1878 A COUNTY - WIDE PUBLICATION SERVING DONLEY COUNTY AND ITS TRADE TERRITORY 1960

New Series—Volume 30 Number 12 CLARENDON, DONLEY COUNTY, TEXAS, THURSDAY, APRIL 21, 1960 A Common Paper for Common People

Late News Items Will Not Be Accepted

It seems that a greater portion of news items the past few weeks have arrived at the Leader office either Tuesday or Wednesday. Many of these items could have been turned in over the week end or Monday which would certainly relieve the strain on our Linotype operator. We have done our best to get these news items in the Leader but we are now to the point where we must abide by our deadline for such items as we have gone into the night on press day the past several weeks mainly on account of an overload on Tuesday and Wednesday mornings.

All news items that could be reported the latter part of the week or Monday must be in the Leader office by Monday noon or they will go into file "W", that's the waste basket. News items originating Monday must be in by Tuesday morning or will receive the same treatment.

We are not trying to be hard boiled but only want to give you the best home town paper possible and than can not be done without abiding by a deadline. Your cooperation will help us to give you a better, up-to-date paper. Thanks.

DONATIONS NEEDED FOR UPKEEP OF CEMETERY

The Trustees for the Citizens Cemetery report the streets have been greatly improved during the past month. Our county commissioners hauled in several hundred yards of gravel and the city of Clarendon did the rolling at no cost to the Cemetery which puts the streets in good shape. Some more gravel will be needed but the City will supply this as soon as they can get it.

The Cemetery is really in good shape and everyone interested is requested to visit and see just what has been done. All persons that have not made their annual donation for the upkeep are asked to do so at their earliest convenience.

Annual Salvation Army Fund Drive To Begin Tuesday April 26th

The annual county-wide Salvation Army Fund Drive has been announced by Mayor H. T. Burton, Chairman of the Salvation Army County Service Unit Committee. The goal for the drive is \$1,000.00.

Judge Drennan has been appointed Campaign Chairman for Clarendon. Henry Moore of Hedley will handle the drive in that community, and Quinn Aten will handle the drive at Lelia Lake.

The local committee has full control over the funds in the treasury. There is no red tape when an emergency welfare problem is presented to any member of the committee action is taken immediately. More than eighty people were given assistance by the committee in the past twelve months.

The committee is composed of the following: Mayor H. T. Burton, Chairman; Van Kennedy, Treasurer; W. W. Pinkerton, Vice Chairman; Sheriff Bill Cornell, Odos Caraway, Bill Todd, William J. Lowe, C. A. Pitts, Alva T. Simmons and Aubrey T. Cherry, Hedley; Frank Claborn, Lelia Lake.

There will be a Kick-Off Breakfast at the Dixie Cafe at 7 a.m. Tuesday morning, April 26. All workers are urged by Judge Drennan to attend this breakfast to get necessary information and campaign material.

SIMS P-TA MEETS TODAY

Sims P-TA will have its regular monthly meeting today, Thursday, April 21, at 3 p.m. in the Jr. High Auditorium. The program will be presented by Mr. Walter B. Knorpp. Everyone is invited to attend.

There will be cartoons shown at the Mulkey Theatre for preschool, grade school and jr. high children. Admission will be 10c per child.

Local Communities Place 2nd & 3rd In Contest

Two communities were entered in the Texas Rural Neighborhood contest for this past year from Donley County. H. M. Breedlove, County Agent, who has worked with the communities, said that Chamberlain and Ash-tola had entered the contest. The judging of the communities was done last week on April 12.

Breedlove received word in his office yesterday that the Ahstola community was second in district one and Chamberlain was third. This made a prize check for seventy-five dollars for Ash-tola and fifty dollars for Chamberlain. Communities are judged on the work done in the community by members of the community and on their community centers.

City Sets Rabies Vaccination For 29th

Mayor H. T. Burton announced this week that April 29th has been set as the annual rabies vaccination date in Clarendon. The time will be from 1 to 5 p.m. at the Court House lawn at which time Dr. Chas. Deyhle and Constable Rob Hill will be on hand to vaccinate the dogs and issue dog tags.

All dogs in town must have a city dog tag and a tag that shows they have been vaccinated for rabies or they will be subject to being picked up and disposed of, the Mayor added.

As in the past, a special price on the tags and vaccination will be offered. The dog tag will be 50c and the vaccination will be \$1.50 which will be a saving of \$1.00 and the regular prices are \$1.00 and 2.50. All dog owners should keep this date in mind.

Dusters Open Season Here Next Sunday

The Clarendon Dusters open the baseball season Sunday against a very strong Spearman nine at Duster Park here. Game time this year will be 2:30 instead of the old starting time of 3 p.m.

The Dusters have a new manager, Jimmy Humphreys of Hollis, Okla., who is a freshman in Jr. College here. Waylan Newman, Duster Manager for the past four years will be playing again with the Dusters this year.

The Caprock League has only four teams this year which are Amarillo, Borger, Spearman and Clarendon. The teams will play each other four times to decide the winner.

The Dusters are working out every evening at the little league park. Everyone is invited to come out and see the Dusters Sunday at 2:30 p.m.

CANDIDATE RALLY AT ASHTOLA TONIGHT

A candidate rally and pie supper will be held tonight, Thursday, at the Ashtola Community Center beginning at 7:30 p.m. Pies and cakes will be auctioned to the highest bidders and all candidates as well as the public in general is invited to attend.

Ladies in the community will furnish the pies and cakes.

Johnson Elected Mayor Of Hedley

In an uncontested City Election in Hedley Clifford Johnson was elected Mayor and C. L. Taylor, Charley Johnson and D. E. Boli- were re-elected Aldermen. C. H. Reid, former Mayor, did not run after serving seven years.

LEADER CLASSIFIEDS GET RESULTS

Mrs. Lewis To Head '60 Cancer Crusade

Mrs. W. J. Lewis, Jr., has been chosen to direct the 1960 Cancer Crusade in Donley County, it was announced today at local headquarters of the American Cancer Society in Clarendon, Texas.

Accepting the chairmanship of the annual educational and fund-raising drive, which began in the state on April 1, Mrs. Lewis urged all public-spirited citizens of our community to make this a full-scale offensive against cancer.

"Public enemy disease number two," the chairman called it, pointing out that cancer is second only to heart disease as a cause of death.

April has been designated Cancer Control Month by Presidential proclamation. Throughout the month volunteers will distribute life-saving information to every home in Donley County, the American Cancer Society chairman said, and continued:

"Of course cancer control is a year-round program. But this is the time of the year when we go all out to try and save more lives. And it's the time when we collect funds to sustain the ever-increasing momentum of war against this ancient enemy of mankind. A war that must ultimately end in the defeat of cancer and the saving of countless lives in the generations to come. At the present rate 265,000 lives every year!

"More than 85,000 of those could be saved right now. They are wasted, literally thrown away, simply because cancer isn't diagnosed and treated early enough. Either because people don't know the facts, or because they procrastinate."

Mrs. Lewis said a quota of those wasted lives are to be found here in Clarendon. "So our local drive must be a drive to save those lives," she added. "If our literature reaches every single household, and if a member of every household makes himself or herself, responsible for safeguarding the rest of the family, we could eliminate this shocking loss of loved ones."

The ultimate defeat of cancer is the great objective of the Cancer Society's research program: It supports more than 1,000 top-flight scientists in hundreds of laboratories in all parts of the country.

"I urge you to have our leaflets, to study them carefully and heed their advice, and when you are called on for your donation, which will be the last week of April in Donley County, you will give generously."

The effective rallying cry of last year is again the life-saving slogan of this year's Crusade: "Guard Your Family. Fight Cancer with a Checkup and a Check."

Voting Place Changed To Lions Building

Announcement was made this week that one of the primary voting places here in town has been changed for the convenience of the voters who have been voting at the City Hall. The voting place has been changed to the Lions Club building at the south end of main street so elderly voters will not have to climb the steps at the City Hall.

Absentee voting in the first primary election is now in progress and five such ballots have been cast to date. Remember to get your poll tax receipt handy as you will need it to vote absentee or in the primary election May 7.

LITTLE LEAGUE MEETING MONDAY NIGHT

Parents of all youngsters interested in playing with the Little League this year are urged to attend a meeting next Monday evening at 7 o'clock at the Court House.

Beef Cattle Ass'n. Officers To Be Elected At Barbecue

Plans are just about complete for the barbecue and business meeting of the officers, directors and consignors of last year's bull sale in Clarendon, says County Agent Flip Breedlove, who is secretary of the organization. Letters have been mailed out inviting those mentioned to the barbecue and meeting and also the wives will accompany their husbands for the occasion. Breedlove said that many others have been invited as guests and also others who assisted in putting on the bull sale last year.

The barbecue and meeting of the Rolling Plains Registered Beef Cattle Association will be held at the Country Club in Clarendon on the 30th of April at six p.m. W. H. Cooke, III, President of the Association, said that the business meeting will follow the feed and that Flip Breedlove and his crew will prepare the barbecue.

The Farmers State Bank of Clarendon, Texas, is putting on the barbecue for the association and Mr. J. D. Swift and his bank officials will be host to the members and consignors of the organization. After the feed there will be a business session and officers will be elected for this year and policies of our bull sale this coming December will be discussed. Mr. Cooke said that he was expecting better than one hundred to attend the meeting and barbecue.

H.S. Career Clinic In Progress Today

The Career Clinic for Donley County high school students, sponsored by the Clarendon High School Student Council, gets underway this morning (Thursday) with general assembly at 9 o'clock. Mr. Melvin Munn of Pampa will be the speaker at this hour.

Every high school student will report to two group discussions in various occupational areas.

The student council is sponsoring a breakfast at 8 a.m. for all the consultants. The breakfast will be served by Mrs. Velma Bourland and the FHA girls.

According to school officials, wonderful cooperation of local business people and business concerns from Amarillo and Pampa have made the Career Clinic possible for our boys and girls.

Core Drilling To Begin Soon At Greenbelt Dam Site

Word was received the early part of the week from Mr. John Thompson of Amarillo, Acting Regional Director of the U.S. Bureau of Reclamation, Department of the Interior, in regard to the coreing of the river at the site of the Greenbelt Dam. The site is located on the Salt Fork of Red River three miles west of the Collingsworth County line.

Mr. Thompsons stated that eight bids were received for the drilling and that the low bidder was the Engineers Testing Laboratory, Inc., of Houston Texas. He also stated that they expected to sign the contract in the near future.

This contract calls for the drilling of five holes varying in depths from 80 to 170 feet. In case the old river bed is not located by this drilling one or two shallow holes may be drilled to locate it.

Permission has been granted by the landowners near the site and it is hoped that work can be started soon. The permission states that 120 days will be granted to finish the coreing.

Head Of Local Schools Announces Resignation Here This Week

Final Spring Concert Slated For April 28th

On Thursday, April 28, in the high school auditorium, the Clarendon High School Band will present their final concert of the year. The program will begin at 7:30 p.m. Featured on the program will be two student conductors, Barbara Felcher and Philip Abel. Both made a first division rating in the Interscholastic League Contest held in Canyon April 12. The band made a III division in concert playing and a II division in sightreading. At the Regional Marching Contest held last fall the band also made a II division rating.

Admission for the concert will be 50 cents for adults and 25 cents for students with the proceeds going to the Band Parents Organization to apply on the purchase of a set of symphonic model tympani drums. Tickets can be had from any band student or by phoning TR 4-2363, and the tickets will be delivered promptly. The concert will be a varied one with selections ranging from the classics, semi-classics, popular, and jazz.

Services Today For W. M. Montgomery

Funeral services have been set for 3 p.m. today in the First Presbyterian Church for William M. Montgomery with Rev. Baldwin Sribling, pastor, and Rev. Richard Avery of Memphis officiating.

Mr. Montgomery, 87, died Wednesday morning following a lengthy illness. He was a retired stock farmer and had been a resident of Clarendon and Donley County 60 years. He was a member of the Presbyterian Church.

Survivors include one daughter, Mrs. Edna Smith, Clarendon; three sons, Paul and Joe of Memphis and W. S. "Bill" Montgomery of Brice; two sisters, Mrs. J. B. Reed of Plainview and Mrs. J. L. Smith of Friona; on brother, J. P. Montgomery of Lakeview; 11 grandchildren and 4 great-grandchildren.

Burial will be in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

W. W. Pinkerton, Superintendent of Clarendon Public Schools and President of Clarendon Junior College, tendered his resignation to the Board of Trustees at their regular meeting last Thursday night. The resignation will become effective on August 1, 1960. Pinkerton stated that he was taking a position as sales representative for Childrens Press Publishing Company of Chicago for the state of Oklahoma, the Texas Panhandle and South Plains. His present plans are to remain living in Clarendon.

Pinkerton came to his present position on August 1, 1955. He stated that he had thoroughly enjoyed his connection with the Clarendon school system and wants to thank his many friends for their fine support of the schools.

Members of the local school board expressed regret in accepting Mr. Pinkerton's resignation at their board meeting last Thursday night. Pinkerton had been offered a new two-year contract at a previous meeting in hopes that he might stay. Even though his resignation would mean a great loss to our school system, they felt that they should not stand in his way in pursuing another field of work.

Residents of this area will be pleased to learn that the Pinkerton's plan to continue their residence here where they have become a part of the community. All members of this family have been very active in church and civic projects as well as various school activities and have been and still are a big asset to our little city.

OLIN BAIN MOVES STATION LOCATION

Olin Bain, who has operated the Conoco Station across the street south of the City Hall the past several months, is announcing the moving of his business to the station located one block west of the City Hall, across the street from Bartlett Motor Co. in the building recently purchased by John Jones, local building contractor.

In making the move, Bain stated that the new location would afford more drive-way space and parking room with easier accessibility. He will continue to handle Conoco products.

TIRE(D) SOLDIER—A soldier of the U.S. Army Polar Research and Development Center "takes a break" during a halt while hauling petroleum supplies in the far north. Soldier is not a midjet but is dwarfed by the huge tire of a logistical cargo carrier. The tires, nine and one-half feet in diameter, give footage to the overland train which provides the modern Army cross-country mobility over snow, sandy or swampy terrain.

ARMY'S MISSILE KILLER! The only anti-ICBM missile system presently under development, NIKE ZEUS prepares for its future role of defending the United States against enemy attack. ZEUS will combine the necessary speed and accuracy to rise to extreme altitudes, intercept and destroy an enemy ICBM at a safe distance from its target.

Bethel, Ohio, Journal: "An exchange of students should have a marked effect upon nations to understand one another's problems, ideals and governments. Students here and abroad on the whole should be among the best and clearest interpreters of life. Educated men and women abroad should help to clear up some of the misunderstandings that oftentimes prevail in motives and purposes of nations."

Ask The People Who Know Him

Elect ROY L. TAYLOR

As Your State Representative 88th District

DONLEY, HALL, CHILDRESS AND MOTLEY COUNTIES

"Asking for a chance to Serve You"

Hardworking - Honest - Dependable - Qualified - Sincere

PLEDGE vs. PERFORMANCE
(From the official HOUSE JOURNAL)

The present representative, seeking a third term: says he "fights the battle against the big business monopolies." LET'S LOOK AT THE RECORD — In the 1959 session, he voted WITH the big gas pipeline companies right up to the last when he himself sponsored an amendment to levy a TOKEN TAX on the pipelines. Earlier he voted AGAINST all efforts to tax the natural gas pipelines and FOR sales tax proposals. (There is some doubt even as to the constitutionality of the gas pipeline tax.)

says he "voted against a sales tax." The record shows that he voted against striking the Sales Tax provision from the General Revenue Bill. See House Journal: pages 104-107 (June 27, 1959), pages 311-313 (June 30, 1959), 133-134 (July 23).

says he "voted for beer taxes." His record shows that he voted taxes OFF the breweries rather than ON. On May 8, 1959, he voted to suspend all the rules of the House to take up for consideration Senate Bill 170; a bill to reduce the license fees for the operation of a second brewery in the State of Texas. He voted to take money which was already on the books, off the big breweries. (Could the trip to Acapulco, Mexico, have anything to do with his WET vote.)

(Paid For By Donley County Friends of Roy L. Taylor)

CHAMBERLAIN NEWS REPORT

Chamberlain was a contestant in the Community Improvement Program for the fourth year. This program has been sponsored by the Farmer-Stockman Magazine in Armstrong County won first place; Ashtola in Donley County won second place; and Perico, Dallam County, won fourth place.

Tuesday afternoon a committee of five visited in the community to check the improvements made this year. This committee was conducted on a short tour of farms on which outstanding improvements were made.

Mr. and Mrs. H. H. Shields' remodeled home was the first stop and there the committee saw her new cabinets and all the nice built-in features in her kitchen; new draperies and upholstery in the living room and new picture windows. The next stop was at Dick Dingler's to see the new waterways, and then Henry Mann's and Alford Ivey's new terraces. They also saw the improvements made around Alford Ivey's home where he has trimmed his trees and is leveling his yard in preparation for sewing a lawn. Last on the tour was the Community Center where new card tables had been made, new lines put in and general improvements made.

Members of this committee were KGNC's Ted Powell, and Miss Doris Leggett; judges in the contest; Bill Gresham; District 1 Agriculture Agent, Miss Edith Lois Wilson; District 1 Home Demonstration Agent and "Flip" Breedlove, County Agent of Donley County. Mrs. Flip Breedlove also accompanied the committee.

After the tour, this committee and members of our Community met at the Center for coffee and pie. At this time, Ted Powell made recordings to be used on

Cotton John's "Meet the Farmer."

Those of you who listened to Cotton John's program last Wednesday mornings know that Chamberlain Community won third place in this contest. Sunnyside in Armstrong County won first place; Ashtola in Donley County won second place; and Perico, Dallam County, won fourth place. We extend to these communities our congratulations and look forward to another year of improvement in our communities. —Rep.

BOOK CLUB HAS MUSIC PROGRAM

Mrs. J. N. Weaver, music instructor in the Clarendon Public Schools and Junior College, presented a number of her pupils who entertained the Book Club with a very interesting program at 4:00 p.m. Tuesday, in the Patching Club House.

Beth and Lynn Bourland sang "Little Ol' Lady" accompanied at the piano by Mrs. Weaver. With Pam Hicks they sang as a trio "America Beautiful" and "Tip-toe Through the Tulips." Deanna McAnear and Janet Goodman played a piano duet "Stars and Stripes Forever." Susan McAnear sang as a solo "Where the Lazy Daisies Grow," "Just Like Grandma" and "Honey." Deanna McAnear played "Holiday" as a piano solo.

The college group consisting of Joan Eadens, Linda Self, Jean Welch, Elaine Behrens, Neal White, H. D. Yarbrough, and William Clark sang "Down by the Station," "Girl of My Dreams," and "The Bells of Saint Mary's." They were accompanied at the piano by Mrs. Dee Williams.

At the conclusion of the program cookies and punch were served by the hostesses, Mesdames C. E. Bairfield and Loyd Johnson.

The president, Miss Inez Blankenship, had charge of the business session. Plans of the project Committee were discussed. Mrs. C. B. Morris and Mrs. Frank White reported on the District Meeting of the Federated Clubs. Plans for the President's Dinner were made. The dinner will be in the Club House May 3, at 7:00 p.m. Members were asked to let the Social Committee know if they plan to attend.

Mrs. McAnear, mother of Deanna and Susan, was a guest of the Club. There were thirteen members present.

SENIOR HOME DEMONSTRATION CLUB

The senior Home Demonstration Club met Friday afternoon, April 15, in the home of Mrs. Clyde Butler. Due to the absence of the secretary, Mrs. Jordon, there was no roll call or minutes. Mrs. R. C. Bingham, President, presided at the business session.

After the Penny Parade quilting was the program of the afternoon. During the social hour frosted Cokes were served to Mesdames J. H. Helton, R. C. Bingham, William Payne, O. C. Watson, Bennie Crabtree, Bertha Benson, Will Kennedy, Virgil Poole and Claude Darden by the hostess, Mrs. Butler.

The next meeting will be with Mrs. Claude Darden. —Rep.

JR. H.D. CLUB PARTY HELD THURSDAY

Members of the Junior Home Demonstration Club enjoyed a buffet supper at Patching Club House Thursday evening, April 14. The Easter motif was carried out in decoration.

Following the meal, games of 42 were played. Attending were Mr. and Mrs. Charles Blackburn, Mr. and Mrs. Fontayne Elmore, Mr. and Mrs. Grady Henson, Mr. and Mrs. Carroll Lewis, Mr. and Mrs. Johnnie Rex McClellan, Mr. and Mrs. Gerald Noble, Mr. and Mrs. Paul Schull, Mr. and Mrs. Claude Spivey, Mr. and Mrs. J. H. Spier, Mr. and Mrs. Henry Tatum, Mr. and Mrs. Bobby Trout, Mr. and Mrs. Doss Finley and Mr. and Mrs. Bob Williams. —Rep.

KIL KARE KNEEDLE KLUB

Mrs. M. C. Rumpy entertained the Kil Kare Klub in her home Thursday afternoon, April 14. Beautiful arrangements of spring flowers with Easter as the theme was carried out in decoration. Visiting was the program of the afternoon.

Present were Mesdames S. W. Lowe, Harry Brumley, J. R. Bartlett, Buel Sanford, R. O. Thomas, Miss Etta Harned, and the hostess, Mrs. M. C. Rumpy. During the social hour refreshments of orange ambrosia, gold pound cake, tea and coffee were served. —Rep.

MU GAMMA-BETA SIGMA PHI

Mu Gamma Chapter of Beta Sigma Phi met Thursday night, April 14th, in the home of Frankie Henson.

Mabel Dean Porter presented Mr. L. L. Wallace who showed the group an interesting film on his trip to Canada last summer. Members present were Tookie Thornberry, Pat Wallace, Ann Hommel, Mary Neal Risley, Shirley Clifford, Hazel Guy, Pat Cornelius, Mabel Dean Porter, Annesse Bennett, Lea Tyler, Gene Davis, Quinn Draper, Frankie Hommel and Mrs. Morris.

Lovely refreshments were served by the hostesses, Ginda Lacey and Melba Vaughn.

CHAMBERLAIN HAS REGULAR MEETING

Members of the Chamberlain Community Center met last Friday night at the center for an evening of fun and fellowship. 42, dominoes and Wahoo were played and those who didn't care to play games visited. Refreshments of cake, fruit, coffee and punch were served to approximately 30 members and guests, Mr. and Mrs. Lonnie Cornell and daughters.

We are about to get our hostess duties straightened out after drawing new dates and our next hostesses will be Floree Webb and Vivian Allen. Everyone come Friday night, May 6th, and bring sandwiches and potato chips. —Rep.

ASHTOLA COMMUNITY CENTER MEETING

At the meeting of the Ashtola Community Center Friday night the series of three classes consisting of six hours of a course in Highway Safety and Red Cross First Aid ended. We are indebted and indeed grateful to Patrolman Bill Cornelius and his helpers, Patrolmen Philip Hansen and Stanley Schnieder for bringing these lessons to us, and feel we gained much needed knowledge and a closer relationship between our officers and ourselves. During a round table discussion, the Patrolmen answered any questions thus enlightening the citizens on many queries that had often been of deep concern. We hope the fine young officers will drop by often on our Friday night parties. They are always very welcome.

After class, games of 42 were played. Mrs. Doyce Graham was hostess, and served pie and coffee to the group. —Rep.

Mr. and Mrs. L. H. Skelton and Bob Skelton of Amarillo returned home last Thursday after visiting Mr. and Mrs. Durwood Skelton at Dallas and other relatives at Georgetown, Temple, and Littlefield.

We wish to express our gratitude to our good neighbors and many friends for the food, flowers, and most of all the kindness during the illness and death of our mother. It was all greatly appreciated. God bless you.

The Jess and A. B. Ivey families

We are sincerely grateful to our neighbors and friends for their kind expressions of sympathy in our bereavement. These expressions have been deeply appreciated.

Mr. and Mrs. W. M. Crain and daughters
Mrs. B. W. Conrad
Mrs. E. F. Hazlett

FARM NEWS

from the County ASC Committee

Conservation Reserve Not Vacating Farm Homes

Even though more than two-thirds of the land in the Conservation Reserve is in the form of whole farms, the program is having little effect to date on where the farm people make their homes and on how much shopping they do in their local communities.

Those are some of the preliminary findings by the Agricultural Research Service of the U.S. Department of Agriculture based on interviews with Conservation Reserve participants in five different areas.

Farm population has been declining and size of farms increasing in most rural areas for many years, and there is no indication of any speed-up in these trends as a result of the Conservation Reserve, according to the report.

Mr. Cooke of the Donley County ASC office points out that a primary purpose of the Conservation Reserve is to check surplus production by retirement of cropland. Farmers who place all their eligible cropland in the Reserve are not required to remain on the farm but may do so and make use of the buildings, home garden area, and permanent pasture.

"This study," Mr. Cooke said, "shows that some Conservation Reserve participants who would

have sold their farms and moved away are retiring and continuing to live on the farm. Some who have shifted to non-farm work and are continuing to live on their farms said they would have moved to towns or cities if it had not been for the opportunity to obtain a reasonable return from their investments in farm property by participating in the Conservation Reserve."

Other highlights of the Research Service include:

1. Few Conservation Reserve farms have good dwellings that are not occupied.

2. Most participants plant to maintain and repair their farm buildings although many are not fully used.

3. There have been some reductions in purchases of farm machinery and supplies, but these have been largely offset by expenditures for other items as a result of income received by participants in the form of Conservation Reserve payments.

RELATIVE DIES IN FT. WORTH

Word was received here Sunday night of the death of G. D. Townson of Fort Worth. Mr. Townson was a long-time resident of that city and a brother of Mrs. A. O. Hott, Mrs. Roy Robertson, and Mrs. Leonard Dozier, and a nephew of Mrs. F. E. Caraway of Clarendon.

Funeral services were held Wednesday afternoon. Survivors include his wife, three sons and one daughter.

Mr. and Mrs. Clyde Butler enjoyed having their children home for Easter. Here were Mr. and Mrs. Earl Butler and boys, Mr. and Mrs. J. W. Butler and son, and Christie Sanders, all of Borger, Mr. and Mrs. Loren Rhoades of Amarillo, Mr. and Mrs. Glenn Butler of Claude, also friends, Mr. and Mrs. Tom Florence of Lefors.

Mr. and Mrs. Clifton Phillips and Mark of Amarillo spent the week end with relatives and friends.

Gordon Lane of San Angelo visited Tuesday with his parents, Mr. and Mrs. Cap Lane.

Cub Scout News

The Cub Scouts of Pack No. 37 wish to invite their parents and friends to the monthly pack meeting tonight at 7:30 in the First Christian Church auditorium.

The program for the evening will be KGNC Farm & Ranch department and the American National Bank film "An Arctic Adventure." The soil conservation office will furnish the projector.

There will be an award ceremony and projects the boys have made on the Great Lakes will be exhibited. The dens will be competing for the attendance award which has been won by dens 2 and 4.

The monthly Round Table meeting for the Comanche District of the Adobe Walls Council will be held Tuesday evening, April 26, in the First Christian Church in Wellington. All Cub Scout leaders of Pack No. 37 are urged to attend.

Visiting Mr. and Mrs. Harold Gerner and boys Easter Sunday were Mr. and Mrs. C. F. Moss and Shirley of Bushland, Mr. and Mrs. Bobby Moss and boys of Borger, Mr. and Mrs. James Traylor and children of Amarillo, Mr. and Mrs. A. M. Moss and Mr. and Mrs. Billy Hill and Tony.

Bruce Fricks attended the Abilene Christian College freshman banquet last Saturday night. He escorted Miss Suzanne Sandifer of Kermit, Texas, who is a student there. The banquet was held at the Sands Motel with approximately 500 couples in attendance.

Mr. and Mrs. John F. Moss and Margaret of Amarillo were Sunday guests in the home of her parents, Mr. and Mrs. George Benson.

AUSTIN — A 30-member committee appointed by Gov. Price Daniel will meet May 16 to begin work on a tall task.

Assignment of the State Finance Advisory Committee will be to suggest every possible economy in state government and recommend a tax program to put the state on a sound financial basis.

For the immediate future the tax program is to wipe out the general revenue fund deficit, which the governor estimates will be \$40,000,000 at the end of this fiscal year, and provide \$35,000,000 for teacher pay raises.

Committee is to be made up of leading citizens in both public and private life. Six already have been named. They are Secretary of State Zollie Steakley who will be chairman; Jess Irwin, the governor's budget director; Jon Ford, administrative assistant to the governor; Dr. John R. Stockton, director of the University of Texas Bureau of Business Research; John R. McKee of Dallas, Ford Motor Co. executive; and Hugo Lowenstern, Amarillo real estate man.

Gov. Daniel said he would ask the committee to search for revenue sources other than a general sales tax or state income tax.

He hopes, said the governor, that the committee will work out some recommendations soon so that a special session can be called this year to pass teacher pay raises. Under Texas' requirement for pay-as-you-go financing, the Legislature would have to pass taxes to wipe out the deficit before it could vote funds for the school improvement program.

TEACHER RAISE ENDORSED — Nearly three-fourths of the candidates for the Legislature this year have told the Texas State Teachers Association they favor a pay raise for teachers.

Some qualified their statements to indicate that getting the pay raise might be an easier-said-than-done proposition.

Of 401 candidates for the Senate and House, 336 answered TSTA's questionnaire, and 293 said they approved the Hale-Aik-in school program.

Asked if they would vote the necessary taxes for it, 252 promised support outright. Others added conditions on the kinds of taxes they would approve.

LOAN PLAN DISAPPROVED — Third Court of Civil Appeals has held the certificate plan used by some loan companies is unconstitutional.

Loan companies involved in the test case are expected to appeal to the State Supreme Court.

Under the certificate plan, the borrower of \$100 would agree to repay his loan through monthly payments on an investment certificate for \$110. This, according to the Attorney General's Department, forces the borrower to pay more than the permitted 10 per cent interest because the interest does not drop as he pays off the principal.

Loan companies, which won the first round in district court, contend that the same procedure is used by banks, saving and loan associations and other lending institutions.

Attorney General's Department replied that there is no specific provision prohibiting other institutions from computing interest in this manner.

SCHOOL BUYING CRITICIZED — Clothing purchases at the Texas Blind, Deaf and Orphan School for Colored in Austin were far in excess of use during the past 18 months, State Auditor C. H. Cavness reported.

Cavness said his audit turned up excessive clothing purchases totaling \$3,824. In all, he said, 3,042 articles of clothing were bought, but only 75 articles were issued to the children.

He said he had received no "reasonable explanation" for the

discrepancy. Cavness suggested that the Texas Youth Council, which oversees state schools for needy and handicapped children, make an inventory and transfer surplus items to other schools.

CITIZEN INTEREST URGED — Texas Law Enforcement Foundation has called on individual citizens to feel responsible for the way the law is observed in their communities.

Citing no specific instances, the TLEF executive committee said that "a breakdown in citizen responsibility must precede any breakdown in law enforcement."

Three new members have been elected to the TLEF executive committee. They are Neill Masterson Jr. of Houston, Weldon Jones of San Angelo and Radcliffe Killam of Laredo. Dolph Briscoe Jr. of Uvalde is new secretary of the committee.

Plans are under way to expand the foundation's board to include representation from every part of the state and to set up a program to assist families of law enforcement officers killed on duty.

DON'T WORRY ABOUT IT — State Supreme Court has again refused to get involved in a dispute as to whether a Dallas district judge can hold a railway president in contempt of court because trains blocked a Dallas street.

However, the high court repeated, with emphasis, its belief that the district court order is void and "no trial judge will attempt to enforce" it.

Dallas Dist. Judge Jack Thornton sentenced M-K-T President W. N. Deramus to 240 days in jail and levied a \$4,000 fine because Katy trains blocked a street for more than five minutes at a time, against the judge's order. Since then, an underpass was begun.

Deramus, a St. Louis, Mo., resident, has sought to avoid coming to Texas to appear in Thornton's court despite the Supreme Court's reassurances. Thornton has declared he would put the railway executive in jail.

LEADER CLASSIFIEDS GET RESULTS

Mr. and Mrs. O. C. Watson, Jr., and Rex of Colorado Springs, Colo., visited Saturday night and Sunday with his parents, Mr. and Mrs. O. C. Watson.

Mr. and Mrs. George Hunsaker and children of Albuquerque and Mrs. Tom Murphy of Amarillo were Easter guests in the home of Mr. and Mrs. Walter Taylor.

Linda Smith, daughter of Mr. and Mrs. Bert Smith of Amarillo underwent a tonsilectomy at Stewart Clinic here Saturday morning.

Mr. and Mrs. Allen Graham of Amarillo and Mr. and Mrs. Paul White of Clarendon spent the week end with Mr. and Mrs. H. A. Graham.

Mr. and Mrs. Gene White of Amarillo spent the Easter holidays with homefolks.

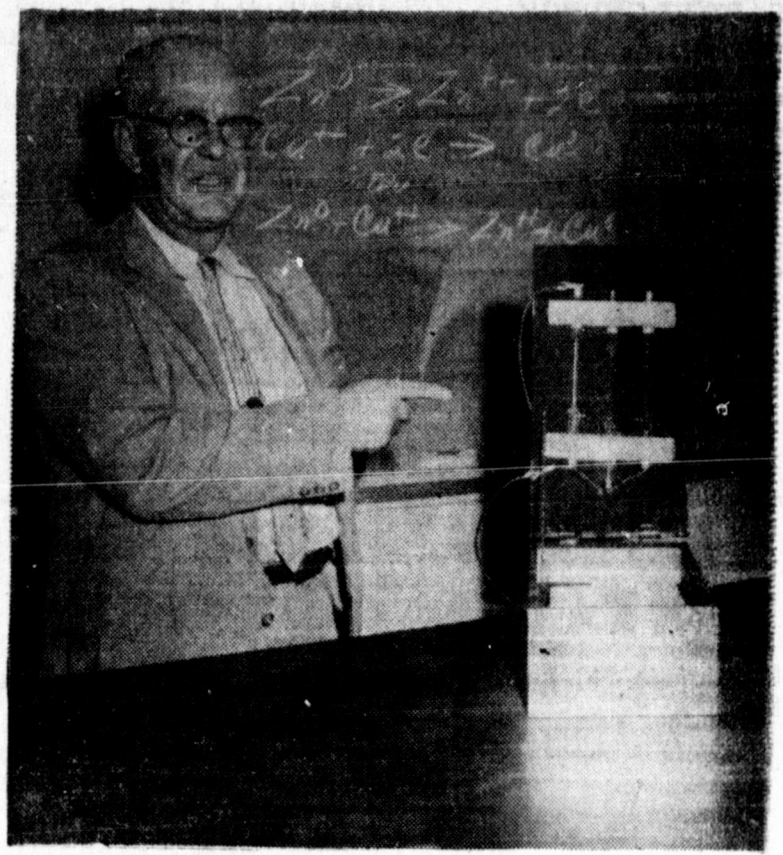

A BUBBLE BURSTS

Some years ago, it will be recalled, during the Dixon-Yates controversy, the city of Memphis, Tennessee decided to build a municipal electric plant. It took the place of the proposed plant the Dixon-Yates group would have built. Pro-public-power supporters greeted the Memphis decision with cheers of glee. And the assurance was given that the new municipal plant would sell power at the same rates as the

Tennessee Valley Authority, which, as a federal project has all manner of tax exemptions and financial advantages, and still operate on a sound financial basis.

Now this bubble has burst. Memphis has been obliged to raise its electric rates 18.5 per cent, on the average. Residential users will be hit the hardest, with some paying 39 per cent more for service.

This happened though the Memphis municipal plant, like all municipal plants, has special privileges under the law, and does not pay a federal income tax, which averages 13 cents out of every dollar taken in by the investor-owned electric companies. This event has turned a spotlight on TVA — its financing, tax advantages and methods of operation in general. For the first time since the TVA came into being, a clear-cut basis for comparison is being provided to assess the cost of public power and the ability of non-federal suppliers, whether municipalities or investor-owned utilities, to compete with the federal government and federally subsidized business operations. And that is something the country has urgently needed for a long time.

Walter McGuire, Traveling Science Teacher, is shown here demonstrating high voltage spectrum tubes as part of a lecture on atomic structure. The demonstration "atom smasher" is one of the pieces of equipment constructed by McGuire.

*** **

Stillwater, Oklahoma — A science program of unusual content and interest will be presented at the Clarendon High School during the period of May 2-May 6. The program will be presented by Mr. Walter McGuire, traveling science teacher, who has a repertoire of lecture materials designed to inform and stimulate teachers and students in the areas of science and mathematics and is equipped with a station wagon loaded with unique science demonstration apparatus.

Mr. McGuire is one of the twenty traveling science teachers who have been trained and equipped at Oklahoma State University with the assistance of a \$335,000 grant from the National Science Foundation. The twenty teachers are serving an eight-state area composed of Arkansas, Colorado, Kansas, Louisiana, Missouri, New Mexico, Oklahoma, and Texas. "Nearly a quarter of a million students will benefit directly from the Traveling Science Teacher Program during the current school year," says Dr. Robert C. Fite, program director.

By the end of the spring term each traveling teacher will have visited approximately 30 schools, a total of 600 altogether. Clarendon High School is fortunate to have been selected to receive the program this year since twice as many applications were received as could be scheduled.

"In addition to 12 to 15 lecture-demonstrations to science and mathematics classes and to student assemblies, Mr. McGuire will be available for presentations to teacher's meetings, science clubs, civic groups, and PTA

meetings," Dr. Fite explains. The program is quite flexible and requires a minimum number of disruptions or irregularities in the school schedule. "Schools of all sizes are scheduled, but the program presented in a large school is quite different from that in the smaller schools," says Fite, who is also director of Oklahoma State's Arts and Sciences extension activities.

Mr. McGuire, a native of Texas, has for the past several years taught science and mathematics at Dora, New Mexico. He was selected with the 19 others from about 200 teacher applications received from the eight-state area by a committee of scientists working with the program. At the end of this school year Mr. McGuire will return to his regular classroom duties.

ARMY ENLISTEES MAY CHOOSE HAWAII

Sergeant Lewallen the local U.S. Army Career Counselor has announced that the U.S. Army is now accepting enlistments for the 25th Division which is stationed at famed Schofield Barracks, Hawaii. The 25th Division is the largest tactical unit in the entire Pacific area.

Qualified young men will be enlisted for a period of three (3) years. Upon completion of basic training at Fort, California, individuals will receive a leave and then be assigned to Hawaii.

Sergeant Lewallen will be in the Court House on Thursday afternoons to interview and pre-qualify individuals interested in this program.

SARDIS MISSIONARY BAPTIST CHURCH TO HOLD MEETING
 Rev. John W. Reynolds of Henderson, Texas, will hold a series of services at the Sardis Missionary Baptist Church beginning Friday evening and running through Sunday evening. Evening services will begin at

8:00 o'clock on Friday, Saturday and Sunday. Morning services will begin at 11:0 o'clock on Saturday and Sunday.
 The public is cordially invited to attend these services.
 Rev. Reynolds can also be heard at 8:45 Sunday morning over the Childress radio station KCTX. 1510.

Clarendon Jr. College's Popular Peruvian

UBERTINO MARIVANI

Ubertino (Jorge) Aliaga Marivani was born in Lima, Peru, in October, 1939. His father, Eleodora Aliaga and his mother, Griselda Marivani, settled in Peru in 1880.
 Jorge has two brothers and three sisters. In 1949 his parents moved from Lima to Huancayo because of his father's business as a mining engineer. Huancayo is a city located in the Central Rocky Mountain Range of the Andes in Peru. He lived in Huancayo until 1957 at which time he and his parents moved back to Lima.
 Jorge started his elementary school in Lima and finished it in Huancayo. He studied during three years of his high school at Huancayo provided by the "Fathers Jesuite" Parochial, but graduated from a high school in Lima.

smaller school where classes were smaller and teachers had time to give individual help.

In 1959, Jorge went to work at the Italian Credit Bank of Peru in Huancayo as a teller. He secured this job while on vacation visiting relatives after high school graduation at Lima. He worked there for seventeen months. Later his parents decided to send him to the United States to study because he had asked to study in the United States. His uncle had studied at the University of Oklahoma in 1954, and it was upon his uncle's suggestion that his parents decided to send him to the United States to study.

His Texas University Professors agreed with him and recommended that he transfer to a smaller school. He went to the library of the Texas University and studied through a large number of catalogues from smaller schools. One of these was the Clarendon Junior College catalogue. From the study of this catalogue, he decided that Clarendon was the school he wished to enroll in. He turned to a friend of his by the name of George Olds of Pampa to get first-hand information. Mr. Olds recommended Clarendon Junior College as an outstanding college in this area. From that recommendation Jorge contacted Dean Abel and made application for admission. He was accepted and enrolled in Clarendon Junior College at the beginning of the second semester, January 18.

He came to the United States in September, 1958, at which time he entered the school of Engineering of the University of Texas. From there he transferred to Clarendon Junior College.

An interesting story related to Jorge's change from Texas University to Clarendon Junior College was brought out in the conversation with him. Due to his having to learn to read the English language while pursuing an engineering course at the University, his slowness in reading required many more hours of preparation than the average student, thereby, pushing his grades below the average. To him this meant that he needed to be in a

Jorge chose (as he is short a few hours for graduation with this year's class) to enroll in Clarendon Junior College again next year.

We are proud to have Jorge with us. He is doing a good job. He is loved by the student body and loves our student body equally as well. He has been agreeably pleased by the acceptance of him by the citizens of this community and is thankful for the opportunity the community has offered him.

FLOWIN' Out the CORNERS

Vacation time is just around the corner and most of us are making reservations, and otherwise planning for the week or two that means so much to all

of us. We talked with one fellow who said that he lived the other fifty weeks just dreaming of that two weeks in the mountains with his favorite sport, that of fishing.

Speaking of vacations, and we deliberately brought it up. Mountains were not spoken of by accident; neither did the subject of fishing slip out by chance. For some five years we have spent at least a week in Red River, New Mexico. We have fallen in love with that part of the world. On each of our trips we wrote about its beauty and the restful peace of the mountains and streams.

Out of all this grew the idea for a small book that we are hoping will sell like hot cakes in Red River this summer. We are hoping that each tourist will take

home at least two copies, and most of all we are hoping that his vacation will be even more wonderful because we shared with him the experiences that have been ours over the last five years.

Strangely enough we were not impressed on our first trip to this magic country, and left never expecting to go back again. The next summer we were lured back by the promise of a good time as guests of our local 4-H Club. It was on this trip that we learned to appreciate this wonderful country.

And now the good part; this 32 page book containing 30 or more pictures plus pages filled with information and inspiration will be on sale in Red River and elsewhere by the last of May. Just so that our favorite people, those who read this column won't be left out they can have a copy ahead of time by sending only One Dollar to Uncle Zeb c/o the paper.

Some of you keep scrap books

of your trips, as we do. Others keep poems and the like, and we do this, too. The following poem was handed to us by G. W. Bradshaw, The Milk Man. It tells us a very important truth. It is called;

YOUR CLOCK OF TIME

By C. V. Hale

The clock of our life is wound but once,
And no man has the power
To tell just when the hands will stop,
At late or early hour.

So let's be up and at our task,
With a heart for any fate.
For we know that with the man upstairs,
We all have a date.

For all of us just have today,
For tomorrow never comes.
So plan your work, and work your plan,
Don't be a street corner bum.

So arise each morn with a zeal to work,
And always strive to please.
Then each act and deed you perform today,
Will be done with greater ease.

Remember now is the only time you have,
So live, love and toil with will.
And place no faith in tomorrow,
For the clock may then be still.

Thanks Mr. Bradshaw for the use of this little poem, and we understand that you get up with the earliest of them. Best Wishes.

—o—
If we try we can always learn

some new truth. Last week with us was no exception to this rule. Do you know the unit of sale that exceeds all others day after day? It is not a package of gum or a pack of cigarettes as one might imagine. It is not even a loaf of bread or a bottle of milk. Neither is it any kind of a drink nor a bar of candy. Believe it or not it is your newspaper.

We learned this fact just listening at the Panhandle Press Convention. We should have known, I suppose, but we had never thought about it. Day after day more people buy and read the morning, afternoon, or weekly paper than buy any other given purchase of any kind.

Another thing we learned is that without advertising this daily paper would cost ten dollars instead of ten cents. Now we will have more patience as we stumble through the ads looking for our favorite part of the paper.

We can remember that these fellows really paid the freight on our morning paper. The same is true with our hometown weekly. It is all part of our free enterprise system. For all this we can be thankful.

We learned something else. An informed people is almost sure to remain a free people. On the other hand a free people that does not continue to inform itself as to the truth will soon be a slave people. The recent information as given to us by our papers is living proof in our times of the importance of a free press in the lives of a free people.

All these truths we learned just by being a guest of the Panhandle Press Convention. We didn't even have to buy a membership; likely we were not even eligible . . . Anyway, thanks fellows for teaching me the importance of some very great truths . . . Bless You All.

GRASSROOTS OPINION
Great Falls, Mont., Leader: "If the United States government were assayed as an individual or even a corporation, it would have to be judged a bankrupt . . . the House Government Operations Committee, values its total assets at 265 billion dollars. Against the national debt of 290 billion dollars, that leaves a deficit of 25 billion."

"Of course, this is simply theoretical. The true assets of this country are not merely real and personal property owned by the government. It is the property and earning power of its citizens, which it can tax to the diminishing point, as it does now with the greatest incomes at 91 per cent. But that can kill the golden goose. So maybe we'd better stick with the idea that the overment is bankrupt, at least until its visible assets exceed the national debt."

ECONOMY PROVED IN MOBILGAS RUN!

CORVAIR BY CHEVROLET DRIVE IT! GET OUR DEAL!!!!

A pair of Corvairs recently recorded 27.03 and 26.21 miles per gallon in the 2,061.4-mile Mobilgas Economy Run. That's certified proof that Corvair skimps on gas costs. It saves other ways, too. Corvair is the only U. S. compact car that never needs antifreeze or costly radiator repairs. Come in and drive the compact car that outdoes them all.

Things Corvair gives you that America's other compact cars can't:

Practically flat floor . . . real foot room for the man in the middle. **Fold-down rear seat** gives 17.6 cu. ft. of extra storage space. **Four-wheel independent suspension** for a smoother, flatter ride.

Rear-engine traction . . . that comes with the engine's weight bearing down on the rear wheels.

You probably realize already that the mileage figures Corvairs recorded in the Mobil-

gas Run are higher than the average driver can expect. But because the parts met every kind of driving condition—rugged mountain grades, long country straightaways, congested city traffic—those mileage figures prove

Corvair's inherent ability to save. Operating costs take a nose dive the day you take delivery of a Corvair.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

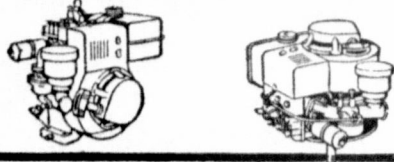

AUSTIN — Texas leads all other states in the building of new interstate highways since the beginning of the program four years ago. Today, 582 miles have been completed in Texas, says State Highway Engineer DeWitt C. Greer, and 355 more miles are under construction. Cost so far: \$460,400,000. Target for the State is to have

YOUR SERVICE HEADQUARTERS

For top-notch service on Briggs & Stratton engines.

- Trained Mechanics
- Modern Shop
- Fair Prices

HOMER BONES GARAGE AUTOMOTIVE SERVICE

3,030 miles in this main, heavy-duty trunk system.

These roads, Greer points out, have built-in safety features and are three times as safe as ordinary highways.

Features that enable these roads to cut the traffic toll by one death a year for each 10 miles of length are:

1. Dividing of traffic to eliminate head-on collisions.
2. Grade separations to cut out intersection accidents.
3. Wide lanes with surfaced shoulders to provide ample room for passing.
4. Controlled access entrances and exits to ease cars on and off the highway.

But the super-roads are only a fraction of the program in the state with more miles of public roads than any other in the country.

In the less elaborate divided highways not in the interstate system, Greer says the state now has 1,029 miles of divided highways, with a goal of at least 2,700 miles by 1975.

Most Texas mileage is in the farm-to-market system, now up to 30,156 miles.

NEW INDUSTRY SEEKING — Reorganized Texas Industrial Commission is setting out toward some tall goals with a short kick.

Commission, with a staff of one man plus a secretary, is at-

ter a Texas-sized search of new industries for the state. Its appropriation for the years is only \$23,750.

Other agencies of government have assisted, however, with research. Questionnaires already have been sent to Texas cities to build up a permanent file of data on potential sites.

NO WIDE OPEN SPACES — As Texas prairie gives way to subdivisions, more and more Texans are getting in each other's way.

Problems growing out of the population explosion and rapid urbanization of Texas were the subject of a two-day Austin conference for newspapermen, civic leaders and planners.

Texas newspapers were commended by Steve Matthews, executive director of the Texas Municipal League, for their efforts in keeping the reading public informed on complex and changing city problems.

Conferees pondered how to plan orderly, pleasant communities for the two million additional residents expected to be added to Texas cities in the next ten years. Also, how to correct the all-too-prevalent bane of "acres of hot asphalt and cold stone," congested streets and the "grotesque suburban sprawl."

ONE WORD MAKES DIFFERENCE — Because of a slip of the tongue or typewriter in Potter County, Court of Criminal Appeals dismissed appeals in three cases mistakenly addressed to the Court of Civil Appeals.

A court order from the district court in Amarillo said the defendants had given notice of appeal to the Court of Civil Appeals, Austin.

Since the cases were criminal cases — driving while intoxicated, contributing to the delinquency of a minor — the civil court could not handle them.

And since they were appealed to the civil court, the criminal court could not handle them.

TRINITY PERMIT GRANTED — After the longest and probably most patience-straining hearing in State Water Board history, Trinity River Authority and the City of Houston were granted permission to build a \$40,000,000 dam at Livingston.

Also authorized was a \$5,000,000 salt water barrier at nearby Wallisville.

Conclusion of the matter was a near-miracle of compromise and appeasement. Initially Houston alone had sought the permit with stiff opposition from the Trinity people. They got together and agreed on a joint project with a 70-30 split on costs and water use, with Houston taking the larger portion.

But when the hearing came before the Water Board, the San Jacinto River Authority, North Texas Municipal Water District and affected landowners protested.

SJRA dropped its opposition when Houston agreed to use Trinity water for industry only and to step up buying of San Jacinto water for domestic use. Water Board order provided that the rights of upstream users in North Texas should not be cut into by the new dam. That left only the landowners to satisfy — probably in court.

HOME HELD UP — Highly controversial \$100,000-plus home for the Sam Houston State College president will not be built unless the governor and legislative budget board give the green light.

Henry Sears, chairman of the board of regents for teachers' colleges, made this promise to the Senate cost of government committee. If budget board opinion follows that of many legislators' recent comments, it will take a dim view of the project.

Senators told Sears they were irked with the teachers' college board for what they regarded as a "complete breach of faith" and an apparent by-passing of legislative intent to keep a check-rein on college building programs.

TOURIST REVENUE FALLS — Texas had a \$100,000,000 slip in tourist spending between 1957 and 1959.

State Highway Department's 1959 Tourist Industry report shows: For 1957, 10,300,000 visitors, \$531,000,000 spent; for 1959, 9,600,000 visitors, \$431,000,000 spent.

Highway Commission Chairman Herbert C. Petry Jr. said competition for tourists is strenuous. He said he hoped the new state advertising program, due to begin soon, would help to expand the crop.

WELCOME TO DISTRICT 88 Mr. Ray Kirkpatrick -- UTILITY LOBBYIST --

(And Former Lobbyist For Texas Naturopaths)

Welcome to District 88 and Donley County, Mr. Ray Kirkpatrick. Let me introduce you to my friends and neighbors. Tell them, Mr. Kirkpatrick, that you are a Registered Austin Lobbyist and that you represent a Houston utility company. Let's also tell the folks that you are the man behind the scenes directing my opposition in this campaign for State Representative.

Tell my friends in Donley County, Lobbyist Kirkpatrick, that YOU ARE MY REAL OPPONENT, not the young man from Matador. Let's let them know that my opponent was living and working in Austin and that you encouraged him to move back to Matador and run for office; that his filing fee and applications for his name on the ballot were MAILED FROM AUSTIN, and not paid in person as is the custom. Tell my people, Mr. Lobbyist, that you have arranged for my opponent's printing at an Austin print shop; that you are really directing his campaign from Austin; that you had your last meeting with my opponent on Monday, April 4th in Austin to map out the finishing touches to the opposition campaign.

Welcome to District 88, Lobbyist Kirkpatrick, but tell my friends in Donley County that you are behind the vicious, vindictive, distorted, SMEAR campaign being waged against me and my family. Tell my people, Mr. Lobbyist, that you KNOW my voting record is good for this rural district, but that it is definitely NO GOOD FOR HOUSTON AND YOUR SPECIAL SELFISH INTERESTS.

Tell my friends, Lobbyist Kirkpatrick, WHY you are so strong against Will Ehrle. Is it because Will Ehrle voted for a strong LOBBY REGISTRATION LAW? Is it because I didn't vote for your utility company clients? Is it because I voted for the Rural Electric Co-ops? Is it because I voted against a RETAIL GENERAL SALES TAX. Is it because you can't control Will Ehrle's vote in Austin,

Welcome to District 88, Lobbyist Kirkpatrick, but don't sneak in the back door. Come on out and tell my friends that you have other VICIOUS RUMORS TO SPREAD, VINDICTIVE AND DISTORTED ADS TO RUN, MORE NASTY SMEARS TO USE against WILL EHRLER.

Our folks up here know your kind, Mr. Lobbyist, but you see they are not as ignorant as you and your selfish clients think. We're not from Houston or Austin, but we have T.V. and good newspapers. Our people are not as "country" as you think, Ray Kirkpatrick, and

I DON'T BELIEVE YOU WILL FOOL THEM WITH YOUR SMEAR WILL EHRLER CAMPAIGN!

Yours For A Better Texas
Government, Lobbyist Kirkpatrick
—The Kind You Are Opposing

Will Ehrle

Candidate For
State Representative
District 88

P.S.: JUST TWO EXAMPLES OF LOBBYIST KIRKPATRICK'S MISINFORMATION WHICH WAS PUBLISHED IN AN AD LAST WEEK:

1. My opponent said that Will Ehrle did NOT vote to tax Beer. The record shows that I voted to increase the Beer Tax from 1.3c per bottle to 3c per bottle. THIS VOTE IS RECORDED IN THE OFFICIAL HOUSE JOURNAL AT PAGE 1828 ON APRIL 22, 1959.
2. My opponent intimated that Will Ehrle voted for a General Retail Sales Tax. The truth is that I cast my vote against this Dallas Sponsored Sales Tax. THIS VOTE IS RECORDED AT PAGE 1852 IN THE OFFICIAL HOUSE JOURNAL.

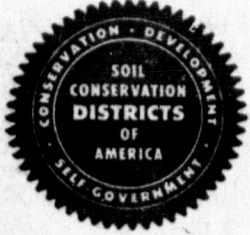

The rest of my opponent's personal smear in his ad against members of my family was also misleading and distorted.

AS I HAVE SAID BEFORE I BELIEVE THAT MY OPPONENT IS A NICE YOUNG FELLOW. HE HAS, HOWEVER, BEEN VERY CARELESS AND NEGLIGENT IN NOT CHECKING THE INFORMATION WHICH LOBBYIST KIRKPATRICK HAS TAKEN ADVANTAGE OF MY YOUNG OPPONENT AND HAS MISLED HIM. THIS, TO ME, POINTS UP THE NEED FOR EXPERIENCE AND SOUND JUDGEMENT FOR LEGISLATIVE SERVICE IN ORDER TO STAY CLEAR OF ANY TRAPS WHICH MIGHT BE LAID BY UNSCRUPULOUS LOBBYISTS.

I hope that my 4 years experience can be of benefit to the people of District 88. I will sincerely appreciate your vote and support for State Representative.

(Pol. Adv.)

—WILL EHRLER

Donley County Soil Conservation District News

W. P. Doherty
T. C. D'Spain
C. B. Morris
Roy Jewell
Frank Hommel

Living in West Texas doesn't necessarily mean that we have to live with sandstorms. Blowing soil can be controlled just as gullies can be controlled. If each acre of soil were treated to keep it from blowing, sandstorms would be stopped.

To treat each acre according to what it needs, a man must decide first what it does need. If the soil is highly susceptible to blowing, chances are it should stay in a continuous close-space high residue producing crop, such as wheat or rye. The residues of the crop should be left on the surface of the soil to help control the

erosion. On the other hand, if the land is not very susceptible to wind erosion damage, all it may need is a rotation of a high residue crop with a low residue crop, with a soil improving crop used occasionally to maintain fertility of the soil.

All land suitable for crops in the Donley County Soil Conservation District would fall somewhere between the two extremes shown above. Each farm is different, and each soil on the farm is different. The chief purpose of the Donley County Soil Conservation District is to get the landowners and operators in the dis-

trict to realize the problems and needs of their particular soils, and to treat those soils according to their needs. The District has adopted guides to use in determining needs of any soil. The Soil Conservation Service men who assist the District are available to interpret those guides to you on your farm. Why not check to see if your ideas of proper land use on your farm agree with those of your Soil Conservation District?

What does DEFERRED GRAZING mean to you? It is postponing grazing for a period long enough to improve the vigor of your grass or to let it mature a seed crop.

OBJECTIVES — Some of the objectives of deferred grazing are a heavy seed crop, increased foliage to improve litter and soil cover, store up food in the plant roots for next spring's regrowth, permit grass seedlings to become well rooted, provide reserve forage for winter grazing, and to improve the vigor of the grass plants.

TIME TO DEFER — For deferment to be effective, it must be done during the growing season. If improved vigor and increased growth is desired, deferment should begin in early spring. If a seed crop is needed, defer later in the summer. All grazing animals should be removed since one cow or horse might destroy almost all of the seed crop of your scarcer tall grasses such as Indiangrass, Sand Bluestem, or Switchgrass.

LENGTH OF DEFERMENT — Short grass need 3 to 4 months of deferment, mid-grasses 4 to 5 months, and tall grasses 5 to 6 months. Years of high rainfall and good growth are the most effective times to defer. Periodic deferment is good even on ranges in excellent condition.

DEFERRED GRAZING should be a part of any range management plan. Cost sharing for this practice is offered by the Donley County ASC office.

For help in planning a deferment program, contact the Soil Conservation Service office serving the Donley County Soil Conservation District.

Cholla is a particularly spiny species of cactus. It grows to a height of six or eight feet and has many stumpy branches which are easily detached, and on this account has a most vicious reputation for embedding itself in passers-by.

A cowhand's slang name for a bull is "surly."

GEORGE'S WIFE

By "Sarah"

The battle has begun out our way, and we wonder who will win this time, the elements or the farmer.

The wind and sand are the first to harass us all, inside our homes and out. The most important thin to a farmer is his top soil moving one way one day, another way the next. He never knows if it is his soil he fertilized or his neighbors.

The storm cellar is not dusted, or the lamp trimmed and filled either. We will about have to go down one of these nights and stand in the dark for hours. Makes one feel pretty important to be a farmer though, especially when we read reports like this . . .

Did you know one farmer provides food for himself and twenty-two others? Thus freeing twenty-two people to produce autos, refrigerators, TV sets, and other goods and services of modern American living. Less than eighty years ago, half the population were required on farms to feed themselves and the other half.

Or, did you know that total farm investment in 1959 (\$200 billion) was equivalent to more than two-thirds the value of all the stocks of all corporations represented on the New York Stock Exchange?

George says he is about ready to be released, to become one of the 22, and let someone else feed him for a change. To let them do the worrying about whether or not the planting will be done in time — if it will rain, or if it will ever stop raining, the insects, hail, and the price of cotton. Or if his cotton allotment will shrink into oblivion.

GABIE BETT'S BURTON LIBRARY NOTES

EDITH BARNES

Howard Spring's "All the Day Long" has been given to the library in memory of Mrs. Charles Bugbee.

One of the friends of the library gave us three good books.

We have several new inspirational books: "The Crown and the Cross," by Frank Slaughter, "The Life of Christ" and "Peace of Soul" by Bishop Sheen, "Meet Mrs. Yu" by Mary Culler White and "From Pagan To Christian" by Lin Yutang. There is a lot of fussing about trashy books now days yet there is very little reading being done from our religious book shelf.

Hank Searl's first book "The Big X" was selected by the "Reader's Digest" for one of their condensed books. His second "The Crowded Sky" is about flying also. He knows flying from A through Z since he was an offi-

cer in naval aviation for ten years after graduating from the U.S. Naval Academy, but it takes more than a knowledge of his subject for a writer to come up with an interesting as well as dramatic book. He does this in both of his books. He explains in the introduction that there is no "Amarillo Control Center." Yet his Amarillo where a lot of the action takes place is between Albuquerque and Tulsa. In fact "The Crowded Sky" is about two planes, the people in them and folks at "The Amarillo Control Center."

It is hoped that all of you parents of pre-school children are reading to them. Whether the experts know or not is beside the point, but they all say that this is where your child gets his love of reading. The following is quoted from Wes Izzard's column "From A to Izzard."

"That pre-school children who are read to regularly and lovingly by their parents do not grow up to be juvenile delinquents. —Reading to a very small child accomplishes two things. First, it opens new worlds of enchantment to him—worlds that are closed even to television. To a very small child, books are magic. If they are read to him they are still magic, he will carry on when he can read

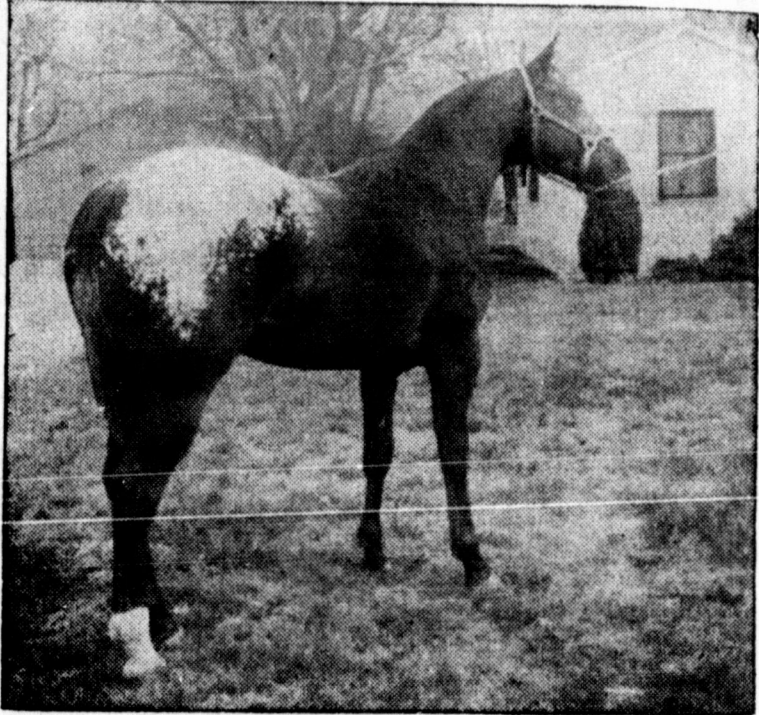

to himself. Second, it draws tight-er the bond between the child and parents. Reading to him is an act of love. It inspires trust and security. —Books are universal. So are very small children. Loving parents should bring them together."

Some 10 million Russians are learning English; an estimated 15,000 Americans study Russian. The government and educational institutions are working to help us catch up in the linguistic race, and now a company that publishes phonograph-record language courses for children has come out with a set on Russian.

You are the jury, judge for yourself; you can't drive wrong, long.

By Congressman Walter Rogers

FOREIGN AID

The Congress will soon come to grips with an issue that bids to be more controversial this year than at any other time. It is the bill which will be designed for the purpose of carrying out the request of President Eisenhower for new obligational authority for foreign aid in the amount of \$4,175 million. This is an increase of \$949 million over the amount

provided for Fiscal 1960. The President estimated the expenditures for Fiscal Year 1961 to be \$3,450 million, an increase of \$100 million over 1960.

As most of you know, the foreign aid program has travelled under numerous aliases. Most recently, it has been called the Mutual Security Program, and the International Cooperation Administration. There are many arms to the program, having names very similar to the major title. However, under any name it is an aid program financed by the taxpayers of this country for the purpose of making grants, gifts, and loans to foreign gov-

ernments. The controversial nature of such a program and the continuing criticism directed at the program through the years has caused many Members of Congress to take some long looks at what is going on. Hence, it would appear that this year the proponents of the foreign aid program will have a much tougher battle in obtaining the passage of a bill appropriating expenditures of an additional \$4,175 million of American taxpayers' money for foreign aid purposes. The long look which has been taken by some of the Congressmen has produced some startling facts, which have not yet been fully documented. All of this will be brought out in the debate on the subject matter.

The Chairman of the Foreign Operations Subcommittee on Appropriations is Congressman Otto E. Passman of Louisiana. He has certainly done an outstanding job in the past in cutting down the requests which come to Congress for these foreign aid appropriations. He has done a magnificent job in trying to dig out much of the fat in these programs and will not doubt produce a lot of good results this year. He has just furnished me with a schedule of mutual security funds, by program and amount,

available for expenditure during Fiscal Year 1960. That is, funds which are presently in the so-called foreign aid pipeline. Unexpended funds on June 30, 1959, amounted to \$4,837,708,750. New funds appropriated for Fiscal 1960 amounted to \$3,225,813,000. New funds from other sources available for Fiscal 1960 amounted to \$48 million. Therefore, the total amount available for Fiscal Year 1960, which ends on June 30, 1960, was \$8,111,521,750. Notwithstanding that this amount was available, foreign aid advocates have come back to Congress this year for \$4,175 million additional. Mr. Passman has very kindly furnished the Members of

Congress with a breakdown of the funds which were available for Fiscal Year 1960 and has pointed out the vast amount of work which must be done by the Subcommittee this year in view of the request for additional funds. He especially points out that the Subcommittee is being subjected to tremendous pressure and propaganda from many quarters, especially from the 43,000 employees and 10,000 trainees of the Mutual Security Program, who are scattered in 76 nations of the world. He also points out that much pressure is coming from the White House and its prestige, the State Department and its prestige, the Defense De-

partment and its power, and scores of large manufacturers who make big profits from the foreign aid program; also, many colleges and universities and literally hundreds of other organizations hoping to participate in this \$12 billion-plus pork barrel. He reassures the Congress, however, that the Subcommittee will continue to resist the unwarranted propaganda and pressure for excessive amounts for foreign aid and will try to provide only funds based upon actual need and not on desire. Congressman Passman and

his Subcommittee are entitled to the plaudits of all American taxpayers for their tireless work in trying to protect the American tax money. They are doing a good job.

The Comptroller General of the United States has been quoted as stating that the weakness of the program is too much money, not too little.

In any event, you can look for some political fireworks when this bill comes up this year.

A Pledge of Service from Phillips 66 Dealers

• We pledge to serve you with products of the finest quality. In gasoline, motor oil, tires, batteries and accessories for your car, you can rely on the name Phillips 66 for top performance.

• We pledge to you that we will always be friendly, courteous, and helpful, in keeping with our policy of "Hospitality on the Highway."

• We pledge to be conscientious in servicing under the hood of your car. We will check the oil level, radiator, water hose, battery and fan belt, and service these as needed.

• We pledge to be concerned with your comfort and safety. We will carefully clean your car's windshield. If you wish, we will gladly clean the windows all around . . . brush out inside your car . . . and check the air pressure and condition of your tires.

• We pledge to maintain clean stations and clean rest rooms, so that wherever you see the Phillips 66 Shield, you can drive in with confidence.

IT'S A PLEASURE TO PLEASE YOU!
