Jack Rodney was the name given to the son born to Mr. and Mrs. J. F. White at Phillips June 19th and he weighed 4 lbs. 7 oz.

### GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

Our membership has reached the one hundredth mark, besides the Pathfinder Club membership. This enrollment the past six or four weeks is a twenty-five cent card, but we realized twenty-five dollars. This will purchase several books and buy mending supplies, for the books wear out very rapidly. There are more girls reading than boys. We also have several adults reading and the teachers and students who attend school in Canyon use all the material from here for reference when possible to find it. If you haven't taken notice of the many attractive books that have been added in the past few years you will be greatly surprised to see them.

This month's issue of "Arizona Highways" contains "Dancing the Snakes". Each generation of the Hopi Indians passes on to the next the ritual and ceremony followed so faithfully in the Snake Dances. "Navajos Are My Sub-

jects" by J. H. McGibbeny and the beautiful colored photographs is excellent entertainment. The colored photographs are gorgeous, but this magazine is always rich in pictorial material.

The Library is a busy place, and I wish our windows back of the shelves were caulked as the books are heaped with dirt after each sandstorm.

### Are You Eligible?

If you are, then certainly at some time or another you have demonstrated your willingness to defend your Country against her enemies. If you think those enemies have ceased to exist, then you should read your newspaper a little more closely. The American Legion offers you a chance to further serve, in a more or less advisory capacity, in formulating the defense plans of this nation to avert a repetition of the near disasters that have happened in the past. It is also our solemn obligation to protect and provide for the loved ones of our buddies who were less fortunate than we.

"As a rule, disaster usually brings about a closer union between peoples immediately effected in proportion to the degree", so states Ernest Kent, Commander of Clark-Brock, Post 126 of the Clarendon American Legion. "It is later than you think and far more serious than you realize. With Congress threatening a 132 million dollar cut in the budget of the Veterans Administration, it behooves every eligible veteran to lend his weight in a last ditch stand to protect the benefits he is rightfully entitled to by law, and there is no better place to start than through membership in the American Legion. It would cost you \$282.00 per year to buy commercial insurance that will pay you the same benefits as a five dollar membership in the American Legion. You can't spare five dollars??? Perhaps that is true to a certain extent, but tomorrow you may be called upon to spare \$500.00 for a hospital bill. Those are hard words, says Commander Kent, but

nevertheless, they are bare facts which no one can deny. It is far easier to retain benefits already granted, than to recover lost ones. It was only a short time ago that the Veterans Administration Hospital in Amarillo was put on the chopping block, and it was largely through the efforts of the American Legion that this hospital was retained for veterans in this vicinity.

In order to impress our Congress that we mean to become even more vigorous in our fight to stem any cut in the Veterans Administration Budget, the Local Post is going to attempt to send the local delegation to the State Convention in Houston with its 1954 membership quota. Keep in mind that we can speak in Congress only in proportion to our strength in numbers.

The local post meets on the first and third Tuesday nights of every month at 8:00 P. M. The meetings are strictly democratic in nature, and your vote counts just as much as the next GI's. Commander Kent is going to do everything possible to make this the greatest year in the history of the local post, but it is going to require the full cooperation of the entire post membership. Korean veterans are eligible and invited to become members of the American Legion, the world's largest veterans organization.

In closing, Commander Kent states that the membership teams are going to attempt to see all

present members for 1954 renewals. When they contact you, please be ready to do your bit to make their job a little easier. If you have never been a member of any post, any legionnaire will take your application for membership. No other group of citizens have a cause so common to so many as do the veterans of the United States Armed Forces."

### CHAMBER BY JOHNNIE ALLEN SPECIALS

"If you're too busy to laugh, you're too darned busy" is an expression that could well be remembered by all of us. Too often we forget this in everyday business, but a good laugh or big smile makes more sales than any number of sales schemes or promotion ideas.

Our congratulations and best wishes to the Business and Professional Womens Club and the Jaycees, two newly formed civic organizations in Clarendon.

The Clarendon Chamber of Commerce would like to announce their policy of publicizing achievements rather than plans and hope to have many achievements to announce in the future.

County Farmers and Ranchers met last Monday night and discussed drought relief. Let's hope that this is the last year for many years to come that such things have to be discussed.

Let's remember that, those who believe in prayer, still have Faith; faith in their country, faith in their leaders, faith in their fellow-man, faith in themselves, and above all faith in God. Shore is hot, aint it?

S/Sgt. and Mrs. Ralph R. Percival of Carswell Air Force Base, Ft. Worth, spent from the afternoon of June 8 to the morning of June 10 with his parents and brother, Mr. and Mrs. Herman Percival and Billy Joe, and other relatives.

## Vacation Bible School Closed With Picnic

The First Baptist Church closed one of the best Vacation Bible Schools in its history June 12, with a picnic and a good commencement exercise. There were 137 boys and girls enrolled and 31 faculty members. Of this number, 140 attended every day.

Mrs. L. P. Moore was superintendent of the Intermediate department and had charge of the hand-work.

Mrs. P. C. Messer was superintendent of the Junior department and also had charge of the making and painting of the figurines that the boys and girls made for their hand-work.

Mrs. Howard Scott was superintendent of the Primary department.

Mrs. Herchel Thompson was superintendent of the Beginner department and Mrs. Melvin Vick was superintendent of the 3-year old nursery. Mrs. C. E. Underdown kept the nursery for the children under 3 years of age and she was assisted by different ones on various days.

The W.M.U. Circles served the refreshments for the school. Their help and thoughtfulness is greatly appreciated.

Bro. Scott and Jake Arthur had charge of the hand-work for the boys. They made a neat what-not corner shelf to be given to their mothers or to be used in their own rooms.

All in all, it was an excellent school and enjoyed by all—even those who worked the week of May 25 thru May 29 over at the St. Stephens Baptist Church.

Some of the workers, in fact, all the departmental superintendents and others, were also the workers who led in the Negro Vacation Bible School. There were 78 enrolled in that school with an average attendance of 71 boys and girls and faculty.

The Clarendon School Board was very gracious in allowing the Negro V.B.S. to be held in the school building.

Mr. and Mrs. Skeet Brown and family of Bushland visited Saturday evening in the home of her parents, Mr. and Mrs. Austin Rhoades.

### TO THE PEOPLE OF THE 18TH DISTRICT

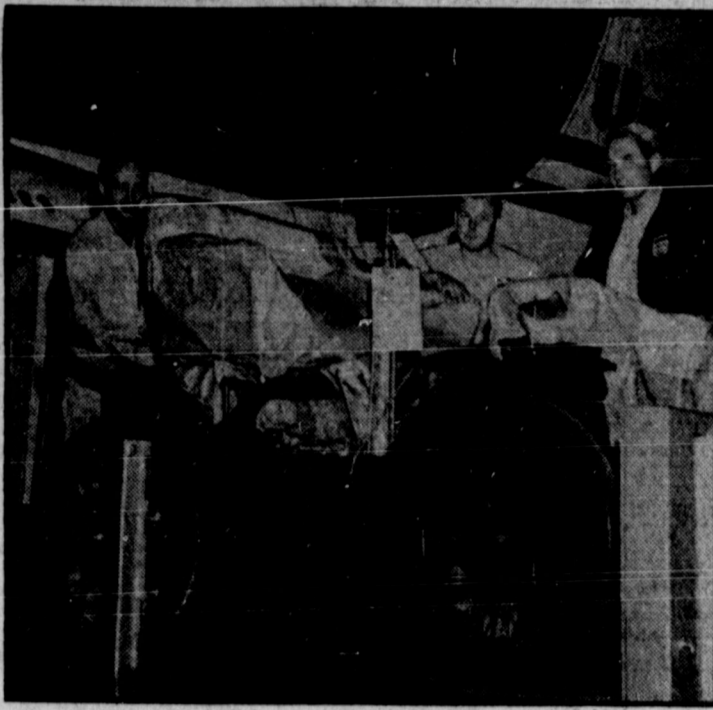

By Congressman Walter Rogers

#### BUREAUCRACY:

Much has been said in the past few years about bureaucracy, and no one has condemned government by bureau and agency edict more than I have. I am increasingly disturbed by the continuing requests for more power for bureaus and agencies, and the failure to clip the wings of these administrative bodises. Recently the Senate passed a bill bringing several agencies under the provisions of the Administrative Procedures Act that are now excepted therefrom. This action is nothing more than an enlargement of bureaucratic powers because under the provisions of the Administrative Procedures Act and the decisions of the courts in construing that act, the rights of citizens of the United States are determined in most cases by individuals appointed by individuals appointed by elected officials. You may think that the record got stuck or that I was stuttering when I wrote this, but such is not the case. Many of the persons who are primarily instrumental in the decisions rendered as between individual citizens are three, four or five appointments away from the official elected by

the people. Provisions in the law granting the right to court review by an aggrieved party are of no consequence, simply because the courts have no authority to go behind the actions of the administrative body. Much of our bureaucratic headache has been caused by brief and unnoticed provisions in laws that appear to be very sensible and expeditious. However, experience has proven that we are paying the high price of losing our day in court by capitulating to unnecessary speed in the determination of our rights. The promotion of our way of life and the freedoms which we so jealously guard would be

much better served if the money being spent in many of these administrative agencies was being used for increasing our court system. It makes little difference which party is in power or which individual is in charge of a bureau or administrative agency, which is a never ceasing pressure from these bureaus and agencies for more and greater power. These practices will not be stopped by politics. They will only be stopped by statesmanship.

**John Head Appointed County Chairman of "Aid to Korea Week"**

John H. Head has been appointed by Governor Allan Shivers to serve as Donley County Chairman of the "Aid to Korea Week" campaign, which will be held June 28 - July 5. That week has been designated as "Aid to Korea Week" in Texas, and is part of a nation-wide observance to raise \$5,000,000 in an emergency campaign to provide immediate aid to millions of displaced, sick and injured persons and orphans in Korea. All funds raised will meet immediate requirements for food, clothing, medical assistance and emergency shelter.

The national drive is sponsored by The American-Korean Foundation, which is headed by Dr. Milton S. Eisenhower. James A. Farley is national campaign manager. Governor Shivers asked T. E. Braniff, head of Braniff International Airways, Dallas, a director of the Foundation, to serve as organizing chairman for Texas.

In accepting the local county's chairmanship, Mr. Head pointed to the great need of Korean civilians, and expressed the hope that all citizens of the county would respond generously. "There are 15,000 men, women and children in Korea who have lost an arm or leg in the years of constant warfare. There are 300,000 war widows, more than 100,000 orphans, and 9,000,000 dislocated persons in Korea. And one person in twenty in that stricken country has tuberculosis, yet there are only 100 beds in the entire country for treatment of patients with tuberculosis. We in this country can share something with these folk who have so little, and whose need is so great," he said.

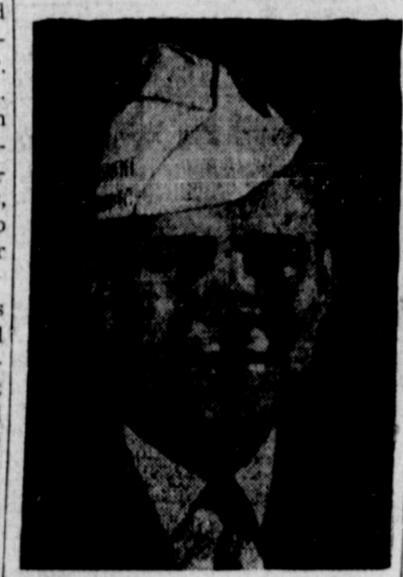

A local county committee is being organized to conduct our part of the "Aid to Korea Week" campaign.

Mr. and Mrs. J. F. White of Phillips announce the arrival of a boy, Friday June 19th. He weighed 4 lbs. 7 ozs. and was named Jack Rodney White. The proud grandparents are Mr. and Mrs. John White and Mr. and Mrs. Lloyd Reid.

**Mercury Still Above Century Mark**

The heat wave is still with us with the mercury still staying above the century mark. Joe Goldston, official weatherman, reported the high for this week, a sizzling 109 last Sunday. It dropped to 106 on Monday and 104 on Tuesday. Maybe it will get down into the high 90's by the end of the week.

Some parts of the county received beneficial amounts of moisture last Thursday afternoon, but this was offset Friday by one of the worst sandstorms for this time of the year, to strike this area in recent years. The Hudgins community was reported to have received around two inches of rain with Lelia Lake reporting nearly half an inch. A streak of showers west of town measured from one-fourth to three-fourths of an inch. The areas receiving the moisture were reported to have blown the worst. What we

need is a good general rain—and it certainly would be appreciated right now while some crops can be saved.

Truth is best understood by those who have experienced its value.

Correct this sentence: "We want you to be chairman; you won't have much to do."

Women who really know how to raise children are too busy to tell.

It is as hard for a rich man to enter heaven as it is for a poor man to live on earth.

PLOWIN' Out the CORNERS by Uncle Zeb. As farmers we sometimes have it sort of thrown at us about how the government has spent this and that supporting our prices. When we see the facts we realize that it is precious little that has been lost on all the CCC loans since their beginning. Cotton during the entire period showed a profit to the CCC, according to records as revealed in the Georgia Farmers Market Bulletin. On wheat through 1951 the losses amounted to a mere 68 million, and most of this resulted from gifts to other countries. The entire loss on all commodities after gifts and other subsidies were deducted amounts for the 18 year period to less than 600 million. This is one part of the government program that has stood the test down the line especially when long time storing has been possible and when acreage control has been used. Just imagine as against this less than three quarter billion dollars the extra income tax that has been paid by the farmer into the treasury; just from the farmer to say nothing of the extra business that has been possible from this added income. About the only fellow that can find a good reason to object to crop loans is the fellow who profits on price fluctuations due to specu-

tion. Wonder why, but we got quite a kick out of the following twist to an old story. It was said that a kindly old Quaker was milking his cow when she suddenly raised her foot and planted it in the bucket. After a repeated performance the kindly old man arose and said, "Thee knowest that I will not revile thee nor curse thee, thee know that I will not smite thee, but what thee do not know is that if thee do this again I will sell thee to a Baptist."

The following sign appeared in a shoe cobbler's store: I no give— You get mad, I give you credit— You no pay— I get mad, Much better you get mad.

The above reminds me of a little personal experience with a very good friend in the implement business. One day I asked him what he would take for a certain one way plow. He priced it to me at \$400.00. Then we asked what he would take it to a good friend for, thinking that the price would be less. But to our astonishment he upped the price to \$450.00. Then as we were stammering as if we misunderstood he added: "Now wait a minute, and let me explain. If I am pricing it to the general public he will expect to pay cash. He will come and get it perhaps and a lot of other things. But to a friend, I must have more money. He will want me to wait for my money. No interest, and a dozen other favors."

Yes, I would need \$50.00 more from a friend. Of course he was almost joking, but it has stuck with me and many a time I have tried to be less trouble to my friends in business.

Farm Cash Income In Texas, Decreases

AUSTIN—Farm cash income in Texas for the first four months of 1953 totaled \$431,994,000, about \$123,000,000 less than the same 1952 period, the University of Texas Bureau of Business Research reports.

Six commodities brought income increases this year. Wheat income was up 144 per cent, and oats, 75 per cent. Income from sheep and lambs, eggs, poultry and mohair gained from 25 to 3 per cent.

Producers of cottonseed, wool, grain sorghum, cotton, corn, and cattle took the heaviest relative losses. Cotton and cattle producers suffered most in actual dollar losses. Cotton income was down \$57,600,000, and cattle, \$42,500,000.

Some people wake up and find themselves famous; others remain out nights and become notorious.

Many a person's mind has been closed for years, but not for repairs or alterations.

### Draft Law & Its Rules And Regulations

When a man is classified by the draft board, that classification is not permanent. It may be changed when the man's status changes.

Each classified man and each person who has filed a request for the man's deferment must report to the local board in writing any fact that might result in the man's being placed in a different classification. This must be done within 10 days after the change occurs.

Employers may be required to furnish information under the law, and police officials or other agencies may be requested to make investigations.

### Joe Goldston

**OPTOMETRIST**  
Goldston Bldg.  
CLARENDON, TEXAS  
Phone 38

The local board may reopen and consider anew classification of a man (1) upon his written request, (2) written request of a person who claims to be his dependent, or (3) any person who has on file a written request for the man's occupational deferment. This can be done, provided such request for reopening is accompanied by written facts not considered when the man was first classified, which, if true, would justify a change in his classification.

Draft regulations say that the "classification of a registrant shall not be reopened after the local board has mailed to such registrant an order to report for induction, unless the local board first specifically finds there has been a change in the registrant's status resulting from circumstances over which the registrant had no control."

Brig. Gen. Paul L. Wakefield, state draft director, points to two things which might happen to a man beyond his control: (1) a serious accident, or (2) death of his father, resulting in his becoming

head of the family. The local board must always reopen a case at either the request of the national or state director of Selective Service and must cancel any order to report for induction, if that is involved in the case.

### "The Growth Of Southern Nationalism 1848 - 1861" To Be Published

AUSTIN — "The Growth of Southern Nationalism, 1848-1861" will be published soon as volume six of the 10-volume History of the South series.

The forthcoming publication was announced by administrators of the Littlefield Fund for Southern History at the University of Texas. The author is Avery O. Craven, history professor at the University of Chicago and the author of eight previous books.

The Littlefield Fund for Southern History at the University of

Texas and the Louisiana State University Press are co-publishers of the History of the South series, which is designed to present a thoroughly balanced history of all the complex aspects of the South's culture from 1607 to the present.

In the forthcoming book, Craven sees the growth of Southern nationalism as the product of the South's relations to other states and to the Federal government. Often what happened in the North and the reaction of Northerners to events determined Southern action and reaction, according to Craven.

One of the main reasons for increased friction and discord, Craven says, was that the interests of the sections became more and more entwined. Slavery became a symbol of differences and conflict, according to Craven's interpretation. It also came to symbolize values in Southern and Northern social-economic structures for which men fight and die but which they do not give up or compromise.

### SOCIAL SECURITY NEWS

During the summer vacation many students will be working temporarily in employment covered by the Social Security Act. The employer of such temporary help is under the same obligation to make tax deductions and social security reports on these employees as he is on his permanent employees.

The only way the employer can

be sure of having the exact information for making his tax return, and for the employee to be sure of getting proper credit for his wages, is for the employer to copy the employee's social security number and his name directly from his social security card. Each student is advised by J. R. Sanderson, Manager, of the

Amarillo Social Security Office, to take his social security card with him when applying for a job. To obtain an original card, or a duplicate of a lost card, submit Form SS-5, obtainable at your local post office, to the Amarillo Social Security Office.

# Chevrolet trucks must be the best buy!

Fleet operators, farmers, independent truckers—truck users everywhere—buy more Chevrolets than any other make. There can be only one reason for that: Chevrolet trucks offer more of what you want.

As the official registration figures keep rolling in, they keep telling the same positive story about truck popularity and truck value: Again in 1953, for the twelfth straight production year, truck buyers show a clear-cut and decisive preference for Chevrolet trucks. If you're a truck user, this fact is mighty

important to you. Why? Well, as you know, trucks are built and bought for just one reason—to do a job. So isn't it logical then that since Chevrolet trucks outsell all others, they must do a better job at lower cost? That's why it will pay you to stop in and see us before you buy your next truck.

## Veterans' News

The GI Bill for World War II veterans will be nine years old Monday, June 22, 1953. One of its benefits is still in full force, another is approaching the end, and a third has long since faded into history.

The Act, signed into law during the height of the war on June 22, 1944, in addition to other provisions furnished three major readjustment aids to veterans in their efforts to get back into the swing of civilian living.

One was a program of guaranteed loans for homes, farms and businesses; another, education and training at Government expense, and the third, readjustment allowances for periods of unemployment.

The GI loan program still is in effect, and has four more years to run. It comes to an end for nearly all World War II veterans on July 25, 1957.

So far, the Veterans Administration said, some 3,300,000 veterans have obtained GI loans for homes, with VA guaranteeing or insuring about half the amount.

Ninety percent of the loans have gone to veterans who wanted to buy or build homes. The remainder have been for farms and businesses.

Veterans have turned out to

be excellent loan risks, VA said. More than 500,000 loans already have been paid in full. And only eight-tenths of one percent of all loans were defaulted to the extent that VA has had to make good the guaranteed portions to the lender.

The GI Bill education and training program reached its cut-off point for most World War II veterans on July 25, 1951. For the most part, the only World War II veterans now in training are those who started before the cut-off date and who have remained in training since, except for interruptions beyond their control.

During the nine years of the program, a total of 7,800,000 servicemen and women—more than half of all who served in World War II—have taken some form of training under the GI Bill. All together, they spent a total of 140,000,000 months in the classroom, at the training bench and on the farm, or an average of about 18 months of training per veteran.

Types of training ranged from 339,000 veterans who were enabled to finish grade school and high school to 2,200,000 who attended college; from 1,400,000 who trained on-the-job to nearly 700,000 who trained on-the-farm; from 361,000 who went to business school to 2,250,000 who took up trades in vocational schools. And an additional 750,000 trained in correspondence schools.

The end of the World War II GI training program comes for nearly all veterans on July 25, 1956.

The third major GI Bill benefit

—readjustment allowances for unemployment and self-employment—passed out of the picture for all but a handful of veterans in July, 1949.

Under the program, about 3,000,000 veterans drew readjustment allowances that totaled \$3.2 billion for unemployment and \$600,000,000 for self-employment.

Although most veterans eligible for one full year of the allowances, only one in ten exhausted his rights to the benefit. The average veteran, VA found, went to work after being on the rolls for only a month and a half.

### Cotton Prices May Increase As Crop Prospects Weaken

AUSTIN—Current market conditions indicate cotton prices will increase if they change substantially at all, Dr. A. B. Cox, University of Texas cotton marketing professor, says.

The total U. S. supply for this year is about a half-million bales greater, yet domestic consumption to date is 100,000 more than the comparable part of last year, Dr. Cox points out. Confidence that the 1953 crop will be large has weakened in recent weeks.

AUSTIN—Return of the tidemarks' title to the states by the federal government does not write finis to the long, dramatic story of submerged lands.

Texas, for example, owns the lands under the Gulf of Mexico to a distance of 10.3 miles (or three leagues). Beyond that line, the "continental shelf" is the property of the federal government.

It is expected that now the tidemarks controversy is settled, both the state and the federal

government will start leasing land for oil development. What will that do?

Will great production from the continental shelf cut down the demand for Texas (including tidemarks) oil?

—tpa—  
These are questions that remain to be answered, and they have considerable significance for Texans, because the oil industry is the state's greatest taxpayer.

If, for example, the tidemarks produce heavily and provide a tremendous revenue to the state, other tax sources will not have to be tapped heavily.

If, on the other hand, the continental shelf becomes a major oil producer, the tax revenue will go to the federal government, and Texas taxpayers will suffer accordingly.

Answers to the questions posed here may be long in coming, but in the meantime there are bound to be many columns of newspaper space devoted to them.

Top issues are involved. For instance, if the tidemarks yield sufficient tax revenue, the teachers' pay can be increased — and therein lies one of the hottest

governmental issues in Texas today.

—tpa—  
It is an issue, by the way, that will certainly figure outstandingly in the political campaigns next summer.

You may be certain that prospective candidates, who are writing their platforms now, are putting the question of teacher pay at the top of their lists.

There remains, of course, the possibility that a special session of the legislature may solve the problem by providing more money for teachers.

Even so, teacher pay will remain a political issue, both in state and local races.

Legislators seeking re-election may in some instances have a hard time if it is shown that they opposed the \$600 per month pay increase for teachers.

—tpa—  
Current demand for Texas oil was boosted when the Exchange Crude Oil Purchasing Company of Dallas offered to buy from the state 15,000 barrels of oil per day for a price two per cent or five cents a barrel above the top market price.

New Mexico already has accepted a similar proposal, which is part of an overall project to operate a pipeline from Midland

to Los Angeles.

The West Coast Pipeline Company would operate the 960-mile facility, which would cost a billion dollars and carry a total of 300,000 barrels of crude per day.

Land Commissioner Bascom Giles said he would probably ask for more money for the Texas crude, and that a decision on the offer would be made in about two weeks.

—tpa—  
The state supreme court upheld its former decision by ruling against rehearing two test cases attacking the natural gas "gathering" tax.

This tax was passed by the 1951 Legislature and immediately challenged by the gas companies. It has been in the courts ever since, and the revenue from the tax has been piling up, unspent.

If and when the court's decision becomes final, it is expected that Governor Shivers will call a special session of the Legislature to appropriate the money.

Governor Shivers has signed a bill that hits at beer taverns and undertakes to keep liquor gangsters out of Texas.

The bill, sponsored by the state liquor control board and the liquor and beer associations, gives the board wider powers to close up beer and liquor establishments that are indecent or jeopardize the public safety.

Under the new law there are 31 causes for which the Liquor Control Board may suspend or cancel a beer retailers permit, as compared with 15 in the present law.

It attempts to keep gangsters out of Texas by requiring that liquor establishments must be 51 per cent Texas-owned.

Another provision is that counties may vote to permit sale of alcoholic beverages for off-premise consumption only. That would put the beer tavern out of the picture.

Statistics show that only a small per cent of the girls in this country are working girls; the rest are working men.
