A Champion Goes Down

NEW YORK—Lightweight champion Ike Williams seems to doubt the virtues of his profession as he is knocked through the ropes for a count of five and his third knock-down in his fight (May 26) with challenger James Carter at Madison Square Garden. This action, which took place in the 10th round, contributed to the crowning of a new world champion when referee Petie Scalzo stopped the fight in the 14th round. Carter, a comparative unknown before the battle, was the underdog, 14-5.

BREEDLOVE ATTENDS SOIL JUDGING CONFERENCE

County agent H. M. Breedlove attended a soil judging and classification conference at Memphis on May 29th. Twenty-five attended the conference.

Mr. Paul Haynes, soil specialist of the Extension Service conducted the conference with Mr. J. A. Scofield, district agent of the Extension Service. The conference consisted of a morning class of lectures and in the afternoon the group went to the field and classified soils on several different fields. This type of conference was to bring the personnel up to date on the latest developments in soil classification and conservation treatment for different types of soils.

Methodist Vacation Church School

The Methodist Church is planning a five-day vacation church school for boys and girls, ages five years through fourteen. The date is Monday, June 4 through Friday, June 8. The hours are 9:00 - 11:00 a. m.

This year the area of study which has been selected is "The Church." Kindergarten children will be studying "Happy Times in Our Church." The primary unit is "We Go to Church." The junior emphasis is "The History and Work of the Methodist Church." The intermediate unit is "O, Come, Let Us Worship." Any boy or girl in the community who wishes to enroll for this school will be most welcome.

LOCAL SCHOOLS CONTINUE FULLY ACCREDITED

Supt. H. T. Burton received a letter from the Texas Education Agency in Austin this past week stating that the State Committee on Classification and Accreditation of Schools has recommended that the Clarendon schools be continued as fully accredited for the year 1950-51. Local school officials and the community as a whole was congratulated for its cooperation with the agency and the services rendered the children and youth of this community.

Country Club Pool To Be Open Sunday

The board of directors of the Clarendon Country Club met Monday night and discussed arrangements for the opening of the swimming pool for the coming season. It was decided to officially open the pool Sunday, June 3rd. The annual chicken barbecue was discussed also but a definite time for this affair will be decided upon at a later date.

ROBERTS TO HOLD FORMAL OPENING OF NEW STATION SAT.

Jake Roberts, owner-operator, of the new Gulf Service Station four blocks west of main street on highway 287, is announcing in this issue of the Leader his Formal Opening plans for this coming Saturday. The new station is modern in every respect and will feature Gulf products throughout. Read his advertisement in this issue for further particulars regarding his opening event.

Services Wednesday For W. L. Baker

Funeral services were held Wednesday afternoon at the Murphy-Spicer Chapel for William L. Baker with M. O. Zimmerman officiating.

Mr. Baker, age 75, died in a Groom hospital Monday night. He had been a resident of Donley County the past eight years and was a retired farmer.

He is survived by his wife, Mrs. Mattie Mae Baker, three daughters, Mrs. Billie Hudnall, Amarillo, Mrs. Dennis Hazelett, Dallas; Mrs. Clarence Drum, Kellersville; two sons, W. G. Baker, Snyder and Allen A. Baker of Borger and one brother and three sisters.

Pallbearers were J. B. Lane, Arthur Nelson, Ben Lovell, Bob Head, Clem Hinds and Bill Littlefield. Burial was in Citizens Cemetery with the Murphy-Spicer Funeral Home in charge of arrangements.

Rodeo Grounds Taking Shape Fast

July 3rd and 4th Celebration plans are humming right along at a fast clip and so are the building operations at the Rodeo grounds. At the present time the fences are all up, the water well has been drilled and is now pumping and the bleachers should be finished within a short time as the majority of cinder block supports are practically finished. Work is also being done on the race track.

The Barbecue committee has been functioning and a sizeable amount has been raised toward the cost of barbecuing the bees which will run around \$700. This is going to be the biggest affair residents of this area have had the privilege of putting on in many years.

Flip Breedlove reported that the Parade committee will start making their plans and preparations within the next week or so and they want everyone who plans to enter some type of float or otherwise to contact this committee.

Mr. and Mrs. Mirza Crain of Goodnight visited Mr. and Mrs. Van Knox and Pat, Friday.

Methodist Appointments Announced

The Northwest Texas Methodist Conference closed at Abilene Sunday afternoon with the appointment of pastors for another year being read by Bishop William C. Martin. Clarendon residents were happy to learn that W. E. Hamilton was returned as District Superintendent of the Clarendon District and Rev. John A. English was returned as pastor of the local Methodist Church.

Other appointments regarding this immediate area in the Clarendon district are as follows: Clarendon circuit, L. D. Cleveland; Groom, Conrad M. Ryan; Hedley, Frank Story; Lakeview, E. L. Naugle.

ATHLETIC COUNCIL MEETING CALLED FOR TUES. NITE

A mass meeting has been called for Tuesday, June 5th at 8 p.m. at the gym for the purpose of electing new officers for the Athletic council and discussing other matters before the council at this time. Everyone interested in sports of any kind are urged to be present.

DONLEY COUNTY SINGERS TO MEET

The regular meeting of the Donley County Community Singing Association will be held Sunday afternoon beginning at 2:30 at the College Auditorium. All who enjoy singing or hearing good singing are invited to attend, as another good program and afternoon of good fellowship has been planned for you.

BROTHER OF LOCAL MAN DIES IN BEAUMONT

Daniel B. Sanford, brother of Buel Sanford of Clarendon, passed away May 19th in Beaumont after several weeks of illness. A native of Tenaha, Texas, Mr. Sanford had been a resident of Orange for the past 30 years. Funeral services were held at Orange, Sunday, May 20th.

Besides his brother here, he is survived by his wife, three sisters and two brothers.

KENNEDY FUNERAL HELD AT LAKEVIEW

Funeral services for J. H. Kennedy, retired farmer of the Lakeview community, were held Sunday afternoon in the First Baptist Church at Lakeview. Rev. O. L. Jones of Hedley officiated. Mr. Kennedy passed away at his home Saturday.

He is survived by three daughters and four sons. Two sons, J. M. and J. D. Kennedy live at Hedley.

Mrs. John Howard Gilbert and son Clinton, also Mrs. N. M. Lawler of Goodnight visited in the home of Mr. and Mrs. Clyde Gilbert Monday night.

Korean Veteran Returns Home Friday

Pfc. G. T. Mayo, son of Mrs. Dollie Mayo, returned to Clarendon Friday morning after being in the Korean theatre of action for around 10 months with the Marines. G. T. arrived back in the states the 3rd of April and has been in the hospital at Corpus Christi prior to receiving his 30 day leave to come home.

G. T. was wounded August 12 and then received severe frost bite and was evacuated to Japan December 12th. He reported that the morale of the fighting men was fair and they all believed that communism should be wiped out. The Korean weather and climbing around in the rugged terrain was about as bad as the actual fighting, he reported. The foremost thought of most all the men is getting the job done and getting to come home, he added.

G. T. said he was certainly happy to be home again and reported that his condition was improving nicely. "I was very fortunate in not losing any part of my limbs from the frost bite," he added. He plans to visit around with his friends here in a few days but he is enjoying staying at home right now.

Amarillo Sports Defeat Locals 13-9

The Amarillo Sports came from behind on two different occasions to defeat the local baseball team, 13-9, here Sunday afternoon. This was the first loss by the locals in several games and they gave the Amarillo club plenty of competition.

Clarendon had a 6-2 lead at the end of four innings and the Sports tied the score in the sixth. The local club went ahead again 9-8 in the seventh but failed to corral the visiting team the remaining two innings. This was a regular Cap Rock league game.

The local club will journey to Panhandle next Sunday afternoon for their next league game and they invite their many followers and supporters to go along with them.

DR. JOHN B. LONDON TO PREACH AT LOCAL CHURCH OF CHRIST

Dr. John B. London of Groom will preach at the local Church of Christ, both morning and evening services, on June 3rd and 10th. The pastor, R. C. Copeland will be holding a Revival meeting at Stevens, Arkansas at this time.

Everyone is cordially invited to come and hear Dr. London.

Bert Smith, who underwent an appendectomy Tuesday night in the Groom hospital, was able to be brought home Sunday. He is improving nicely at this time.

Three Jailed Here On Burglary Charges

Sheriff Guy Wright arrived home from Dalhart Tuesday evening with three youths from Florida charged with burglarizing the L. O. Christie home five miles southwest of Clarendon and the Red Hinders home just west of the county line Sunday afternoon. The three suspects were picked up by highway patrolmen late Sunday afternoon. All three confessed to the burglaries here and numerous other places between here and Florida.

Being held under bond of \$1500 and awaiting action of the Grand Jury today are Mr. and Mrs. Hoyt Winsett and James Lott of Miami Florida. Winsett gave his age at 18 and stated that he was AWOL from the Army. His wife gave her age as 16 and Lott gave his age at 16 and reported that he was an escapee from a Florida reform school, sheriff Wright stated.

Sheriff Wright said they confessed starting their string of burglaries in Miami, Florida when they stole a car, drove it to Kentucky and stole another and made other changes in Mississippi, Louisiana and at Del Rio, Texas. They burglarized a farm home near Goodlet before coming on to Clarendon.

Loot recovered taken from the Christie home included 4 guns, radio, pair of boots, and ammunition. They also invited themselves to a meal while there. Loot recovered taken from the Hinders home included a shot gun, hat, 2 radios, knife and thermos jug. They stated they were on their way to Montana.

Sheriff Wright issued a warning to all residents, especially those in the rural area to not leave their places unguarded for any length of time as more and more burglaries are being reported all over the country. Two houses were burglarized near Hedley last Thursday and it certainly will be wise for everyone to take more precautions in the future.

RAIN SUNDAY NIGHT SLOWS PLANTING OPERATIONS

Planting and other field operations were held up for a spell again the first of this week due to the added moisture which fell Sunday night but most farmers were able to get back in their fields by Tuesday afternoon. The weather has made planting quite risky due to possibility of crusting, etc. The high cost of seed and other expenses make it necessary to take every precaution to avoid planting over, scratching or otherwise.

The official weather station at the airport reported .69 inch of moisture Sunday night and this brings the total for May to 6.11 inches.

Sen. Kefauver Named "Father of The Year"

WASHINGTON, D. C.—Sen. Estes Kefauver, (D) Tenn., who was named "Father of the Year" by the National Father's Day Committee, is pictured with his wife and their four children, (L to R) Diane 3, David 5, Linda 9, who is holding Gail, aged 7 months. Sen. Kefauver led the recent Senate Crime Investigating Committee.

City Officials Call Public Meeting For Friday Night Regarding Phone Rates

City officials have called a public meeting for Friday night at 8 p. m. at the City Hall to receive pro and con views of the public in regard to the new rates being asked by the Southwestern Associated Telephone Co. It has been understood that company officials will be on hand to explain their proposals and the officials of the City want to know what the people actually think in regard to the issue before granting such proposed new rates. Every citizen interested is urged to be present as the Mayor and Commissioners do not desire to make such decisions unless the citizens of Clarendon do not voice their opinions.

WINS SECOND PLACE IN ESSAY CONTEST

Mary Edna Elmore of Clarendon High School was adjudged second award winner in the recent essay contest conducted by the Panhandle Chapter, Texas Society of Professional Engineers, it was announced by T. A. Serrurier, Essay Contest Committee member. Miss Elmore wrote one of the winning essays on "Engineering as a Profession" and was to receive her award of \$15.00 during the commencement ceremonies last Friday night. Because of illness Miss Elmore was unable to participate.

Other winners in the contest, which was open to all Panhandle Area high school students are: Miss Betty Jo Bacot, 1st prize (\$35.00); Miss Dolores Cannon, 3rd prize (\$10.00), and Miss Dorna Clanton, 4th prize (\$5.00) all of Channing high school.

Mr. Serrurier said the essays were all good and that he and the members of the Panhandle Chapter of TSPE were highly gratified at the results of this first annual essay contest.

U. S. MILITARY ACADEMY LIBRARY—This gray stone Tudor building, designed by Maj. Richard Delafield in 1841, was intended to house an astronomical observatory, post headquarters and a library. About 1900 the interior was extensively remodeled to adapt it to library purposes alone. It contains about 135,000 volumes, exclusive of those in 13 departmental libraries. This photograph from the National Archives is from a negative made by Matthew Brady at West Point more than 80 years ago. Next year the Academy observes its sesquicentennial.

Donley County Leader, \$2.50 year

Gabie Betts Burton Library Notes
By May L. Lewitt

There is much variety in our reading list this week. Slaughter's "The Golden Isle," is a paper back but a recent publication; Peggy Gordin's "Take Care of My Little Girl" is a gift; Dorothy P. Clark's "Just For The Bride" is an autographed copy—a Crime Club Book. Some of my readers enjoy these crime editions. There are two new editions by Chuck Stanley—"North of Santa Fe" and "Wagon Boss". A light romance by Peggy Gaddis—"The Girl Next Door"; for the boys is "Rough Riders Ho," by Rutherford Montgomery and "Donald Price's Victory" by Wyman.

The children's books to arrive are primers and pre primers as these "first grade, ready for the second" have a difficult time discovering something they can read alone. The first of these are: "In Came Pinkie," "Gray Kitten & Her Friends," "Sing Canary Sing," "Elsie Elephant," and "Three of Us." There are a few more to come that are "story books" for ages 5 to 8 inclusive, but these are not always a simple vocabulary reading.

The "Consumer's Reports" is a magazine that the adults might be interested in. Every usable product is rated. We keep the files for reference. The June issue has some valuable information. This publication doesn't hesitate in stating facts, and some of them may startle you. We have several gift books that came in the past week, and while most of them are duplicates, our copies are wearing and these will be useful.

Polio Vaccine Probe Widens

AUSTIN—The reward of Texans for raising money for polio research seemed closer this week. The hopeful sign was reflected in a National Foundation for Infantile Paralysis progress report on the relentless hunt for a polio vaccine.

The NFIP announcement stated that a three-year, world-wide search to identify all the different viruses that cause human polio, so that a comprehensive vaccine might be developed to protect mankind against the disease, will be completed this year by scientists in American universities. They will be aided by \$1,370,160 in March of Dimes funds.

This gigantic NFIP research program incidentally includes studies on various phases of polio cure and prevention in several Texas centers.

The National Foundation statement explained that the ease of modern travel permits human carriers to rapidly spread any of the different types of polio viruses to any part of the world. Therefore, scientists must know how many of these viruses exist and what their characteristics are, before a satisfactory vaccine can be created.

"A completely vaccinated child would be protected against all types of poliomyelitis virus that may be introduced into his environment," the NFIP announcement continued. "Unless this were so, the great effort and skill and expense of work that has been and is being done in the

field of virus typing would not justify the generosity of the American people whose contributions have made it possible."

The Foundation's report went on to explain that recent research has shown that human polio is caused by at least three different types of viruses, instead of just one as was long believed, and that there may be more types as yet undiscovered.

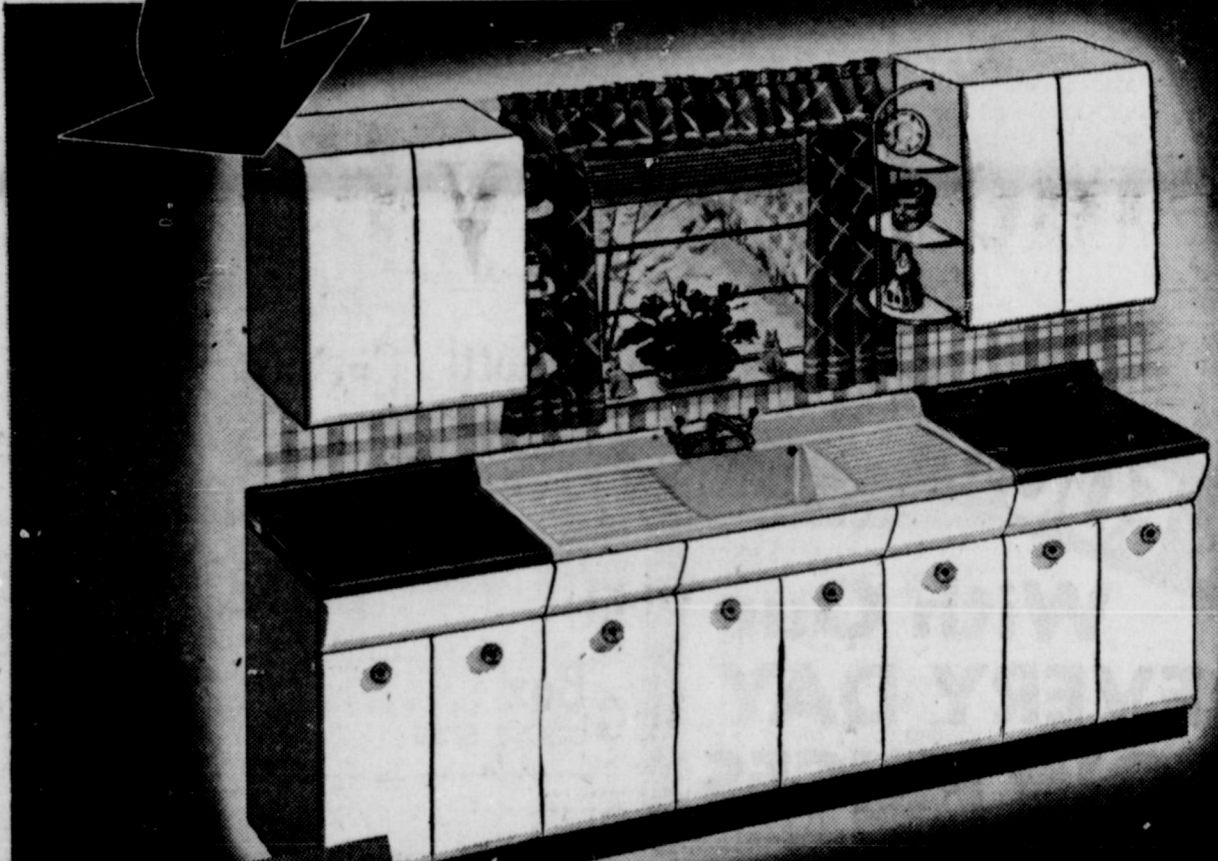

"If we thought of the polio virus as breeds of cows, for example, one type might be a Holstein, one a Guernsey, one a Hereford," according to NFIP. "All would be closely related but different. There probably are many cases of the same as well as different types of viruses in a given community, just as there are many cattle of the same as well as a different kind."

Mrs. C. C. LaGrone was able to return home Saturday from Clark's Hospital in Memphis where she had been a patient Thursday and Friday.

A number of guests called or left gifts during the afternoon.

"THANK YOU NOTICE"

To my many friends who were so kind and thoughtful during my recent illness, and seven weeks stay in the hospital, for all the lovely cards, letters, flowers and gifts, I say THANK YOU SO MUCH from the bottom of my heart, all these together with your many expressions of sympathy and fervent prayers, provided the inspiration and encouragement which I needed greatly to win a long hard battle. May God bless you and reward you for this kind and unselfish service.

Yours in deepest appreciation
Mrs. O. C. Watson Sr.

Sen. Lyndon Johnson Being Mentioned In Washington As Choice For Democratic Vice-Presidential Candidate In 1952

Senator Lyndon Baines Johnson is being mentioned in Washington as the choice for Democratic vice-presidential candidate in 1952.

An article about the senator in the current issue of The Saturday Evening Post says, "He has, in fact, the perfect personality for Capitol Hill: a grass-roots hominid seshblended with just enough city sophistication."

His personal charm has won him friends on both sides of Congress. Recently Republican Floor Leader Kenneth Wherry, yielding to Johnson's persuasions in connection with a bill to save West Texas long staple cotton, remarked, "I'd rather do business with you than anyone else on your side."

The greatest part of Johnson's success is attributable to his tremendous capacity for work and the willingness with which he uses it.

"Besides looking out for the Lone Star State," says the article, "Johnson functions as Democratic whip in the Senate, a post in which he acts as assistant majority leader. He is also a member of the strategy-planning

"ANNA, WE LOVE YOU"—Mrs. Anna Rosenberg, Assistant Secretary of Defense, shares with patients at Bethesda Medical Center the huge chest of candy she received from officers and crew members aboard the USS Eldorado, in action in Korean waters. The gift to Mrs. Rosenberg was an expression of appreciation of the Reservists for her "efforts on behalf of involuntarily recalled reservists regarding their release and limitation of active service."
Mr. John C. Norris (3rd from left), Washington Post military correspondent, represented the Post which recently received a letter from the USS Eldorado signed by James E. Thomas, S. E. Hadden and O. F. Martin enclosing a \$45 money order to purchase candy for presentation to Mrs. Rosenberg. The inscription attached to the gift follows: "Dear Mrs. Rosenberg: We have heard of your efforts on behalf of involuntarily recalled Reservists regarding their release and limitation of active service. Anna—we love you!" Signed, A GROUP OF INVOLUNTARY RECALLS ABOARD THE USS ELDORADO.

Democratic Policy Committee in the Senate, and of the Interstate Commerce and Armed Services committee."

To these he recently added another important job as chairman of the powerful Armed Services Sub-Committee on Preparedness.

Until the outbreak of the Korean War Johnson was content to limit his speeches on the Senate floor and win votes in the cloakroom, observes the article, then he made several penetrating and timely talks on the government's "maskshift mobilization."

He beat the other Senators to the punch by proposing the establishment of the preparedness-investigating committee and was appointed its chairman.

To his credit it can be said that he maintains the unique practice of calling government officials into closed committee sessions before attacking them in a report, to give them a chance to rebut the charges if they could.

Mr. and Mrs. Tom E. Hafer, Jr. of Dallas visited the week end in the home of her parents, Mr. and Mrs. Bob Head. Mrs. Hafer remained for the week. Her husband will return for her the coming week end.

Mr. and Mrs. Claude Eudy and Bobby Claude and Mrs. G. H. Millican of Amarillo visited Sunday in the home of Mr. and Mrs. Bob Head.

Mr. and Mrs. George Schollenbarger and children, Kay and Butch, visited the week end with his parents, Mr. and Mrs. J. N. Schollenbarger at Perryton. Kay remained to visit a week or so.

Mrs. George Schollenbarger, Kay and Butch were Pampa visitors Wednesday.

Mrs. Carroll Lewis left Thursday for Iowa Park where she visited with her brothers. She returned home Monday.

Mr. and Mrs. Bob Ayers of Memphis visited Saturday evening in the home of his mother, Mrs. J. R. Ayers, and Miss Emma Ayers.

Mrs. Addirene DuBose of Amarillo visited the weekend in the home of her mother, Mrs. J. R. Ayers and Miss Emma Ayers.

Nancy Ford of White Deer is spending the week with her grandmother, Mrs. A. G. Lane, and Mrs. Maurice Lane and Kay.

Mr. and Mrs. Glenn Riley and children of Belen, N. Mex. and Mrs. Lee Shelley and children, Monty Lee and Randy Jo visited last week with their parents, Mr. and Mrs. John Rhodes and other relatives.

Mrs. Bertha Benson left Wednesday morning for a weeks visit at Sulphur Springs, Texas.

Mr. and Mrs. Howard Stewart and Mrs. Bill Williams and Connie attended the Singing at the First Christian Church in Pleasant Valley, north of Amarillo, Sunday afternoon.

Mr. and Mrs. C. L. McCrary returned home the first of this week from Deming, N. Mex. where they visited in the home of their son, Mr. and Mrs. N. M. McCrary and Craig.

Misses Marilyn and Carolyn Stewart are visiting in the home of Mr. and Mrs. Ben Chamberlain and family at Claude, this week.

FARM NEWS
From the County PMA Committee

WHY WE NEED LARGE FARM PRODUCTION

Five reasons why the Nation needs tremendous farm production were recently listed by Under Secretary of Agriculture Clarence J. McCormick.

1. Our own population is rising. About 25 years from now, we may have about 200 million people in the USA. We want the Nation to be able to eat well then and in later years.

2. Military food requirements always involve a certain amount in strategic stockpiles. We want to meet every demand of the military without hardship to non-military users.

3. Because defense construction is taking some of our important raw materials, supplies of durable goods are decreasing: money that used to go for automobiles and refrigerators and houses may bid up the price of food. An abundant supply of food is an important element in keeping prices in line.

4. Food is an instrument of national policy. At some places, the showdown with communism may depend on tanks and guns and planes; at others it may depend on food. We intend using whichever will work best, and maybe both.

5. In times as uncertain as these, we must build up our reserves of the food commodities which can be safely stored, notably the grains. We must be amply safeguarded against the hazards of weather and other ever-present crop risks. For non-storable foods, we are aiming at a level of current consumption that will make for a high level of nutrition.

On the subject of prices, the Under Secretary said:

"With prices we are up against a two-edged problem. Prices have to be high enough to encourage production, but low enough to help keep the economy stable. It's a delicate job finding the way between those limits.

"With prices farmers pay already high and in some cases going higher, we can not expect farmers to take less than fair prices for the things they sell. They can't do it and stay in business, and we need them in business. Yet within limits, farm prices affect the whole economy and they must not be allowed to encourage inflation when we're all trying to hold it down. It is to the farmers' interest as it is to the city persons' to control inflation."

PMA ASSISTANCE IS INCREASING WINTER COVER CROPS

While the ACP is a vital force in increasing the use of winter cover crops, the major incentive for farmers to increase these crops this fall must be the production benefits resulting therefrom. You are urged to emphasize this since ACP funds will be limited. Although the growing of winter crops is important, this does not mean that the other measures called for in a well balanced ACP are to be neglected. The entire program should make,

through conservation, the greatest possible contribution to increased production of needed commodities.

This office expects to have approval of the winter cover crop practices in plenty of time to encourage stockpiling adequate supply of seeds.

It seems that a lot of people think farmers' should take a big cut in prices to control inflation. Farmers must have fair prices for their commodities if they are to stay in business and we need them in business.

Our soil and water conservation efforts must keep pace with our increased production needed in the defense effort. When the engine is running at high speed, we don't cut down on the soil.

Rather than weaken any of agriculture's defense against normal hazards, we need now to strengthen them.

J. R. GILLHAM RECEIVES GOLD STAR HERD AWARD

A Gold Star Herd award has been made to John R. Gillham of Greenbelt Dairy, Clarendon, on his herd of registered Jerseys. The Gillham herd won the award after having completed another year on official Herd Improvement Registry testing. The Gold Star recognition is for unusually high production over a four-year period.

Last year Gillham's 27 cows had an average production of 8,587 lbs. milk and 475 lbs. butterfat. Over the past four years Gillham has had an average of 27 cows in his herd producing 9,579 lbs. milk and 509 lbs. butterfat apiece. All tests on the herd have been checked by Texas A&M College and The American Jersey Cattle Club. The Gillham herd average is more than two times greater than that of the "average" dairy cow in the United States.

The Herd Improvement Registry work is another of the programs carried on by The American Jersey Cattle Club to aid the continuous improvement of the

Jersey breed. The Club's national headquarters is in Columbus, Ohio.

NEW POWER AND ECONOMY WITH MM MODEL U AND LP GAS

LP gas equipment factory installed on Minneapolis-Moline UTU and UTS tractors offers owners the many advantages of this clean burning high-octane fuel. Complete and slow burning of LP gas make possible new smoothness and uniform bearing pressures. This gives you more power on tough plowing jobs and exceptional smoothness for careful cultivating jobs—gives you the hidden savings resulting from greatly reduced maintenance savings and oil economy.

Apply these added fuel benefits to the MM Universal or Standard U tractors that are power and economy leaders in the 3-4 plow power class and you have truly outstanding performance. See us for full particulars on LP gas equipment factory installed to save you time and money on field changeover.

Kill Grasshoppers At First Hatch Warns County Agent

It will not be long until you begin to see young grasshoppers in hatch areas around the farm and ranch. H. M. Breedlove, county agent, warns that the time to kill the hoppers is when they first hatch out and do not wait until they become old enough to migrate to different areas of the farm. Breedlove has a large quantity of sodium floussilicate on hand and you can call by his office and get all you need for killing the hoppers. There is no bran available but the poison can be mixed with fine ground bundles and that will do the job in good shape.

The latest and most effective hopper poison is toxaphene and aldrin. These two poisons can be sprayed on the areas where the young hoppers are hatching and should be applied at the rate of one pound of the material per acre regardless of the amount of water used in the spray. The main thing, says Breedlove, is to get the right amount of the chemical per acre to get the kill. Toxaphene and aldrin in most cases comes with four pounds of the poison per gallon which would call for one quart per acre regardless of the amount of water used.

Any one needing information on the killing of hoppers should call by the office of the county agent.

Mad Dog! How To Tell One

By W. T. Oglesby, D.V.M.,
Veterinary Editor

A rabid dog shows several symptoms, any or all of which may be present. We will mention those seen most commonly: A dog that has been a little bit wild, becomes extremely affectionate. On the other hand, one that has been very friendly may get to the point where it does not like you so well.

Paralysis of functions associated with the face and throat are quite common. Paralysis of the tongue is indicated by inability of the animal to handle its tongue. With paralysis of the throat, the dog will try to swallow and may be able to get food and water into the mouth, but will not be able to swallow it.

There may be paralysis of the lower jaw.

A pronounced change in voice of the dog is not uncommon. As the disease progresses there is a general paralysis, noticed particularly in the wobbling of hind legs. Many times a dog appears to be snapping at objects which actually aren't there. If a stick is put in front of the animal, it may actually attack it. If the dog can still handle its jaws, it may hang on with vicious tenacity.

Some dogs have the disease come on so fast and hard that the symptoms come on without any forewarning at all. Usually this type of the disease is called dumb rabies. Sometimes, however, the dog leaves home and goes on a wild tear over the country, maybe going as far as 30 miles. During these spells, animals will usually attack anything in their path. They seldom go out

of their way to attack people or animals that are quiet. Moving objects fairly close to their path will usually be subject to attack. Many times these dogs come back home and hide away some place. By this time animals are very thin as they have been running a fever, and many times have not been able to drink. From this stage on, symptoms of paralysis progress very rapidly until death.

Do not kill the dog that you think has rabies. Confine the animal where it cannot get at anyone. Be sure to notify your veterinarian, so that he can watch it and advise you as to how the animal should be handled. It is extremely important that dogs suspected of rabies be allowed to die a natural death. In this way the laboratory may have a chance to make an examination. If the report is positive, your physician will know in which direction to give advice to people who possibly have been exposed.

Rabies is serious. We should not be panicky about it and we should by all means contact our veterinarian and our physician where this disease is concerned.

Is your dog vaccinated against rabies? This is a question that should come to the mind of every

dog owner each spring. Many cities and some counties have good rabies control programs. Many of them provide for vaccination clinics usually held in the late winter and early spring. During these periods vaccination stations are set up.

Some sections have a low rate of rabies or it has been eradicated. Over a period of many years in such areas there has been in effect a good rabies control program. But, so long as the disease is in our country, we will have to be on the lookout.

A good rabies control program is one that is backed by all citizens in the community. They realize that rabies is serious, but that it can be whipped if everyone gets busy. In general the plan consists of three main features:

1. The annual vaccination and registration of dogs.
2. Pick up and humane disposition of dogs not claimed by anyone.
3. Impounding and keeping dogs that should be watched for varying lengths of time.

A good program is designed to control rabies and is in no way thought of as a dog destruction program.

In some sections of the country rabies has gotten into the fox population. This brings on an en-

tirely different approach. Here a fox eradication program must be planned. Sometimes this is not liked by the fox hunters, but a human life is worth much more than a fox.

Rabies is a disease for which there is no cure when it has once been established. It is true whether it be man or animal that is affected. This means then that we must prevent it from developing. Like any successful program, many groups participate and in this one it is the public health officials, veterinarians, hunters, kennel club operators, other groups, and most important of all is the individual dog owner and the general public.

If you are in a section where rabies is known to occur now and then, and if there is no program for rabies control, you are on your own to have your dog protected. Remember that if your dog develops rabies, there is a chance that some human being who handles this dog or has contact with it, may develop this fatal disease. — The Progressive Farmer, May 1951.

Air Force Personnel Take Time Out To Aid Boys' Ranch

Part of the Air Force personnel stationed at the Amarillo Air Base Thursday night week ago put aside their training for warfare when one officer and three enlisted men went to the aid of the boys at the famous Boys' Ranch, located 40 miles northwest of Amarillo.

Boys' Ranch, cut off from the outside world by flood waters, was unable to obtain its regular food supply which was becoming low. Ordinary traffic to Boys' Ranch was made impossible by road mud-bogs and the rampant Canadian River which left its banks in the early stages of the Panhandle's three-day torrential downpour.

Hearing of the plight of the boys and their supervisors, Colonel A. J. Mason, Executive Officer at the Base, immediately

dispatched two trucks to Cal Farley, founder and president of Boys' Ranch, for the mission.

One of the trucks, a six wheeler, and another lighter truck, manned by the lieutenant and three enlisted men, made the night run carrying the food supplies successfully through the high waters. They remained overnight as guests of their happy hosts, the boys of Boys' Ranch.

The boys were quite relieved and pleased to see the two trucks loaded with food enter the Ranch gate. As one boy put it, "Heck, I wasn't worried at all when I found out the Air Corps were sending trucks. When I get big I'm going to be one of them soldiers myself."

Misses Julia and Ann Chase are visiting in the home of Mr. and Mrs. L. E. Thompson this week.

Just "Can't Get Over" Easy's Fence

Few years ago, Easy Roberts took a lot of kidding when he planted that hedge of Multiflora roses — along his property line. Folks said he was getting pretty high-falutin'.

But today plenty of people who laughed at the idea slow down when they drive by Easy's place — just to look at those roses. Most beautiful sight you ever saw.

Practical, too! The hedge is a good four foot high now, and at least five foot thick—even a shoat couldn't get through that prickly mass of shrubbery. Best of all, it

cost less than ordinary fencing. (Might be well worth your while looking into.)

From where I sit, there's no sense in looking down on something just because it's different from what we like. For instance, some people think ice-cold lemonade's the best "cooler-off" on a hot day. Some of us would rather have a glass of beer. The important thing is not to "hedge ourselves in" against other people's ideas and preferences.

ONE TREE doesn't make an orchard...

In the Gas Business, too IT TAKES MANY SOURCES OF SUPPLY

One tree doesn't make an orchard, and one orchard doesn't provide all the fruit the consumers demand. People in the fruit business realize that it takes many sources of supply.

The same rule applies in the natural gas business.

Our present customers and the additional thousands who will be served in the

future are assured of a dependable supply of natural gas from the more than 200 fields that are now connected to the United system.

And new sources of supply are constantly being added to United's network of pipe lines to meet the present and future needs of its domestic and industrial users in the Gulf South.

THERE'S PLENTY FOR YOU AND INDUSTRY, TOO

PLOWIN' Out the CORNERS

It is said that one of the oldest benefits of social security was suspenders. If we could only be so easily satisfied today.

It is no wonder that politicians pick up so much dirt; most of them always have their ears to the ground.

Stubbornness is a thing we hate; Firmness, that's Okay. The first is my neighbors trait; The last, that's my way.

Some advice: Don't let anyone give you anything, especially a

life insurance policy. It is a lot cheaper to buy one from a man you know.

Probably most folks have experienced the following thing long before now, but it just about floored me. Anyway, I was driving down the highway a few Sundays ago when I came up behind a car with this sign on the rear: "Caution; Blind Man Driving." And did I use that caution. I was afraid to try to pass him. I wondered what kind of an invention could enable a blind man to drive. There was a woman beside him and I wondered could she be telling a blind man to drive fast? I was in a hurry and fretted and fumed and worried and wondered. Finally, on a wide straight stretch in the road I told Mama to keep praying and with all the courage that I could muster I started around him. On the side of the car was this sign: Acme Venetian Blind Co. I felt so little I could have crawled through the keyhole in the door.

Dear Uncle Zeb: The recent 12 inches of rain has just about covered me up. I don't have much land left to farm and my family may get hungry. Please tell me where I can get some fish to stock my lake. The water is almost up to my kitchen door. I would like to have channel cat, but would take some yellow cats, or mud-cats. (signed) Anxious

Seriously, if you have more fish than you need and they can be easily transferred, please let us know and we will pass the information on to Anxious and all the others that are interested. If you have a small lake that is overstocked the fish will not grow, but if a few thousand can be put in some of the large lakes that dot the plains now, in no time at all the small ones will be table size. It is claimed by some of the experts that the rabbit variety of the fish family, the mud-cat that are hatched out this spring will do to eat next spring if they are not crowded. Think of the fun we can have catching them next spring. Let us know how many you can spare for your neighbors lake.

The largest of the Farm Organizations, the American Farm Bureau, has come out officially as opposed to price and wage controls and will oppose their extension beyond June 30. It doesn't take a smart person to know that any controls that tend to halt production will in the end make for higher prices and black markets. Congress is just about in the mood to get tough and if the most of the folks want to be rid of this "Joker" they ought to write their congressman or their

farm leaders at once. At best, most of the governments attempts to control inflation is just a feeble cover-up for the failure of the whole program of regimented security, and if they can succeed in covering up these failures until after another election they will be happy.

Dr. Umphrey Lee of Southern Methodist University just about hit the nail on the head in his address to the graduates of Texas Tech. He told them to not do as we had done in searching for a "Ready made economy", that this generation did not especially want or appreciate its freedom, but rather started looking for something new; a security that has proven false. Our forefathers did not have freedom in the old countries so they cherished their new found freedom in America. We took that freedom for granted. Anyway, he says that if we do not get interested in that freedom again and soon that we will lose it. And we have almost already waited too long to wake up.

Texas Prefers Zoning For The Waterfowl Hunting Season

AUSTIN—The Federal Fish & Wildlife Service is being advised that Texas still prefers zoning the state for the waterfowl hunting season.

The Executive Secretary is forwarding to Washington the resolution, adopted at the Game, Fish & Oyster Commission's meeting in McAllen, re-asserting the request made by the Commission last year.

The proposal merely requests that the Federal Fish & Wildlife Service act on the suggestion. The details of the plan as to the boundary within the state and the separate hunting dates would be arranged after the principle of zoning has been determined.

The Commission's action is in line with a recommendation by the newly organized Outdoor Writers of Texas. That group recently suggested that Texas is so large that sportsmen can obtain a fair opportunity to hunt waterfowl only through a zoning plan. At its McAllen meeting, the Commission discussed progress of the four experimental and demonstration areas established in the state. It decided to concen-

trate on these projects, "as a means of improving hunting and fishing, rather than authorize any other areas for the present."

The Commission accepted the retirement request of H. E. Faubion as Assistant Executive Secretary, and promoted Chief Clerk W. J. Cutbirth, Jr., to succeed Mr. Faubion. Cutbirth, a Navy veteran of World War II, has been in the department for 20 years.

Sample its Fireball Engine!

ALWAYS BE CAREFUL DRIVING

Here's something Special in Spaciousness

A LOT of folks like the two-door idea, because they feel that tiny tots are safer in the back seat.

But that's no reason why back-seat headroom should be dimensioned for midgets only.

So Buick engineers have done something about it, in the Buick SPECIAL 2-door Sedan pictured here.

They've kept the compactness of over-all length that's important in modern garages. But they've arched that sturdy steel top to give you he-man headroom—headroom in back as well as headroom in front—that makes a six-footer feel at home.

And they've designed a trunk that has "room for tourists."

Don't ask us how they did it. Come see for yourself.

Slip into those spacious seats—and while

you're there, find out why this compact honey is one of the hottest numbers we've seen in years.

Find out how that F-263 valve-in-head Fireball Engine pours out the power and stretches the miles per gallon.

Find out how Buick's exclusive combination of torque-tube drive and coil springs on all four wheels puts big-car steadiness and stability into this nimble performer.

Find out how Dynaflo Drive* takes the strain out of traffic driving—and brings you relaxed to the end of a long day's cross-country driving.

And above all—find out the prices—and how much they'll buy in comfort and convenience. The sooner you see your Buick dealer, the better off you'll be.

*Standard on ROADMASTER, optional at extra cost on other Series. Equipment, accessories, trim and models are subject to change without notice.

YOUR KEY TO GREATER VALUE

NO OTHER CAR PROVIDES ALL THIS:

- DYNAFLOW DRIVE* • FIREBALL POWER
- PUSH-BAR FOREFRONT • WHITE-GLOW INSTRUMENTS • 4-WHEEL COIL SPRING
- TORQUE-TUBE DRIVE • DUAL VENTILATION
