, and a number of county officlals who will have a direct bearing on our lives in the coming years.

The right to vote is not just a privilege. It is also an obligation and a responsibility.

In the final analysis, the voter's party is not important. But it is important that each voter make his choice count.

It is perhaps true that one vote will make little difference But if, in this big country of ours, two million people were to awake on election day and decide to remain home because "my vote won't count," the result could be staggering. By not voting, those two million people could allow a candidate to win who was actually not the choice of the majority.

We cannot urge strongly enough that EVERYONE who is qualified be sure to vote Tues-

their Zip." While we're on the ridiculous,

we also heard this said the other day: "Old school principals never die. They just lose their faculties."

And have you noticed? Those guys who would rather fight than switch must be lousy fighters, since every one of them has a black eye. Wonder how the other fellow looked?

THIS FRIDAY NIGHT will be the moment of truth for the Baird Bears.

Every hope for at least a share of the district championship for Baird is tied up in the

Every bit of support the home town fans can give will help that much. Let's be just a little more vocal than usual in backing the Bears at Albany.

BIRTHDAYS FOR next week are fairly plentiful.

They include Mrs. C. Z. Anderson and Bernice Elliott, Nov. 2; Helen Miller, Larry Newton, Ruth Elliott and Mrs. Garvin Jones, Nov. 4; Dorothy Carrico, ger blasted Eastland, 35-6. Nov. 5; Lloyd Ray Hughes and Mrs. Dorothy Petty, Nov. 6; and Marvin Henry and Linda Cason,

Perhaps the noisiest, muddiest presidential campaign in our country's history will be climaxed Tuesday when Callahan County voters will join those all over the nation in choosing the man who will lead them for the next four years.

It is the political philosophy of The Baird Star that this newspaper will find causes to be for, rather than looking for ideas or persons to be against.

In keeping with this philosophy, we will not attack Senator Barry Goldwater, the Republican nominee, in the manner which he and his supporters have heaped abuse on the Democratic nominees.

Rather, we will urge Callahan County to give President Johnson and other Democratic nominees a heavy vote of confidence on Nov. 3.

We believe the election of President Johnson will safeguard world peace and is the best assurance for this nation's sustained prosperity -- which every American wants.

President Johnson went into the White House better equipped by experience and proven leadership than any other President in American history. And since then we feel he has demonstrated that leadership as well as a sense of mature responsibility.

We feel he is dedicated to continuing America's strong economy, and has qualities that tend to unite.

We urge the election of the Democratic slate. from White House to courthouse, on Nov. 3.

Seldom in the history of the nation has a Presidential candidate earned the widespread editorial support that President Lyndon B. Johnson has received from responsible newspapers and magazines – Democratic, Republican and Independent.

But the U.S. Senate race in which Republican George Bush of Houston is trying to oust Sen. Ralph Yarborough has gained much attention.

The two presidential candidates have made strong endorsements in the Senate race. Johnson has urged Yarborough's election and Goldwater has urged Texans to support Bush.

SALT WATER - Trial is scheduled on November 2 in a lawsuit brought by Superior Oil Co. to determine whether the Railroad Commission or the Water Pollution Control Board has jurisdiction over the disposal of salt water produced with oil and

But the lawyer for both state agencies, Atty. Gen. Waggoner Carr, has stepped out of the case. Carr said there appears to be a "conflict of interest" between the two state agencies, so he advisedthem to use their own staff lawyers if they want to be represented in the trial.

Attorney General's Department will take part in the trial only to see that all evidence is fully developed.

In an informal opinion, First Asst. Atty. Gen. Hawthorne Phillips wrote that the Water Pollution Control Board does not have the authority to require oil operators to get permits for use of open salt-water disposal pits.

A special study committee of the House of Representatives will meet on October 30 to decide whether to recommend legislation. Bills giving control of pits to the Board, the Commission, and to both, will be proposed to the committee.

RETAIL SALES - September retail sales were less than one per cent below those of August when normal, seasonal variation is considered. So reports the UT Bureau of Business Research.

But the dramatic increase was the one of 14 per cent in dollar sales volume over September, 1963, and a 32 per cent increase in auto sales. For the year, sales are up 6 per cent over the same portion of 1963, showing that the upward trend in business conditions is continuing stead-

City work crews are currently clearing brush and other obstructions from alleys in all areas of the city.

When the project is completed, the city's new packer-type garbage truck will be able to make collection runs in the residential area. The new truck is too wide to negotiate most of the alleys until the brush is cleared.

The truck is already being used in the downtown area.

When the clearing work is completed, the city has hopes of beginning regular twice-weekly trash collections throughout the residential area.
