They go on the road Tuesday against Wellington in the difficult-to-play Skyrocket Gym.

"We have two tough games on the road," head coach Jimmy Avery said. "Their (Wellington and Panhandle) backs are against the wall, and Panhandle will be out for revenge after our last game. Wellington is so athletic, and they need to win.

"Both of their gyms are tough places to play in. The gyms are so noisy, and they really pack the fans in. We need a lot of people there to cheer us on. These games are important. We need to win them to assure a play-off berth and keep our momentum going if we make the play-offs."

Clarendon led Wellington 12-10 in the first quarter Jan. 27 in Clarendon after Scotty Elliott made a trey, a bucket and two free throws. Kareem Abdullah found his mark from behind the arc as

Clarendon College

Enrollment for credit students at larendon College for the Spring 1998 term is up approximately eight percent over last spring, according to College

Registrar Beth Johnston.

The college has enrolled a total of 857 credit (semester hour) students this spring, an increase of 66 students in headcount over last spring, Johnston noted.

The college's overall enrollment, Johnston explained, is calculated by adding semester hour students to those in clock hour programs. Thus far that total is 1,028 students over last spring's total of 910 — or an 11 percent increase so far. Of particular note is that the college's academic enrollment is at its highest level for the spring term since 1990, and it total spring headcount is the highest since

"We don't report clock hour enrollment to the state until November," Johnston said, "but so far our enrollment in clock hour programs is up to 171 students, versus 119 last year. We're hoping things look even brighter by the final reporting date."

College President Scott Elliott attributed the increase to the quality of the faculty and staff and the continued success of the institution's outreach programs.

"I think things are looking up," Johnston said. "We have formulated an excellent recruiting plan for this spring and I'm confident that our enrollment will continue to rise."

One of the college's goals for this year, Elliott noted, was to improve retention in the residence halls from fall to spring. Last year the college's residence hall count fell as low as 153 (or 70 percent occupancy). This spring the residence hall count is at 180 (or 82 percent occupancy).

District can afford to upgrade Medical Center Nursing Home

Dear Editor,

I am writing in regard to the full page ad the Directors of the Donley County Hospital District published in the January 29th issue of The Clarendon Enterprise. I feel qualified to comment on it as I served as Administrator of Medical Center Nursing Home for over four years beginning in August 1992.

In the ad, the board members of the District presented only two options for the opinion poll: 1) to sell the Medical Center Nursing Home, or 2) to not sell the Medical Center Nursing Home and to support an increase in taxes to make renovations, replace equipment, and to add beds.

the taxpayers' intelligence by suggesting that these are the only two choices?

An additional choice, which is entirely feasible, would be to continue to operate the District and to gradually make the needed improvements out of surpluses as they become available. The expense of adding additional beds is a moot point if the current beds are not full.

In the ad under "Why Sell Medical Center Nursing Home — Advantages," it states that MCNH does not have the resources from patient revenues and taxpayer collections to add beds, replace heating and air conditioning units, and update the facility in general. My question is: Why doesn't it? During the four years I was Administrator, \$40,000 in notes to a local bank were paid off, a \$30,000 beds were replaced, new lobby furniture was purchased, and dining room tables and chairs were replaced. Also during this time, the fund balance (the difference between assets and liabilities increased from \$74,804 for the fiscal year ended 6-30-92 to \$447,879 for the fiscal year ended 6-30-96, and \$140,000 in bonded indebtedness was paid off. The above figures may be

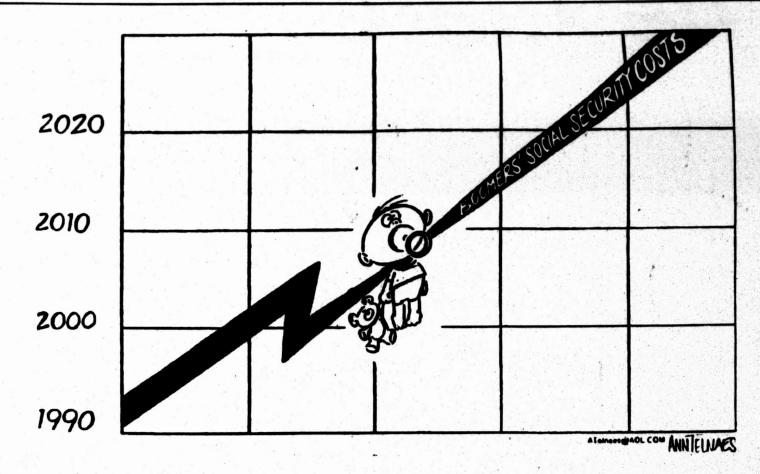

verified in the District's independent auditor's report which is public record. If the funds available as of June 30, 1996, (\$193,000 on deposit in a local bank) have not been depleted, this would pay for much of the needed

With the reduction of \$40,000 to \$50,000 in the annual expense on bonded indebtedness when the bonds are paid off in 1999, I would have serious questions as to why the District would have to raise taxes if we do not approve the selling of Medical Center Nursing Home.

In regard to indigent care, a hospital district has a lot of discretion in Are the board members insulting the policies it sets in handling indigent care while a county is bound strictly by state guidelines. Much has been said about the potential liability of the Have there been any major expenses for indigent care in the twenty-five years or so that the District has been in existence? How much has been saved for the taxpayers of the District (which are the same as the taxpayers for Donley County) by using the District's ability to have a say in its indigent policies? Does anyone really think that if the Hospital District is dissolved, the County could absorb the expense of indigent care without raising county taxes?

To answer in advance the comment that I am sure someone will make that I am just wanting to return as Administrator of Medical Center fire sprinkler system was installed, all Nursing Home, I will state that I am quite happy as Administrator of the Quanah Parker Nursing Center in Quanah, and I am not and never will be a candidate for any opening which might occur in the future at Medical Center Nursing Home. I am speaking as a concerned taxpayer in Donley County and the Donley County Hospital District.

Folks, this lady pickaxed two people to death. It seems like everyone has forgotten about the brutal crime Tucker committed and admitted to do-

One TV reporter compared her to Joan of Arc! Let's see, I don't remember Joan of Arc to be a prostitute, addicted to heroin, who swung a pickax 32 times into the chest of an innocent woman.

Are people trying to save her because she is a born-again Christian? Because she looks like the nice, good girl next door? Because she is a woman? I'm happy that Tucker has found God, but she still must be punished for her terrible act.

Killers, like Karla Faye Tucker, are sent to on Death Row?

Issue

Update

with Mac Thornberry

Death Row to die... not to be rehabilitated. Somehow we have forgotten that very important fact. Yes, some prison programs are designed to rehabilitate but not Death Row. It is the ultimate punishment for Texas' worst criminals. Karla's accomplice, Danny, has already been executed. Isn't it time for Karla to die?

Yes, I'm a conservative and my liberal friends call me cold-hearted and barbaric. Hey, I believe that people who steal cattle or horses should still be hung from the nearest tree and rapists should be castrated. Texas is known for its tough stand against criminals, and I don't want that to change.

If Karla Faye Tucker killed your family with a pickax in order to rob them of motorcycle parts, wouldn't you want justice? I would.

Killers in Texas don't have to look like ragged, tattooed beasts. Women kill, too. Their cases seem to be placed in a different spotlight, though. Why is that?

Women have fought for and earned equal rights. We've got the right to vote, equal pay, drive a car, wear pants, and even play high school football. Shouldn't those equal rights extend to females

The death penalty in Texas works. It doesn't please everyone, nor will it ever. We cannot afford to keep building prisons to house criminals. We put animals to sleep at the pound, so why not do the same for brutal killers? The animals haven't done anything except be abandoned. The people of Death Row have murdered people and committed horrible acts against innocent people. Shouldn't they be punished in the ultimate form — death?

I'm glad that Karla Faye Tucker has found God and knows that he will forgive her of her sins. God forgives, but the penal code doesn't. Only God can know if you have truly repented of your sins and are not just trying to save your own skin. If we didn't make criminals pay for their crimes on earth, we'd have thieves, rapists, burglars, and murderers roaming free on the streets.

Tucker has said in TV reports that she is not afraid to die. It's a good thing because her Death Row appointment will not be canceled. She's just lucky that Texas doesn't have an "eye for an eye, tooth for a tooth" death penalty. I'm sure Karla Faye Tucker is happy that she'll be receiving a lethal injection, rather than being pickaxed to death.

Readers detail more points concerning Nursing Home sale

Dear Editor,

There are some important points to consider regarding the possible sale of the Medical Center Nursing Home.

Your tax dollars will soon have the bonded indebtedness against the Medical Center paid. Why throw or give this away?

If the facility is sold:

1) You will still have hospital taxes to pay. Taxes will not be going

4) We are not assured that the ions. Ambulance Service will be available. Present service is provided by combined efforts of the Hospital District, the City, and the County. This service will continue regardless if the facility is sold but not if the district is dissolved.

5) The sum possibly offered for the facility is ridiculously low. Buyers will be expecting to make a profit on their investment. Why else?

Why not keep what we have paid for and use the taxes, after paying the indebtedness, to improve the facility and if necessary ask citizens to consider voting bonds for improvement and expansion?

Dissolving the District will take a vote of the Citizens made possible by the State Legislature. If we ever hope to have a Hospital, preserving the District would be a first step. Don't 2) Care for Indigent People (those confuse selling the Medical Center with dissolving the District.

State of the Union Address last Tuesday night, President

Clinton showed us once again

that he has an amazing ability to put distractions aside and present a well delivered speech on some

of the most pressing challenges facing our Nation. If nothing else, the President's speech provides a good starting point that will help frame this year's debate in Washington.

On the one side, you have what the President is proposing: \$42 billion in new government spending; new federal programs that give even more

power to the Washington bureaucracy; and, limited tax credits that essentially make people jump through hoops to keep a little more of the money that's rightfully theirs in the first place.

Lower Taxes and Spending for a Stronger State of the Union

On the other side of the debate is what I and many others in Congress hope to achieve this year: first, providing real and across the board tax relief for the American people, and taking the first step toward scrapping the tax code itself; second, improving education - not by giving more power to federal bureaucrats, but by giving parents more control over what their kids learn in school and sending more dollars directly to the classroom; and third, shoring up our defenses in spite of the decline in defense spending that began 13 years ago and is hurting our armed forces today.

government will have the first balanced budget in 30 years. When you consider that only three years ago, the President was proposing budgets with deficits as far as the eye could see, this is a step in the right direction. But unfortunately, the President continues to look to Washington first to solve most of our problems, and continues to believe the federal government knows best how to spend our

I believe the opposite is true. I believe that the American people themselves know best, and that if we trust you to make decisions that are in the best interest of you and your family, our whole Nation will be stronger and more secure.

attrition from fall to spring," Elliott said. "We'd like to maintain 100 percent occupancy in the residence halls at all times; however, I'm still pleased that we improved over last spring in that regard."

Elliott credited Renessa Klink (Wellington) and James Anglin (Childress) with doing a particularly good job in administering the off-campus sites, and Dr. Myrna Cassel in helping to increase enrollment at the Jordan Unit in Pampa.

"The key to our future growth is to build the new center in Pampa," Elliott said. "Pampa remains Clarendon College's best opportunity for growth and as I've said many times, growth in Pampa will be good for the college overall and good for Clarendon."

Herring offers 'rock-bottom' home loan rates

The Herring National Bank has announced its new "Rock-Bottom-Rates" home loan program.

"Herring's home loan rates are currently at 6.75% for qualifying 15 year mortgages, and 7.125 for qualifying 30 year mortgages," said Trishia Schwertner of Herring National Bank. "We believe this is too good to pass up in Clarendon. There are lots of people in Clarendon who would enjoy lower mortgages payments," said Schwertner.

The Herring National Bank, you know, has been making traditional home loans for years. "A traditional home loan stays at our bank and

is serviced at our bank," said Schwertner. "Your loan is approved here, and you make your payments

"We really like making traditional loans because we get to see everyone and we can make the terms a little more flexible.

"The difference is that some people will give up a little flexibility for a really great rate," says

With Herring's new home loan program, you will now be able to obtain a mortgage loan with long term, fixed interest rates. Additionally Herring helps customers qualify for Federal Housing Administration (FHA), Veterans Administration (VA), and First Time Home buyer programs. These programs offer affordable, competitive, current market, fixed rate mortgage loans.

"Herring National Bank is committed to making large investments in Clarendon. One very good way to do this is to help people purchase their home. Customers can still get the more flexible loan with slightly higher rates, but I know that many others will want to take advantage of these new programs with lower rates," said Schwertner.

New state legislation gets tough on graffiti artists

on stop signs, on billboards, under bridges, on building walls. To graffiti artists any surface is a canvas. Despite the fact that is against the law, unsightly, and unsafe. Legislators have gotten tougher on people who practice the craft, and according to the Texas Department of Transportation, whose signs are often graffiti targets, it couldn't come at a better time.

A new law, passed this last legislative session, increases criminal penalties for graffiti offenders. Under the law, offenses range from a Class B misdemeanor to a first degree felony, depending on the cost to repair the property that is vandalized. For example, vandalizing property that costs from \$1,500 to \$20,000 to repair and remove graffiti is a state jail felony

In addition to imprisonment, state jail felons can also be fined up to \$10,000.

graffiti is seen practically everywhere, it TxDOT property, you run the risk of committing a state felony because for most of our property it costs at least \$1,500 to fix the damage from the graffiti," said Richard Kirby, construction and maintenance engineer for TxDOT's Construction and Maintenance Division. And while most TxDOT street signs cost in the hundreds, graffiti offenders still won't be able to skirt the heavier penalties.

> "If you vandalized several signs, the law allows us to combine the costs of all vandalize signs, meaning you could still face a stiffer penalty," Kirby said.

Kirby added that the penalties under the new law don't just stop at fines or inlaw also face driver's license suspension.

Search for world's greatest granny begins

WENATCHEE, Wash. — The search is on to find the world's greatest granny.

The Washington Apple Commission announced the official beginning of its annual "Search for Granny Smith" — a nationwide hunt to find the perfect grandmother to promote the state's famous green fruit.

"We're looking for on-the-go grannies," said Jim Thomas, search coordinator for the commission. "Someone who personifies the healthful attributes of our apples."

Thomas said a successful candidate should meet the following guidelines:

- Be sweet to the core and have good moral fiber. · Be hand-picked by children, grandchildren,
- spouse or friends. · Have beauty that's more than skin deep, and just the right amount of maturity.
- · Have "a-peel."

Those wishing to nominate a noteworthy

the nominee should be considered and enclose a non-returnable photo. Nominations should be sent to Granny Smith, P.O. Box 18, Wenatchee, WA 98807, and received no later than April 3, 1998.

"We've extended the deadline this year so more grannies can participate," said Thomas. "Nominees don't need to have the last name 'Smith,' and the photos sent to us, like our Granny Smith apples, should be in good taste."

Last year's winner was 66-year-old Suzanne Lafond of Nashville, Tenn., a small business owner, community volunteer and avid exerciser. Lafond was selected out of thousands of entries from all 50 states to be the official "spokes-granny" for Washington's apple growers.

She's been busy.

"It's been a great year," Lafond said. "I've traveled quite a bit making TV appearances and talking to senior groups. Getting to meet so many

grandma should write, in 100 words or less, why people and seeing so much of the country has been a tremendous experience."

Twenty grandmothers, and the person who nominated each of them, will be chosen to participate in the "Granny Finale," held in May at the Washington State Apple Blossom Festival in Wenatchee, Wash.

The winner will be featured on grocery store posters and make promotional appearances in the upcoming year.

"We have another bumper crop of high quality Granny Smiths this year, so we need an even bigger crop of granny nominees," Thomas said. "The search has really turned into something special. We give people a chance to tell us why grandmothers are a special part of their lives.

"From the nominations we've received, it seems many grannies have traded in their rocking chairs for tennis shoes."

Lady Broncs prepare to face Panhandle this Friday

for a Friday match-up with District 2-2A leader Panhandle, who handed Clarendon its only district loss as the Lady Broncos look for their third straight year of post-season play.

Clarendon is in second place at press time behind the state-ranked Pantherettes (seventh).

The Lady Broncos are coming off one of their best district performances against rival Wellington, beating the Lady Skyrockets 65-48 Jan. 27 in Clarendon.

"I thought this was our best overall effort in district play so far," head coach Steve Schmidt said. "We played with emotion and intensity and shot well."

South Plains College hands CC Bulldogs 72-58 loss

Clarendon College controlled the tempo of a Monday match-up with a very athletic South Plains College team holding the game to a 10-point dif-

ference before falling 72-58. South Plains College led 30-19 at halftime and held a 10-point lead much of the game until the final minute, head coach Joe Mondragon said. High scorers were Brent Hillery with 13 and Antonio

Williams of Tulia with 11. 'We did want to control the tempo of the game, and we did," he said. "The score at the end didn't really indicate how close it was."

Clarendon College meets Frank Phillips College Thursday at 7:50 p.m. in the Clarendon College gym for a re-match of an earlier loss with FPC that kicked off the Bulldogs re-entry into the

"Frank Phillips is playing really well. They're in the middle of the pack (in conference standings) with Midland and South Plains College.

"They have five kids who start who are very skilled and very athletic. We kept it close last time. It was the first game after the break, and we let a lot of kids play that game, but that's not going to

in the game much of the time.

"We have to contain their perimeter shooting. Their kids can really score, and we can't allow them to crash the boards."

The Bulldogs had a tough time with Howard College (6-1) Jan. 29 at home. Howard led 46-26 at halftime before pulling away with a 102-72 win.

Scoring for the Bulldogs were Kedrick Monson, 19; Arneal Long, 14; Hillery, 13; Snapper Hunnicutt, 7; Paschal Ike, 7; Ryan Ross, 4; Bernard Preston, 4; Williams, 4; and Leland

"I think Howard is the best team in the conference," Mondragon said. "I think our biggest dilemma has been depth. The five players they started were more athletic. I told the guys we need five guys who play their best game for 40 minutes. At no time can we slip."

The biggest heartbreaker in conference play was a 112-96 overtime loss to New Mexico Junior College Jan. 26 in New Mexico. The score was tied at 48 at halftime and the Bulldogs were down seven points with 34.1 seconds remaining.

with less than a second remaining on the clock to send the game into overtime. Memphis graduate Monson scored the first two points in overtime and the Bulldogs failed to score again. "That was a tough one," Mondragon said.

"That was emotional and we got in at 4 in the morning after getting beat in overtime and then got beat by the number one team (Howard) in the conference (three days later)."

Scoring for the Bulldogs were Hillery, 35; Hunnicutt, 17; Ross, 14; Ike, 10; Williams, 6; Long, 6; Monson, 4; Tim Marshall, 4; and Robertson, 2.

Keeping the players positive has been difficult with an 0-6 conference record, Mondragon said. "I'm trying to tell the guys they're improving in a lot of areas, and if they keep trying they're going to be victorious.

"Right now, just like in business when you lose accounts, there's a point where morale goes down. You try to stay positive. School is important to

IF YOU PAY TAXES IN DONLEY COUNTY, DONLEY COUNTY HOSPITAL DISTRICT BOARD WANTS YOUR OPINION.

WATCH YOUR MAIL

YOU WILL BE RECEIVING THE FOLLOWING OPINION CHOICES ON A POSTCARD:

- 1) I THINK THE DONLEY COUNTY HOSPITAL DISTRICT BOARD SHOULD SELL MEDICAL CENTER NURSING HOME.
- 2) I THINK THE DONLEY COUNTY HOSPITAL DISTRICT BOARD SHOULD NOT SELL MEDICAL CENTER NURSING HOME, AND I WOULD SUPPORT AN INCREASE IN TAXES TO MAKE RENOVATIONS, REPLACE EQUIPMENT, AND ADD BEDS.

PLEASE RETURN BY FEBRUARY 6, 1998

(The results of this opinion poll are non-binding on the Donley County Hospital District Board of Directors.)

THE DONLEY COUNTY HOSPITAL DISTRICT BOARD OF DIREC-TORS OPERATES UNDER THE TEXAS CONSTITUTION AND THE LAWS THAT CREATED THE HOSPITAL DISTRICT.

By law, the Board may levy taxes to:

1) Pay off bond and bond interest

2) Pay for other obligations assumed by the hospital district...medical care for needy (indigent) residents in Donley County as per Article 9, Section 9, of the Texas Constitution creating the hospital district.

3) Provide for the operation and maintenance of the hospital district and hospital system. to include contractual obligation to the ambulance service, (...any other facilities deemed necessary for hospital care by the directors.)

4) Make further improvements and additions to the hospital system.

By law, the Board shall have the power and authority to issue and sell bonds for purchase, construction, acquisition, repair or renovation of buildings, and improvements and equipping same. No bonds shall be issued until authorized at an election called for that purpose.

By law, the district shall be empowered to sell or otherwise dispose of any property, real or personal, or equipment of any nature upon terms and conditions found by the board to be in the best interest of its (the district's) inhabitants.

WHY SELL MEDICAL CENTER NURSING HOME?

Advantages:

- 1) Currently, MCNH does not have the resources from patient revenue and taxpayer collections to add beds and replace air conditioning and heating units, as well as updating the facility in general. (More beds would increase patient revenue.)
- 2) The hospital district would no longer be responsible for facility, resident, and staff
- 3) The MCNH facility and associated property would become a taxpaying entity.
- 4) Selling MCNH would be the first step in the process of dissolving the hospital district. (The last bond payment will be February 1, 1999.) Hospital district officers have been informally reviewing bids to determine which group would best serve MCNH residents and Donley County.

Disadvantages:

1) Donley County Hospital District Board would no longer oversee MCNH operations.

WHY DISSOLVE THE HOSPITAL DISTRICT?

To eliminate Donley County Hospital District taxes from your tax bill.

By law, your 1997 hospital district taxes (\$223,837) went to:

1) Pay bond with interest. (\$48,775) Last payment due 2/1/99. 2) Pay for medical care for needy in Donley County. (\$12,525)

3) Pay for Partial support of ambulance service. (\$15,600 annually...this amount also paid by city and county by contractual agreement)

4) Pay for Appraisal District fees to service the taxes. (\$14,397)

5) Operation of Medical Center Nursing Home. (Remaining 1997 tax dollars of \$132,540 supplied 11% of the total nursing home revenue.)

WHAT WOULD BE THE IMPACT OF NO HOSPITAL DISTRICT ON INDIGENT CARE AND THE AMBULANCE SERVICE?

1) Medical care responsibility for needy (indigent) would be shifted to the county at lesser taxpayer liability. (See What you Need to Know About Indigent Care.) Partial ambulance support responsibility to be redefined by city and county.

WHAT GROUPS HAVE PRESENTED BIDS TO PURCHASE MCNH?

Three bid proposals have been presented to the hospital district Board. Those proposals are from 1) Mrs. Sharon Wetzel, Palo Duro Nursing Home in Claude, TX; 2) Mr. James Moore, Centex Corp., with nursing homes in Amarillo, McLean, Memphis, Wellington, and Slaton; and 3) Mr. Alan Graham and Mr. and Mrs. Phil Kielpinski (Mr. Graham's parents) to affiliate with MSC in Lubbock which operates homes in Anson, Alpine, Perryton, Tahoka, and Winsborough, TX.

WHAT CRITERIA ARE BOARD MEMBERS USING TO STUDY THESE BIDS?

The Donley County Hospital Board is examining these facilities by:

- 1) Reviewing all deficiencies, incidents, and complaints for the last 5 years 2) Touring the individual facilities in both announced and unannounced visits (Donley
- County citizens have been invited on these tours.)
- 3) Interviewing staff, residents and resident families at each facility
- 4) Reviewing Medicaid Compliance Reports for each facility 5) Reviewing Cost Reports for each facility
- 6) Reviewing both personal and corporate financials for each bidder 7) Calling businesses in each town to see if that nursing home pays its bills

WHAT YOU NEED TO KNOW ABOUT INDIGENT CARE

WHAT IS THE HOSPITAL DISTRICT'S RESPONSIBILITY WITH REGARD TO **INDIGENT CARE?**

Donley County Hospital District (by law) must pay for medical care costs for anyone who lives in the Donley County Hospital District and meets specific criteria. The hospital district uses the County Indigent Health Care Program Guidelines to determine eligibility after county residency is established. For 1997, that includes anyone:

- 1) Who generally has an annual income not to exceed approximately \$3,000 (based on family size) 2) Who has countable resources (car and liquid assets) not to exceed \$1,000
- AND
- 3) Who applies for indigent care assistance.

WHAT DONLEY COUNTY HOSPITAL DISTRICT CITIZENS HAVE QUALIFIED **FOR INDIGENT CARE ASSISTANCE IN 1997**

- 1) County jail inmates
- 2) Students at Clarendon College
- 3) Individuals who are not old enough to qualify for Medicare
- 4) Any other persons who meet the eligibility requirements as listed above

THE HOSPITAL DISTRICT IS THE PAYOR OF LAST RESORT.

Individuals who are NOT eligible for indigent care are those receiving Medicaid and/or SSI, and those who have other sources of health care assistance.

THERE ARE NO LIMITS ON THE COSTS FOR MEDICAL CARE THAT THE HOSPITAL DISTRICT MUST PROVIDE TO AN ELIGIBLE COUNTY RESIDENT.

WHO WOULD TAKE CARE OF DONLEY COUNTY INDIGENTS IF THERE WERE NO HOSPITAL DISTRICT?

Donley County.

The county would be required to set aside 10% of its budget (General Revenue Tax Levy) for this purpose. (136 counties in Texas already do this. Of those 136 counties, 14 went above their 10% allocation in 1996.)

The state assistance fund reimburses 80% of costs above a county's 10% budget. For example, using this year's Donley County budget, 10% of the GRTL would be around \$43,000. If indigent care costs ran above the \$43,000, the state would pay 80% of those costs. Under the county program, individual medical costs are capped at \$30,000 per eligible county resident.

WHAT DIFFERENCE WOULD NO HOSPITAL DISTRICT MAKE TO YOU AS A TAXPAYER?

You would no longer pay hospital district taxes. You would no longer have the responsibility or the liability for unlimited medical costs for indigent care.

This message is a paid advertisement by the Donley County Hospital District. Board Members are: Chairman Judi Synek, Vice Chairman Don Thornberry, David Strange, B.B. Osburn, Sue Leeper, Dikki Howell, and J.D. Shanks.

Presbyterian Church welcomes new pastor

The First Presbyterian Church has new family in its manse at 623 W. 4th. Smiley and Jane Johnson have moved to Clar-endon from Canadian, Texas.

Smiley will be the Lay Pastor for the Presbyterian Church.

In the past, he has served churches in Reserve, Glenwood,

Apache Creek, Datil, Quemado, and Fence Lake, New Mexico; managed the Synod of Indiana Geneva Study Center; pastored the church at Canadian; and worked as a civil engineer, petroleum landman and corporate pilot, airport manager and charter flight operator, and as Captain with America West Airlines on Boeing 737's.

The Johnsons look forward to becoming a part of Clarendon community and supporting it with their presence and work.

Scout Sunday this being observed this weekend

This coming Sunday, February 8, will be Scout Sunday. All Cub Scouts and Boy Scouts are invited to attend service at the First United Methodist Church at 10:45 a.m.

Boys and their parents will sit as a group. The twelfth point of the Scout Law is "A Scout is Reverent."

The Donley County Senior Citizens Board of Directors elected board officers for 1998. Board president, Bill Hodges, vice president, Bob Kidd, and secretary, Onita Thomas were all re-elected. The other five members of the board are Billy Powell, Patsy Hill, Tommie Saye, Nelson Christie, and Charles Deyhle, Sr.

In 1986 the Donley County Senior Citizens purchased a 15 passenger Ford van with a grant from the Texas Department of Transportation. The van was not being used enough to justify the cost of upkeep. The board has voted to sell the van, and we are now taking bids which will be reviewed by the board on Feb. 17.

sary Supper was held Jan. 27. The evening was opened with prayer by Bill Hodges. Those attending with December birthdays were: Judy Hodges, D.W. Swain, Goldie Barbie, Betty Thomas, and guest Ray Batson. Betty and Wesley Thomas had celebrated a December anniversary. Those attending with January birthdays were Opal Maxey, Bradis Shaller, and Sandra Minatrea. Door prizes were won by Lee Shaller and Ruth Mills. Entertainers for the evening were form the First Baptist Church in Memphis. The name of the group was One-A-Cord. Members of the group were Ray Baston, the music director, Kelley Gardenhire, Dusty Hansard, LaMoss Lambert, and Regina Springer. Our great kitchen crew consisted of Nita Meador, Hazel Guy, Jean Baten, and Don Smith.

The Lions Tale

By Allen Estlack

Clarendon Lions Club met on Tuesday, February 3, at noon with Boss Lion Walt Knorpp conducting the meeting. We enjoyed a fine chicken fried steak dinner served by The Brass Lantern.

Lion Barefield gave a good report on the high school basketball teams. The boys are undefeated in district play, and the girls have only lost one game thus far.

Lion Dr. Bell discussed the new after school program for kindergarten through second grade students that might be able to use extra school help or adult supervision.

We approved a \$100 challenge continued for this new program. We have also bought glasses for one student this month.

There being no further business the meeting was adjourned.

Smith to study theatre in London

SHERMAN — Clarendon resident Charles Smith, a graduate of Clarendon High School and the son of Mr. and Mrs. Lige Smith, is among a group of Austin College students spending January in a special course of study entitled "London Theatre

This course explores a variety of theatre events available in London, including performances at the Royal Shakespeare Company and the National Theatre in London's West End. Productions include classical and modern plays, major musicals, experimental plays and world premieres.

Austin College's four-week January Term, in which students take only one course, provides students the opportunity to study in depth one subject—often outside their regular areas of study. Many students spend the month in career exploration through individualized study at business sites or in study trips abroad. This month Austin College students can be found in London, Canada, Ireland, Egypt, Spain, France and Germany.

Austin College, a 149-year-old private liberal arts college related by covenant to the Presbyterian Church (USA), is located 60 miles north of Dallas in Sherman. For information about the college's academic offerings and the January Term experience, contact the office of Admission at 1-800-442-5363.

For as long as I have resided in his precinct, Commissioner Will Chamberlain has strived to maintain my road so I can get my fruits and cattle to market. He has always done a good job for the people of Donley County and he is fiscally conservative with our tax dollars.

As an incumbent, he will bring his years of experience to the Commissioners Court to benefit the people of Precinct 4 and all of Donley County.

I hope you will join me as I cast my vote for Will Chamberlain for County Commissioner.

Texas Tomorrow Fund April deadline is fast approaching

enrollment deadline is fast approach- costs.

weather, may seem like it's a long ways off. But Texas wildflowers will be blooming in a matter of weeks, and the Texas Tomorrow Fund's enrollment deadline will be here before you know it," Sharp said.

The Texas Tomorrow Fund, proposed by Sharp and approved by state lawmakers during the 1995 legislative session, allows families to lock in the costs of their children's future college tuition and required fees for about what they would pay today.

Just a few weeks before the third enrollment period opened on October 14, the Texas Prepaid Higher **Education Tuition Board, which Sharp** chairs, determined that a prepaid tuition contract paid in a lump sum during the current enrollment period for a Class of 2020 graduate will cost \$10,904. The current rate, which is about 12 percent higher than that of the second enrollment period, reflects the rising costs of tuition and required fees at the state's public four-yeur universities. The Texas Tomorrow Fund covers up to 128 academic hours of tuition.

"The Texas Tomorrow Fund is the best school bargain this year. For as little as \$92 a month, until that child graduates from high school, the parents of a newborn Texan can sign their baby up for four years of tuition and required fees at a public university," Sharp said.

During the program's first two enrollment periods, more than 65,000 families took advantage of the paynow, learn-later program. The sevenmember board that oversees the Texas Tomorrow Fund also approved an expanded marketing program with the Texas Association of Life Underwriters. For the first time, life insurance agents will be able to sell prepaid tuition contracts during this enrollment period.

The board also includes John C. Anderson, president of Hale County State Bank in Plainview; Michael D. Gollob, head of the Gollob, Morgan, Peddy and Co. accounting firm in Tyler; Dr. Roy McClung, former president of Wayland Baptist University in Plainview, now retired d living in Lubbock: Charles Miller. chairman of Meridian Advisors, Ltd., an investment firm in Houston; Jere Pedersen, executive vice president of the University of Texas Medical Branch in Galveston; and Beth Weakley, senior vice president of Frost National Bank in San Antonio.

Dr. McClung encourages Texas parents and grandparents to take advantage of the opportunity to invest in their children's and grandchildren's

"The Texas Tomorrow Fund program is practical—it makes sense especially for families with pre-school aged children," McClung said.

Member John C. Anderson

Sharp has reminded parents and with providing parents the option of grandparents in the Lone Star state that systematically soving for their the Texas Tomorrow Fund's April 1 children's college years at current

Member Michael Gollob said the program is such a good deal he bought a four-year public university tuition contract for his grandson during the program's debut two years ago.
