## JIM LANGDON—A WINNER!

Railroad Commissioner Jim Langdon is a 49-year-old native Texan with a winning record in public office. When John Connally appointed him to the Railroad Commission, the Governor said: "I have for several weeks been attempting to find a man I consider to have outstanding ability, integrity and honor... I am happy we have found that man — Judge Jim C. Langdon."

Jim Langdon has fully lived up to Governor Connally's expectations. He has conducted his office in the spirit of Governor Jim Hogg, who had the Commission set up in 1891 to look after the public interest in railroad and freight rates. It now regulates also truck and bus rates and the production of oil and gas. Judge Langdon will continue to keep transportation rates fair and see to it that our oil reserves are protected against waste and greed. This will help keep down Texas gasoline prices, already among the lowest in the nation.

Jim Langdon was elected District Judge twice and selected Chief Justice of the El Paso Court of Civil Appeals.

### ON THE OTHER HAND—

We have this motto written by Elbert Hubbard: "Those who never do any more than they get paid for, never get paid for any more than they do." We agree, but a more modern version could well be: Those who never get paid for any more than they do, like don't get a very long coffee break.

## Need More Time?

The housewife of the Young Married Set is involved with so many activities, she needs all the time she can lay her hands on. A Gold Medallion Home is the answer! It provides so many time-saving conveniences, it's just like adding more days to the ordinary 7-day week. For instance, the electric clothes dryer alone saves 3 hours weekly and even the electric dishwasher saves 7 hours a week...why, that's 10 hours already! Not to mention that the electric range is so automatic, it's like having a hired cook to do all the watching. And the electric water heater provides hot water instantly upon demand. Heating and cooling systems are automatic too... the thermostat is set at the start of the season and forgotten until the season changes.

This is just a smattering of the many ways the total electric Gold Medallion Home saves time for the Young Married Set. Oh yes, with a flameless total electric Gold Medallion Home, there's one less bill to pay each month.

PORT HURON, MICH., TIMES HERALD: "The Santa Claus legend persists in America. We're not talking about the children's Santa who distributes gifts to good boys and girls at Christmas time; we're talking about Uncle Sam, who distributes gifts and grants and loans to 'good' communities throughout the year."

We have said it before and we say it again: There is nothing magic about giving our money a trip to Washington, then having part of it returned to us on the basis of political as well as economic considerations. Uncle Sam is no Santa Claus."

Drive-in dairies have tripled their sales since 1957 in California. The drive-ins accounted for almost 6 percent of all milk sales in that state during the past four years. Even though farms are getting bigger, most of them continue to be family businesses in which operators and family members are risk-taking managers and do most of the farm work, according to the USDA. The Department reports that 70 percent of the farm products marketed come from family farms.

It is interesting to note that the importation of U.S.-made goods to Japan has been on the upsurge. U.S. News & World Report said that U.S. products are making a strong showing against imports from other countries in the Japanese market and are preferred in 6 out of 10 categories of best-selling imports.

AUSTIN — Top finance officials of the state now feel reasonably sure the next fiscal year for Texas governmental operations will dawn with an unfamiliar general revenue surplus on hand.

Texas' hard-pressed general fund has been in almost constant deficit for more than six years. As of March 25 it still was \$36,600,000 in the red.

However, budget-makers are impressed with optimistic U.S. Treasury reports that the income tax cut is going to boom state and local revenues by putting more money in circulation. (Theory: more money spent, more sales taxes collected.)

"There will be a surplus. The question is how much," commented one veteran finance observer.

Ideas on "how much" stretch all the way from a relatively modest \$35,000,000 — estimated by the comptroller's office — to upwards of \$90,000,000.

While the feeling is general that the Legislature will begin its budget writing next year with prospects of money on hand, the surplus likely will not be big enough to avert a new tax bill.

Public school teachers are campaigning for a \$405 annual pay raise which would cost the state \$68,000,000 for the next biennium. Texas Commission on Higher Education has endorsed a program which totals \$86,000,000 additional spending for the college and university system for 1965-67.

Other state agencies are continuing to grow and few have been known to ask less money.

The surplus should provide a protective cushion. However, governmental finance experts feel that taxpayers won't get by the 1965 legislative session unscathed.

**LOAN REGULATIONS PRO-**

POSED — The terms "easy payments," "no red tape," and "repayment in easy installments" are considered misleading advertising by money lenders under regulations proposed by Francis A. Miskell, regulatory loan commissioner.

Miskell served notice of his first four "rules of practice and procedure" for lenders and scheduled a public hearing on them for May 8.

Regulations cover books, files and records; advertising; insurance and collection practices.

Under other proposed advertising rules, almost any "comparative" term such as "new reduced rates" or "new type of service" must stand a rigid test of accuracy. Miskell also proposes to ban business solicitation by such devices as "credit cards" and "letters of credit," claiming the borrowers have an established credit standing.

Strong-arm collection practices would be strictly prohibited. In fact, under the rules, lenders could not solicit payment from anyone other than the borrower, members of his immediate family or signers of the note. Employers could be called on to help collect by their own consent.

Miskell gave the loan firms until May 1 to submit their written views on the rules.

The regulatory loan agency, set up by the Legislature last year to regulate loans up to \$1,500, just now is moving into full scale operation.

**ASKS RUBY MOVED HERE—** Jack Ruby's new lawyer, University of Texas Professor Dr. Hubert Winston Smith, wants the accused slayer of Lee Harvey Oswald moved to the Austin State Hospital for more lab tests.

Smith has indicated he will rely on the university's law-science institute to determine whether Ruby suffers from any form of brain damage.

Smith is both attorney and doctor. He holds degrees from Harvard law and medical schools.

**FIRST TEXAS TRAVEL ADS BOOKED —** Texas begins its first official advertising of its vacation attractions in national publications on April 5.

Initial ad shows a pretty girl on a Texas beach and boasts of Texas fishing, scenery, golfing and horseback riding. It will appear in the spring vacation and travel section of the New York Times. Same ad will run in the Chicago Tribune's travel section on April 12.

Texas Tourist Development Agency plans a number of advertisements in out-of-state newspapers and magazines this spring and summer.

Funds for the travel and tourist promotion, first ever appropriated to the state, were provided by the 58th Legislature.

**WATER HEARINGS —** Texas Water Commission postponed until May 25 hearings on five reservoir projects in the Brazos River watershed.

Reservoirs are Proctor in Comanche County; Stillhouse Hollow in Bell County; Somerville in Washington County; Decoroda Bend in Hood County; and Belton in Bell County.

**POPULATION TREND —** Calculations on population growth made by University of Texas researchers indicate a fizzle in the population explosion.

They estimate that Texas experienced a yearly gain in population of 1.8 percent between April 1, 1960, and April 1, 1963, which would amount to quite a slow-down from the 2.2 percent annual gain during the 10 years from 1950 to 1960.

Even more significant, the researchers noted, was an evident brake in the population increases in Texas' 21 major cities. Where they gained 3.5 percent a year from 1950 to 1960, they gained only 2.2 percent a year in the three years prior to April 1, 1963.

**RETAIL SALES —** February, usually a bright spot after drab January receipts, showed a four percent drop in retail sales, reports University of Texas' Bureau of Business Research.

But the bureau had good news for merchants. It reported that retail sales in February topped those of February, 1963, by four

percent. So the state's accelerated economy continues the upward climb of the past three years.

**VOCATIONAL SCHOOL —** Although the State Board of Education has recommended that the Southwestern Vocational Educational School authorized last year by the U.S. Congress be located at the inactive Camp Gary Air Force Base in San Marcos, several other Texas cities are making a bid for the \$4,200,000 program.

City of Marshall has developed a presentation for the U.S. Commissioner of Education and some Valley groups also are making a try. They all are hoping to nab the school for Texas, but are competing with neighboring states.

**FASTER CARS FOR GAME WARDENS —** State Parks and Wildlife Department is replacing some six-cylinder cars used by game wardens with modern motor mounts called "Police Specials."

Department's executive director, Weldon Watson, said the new V-8's are faster and "will help overcome a serious handicap to our warden force."

**TRADEMARKS —** Reregistration notices are being sent to some 20,000 trademark holders in Texas by Secretary of State Crawford C. Martin.

Martin said that, originally, trademark registrations were perpetual, but in 1961 the Legislature imposed a 10-year limitation. He urged anyone who acquired trademark rights before 1954 to get in touch with his office immediately. All such registrations expire May 3.

**SHORT SNORTS —** Sen. William T. Moore of Bryan was named to the Texas Legislative Council (research arm of the Legislature) to replace Sen. Frank Owen, III, of El Paso, who resigned. Atty. Gen. Waggoner Carr announced the filing of 10 additional civil penalty suits for alleged slant-hole oil well activities, making a total of 91. Gov. John Connally's Committee on Education Beyond the High School agreed on need for expanded use of educational television and year-round use of existing campuses. Court of Criminal Appeals scheduled A-

pril 8 arguments on Billie Sol Estes' second appeal from an eight-year prison sentence for swindling. Kiwanis clubs all over the state are raising money to furnish a Prayer Room in the State Capitol which was provided by the last Legislature. Dr. J. S. Wiseman, State Health Department Entomologist, says diseases transmitted by insects have been on the wane since DDT was first used in 1939. Commercial Bank and Trust Company of Irving has applied for a charter from the State Department of Banking. Burt L. Risley of Austin, formerly of Asherton, was appointed executive secretary-director of the State Commission for the Blind, replacing veteran Lon E. Alsop, who is retiring after 22 years service. Sen. Culp Krueger of El Campo has announced an April 3-4 meeting of the recently named Bay Study Committee to see what is being done to curb pollution of bays.

**LIFESAVING**

An Oregon paper carries the account of a girl who was stopping her car at an intersection. It was rammed from behind by another car whose driver had allegedly been drinking. Her car was shoved into the main highway where it was hit by a truck

and she was killed.

Following national surveys on excessive cigarette smoking and its relation to deaths by cancer, people are urged to change their smoking habits to protect their own lives. As a lifesaving measure, individuals should watch their driving habits meticulously, not only to protect themselves, but also other persons on the streets and highways.

If it is of national importance to fight cancer deaths by not smoking, it is even more imperative to fight highway deaths by not drinking, because death is just as positive from either cause. But with auto deaths the innocent too often suffer.

A bulletin issued by the Public Service Company of Colorado reports that a time-lock cigarette case is among the new crop of ideas aimed at the bemused cigarette smoker. It will help the too frequent puffer to go anywhere from 10 minutes to two hours between smokes. The case is preset from the inside and, when closed, will not open again before the preset time. The bulletin observes that hammers are effective, however, for those who overestimate their will power.

### Band Awards Highlight Program At Annual Band Banquet Saturday

The annual band banquet sponsored by the Band Parents was held Saturday evening, April 11, at the High School Cafeteria. The cafeteria was beautifully decorated using the theme "Apple Blossom Time." Tables were arranged before a garden wall marked by spring blossoms, butterflies and an apple tree decked with brightly colored blooms. Overhead were streamers in a pale green lined in faintly tinted yellow. White candles entwined with pink ribbon and accented by butterflies in white, pink and yellow were placed intermittently on green and gold streamers extending the length of the tables which were laid with white. Pink blossoms were sprinkled over the table and miniature flowers watering buckets in pale pink were individual favors. Place cards and programs were marked by springtime scenes in pink and gold on white. Band mothers served the meal.

Mr. Morris Ledger, high school principal, pronounced the invocation. The welcome was extended by the Rev. J. V. Patterson and the response was given by Dolfia Vallance, president of the band. Mrs. Dick Vallance, President of Band Parents, was mistress of ceremonies. On the light side, Jimmy Roberts gave several jokes.

Highlight of the evening came when Mr. Willard Edgett, band director, acknowledged award winners for the year. Named as the most outstanding band students were Dolfia Vallance and Barry Hudson. Kay Pfeiffer and Mike Stewart were recognized as the most progressive; Larry Don Phillips and Jill Benson as the most dependable; Judy Greene and Barry Hudson, musicianship; and Clydean Gilbreth and Mike Stewart, citizenship.

Band students presented Mr. Edgett with a gift in appreciation for his help this year. Dolfia Vallance made the presentation.

While tables were being cleared pictures were made of the award winners after which dancing was the program for the evening. Music was furnished by "The Invaders," a combo from Amarillo. Band students and their dates were joined by other guests for the dance.

### College Library Receives Cancer Research Kit

Specially prepared reference kits for college student use regarding cancer were presented to representatives of the Junior College library here last week by Mr. Chauncey Hommel, Donley County Crusade Chairman of the Cancer Society. Included in the kit are 17 books and booklets on the subject of cancer.

Requests for information on the subject of cancer are received each year by units of the Texas Division of the American Cancer Society and the Texas State Department of Health's component units.

Kenneth Vaughan, president of Clarendon Junior College, expressed appreciation for the kit and pointed out the value of receiving current information which will be kept up-to-date by periodic mailings from the American Cancer Society and the Texas State Department of Health. Description sheets of available films and other visual aids are included in the college manual. Donley County is joining in this special project with other counties throughout Texas and all colleges and junior colleges will receive this current information.

The Rev. J. B. Thompson, pastor, officiated. Burial was in Fairview Cemetery.

Greene, an Oklahoma merchant and resident of Memphis for the past four years, died Sunday night in a Memphis hospital.

Surviving are a son, a daughter, two brothers, one sister, two grandchildren, and one great-grandchild.

## FARM NEWS

from County ASCS Committee

### Unreported Wheat And Barley

There are some producers in this county who do not have a wheat allotment but who may have wheat for harvest in 1964. If you do have wheat seeded and it has not been measured, it may be to your advantage to report that acreage to the county office, as we have no way of knowing about such acreage unless it is reported to us.

Also, if you are participating in the feed grain program and have barley seeded, it must be reported. Barley is a part of the feed grain base and it is eligible for the price support payment.

### Premeasurement Service For Feed Grains

We now have approval from the State Office to offer the premeasurement service for feed grains and diverted acres. The cost of the service will be the same as for cotton and the last day to make application at the Donley ASCS County Office will be April 30, 1964.

### Diverted Acres

The initial designated acres to be diverted under the 1964 Feed Grain Program must be regular in shape with not more than four sides unless it is a whole field or sub-division or if a terrace, road, or ditch forms the perimeter of the acreage. Each plot must contain at least 1 acre. Less than four normal rows in a skip-row planting pattern will not qualify for diverted acres.

### New Farm Bill

As all of you probably know by now, the farm bill has been passed in Washington. We do not know what effect exactly this will have on the Donley County farmers. We do know, however, that there will be some serious changes in our farm program. It is very important that you keep well informed and up-to-date by reading all your newsletters, publications, and news articles. All information received in this office will be passed on to you immediately.

"Money without freedom isn't worth very much for very long. That's why every American family should invest in freedom with U.S. Savings Bonds."

### JAYCEE VOLLEYBALL TOURNAMENT RESULTS

The volleyball tournament sponsored by the Jaycees and played here last week end was a huge success. The Jaycees report 28 teams entered from the surrounding towns with all but the exception of two making the tournament.

In the women's division Tunnell's Pharmacy, a local team won third; Cornell's Cuties, a Hedley team sponsored by Bill Cornell won second; and Sealtest Women of Lelia Lake won first. In the men's division Stepp's Grocery at Lelia Lake won third; the Beginners, a local team won second; and Jaycee No. 1 won first.

The Jaycees wish to thank the school, team sponsors, and all team members who made this tournament the success that it was.

Miss Myrtle Hall of Cactus and Miss Alma Hall of Amarillo spent the week end with their nephew, Truett Hall.

### HOSPITAL NOTES

Patients as of Wed., April 15: Mrs. Margaret Dishman, Mrs. W. C. Jones, F. C. Paulk, Mrs. E. W. Tyler, Sr., and Mrs. Frank Thomas.

Dismissals: Rex Anderson, Otto Beach, R. C. Johnson and Charlie Smith.

### C.H.S. Students To Receive State Awards

Information has been received this week that three candidates for State Degrees from Clarendon High School will receive this award at the State F.H.A. meeting to be held in Austin May 1-2. The ceremony for conferring degrees will be held at the Austin Municipal Auditorium. Candidates from the local chapter are Melissa Patterson, chapter president, Clydean Gilbreth and Lynn Bourland, co-editors of "F.H.A. Chatter" — chapter newsletter.

Each candidate has worked on six goals to improve themselves as a member of their home, school, chapter, and community as well as to improve their personality as they work toward this degree of achievement. These girls in addition to being active in their school organizations, maintain a grade average of 85 or above in Homemaking and English as well as having an over-all grade average of 85 in all other subjects taken in high school. Two of these candidates are members of the National Honor Society and the other lacked only a fraction of one point. These girls have worked actively with a total of 17 different local civic organizations in our community donating time and service to help them promote and develop their program of work.

In addition to being given special recognition at the State Conference, they will be honored at a tea given by the Home Economics Department, University of Texas. The Austin Public Schools will honor all F.H.A. delegates, degree candidates, and advisors at the State capitol also.

Mr. and Mrs. Floyd Naylor of Wichita Falls spent the week end with his father, P. O. Naylor.

### Sunday Duster Worst In Many Years

Strong winds generated by an intense low pressure system kicked up dust Sunday which turned out to be a repeat of the big dusters experienced here during the early '30's.

Traffic was snarled along numerous stretches of highways in the Panhandle area and the air was so saturated that it didn't settle out completely until Tuesday.

Local blowing of sand was bad, especially in the rural areas but the majority of fine dust came from the Colorado, New Mexico and Oklahoma areas. The snows mixed with freezing and thawing loosened the top soil over this area and all it needed was a strong wind to really stir it up.

Freezing temperatures the past week failed to do much damage to the fruit crop so keep your spray apparatus working to eliminate the bugs and worms and enjoy some good, home grown fruit... unless a late freeze should move in and wipe it all out.

### LEAGUE OF DEMOCRATIC WOMEN HEAR SPEAKER

The Donley County League of Democratic Women met April 7, 1964, in the Hospitality Room of the Farmers State Bank. Mr. David Stults of Amarillo was the guest speaker. He has served as president of the Hunt County Young Democrats and the Potter County Young Democrats as well as being on the state committee for the 4th Congressional District. Mr. Stults stressed the importance of attending the local precinct conventions.

On April 21, a meeting will be held in the Lions Hall at Hedley at 7:30. This meeting is not limited to women; all men who are interested in the Democratic Party are urged to attend.
