School Buses: Flashers For Safety

The Clarendon Consolidated Independent School District would like to remind parents, and community members about the safety of loading and unloading students on school buses. Each morning school buses load and unload many of our districts students, and each morning vehicles are driving around these buses as they are picking up and delivering students. House Bill 1084 addresses the issue of passing (overtaking or meeting) a school bus. Two punishments are called for in this bill... One, a driver is punished by a fine of not less than \$200.00 and not more than \$1,000.00; second, on conviction of second or subsequent offense the court may order that the persons driver's license be suspended for period of up to six months beginning on the date of conviction. To avoid being placed into either of these position, please watch for school buses on routes and in front of the school. When yellow flashers are on, slow down and prepare to stop. When the red flashers are on, please stop until all students are either loaded or unloaded and the bus has pulled away and resumed it route. Remember, never overtake or pass a bus when its flashers are on. No one wants to see any child badly hurt, or more.

SCS Office Reorganizes

The Department of Agriculture's Soil Conservation Service will soon take on a new identity as the Natural Resources Conservation Service as it streamlines its operations and takes on new program responsibilities. The new agency was authorized under the reorganization ordered October 20 by Agriculture Secretary Mike Espy.

The new Natural Resources Conservation Service will continue to have responsibility for all the programs of the former Soil Conservation Service. In addition several other programs have been transferred to it including the Wetland Reserve Program, the Waterback program, the Colorado River Basin Salinity Control Program, Farms for the Future Program, Forestry Incentive Program, and Great Plain Conservation Program.

"We are working to make this a smooth transition for our customers," said Paul Johnson, chief of the agency. "And we will continue to build on 60 years of a unique relationship between federal government and this nation's private landowners as well as our conservation district and state agency partners. It's a relationship built on voluntary programs, technical assistance, and conservation cost-share programs."

Johnson said farmers, ranchers, and other customers of the agency can continue to receive the same assistance they have from the Soil Conservation Service during the transition period.

"Throughout this process, we will keep our customers and our employees well informed," said Johnson. "And we will stay connected to their ideas and concerns"

ASC Elections Rescheduled

This year's election for positions on the Donley County Agricultural Stabilization and Conservation (ASC) Committee, which

were to be held in December, are being rescheduled to accommodate changes brought on with last month's enactment of the law to reorganize the U.S. Department of Agriculture (USDA).

According to Roy Lee Helms, chairperson of the Donley County ASC Committee, the change in the election schedule is nationwide and is authorized under regulations issued by USDA. Current members of ASC committee will continue in their posts until the new election is held next fall.

The law, which reorganized USDA, created a new Agency--the Farm Service Agency--which encompasses all of the commodity support and basic conservation programs of the former Agricultural Stabilization and Conservation Service (ASCS), all of the risk management program of the Federal Crop Insurance Corporation (FCIC), and the farm lending activities of the Farmer Home Administration (FmHA).

Helms said the new committee system, when fully implemented, will exercise increased responsibilities in its enlarged role. "Rescheduling the elections on a nationwide basis avoids confusion which could occur from hastily drawn rules and regulations," Helm said, "and will create efficiencies by using funds which would have been spent on this year's election process to be used in training committees in performing their added duties."

Drivers Safety Course Offered

A drivers safety course will be held at Clarendon College on Saturday, December 3, 1994. It will meet from 9:00 a.m. to 4:00 p.m. in Room 103 of the Administration Building. The fee is \$25.00. Please contact Clarendon College at 1-806-874-3571 for further information. Upon Completion of this course, participants will be eligible for a 10% discount on their liability insurance for three years and dismissal of a traffic violation. All dismissals of traffic violations must be approved by the appropriate Justice of Peace. This course is offered by Clarendon College and USA Training Company, Inc.

JAMZ Gets Rave Review

Clarendon's own eatery, JAMZ, got a rave review in *The Centerline*, a publication of the Texas Department of Transportation.

The Centerline's food editor, Sterling Brooks, raved about the food, giving it 4.75 cones. (His highest rating is five cones.) Brooks wrote, "I thought I had died and gone to Little Italy in New York, City. For those of you who haven't had pizza in NYC, boy-howdy, you haven't lived! But wait, don't get on the plane yet... I had one of the best pizzas in my entire life, in of all places, Clarendon, Texas."

He had kind words for "beautiful downtown Clarendon,"

JODI THOMAS

and continued by writing, "I really hope the good people of Clarendon plan to preserve this area!.. I have to boast about the wonderful downtown atmosphere." He was also impressed by West Texas Utilities' beautiful, historic enamel-and-neon sign.

But Brooks saved his nicest remarks for the food. He summarized the review with the statement, "I am very glad that I found JAMZ and can boast of the phenomenal fare."

TODD MCANEAR had the first bale of cotton ginned for the 1994-95 season. The cotton was bought by Consolidated Cotton Company of Memphis. The cotton weighed 475 pound, Todd received a check for \$1.00 per pound of Cotton. Pictured are Earl Shields, Todd McAnear and Kevin Huddleston.

Carol-Grams Planned

Call 2320 or leave a message at 3460 for a Card-Gram. They will sing Christmas Carols for the family or person of your choice. They will also deliver a fresh baked goody (ie, bread, cakes, pies, cookies, fudge, caramel corn, etc) and carol a few songs to shut-ins, elderly, friends, neighbors, or family. Donations for baked goods and carols will go to the Nazarene Youth. Please call soon for appointments on Saturday and Sunday evenings in December.

Featured Business of the Week

by Shelley Tongate

This weeks featured business is The Coyote Den Bookstore, located off Hwy. East 287. Owners and operators are Dave and Helen Randall, with Helen also the agent for TNM&O Bus Line. Dave and Helen have been married for 34 years, and have lived in Clarendon since 1987. They have two children, one son and one daughter. David E. Randall lives here in Clarendon, and Larac Homen lives in Amarillo. Helen has enjoyed collecting books, and has bought several from all over the country. Helen has always dreamed of owning her own bookstore, and she felt the need for one to be here in Clarendon since there really wasn't another bookstore in town. The Coyote Den Bookstore has now been open for four years in August.

They offer used books, collectible books, new books, a book search, Watkins products, book trade, and various curios. Plus, whenever there is trouble finding old books, there are people across the U.S. that help Helen find them.

Helen states, "I appreciate the people here in Clarendon and the surrounding area. I really enjoy finding a book for someone, whether it be new or old. I would love for everyone to come by and say hello. Don't forget that December 6, Jodi Thomas will be here for an afternoon autograph party. I look forward to helping anyone and everyone in any way that I can!"

Author To Hold Workshop

The Saint' Roost Writers, will be sponsoring a workshop by Best-selling Author, Jodi Thomas on Tuesday, December 6, 1994 from 9:00 a.m. until noon in the Bairfield Activity Center on the Clarendon College Campus. Ms. Thomas top will be, 'Jump-Starting the Texas Writer'.

The cost for individuals is \$10.00 at the door on December 8 or \$8.00 for early registration mailed by November 29 to: Connie McAnear, P.O. Box 744, Clarendon, Texas 79226. Early registration will be accepted by Susan Nelson at S&S Gallery before November 29.

Following the workshop, Ms. Thomas will be at The Coyote Den Bookstore on Highway 287 to sign copies of her newest book, *To Tame A Texan's Heart*.

To Tame A Texan's Heart is Jodi Thomas' seventh full length book and the fifth set in historical Texas.

Jodi Koumalats, a.k.a. Jodi Thomas, lives in Amarillo, Texas, with her husband and their two sons. Though her masters' degree in family studies, Jodi spent most of the years before writing as a teacher. She continues to teach one class at Amarillo College and do volunteer work at the Panhandle Plains Museum.

With her love of history, Jodi Thomas brings the past to life and passion to those who lived before us. With seven books, four short stories, and a room full of awards, this creative author does Clarendon a great honor by setting her next novel, tentatively titled *Nobody's Woman*, in old Clarendon. It is scheduled for release in the late 1995.

Museum Party Planned

This coming Saturday at 8 p.m. the Museum dance and drawing will be in motion. You will be dancing to the Slo-Motion Progressive Country Music Band. Get your tickets at Henson's right away and get ready for a super good time. There will be door prizes, a good meal, hourly drawings and dancing galore.

Parents Invited to Dinner at School

The Clarendon School Cafeteria invites parents and the public to Christmas Dinner on Wednesday, December 7. Check with your child to find out the time he or she eats.

The dinner will feature turkey and dressing, cream potatoes, green beans, hot rolls and brownies.

**Tree Plantings
For Wildlife**

Most people enjoy the presence of songbirds, deer, and other wild creatures. In the Panhandle of Texas tree plantings can support wildlife that add beauty and pleasure to our lives. Wildlife are attracted to trees and shrubs because they provide the best (and sometimes the only) cover in some areas.

Windbreaks when properly designed, offer nesting, roosting, loafing, food, and escape cover for a variety of wildlife. To attract wildlife, plantings don't necessarily need to be in windbreaks, but can be placed in draws, arroyos, or other "unused" areas of the

property. To be of greatest value to wildlife, a tree planting should include a variety of trees and shrubs. Evergreens are especially good winter cover. Shrubs provide food and dense cover. And deciduous trees provide nesting sites and some food. Certain trees and shrubs are better than others for wildlife.

Those species beneficial to wildlife that are sold by the Donley County Soil and Water Conservation District are: Evergreens, Red Oak, Pecan, Little Walnut, Hackberry, Osage Orange, Honey Locust, Russian Olive, Fruiting Mulberry, Caragana, Lilac, Bush Honeysuckle, Cottonaster, Plum, Sumac, Nanjing Cherry, and Sand Cherry. The District also offers wildlife packets that include a variety of trees selected to attract a particular type of wildlife. Each packet includes 100 trees (25 each of 4 different kinds). The SCS have packets for Quail & Pheasant, Squirrel, Turkey, and Deer.

All trees sell out quickly so if you're interested in placing an order call 874-3576 or come by the SCS office in Clarendon as soon as possible. They would be happy to assist you with all phases of tree planting and wildlife management.

Loans for Small Businesses

The First Bank and Trust is committed to our community. That includes the small businesses that are the backbone of our local economy.

Businesses have come to the First Bank and Trust for years. And for years we have worked together to build sound enterprises.

Businessmen and businesswomen have taken out loans for new facilities. They have enlarged their inventory and branched out into more profitable areas. And the First Bank was there to help.

But the bank has provided other valuable help as well. Loan officers have offered informal counseling that sharpened merchants' competitive skills. Bank people have suggested additional markets and other possible opportunities.

The bank is still committed to helping businesses grow, for as such businesses grow, they create new jobs, they bring new money into our community and ultimately they benefit all of us.

High Plains Health Notes

by Robert E. Powell, PA-C

Donley County Rural Health Clinic

A Service and Facility Of High Plains Baptist Hospital

Benign prostatic hyperplasia or BPH is commonly seen in men over 50 years of age causing variable degrees of bladder outlet obstruction. The causes are unknown but may be due to hormone changes associated with aging.

Symptoms of BPH include progressive urinary frequency, urgency, and nocturia (getting up at night to urinate) due to incomplete emptying and rapid refilling of the bladder. Hesitancy and intermittency with decreased size and force of urinary stream may occur. Sensations of incomplete emptying, terminal urinary dribbling, almost complete overflow incontinence, involuntary loss of urine, or complete urinary retention may occur.

BPH with bladder obstruction is suspected on the basis of signs and symptoms. PSA or prostatic specific antigen is moderately elevated in 30-50% of patients, depending on prostate size and degree of obstruction. Cystoscopy which is a procedure that looks into the bladder with a scope permits estimation of the gland size and the appropriate surgical approach plus the opportunity to differentiate between vesical neck contracture, chronic prostatitis and other obstructive phenomena.

Treatment may be medical due to new advances in drug therapy that offer more choices for treatment which may result in no surgical intervention. Definitive therapy if indicated is a surgical procedure called a TURP or transurethral resection of the prostate and requires no incision. Larger benign prostates may require open surgery. Balloon dilatation of the prostate in selected patients is being investigated.

Use Gas Safely

DALLAS, TX. How ready are you for winter? You have already had a taste of what is to come. Lone Star Gas would like to remind area residents of a few safety hints for the winter:

- Use a gas appliance only for its intended purpose. An oven, for example, should not be used to heat a room.
- In an appliance's pilot light goes out, turn off the gas at the appliance for several minutes before you attempt to re-light it. You should find instructions on the appliance.
- When re-lighting a pilot light, strike the match first and hold it to the opening. Then slowly turn on the gas.
- The pilot light on gas appliances should always be blue. If the light is yellow or red, call you plumber immediately.
- Never store or use gasoline or any flammable liquids (such as paint, thinner, cleaning fluids, etc.) in the same room with any gas appliance.
- Never store rags, paper, or other combustibles near any appliance with a pilot light or open flame.
- Never store combustibles near floor furnaces or wall furnaces.
- Have qualified service people install and maintain all gas appliances.
- Always follow the manufacturer's instructions for installation and operation of each appliance. If installing a gas water heater, place the water heater at least 18 inches off the floor.
- Before you dig in your yard, take precautions against disrupting underground gas lines by calling your local plumber.
- Contact your local plumber to make periodic inspections of gas lines in your home and gas lines on your property.

TADA Warns Buyers About Drowned Cars

AUSTIN-The Texas Automobile Dealers Associated issued a warning this month that flood-damaged used cars may soon enter the used vehicle market. Such vehicles may show few signs of flood damage, yet have serious problems even after they are cleaned.

To detect flood damage, the TADA recommends the following precautions:

Carefully examine the vehicle's interior and engine for any evidence of water or grit from suspected immersion.

Check under the dashboard and car seats for dried mud or residue.

Check the upholstery, carpeting and the trunk for any unusual traces of mildew, mold or musty odors.

Under the hood, examine the engine closely for residue in crevices on the alternator, starter motor, power steering pump, relays and behind the wiring harness.

Look for unusually heavy or widespread rust.

Vehicles with only minor damage might reasonably be restored, but for most flood damaged vehicles, such restoration can be time-consuming and expensive. TADA advises consumers to check the vehicle, its title, and have a qualified service technician check it, too.

Texas law requires that the title of such vehicles be branded "flood damaged" or "reconditioned". Potential purchasers may call the Motor Vehicle Titles and Registration Division of the Texas Department of Transportation at (512) 465-7611 or the NADA Vehicle History Service at (800) 789-NADA. However, it takes six to eight weeks for such damage to be recorded, so vehicles should still be inspected carefully.

Also, insist upon an original title, not a Certified Copy.

TP&W Cancels Program

Texas Parks & Wildlife Magazine announced in the December issue that there would be a special program at the Taylor Lakes unit of the Playa Lakes Wildlife Management Area near Lelia Lake. The program was to have taken place on December 10. It was titled, *Waking Up With Geese*.

That program has been canceled. "It's a Mother Nature thing," said a spokesman for the Department, "No water." In fact, the little lake is as dry as an old bone. This is the first time in 10 years or more that the lake has dried up.

The department is planning other activities for the WMA in the future. (They are convinced that it will rain-someday.) Some events will be nature-oriented, others may be historical and still others cultural. But all will help the local economy by bringing in tourists who are expected to stay in local motels, eat at local restaurants and shop at local stores.

In the same issue of the *Texas Parks & Wildlife Magazine*, Andrew Sansom, Executive Director of the Department writes, "Both hunting and wildlife viewing are big business in Texas. And as this issue's 'Picture This' suggests, we are blessed with an incredible diversity of birdlife and another exciting outdoor opportunity. Picture this: Texas is now the number one destination in the world for birdwatching. In fact, nature-related tourism in all forms is the fastest-growing component of the travel business, expected to be Texas's largest industry by the year 2,000. At Christmas, we need to remember how blessed we are."

Donley County is blessed to have Lake Greenbelt, the Taylor Lakes WMA, a dude ranch and an incredible untapped potential for developing tourism. One cannot but wonder how long this potential will remain underutilized.

Several area ranchers have already discovered that little birds like quail and dove can add up to big dollars. And big bucks (of the mule deer species) have real monetary value.

Birdwatchers offer at least as much economic potential, although that market may be a bit harder to define and contact. Nevertheless, the potential is here.

Humble.

It's hard to be humble when propane propels a winning dragster down the quarter mile at 160 mph. But we try. And so we humbly ask you to consider propane to fuel your private, government or school district fleet vehicles. Propane is a low-cost, high-octane alternative fuel. It will keep your fleet running economically and help you meet state and federal clean-air mandates. Propane. The clear choice. The clear choice. There's no way you can lose.

Company Collects Toys for Tots

One company's annual Christmas promotion aims to provide an exciting and fulfilling holiday season for children and their families. Mission Cable's annual Toys for Tots campaign provides toys to children in need in this area. The annual campaign is always the most successful of the year for the cable company, and one that makes employees pleased that their efforts go to a great cause.

"Our Toys for Tots campaign is unique because we donate the toys locally. Last year we were able to put smiles on the faces of hundreds of children. Our customer service representatives enjoy the fact that this campaign is so worthwhile," said Bruce Berkinshaw, Regional Marketing Manager.

"We do, however, rely on donations of our customers. This year we will offer a \$5 cable installation when a customer donates a \$10 new toy. Current subscribers can donate a new \$10 toy and receive a free upgrade to a premium channel. We think this is an ideal holiday promotion, because a person can give a toy and receive a great present as well."

The toys the company collects will be distributed locally. Mission Cable is a local cable company serving the surrounding area. Anyone interested in donating to the toy drive may call (800) 783-5701 or (800) 783-5778.

Screening Clinic To Be Held

The Women's Center of the Don and Sybil Harrington Cancer Center and High Plains Baptist Hospital will again conduct a Breast Cancer Screening at Clarendon Medical Center Clinic, Hwy. 70 North on December 14, 1994 from 10:30-3:00 p.m.

Breast cancer affects one in nine women. The key to boosting your chances of winning the battle against cancer are early detection by having an annual breast exam, mammogram and performing breast self-exam each month.

Each participant at our screening will receive a breast exam and one-to-one instruction in breast self-examination by a registered nurse specially trained in breast cancer detection, and a mammogram by a mammography technician. Our mammography machine is certified by the American College of Radiology ensuring a quality film.

The American Cancer Society urges all women to have their first mammogram by the age of 40. Those who have close relatives with breast cancer or other risk factors may be asked by their doctor to have a mammogram at an earlier age.

The total cost of the screening is \$70.00. Ask about funding that is available for free breast screenings.

Please call the Women's Center at Harrington Cancer Center at 1-800-377-Hope (4673) or (806) 359-4673 today for more information or to schedule an appointment.

DAISY GIRL Scouts met November 10, 1994. The nine present were Regan Lemley, Katie Askew, Jaci Copelin, Ashley Petty, Brooke Boston, Brittany Kelly, Kyleigh McKeever, and Shelby Watson. They painted angel ornaments to decorate the Courthouse Christmas Trees. The wood for angels was generously donated by Earl Hartman at J & W Lumber and Virginia & Nelson Christie cut out the angels.

TIPS ON STAYING SAFE AND SOUND WITH NATURAL GAS.

For more than 80 years, Lone Star Gas has been providing safe, dependable energy to its customers. By following a few simple rules, you can help make sure you and your family stay safe and sound with natural gas:

- Always have qualified service people install, regularly check and maintain all gas heaters and appliances, following the manufacturer's instructions for installation, ventilation, and operation.
- Always use a gas appliance only for its intended purpose. An oven, for example, should not be used to heat a room.
- Always keep flammable materials and substances away from gas heaters and appliances. Remember, a pilot light is constantly burning.

IF YOU SMELL GAS in your home, or know you have a gas leak, follow these rules:

- 1 Everyone should leave the house immediately, leaving the doors open for ventilation.
- 2 Do not switch anything electrical on or off.

- 3 Do not use your telephone (telephones use small amounts of electricity).
- 4 Do not strike a match or do anything else that might cause a spark.
- 5 Go to the nearest telephone and call Lone Star Gas Company. Wait until we have found the cause of the gas leak before returning to your home.

If you smell gas while you're outside, contact Lone Star Gas immediately.

CONTRACTORS, BEFORE YOU DIG, call or fax your request for pipeline locations to avoid any potential problems.

Remember when you were very young and dependent on your parents' care? No doubt, some of you are at the age where the responsibility is now reversed.

A new paperback book, *My Turn To Care*, which has been written especially for caregivers of aging parents, has been placed in Burton Memorial Library.

Having been in that position, myself, at one time, and the more I visit with those who are caring for the elderly, the more I realize the common love, emotions, struggles, and joys that are shared. Christian writer, Marlene Bagnall, realizing a need for such a book as *My Turn To Care*, compiled brief writings of over 100 individuals with the purpose of offering hope, compassion, and encouragement to caregivers of the aged. Interested readers can receive a source of comfort from the personal experiences which are related in the book. If you feel this might be for you, why not check it out?

MRS. WHITE & MISS DUNCAN'S Kindergarten Classes have been studying about Indians and Thanksgiving traditions. To reinforce the lesson on friendship and sharing they made friendship stew. Each child was asked to bring one vegetable fresh or canned that was mixed together and cooked on November 24th.

Help!

Does anyone know a Mrs. C.L. Lange?

The Ladies Medical Auxiliary in Wichita Falls, Texas, is looking for her or her relatives.

Mrs. Lange was the sister of Dr. M.M. "Mike" Walker. Dr. Walker practiced medicine in Wichita Falls. At his death in 1953, his obituary listed Mrs. Lange as a surviving sister who lived in Clarendon. Dr. Walker and his wife, Vella Rancy Walker, had no children.

Mrs. Walker was the first president of the Ladies Medical Auxiliary. That organization has pictures of every other president, but none of Mrs. Walker or Dr. Walker.

The Auxiliary is looking for any relatives who might have pictures of the Walkers.

If you have any information on Mrs. Lange or her heirs, please contact Carol Wagner, 1300 Buchanan Street, Wichita Falls, TX 76309 or call her at (817) 322-6556.

Thank You,
I would like to thank each and everyone for your concern while I was at High Plains Baptist Hospital in Amarillo and during my recovery at home. I would also like to thank you for your visits at the Hospital, the cards and flowers and especially for your prayers. May God Bless You.

Thank you very much,
The Raymond Jaramillo family

Letter of Appreciation
VFW Post #7782 extends our heartfelt and profound thanks to all who participated in our meal which we cooked and served November 17. We apologize for the shortages that were encountered due to a much larger turnout than we anticipated. This was a trial run to set an idea as to the amount of food we would need, and we were very pleasantly surprised to the numbers of you nice people who did show up. Let us assure you that no such shortage will occur again. More of these meals are planned in the menu changing from time to time. To you ladies who volunteered to prepare our dinners, your assistance will be appreciated and we are quite confident all such preparations will be a delight to consume. Once again many thanks. Suggestions will be welcome.

Thanks all of you,
