Lions Club - Youth Light Bulb Sale Today

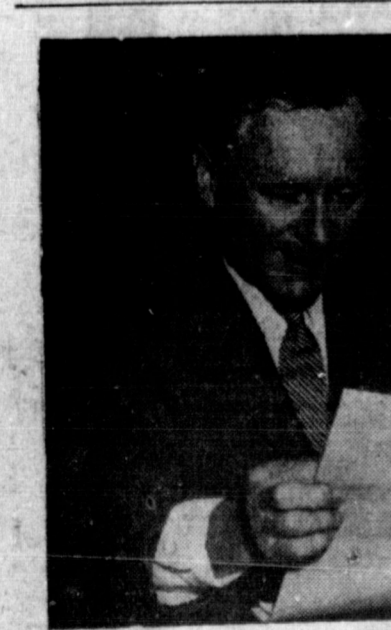

The annual Lions Club Light Bulb Sale has been set for today, Thursday, November 19th. This sale is being featured again with the cooperation of our youth who will be assisting in making the house to house canvass tonight.

The bag of bulbs being offered for sale will be at a bargain price and is something that is needed in every household. . . . but by buying the bulbs now from the Lions and the youth, you will be helping our young people to healthier, happier and more wholesome life.

One of the major projects of the Lions Club is the sponsorship of the youth canteen. Funds are presently needed to improve the building and to provide more equipment for the youth to use.

Services Held Friday For Mrs. H. L. Riley, Sr.

Funeral services were held Friday afternoon for Mrs. Johnnie Clyde Riley at the Church of Christ with John L. Davis, minister, officiating.

A BOY AND A GOVERNOR — Governor Price Daniel proclaimed Christmas Seal Days in Texas as he visited with a small recovered tuberculosis patient, Leonard Alcala of Austin. The Christmas Seal Sale is the one annual appeal of the Texas Tuberculosis Association and affiliated local associations for funds to make possible year-round efforts to curb this needless waste of human life and resources.

Leader To Be Early Next Week

Your Leader will be published a day early next week instead of being published at the regular time and reaching many subscribers a day late. It will be placed in the mails Tuesday night so it will go out on the rural routes on Wednesday as rural carriers will not be working Thanksgiving day.

In order that we may attain this early publication, we will need the cooperation of all advertisers, correspondents and others turning in news items. All advertising copy and rural items will be needed just as early Monday as possible or prior to Monday.

Services Held Tues. For Mrs. Jim Morgan

Funeral services were held Tuesday morning at Murphy Memorial Chapel for Nora Louisa Morgan with Rev. C. M. Ryan officiating.

REGISTRATION OF FARM TRAILERS

Numerous questions have been raised concerning the application of the motor vehicle registration laws to farm trailers and farm semi-trailers. In order to clarify some of these questions the following information is provided for all who are interested:

1. Registration is required if the gross weight exceeds 4,000 pounds.
2. Such vehicles are exempt from the Inspection Act.
3. No serial number or certificate of title is required so long as the vehicle is used solely for the transportation of farm products, if such products are not transported for hire.

Tax-Man Sam Sez:

Well, the tax people have a new income tax form out this

year. They call this new form the 1040-W. It doesn't replace the old Form 1040 or the 1040-A card form. It is a single sheet,

buff colored form printed on both sides. The title of the form tells what it is for — "Optional Form for Wages and Salary In-

come and Not More than \$200 of Interest and Dividends." You can itemize your deductions on this form as well as the 1040. You can't itemize deductions if you use the 1040-A card. You can take the standard deduction on any of the three forms. All of the forms will be available at the Post Offices and the Internal Revenue Service in January.

GRASS ROOTS OPINION

Benton, Mo., Democrat: "For your information, the Federal Government is the largest electric power producer in the country, the largest insurer, the largest lender, and the largest borrower, the largest landlord and the largest tenant, the largest holder of grazing land, and the largest holder of timberland, the largest owner of grain, the largest warehouse operator, the larg-

est ship-owner, and the largest truck-fleet operator.

"In this year of prosperity, we are not requiring our government to live within its income from Federal taxes. We are going further into debt, borrowing from future generations devaluing the dollar more and more in order to obtain more government hand-outs today!"

PATHFINDER CLUB ENJOYS MEETING

Pathfinder Club met Friday afternoon, November 13, at Patching Memorial Club House with Mrs. George Benson presiding. Meeting was called to order by the reading of Club Collect led by Mrs. Carl Allmond. Roll call was answered by fifteen members. Minutes were read and approved.

Mrs. Benson announced a "Thank You" note had been sent to Mrs. Wilson thanking her for the nice things she had done for Patching Club House. The annual Husbands' Christmas party for December 11 was discussed and each member will be called to remind them of the meeting. Mrs. Benson also announced that Pathfinder duty to the Club House yard is the month of January. Mrs. Forrest Sawyer and Mrs. Heckle Stark were appointed to serve on this committee.

The program was "World Affairs" with Mrs. H. T. Burton leader. She gave a very interesting, informative, and timely paper on the Berlin situation, Disarmament, World Trade, the Cuban situation, and the World Fair which will be held in New York City in 1964. Mrs. Burton introduced Mrs. J. L. McMurtry and Mrs. George Benson who presented two piano duets: the first, "Poet and Peasant Overture" by Fr. Von Suppi and the second, "The Old Refrain," Viennese Melody, by Fritz Kreisler.

Refreshments of fruit cake and coffee were served to members Mesdames Carl Allmond, George Benson, H. T. Burton, Wm. S. Greene, J. H. Howze, C. B. Morris, L. B. JR. H.D. CLUB MEETING THURSDAY, NOV. 12th

The Junior Home Demonstration Club met at Patching Club House Thursday afternoon, November 12, with Noma Lewis and Sadie Head, hostesses.

The president, Wilma Spier, presided over the business. New members were discussed and one old member was welcomed back to the club. Plans were made for the Christmas dinner.

Leona Henson gave the program titled "Christmas in Other Lands." Everyone enjoyed the program very much.

Present were Ona Tatum, Patsey Reid, Mildred McClellan, Mabel Elmore, Eddith Spivey, Leona Henson, Clara Finley, Gladys Hommel, Harlene Phillips, Linda Altman, Hazel Noble, Noma Lewis, Sadie Head, Cleo Crutchfield, Wilma Spier, Bernice Adams, and Gladys Blackburn. — Rep.

GOOD NEIGHBORS HOLD MEETING

The Good Neighbors Club met November 13 in the home of Bessie Helton for an all day quilting. One quilt was finished. It was announced that we are to meet with Eula Butler Monday, November 16, to quilt a quilt for the Orphans home.

A covered dish lunch was served at the noon hour to guests Frieda Siddle and Daria Robertson and to members Rosie Bingham, Ruby Jordan, Nova Barker, Eula Butler, Lida Warren, Alta Spradlin, Florence Harp, Carrah Mixon and the hostess, Bessie Helton.

The next meeting will be with Ruby Jordan, November 27. — Rep.

CLARENDON HOSTS GAMMA KAPPA MEETING

The Gamma Kappa Chapter of Delta Kappa Gamma met in the Homemaking Department of the Clarendon High School at 2:00 p.m. Saturday, November 14, with the Clarendon members as hostesses.

The program began with the reading of the collect in unison. During the business meeting Miss Nellie Agnes Kennedy and Mrs. Martha Wallin were each given a leave of absence due to illness in their families. Mrs. L. C. Sweat was voted back into active membership. Betty Welch and Alma Bruce were voted in as new members.

Reports were given by the chairmen of the membership, publications, publicity and finance committees.

Miss Mary Foreman, as program chairman, gave out the new yearbooks and introduced those taking part on the program. The program theme for the afternoon was "Evaluation of Our Educational Program." Mrs. Maxine Cape as moderator of the panel-forum gave some pertinent thoughts as to whether our schools are fulfilling the American dream. It was brought out by the speakers that there is a definite need for more uniform standards, and a need for a more extensive guidance and counseling program with greater emphasis upon the relationship between high school courses and college programs. Others taking part on the panel were Mrs. Lucille Naylor who discussed the college area; Mrs. Velma Bourland, the secondary area; and Miss Edgar Mae Mongole, the elementary area.

The Thanksgiving motif was carried out in room decorations. An arrangement of fruit, spilling from a cornucopia on to a reflector, formed the centerpiece for the serving table. Delicious prune cake topped with whipped cream, corn-shaped candies, and hot spiced punch were served to 24 members.

Mrs. Velma Weaver ladeled the punch from a large crystal bowl which was made attractive by tiny, illuminated, red candles stuck in lemon slices and float-

ing upon the steaming liquid. Clarendon members present were Mesdames Marguerite Goodner, Claudine Todd, Velma Bourland, Velma Weaver, Hazel Brandon, Lucile Naylor and Misses Ruth Richerson, Gladys Burnham and Edgar Mae Mongole.

1926 BOOK CLUB REGULAR MEETING

The Book Club met in regular meeting Tuesday, November 17, at 4 p.m. in Patching Club House. The president, Miss Inez Blankenship, presided and opened the meeting with the singing of "God Bless America." The last stanza of "America" was sung with heads bowed in reverent meditation.

Mrs. L. N. Cox was appointed Book Club representative to meet with the Club Board. The resignation of Mrs. Johnny Leathers was regretfully accepted. Miss Blankenship requested that members bring gifts to our December 1 meeting to be placed in the annual Christmas box to be sent to the State Hospital in Wichita Falls.

Mrs. Bill Poole very capably reviewed a biography, "The Voice of Liberty" by Eve Merriam. This was the story of a brilliant Jewish girl, Emma Lazarus, who loved America for the freedoms it offered the oppressed peoples of the world. She was the daughter of a well educated and successful Jewish merchant. Emma will always be remembered for her poem "The New Colossus." She was asked along with many others to write a poem to be sold to help pay for the pedestal of the Statue of Liberty. Having always been encouraged in her poetic ability by her father, she did write a poem and hers was so good that it was deeply engraved in the stone of the statue itself.

Mrs. W. M. Crain and Mrs. Loyd Johnson were hostesses and served pumpkin pie with whipped cream, coffee, tea, and mints to nineteen members. — Rep.

Mr. and Mrs. O. C. Watson were business visitors in Amarillo Monday.

BETA SIGMA PHI HOLDS MEETING

Mu Gamma Chapter of Beta Sigma Phi met Thursday night, November 12, at Patching Club House. The business meeting was provided by the Pledge Ceremony for the following girls: Beverly Boone, Shirley Clifford, Jean Davis, Quinn Draper and Georgia Goodman.

The Ways and Means Committee had the Money Tree on display and tickets were distributed among the members to sell. During the business meeting it was also decided that our chapter would help again this year with the Muscular Dystrophy drive to be held on November 23rd.

The program "Personality and Relationship" was presented by Juanita Phelps and Vanetta Thornberry.

Refreshments were served by the hostesses, Pat Cornelius and Anness Bennett, to the following members and new pledges: Beverly Edgett, Frankie Henson, Ann Hommel, Glenda Lacy, Evelyn Mann, Barbara Morris, Jo Ellen Pfeiffer, Juanita Phelps, Mable Dean Porter, Mary Neal Risley, Vanetta Thornberry, Lea Tyler, Melba Ruth Vaughan, Pat Wallace, Evelyn Yeates, Mrs. C. B. Morris, Beverly Boone, Shirley Clifford, Jean Davis, Quinn Draper, and Georgia Goodman. — Rep.

KIL KARE KNEEDLE KLUB

Mrs. John Bass was hostess to the Kil Kare Klub in her home Thursday afternoon, November 12. She delightfully entertained the ladies with a musical program and then showed them her antiques, china and pictures.

Lovely refreshments of sherbet and angel food cake were served to one guest, Mrs. J. K. Jackson of Muleshoe, and to members Mesdames M. C. Rampp, E. H. Noland, J. R. Bartlett, Harry Brumley, Major Hudson, Nollie Simmons, R. O. Thomas, S. W. Lowe, G. C. Heath, Homer Mulkey, and Miss Etta Harned by the hostess, Mrs. Bass. — Rep.

CHRISTIAN YOUTH COUNCIL HAS MEETING

The Clarendon Junior College United Christian Youth Council held its monthly meeting on Thursday, November 12, 1959, at the First Christian Church at 7:30 p.m. The purpose of this meeting was to prepare a Christmas program for the College. Refreshments of sandwiches, pie, and coffee were served to nineteen members and two visitors.

At an earlier organizational meeting, the following officers were elected: President, Clifford R. Beard; Vice President, Ronald Cummings; Secretary-Treasurer, Glen Reeves; Reporter, Daves Contreras. The sponsors are Mr. Abel, Dean of the College, and Mrs. Neslon Seago.

The United Christian Youth Council is a non-sectarian social and religious activity club composed of members from all religious faiths represented in the College Student Body. The purpose of the club is to encourage a greater spiritual life and association among the college students. — Rep.

HUGHINS QUILTING CLUB MEETING

The club met Tuesday afternoon in the home of Ruth Tims. One quilt was worked on.

Refreshments were served to Frankie McAnear, Pauline Koontz, Martel Webb, Cora Elliott, Ruth Lindley, Ruby Parker, Mary Lee Noble, Bell Smallwood and the hostess, Ruth Tims. The next quilting will be Nov. 24 in the home of Ruth Lindley.

The Christmas party will be Dec. 8 in the home of Martel Webb. All club members please be present. Bring your polyantha and Christmas gifts. — Rep.

SR. H.D. CLUB NOTICE

The senior Home Demonstration Club will meet with Eula Butler Friday afternoon, November 20, to quilt a quilt for the Orphans Home.

Everyone is asked to come as soon as possible after lunch. — Rep.

CHAMBERLAIN COMMUNITY MEETING

Neighbors of the Chamberlain Community met last Friday night. Games of "42" and visiting were enjoyed by all. Refreshments of pie and coffee were served by the hostess, Mrs. H. A. Harrison.

Next meeting will be Friday night, Nov. 20 and we are having our annual Thanksgiving evening meal. Everyone is invited. Hostesses will be Velma Heathington, Ruth Lindley, Virginia Smith and Floree Webb. — Rep.

Jacque Lavonda was the name given the baby girl who arrived at the home of Mr. and Mrs. Clifford Short, November 14. She weighed 7 lbs., 7 oz., and is the granddaughter of Mr. and Mrs. C. C. Rich and Mr. and Mrs. John Short.

To those who expressed their sympathy in so many beautiful and practical ways during our recent bereavement, we extend our heartfelt thanks.

Mr. and Mrs. Claude Morgan

Our heartfelt thanks to all who extended comforting sympathy and helped in our recent sorrow. For the beautiful service, floral offerings, food and other kindnesses, we are deeply grateful.

GEORGE'S WIFE

By "Sarah"

From Bonn comes the report that "Forges Glow Again in West Germany" and arms making is on the increase. American money and technical know-how—almost by accident are giving it a big boost. The Defense Ministry says it has no desire to see major arms industry grow up again in Germany, but "get this" it can't do any thing to prevent Americans from spending their money where and how they wish.

Americans have another motive for their spending our un-

wanted money this way though, we want to get a firm foothold in the European market, particularly in Germany, before the six nation common market erects a formidable tariff wall against American goods. Already every other nation in the world can build and ship to America everything ranging from safety pins to whisky to jet engines and autos, cheaper than we make them for domestic use.

However there's good news from Washington, according to Joseph L. Myler (UPD), we are working on a new kind of warfare called "Exotic warfare." This is a more humane method, much more so than nuclear war. This type renders soldiers and civilians alike temporarily incapable of defending themselves.

George wonders if someone hasn't already been using this type stuff on the "coffee break crowd" for a number of years, at least that would account for

some of the mess we are in. Says he's more incapable of defending himself every year.

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

TAX REFORM

"A small, specialized school will open in the Nation's Capitol next month. The subject matter will be tax law and economics. The faculty will be composed primarily of economists, tax lawyers, and educators in these fields. The students will be the members of the House Committee on Ways and Means. As a matter of fact, it will not be a formal educational institution, but a seminar by the Committee to inform itself on all shades of economic thought with respect to practical and desirable remodeling of our tax structure.

The classes will take the form of public hearings, beginning November 16 and continuing through December 18."

This was the novel manner in which my good friend, Honorable Burr Harrison, Congressman from Virginia's 7th District and a member of the Committee on Ways and Means of the House of Representatives, announced the Committee hearings which will commence next week. Actually, the hearings will take the form of panel discussions with an eye to accomplish a specific objective and one which, in my opinion, is greatly needed. The Committee on Ways and Means is that which exercises legislative jurisdiction in matters of taxes and revenue, and the hearings which will begin November 16 are for the purpose of establishing concise and factual information in all areas of our federal tax laws so that tax reform may be accomplished by intelligent and informed legislation. The Chairman of the Committee on Ways and Means, Honorable Wilbur Mills from Arkansas, has stated that the immediate objective of income tax reform is to reduce the rates without sa-

crificing revenues required for responsible financing of government, and that at the same time, tax reform must seek among other things "(1) a tax climate more favorable to economic growth; (2) greater equity through closer adherence to the principle that equal incomes should bear equal tax liabilities; (3) assurance that the degree of progression in the distribution of tax burdens accords as closely as possible with widely-held standards of fairness; (4) an overall tax system which contributes significantly to maintaining stability in the general price level and a stable and high rate of use of human and material resources; (5) a tax system which interferes as little as possible with the operation of the free market mechanism in directing resources into their most productive uses; and (6) greater ease of compliance and administration."

These objectives, if accomplished, (and I have high hopes they will be) would signal good news to those most familiar with the subject—the taxpayers of this country. As many of you know, I have long advocated a reduction in taxes. I believe it can be done so our economy does not suffer and in a manner whereby we can maintain our fiscal integrity and responsibility. Our present tax system has been criticized as being not only too high, but as containing provisions which have been enacted over a long period of time—some of them during the early war years of World War II, to meet specific problems which arose at that time. These provisions result in tax differentials which render many of them inequitable. This is particularly true in the lower and middle income groups. My efforts have been directed toward a correction of tax inequities, and I am indeed happy that con-

structive action is becoming a probability.

DON'T BE NAIVE

Taxpayers got another jolt with the one-cent increase in the Federal gas tax for "the next 21 months."

If anyone is naive enough to think this "emergency" tax will be dropped at the end of "21 months" he is undoubtedly due for a sad awakening. "War emergency" transportation and other taxes have now been in effect for some 15 years.

At the end of 21 months the plea will probably be to add the revenue from the one-cent gas tax hike to the general fund instead of dropping it. Already a large portion of the existing 3c gas tax and certain automobile-related tax revenues go into the Treasury, instead of on the roads as was intended.

If Congress had worked half as hard trying to stay within the Federal income as it did in trying to find new ways to spend money and increase taxes, it could have made headway in

balancing the budget and saving the value of the dollar.

It's no longer something special when the Texas legislature has a special session. Fact is, it's getting rather routine.

There's nothing like a new car—and no new car like a Chevrolet. This is the 1960 Chevrolet Bel Air Sport Coupe!

PEOPLE SAY THESE ARE THE THINGS THEY WANT IN A CAR...and CHEVROLET for '60 comes closest to meeting every need!

Interviews with thousands of car owners across the country show clearly what they like or dislike about their present cars . . . and what they want most in their 1960 cars. Here's what the people tell us they want . . . and here's how Chevrolet meets their needs.

"Price, that's what's uppermost in my mind." All Impalas and Bel Airs with V8 engines are lower in price, as are automatic transmissions and many other popular options. Also Biscaynes now include as standard equipment conveniences formerly optional at extra cost.

"And how about operating economy? And resale value?" You keep right on saving after you buy your favorite Chevrolet, too. And Chevrolet's traditionally higher resale value means you'll get more back when you trade.

"Give me plenty of good old-fashioned comfort." There's comfort and then some in this one. Chevy's long on space, for one thing. Once you're under way you'll know just how comfortable Full Coil suspension makes your ride.

"Safety—don't forget safety!" You're surrounded by safety features in a new

Chevrolet. You've got big, sturdy brakes underfoot, for example, that last longer. As it has been for years, safety is standard equipment in Chevy.

"Let's keep upkeep down, too." More than ever, Chevrolet for 1960 is built to stay on the road and out of the repair shop. You can tell that from its hushed, unfluffed way of going, from the solid *thunk* of Chevy's big doors. Of course, if you *should* need service, you're always near efficient, economical attention to your needs.

"I want a car that will stand up to the driving I do." For proof of Chevy's staying power, just spend a minute watching the nearest road. You'll see more Chevrolets traveling on it than any other car—evidence-on-wheels of Chevrolet durability. (And that higher resale value attests to it, too.)

"Me for a sweet-handling car." Handling's always been Chevy's forte, and

1960 is no exception. But really, this kind of lightness and precision you've simply got to enjoy for yourself.

"... a car you can look at and be smug about buying it." Chevrolet for 1960 leaves the low-price field far behind when it comes to fashion. But you're the best judge of styling, so take a good close look at Chevrolet. We warn you: you're about to fall in love.

"And performance. Let's have a hot one!" Chevy's spirited V8's have set the standard for ultra-efficient power in American-built passenger car engines. You've got a long list of performance-minded transmissions to pick from, too.

So that, friends, is what you told us you want. We think it can be summed up rather well in just one word: *value*.

Get the full story of Chevy's brand of value soon at your Chevrolet dealer's.

BLOWIN' Out the CORNERS In Uncle Zeb

Neighbors are the nicest folks; Those who live across the way. And just to know that they are home,

Always brightens up our day. If you can remember when folks used to load up all the kids in the wagon and go over to Aunt Bessie's and stay all night; leaving the chores with the neighbors, then as Mr. Izzard would say, you don't have any worries about the draft. Even at that it doesn't seem so long ago. Perhaps the worst part was that of

sleeping at the foot of the bed or even on a made down bed on the floor.

Neighbors used to come in handy when it was hog-killing time. This is one thing we really miss. We wonder just how far we would have to travel to see a plain old country hog-killing where all the neighbors brought their hogs in to scald, scrape, and cut them up together. The first man to get his hog dressed had to furnish liver for the noon meal. We want to say for dinner but remembered that even that is a bit old-fashioned.

Then every so often a neighbor's windmill would need to be worked on and here we would come to pitch in and help. Some would own a block and tackle, others the wrenches, etc. Now we call the well repair man. Folks still have the same warm heart though because now and then we hear about all the folks coming in to plow the farm of some neighbor who is ill. Maybe we don't use them as much as we did back then, but it sure means a lot just to know they are there, just in case . . .

Husbands are a queer sort. Sometimes we wonder why it is

that practically all of the most intelligent men in the world eventually become one. Nor does the situation become less intriguing at this point, because each newly made husband will no doubt be willing to work like a slave just for the joy of being the here even for a fleeting moment now and then.

Even though the shy little thing promised at the altar to take him for better or for worse, she is really not to blame for his short-comings up to that point in life. But from there on out she can make of him just about what ever she chooses. She has at least three choices that she can make as to what her husband shall eventually be like.

If she tries to dominate him and succeeds she will have a weak-knee-ed Yes-Deer type man of whom she will never be proud and for whom she will forever have to make all decisions. This will happen if she makes him over into her way.

If she tries the above, and she has picked the he-man type then she is in for real trouble. He will do everything just opposite to what she thinks, even if he knows that she is right. He will think that he must defend his

rights as a man. This happens when the man has his way. The other plan is to let him have her way. Under this plan she uses her feminine charms and sort of maneuvers him into the right path without bossing. In this role, most all of the daughters of Eve are perfect actresses. Behind every great man there has been a great woman. One who has found the right way, and has worked patiently at the job of letting that husband have her way.

GABIE BETTS BURTON LIBRARY NOTES

EDITH BARNES

A book of Bible stories has been given to the library in memory of Mr. F. E. Caraway. "The Autobiography of Cecil B. DeMills" has been given to us in memory of Mr. Jack Killough.

I don't have to tell some of our older young readers that we have ten new books for them as they have already been checking them out, but for those of you who do not know they are in the library for you.

We have several of the younger young readers who seem to believe that like some friends the older the better. In spite of me and their mothers trying to sell them on the newer books they keep checking and rechecking their old favorites.

Let us talk magazines for a while. May I remind you all again that the magazines are

supposed to be taken out for one week only. Also some few of you are not bringing them back at all. There is a good selection of magazines in the library. To name some of them: "Good Housekeeping," "Red Book," "Cosmopolitan," "Coronet," "Life," "Look," "McCall's," "Better Homes and Gardens," "Living," etc., etc.

I like the picture of we Americans that R. S. Bruckberger paints in his "Image of America." We usually suffer at the hands of European writers, but here is one who makes no bones about liking us, in spite of our faults. He chides us but ever so gently, about our shortcomings. "Image of America" isn't the easiest reading in the world but it is more than worth the little extra effort. It may even make you want to read or reread, as the case may be, our Declaration of Independence and in the process be proud all over again of these two priceless documents.

Whether "A Fever in the Blood" by William Pearson will be read by many of our folks remains to be seen but Hollywood's Warner Brothers think so highly of it that they have already bought the screen rights for a big price. The courtroom scenes should be authentic as Pearson was an established lawyer before he gave it up to concentrate on his writing. Since next year is an election year the book is

timely as its main theme is the behind the scene going-ons of a big political battle.

When a cowboy uses his spurs freely, it's known as "throwing the steel."

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN — Typical of the tangle of interests and viewpoints that confront Texans when they set out to "solve the water problem" is the current hassle over Trinity River water. Trinity development poses special problems. This second largest river in Texas (in volume of water) has a 455-mile channel that meanders through or near three major population centers—Fort Worth, Dallas and Houston. All are directly concerned, not to mention the smaller cities along the way.

In the current hearing before the State Board of Water Engineers, Houston had the Trinity River Authority jointly seek permits to build two dams, both near Houston. One would be a reservoir at Livingston; the other, a salt water barrier at Wallisville.

At first, Houston alone sought the permits with stiff opposition from TRA. Then the two agencies compromised and agreed that both would build the dams with Houston footing 70 per cent of the bill and getting 70 per cent of the water.

But before the plan could be approved, objections came from all sides. These now are being heard before the Water Board.

San Jacinto River Authority, which supplies part of Houston's water, contends the city should stick with the San Jacinto. North Texas Municipal District and the Municipal Service Company are worried about their own future water supply from the Trinity.

Southern Canal Company, which long has sought irrigation rights downstream, is opposed to the plan as are various landowners whose property would be flooded by the new reservoir.

FACT AND OPINION

Editor Max Ascoli of the Reporter says of Khrushchev: "The man from Moscow is the master, not the representative, of the peoples under his rule. He rules over their flesh, and relishes the prospect that in the near future they may acquire a layer of soothing, healthy fat. More benevolent than his predecessor, he seems to have found out that moral cruelty is just as effective as physical cruelty in keeping people well behaved. . . . He never stops talking about peaceful competition. But what do the Russians know about competition? In the Communist world it is outlawed, and every decision is made by the all-planning, all-powerful apparatus of the party-state."

GRASSROOTS OPINION

Beaver Falls, Pa., News-Tribune: "As the public interest is hurt more and more by such long-drawn out labor disputes, the over-riding public right to industrial peace will have to take precedence and a way found to prevent such disruptions of the economy without undue trespass on the rights of workers."

MOTORISTS SPEED UP

Texas drivers are bearing down on the accelerator more this year, a State Highway Department survey shows. Study showed average highway speed at 54.8 miles per hour in 1959 compared to 53.4 for 1958. Passenger cars are traveling at an average 56.2 miles per hour; trucks, 50.3 busses, 60.7. Legal rate of speed for busses is 55 miles per hour.

According to the sampling, 21.9 per cent of passenger cars are exceeding the legal rate of 60 miles per hour. Last year only 15.2 per cent were above the legal speed.

Highway Department's survey was made with camouflaged radar equipment at 24 representative locations on rural state highways.

NEW DWI TESTS URGED — Its so hard under present law to prosecute a driving-while-intoxicated charge that most law officers settle for a lesser charge, says the head of the Governors Highway Safety Commission.

COURT TO MOVE — Texas Supreme Court holds its last session in the 71-year-old State Capitol building this week.

But it may be a month before the high court gets all its records and huge library moved and gets settled into the splendid new quarters in the just completed Courts Building.

On Nov. 18, however, the judges are to sit at the new marble bench. Furthermore, they will add a new tradition to Texas judicial history by wearing black robes.

Court of Criminal Appeals and Third Court of Civil Appeals are to move into the new building at a later date.

UNION MAY BE SUED — State Supreme Court has ruled that a labor union may be sued for damages by one of its members.

It reversed the holding of a lower court that the union could not be held responsible. This clears the way for a plumber to seek \$19,039 in damages.

H. J. Borden, the plumber, charges that an agent for the United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry barred him from work.

ASLEEP? — Texas Conservatives heard a familiar voice tell them they have become "lazy."

Speaking to a Chamber of Commerce audience, former Gov. Allan Shivers said, "In Austin, the conservative element has little or no leadership. . . . It has lost its initiative. . . . its incentive."

Shivers, long a Conservative standard bearer, recommended development of a program for the general welfare rather than fighting isolated battles for business interests alone.

He urged a coordinated Conservative program. Opposing forces, he said, have the "perfect set-up" — generating fervor for their causes through a tax-free organization, the AFL-CIO Committee on Political Education.

THE STATE OF TEXAS

To any Sheriff or any Constable within the State of Texas—

GREETING:
You Are Hereby Commanded to cause to be published at least one time for not less than ten days, exclusive of the day of publication, before the return day hereof, in a newspaper of general circulation in the County of Donley, Texas, a copy of the following notice:

THE STATE OF TEXAS
To All Persons Interested In The Estate of Annie Lawson, and To the Estate of Annie Lawson, Deceased, No. 1251, County of Donley, Texas, and Ray Lawson, Guardian of the Estate of Annie Lawson, an incompetent and who is now deceased, in the above numbered and entitled estate, filed on the 18th day of November, 1959, this verified account for final settlement of said estate and request that said estate be settled and closed, and said applicant be discharged from his trust.

Said application will be heard and acted on by said Court at 10 o'clock A.M. on the first Monday next after the expiration of ten days from date of publishing this citation, the same being the 30th day of November, 1959, at the County Courthouse in Clarendon, Texas.

All persons interested in said estate and said guardianship are hereby cited to appear before said Honorable Court at said above mentioned time and place by filing a written answer contesting such application should they desire to do so.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Given Under My Hand And The Seal Of Said Court at office in Clarendon, Texas, this 18th day of November, A.D. 1959.

W. P. C. Messer

GRASS ROOTS OPINION East Lansing, Mich., Farmer: "One big cost of farming is often overlooked. A last year's survey by Michigan Farm Bureau showed the average farm accident costs about \$700 in property loss alone. Ten per cent of the 6,000 members surveyed had accidents during the year, with property losses totaling \$70,000, medical bills amounting to \$50,000, and injuries costing 64,000 man-hours of labor. "And most of these costs could have been prevented, if the victims had only lived and worked safely."

Livestock Distribution—A Problem

No matter which section of Texas you are located — whether it be here in the Panhandle or elsewhere, livestock distribution is a problem.

To most ranchers it is a very important problem, one to be considered. What the rancher is striving and working toward is the same amount of utilization on each acre of the range. If he was getting under utilization on some and over utilization on the rest then the result is not maximum production. This is what some technicians call "invisible loss."

There are several causes for faulty livestock distribution. Among these are the different kinds of range sites — livestock just seem to prefer some sections of the range in preference to others. The prevailing wind is another cause for faulty livestock distribution. Cattle usually prefer to graze into the prevailing wind.

Type of vegetation — brush type as opposed to open grassland — is another factor in improper distribution. Cattle usually prefer to graze open type range.

Rough Topography is another reason for uneven distribution. Most range country has areas inaccessible to livestock.

The above mentioned causes are among those the rancher doesn't have much control over. Utilization could be improved with the improvement of range condition within the mentioned range sites. In other words improvement of the better grasses on the poorer sites. Also brush control could and would in most cases improve distribution of livestock.

The competition for water and nutrients by the brush is eliminated when it is removed. This lets the suppressed grasses have more of a chance to come on out and grow.

However there are several things a man can do to improve his livestock distribution. Among these is salt location. For convenience most people locate their salt adjacent to water.

Salt can be an efficient tool if used properly for improved distribution of livestock. An old cow generally won't water and salt at the same time. That means an extra trip to and from the water just to get salt. It is generally thought if salt is located in some under grazed area away from water, distribution would be better because of it. If this area gets beat down then move the salt of some other un-

dergrazed part of the range. It won't take cattle long to relocate the salt.

Feeding away from water or houses also seems to be a good workable idea. An old cow is lazy, if she can eat and water at the same place then that's where she'll stay.

Good water distribution is the most recognized problem of distribution. Good water and good livestock distribution go hand in hand. An ideally watered pasture or pastures are few and far between mainly because suitable tank and well sites are hard to find.

Good livestock distribution as mentioned above can be obtained in several ways. If a person had a problem of distribution he could contact any member of the Donley County Soil Conservation District Board of Supervisors or the Soil Conservation Service personnel. They will be glad to work further with a person concerning it.

There are several ways to be a failure but never taking a chance is probably the most successful.

NEGLIGENCE CAUSES MOST FIREARMS ACCIDENTS

Carrying, possession and the sale of firearms is, for the most part, governed by law. But it is difficult to legislate against carelessness, yet it is carelessness that is responsible for the most firearms injuries and fatalities.

Almost half of all fatal accidents occur in the home. These generally happen when preparing to clean guns or pistols, in dropping a gun or knocking it off a support, in showing the "unloaded" gun, or in actual horseplay.

One of the greatest hazards from firearms comes from leaving them loaded and in places where they are accessible to everyone... including children.

Other precautions listed by TSA include:

1. Always treat a gun as though it were loaded — until you have proved that it is not; and never aim unless you intend to fire. Put firearms away unloaded, dismantled, with all ammunition in a locked chest.

2. Before a person is allowed to handle firearms alone, he should be taught how to use them, on a well-protected range under competent instruction.

3. When buying ammunition, care should be taken to make sure that it is suitable for the

gun in which it is to be used. 4. With many accidental deaths and serious injuries resulting from the mishandling of revolvers and guns, it is possible that the hazard created to members of the household may outweigh their protective value as defense weapons.

5. Loaded guns should not be leaned against trees, fences, walls or other objects, nor should they be left unattended.

6. When carrying a loaded gun, it should be kept on "safety" and carried in such a way that if the "safety" fails, no injury will result.

7. When climbing with a gun over or through obstacles, such

as fallen trees and fences, "break" the gun or open the breech and put the gun over the obstacle first.

8. Be sure of your target before you pull the trigger, and never shoot at a flat, hard surface or the surface of water.

9. It is also important to know the maximum range of the gun you are using so that your shooting will be kept within safe limits.

10. All hunters should know the laws regarding hunting and the use of firearms.

The happiness of your life depends upon the quality of your thoughts.

Warp's FLEX-O-GLASS

Over Your Doors - Windows A Few Dollars Is All It Takes

"Flex-O-Glass has made our porch a year 'round, livable room. The children love it!"

"Here's an inside view of our large screened porch. If you couldn't see the snow outside, you'd think it was taken in summer. What doesn't show is the crystal-clear Flex-O-Glass tacked over our screens—an invisible barrier between our home and winter. This is the second year we have used the same Flex-O-Glass. We expect it to last at least two years more. That means it will cost us only about \$15 a year to protect the rest of the house against drafts. We can leave our furniture on the porch the entire year and provide a warm, protected play area for the children. If you would like to use this letter to tell other home owners how much they're missing by not using your wonderful Flex-O-Glass to protect their homes against winter weather, you have my enthusiastic approval."

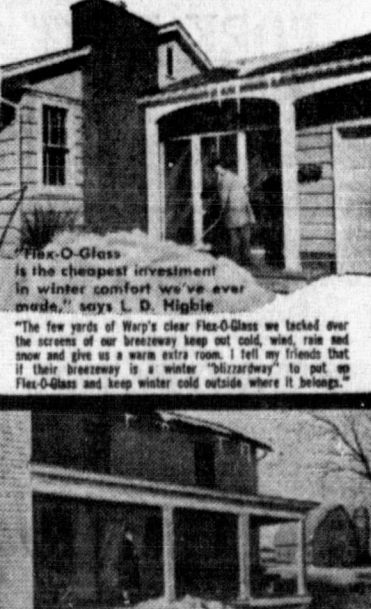

1/2 THE COST OF GLASS SAVE 40% ON FUEL!

Crystal Clear Plastic FLEX-O-GLASS GUARANTEED 2 FULL YEARS ONLY 78¢ SQ. YD.

Available in 3 thicknesses: 1/8 inch, 3/16 inch, 1/4 inch. TACK ON SECURELY. EASY TO DO... INEXPENSIVE TOO!

Look For The Name Warp's on The Edge. THERE IS ONLY ONE FLEX-O-GLASS. Made By Warp Bros., Chicago 51. World's Largest Producers of Plastic Window Materials—Since 1924.

"Flex-O-Glass is the cheapest investment in winter comfort we've ever made!" says L. B. Nighle. "The few years of Warp's clear Flex-O-Glass we tacked over the screens of our breezeway kept out cold, wet, raw and noisy and gave us a nice extra room. I tell my friends that if their breezeway is a winter 'breezeway' to get up Flex-O-Glass and keep winter cold outside where it belongs."

"Our living room was warmer than ever had been... such a relief not to have any more cold drafts on the floor," says Mrs. K. Klump from Wyo. "Our farm home is on a hill and gets the full blast of winter wind. Last winter we covered the front door and fire windows with Flex-O-Glass. It made the house much easier to heat. We're so glad on Flex-O-Glass that we're going to cover our entire front porch with it this winter. It was just a new catcher last year. With Flex-O-Glass tacked up, it will give us an extra room and double the protection for the rest of the house." (The outside this winter porch will require only 18 parts of Warp's Flex-O-Glass, setting only \$12.00.)

Cotton Farm Allotments To Be Set

Cotton acreage allotments for the 1960 upland crop are now being established for all the eligible farms in Donley County, according to the County Agricultural Stabilization and Conservation Committee. Notices of the allotments will be mailed to farm operators well in advance of the December 15 referendum on 1960-crop cotton marketing quotas.

For 1960, as in 1959, two allotments — Choice (A) and Choice (B) — will be set for each farm. If marketing quotas are approved by at least two-thirds of the growers voting in the referen-

dum, then each farm operator may elect a choice as to which allotment he wishes to comply with in growing his 1960 upland crop.

Choice (A) will be the "regular" farm allotment, and price support at not less than 75 per cent of parity available on the cotton grown in compliance with it. Choice (B) will be a 40-per cent larger farm allotment, and price support at not less than 60 per cent of parity available on the eligible cotton.

If marketing quotas are not approved by the necessary majority then only the "regular" allotments will be in effect, and price support on cotton grown in compliance with the allotments will be available at 50 per cent of parity.

Mr. Cooke pointed out that the 1960 county allotment — representing the county's share of the State Allotment, less any acreage reserve for new cotton farms — is divided among farms on which cotton was planted or regarded as planted in 1957, 1958, or 1959. An allotment may be regarded as planted if it was "reserved" under the Soil Bank Conservation Reserve Program or if it was otherwise preserved under some legal provisions. The minimum farm allotment for "old" cotton farms is the smaller of 10 acres or the farm's allotment for 1958.

Thanksgiving
As we approach the end of the year, we think of the activities of the year and find many things for which we may give thanks. We should give thanks for the material possessions that are ours. Sometimes we think we would like to have a bigger automobile, finer clothes, a finer home or a larger farm; but when we look around a bit, we see many less fortunate than we, so we say "thanks for what we have." We have a wonderful crop in spite of some adverse conditions. We have our health, our faith, our friends, our freedom to go, to do or to say anything that does not harm our fellow man. Most of all, we have our freedom to worship God as we choose. May we work for the freedoms we have and

Tigers Edge Bronchos In 28 to 20 Battle

The Clarendon High School Bronchos rung the curtain down on their 1959 football season here last Friday night in a losing 28 to 20 battle with the district champion McLean Tigers. The Tigers, paced by their great back, David Crockett, scored all their points in the last half to overcome a 14 to 0 Broncho half-time lead. The weather was bitter cold and only a few people braved the biting 15 degree weather to watch the contest.

The first half looked like the fighting Bronchos might upset the Tigers. McLean took the opening kickoff and brought the ball to the Clarendon 41 yard line before they fumbled with the Bronchos recovering. The Bronchos marched down to the McLean nine before they were stopped and the next time they got the ball they went down to the Tiger four where they were stopped. However, early in the second quarter, the Bronchos dented the score column when Quarterback Neel Carter hit end Philip Abel with a pass that covered 50 yards for the score. Abel caught the ball on the Tiger 25 yard line and outran the McLean defenders for the touchdown. Jim Robinson made the score 8-0 with a dash off tackle for the conversion.

Near the end of the first half the Bronchos score again when Dewey Wilson, aided by some good blocking, romped 85 yards. The little fullback cut through right tackle, then raced to the right side-line to pick up his blockers, then reversed the field to go all the way. The conversion attempt was no good but the Bronchos were holding a 14 to 0 lead at halftime.

The second half was a different story. Crockett, undoubtedly one of the best ball carriers in the Panhandle regardless of the size of the school, took over as he has been doing all season and showed the few brave fans why the Tigers are district

champions. The Tigers took the kickoff and marched to their first score with Crockett making the last yard. They went 69 yards in nine plays and Crockett carried on six of the plays, personally accounting for 61 of the 69 yards in the drive. The conversion attempt was no good. McLean's second score also came in the third quarter on a 12 yard pass play, Ken Williamson to Donnie Wood. This time Crockett made the extra points to tie the game at 14-14. Early in the fourth quarter, Crockett riddled the Bronchos for a 48 yard scoring run and also made the extra points that put McLean ahead 22 to 14. The Bronchos were not through, however, as they came back and scored once more when end Don Hudgins took a 5-yard pass from Carter for the score to bring the Bronchos to within two points of their visitors. However, the Tigers put the game on ice a little later when they drove 72 yards for a score with Crockett making the final ten.

The game was strictly an offensive affair with neither team showing a great deal of defense. Except for costly fumbles on both sides, each team could have scored more. The Bronchos had their biggest night so far as yardage is concerned. They picked up 17 first downs and made a staggering 365 yards rushing and added 60 more passing for a total of 425 yards from scrimmage. The Tigers made 18 first downs, 331 yards rushing and 40 passing for a total of 371 yards from scrimmage. The Bronchos also led in the penalty department, giving up 100 yards in eight penalties, to 35 yards for the Tigers on three penalties.

The Bronchos closed their season with four wins and six defeats. They defeated Turkey, Panhandle, Memphis and Lufkin, and lost to Stinnett, Spearman, Gruver, White Deer, Canadian and McLean.

Jerry Davis, son of Mr. and Mrs. Z. D. Davis, who is attending school at Mid-Western University, Wichita Falls, spent the week end here, and attended the football game.

CATHOLIC RECTORY RECENTLY COMPLETED

The Catholic rectory is now complete. Repairs have made the old house look like new. More than 100 feet of sidewalk has been laid. Circular walks connect the front entrance with the service porch on the north and connect the house with the east sacristy.

People from Groom gave \$25 and other gifts including household furnishings. Anonymous priest donors have been generous. Gifts came also from Sisters of St. Francis of Amarillo and the St. Dominic Sisters of Wellington. Many gifts from local parishioners are filling the rectory. Tables, rugs and silver services have been donated. Protestant friends have been generous. A local parishioner has ordered 32 trees to carry out the landscaping. A house warming is planned for the near future.

BROADUS SPIVEY HEAD OF CAMPUS CLUB

University of Texas students recently organized a "Lyndon Johnson for President Club" and laid plans for an extensive membership drive.

Headed by Broadus Spivey of Clarendon, the Campus Club is believed to be the first such group organized since Speaker Sam Rayburn launched the drive.

"We are finding tremendous support on the University campus for Senator Johnson," said Spivey, a law student. "About the only opposition we have is from a handful of Republicans and a few extremists."

Just as one smoldering cigarette can start a forest fire, one foreign diseased plant or one female insect pest ready to lay eggs could devastate a segment of U. S. agriculture. For this reason, when traveling outside of the U.S. don't tuck foreign fruits, plants, meats or other plant or meat products into your baggage and try to bring them home with you, warns Harlan E. Smith, extension plant pathologist, and Connie F. Garner, extension entomologist.
