## County-Wide Crusade For Christ Big Event September 20-27

The County-wide Crusade for Christ, sponsored by the Ministerial Alliance and planned for several months in advance, will become a reality here this coming week with services each evening at 7:30 p.m. at the Clarendon Rodeo Arena. In case the weather is bad, the services will be held in the First Baptist Church.

In troubled times and uncertainty such as being experienced at this time, this Crusade for Christ is most appropriate and it is hoped that all residents of this county and surrounding area will make an exerted effort to attend any or all of the services planned for next week.

Rev. Ed Robb of Abilene will be the evangelist for the services to begin here Sunday night. Rev. and Mrs. Gene Moore, also members of the Ed Robb Evangelist Association and former residents of Clarendon, will be bringing the gospel in song at the county-wide Crusade.

Mr. Robb provides dynamic leadership. In 1968 he made a trip around the world with part of his evangelistic staff, carrying the Good News to thousands of people. He has toured Latin America in his evangelistic work and has preached in six states and many cities. The team has had many city-wide interdenominational crusades and more than 50 local church evangelistic missions.

The Moores feel that there is reawakening to spiritual truths in the church. "We know you don't have to be old fashioned to be a Christian. Christianity and the Gospel are not old fashioned. Christianity is up to date and modern. We are living in a new day, and the truth of the Gospel, the reality that God does change us and our lives is something that affects us in the twentieth century as powerfully as it did in the first century," they say.

## Farm News

from County ASCS Corp.

### New Program Information

To date we have no official information on the new farm legislation. We do not know what effect, if any, new legislation may have on the 1971 wheat allotments. The only thing we can officially tell you is that your ASCS organization will get any and all information to you as soon as we possibly can after we receive it.

### County Convention

Ballots were tabulated on September 15 and those elected have been notified. These newly elected committeemen will meet September 25 at 10:00 A.M. in the Donley County ASCS Office to elect one member and two alternate members of the county committee. This convention is open to the public.

### Emergency Grazing

Most of you who signed up to graze diverted and CAP acreages signed up for only a month at a time. This is just a reminder that you must let us know if the cattle are taken off at the end of the grazing period. If you wish to graze longer, you must come in and renew the approval.

### A Thought

"The farmer is the only business man in the world who has the courage to try to make a living by selling at wholesale and buying at retail."

## Bronchos Defeated By Childress 40-13

The Bronchos lost their first game of the season to the Childress Bobcats here Friday night 40-13 but made a real good showing against the heavier, more experienced visitors.

The game was much closer than the score indicated with the Bronchos putting up a stiff resistance throughout the game.

Childress opened the scoring early in the first quarter with Keith Woods racing for 64 yards and the first score. Dickie Nations plunged over from 2 yards and Childress was in the lead for 30 yards and paydirt for Clarendon. Scotty Lindley kicked the extra point. Quarterback Mac Tomlinson broke into the open in the second quarter and sprinted 64 yards for the next and last Bronco score. Lindley's kick failed.

Childress scored two more times in the second quarter and one in the third period to wind up the scoring in the game. Most of the last half was a see-saw affair with numerous punt exchanges.

The Clarendon defense showed up real well considering the fact that they were outweighed several pounds to the man. They showed evidence of being well coached and well conditioned.

## TSTI ENROLLMENT ENDS FOR 1ST TRIMESTER

Jerry Green, son of Mr. and Mrs. Horace Green of Clarendon, has enrolled as a student at Texas State Technical Institute, Amarillo. He will study Farm and Industrial Equipment Mechanics.

Enrollment at TSTI campus ended September 15 for the first trimester. The next trimester will begin January 4, 1971.

The new Vocational-Technical School is located on portions of the old Amarillo Air Force Base. The course of study is divided into trimesters, three 15-week periods. Other than the above mentioned course, training includes Airframe Mechanics, Commercial Art and Advertising, Livestock and Ranch Operations, Building Construction Craftsman, Graphics and Design Technology, and Technical Communications.

Don't hesitate to let the other driver go even though you have the right of way. A wrong move would make you dead right.

## First Good Moisture In Several Months

The rains finally came but too late to help the present row crops to any great extent. The moisture will be of great benefit in getting winter grain crops up and growing for winter pasture purposes. With a late frost there is a possibility of some grass but the greatest benefit will be helping the grass grow thru the winter without freezing out or dying otherwise from the extreme drouthy condition.

Here in town our weather observer measured a total of 1.51 for the spell and the month so far. This brings the year's total to 7.22 inches. This figure shows we are presently 5.40 inches under the driest year on record in Austin which was in 1927 with a total for the entire year of 12.62 inches. We still have 3 1/2 months to go to reach this figure but it is unlikely that we will ever reach the average rainfall total of 21.51 inches.

Some areas south and east of town received two to five inches of moisture in the downpours Monday and Tuesday.

## Farmers Home Adm. Reports Record Year

Armstrong Donley, and Gray Counties have just enjoyed a record year of homebuilding and home improvement through credit services of the Farmers Home Administration, the agency's supervisor, Claude Moore, said today.

Mr. Moore reported that \$254,400.00 was channeled into the counties through 32 loans for better town and country housing during the fiscal year ended June 30. Loans the previous year totaled 23 for \$131,790.00.

Farmers Home, a Department of Agriculture agency, supplements all other housing credit available in towns of up to 5,500 population and the rural countryside. The loans provided better housing for an estimated 96 people in the three counties.

"The record for fiscal 1970 means that our housing service was 39 percent greater the past year," Mr. Moore said. "This upstream was directly opposite to the general national downturn in housing activity."

Mr. Moore added that the year begun July 1 appears certain to topple the record set in fiscal 1970. The agency is geared to virtually double its housing services again this year, with \$1.4 billion in authority nationally to insure home loans for families of low and moderate income.

Eligibility covers people of low and moderate income, including senior citizens, in rural towns of not more than 5,500 people, plus farm and nonfarm residents of the countryside. If a loan cannot be covered by a local lending institution, Farmers Home advances the loan from a revolving fund, then finds an investor elsewhere to take over the government-insured loan note.

Loans are made in Armstrong, Donley, and Gray Counties through a system of four local county offices, located in Claude, Clarendon, Pampa, and McLean.

areas of the state, has 40 per cent of the nation's class TC hospitals.
Another fear of the Committee is that if the small hospitals close their doors many physicians will move away due to lack of hospital facilities.
IMMUNIZATION LEGISLATION UPCOMING - Gov. Preston Smith says he'll ask the 62nd legislature, which convenes in January, to pass legislation requiring immunization against several communicable diseases before a child may enter Texas schools.
Governor proposes compulsory immunization against measles, polio, whooping cough, tetanus and - in the wake of the epidemic in San Antonio - protection against diphtheria.
Smith said figures available to him for 1968, the latest year for which complete data is available, indicate that Texas has the highest incidence rate in the nation for measles and polio, the second highest for diphtheria and the fourth highest for whooping cough. Tetanus is not an epidemic disease, but a single injection generally immunizes against diphtheria, whooping cough and tetanus.
ATTORNEY GENERAL OPINIONS - A non-profit, charitable organization which conducts a driver training program must be licensed to do so by the Texas Department of Public Safety, says Atty. Gen. Crawford Martin. The exceptions are training or classes conducted by colleges, universities, high schools and junior high schools for regularly enrolled students.
In other recent opinions, Martin concluded that:
- A county may extend City-County Health Unit services to a city within county boundaries, even though the city does not participate in the unit; however, the county may contribute only those services normally made available by the county unless the city wishes to join the City-County Health Unit.
- Justice of the Peace is not entitled to collect a fee for actions transferred or dismissed without trial from his court.
- Commissioners Court may authorize travel expenses of an expert witness to appear at an HEW Committee hearing in Washington, D. C., to give evidence of the need of federal funds in certain poverty areas in the county. Commissioners Court may also authorize travel expenses

for Chairman of a County Historical Survey Committee necessary to the performance of his duties in that capacity; and Court has power to create a Museum Board to manage a County Museum and pay travel expenses of the board members in carrying out their duties in those capacities.

Highlights and Sidelights From Your State Capitol By Vera Stanford

AUSTIN, Tex. - Just when highway construction in the state is at an all-time high, the Texas Highway Commission has cancelled the regular December lettings of highway contracts.
Commission blames the contract moratorium on the recent backback of part of Texas' apportionment from the Federal Highway Trust Fund. Action came at a time when, because of favorable weather, highway construction was at its highest.
For the past two months, payout for construction completed by Texas Contractors has set new records in dollar volume.
Contractors were paid \$42.6 million in July for work completed in June and \$46.5 million in August for work completed in July. Payments represented work on 501 contracts in June and 593 contracts in July.
Federal Aid Highway Act of 1968, as approved by Congress, provides that states should receive \$5.4 billion for the 1971 fiscal year from the Highway Trust Fund. Amount allocated, however, was reduced by the Administration, Highway Commission Chairman Dewitt Greer said, to \$4.6 billion nationally and resulted in a reduction of the Texas share from \$275 million to \$200 million - \$75 million less than was expected.
Proceeds in the Federal Highway Trust Fund are derived from special taxes levied on motor vehicle users. Fund was set up in 1956 to provide a stable source of revenue for the construction of National System of Interstate and Defense Highways.
Cancellation of the December bid letting is the first since World War II, Greer said. The Commission Chairman said the reduction has come because the condition of the finances of the Federal Government has required that it borrow money from the Federal Highway Trust Fund for government operation even though the trust fund was established for the specific purpose of building the highway system from highway user revenues.
Greer said the "motor vehicle users of this country, who pay these dedicated taxes, have every right to expect that the Federal Government return to the highway system these revenues, in accordance with agreements made 14 years ago."
HOSPITAL TROUBLES IN TEXAS - State Rep. R. H. "Dick" Cory and House Speaker Gus Mutscher made a trip to Washington seeking better interpretation of recent Social Security regulations which threaten to close 138 of the state's hospitals.
Most are in rural areas and are having extreme difficulty complying with new regulations such as the one requiring them to have registered nurses on duty around the clock. A Texas nursing shortage of 10,000, plus the difficulty of finding nurses willing to live in smaller communities, contribute to the problem.
Hospitals which do not comply with the regulations are in danger of having Medicare payments terminated, which would in turn force them to close their doors. Representative Cory, who is chairman of a special Speaker's Committee on Texas Health Care, noted that Texas, because of sparse population in wide

"Have courage for the great sorrows of life and patience for the small ones; when you have laboriously accomplished your daily tasks, go to sleep in peace. God is awake." Victor Hugo.

"Certain thoughts are prayers. There are moments when, whatever be the attitude of the body, the soul is on its knees." Victor Hugo.

"I am only one, but I am one. I can't do everything, but I can do something. And what I can do that I ought to do, and what I ought to do, by the grace of God, I shall do." Edward Hale.

The above quotations are from a collection treasured by Norman Vincent Pelee. The beautiful published copy was given to me by my children. It is so wonderful to be given lovely things by those we love. It makes even birthdays seem a bit more special in passing.

Dear God thou art the mighty one—

Common sense is said to be the knack of seeing things as they are, and doing things as they should be.

Unless we make a few mistakes it is not likely that we make anything.

The Board of Directors of the Donley County Hospital District met in a regular meeting September 9, 1970, at 7:30 o'clock P.M. at the City Hall with the following Directors present: O. C. Watson, John Jones, Lloyd Risley, Delbert Robertson, Ernest Barbee, Earl Wheatley and Jane Bownds.

Minutes of the previous meeting were read and approved. The President welcomed Mr. Bob Underwood and Mr. Jack Morris, the financial advisors of the Board.

Delbert Robertson presented the Financial Advisors to the Board, and asked them to explain to the Board the methods of selling bonds, rates of interest and to answer questions presented to them by the Board.

Mr. Underwood and Mr. Morris informed the Board that bonds could not be sold unless we had sufficient bonds to complete the proposed building. Only a 40c tax rate can be used for building purposes. The interest rate on bonds at this time is 7 1/2% for a long term bond. Mr. Underwood will contact Mr. Goss, the Architect, about the plans, then asked that the Board call a

meeting for Wednesday Sept. 16, 1970, to meet with Mr. Goss and Mr. Underwood. The President called the meeting for September 16, 1970, at 7:30 o'clock P.M.

Mr. Watson, John Jones, Delbert Robertson, and Ernest Barbee made a trip to El Dorado, Texas to inspect the hospital building. All of the Committee was impressed with the building. The El Dorado hospital was built two years ago at a cost of less than \$500,000.00.

The Committee went to Austin to meet with Hill-Burton authorities and to Dallas to meet with Housing Urban Development authorities. Mr. Goss met the committee both in Austin and Dallas. After being advised that at the present time funds were not available, the committee

considered the selling of bonds to expediate the construction of a hospital building.

After a full discussion of the matter at hand, John Jones made a motion that the Board proceed in their efforts to sell tax bonds and to build a hospital building. Motion was seconded by Jane Bownds. Motion carried unanimously.

John Knorpp presented a monthly financial statement to all Board Members.

John Knorpp presented the monthly statements. After a discussion and corrections made, Earl Wheatley made a motion that the statements be approved as corrected and paid. Motion was seconded by Delbert Robertson. Motion carried. Motion was made by Earl Wheatley that this meeting be adjourned. Motion was seconded by Ernest Barbee. Motion carried.

Jane Bownds, Secretary.

Frieda Sidle and Mrs. J. H. Helton enjoyed the week end in Big Spring with the Fred Smith family and in Midland with the Larry Don Phillips. They also visited Mrs. Frank Helton and children in Odessa and Frank Helton in the hospital at Andrews.
