Labor Survey Form In This Issue Of The Donley County Leader

A panhandle-wide advertising campaign began Monday of this week to determine the availability of labor for use in the effort to attract new industry to the area. The survey is sponsored by the Chambers of Commerce of panhandle communities who will share the information developed by the survey. Information thus developed is necessary to efforts by local Chambers in attracting new industry. According to existing labor availability reports the panhandle has a shortage of labor. The participating Chambers are hoping to prove that sufficient number of people are interested in and would be available for industrial employment to staff any new plant that might be located in the panhandle. This is strictly a fact finding survey, with the results being used in an effort to attract industry to the area, and is not for a particular company. The survey will be in the form of advertisements in local publications, one of which appears in the Leader this week. It is pointed out that the sponsoring organizations are interested in receiving replies from people who might presently be employed, but looking for other opportunities, as well as those unemployed. Names of persons desiring part-time employment are also solicited. While the Chambers are primarily interested in the number of people who would be available for employment, it is important to have the names of the individuals. This is the only way they could be contacted by any companies desiring to locate in the area. The names of all responding persons will be kept confidential. Because information thus developed is quickly outdated, it will be necessary to make the survey at least once a year. All persons in this area who would be interested in full or part time work with new industry are urged to fill out the adv. in this issue of the Leader and return it promptly. If additional survey forms are needed the necessary information can be supplied on a blank piece of paper, stated Dr. G. W. Smith, chairman of the Industrial Development Committee of the local Chamber.

FINE ARTS WINNERS AT DONLEY FAIR ARE ANNOUNCED

There were many beautiful exhibits in the Fine Arts division at the County Fair held at the local Fair Building Friday and Saturday of this past week. This division was sponsored by the Jaycee-Ettes. Judging was difficult. Decisions reached after much deliberation were announced as follows: Junior—Anna Beth Simmons, first; Suzanne Moore, second; Adele Barnhill, third. Pastels—Bonnie Ellerbrook, first; Nina Dale, second; Dessa Day, third. Etchings—J. R. Leathers, first, second, and third; Mrs. Frank Hommel, first, second, and third. Mrs. Frank Hommel was presented a blue ribbon for the best all around picture of the show. The Jaycee-Ettes extend their thanks for the wonderful cooperation given them in making this one of the best local Art exhibits held here.

Martin Community Wins First At County Fair

The Martin Community took first place ribbon Friday in Community Exhibits as the Donley County Fair opened for a two day run. Other community winners in the order they placed were Ash-tola, Midway, Chamberlain, and Hudgins. Late crops coupled with a dry summer made it difficult to get the usual variety of products together however many fine products were on display from all areas. W. C. Ragan topped 119 entries to take sweepstakes in the Flower Show while Mrs. Mike West was declared winner for Best Arrangement. Mrs. Joe McMurtry displayed the best Potted House-plant.

The Agriculture and Horticulture department was a new department added to the Fair this year and drew considerable interest. All entries must have been grown or raised by the exhibitor in Donley County during the past twelve months. The following classes are listed with winners in the order named:

LOCALS JOIN PROTEST OF CANCELLATION OF TRAINS

Dr. George W. Smith and E. O. Simmons, representing Clarendon, joined Memphis and Hedley citizens in protest of proposed removal of two Fort Worth and Denver passenger trains running between Denver and Dallas before Interstate Commerce Commission examiner John S. Messer of Washington, in a meeting at Memphis Monday morning. The Memphis hearing was sixth in a series of eight along the railroad route. In testifying, Dr. Smith said, "Our citizens in Clarendon are disturbed at losing two of our trains daily. Through the years, we have had highways blocked occasionally. We are dependent upon railroads for mail service, especially for our emergency mail."

HEDLEY GINS FIRST BALE OF COTTON

The first bale of cotton for the 1966 season at Hedley was brought in last Thursday, September 15, by Virgil McPherson who farms and operates the Verwin Motel at Hedley. It was ginned free of charge Friday morning by West Texas Gin at Hedley. The bale weighed 600 pounds and netted 1100 pounds of seed. This came from 2450 pounds of seed cotton. The bale was purchased by Hedley Lions Club for 40c per pound and will be used to advertise the 15th Annual Hedley Cotton Festival which will be held Friday and Saturday, October 14 and 15.

MISCELLANEOUS CRAFTS AT COUNTY FAIR RATED FINE

Mrs. Bobby Dishman, in charge of the miscellaneous crafts department of the County Fair reported many beautiful and unusual articles on exhibit at the Fair this year and as in many other departments, judging posed a number of problems. Mrs. Margaret Waldrop won a first place with a lamp, Linda Palmer with a purse and also a permanent flower arrangement. Suzanne Moore took a second place with a bracelet and pin, Lana Palmer with a picture, and Lovetta Allison a second place in a permanent flower arrangement. These were all in miscellaneous crafts. Sue Castleberry took a first place in Knitting and Janie Sue Noble second. Harlene Phillips placed first with her quilt and Jewell Sikes took first in Tatting. In Embroidery Sue Castleberry placed first; Harlene Phillips, second; and Mr. and Mrs. E. V. Quattlebaum took a first, second and third. Harlene Phillips, Cora Elliott, and E. V. Quattlebaum took firsts in Sewing and Harlene Phillips a second. Jodie Lane was awarded first in Weaving.

Seeing these many beautiful handicrafts inspire us all to want to try our luck and see what we can come up with by Fair time next year. Thanks to all of you who helped out in this division.

COLTS SEEK WIN OVER TURKEY THURSDAY NITE

The Junior High Colts will meet their second foe of the season when they play Turkey here in Broncho Stadium Thursday night, September 22. Game time will be 7 p.m. All fans are urged to come out and see the game and give these boys their support. The Colts played Wellington to a 0-0 score in a game played here last Thursday night. Coach Pete Bromley stated in an interview that the coaching staff was proud of the team's defense and that the offense looked good at times; however, too many penalties resulted in the no score. He hopes to have some of this straightened out by this week's game. Cheerleaders for the Colts this year are Jayne Martin, Diane Cornell, Pam Perkins, Susan Palmer, and Sheila McAnear. The support of local fans is always appreciated and helps the boys put forth their best effort. They would follow in a few months.

CLARENDON COLLEGE IS RECOMMENDED FOR FEDERAL GRANT

College President K. D. Vaughan received word from Austin Tuesday that the Texas College Coordinating Board has recommended \$235,551.00 for Clarendon College in the form of a Federal Education grant to be used for construction of academic facilities. 48 Texas Colleges were nominated for the grants. Texas schools will be given priority consideration when and if Congress appropriates funds under the Higher Education Facilities Act of 1963. The board was told that Congress was expected to approve the funds by November and federal approval of the grants would follow in a few months.

MEMBER OF

Texas & Panhandle Press Associations

From Amarillo's First Baptist Church Reporter we quote the following:

A LETTER FROM GEORGE My name is George.

I'm an all-around handy man, and I'd like for you to feel free to use my services for any and all chores, errands, duties which you may be too busy to perform.

Anytime there's something that needs doing and you'd rather not, you just Let Old George Do It.

I'll write your congressman for you; I'll write your newspaper editor; I'll serve on the school board in your place; I'll do anything that you're too tired and

preoccupied to do.

With me around you can be as lazy as you like. Or you can just have fun. The more the merrier, I always say.

My services are available to you for all the tedious, time-consuming things which you had rather duck doing.

You haven't time to vote, let George do it.

You haven't time for jury duty, I have.

There is certainly no need for you to concern yourself with attending meetings. You don't want to accept committee assignments and extra responsibilities, anyway. You let Old George attend to those things.

Now you ask, why should you leave important jobs to someone you've never met?

Well, there's a reasonable question, so let me put your mind at ease. I'm no beginner.

Maybe I'm not as famous as Kruschchev is, but if it hadn't been for me you'd never have heard of him.

And that goes for Mussolini and Stalin and Hitler, too.

I made those guys. And the big

name racketeers in the United States.

You name 'em; Without me those guys would be nothin'.

Why do I want to run errands for you? When I'm the guy who runs all those "Big Wheels" why do I want to run errands for you? Don't you see, I get a kick out of electing presidents of school boards, unions, and countries.

All these things you used to do before you took up chasing dollars and golf balls and things.

Don't feel like you're imposing. I'm glad to be of service. Helping you, "I'm really helping myself.

How do you think I was able to take over and run a third of the world already? Because nobody else wanted to bother. They said: "Let George Do It."

So I did it.

Now I'm taking over a lot of cities and counties in the United States, and I figure it's just a matter of time until I'll take over this country too. I want to thank you for making it possible.

Remember now, if there is ever any way in which I can be of help, I'm at your service. You must have fun and don't worry about a thing. I'll do your worrying too.

I'll bill you later.

Sincerely, George

We could each do well to read and re-read the above.

Recently we read in the papers that a modern day cattle thief was caught and racked up a total of thirty years in prison. At just the same time a man was convicted of murdering his wife and came off with only two years. I guess Texas never did cater to cattle thieves.

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

I OPPOSE A TAX INCREASE

Dear Fellow Texan:

One of man's certain fates is that he is destined to pay taxes. So it is said. But there is nothing that says it is his certain destiny to pay HIGHER taxes—except that in Washington these days you hear all sorts of discussion that points toward a tax increase proposal. Well, I am against any tax increase. I see no reason at all why this government cannot trim its spending sails in domestic areas and remain able, on the present tax base, to finance the war in Vietnam and other programs that must be paid for.

I say NO to a tax increase. I hope this Congress finds the courage to say NO—with firm, clear majorities—should a tax proposal be placed before it.

Every bureaucrat in the Executive Branch and too many Members of Congress have become addicted to their own pet governmental schemes, to projects they advance in defiance of changing circumstances (such as the war in Vietnam) or other obligations of the Treasury. They

try being both honest and plain spoken in your comments on those around about you.

We always have a beginning of school story, and this year with one grandson just starting should be no exception. This didn't happen to him especially, for we read it in the Fort Worth Star-Telegram. It seemed that Little Johnny looked so forlorn as he sat with chin in hand looking out the window.

"Are you homesick", asked the teacher.

"No, Mom," said little six year old Johnny, "Just Heresick."

lose sight of everything but the matters in which they are most interested, whether the programs be a war on poverty or foreign aid or some other plan to funnel large sums of money into metropolitan areas. It is an axiom of governmental operations that once Congress approves a new program it is bound to continue and probably expand. There are enough programs already in being to take care of all the needs without creating new bureaus or new programs. Despite my objections and votes in opposition, a number of expensive endeavors have been approved in past years and now enjoy some kind of hallowed status. It is simple political inertia that keeps many of them from being done and disbanded.

The latest move toward expansion of government was taken recently when a new cabinet-rank Department of Transportation was approved (I voted against it), consolidating in one department some of the present transportation-oriented programs of government and adding new functions. All of this was topped off with authority for a new bureaucracy to run the show. New cost to the taxpayer was added thereby. This action was another case of taking away congressional powers and vesting them in the Executive Branch. The Independent Agencies which are merged into the Department of Transportation were agencies created as "arms of the Congress." Under the new Transportation Act they are completely and wholly under the Executive.

Financing the war is the big fiscal problem, it is said. Well, then, let us pay for it. We are a wealthy nation and we can support the war without stripping our economic gears. That is, we can do so if we recognize that paying for the war is a problem of the kind faced by the ordinary citizen who must stretch his budget to pay for, say, a new car. The citizen willingly and with full awareness of the problem adjusts

his budget to meet the payments; he cuts back his spending in other areas. The government is not nearly so sensible. Government proceeds blindly on the course of spending for the same old things, adding new obligations on the top of old ones, and when deficits mount its leaders (who would never think to handle their personal finances so irresponsibly) begin to think of a new assault on the pocketbooks of taxpayers.

One of every seven working Americans, it is said, is now on the payroll of government in one way or another, at the Federal, State, or local level. The strange nostrum grows that the taxpayer has an unlimited ability to meet whatever schemes are devised to his imagined benefit. The taxpayer's ability is NOT unlimited. There are limits. There are sound reasons for keeping taxes down, for permitting as much economic freedom as is possible, for limiting government to things that it and only it can do.

It is my position that domestic spending can be reduced and military commitments fully met—without an increase in taxes. I'm still looking for the man in Washington who can tear this position apart. There are none.

#### FRESHMAN ORIENTATION

By Emily Neece

September 8 was the big day for Clarendon College. That was the day of freshman orientation; and at nine o'clock the insecure freshmen assembled in the auditorium. There the anxious students were greeted by the friendly college staff who proceeded to introduce college life to the young men and women present. Mrs. Moore informed the audience of CC's history and purpose. While rapt attention was being paid, everyone really sat up and listened when the student activities were mentioned. After hearing what activities they had to look forward to, the students felt that their social adjustment—the next topic discussed—would be a simple matter. During recess, the students gathered at the water fountains and in the lounge and began the process of getting acquainted. Mrs. Noonkester called the meeting back to order and began telling the students about the learning process. Being normal freshmen, many at first thought they knew all there was to know about learning, but they were surprised to discover differently. Mrs. Noonkester's invigorating speech left the freshmen wiser and ready to conquer those difficult-looking books. Mrs. Selvidge was next on the agenda and she presented some very val-

uable information—how to take effective notes. Since this is one of the major talents any college student must acquire, her talk was greeted with increasing interest and attention. Another recess found the students congregating once more downstairs. This time introductions seemed unnecessary because the students realized they all had a common interest, and they proceeded to discuss what they had learned without the formalities of introductions. Mr. Overcast spoke to the students after the break about learning how to write effective exams. This was most helpful to the students and after Mr. Overcast sat down, they felt they knew how to out-wit or figure out a teacher's tests.

Dean Clinton began the afternoon session by presenting the policies and regulations of Clarendon Junior College. By this time, the freshmen felt there wasn't anything about the college they didn't know, so they retired to the rooms assigned to them. In the rooms the students were given a writing assignment. This assignment was a change from the day's curriculum because they were asked to tell the teachers about themselves, their goals, and their ambitions. A recess was called and all papers were handed in. Naturally there were many who regretted their belated thoughts of things they wished they had included in their essays. Those regrets were short-lived because the freshmen were soon busy completing their orientation by filing out some required forms.

Everyone, including the faculty, reported a successful day. Even the ones who had slightly dreaded the ordeal admitted that they were glad they attended orientation, not only because of the knowledge they gained, but because of the many new friends they made. Most agreed that maybe college life won't be so bad after all!

#### FIRST ANNUAL STAFF MEETING HELD

Last week the annual staff met with Mr. Tucker and Mr. Ellerbrook. Mr. Ellerbrook attempted to make some jokes and then proceeded with the seriousness of the subject at hand. Those attending were asked to turn in a list of their past experience and a

future meeting was planned. Before being dismissed the students were reminded that the job they were accepting is a big one and only their best would be accepted. The meeting was then adjourned.

## DINING ABOVE TREE TOPS NEW FEATURE AT AMARILLO

For years the enchantment of dining high above a city has lured patrons to San Francisco's Top of the Mark, Dallas' Ports O' Call, and other famous restaurants across the nation. Now people of the High Plains have the opportunity to dine in the same manner — at THE GOLD TREE Restaurant, atop the Bank of the Southwest Building in Amarillo.

From THE GOLD TREE the pleasure of dining above the tree-tops is heightened by the restaurant's artfully designed interior. GOLD TREE patrons enter a Spanish street; with brick floor, the cedar and wainut walls hung with lanterns and paintings. Vast, uncurtained windows along the full length of the 60-ft entrance hall make the most of the view.

Guests are seated in comfortable leather chairs, at tables of ample size, and each table provides a view of the city.

On any day the menu presents a cross-section of the best offerings of a continental grill. A typical menu offers four appetizers, a soup, four entrees including seafood, vegetables and desserts, as well as varied a la carte items. Prim ribs of beef, specialty of THE GOLD TREE is readily available in any desired degree of doneness at luncheon or dinner.

Emphasis on visual appeal, service, and an atmosphere of general well-being imparted to guests of THE GOLD TREE have been the primary aim of R. J. Lee, president of Galaxy Catering, Inc., and owner of THE GOLD TREE, and Gary Walsh, GOLD TREE Manager.

Other Galaxy Catering, Inc., enterprises housed in the new bank building are CLUB EL PICO, sharing the 10th floor with THE GOLD TREE; THE GAZEBO COFFEE SHOP and THE GOLD TREE Banquet Rooms, on the lower level of the building.

Mr. and Mrs. Fred Helton of Amarillo visited last Thursday in the home of Mr. and Mrs. J. H. Helton.

## STATE CAPITAL Highlights AND Sidelights by Vern Sanford

While most of the state welcomed the touch of cool rains last week, Texas Water Development Board lost all hopes of completing the Texas Water Plan by the time the Legislature opens January 10.

Board will take from four months to a year before it acts on adoption of the preliminary Texas Water Plan due to the scores of suggestions received from a series of river basin hearings.

All suggestions must be screened even before the Board can refer the plan to Texas Water Rights Commission for a public hearing on Water Rights involved.

A panel of five consultants, headed by Joe M. Kilgore, has gone over a list of proposed studies prepared by the Board's planning staff. The panel will present their suggestions to the Board at a meeting on September 19. Mainly, these will cover which studies can be made with the money available to the agency during the fiscal year.

Another water study by the Development Board, to determine the occurrence and quality of underground water in Shackelford County, will begin in mid-September, Executive Director Joe G. Moore announced.

Richard Preston, a water development board geologist, will conduct the study, which will begin with an inventory and sampling of all domestic, municipal, livestock, irrigation and industrial wells in the county.

Study will then move on to the collection and compilation of data regarding depth, distribution and quality of underground water. Surface and shallow subsurface rock formations will also be examined as an aid in determining the depth and mode of occurrence of ground water surface casing protection in oil and gas drilling operations.

Texas Water Rights Commission has approved an amendment to the permit held by Trinity River Authority and the City of Houston which would nearly triple the storage capacity of the proposed Wallisville Reservoir. But another public hearing will be called to reconsider the application, if the federal government does not confirm its participation within a year.

AG OPINIONS — Atty. Gen. Waggoner Carr has held that when the county attorney in a county of 20,000 or more population wins a suit and collects delinquent property taxes, he may deduct a commission from the taxes. County attorney, however, must pay that commission into the county treasury for the officers' salary fund, Carr held in the opinion requested by Harris County Attorney Joe Resweber.

In another official opinion, Carr held that names of contributors and amounts of their donations to buy land for Lyndon B. Johnson State Park in Gillespie County do not have to be made public. Opinion affirmed the position of State Parks and Wildlife Commission Chairman Will E. Odom who has declined to disclose sources of the park fund. Odom is fund trustee and receives donations for purchase of park land.

Attorney General concluded that park fund administration is not an operation of the PWC, and that it's up to private administrators to decide whether to announce names of various donors.

LOANS — Tight money has

made it hard for Texas colleges to sell their building bonds. Some are still looking for buyers.

On a third try, buyers were found for the 4 per cent bonds at Angelo State at San Angelo (\$1,200,000); Stephen F. Austin at Nacogdoches (\$2,600,000); and Sam Houston State at Huntsville (\$2,500,000). But Southwest Texas State at San Marcos and East Texas State at Commerce still need buyers for their respective \$2,400,000 and \$2,300,000 bonds. Constitutional ceiling of 4 per cent makes the bonds less attractive to investors than other issues bringing higher returns.

MORE MONEY — Mounting demands of higher education in Texas seem certain to force a tax increase by the Legislature which meets in January.

Budget requests for the 22 state colleges are almost double those of the current two years, in large part because of a need for "catching up". Coordinating Board, Texas College and University System, says that the previous practice of providing money based on past enrollments just won't work. Cash should be provided for the 22 state colleges and the 34 junior colleges on the basis of what their enrollments will be, instead of what they were.

Junior colleges, fast growing as they are, will be some \$16,000,000 short of operating money during the current two years. It will take \$100,000,000 to put senior college appropriations on a current basis.

Prospects for a surplus in the state treasury of \$75-\$80,000,000 have led to talk of increasing college tuition and fees, so students would pay more of the cost. APPOINTMENTS — Governor appointed Bill Gene Compton, senior Amarillo corporation judge, district attorney for Potter and Armstrong Counties. He is a native of Borger and attended Pampa schools. Compton replaces Dee Miller, who resigned to campaign for the Congressional seat open when U. S. Rep. Walter Rogers of Pampa decided not to run again.

Dr. Luther L. Bailey was named project director by Interagency Policy Board, by the governor to conduct statewide planning for vocational rehabilitation. Connally named Maj. Gen. Harley B. West of Dallas to command the Texas State Guard.

SHORT SNORTS  
State Health authorities last week reported 193 suspected and 65 cases of encephalitis (two strains) in Texas.

Texas Good Roads Association has warned it will oppose any move in the 60th Legislature to divert highway user taxes to other purposes.

Texas auto insurance companies are pledging "aggressive" support of highway safety measures next year. Attorney General Carr advised Dist. Atty. William Hunter of Dalhart that a commissioner's court in a county under 10,000 can pay travel expenses of constables using their private cars, but cannot buy them two-way radios.

Mr. and Mrs. Russell Henry of Mt. View, Okla. visited Sunday with Mr. and Mrs. J. H. Helton.

By July 1, 1966, U. S. motorists had paid an estimated \$100 billion in state and federal motor fuel taxes since the first levy enacted in 1919.

### TEXAS TECH TAKES OPENER

The Texas Tech Red Raiders won their first game of the season Saturday afternoon when they took the University of Kansas by a score of 23-7 at Lawrence, Kansas.

Saturday, September 24, the Raiders of Tech will have as their opponent the Texas Longhorns, University of Texas. The game will be played at Lubbock beginning at 7:30 p.m. The Longhorns were defeated by Southern California by a score of 10-6 last Saturday.

This should be a good game and should give local residents an opportunity to see the Longhorns in action before the Texas-Oklahoma game opening the State Fair.

### DEMOCRATIC DELEGATES ATTEND STATE CONVENTION IN AUSTIN

Democratic delegates from Donley County: Chairman, Miss Mary Cooke, and W. H. Cooke III of Clarendon also Frank White III, a student at College Station, attended the State Democratic Convention held in Austin this first of this week. They were accompanied by Mrs. Julia Cooke Smith of Amarillo, Potter County delegate. Larry Neece a student at the University of Texas also attended.

The group attended a number of outstanding meetings and caucuses and were present for a reception honoring Dee Miller, democratic candidate for congressman from the 18th Congressional District. The reception was held at the new Crest Hotel, Austin.

### ARTICLE WARNS OF FRAUDULENT DEALS IN CARS

Mrs. Dennis Pasley of Amarillo sent to the Donley County Leader this week a clipping taken from The Shamrock Texan warning individuals of fraudulent car deals. The Pasleys bought a used car, gave a check and were assured the title would be forthcoming. After some six weeks no title had been received and upon checking found that the car lot (in Amarillo) had been closed by the financing bank and that their title, along with some 12 others was being held by the bank as collateral since the bank had received no money.

The Pasley car was taken and put in storage and the whole business not settled for almost a year causing much inconvenience plus costly lawyer fees. The lesson is when buying a car for cash be certain the title is handed to you and send it to be transferred yourself. Deal with reputable dealers in your own locale—could be another worthwhile tip, your editor thinks.

### THIRD LAKE SHOWS GAIN ON WALLEYE

Fishery biologists, checking fish populations in Buffalo Lake south of Amarillo, reported picking up a six inch walleye in excellent condition.

Leo Lewis, regional fishery supervisor, said the thriving specimen is one of 500,000 walleye fry stocked in Buffalo three months ago as part of an experimental program started in 1964 under the supervision of the Federal Bureau of Sports Fisheries and Wildlife.

The first experimental introduction of several thousand northern pike in Buffalo Lake apparently failed since none have been recovered.

The Walleye predators, believed to be more adaptable to Texas waters than the voracious northern pike, are already being noted in Lake Meredith in the northern Texas Panhandle. A third Texas lake—Possum Kingdom—also has lately provided substantial specimens of walleye growth.

In addition to the half million already released, 60,000 walleye fingerlings will be liberated in Buffalo Lake late this summer.

### WHEAT ALLOTMENT INCREASED

The recent increase in wheat allotment means more farmers will be planting wheat this fall, says County Agent Ronald Gooch.

Not only will you be planting it for grain purposes—but in many cases for a winter temporary pasture. Wheat makes excellent winter pasture when grazed while it's still young. Wheat ranks second only to oats in palatability, and is more drought resistant and cold hardy than oats.

When should you apply fertiliz-

er to wheat? There are 3 main choices: (1) applying all fertilizer before planting, (2) applying half before planting and the other half top dressed in early spring, or (3) all top dressed in early spring.

If you plan to graze the wheat, it's a good plan to apply all or at least a good part of the nitrogen before planting. But note: excessive fall applications of nitrogen can stimulate early growth in some seasons and increase winter injury, particularly if plants are not grazed. Also, some nitrogen may leach out during heavy rains—particularly in sandy soils.

### WT BUFFS WIN SEASON OPENER SATURDAY NITE

The West Texas State Buffs opened their 1966 season with a 38-6 victory over Arlington State.

Texas A&M University research shows phosphorus should be applied at, or before wheat is planted. Phosphorus aids early growth and makes more grazing. It increases seedling vigor and provides a better root system on the plant.

If potassium is needed it should be put on at, or before planting, concludes Gooch.

at Buffalo Bowl Saturday night. Fans are looking forward to future wins as the season progresses.

The Buffs will travel to Stockton, California for a game with the University of Pacific this coming Saturday night, September 24, and on October 1 will play Arizona State at Tempe, Arizona. Their next home game will be October 8 when they play Texas Western at Buffalo Bowl, game time 7:30 p.m.

Your present electric cooling system may be the basis for adding a flameless electric heating system. If not, West Texas Utilities can put you in touch with Reddy Kilowatt recommended dealers to show you the many choices of electrical heating equipment. Another advantage of electric home heating—economy! During the winter months, when you heat electrically, you only pay WTU's low 1¢ per kilowatt hour rate. After the first basic step of 500 KWH, all the electricity you use for all purposes costs only 1¢ per kilowatt hour plus taxes and fuel adjustment.

Now is the time to get ready for this economical home heating to avoid the rush! Live better and heat better—electrically!

had one since 1923! It is a City-County Library. The Gabie Betts Burton Library in the basement of the old City Hall building is open every afternoon from 2 until 5 except Sundays and holidays. A man who had some time to kill came in the other day and said he asked three people if Clarendon had a library, two of them said not that they knew of. If the following quote is as much Greek as Greek would be don't feel badly, most of us don't have the foggiest idea of the rights guaranteed us by our Constitution. Quoting: "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceable to assemble, and to petition the government for a redress of grievance." That is the first article in the Bill of Rights: First Ten Amendments to our Constitution. Dust off your copy of our Constitution and read and study it ever so often especially when some one decides to censor what you read. Amarillo's censorship squabble is not over "Unsafe Cars" or "How to Avoid Probate" but what some think is obscene, or actually is as what was brought out up there, just who is qualified to judge? There is one thing for sure when people stop reading obscene books they will no longer be published. Censorship does one thing it can make a dirt for dirt's an almost over night best seller. Lamb County in the Texas Panhandle is almost square, measuring 30 miles from east to west and 34 miles from north to south.

From County ASCS Committee

## SOCIAL SECURITY NUMBERS

For 1966, ASCS is required to report to Internal Revenue Service, any payments (except loans) of \$600 or more issued to producers under the direct payment programs. Beginning January 1 ASCS will report to IRS such payments made to producers without regard to the amount. Producers will be advised annually of the program payments reported to IRS beginning with payments made in 1967. For this reason, we are required to have the social security or employer's number of each producer who will receive a payment through this office. Most of you have already given us this number; however, we still lack the numbers for about 200 producers.

If you haven't given us this number, please do so right away. Then you can be assured that there will be no delay in getting your payments. Payments made to producers who fail or refuse to give us their social security number will be reported to the nearest Internal Revenue Service Center on an information return.

## FINAL PAYMENTS

The spot checks are still not quite complete. Only a very few minor differences have been found so far. We hope to begin making final payments next week. Please remember that payments will not be made to those who are grazing the diverted acreages until the cattle have been taken off and reported to this office.

These men met Wednesday of this week for the county convention to elect the county committee for the coming year. The results of the county convention will be announced in the news-article next week.

## MILLER ATTENDS STATE DEMOCRATIC MEETING

Dee Miller, candidate for congressman from the 18th Congressional District, took time out from his busy campaign schedule to attend the State Democratic Convention held the first of the week in Austin and was present there for a reception in his honor.

He has resumed his campaign schedule endeavoring to contact constituents in all areas of his District.

In previous addresses he has stressed the need for a local united front of labor, businessmen, farmers, and ranchers to promote progressive processing of community products increased attention to the growing problem of disrespect for the law and to the rising crime rate in our state, recommending a campaign by enlightened citizens, and especially law enforcement officers for increased criminal penalties for crimes committed with firearms; he opposes scare tactics, believes in identifying real problems of our district and dealing with them intelligently, as a congressman should, and feels that Home town industry should be developed in rural communities. "The Panhandle of Texas has a greater potential for growth than all but a few areas in the entire United States," Miller stated.

## Bronchos Defeat Sanford-Fritch 27-6

By Adele Barnhill

A crowd of approximately 500 fans cheered the Clarendon Bronchos on to a victory over the Sanford-Fritch Eagles Friday night in Broncho stadium. The final score showed the Bronchos on top 27-6.

Both teams played heads-up defense during the first quarter and neither team was able to score. However, the Bronchos and Eagles both broke into the scoring columns in the second period of play.

First score of the game came when sophomore fullback, Ray Fields, broke through the Eagles for a 60 yard run to pay dirt. Archie Smith, Clarendon's senior fullback, split the uprights for the extra point and the score was 7-0 with Clarendon on top.

Getting back to the game, the Sanford-Fritch Eagles swept through the Broncho secondary for a 65 yard touchdown run by Steve Kuykendall. Ronnie Moore's attempt to kick the conversion was blocked by an alert Broncho team, leaving the score 7-6.

The Bronchos dominated play completely during the third quarter. Sanford-Fritch was backed up against their own goal when they fumbled the ball in the end zone. Bronc center, Barry Tyler, covered the ball for a Clarendon TD. Smith's kick was blocked by the Eagles and the score remained 13-6.

Again the Bronchos scored when junior tailback, Mac McClellan, blasted around right end for the final 3 yards and 6 more points. Once again, Smith's kick for the extra point was good and Clarendon increased their lead to 20-6.

The Bronchos were fired up and ready for anything during the last period of play and Ray Fields obliged by scampering 45 yards up the middle for the final TD of the game. Archie Smith put the final point on with his conversion kick and the game ended with Clarendon on top 27-6.

## BRONCHO B TEAM DEFEATS MEMPHIS 2-0

The Clarendon Broncho B team journeyed to Memphis Saturday morning and came back with a 2-0 victory over the Cyclone B team.

The young Bronchos displayed a good defense, but were lacking in offensive finesse. With less than two minutes to play, Clarendon had a scoring drive interrupted when Memphis intercepted a pass on the one yard line. Three plays later, Bronc Bruce Bush penetrated the Cyclone offensive line and forced the ball carrier into the end zone for a two point safety for Clarendon.

The B team will play the Groom B squad at Groom at 5 p.m. today, Thursday, Sept. 22.

## PUTTING TOURNEY INCOMPLETE

Due to inclement weather and other obstacles, the Donley County Golf Club Putting Tourney is incomplete at this time with matches still being played. Those still in the running can check the board at John's and see who their opponent is and make a date to play your match accordingly. Dr. J. Gordon Stewart said they hoped to complete the tourney some time this week.

Thanks go out this week also to Dr. Chas Deyhle who donated a metal gate, posts etc. for the entrance to the golf course to take the place of the big log chain which disappeared some time ago.

One of the oldest settled sections of the U. S. A. is the Shendoah Valley.

## MOISTURE TOTAL HITS 16 INCH MARK

According to our official weather observer, we have reached the 16 inch moisture mark for the year and have a monthly total so far of 1.28 inches. The last rainy spell dropped 1.06 inches.

Over the area, C. C. Rich measured 1.20 at the Country Club, Willard Knox 1.26 at Lella Lake and a total for the year at 17.54; R. R. Dinger south of town 1.20; Hubert Rhoades at Ashtola 1.60 and a total of 19.68; W. G. Johnson at Hedley measured 1.70 for the spell and also reported a total of 10.06 for the month of August alone.

As far as the weather is concerned, farmers have placed lots of warm sunny weather at the top of the order list.
