

Bids revealed for Greenbelt Water Authority expansion

Bids for new construction to increase the operating capabilities of the Greenbelt Municipal and Industrial Water Authority were announced last Wednesday at the regular monthly meeting of the Greenbelt board.

A group of approximately 30 representatives of the six construction companies bidding on the contracts were present at the meeting.

A tentative low bid approval was granted to Goolsby Building Corp. of Temple. The corporation's bid for the five item improvement list was \$1,282,187.

Other companies bidding on the improvements were: Bryan Construction Co., of Bryan with a total bid of \$1,289,000; T.O.K. Co. Inc. of Amarillo, total bid \$1,320,554; Panhandle Construction, Lubbock, total bid \$1,375,500; Chaney and Hope Construction, Addison, total bid \$1,526,000; and Chicago Bridge and Iron Co., Tulsa, Okla., total bid \$1,556,840.

The bids were estimates of costs to construct five general improvements to the present water system.

James Kuhn, general manager of the water

authority, said the proposed additions, when completed, would assure a sufficient water supply for the area even during peak periods of water usage.

The first area of construction bid on by the contractors was the addition of two water pumps to the Greenbelt water plant five miles north of Clarendon. The addition of these pumps would boost the plant's water pumping capabilities from its present estimated maximum capacity of six million gallons per day to a potential ten million gallon pumping power per day. This increase in water

flow would also create the need for construction of more chlorinating machinery at the plant and the addition of a multi-media filtering system. A pump would also be added to the Lake Greenbelt raw pump water station. The Goolsby Building Corporation's estimated costs of this construction was \$206,000.

Other additions to the Greenbelt water plant bidded on included the construction of a stand-by chlorinator and a fiber-glass building to house it. State safety regulations require these chlorinators be housed outside the main plant because

of the possible dangers working around chlorine gas. Goolsby's bid for this addition was \$25,000.

Other new planned construction would allow maximum use of the water plant's increased water pumping capabilities.

As part of this, bids were also accepted for the construction of a pump station housing four water pumps west of Childress. This improvement would also require the addition of a chlorinator and a four million gallon capacity ground storage tank. Currently, water reaches Childress from the

water plant by gravity flow. Building the station will make pumping water to Childress possible. Estimated costs of construction in the Goolsby bid for this was \$519,187.

A pump station addition to the Quanah area was also part of the construction bid. Along with building the station, installation of supervisory equipment which relays the amount of water flow and water tank levels to the Greenbelt water plant is planned. An existing million gallon water tank in Quanah will be used for the planned pump station. Goolsby's bid

for construction was \$165,000.

Final construction included in the bid was the installation of a new million gallon capacity water tank five miles south of Quanah. Estimated costs for installation and purchase of the water tank was set at \$367,000 by Goolsby.

Goolsby's estimated time of completion for all construction was 450 calendar days.

The construction low bid is currently under tentative approval awaiting final approval by the Farmer Home Administration, a

federal organization which has agreed to furnish a \$700,000 grant for the construction, and approval by the Texas Water Development Board, the state organization which purchased \$750,000 worth of bonds sold by the Greenbelt Water Authority last July.

Kuhn said official approval of the bid would probably be announced at the water board's next monthly meeting Feb. 4 in Childress. The Goolsby Corporation, if approved, would then have thirty days to begin construction.

Business of the Week—Bone's Auto Repair

Mechanic develops labor saving devices

Homer Bones has made a profession out of "about the only thing I've ever been interested in," working on small gasoline engines.

Homer Bones has had his own auto repair shop in Clarendon since 1936 and has been at the present location, 311 E 2nd Street since 1941.

Bones first shop was in the old Buick house at 200 S. Carhart. This site was later the Palmer Motor Co. and recently has become Greenbelt Motor Co. He moved to his present shop in 1941 when he built the building.

Although he once did much work on cars, he now only works on small engines. These small jobs are on starters, alternators, generators and other minor repair for gasoline engines.

Homer believes today's engine is better than those manufactured 20 or 30 years

ago. He doesn't think, however, it is more complicated. "The auxiliary equipment is the reason for the complicated automobile of today," he said.

"Only past experience keeps me going on the jobs now. It just comes naturally after so many years, kind of like doing it blindfolded."

Proof of the interest in his work is the number of tools he has developed for his own use in his shop. Some of these are as simple as the overhead air-hose supports which enable him to keep the hoses out of the way but near at hand in any of the four corners of the shop.

One of the first tools he made was a light attached to a flexible stand. The advantage of the light is the flexibility in positioning it. It is adjustable to several feet of height or may be used at floor level. It has been in use

in the shop since Bones completed it in 1920.

Another tool he devised and he calls a "body support." This piece of equipment will support a man in a position over the engine, enabling him to work more easily. This rack, or body support, is adjustable for use on either a small car or truck. For comfort the small panel supporting the center of weight is padded. The rack rests on the floor and the height is adjustable.

Realizing how much time is saved by the proper rigging of a part for repair, Bones came up with still another tool which holds a small engine from a power arm that swivels, allowing the mechanic easy access to the engine.

Another time saver is a magnet holder that bolts the magnet into place for positioning at any angle.

There are numerous other hand-made tools in the shop which have been crafted through time by Bones.

Storage for many of his small hand tools is in an oak cabinet that has belonged to Bones since 1928. He copied the cabinet and made a second one to store more of the small tools because it proved to be such a handy size and the arrangement was to his liking.

Some of the tools are completely out of date and are stored together on shelves. Bones said he is reluctant to dispose of them.

Bones is married to Viola Bones, an employee of the Texas State Department of Public Welfare. The couple has two children, a son Jerry who lives in Amarillo and has two children, and a daughter, Mrs. W.E. Price (Gale), who lives in Houston and has one child.

New in town

Mr. and Mrs. D.L. Price, formerly of Charleston, S.C. and sons Anthony S. Scott 4, and daughter Wendy 15 months, are new residents of Clarendon.

Price is the service manager for Alderson Chevrolet.

The family was enroute to the west coast where Price had a job waiting for him. After stopping in Clarendon to visit with a friend, the decision to remain in Texas was made. They like the town and the townspeople and plan to stay in Clarendon said Price.

CC freshman injuries fatal over holidays

Robert Calhoun, a freshman at Clarendon College, was killed Jan. 6 in what was termed a "freak accident" at a feedlot west of Dimmitt. He died from injuries received when he was caught in a hydraulic gate of a multi-purpose working chute at the feedlot. He had been working at the feed lot during the college holiday break.

Calhoun, a native of Dimmitt and the son of Mr. and Mrs. Edward Calhoun, was a pre-veterinary major at Clarendon College. He was a 1975 graduate of Dimmitt High School. There he was an all-district end in football and received honorable mention in the All-South Plains football selections. He was also a member of the state championship basketball squad, the Dimmitt Bobcat Band and the D Club in high school.

Revival services to begin

The United Pentecostal Church will be holding revival services nightly beginning Sunday at their church located on the corner of Montgomery and Faker St.

Minister for the revival will be Rev. John Newson of Burk Burnett. Lawrence Thompson, pastor of the United Pentecostal Church, encouraged everyone to "come and visit as Brother Newson inspires us in song and music and blesses us with the word of God.

"Bring your sick -- God still heals today. If you want more of Jesus in your life, come to these services," Thompson said.

Barrow show scheduled Monday

The Donley County Barrow Show will be next Monday at the Show Barn with judging set to begin at 1 p.m.

Bill Porter is still a patient in St. Anthony's Hospital in Amarillo. He is in improved condition. He is in room 308.

Verdie Herrington is a patient in St. Anthony's Hospital in Amarillo in room 206. She is getting along very well at the last report.

Show judge will be Dr. Don Beerwinkle, associate professor of animal science at West Texas State.

Members of Donley County FFA and 4-H clubs will be showing approximately 45 barrow hogs, 12 gilts and three lambs. The barrow division will be classed according to breed. Expected entries include Berkshires, Chesterwhites, Yorkshires, Durocs, Poland Chinas and Spotted Poland Chinas. Show entries will be ranked according to how they

place in their respective classes. There will be a Breed Champion and a Grand Champion selected in the barrow hogs. A Grand Champion will also be picked from the gilt class.

A "Showmanship" award will be presented to the best showman of all entries.

Barrows and lambs shown at the Donley County show will also be shown at Amarillo, Fort Worth and Houston livestock shows. The Amarillo show will be Jan. 20-26.

Just returning from a winter vacation to Snow Mass at Aspen, Colorado are Dr. and Mrs. Rip Gilkey, Jim and Loyce Moore, Tina Moore, John Moore, Cathy McElroy of Waxahachie and her brother Pat also of Waxahachie and Candy Monroe. The group spent ten days in the beautiful winter playground after leaving Clarendon Christmas afternoon. How to start catfish farming topic of new booklet by SCS

How to grow catfish on farms is the subject of a new booklet written by USDA Soil Conservation Service biologists. The booklet, "Catfish Farming," replaces an earlier publication on the same subject.

Monty Sowers, district conservationist for SCS at Clarendon, says the new booklet tells how to raise channel catfish, blue catfish, and white catfish in ponds, raceways, and cages.

"Catfish have a high growth-to-feed ratio," Sowers said. "Properly managed fish can sometimes produce a pound of gain for as little as two pounds of feed. That compares with a pound of gain for every 5 1/2 pounds of grain, or more, fed to beef cattle."

High quality water is essential of growing catfish. The water should be above 70 degrees for at least four months out of the year. The booklet outlines methods of commercially producing and harvesting catfish.

Sowers said a well designed catfish farm should include separate ponds for breeding, rearing, and holding fish. At least one separate holding vat would also be needed. A typical farm might consist of about 40 surface acres of ponds with 10 to 20 acres for roads, levees, and other facilities. It would include five ponds of 1 acre each for breeding, rearing, and holding fish and

five production ponds averaging 7 acres each.

Catfish can also be raised in raceways where water is scarce and must be reused or where the land is too steep for economical pond construction. A fish raceway is a long, narrow channel especially designed for fish production through which there is a continuous flow of water.

Cages are used in water where it is impractical to grow and harvest catfish by regular methods. Cages are

made of corrosion-resistant wire on wooden or metal frames, have a hinged door on the top for feeding and harvesting, and are floated by Styrofoam blocks.

"Help in pond design and location is available for SCS offices," Sowers said, "since there are several hazards to raising catfish, producers should plan their operation carefully." he warned.

Single copies of the new booklet, "Catfish Farming," are available free, from SCS offices. For more information, contact the Soil Conservation Service in Clarendon.

Howardwick Partyline, visitors at the lake

by SHARON MILLS

The Howardwick Lions Club is starting the year off with a very good start. Three new members were initiated into the Club last Saturday evening. They were Morgan Cox sponsored by Will Corgill; Clarence Smith sponsored by Jim Corgill and Elvis Duck by Vernon Berry. The guest speaker was Beryl Clinton, dean of Clarendon College. The topic of his talk was "Clarendon College." Glenn Doty and Jimmy Dunn went to a Zone meeting in Paducah Thursday.

The Howardwick Baptist Church had a dinner Sunday after Church for Dana Perdue. Dana has been the pianist for the Church. She is leaving to attend College.

Mr. and Mrs. Ralph Bengue were down for the weekend.

Sympathy is extended to the Doil Douthit family on the death of Mrs. Douthit's father, Mr. Burton, who was buried Friday in Denver Colorado.

Homemakers meet Monday

The Clarendon Homemakers will meet at the Lions Club Hall Monday night at 7:30.

This is the second organizational meeting for home demonstration clubs in Clarendon. Because of the interest shown in home demonstration, current plans are to organize a club to meet at night for working women, and also one to meet during the day. All women interested in any kind of home economics-related educational program are urged to attend.

George Hughes has been a patient in Hall County since Thursday.

Mr. and Mrs. Lynn Cherry of Amarillo were also here for the weekend. They were accompanied by Genie's mother, Mrs. Grace Burton, Doug, the Cherrys' son was here last weekend.

Ronald and Mary Castner of Lelia Lake ate supper Thursday with his uncle and aunt, Morris and Eddie Castner. It was Morris's birthday.

Mrs. Velma Collins spent Saturday night with her granddaughter and family, Rita and Timmy Fowler of Panhandle. The Fowlers spent Sunday with Mrs. Collins. Mrs. Collins other guests Sunday were her son and wife, D.A. and Betty Collins of Memphis.

B.B. and Bernice Winkles have been in Amarillo visiting Bernice's mother, Mrs. Ruth Hollingsworth, Mrs. Hollingsworth fell December 31, but is now better.

Fannie Wilson's grandchildren, Dwight Wilson and Barbara Neeley with daughter, Stephanie have moved to Plainview with their parents, Corky and Alice Wilson. Orvis Crocker of Amarillo, who is a friend of the Herman Greens, has bought four acres in Carroll Acres. He is going to move a house in.

Mr. and Mrs. Arthur Clark of Hereford and girls, Lora Lee and Beth were down for the weekend.

Don't forget the Chili Supper at City Hall this Friday at 5:00 p.m. There will be drawing for two gift certificates, a \$25.00 one given by John's and a fifteen dollar one given by Spier's. The supper is being sponsored by the Howardwick Volunteer fire department.

Why don't you call 2015 if you have any news.

Oh yes, there will be a singing at the Senior Citizens Center this Sunday at 2:30.

ATTEND WORKSHOP -- Local 4-H leaders (from left), Freddie Jo and Jack Moreman and Cynthia Manning, attended a 4-H Leader Training Workshop last weekend at the new Texas 4-H Center near Lake Brownwood. More than 230 leaders from across Texas attended the weekend workshop conducted by Specialists of the Texas Agricultural Extension Service. Persons wanting to attend a workshop at the Center can get information from their County Extension Agents.

Ralph Maxwell Keys funeral rites Sunday

Funeral services for Ralph Maxwell Keys, age 77, a resident of Clarendon and Donley County since 1902, were held at 2:30 p.m. on Sunday, Jan. 11, 1976, in Schooler-Gordon-Robertson Funeral Chapel with Dr. James O. Brandon, pastor of the First Baptist Church, officiating. Interment was in Citizens Cemetery with the arrangements under the direction of Schooler-Gordon-Robertson Funeral Directors.

Mr. Keys was dead on arrival at 8:50 a.m. on Friday, January 9, 1976, at Medical Center Clinic. He was born on December 22, 1898 in Wichita Falls, Texas and came to Donley County in 1902. He married Betty Reasonover in Rockwall, Texas on February 26, 1925. He has been a barber in Clarendon for over 63 years, and at the time of his death he owned and operated the

Keys Barber Shop. Survivors include his wife, Mrs. Betty Keys of the home; one daughter, Mrs. Maury Nell Johnson of San Diego, California; one son, Max Keys of San Diego, California; a grandson, Craig Johnson of Santa Ana, California; a step-granddaughter; and three great grandchildren.

Arbor Day tree planting suggestions

With Texas Arbor Day coming up January 16, many people will be planting trees, shrubs and vines. For successful transplanting, particular attention should be given to a few details, points out Ronald Gooch, county agent with the Texas Agricultural Extension Service.

In transplanting any woody plant, the planting hole and backfill used are extremely important, emphasizes Gooch. The old saying that "it is better to use a \$1 plant in a \$10 hole than to try to squeeze a \$10 plant in a \$1 hole" is still true. The hole should be just deep enough to allow the tree or shrub to be set at the same depth it was in the container or at the nursery.

The poorer the soil, the greater should be the diameter of the hole, notes

Gooch. A good rule-of-thumb is to make the pit at least one-and-one-half times larger than the root ball.

If the existing soil is to be used as backfill, it should be enriched with at least one part peat moss or compost to two parts soil. Work the soil mixture in around the roots of a bare-root plant or pack it in firmly around the soil ball of a container or balled-and-burlapped plant. When the pit is about two-thirds filled with soil, water thoroughly and allow the water to drain before completely filling the hole with backfill.

Gooch suggests building a dam or berm about 8 to 12 inches beyond the edge of the hole as an aid in watering the first year or two. Trees over 4 to 5 feet high should be staked or guyed, especially if they are evergreen. If using guy

wires, run the wire through a piece of old garden hose before placing it around the trunk to prevent damage to the bark. Check frequently to be sure the tree is not being girdled.

Care after planting is important, emphasizes Gooch. Water regularly and thoroughly when needed but do not overwater as this keeps soil pores filled with water and slows root growth. Use a mulch around the base of the plant to keep down weeds, conserve moisture and prevent soil compaction. Fertilize only after the plant is well established.

Further information on transplanting woody plants is available at the county Extension office.

Gooch encourages everyone in the county to seriously consider planting at least one tree on Arbor Day. Remember, as you plant a tree, you are planning for the future.

Religious Thoughts

Fruit Bearing

By JAMES O. BRANDON

Jesus Christ indicated how one could know a Christian: "A good man out of the good treasure of the heart bringeth forth good things; and an evil man out of the evil treasure bringeth forth evil things" (Matt. 12:35). Jesus indicated that a Christian was not only one who believed something but one who did something: "But he that doeth truth cometh to the light, that his deeds may be made manifest, that they are wrought in God" (John 3:21). The Lord Jesus spoke of doing truth, not just believing truth.

It is evident in the Scripture that Jesus Christ expected his people to be doing people. Upon one occasion he said: "A new commandment I give unto you, That ye love one another; as I have loved you... by this shall all men know that ye are my disciples, if ye love one to another" (John 13:34-35).

You may have eight hours of work daily, during which your brain has to be occupied with temporal things; God orders it so. But abiding in Jesus Christ is the work of the heart, and not the work of the brain. Abiding in Christ results in fruit bearing, with the heart clinging to and resting in Jesus. It is a work of the Holy Spirit that links us to Christ.

Being a Christian is a matter of the heart that results in fruit bearing. It goes deeper down than the brain, deep down in the inner self.

Do not confound work and fruit. There may be a good deal of work for Christians that is not the fruit of the Heavenly Vine. Do not seek for work only. Fruit-bearing means the very life and power and spirit and love within the heart of the Son of God -- the Heavenly Vine Himself coming into your heart and mine.

The Lord explained it illustrating it, with a vine and branches. He said that He was the vine and God is the vine keeper. He said that we are the branches of the vine and every branch that beareth not fruit is pruned and taken away and every branch that does bear fruit is pruned that it may bring forth more fruit.

The Lord explained that it is necessary for us to abide in him in order for us to bring forth fruit. "The branch cannot bear fruit of itself," he explained. The branch separate from the tree is only a dead stick. Jesus said "He that abides in me, and I in him, the same bringeth forth much fruit; for without me ye can do nothing." (John 15:1-6).

I have often been asked by Christians, "Why is it that I fail so? I did trust the Lord with my whole heart and I did desire to serve God, yet I have failed. Why? You are trying to do in your own strength what Christ alone can do in and through you. You were really trusting only in yourself or you would not have failed. If you had trusted in Christ, He could not fail.

You cannot work out God's will, but His Holy Spirit can; and until the Church, until believers grasp this, and cease trying by human effort to do God's will, and wait upon the Holy Spirit to come with all His power and enabling grace, the Church will never be what God wants her to be; and you will never bring forth the fruit that God wishes you to bring forth.

Many people find the Christian life difficult because they seek for God's blessing while they live in their own will. So often we make our own plans and choose our own work, and then we ask Him to give us His blessing. He seldom does it this way.

Hunters Beware

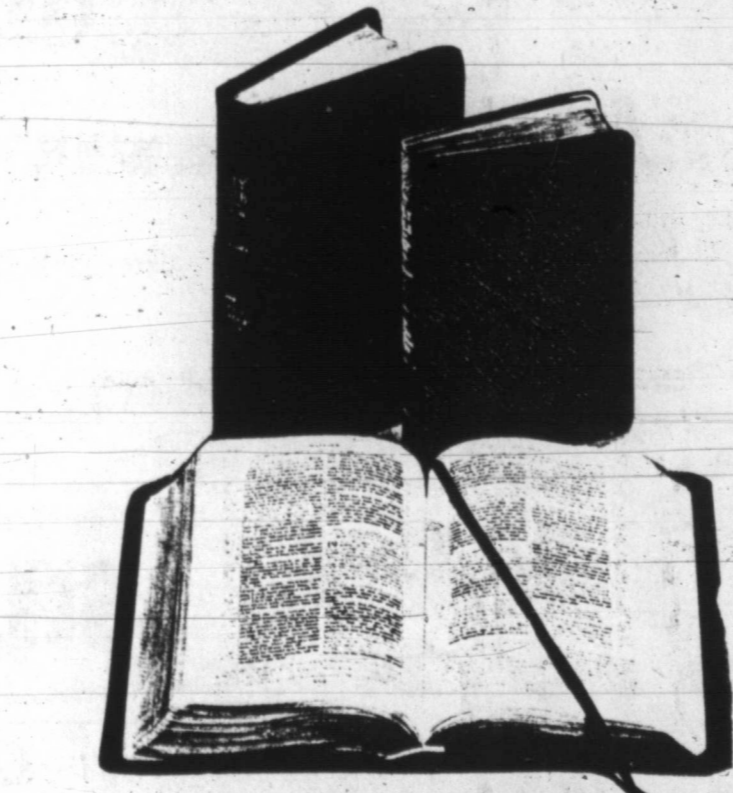

Each year thousands of hunters are shot by accident, many fatally. Most of the tragedies occur in fall and early winter, many on opening days for deer and other wildlife.

Rifles, of course, are more deadly at long range but shotguns are even more dangerous at close range. The usual accident causes are failure to unload guns, firing at a moving target before identified, carelessness in carrying guns and hasty or excited shooting.

Sadly enough, those involved are often lifelong friends, brothers, fathers, sons, etc. All these deaths are unnecessary and preventable.

Effort to move Clarendon College condemned in 1926 editorial by Phebe K. Warner

In last week's edition of the "Press," a newspaper clipping about the early history of Lelia Lake was reprinted. The article was clipped from an edition of "The Clarendon News" printed Dec. 16, 1926.

The reverse side of this clipping contains an editorial headlined "Should CC Be Moved?" written by Phebe K. Warner.

Mrs. Warner and her husband Dr. William A. Warner, were well known figures in this area throughout their lives. In 1903 Mrs. Warner organized the first women's club in Texas, the Wednesday Afternoon Club of Claude. She was also instrumental in the establishment of Palo Duro Canyon as a state park. Her editorial writings appeared in numerous Texas dailies and weeklies from 1916 until her death in 1935.

The editorial reprinted below speaks out against a movement apparently present at the time to move Clarendon College to Amarillo. As with the Lelia Lake article, parts of the copy are

omitted because the clipping has broken apart with age.

Should CC Be Moved?

Well, well, well! Somebody's always taking the joy out of life. This time, it seems to be a few ambitious Methodists who seem to feel that not only folks but colleges are measured by the size of the town in which they live. As if a man, a woman, or even a college could not live and thrive and grow and fulfill a great mission in a good sized town as well as in a city.

Twenty-eight years ago last summer a few far seeing Methodists with a vision of the future of this great Panhandle country got together and created a little Methodist College on the great Plains of Texas. It was the first college of any kind to be born in all this vast country and they located it at Clarendon, at that time Clarendon was...the largest town in the Panhandle. Even in that early day Clarendon was the home of many retired ranchmen, and pro-

bably represented more wealth than any other town on the Plains.

At that time Amarillo was a very...little village with one railroad. The Fort Worth & Denver, and the Santa Fe ran into Amarillo over the trailer from Washburn, Texas. There was no such thing as the Santa Fe extension into the marvelous South Plains. There was no Rock Island road anywhere near. There were about a thousand people in Amarillo at that time, and one of the chief industries was making men and boys drunk. Thank God that industry passed away long ago on the Plains. There may still be retail reminders of it but no wholesale business.

But from the very first thought of a college on the Plains, Clarendon put in her bid for it and from that day to this the city of Clarendon has simply reared that first educational child of the Plains. From its infancy she has fed it and nurtured it. She has supported it and she has loved it. There never was a night in its history so dark that Clarendon did not

respond to it and help it out of its troubles. There is probably not another school in all this big state that is so loved by the town in which it has grown up as Clarendon College. Clarendon College is almost a pet and a hobby of Donley County and Clarendon. The people of that town have lived for it regardless of demonionalism. They

have worked for it. They have sacrificed for it. The people of that one town have paid as large per cent-of the cold cash that has caused Clarendon College to grow from a three-room school in a little old church to an institution representing more than a quarter-million dollars. And now somebody, I don't know who, wants to move the college to Amarillo.

Sorority has meeting

Mu Gamma chapter of Beta Sigma-Phi met Monday night in the home of Peggy Moore to make plans for the February 14, Charity Ball. Final arrangements for the ball have not been completed at this time.

The program for the evening was presented by Donna Mann.

Refreshments were served to members; Gloria Gage, Susan Henson, Charlene Mays, Cam Bell, Diane Chamberlain, Donna Knorpp, Beth Walker, Deala Gunnels, Frances Johnson, Donna Mann, Beth Johnston, Bert Garland, Joy Skinner, Betty Veach, Sandra Mooring and the hostesses Thelma Waters and Peggy Moore.

Mr. and Mrs. Courtney Brooke of Hereford were in Clarendon Sunday, visiting old friends.

Earl Eudy, a patient in Northwest Texas Hospital for tests, is expected home in a few days.

Somebody wants to tear down all the early history of this Mother of Education in the Texas Panhandle. Somebody wants to...remove the spirit of the school. You can KILL it but you never can transplant it. Clarendon College came into existence to meet the needs of a new pioneer people. To remove it would erase all that patriotic

devotion that has made the school possible in the face of the greatest educational struggles on the Plains.

Why remove it to Amarillo? Just because Amarillo has grown faster than Clarendon? Amarillo is one of the best towns on this continent for its age. We are all proud of Amarillo. We every one point with pride to Amarillo. But suppose we all pick up our towns and schools and business and move to Amarillo? What would Amarillo live on then? We need good towns—with good attractions all about Amarillo to keep her growing and the pride of the Plains. Amarillo had a college once and let it die and now-it is

used for an orphans' home. And that's about what Clarendon College will amount to if you tear it up and tear up the church that is supporting it and tear down sentiment on which it has been builded for the last quarter of a century. Anyway Amarillo does not need Clarendon College to keep her growing but Clarendon does. And does it seem wiser, laying all sentiment

aside, to keep the good things of this country well distributed?

So why remove Clarendon College now when the whole country is on the greatest -- not boom -- but growing campaign in all its history?

Who knows where oil will be discovered next? And look at the new rail road that is coming right through the heart of the Clarendon district. What will that mean financially to the territory surrounding the Clarendon College? If diversified farming is a good thing for a community surely diversified attractions and opportunities are good things for a state. If

I could have my way about all our schools there would be no two great schools in any town. Most of us get most of our education and culture by absorption and coming in closer contact with those things that a good school brings to any town. So why give one town more than its share of good things? Amarillo will soon be 20 minutes from the West Texas Teachers' College when that new highway is completed. That is a fine thing for both Amarillo and Canyon. But that fact alone would more to kill Clarendon College if removed than anything else; except she would never have the heartfelt love and interest that Clarendon feels. The day is past for such humanities to be welded. Besides Amarillo has a thousand interests that will always demand her thought and time and money. We are all looking to Amarillo for all those things that a great city brings to any county. So why not let Clarendon College alone where it is loved and supported and wanted like a real object of love....

Banisters celebrate 64th wedding anniversary

Mr. and Mrs. Fletcher Banister

Children of Mr. and Mrs. Fletcher Banister honored the couple with a party on their 64th wedding anniversary Wednesday, January 7, at the Medical Center Nursing Home.

The Banisters both patients at the center are the only married couple in residence at the nursing home. Family members decided to have the party at the center in the recreation room.

Ollie Brown and Fletcher Banister were married in Titas County near Mt. Pleasant on January 7, 1912, and celebrated their 50th anniversary in 1962.

Friends and relatives were served from a table laid with a white under cloth covered with a dark red lace table cloth. The floral arrangement for the table was a bouquet of deep red roses and baby's breath in a crystal bowl and

the gold and white cake combined to carry out a red and gold color scheme.

The cake was baked by Mrs. Hollis Banister, daughter-in-law, and was decorated by Sue Leeper, granddaughter of the Fletcher Banisters.

Friends and relatives attending were Mrs. Hattie Hartzog, Mrs. Lema Mulkey, Susie Kidd, Mrs. Fannie Stone, Mrs. Irene Gray, Mrs. Bea Musgrave, Mrs. Emma

McAlister, Cora Hall, Sally Pierce and Frances Pollard. Also present were Dora Adkins, George McKee, John Humphrey, Geneva Mays, Truett Behrens, Vera Floyd, Nola Barker, Mary Spivey, Irene Vinson, Gerald Knight and Jeanice Weatherly. Bronc Buster report, the high school news

By LIZ BROMLEY

Greetings from Bronc Buster Country! That sounds a little strange, I suppose, but after constantly saying "Another week is here" or "Well, here we are," I thought that I would arouse everyone by springing a boisterous hullo at them. So, here we go.

For everyone who is tired of coming to school with the thurgries (thirsty - hungry) and want something else out of coming to school in the cold weather, the Spanish Club is pleased to offer everyone hot chocolate and fresh doughnuts at the concession stand. Everyone is asked to come by and partake in these truly tasty treats. Oh, I am really with it today. Look out New York Times! As I was saying, if you leave home without having had breakfast or if you feel that you are not full or if you are just hungry all the time - we will be waiting.

The ten people from C.H.S. (sounds like an espionage ring) who qualified for All Regional had a busy weekend. They left Clarendon at about 6:30 Friday morning to Amarillo where they met with other qualifiers to practice for the big concert Saturday. Practices Friday extended from 1:00 p.m. to 6:00, and I understand that everyone was pretty draggy after the long rehearsal. The concert was Saturday and everyone who went was really impressed. A big thank you goes to everyone who let these people go and spend the night in Amarillo rather than have to make two trips back and forth. Those who went were Patti Page, Ken Slavin, James Thomas, Brent Hardin, Tammy Blackburn, Bill Smith, Ed Bromley, Kevin Cates, Ralph McGarity, Mary Nell McGarity, and Mark Boothe. All CHSers should really be proud of these ten people because it is not many bands or high schools who have ten people to make such an honor!

Attention all F.H.A. members - walls, ceiling, and table committees have been set up and posted on the bulletin board by the water fountain. It is asked that each member sign up for the one of your choice and soon. Plans for decorations must be made by this week. Hurry! The banquet will be on the seventh of February. For a couple that is going to the banquet, it will be \$5.00. For a couple going to both the banquet and the dance, it will be \$8.00. A disc jockey has been hired and all proceeds from this dance will be donated to the March of Dimes.

Seen Around:
Ken Slavin - I didn't know you associated with Bart Starr and Daryl Royal! Let us hope you wait and see them in person!

Tammy Blackburn and Patti Page - ya'll still like pancakes?
Ralph McGarity - I am relieved that it wasn't who I thought it was!

Karen Burgess - an unusual handle!
Kim Radney - quicker than the telephone, that's for sure!!!
Walter Riggs - keep pumping that gas!
Ava Hastey - how do you like Kansas?

Dennis Swinney - you are a good office worker; efficient, dependable, and hold an excellent memory. Well, at least I was right on the first two counts!!

Ricky Mooring - you bet I have ESP!!!
Mike Newhouse - anyone we know?
Bill Smith and Bill Bromley - will Amarillo ever be the same again?

Christi Cagle - the tongue and vocal chords are two wonderful gifts from God. But can you and I help it if we want to keep them in shape by exercising them? Chatter, chatter, chatter!!!!

Mrs. Putman - it's good to have you back in fine fiddle again!

Coach Keeney - I move that an immediate fund be set up to purchase this penless person a private collection of pens.
Shirley Wise - it's a great way to get customers!

Mr. Mauldin - are you always so...hard to get along with on Mondays?

David Lewis - did you ever find who you were looking for?
Mike Skinner - make up your mind on the suit!
Mona Robinson - an out of town visit - over the weekend? Don't you like surprises!!

Lynn Floyd - wow! Your mom must really love you to let you drive her car! Beautiful!!

Cyd Swinney and Kay Nance - a feud in the sax section? Hmmm?

Paula Hardin - how come you didn't get a CB? Oh....
Marcia Terry - Happy Birthday!

A big welcome to some new faces in CHS. Sheri duBois, a senior, her sister, Tracy duBois, a sophomore, Anita Newsome, a freshman and a returnee to Clarendon town, John Clifford. It's good to have ya'll!

By the way, all F.H.A. members, please let Shirley Wise know if you are going to the banquet by February 1st.

Take care and God Bless you all!
Cutest Couple: Robbie Wise and David Killingsworth - The Spirit of '76 marches on!

Rattan family has get together

The family of Mrs. M.L. Rattan celebrated with a family get together in her home January 3 and 4. Every one of Mrs. Rattan's children were present for the occasion. Turquoise buying hints offered

By CYNTHIA MANNING
Asst. Extension Agent

Many consumers lack adequate expertise to judge worth or authenticity of the more-and-more popular American Indian jewelry.

The most important factor to consider when buying this jewelry is to purchase from a reputable dealer with an established place of business. Many dealers travel from place to place leaving the consumer with no way to locate them with complaints.

Many dealers belong to the Indian Arts and Crafts Association (IACA), a trade association which guarantees that the merchandise is honestly represented. The IACA insignia assures consumers of getting their

money back if the jewelry is not what it was claimed.

To help determine the true value of a piece of jewelry, the consumers should ask a dealer these questions.

-Is it handmade? Some machine-made jewelry may appear handmade.

-Are the stones untreated natural turquoise? Much low-quality softer turquoise is being used and it tends to crumble.

-Is it made of sterling silver?

If you simply want a piece of jewelry with a pleasing design, you may not care about these points. But if you are investing money in something that is supposed to be authentic, be sure it is. Consumers do have an

"out," if they suspect that jewelry has been misrepresented. Write to the IACA for help in determining authenticity. Their address is Box 1358, Gallup, New Mexico 87301. Or call them at 505-722-9488.

Dr. and Mrs. Turner Caldwell of Dallas announce the arrival of a daughter, Margaret Catherine, on December 19, 1975, weighing 7 pounds and one ounce. Margaret Catherine joins a sister Genny five years old.

Dorthea Ledbetter of Amarillo was in Clarendon over the weekend visiting her parents Mr. and Mrs. O.C. Watson.

Senior Citizens regular meeting

There will be the regular singing at the Senior Citizens Center this Sunday at 2:30. At the regular monthly board meeting, it was decided to have a monthly birthday party honoring the members who have a birthday in that particular month. For January the party will be Friday the 30th starting around 6:00. Come prepared to have a good time.

Don't forget we are again having crafts on Tuesday afternoons at 2:00. Please if anyone of any age is interested in any form of art or crafts let it be known by calling 2665. The Center wants to have something to offer everyone. The Center will be open to those who want to play dominoes while others work on crafts.

42 party Friday

Chamberlain Center will be the place for a 42 party and covered dish supper at 7:45 p.m. Friday night, January 16.

Hostesses for the occasion will be Grace Ayets and Ola Williams.

Fun after 50

Due to illness several officers of the Fun After 50 Club were unable to attend the Saturday, January 3, meeting and no regular session was held.

February 2, there will be a regularly scheduled meeting at the Lions' Hall.

Mrs. John Bass will play bicentennial music as part of the program for the meeting. Plan to attend and start the New Year with regular attendance.

Basketball play resumes for Clarendon schools

STAR-SPANGLED HISTORY

HISTORICAL DRAWINGS BY JOSEPH BOGGS BEALE (1841-1928)

Basketball action got back in to full swing last week with Clarendon Junior High and High School teams playing fourteen games since Jan. 6. Junior high basketballers dropped three games Thursday night, Jan. 6, to Silvertown. The 7th grade boys lost the opening game to be

followed in defeat by both the 8th grade girls and boys teams.

Monday night, the Junior High teams met played in Cláude with more satisfactory results all way round. All three teams defeated their opponents, beginning with the 7th grade girls team win of 28-22. Eighth grade girls followed suit with a 44-14 one-sided win and the 8th grade boys made the evening unanimous with a whalloping 40-8 victory.

Two CHS students named king, queen

Two Clarendon School basketball players were named King and Queen of Basketball during Tuesday night's game.

Gary Jack, a senior at CHS, was chosen as King and Karla Nance, a junior, was selected queen.

Selection of the two was made by their teammates. Girl basketball players elected the King and the boys team voted for the Queen.

Working, it seems, often has a way of getting in the way of one's recreation.

Friday night the varsity boys team got back on the winning side with a narrow 56-52 home win over the McLean Tigers. Broncho player Gary Jack contributed 16 points to team high scorer.

The varsity girls team had

a more difficult time with their opponents, finally losing the game 47-32. Pearly Butler for the Bronchos managed to net 126 points for the game's high individual effort.

Coming up for Junior High basketball is the McLean

Tournament this week-end in McLean. Eighth grade boys and girls team are set to play Thursday around noon. The tourney continues through Saturday with subsequent games to be scheduled according to win-loss record.

School Menu

January 19-23

Monday

Burritos with cheese, buttered corn, turnips with greens, coconut cake and milk.

Tuesday

Hamburger on bun, lettuce and tomatoes, french fries, cherry pie and milk.

Wednesday

Beef stew with vegetables, cabbage and carrot salad, cornbread, cookies, peaches and milk.

Thursday

Meat loaf, blackeyed peas, creamed potatoes, hot rolls - butter, applesauce and milk.

Friday

Chip-o-Pie, English peas, tossed green salad, ice cream and milk.

Boating book recommended

From the moment a boat is sold, the person who wrote the check is transformed into a captain. Guests put lives in his charge, and other captains must depend on him to observe procedures set down for mutual safety.

To learn just about everything there is to know about boats—from where to see them shown, where best to buy them, what to look for, and how to check for quality and wear—there's a new book put out by the editors of Time-Life Books. It's aptly entitled "The Boat," artfully illustrated, and chock-full of sound advice.

There's a lot of history, too, and background material on how boats are built, the fine art of hull design, the dynamics of boating, and how much basic maintenance will cost you—once you've taken the plunge into boat ownership.

You can get this book—the first volume in the new series of Time-Life's Library of Boating—at bookstores or by writing to Mary Jo Freer, Time-Life Books, Time-Life Building, Rockefeller Center, New York, N.Y. 10020.

With a guide like this, you won't miss the boat to owning the best water craft for your own particular needs.

Scout banquet Saturday night

The Eagle Scout Banquet will be held, Saturday night January 31st at 7 p.m. in the High School Cafeteria. Tickets will be \$3.00 each. The boys will NOT sell tickets door to door, but anyone interested in attending, is welcomed and urged to come.

To obtain tickets contact a Scout or the Scout Master Tommie Saye. Scouts will have tickets to sell beginning January 20th.

BETSY ROSS SHOWING THE FLAG TO GEN. WASHINGTON

Betsy Ross, a seamstress who lived in Philadelphia, held the position of official flag maker for the Pennsylvania Navy. In June 1776, a delegation headed by General George Washington commissioned her to make a flag based on the rough design they gave her. The flag originally was to have six-pointed stars, but Mrs. Ross convinced Gen. Washington to use five-pointed stars instead. The flag she made was adopted by Congress on June 14, 1777, as the official flag of the United States of America. From the collection of American National Insurance Company, Galveston, Texas.

THE TUMBLEWEED

You may never live it down, but you can sure live it up.

Sometimes people who don't buy U.S. Savings Bonds say funny things to people who do.

"No will power?"
"Scared of the future?"
"You call that interest?"
"You know what Louie said about them?"

So who's Louie and who cares? Fact is that U.S. Savings Bonds now offer you 6% interest when held to 5-year maturity. And nothing is safer.

You can even save for them automatically through your Payroll Savings Plan at work. What could be easier?

You're the one who'll live it up. Because you've got it.

Series E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

Les Beaux Arts meet at luncheon

The Les Beaux Arts Club met at the Clarendon Country Club Saturday. Thirteen members attended a luncheon hosted by Mrs. Pettigrew Hamilton and Mrs. Jim Hayes.

Following the luncheon Mrs. Emmett Simmons, President, called the business meeting to order. Mrs. Paul Hancock called the roll, and read the minutes of the previous meeting. Mrs. Forrest Sawyer gave the report of the nominating committee. Officers elected for 1976 - 1977 were: Mrs. Jim Robinson, president, Mrs. Paul Hancock, vice-president, Mrs. Hall Hardin, secretary-reporter; Mrs. Vernon Berry, treasurer; Mrs. Frank White, parliamentarian; and Mrs. John Sarich, historian.

Members then viewed color slides from the Smithsonian Institute of inaugural and wedding gowns belonging to former First Ladies of the United States. The Bicentennial presentation was brought by Virginia Browder.
