IT IS TIME TO STOP AND THINK

(AN EDITORIAL)

In face of events which have taken place the past two weeks, the presentation of a petition signed by Funeral services for Mrs. Tres- Phillips 66 and Clarendin Little 667 residents, and the resignation of Dr. George W. Smith, it is time that our Hospital Board, composed of very capable personnel, be given a chance to function without further interruption.

> We believe our board is capable of making necessary decisions in regard to financing, construction, administration and of providing health care services to the residents of Donley County.

The finance chairman, Emmett O. Simmons, president of the Farmers State Bank and Trust Co., has been exploring every possiblity of obtaining money for the project from state level to Washington, D. C. It appears that grant money is pretty well out of the question but HUD loan money is still available.

We believe that without further interruption that District Home Demonstration our Hospital Board can settle down to business and Agent of Amarillo, get actual plans under way.

The Leader will continue to be available to defend the rights of the people we serve on any issue that might be detrimental to our community.

He also stated that he had no desire to be administrator of the new dis

Following the presentation of workable hospital facility for All the letter of resignation, visitors were asked to leave the meeting. As a courtesy to Dr. Smith, the board voted not to accept his resignation at that time and ask-

equal opportunities to use the formal notification of my resignation as Manager and Superof my employment be June 30, 1970, at the close of the Hospital District's fiscal year. I will practice of medicine in Clarendon prior to that date, but after adequate notice to my patients.

The following are my recommendations to the Board regarding specific measures related to their obligation to provide health care services in Donley County. 1. That immediate steps be tak-

en to hire an experienced District Manager and hospital adties before July 1, 1970.

2. That plans for recruitment of physicians should be begun right away. In this respect, I would suggest that you solicit committee help from non-board members who are known to be interested in the problem. I would recommend an attempt to attract at least two physicians right away, and would instruct the architect to provide clinic and office space for at least three doctors in the new building, with plans for easy expansion should additional doctors be needed in the future. I recommend that definite Hospital District policy be established on providing doctors clinic and office space, and that policy be established on such matters as emergency room coverage, treatment of the indigent, public health duties expected, and privileges in the hospital.

3. By all means, and at most any expense, keep the key professional employees during any interim or temporary management period.

4. I recommend that Adair Hospital's C.P.A. firm of Leatherwood and Ward of Fort Worth, Texas, be retained as accountants for the Hospital District, and that they be requested to assist in preparation of operating budget and loan applica-

5. Preparation of final formal application to H.U.D. for facilities construction loan needs to

be hastened. Please be assured that I will help and cooperate in any way during transition from my management of the Hospital.

AS YOUR STATE SENATOR

MAX SHERMAN

will protect your local district schools!

From interview in THE MOORE COUNTY NEWS, Dumas, on Feb. 22,

attended a non-city school, and I see the financing threat that non-metropolitan schools in Texas faced a year ago as a major problem in the Panhandle district, and it is one on which I have strong convictions," he told a group here Friday in an outline of

his campaign. "It will come up again in the next legislature, and the district needs to be prepared. My position is that every school student in Texas, whether he Houston or Dallas, has the same right to equal education. The large pulation areas of Texas dominate the egislature today, but this does not mean that they can shortchange school students in the smaller counties.

"I have studied this school problem with concern, and I am prepared to advocate strongly the position of the non-city schools, who will need a concerned and vigorous advocate. Their cause is right, and I will uphold it vigilantly, to the fullest of my ability, if I become your state senator," Sherman

How To Claim A Tax Mr. and Mrs. James F. Davis, Loss on Tornado Or Storm Damage

Many taxpayers in the tencounty disaster area will be able to claim a tax benefit on their sult of the recent tornado and storms, according to H. B. Hamill Administrative Officer of the Amarillo office of Internal Revenue Service, President Nixon has designated Briscoe, Cochran, Donley, Gray, Hale, Hockley Lamb, Lubbock, Parmer and Swisher Counties as a disaster area due to storms and tornadoes

May 12, 1970. Taxpayers who suffered a disaster loss due to the storms and tornadoes should get a copy of IRS Publication 547, "Tax Information on Disasters, Casualty Losses and Theft." This free publication gives full details on what records the taxpayer needs to claim his loss and how to claim he loss.

Mr. Hamill points out that a very large number of Plains area taxpayers may be able to claim an immediate tax benefit by decreasing the amount of tax withheld from their salary or wages. The taxpayers who will be eligiable to claim a substantial increase in their itemized deductions on their Form 1040 for 1970 can decrease their withholding tax by completing a new Form W-4 and a W-4 Schedule A at Mr. Hamill advised employers 1738, Dallas, Texas 75221." that Forms W-4 Schedule A "Determination of Withholding Allowances for Itemized Deduc- as have a total net acreage of years. tions," are available at IRS of- 658,023 and cover part of eleven fices. Taxpayers who file a 104- East Texas counties. OES Estimated Tax form and estimated tax payments for

quarterly payment due June 15. A few taxpayers who file fiscal being hog tied than to holler calf year tax returns may also claim the disaster loss on their 1970 return. Qualifying fiscal year Sign on a gift counter: For the taxpayers who have already filman who has everything give him ed their 1970 returns may claim their losses by filing an amended return Form 1040X or claim form 843 within three months

from the due date of their return Internal Revenue points out that some taxpayers who received insurance payments to reimburs

for the taxpayer and members of his household resulting from the loss or use of occupancy of his residence destroyed by the storm can exclude the living expense payments from income. This ad- when it is medically necessary ditional tax benefit came in the tax law change of 1969. Additional information concerning excluding insurance benefits covering living expenses can be obtained from IRS offices. tornado or storm loss are advised to keep complete and accurate

occurring between April 17 and records. Appraisals made before and after the damage, records showing the cost of properties, depreciation sustained, and insurance and disaster relief recoveries, are some of the important records that are necessary to establish losses. Photographs of property as it existed before it was damaged will be helpful in showing the condition and value of the property prior to the casualty. Photographs taken after extent of the damage will be helpful in establishing the condition and value of the property after it was damaged. Photographs showing the condition of the property after it was repaired, restored, or replaced, may also be helpful.

Taxpayers who find it inconvenient to visit the Internal Revenue Service local offices can order the publications by writtheir employer's payroll office. ing to "Tax Forms, P. O. Box

August 15 will be the final date for certifying cotton, feed grains, and diverted acres. If you certify animal health argued that the earlier, however, you will probably get your final payments earlier. Farmers should make their certifications as soon as posand the farm is in compliance with all program regulations.

After a certification has been made for a farm, it may be checked at any time. If errors are found, outside the allowable variations, the producer will be determined to have not fully complied and may lose some or all of his payments.

Fifteen percent of the partici pating farms in the county will be selected at randum for spo check. We have had a small per centage of errors in the past and most of them have been due to carelessness. We urge you to be very careful this year when you measure and report your crops Cotton

June 10 has been set as the final replanting date for cotton in this county. If cotton is planted and lost before this date, it must be replanted in order to be eligible for payments. If it is destroyed after this date and you want to plant to another crop, or you cannot plant, you must request approval in writing and have the land inspected before planting the other crop. Holiday

This office will be closed Friday, May 29, 1970, for a legal holiday.
