## Local Property Taxes Due Now

Approximately 69% of the current year's local taxes were paid by the end of December. Taxes not paid on or before January 31 will incur penalty and interest of 7% if paid in February. The amount increases each month thereafter until the tax is paid. This notice is a reminder to those who have not paid their 1994 taxes. In an effort to cut office costs, second notices will not be mailed to individual taxpayers during January. Delinquent notices will be mailed in February to those who still owe 1994 taxes at that time. Accounts not paid by July 1 will incur and additional 15% collection penalty.

## Begin 1995 With A Doggie Diet

Just like human, many dogs are out of shape and carry those few unwanted extra pounds. But dogs can't go out and join a gym or start a diet—they need their owner's help. That's why, the American Kennel Club (AKC) wants dog owners to make a pledge to get their dog fit and trim in 1995.

To give owners a head start, the AKC is offering a free brochure, "Keeping Your Dog Fit and Trim." These easy-to-read guidelines review general nutrition, dietary concerns and exercise routine. Some of the tips included are:

Table scraps are unhealthy for your dog.

Dogs only need one or two meals per day.

Letting your dog out in the back yard does not qualify as exercise plan.

Include an aerobic activity in your dog's exercise plan.

By hosting an international high school student. Sharing your life with an intercultural son or daughter is actually an exchange of precious insight to the diversity of cultures that makes up the world we live in. YES students are 15-18 years old, they have excellent accident/medical insurance, and provide their own money for personal expenses. All it takes to be a host family is to be able to provide a caring and loving home, room and board, and share choice moments with the student. In exchange, the student has chores and responsibilities as a regular member of the family. Just imagine, by hosting a cultural exchange student, you are

## WTU and City to Survey Local Attitudes on Quality of Life

West Texas Utilities and the City of Clarendon are doing a survey of community attitudes. Every resident is encouraged to fill out the form and turn it in to WTU, the City, B&R Thriftway, or Dairy Queen. Elderly residents who are homebound may call WTU or the City and a form will be delivered to them.

The survey asks about Clarendon's quality of life, economic conditions and residents' attitudes.

The front side of the survey can be answered anonymously. The back side has a place for individuals to volunteer for community service if they choose to do so.

WTU and the City hope to use the survey to improve conditions in Clarendon.

## Gifted and Talented Program Taking Nominations

The Gifted and Talented Program of Clarendon ISD will begin taking nominations soon. The program has recently gone through an evaluation and has been restructured in order to accommodate those exhibiting types of giftedness that were previously not identified. Nominations are accepted from parents, community members, teachers, individual students themselves and their peers.

If you are interested in nominating a students in grades K-12 for the program, you will need to go by the principal's office to complete the forms.

Students are selected for the gifted program based on the scores in five (5) areas. These are 1) parent checklist, 2) teacher checklist, 3) student portfolio, 4) ability testing (this includes tests from language arts, reading, math, critical thinking and science) and 5) creativity test.

The student must score at the district line on five (5) of the eight (8) tests in these areas to qualify. Students who test this year for the program and do not qualify must wait two years before re-evaluation.

Nominations will be accepted from January 19 to February 10, 1995.

Under the new program, students cannot simply take a zero for their homework. A student that does not turn in his or her homework will have to go to a tutorial after school and complete the missed work. Parents will be notified by their student.

Students who do not attend the tutorials will be placed on In-school Suspension.

The new program is to prevent students from getting behind.

In the past, students who took zeros instead of doing their homework often gradually fell farther and farther behind until there was no hope of their ever catching up. By not doing their homework, students fail to learn each lesson

### B.S.\*

\*Bob's Scribbles

Hobart, Oklahoma, is an impressively attractive little town. The little farming community has neatly painted houses. The lawns are covered with grass all the way to the curb. Many of the residences have attractive shrubs and flowers. There's no trash scattered around in the gutters or seedy vacant lots.

Most of us have seen clean, tidy towns. With a little reflection, we can remember places that impressed us with their pride and maintenance.

January is not an attractive month in our region. In the Southwest's winter everything seems to be gray or tan, except for the bottles and windblown paper which stand out and scream "trash". Yet January is a good time look at our real property and our community and start planning ahead.

Many hundreds of people drive through Clarendon each day. What do they see? Perhaps each of us should cruise Highway 287 and try to look at the community as though we were passing through on a trip from Dallas to Colorado.

Many January days are pleasant times to start picking up the beer cans and clearing off the dead weeds.

But January is an especially good time to plan. "Wouldn't an evergreen look good over in that corner?" "If we put a flower bed across here next Spring, it would brighten up the entire neighborhood!"

If we concentrate on shrubs and perennials in 1995 and 1996, the dividends will come back to us for several years. Liatris and Coneflower (*Echinacea*) are natives that will come back year after year. So is Yarrow (*Achillea*), a drought and heat resistant plant that comes in many colors.

Granny's hollyhocks were beautiful. They still are, and there are new, improved varieties introduced almost every year. Even plain old mint offers a pretty touch of green. And don't forget ornamental grasses like Elijah Blue Pescue and Red Baron Japanese Blood Grass. Iris are so easy to grow that they thrive at abandoned farmsteads in Donley County, often still spreading twenty or thirty years after the last human moved out. Daylilies are nearly as tough and even more spectacular.

Then there are the natives. Indian Blanket (*Gallardia*) is beautiful. Jack Moreman [L&M Seeds] has seed for Bluebonnets that really thrive here. *Oenothera* "Evening Primrose" grows along side the highways, but is so beautiful that virtually every seed rack and catalog stocks it.

There are even places where our old native bear grass (*Yucca* sp.) is attractive. Sand sage (*Artemisia* sp.) can be, too, especially when planted with native evergreens like our two or three species of junipers ("cedars").

All this is not that complicated. Randy and Bret White can answer many gardening questions. And they welcome your early orders for plants. County agents traditionally are good resources for information. And don't hesitate to talk to a neighbor whose yard or garden you admire.

Proceeds from cookie sales stay in the Panhandle and are used to help fund troop activities, council programs, camps, training and materials. They also enable girls to earn "Cookie Currency," which can be used to pay for uniforms, camp fees, programs, etc.

The Girl Scout Cookie Sale also helps girls develop sale skills, self-confidence, goal-setting and teamwork.

Cookies, which are \$2.50 a box, will be delivered February 21-March 10. For more information, call Kathy Benavidez, cookie chairman, at 874-3104.

### Council--from p. 1.

In addition, the Texas Association of Student Councils has asked our students to lead in a discussion group. Clarendon High School will lead three discussion groups during the April 27-30 State Convention in Austin. These discussions will center around what it takes for small schools to make Sweepstakes. There will be from 45 to 55 people attending the discussion groups. This is an honor that our students have readily accepted.

Some readers may not be aware that CHS has been serving as the District President School for District I which reaches from the top of the Panhandle to Plainview. The entire CHS student body, faculty, staff, and administration would like to congratulate our student council and their sponsor, Maurine Butts, on a job really well done. The school is proud of each of you and wishes you good luck in Austin.

## Health Tips

by Arnold D. Kolman, PA-C,  
Panhandle Medical Clinic

Acne, whether severe, moderate, or mild can have terrible psychological repercussions. There's nothing quite so awful as having an outbreak before an important interview or social engagement. Also, acne scarring can last a lifetime and is difficult to treat. So do something positive about treating your acne; begin by going to your health care provider.

If your acne is mild (papules or lumps that have not become pustules), with no inflammatory pimples or redness, then you may start treatment with a topical agent usually containing benzoyl peroxide (Oxy5 or Oxy10). If your acne is accompanied by blackheads or whiteheads, your health care provider will probably choose a different ointment containing retinoic acid. When the acne is moderate with pustules, pimples, and redness, treatment might start with a benzoyl peroxide agent plus a topical antibiotic preparation. In severe acne with pustules, pimples, cysts and constant inflammation, a course of therapy with oral isotretinoin (Accutane) is often indicated, providing there is no possibility of pregnancy during the period of treatment. Of course there are many variations in acne therapy, each individualized to the patient's unique circumstances and needs.

Some general rules of thumb apply to all acne therapy. Early treatment is essential to stop the formation of additional pimple. Acne is a disease of the sebaceous (oil) glands which become clogged. So washing the skin carefully but gently at least twice a day with a mild soap and water is important. But acne is not caused by dirt, so special abrasive cleaners are not necessary and only seem to irritate the problem. More complicated factors, such as bacteria, hormones and heredity contribute to acne. When applying prescribed medication, the entire area should be covered, not merely the pimple. Remember medication is best absorbed on slightly moistened skin. There is no evidence that food can cause acne, but some people feel that certain foods make the condition worse. So if you are aware of such foods, it is prudent to eliminate them from the diet. If you wear make-up, choose a water-base type that is easy to remove with soap and water and won't clog your pores. And be sure not to stop any prescribed medication without your health care provider's permission.

Eating is my favorite sport. Reading cookbooks is a hobby. I like to read cookbooks—not cook necessarily!

For the next few weeks (maybe forever), the paper will feature recipes that have stories to go with them. This week's feature came from my daughter's first

babysitter, Norma Price. She is a great lady, laughs a lot and is a great cook. My kids would walk in her front door and immediately become hungry!

**Chicken Spaghetti**

Cook and de-bone a chicken. Cook 20oz. of spaghetti in the reserved broth adding water if needed. Drain and discard the liquid.

Saute: 8 stalks celery and one chopped onion.

Mix all of the above together with 1 cup drained green salad olives with pimentos, 1 cup drained small pitted ripe olives, 1 can con-

densed cream of mushroom or cream of chicken soup and 1 small can of mushrooms (drained).

Sprinkle with 8 oz. grated Mozzarella cheese and bake at 325 degrees for 20-30 minutes.
