ROMANS 21:2 - "Be not comformed to this world: but be ye transformed by the renewing of your minds, that ye may prove

Once a metropolitan newspap-

er, in an editorial on the church page, commented upon the world the modern church must serve. It said that the present generation is "trying to drink its way to prosperity, war its way to peace, spend its way to wealth. and enjoy its way to heaven." And, I suppose, many there are who will agree that this is just what the church itself is trying to do. If so, it is a serious indictment of not only the church as an institution, but also of each individual member who makes up the church - such as you

Don't you dig it man? The world in which you and I live is largely hostile to God's will! This is made quite evident at the outset of the ministry of Jesus when, following His baptism He goes into the wilderness and is tempted of the devil (Matthew 4:1-11). The primary concern of the devil was to get Jesus committed to a course of action which was in harmony with his own, e.g., in the terms of Paul's letter to the Romans, getting Jesus to conform to the world. Jesus would have been an instrument of the devil, rather than an instrument of God. But, Jesus would not conform and demanded of the devil, saying (Matthew 4:10): Get thee hence, Satan for it is written, Thou shalt worship the Lord thy God, and Him only shalt thou serve. Therefore, neither must we who call ourselves Christian be conformed to this evil world; but, by God's Grace, we must be so transformed that we break

Spirit that we prove what God wants us to do in this world. Here in his letter to the Romans Paul reminds us of what God has called us to be and to Because of what God has follow a new way of life, a life in response to the mercles of God. And, this new way of life in worship with its membership. Paul speaks of as presenting our bodies as a living sacrifice (Romans 12:1), e g., thus we individual personalities which often finds itself in conflict with

mores of the world. This, then, raises the ageas the church labors in the world in American Junior Colleges. for the sake of the world, it runs the risk of becoming tarnished by the society it seeks to serve and falling into the pitfall of compromising with evil. Well, Paul says we can be in the world for the world's sake, but not conform to the world by doing two things.

FIRST: We can renew our man is neither necessarily good or bad in itself and does not inevitably enable a man to grasp the truth of God. Jesus Christ has an important effect on the way a man thinks; and only the mind that is renewed by Him can discern the will of God, What is good and acceptable and perfect, And when God proclaimed (Revelation 21:5) Behold. I make all things new, He definitely included the mind of those committed to desciple-

ship in Christ Jesus. SECOND: We must prove that which is good and acceptable and perfect will of God. This involves new ethical and moral judgements in the life we live. The Christian has thus the ability to prove what God's will is in the concrete situation of his life. He no longer judges acards of this world. His aim is to walk in Christ (Romans 12: 9-21).

**Donley County Hospital District** 

I am a candidate for the Donley County Hospital Board and being a candidate for the Elected Membership of the Board I would like to express my feelings to you in order to clarify any misunderstandings.

I am now, and have always been, for the growth and betterment of all of Donley County. I am extremely proud of our beautiful new Medical Center Complex and believe it must be opened at the earliest possible date.

I do however want it opened to all qualified physicians desiring to make use of the facility and I do want it managed by an Administrator with Board guidance and Board approval of expenditures, as is required by law.

We have a wonderful County and we have the best people in the world within the County and this surrounding area. We must consider that the Medical Center is, and will be supported, by each and every tax payer within the District, not just some in Clarendon, not just some in Donley County, but all Donley County tax payers, and these taxpayers, by their support, deserve to use the physician of their choice when hospital care is needed.

We all realize, I am sure, that it will take at least two physicians, and possibly three, to serve the people of the entire County and to staff the hospital properly. We have much to offer, in the way of desired potential, when contacting physicians to come to our area. and they will come to our area if they realize we are pulling together to provide the people in this District with the very best of Medical Care obtainable.

I do promise that if you choose to elect me to the Board, that I will continue to work for the very best of Medical Care for all the citizens of the District at the least possible cost to the taxpayer. I assure you that I will not knowingly vote for any illegal payment of monies to anyone, nor will I knowingly vote against anything that will be in the best interest of the taxpayers within the District.
