VOTERS RE-ELECT MAYOR

H. T. Burton was re-elected Mayor of the City of Clarendon in a big turnout of voters Tuesday at City Hall.

H. T. Burton Re-elected Mayor In Heated Election Tuesday

Clarendon voters went to the polls Tuesday and re-elected H. T. Burton as Mayor of our fair City. It was one of the largest turn-out of voters in recent years for a mayor election, if not the largest.

A total of 406 ballots were marked which was one ballot more than was cast in the City Commission election last year. Mayor Burton received 217 votes to Major Hudson's 189. When a large number of votes are cast in an election like this, all candidates and voters alike can feel that the election was a great success with the majority of voters expressing their opinion by way of the ballot. This type of vote also gives the winning candidate more incentive to do an even better job of serving the people.

Owners of buildings and businesses in the area have expressed their gratitude for the fine job the firemen performed which prevented the blaze from spreading and causing a real catastrophe.

PEACE CORPS VOLUNTEER QUESTIONERS AVAILABLE

Peace Corps headquarters has mailed Volunteer Questionnaires to the presidents of 2,000 colleges and universities for campus distribution. The questionnaires may be obtained at Clarendon Jr. College in the office of Dean Abel.

Students who have written to the Peace Corps or to the President to Volunteer will automatically receive questionnaires direct from Washington.

Questionnaires can also be obtained by writing to Congressmen or Senators or to the PEACE CORPS, Washington 25, D. C.

They are also available at local Post Offices and will be distributed by the United States Department of Agriculture Directors of State Agricultural Extension Services for relay to their county agents.

The questionnaire was prepared by the Peace Corps staff with the advice of recruiting and questionnaire specialists from government, business, labor, private educational exchange agencies and universities. Students at Howard University (Washington, D.C.) and Wakefield High asked to fill it out as a test of its effectiveness before final form was approved.

The questionnaire asks the potential Volunteer for the following information: education, job experience, proficiency in languages, technical skills, availability for Peace Corps service, special foreign area knowledge, health, military service, vocations, hobbies and athletic participation, organizational activity and leadership, and geographical preference for assignment.

A statement by Herbert Hoover tells of one way to overcome his critics. He simply explains that he has outlived them.

Washing River, Oklahoma

Just a-sittin' there a fishin' On some grassy river bank—Hardly tryin', scarcely wishin' Here our worries all go blank.

It's mighty nice to have a wife. It is especially wonderful when that wife has an uncle with a farm stretched along the Washita River. When that river bank lies beside some good fishin' holes, then the situation really becomes wonderful.

Add to this the warm hospitality of two friendly people. Begin each day with a round of sorghum syrup, hot biscuits, country bacon, honey, and fresh eggs. Then out fishing. Break the mid-day spell with a farm fattened red rooster stuffed with dressing—before being butchered this chicken had been stuffed with yellow corn from the black soil of the river bottom for weeks. Finish up the daylight with more fishing. Wind up the activities with left-over rooster and dressing reinforced with poke-salid greens from the river bank and the added attraction of fried squirrel.

After this, who would care whether the throw-lines in the river were seen about or not.

This all adds up to real living—even though we neither care for poke-salid greens or know for sure how to spell it. One dictionary says "poke-week," and who are we to argue.

Before the game warden gets after us both the squirrel and the rooster were killed in season by a licensed hunter, and saved special for us. We even paid our fishing license.

Money causes most everyone a lot of worry. Many of us worry about how to get it. Others worry about spending it. Some spend it wisely, and all too often we spend it foolishly for things that are hurtful.

The Good Book teaches us that the love of money is the root of all evil. Experience will soon teach us that it will also cause us trouble if we throw it away foolishly as though we had no concern. If our love for money is out of proper proportion we will sin in order to get hold of it. By the same token we will sin in order to keep it.

We were set to thinking on this subject by something we read in Nancy Morchel's Column as to what money will and will not buy for us.

A bed but not a good night's sleep . . . It will buy books but not brains . . . It will buy food but not an appetite. It will buy finery but not beauty . . . It will buy a house, but it cannot buy a home. It will buy medicine, but not health. It will buy amusement, but not happiness. Money will buy preaching, but not the truth. It will buy a church building, but not salvation.

Money is so important to our daily lives that every young couple should give much thought to it before embarking on the sea of matrimony. It should be taught well in our schools. We should impress our children with the importance of both making, saving, and spending money.

Money may be easy to get, easy to get rid of, but it is not easy to get along without.

Did you know Gasoline is Taxed at a Rate 5 Times as High as Diamonds?

IN TEXAS, YOU PAY 90¢ TAX ON 10 GALLONS OF GASOLINE

Gasoline taxes will be lowered— if the latest temporary Federal gasoline tax increase expires on June 30th as scheduled by the 1959 Federal Highway Act.

Along with all good citizens, we are in favor of building the roads that the motoring public needs. But, in the last 10 years alone, Federal and State taxes nationwide on gasoline have skyrocketed 51%—skyrocketed to a point where gasoline, a basic commodity, is actually taxed at a rate five times as high as luxuries like diamonds and mink coats.

Must gasoline taxes be so high? Most people believe that gasoline taxes are high because the money is needed to pay for our national highway program. This is not so.

The fact is that out of every highway-user tax dollar collected last year by the Federal government, more than 40 cents was diverted to non-highway purposes.

If these highway-user tax revenues were spent for highways—as they should be—gasoline taxes could be lowered, and the highway program given a boost.

In fact, the Federal-Aid Highway Act of 1959 provides that when the added temporary Federal gasoline tax expires on June 30th, 1961, as scheduled, some \$802 million a year in highway-user taxes—now diverted to the U. S. Treasury's general fund—will instead be deposited in the Highway Trust Fund.

As a result, if the latest Federal temporary gasoline tax

increase expires on June 30th as scheduled—the national highway program will actually get \$225 million more each year than it now receives from the latest Federal temporary gasoline tax increase.

In January of this year, after an exhaustive 2-year survey of national transportation policy, a special U. S. Senate study group confirmed the wisdom of this decision.

This will be good news for you. You will be able to enjoy a steadily improving highway system, at a lower gasoline tax-rate.

HERE ARE THE FACTS ABOUT TODAY'S HIGH GASOLINE TAXES

- In Texas, you pay 90¢ tax on 10 gallons of gasoline.
- You pay 9¢ tax a gallon—4¢ in Federal taxes plus 5¢ in State taxes.
- Gasoline is taxed at a rate 5 times as high as diamonds.
- The average Texas motor vehicle owner pays \$78 a year in gasoline taxes.
- Since 1951 there have been three increases in the Federal gasoline tax alone.
- In the last 10 years, gasoline taxes nationwide have skyrocketed 51%—yet the national average price of gasoline itself has risen only 5.5% during the same period.

GEORGE'S WIFE

By "Sarah"

In this space on Oct. 20, 1960, and many other times, we have lamented the poor public relations between the farmer and all other segments of our society. What we wanted to see was a betterment of relations between peoples at the bottom, working it's way to the top. Not in our wildest dreams could we

imagine this to happen in reverse.

Here in bold headlines, straight from Washington it says: "Farmers Praised by Administration." There is much balm for the farmer in this article by Ovid A. Martin, in last Sunday's Sunday's News-Globe. It also is a fulfillment of later predictions from the booklet, Public Relations or Peasantry, written by Ed Lipscomb of the National Cotton Council of America. He said "There would come sudden, jolting, even punitive measures and actions! Could our quickie, compromise feed grain bill be one of these?"

Far from being elated over this top public relations job now in action, we are suspicious. A common reaction in these times of distrust and deceit. Why, when always, agriculture has been blamed for inflation, high taxes, federal deficits, unbalanced family budgets and socialistic skulduggery in government, piling up profits at public expense, forcing fancy prices in the midst of plenty, of jeopardizing friendly relations with foreign countries through dumping and general political panhandling, should we suddenly be praised as American's biggest success story? In the fact of all the accusa-

tion heaped upon him, the farmer is 'Standing Mute'. This one-sided attitude itself ties back to the farmer's old habit of not talking. Far from being a virtuous in most cases, public opinion would have it, that if the man doesn't have anything to say in his own behalf, he must be guilty.

A case in point: last week we were approached with the idea that if farming was such a terrible burden it's cracked up to be, how, unless we were taking all the gravy handed out, were we able to extend our business. A typical farmer's reply: "you orta try it."

LIBRARY NOTES

EDITH BARNES

Two more memorial funds have been given to the library to be dedicated to the memory of William J. Lewis Jr.

Edward Gibben said that "every man who rises above the common level has received two educations: the first from his teachers; the second . . . from himself." In "The Inquiring Mind," C. O. Houle analyzes for the first time, and in depth, the nature and activities of the continuing

learner — the adult who would "rise above the common level." He is the person who reads. He is the person who reads.

No one will deny that history is a mighty important subject. Since this is an obvious truth why do so many authors of our history textbooks work to make them dull and boring? If more writers like Thomsa J. Fleming would write our history textbooks students would probably be standing in line to sign up for classes.

In "Now We Are Enemies" author Fleming takes the battle of Bunker Hill (actually of Breeds Hill) and gives you an interesting book from beginning to end. He did an awful lot of research as his bibliography is an impressive 10 pages, yet the book reads like fiction.

A short quote: "Now We Are Enemies" passionately brings alive the personal stories of men on both sides who fought on those steep slopes in the blazing heat of June and dispels the myths and distortions which have long clouded the battle."

Herb Cain writes another book on San Francisco. He says that he has been hopelessly in love with this city for years. You will enjoy the book whether or not you have ever been there. If you have been lucky enough to have visited his fabulous "Baghdad by the Bay" it will bring back memories, and if you have yet to go there you will have a good idea of some of the things you will particularly want to see. Author Cain must weave some kind of magic around his readers as this is the fourth book he has written about San Francisco. The first three were all best sellers. That in itself is some kind of a record.

Don't forget NATIONAL LIBRARY WEEK, April 16th-22nd, and our slogan: "For a better read, better-informed America WAKE UP AND READ!"

Four memorial funds have been given to the library in memory of Mrs. Eugene Noland.

Will Writes

By

WILL EHRLÉ
STATE REPRESENTATIVE
DISTRICT 88

AUSTIN — This short pre-Easter week in the House proved to be a bitter round in the fight over taxation.

Tuesday the House pushed through H. B. 334 which was strongly opposed by many rural members. The bill carried, 83-61. We are all pledged to retire the state deficit, but this bill contained a measure that was totally objectionable.

It provided a two-factor formula for taxing of corporations located in Texas and engaged in commerce both within and without the state, by adding a "property" factor to the "receipts" factor.

Backers of the bill used the propaganda approach that this would take care of large corporations—that they are not being taxed sufficiently. But this bill would affect small industries much more adversely. The giant manufacturing interests successfully obtained an exemption for their plants and property.

The Other Side
What we pointed out was that this franchise tax would really discourage small industry from coming into Texas — and I firmly believe it will.

If Corporation X wanted to open a new business in our district, it would discover that by locating its investments etc. in Hollis, Okla. it would obtain a 40 per cent tax break over locating in our area under this bill if it passes the Senate.

The tax again hits at business property ownership and we don't have to be reminded just how high our ad valorem property taxes are in Texas.

I agree that we should tax receipts and profits made from interstate commerce, but we should not then tax a business if it wants to build in our area. Let's tax its profits, not its property investment.

We should get all the revenue possible from business engaged in interstate commerce, but we should NOT give a tax advantage to those corporations which do business in Texas but have their plants and payrolls located outside Texas. HB 334 gives this advantage to business outside Texas.

We still are faced with arriving at a tax to handle the deficit now and in the future. Those of us who opposed House Bill 334 felt that it was a poor excuse for solving our tax problem and no excuse for legislation when it comes to hurting industry expansion which is no necessary to the economic growth of Texas.

No Recommendation

In December of last year the State Finance Advisory Commission submitted a 54-page booklet to Governor Daniel and the Legislature. That fact-finding and research group did not find in its studies any recommendation for the two-factor formula which passed the House. The overall income to be provided by the bill is an estimated \$42,124,000 for the next two-year period, and of course, is insufficient to retire the deficit.

Southwest GROWTH
KEY TO INDUSTRIAL OPPORTUNITIES

IN THE CENTER OF THE SOUTHWEST

We send this free booklet to industry leaders as another step in our area development program

THE business of West Texas Utilities Company is growing because the area we serve is growing. But our plant expansion is growing faster than our business. That's because we work hard to stay ahead of the additional area growth we are convinced is coming. To stimulate even more growth, we are engaged in an extensive program designed to invite new industry our way. The campaign includes an advertising schedule in national publications, personal visits to industrial areas, development of statistical data, and area booklets such as the one shown above. This is one of the ways we work with and for our communities to assist in local development. We do so with enthusiasm and vigor because of our conviction that this area faces GROWTH UNLIMITED.

MORE PEOPLE ARE BUYING CHEVROLETS THAN ANY OTHER MAKE!

When one car outsells all the rest the way this new Chevrolet is doing — there's got to be a reason. And we can think of some pretty good ones. The clean-etched looks of the new Body by Fisher, for example. The eager brand of "git" that's under the hood. The easy way it handles. Plus the added advantage of extra-cost options like triple-turbine Turboglide.

But to sample all these reasons together, you have to get a Chevrolet out on the road. And there's where that Jet-smooth ride takes over with its own gentle kind of

persuasion. If you weren't absolutely sure, you'd imagine you were riding in a far costlier car.

No wonder people are buying more Chevrolets than any other make! Chevrolets have more of what it takes to please people!

*Official R. L. Polk & Co. registration figures show full-sized Chevrolets outsold the second-choice make by a record-breaking margin in 1960 — and Chevrolets continue to set the pace for the industry this year!

Benson-Martin Wedding Solemnized In Church Ceremony, April 1

The First Methodist Church, Clarendon, Texas was the scene of the wedding Saturday evening, April 1, of Miss Janice Yvonne Benson, daughter of Mr. and Mrs. Lloyd Benson of Clarendon, and Ronny Aubrey Martin of Santa Fe, New Mexico. Mr. and Mrs. Aubrey Martin of Brice, Texas are parents of the bridegroom.

The Rev. E. Lee Stanford officiated at the ceremony. Mrs. Bill Williams, organist, presented traditional wedding music and Paul Hancock was vocal soloist. Urns of white gladioli and white stock and candelabra holding white cathedral tapers decorated the altar area.

Given in marriage by her father, the bride wore a gown of white peau de soie appliqued with lace medallions encrusted with seed pearls. The rounded neckline was fashioned with a flat collar and the bouffant skirt extended into a chapel train. Her veil of French illusion was held by a crown of cut crystal and she carried a white Bible topped with a bouquet of yellow sweetheart roses, stephanotis and a white orchid.

Aubrey Martin was best man, and groomsmen were Jack Montgomery of Memphis and Don Reeves of Amarillo. Serving as ushers and candlelighters were Bernie Benson of College Station and Frank White III of Lubbock.

For her daughter's wedding Mrs. Benson chose a costume of Dior blue peau de soie with matching accessories and a corsage of white gardenias. Mrs. Martin, mother of the groom, wore a beige silk dress accented by complimenting accessories and a corsage of green Vanda orchids.

Following the ceremony, a reception was held in Patching Club House. The entertaining rooms were decorated with bouquets of white gladioli and stock. The bride's table was centered with a bouquet of yellow roses and white stock. Mrs. Bernie Benson dispensed punch while Mrs. Houston Bell served the cake. Also assisting were Mrs. C. L. Benson Jr., Miss Jacquie Bell, and Mrs. T. D. Hall of Wichita Falls. Miss Connie Martin presided at the register.

Mrs. Martin was graduated from Texas Technological College, Lubbock, where she was affiliated with Zeta Tau Alpha social sorority. Prior to her marriage she was hostess for Trans-

Mrs. Nelson Seago introduced James Childers, Speech teacher in the Clarendon Schools, who in turn presented a group of girls in a short drama. The drama was titled "Will O' The Wisp" and was written by Doris Holman. The play was presented in Interscholastic contests and won a second place. Taking parts were "The Wisp" played by Frances Wallace; "Capturer of Souls" a superstitious Scotch woman, Sarah Antrabus; Poet's wife, a rich beauty and buyer of love, Jane Lowe; and the Maid, a frightened Irish woman, Sherry Montgomery.

During the social hour refreshments were served from a table laid with a pink linen cloth and centered with a spring bouquet. Punch, sandwiches and olives were served. Mrs. J. R. Brandon presided at the crystal service.

Hostesses for the afternoon were Mesdames Loyd Johnson, E. S. Ballew, Carroll Hudson, J. R. Porter and W. C. Thornberry. About 25 attended.

AUSTIN, Tex. — Texas Senate demonstrated its faith in the future by passing an appropriation bill without having the money to meet the obligations.

It calls for spending \$2,496,685 during the next two years. It does not include teacher pay raises or medical care for the aged. Senators agreed that they needed to know how much new money could be raised before making decisions on these.

The measure calls for spending \$376,000,000 from the already-overdrawn general revenue fund. That's \$103,000,000 more than the comptrollers' estimate of general fund revenue for the next two years. This \$103,000,000, plus a deficit that is expected to be about \$63,000,000 at the end of this biennium, adds up to \$166,000,000 in new revenue that would be needed to put the Senate appropriation bill into effect, as it is now.

PANEL OKAYS TEACHER RAISE — Senate Education Committee approved the Hale-Aikin school improvement program which includes an across-the-board \$800 a year raise for public school teachers.

Sen. A. M. Aikin Jr. of Paris, sponsor, said he would not ask for floor passage of the school measure until the general appropriations bill has been passed as well as a tax bill that would provide money for it.

Hale-Aikin program would cost the state about \$72,000,000 a year and local districts about \$18,000,000 a year. It would set the minimum salary for beginning teachers with bachelor's degrees at \$4,014 a year.

HORSES LOSE RACE—Before a gallery packed with church people, Rep. V. E. (Red) Berry

gave up the fight for a proposed constitutional amendment to legalize horse racing.

House vote against the measure was 143-to-5. Berry, seeing he did not have enough votes for passage, signaled his supporters to vote against it. This, he said, would avoid "putting them on the spot" for a lost cause.

Berry still hopes to get a referendum on the 1962 general election ballot to indicate public opinion on racing and pari-mutuel betting.

MILK BILL "SKIMMED" — One of the most controversial bills of the session, the milk importation measure, was passed by the House by voice vote.

But before passage, opponents' amendments had skimmed off the cream of the bill the dairy-men wanted.

As passed by the Senate, the bill would bar out-of-state milk from Texas unless a Texas inspector certified he had personal knowledge the milk was produced under standards as high as those required in Texas.

Amendments took out the "personal knowledge" phrase and provided the milk could be imported on the certification of out-of-state health authorities after a Texas authority had found the out-of-state producer to be meeting acceptable standards.

Battle is not over since the differences between the House and Senate versions of the bill will have to be worked out.

TAXES DEBATED — House Revenue and Taxation Committee is exploring the possibility of raising money through a corporate income tax.

Testimony was heard on two bills. One by Rep. Tony Korieth of Sherman would repeal the present corporate franchise tax (for a loss of \$48,000,000 a year) and substitute a three per cent corporate income tax (for a gain of approximately \$96,000,000 a year).

Also heard was a bill by Rep. Maco Stewart of Galveston which would levy a 10 per cent corporate income tax, repeal the oil well servicing tax and reduce the sulphur tax.

A bill to provide for a \$1 charge for taking a state driver's license examination was passed by committee and sent to the House. It would raise an estimated \$1,250,000 a year.

Meanwhile, Speaker James Turman, addressing a teachers' group, said he felt Texas was close to resorting to the "last resort" — sales or income taxes.

CAMPAIGN LIMIT PASSED — Senate passed 26-to-4 a bill that would limit to \$25,000 the spending of any one candidate in a race for the U. S. Senate.

Sen. Martin Dies Jr. of Lufkin is sponsor of the bill. Limit would apply to money spent for newspaper, radio or television advertising with the candidate's knowledge. All other means of advertising would be exempted.

Attorney general would be responsible for enforcement.

If the bill should be finally passed and take effect before the present special senatorial race is over, it could put a lid on spending of candidates in the run-off campaign next month.

Visitors in the J. C. Estlack home Easter Sunday were David Patterson and Marcy, Mr. and Mrs. Homer Estlack and Donna, Jerry Allen, George Wayne Estlack, Mrs. Barbara Edens and boys, Mrs. Kenneth Sams and children of Ropesville, and Edith Longan.

Mr. and Mrs. Bobby Holland of Plainview announce the arrival of a daughter April 2. The young miss weighed 5 lbs. 14 oz. and has been named Barbara La-Jean. Clarendon grandparents are Mr. and Mrs. C. W. Martin.

Visitors in the home of Mr. and Mrs. Olin Castleberry Sunday were Georgia Durham and daughter of McLean, Mr. and Mrs. W. M. Windom and children, Dorothy and Kenneth Brenson of Hedley.

Mrs. Nath Helton and Mike of Groom, Mrs. Roy Stewart and boys of White Deer, and Mr. and Mrs. Neeley Hudson of Amarillo were week end visitors with Mrs. H. M. Stewart and Mrs. Dick Eichelberger.

Mrs. Bess Daughtry of Fort Worth visited friends and relatives here last week.

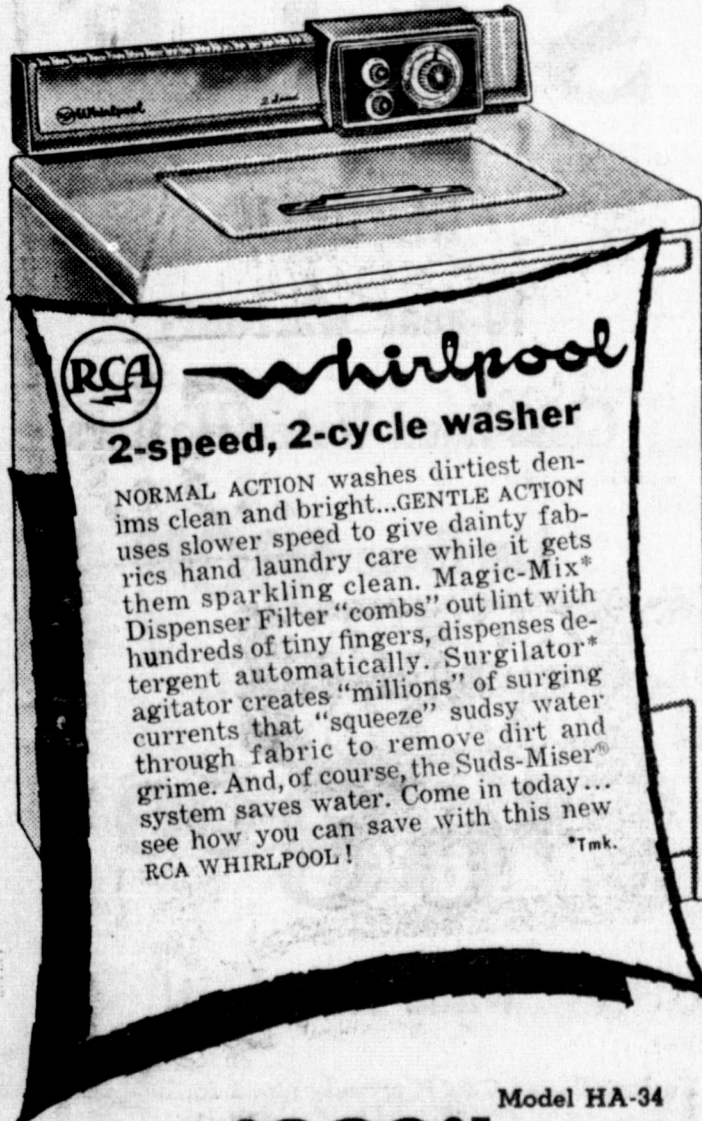

Mr. and Mrs. Jack Mitchell of Wichita Falls and Kim Holland of Plainview visited in the home of Mr. and Mrs. C. W. Martin Monday afternoon.

Andy Sez:
By State Sen. Andy Rogers

Dear Friend: Never in the history of our State has there been as much public interest and participation in affairs of our government. This is wonderful and necessary if the "American Way of Life" is to endure. As part of the result, our office is flooded with mail. As we in the State Legislature have neither the franking privilege or large staff, I hope you will pardon this form letter answering your correspondence relating to taxes.

Our Texas Constitution forbids deficit spending by your Legislature unless approved by a 4/5 vote of both Senate and House. I do not favor deficit spending, and recently even supported a bill which, when approved by the Legislatures of 3/4 of our States, will require the Federal government to be put on a "pay-as-you-go" basis. However, Texas state government is faced with a huge deficit and an even larger one is threatened. This is due to the fact that tax income from some sources has been falling or failing to grow as fast as before, and our other taxes have not increased fast enough to keep pace with our growth.

My own basic position on the current situation was expressed widely and repeatedly during my last race for State Senator in 1958. At that time all my campaign literature carried such statements as "Andy Rogers opposes a State Income or Sales

Tax - "There is no need for, and I am opposed to, a SALES OR INCOME TAX for Texas." "ANDY'S solution: More economy in Austin, and an HONEST gas and gasoline tax."

This position was based on the fact that Texas is a tremendously rich State and has not anywhere near tapped all of its tax resources. It was, and is, my position that many are not carrying their fair share in supporting their state and some are already over-burdened. Before we adopt either a general sales or income tax, these loop holes should be closed - some of them are large. Two examples: (1) Natural Gas - this is shipped nearly tax free from our state. Every major gas producing state levies a much higher tax than Texas. Our gas is transported 1000 to 2,000 miles away, and still sold as cheap or cheaper than we who produce it pay. Some states and cities tax our gas as much as 8 times as much as our own State. (2) On many of our products, such as gasoline, Texans tax themselves but sell the same to other states, even Communists, tax free. If we do not catch these tax evaders before a broad-based tax such as a general sales or income tax is passed, they will likely continue their evasion for a long time.

No other American state has ever abused its own people to the benefit of other people and foreign woned corporations as has Texas.

Small oil companies and independent oil men and many thousands have been crippled or put out of business by the flood of foreign oil. This hurts our business and taxes. And who produces and imports this foreign oil? A handful of giant major companies and they are prospering more than ever at the expense of everyone else. Gasoline has not gone but their profits have jumped. Also, these same Eastern major oil companies are allowed to avoid their regular U.S. corporation taxes - taxes our American oil men pay. They call all the money they pay the Middle East and other dictators taxes and deduct it all from what they would normally pay here at home. Depletion was established to aid our domestic industry. These Eastern majors even get that on foreign oil.

As you no doubt know, all tax bills must originate in the House of Representatives. Deliberately, nearly every type tax known to man has been introduced for two reasons: (1) To try and find something a majority could agree on to solve our financial crisis; (2) To stimulate the interest and opinion of the public in helping determine this new tax program.

As a matter of principle I feel bound to honor my campaign pledges of 1958. An even deeper obligation, of course, is to abide by the majority will of the people of our 30th Senatorial District as best I can determine same and to the best of my ability. Naturally, if I could determine that most of our people wanted me to do differently I would certainly try to do so. We must meet our State's financial obligations and retire our deficit. Also, certain areas of state service must be brought up to date. Primary among these is a modern, first-rate public education system. Education has become our first line of defense. Our very survival as a nation hinges on what we do in this field. On the other hand, I will continue my efforts to effect greater economy in all of our state services and eliminate those unnecessary ones.

Three other points I would like to make: 1. A recent survey made by a private business organization shows that Texans receive more for their state tax dollar than the citizens of any other state. 2. According to various surveys, we rank fourth, fifth or sixth in having the lowest per capita tax burden of any of our states. No large, growing, prosperous state even approaches our economy or low per capita ratio of taxes. Only Nevada, with lots of tourists and very few people, or states with few people and rapidly losing these - can show a lower per capita burden.

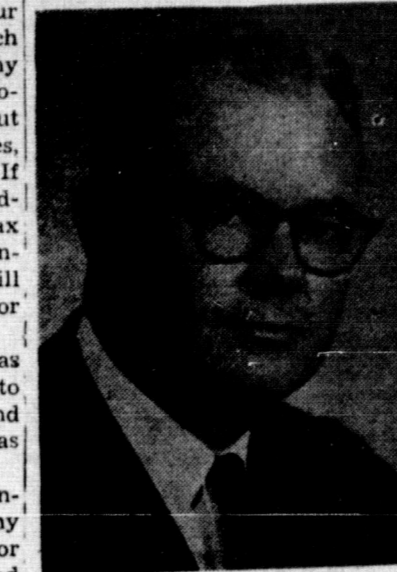

I am proud of our record of conservative spending and taxing AND this bears heavily on this final point:

3. A broad base tax - sales or income - will raise an awful lot of money. Like you and I, if our government doesn't have it, it won't spend it. Therefore, I prefer to go slow on raising any

SOIL CONSERVATION DISTRICT NEWS

Grass seeding is in full swing in the Donley County Soil Conservation District now. Approximately 2500 acres have been planted, and about 1,000 more acres will be planted. Some of the cooperators who have planted grass or will plant this year are J. M. Tate, C. T. Molder, J. N. Weaver, D. R. Lindley, C. E. Bairfield, W. H. Cooke III, Forrest Sawyer, Clarence Reynolds, and many others.

One of the aims of the SCDD this year is to get some of the Soil Bank land that is in a deteriorated stand on Johnson Grass and Sorghum Altum planted to a good native grass, such as switchgrass, Indiangrass, or sideots grama. In the long run, this will be a money-saving practice, although the initial cost may seem high. After perennial grasses are established in a field, there will be no more weed problem, thereby saving the cost of mowing. Also, it won't be necessary to replant the grass, as it will not die out. This will result in a saving. Plowing is not necessary to keep the grass growing well as it is in the case of Johnson Grass. This will result in money saved.

Grass drills are available through the Donley County Soil Conservation District. Ed Dishman, Red Doherty, Horace Green, Hedley FFA, and the Donley County 4-H Club each have charge of the drills. Contact the Soil Conservation Service office in Clarendon for help in deciding on what grass to plant. They will also help you to figure the amount of seed you need, and

Clarendon High School Students Attend Pan-American Forum

Eight second-year Spanish students of Clarendon High School attended the 18th Annual State Convention of the Pan-American Student Forum of Texas on Mar. 24-25. They left Clarendon at 5:00 o'clock on the morning of the 23rd in order to make a 2:30 p.m. appointment at the executive mansion that afternoon. Following a tour of the Mansion, they spent a couple of hours in the Capitol building.

An official report on the number of Texas and Mexico students attending the Convention has not yet been received, but the group appeared to be the largest in the history of PASF in Texas. The meeting was held in the Municipal Auditorium. The Workshop speakers were Dr. George I. Sanchez, University of Texas, who spoke on "Educational and Political Aspects of Chile,"

and Mr. Jack Cox, Breckenridge, whose subject was "Socio-Economic Aspects of Chile." Both speakers were dynamic and inspirational. Both have lived and worked extensively in Chile.

Other events of the Convention were workshop summaries, political rally, voting, banquet, fiesta, baile Pan-Americano (dance), business session, etc. The workshop summaries were interspersed with dances of Spanish-speaking countries presented by students of Texas Southmost College, Brownsville. Costuming and dances were authentic.

The Clarendon students spent Saturday afternoon, March 25, sightseeing in San Antonio. They visited the Alamo, la Villita, San Fernando Cathedral, the old Spanish Governor's Palace, Chinese Sunken Gardens and Arneson River Theater. They had the evening meal at Casa Rio, a Mexican cafe on the banks of the San Antonio River. The river, incidentally, was beautiful as usual but seemed to be even

more so at the time we were there. Finally on Saturday night time was found to give the feet a breathing spell and enjoy a movie at the beautiful Axtex Theater.

Those making the trip were Clayton Ferris, Janie Ivey, Brenda McAnear, Dwight McAnear, Larry Neece, Larry Don Phillips, Peggy Webb, Sharon Williams, and the sponsor.

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

Federal Aid

It seems that we are living in the age of "aid." The dictionary in my office defines this much-used word as follows: "To help; to further. That which promotes or helps in something done; an extraordinary subsidy." I suppose there must have been eras of seeking "local aid," which were, no doubt, followed by eras in which people were seeking "state aid." But for the last several decades the trend seems to be away from the local and state levels and advanced to the Federal level. It seems that all segments of the economy are pointing their efforts toward Washington for aid of some kind. And I would point out that there are no exceptions when all of the facts are brought out in the open. It is not only the poor and the low income groups that are seeking aid from the Capital City. The fact is that many very wealthy individuals and giant corporations who daily preach free enterprise and contribute generously to publications and programs bitterly denouncing government help and aids, maintain high-paid lobbyists in the Nation's Capital for the sole purpose of obtaining fat contracts that are to be paid for out of taxes wrung from the individual American. During the recent debates on the area redevelopment bills, letters and telegrams were received by members of Congress from Chambers of Commerce and municipal corporations all over this country, many of whom have soundly denounced excessive federal spending and socialistic trends in the Federal government. It is difficult to understand how a socialistic program becomes less socialistic simply because one is allowed to participate in it. Let us take a look at some of the measures with which Congress has been faced in the past several years and will be again faced with this year.

Federal Aid to Education. This proposal is not new. It has been vigorously pushed for a number of years. The only reason that it has not been adopted on a wide front during the past 10 years is because of an amendment which provided that Federal funds should be denied to any school practicing segregation. Yet each year, the difference between the yeas and nays narrows. It seems to be generally assumed that there was nothing wrong with federal aid as a general proposition. This, of course, was starting from an assumed premise that was false. Under our Constitution, it was undoubtedly intended that education would be the responsibility of the states under the dual sovereignty form of government—dual sovereignty meaning that the federal government would be a national sovereignty composed of the several states as separate sovereignties joined together in one united sovereignty. As time moved on, attempts have been continuous to reduce the powers of the state sovereignty and weld them into the Federal sovereignty. The field of education is no exception. Since we are all deeply interested in the welfare and education of our children and in seeing that they obtain the best possible education, this furnishes a fertile field for the advocates of centralized government. Federal aid in the form of money, whether it be loans or direct grants, if practiced on a wide scale general program, must eventually result in control of the educational processes of this nation. Once the federal government assumes the responsibility of providing the funds (probably supplemental in the first instance), it cannot escape the responsibility of controlling the expenditures of those funds and, hence, dictating the educational procedures. It is the yielding in the first instance which creates the foothold that eventually ripens into full conquest. The transition could come very quickly in this country though it is a government of law rather than man. It must be remembered that the laws are made by man. Once the federal door is opened in the field of education, it would require only one session

of a Congress manned by a simple majority of centralized government advocates and a friendly President to complete the conquest.

The same rule could be applied in almost any other area of our general economy. A good example is the recent situation brought into focus by the debate on the minimum wage bill. The real purpose behind the minimum wage bill was not the amount of wages that a person received, but the attempt by the centralized government advocates to expand the coverage of Federal law; that is, to provide that Federal law would supersede state law insofar as certain employees were concerned. There were three bills before the House. Insofar as the principle involved is concerned, there was no difference in any of the bills. The principle sought was for the federal government to invade state jurisdiction. None of the bills took in all employees, but the passage of any one of the bills means that the difference between interstate commerce and intrastate commerce as far as the Fair Labor Standards Act is concerned has been broken. Hence, it is only a matter of time until amendments would be made to cover all employees of the United States under the Federal law. This may seem very good to many people, but it must be remembered that once this course is followed in regard to one segment of the economy, that same rule would be applicable to all other segments of the economy. Carrying it out to its logical conclusion, the end result would be the complete abolition of the effectiveness of state governments and the vesting of omnipotent power in the central government of the United States. Once this is done, complete control of our entire operations, both governmental and private, could be secured by the election of 219 members of the House of Repre-

sentatives and 51 members of the United States Senate by a power-seeking individual or small group of individuals. There are many, many things that can be and probably will be furnished by the federal government that may be looked upon by the recipient as most beneficial. But I would admonish each and every one before counting such blessings, if blessings they are, to consider well the price that is being paid. Many of you will find it much too high. I do.
