## MARVIN JONES IS APPOINTED TO U. S. COURT OF CLAIMS

WILL CONTINUE TO SERVE UNTIL END OF CURRENT SESSION OF HOUSE

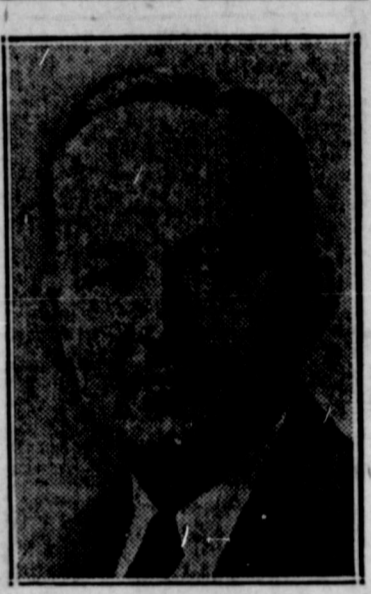

Rumors of Cong. Marvin Jones' appointment to a judgeship for several months became a reality Tuesday. President Roosevelt appointed Jones to the U. S. Court of Claims Tuesday. The salary is \$12,000 a year and a life-time job. He will accept.

Jones began his political life when he defeated John H. Stephens for his present position in 1916. He became chairman of the Agricultural Committee in 1931 after being a member of that committee since 1920.

Mr. Jones has announced that he will serve out the present session. He will be succeeded as Chairman of the Agricultural Committee by Cong. Hampton P. Palmer, democrat, South Carolina according to seniority rule.

Prospective candidates to succeed Jones are Deskins Wells, newspaper man of Wellington; Louis Goodrich, former district attorney of Shamrock; Mayor Ross Rogers of Amarillo; E. T. "Dusty" Miller, Amarillo criminal lawyer and several others. The position pays \$10,000 a year.

Jones has been a strong man in the New Deal administration, a personal friend and adviser of the President, and always got what he asked for if within the power of national leaders in political life.

Further City Park improvement is in the making right soon due to the energy of a ladies committee soliciting funds the past few days.

The east terrace will be set with juniper at the top, with a hedge of Crepe Myrtle below and then a hedge of plumbago at the bottom thus giving a blue-pink color combination against the dark green of the junipers.

Some thirty dollars was contributed for the purchase of Pfitzer junipers. Geo. B. Bagby gave \$5, Mrs. W. H. Patrick \$2. The following gave one dollar each:

John Moleworth, Sr., Jack Moleworth, Mrs. Cal Merchant, Mrs. F. L. Bourland, Rev. G. S. Hardy, M. R. Allensworth, Mrs. W. B. Hallie, Mrs. Bert Smith, Mrs. Meredith Gentry, B. E. ## Band Members Win In Contest

MORE THAN 3,500 ATTENDED MUSICAL CONTEST

The band meet closing at Plainview Saturday evening was the largest gathering of public school musicians in the history of West Texas, it is said. Approximately 3,500 musicians, teachers and parents are said to have been in attendance. This was a three-day Region 1 Texas Educators Association meet.

Division I rating entitles a musician or group to participate in the national music meet. Lewis Chamberlain, trombonist of Clarendon, headed the list of winners in this division entitling him to enter the national contests.

## Clarendon Ranks High In FFA Judging Contests April 6th

In competition with 188 other judging teams, the local chapter teams placed third, fourth, and seventh respectively in the sheep, live stock, and poultry judging events at Lubbock, April 6th. The contests were the largest ever sponsored by Texas Tech College. The local team tied for fourth in sweepstake prizes with Lorenzo. The sweepstake award is based on the standing of the three high teams.

Frank Cannon received a silver medal for placing as second individual in the livestock judging contest in competition with over 200 other boys. George Reeves and Clyde Peabody were the other members of the Livestock team. The crop team won a third place banner and was made up of Rex Moore, Masehill Cole, and Wayne Naylor as members.

Howard Gibbs placed fourth in judging Rhode Island Reds and the team ranked second in this division. Pete Morrow and Cecil Heckman were the other two team members.

Each of the local teams qualified for the state contests to be held at Texas A&M, but will not participate in the event due to the distance to College Station and the expense involved.

## CANDIDATES BLAZE TRAIL THROUGH RAIN TO PIE

It might not have been the pie altogether that attracted candidates to the McKnight school Friday night. They might have desired to see prospective voters in braiding political fences for the onslaught of July 27th. The pie sales is said to have netted the ladies \$6.75. Rain failed to foil the objects of the industrious of the county's east side.

## Resigned

MRS. RUTH TEAT

She was succeeded by Miss Elizabeth Herndon of McKinney, Texas Saturday. Miss Herndon comes from the McKinney City Hospital. ## JAIL IS EMPTY

It's lonesome over around the county hoosegow, stated Sheriff Guy Pierce today. All his guests are gone. Some to prison and others to answer charges in other sections.

This is the first time the jail has been empty since early last fall, the Sheriff stated.

## Prison Terms Given Colored Men Monday

WHITE FRIENDS INTERCEDE FOR SUSPENDED SENTENCE GIVEN ACCUSED PAIR

That it pays to have an otherwise good record when trouble comes, was amply proven when two colored men entered a plea of guilt to felony charges and were given suspended sentences in District Court Monday.

Mitchell Jones, charged with "assault and attempt to murder" upon the person of Maggie Walker, drew a five year prison term. Evidence disclosed that it was a misunderstanding typical of the colored race. White friends interceded in behalf of the accused to get the sentence suspended pending good behavior.

Johnnie B. Granville, answering to a burglary charge wherein he was accused of entering a colored man's cafe, owned up to the evidence. His past good record caused white friends to ask that the sentence of three years given him be suspended pending good behavior.

The colored population of Clarendon, in the main, is law-abiding and self-respecting. They resent any of their number violating any of the laws.

## PROMINENT CHURCHMAN TO SPEAK HERE TONIGHT

Dr. C. K. Vilet of Nashville, Tennessee, principal speaker at the District Conference at Quitaque today, will speak at the Methodist church here at 7:45 this evening.

## Flower Exchange Next Saturday

EXCHANGE OF FLOWERS, SHRUBS IS ANNUAL EVENT

Sponsored by the Les Beaux Arts Club, the exchange of flowers and shrubs has been an annual event for many years. This feature has been of inestimable value to flower lovers of Donley county, and much credit is given the enterprising ladies for their enthusiasm and aggressiveness in furthering a plan to make it possible for many to have beautiful flower yards at small cost.

The exchange will be open from noon for the remainder of the day. You will find the opportunity at the Club Room in the City Hall.

Last Saturday was first designated for the exchange. Rain hindered the results to the extent that the good ladies are again making possible a more comprehensive exchange.

Take your flowers and shrubs to the Club Room, or you can make a list of what you have to trade and make the exchange after you get to the Club Room.

Another feature of the exchange not to be overlooked is the fact that one may learn what flowers and shrubs do best in this section. One may learn much about how to propagate plants, combat insect pests and other valuable information. A number of ladies will be present to give valuable information learned from practical experience. All this information is free for the asking.

If your flower collection has been limited as to variety, this is your opportunity to broaden the scope of pleasure. Few sections can grow such a wide variety of beautiful flowers such as can be grown here.

## F. F. A. Leadership Contests to Be Held Here April 20th

Over one hundred F.F.A. members are expected to participate in the annual Memphis District F.F.A. Leadership contests to be held here Saturday, April 20th. The local chapter has won the chapter conducting contest for the past three years and hopes to hang a fourth consecutive win. Carl Morris, Lee Christie, Pete Morrow, Howard Gibbs, Junior Spier, Ray Robertson, Ray Bulls, Rex Moore, Chick Gordon, Wayne Naylor and Forrest Helton will make up the senior chapter conducting team. Billy Thornberry, Redell Henson, C. G. Kirkland, Woodie Spencer, Bobbie Harold Smith, William Sullivan, J. F. White, Charles and Billy Smith, H. A. Harrison, Jr., and Obra Spier are members of the junior team.

Frank Cannon, Freeman Helton, Russell Morris, and Masehill Cole are members of the one-act play cast, and Clyde Peabody and Herman Higgins will represent the local team in the debate.

## GIRL TO PAY PENALTY ON ROBBERY CHARGE

Lois Oliver, 16, who was given a sentence of two years when she pled guilty to a robbery charge in the district court here two weeks ago, was taken to Gainesville Tuesday. She was accompanied by Sheriff and Mrs. Guy Pierce.

The young lady will be confined in the state training school for delinquent girls, and will likely have better opportunities for an education and other worth while training than she ever had before.

She got into trouble by becoming the "moll" of Hubert Lee Sisco, one of three convicted on the same charge here for robbing the 66 service station November 4, 1939.

## Appointed

GERALD C. MANN

Attorney Gerald Mann was appointed by Governor O'Daniel Wednesday to be chief justice of the state supreme court, effective September 1st. Mann has taken the matter under consideration, but stated that he would not announce a decision for several days.

Mann has a strong following in the Panhandle who have mentioned him as a possible future governor or United States senator. At present he is a candidate for re-election as attorney general of Texas without opposition.

Thursday: A radio-cast at noon today stated that Mr. Mann had declined the appointment.

## DRINKING WAS DONE WHEN COURTHOUSE WAS BUILT

As proof that some drinking from a bottle was done when the Donley county courthouse was built in 1889 came to light a few days ago when O. H. Tidwell found a bottle in the fill next to the foundation where it had lain for 51 years. You are right, it was empty.

What kind of a bottle? The younger folks would not recognize it. Do you recall years ago when you paid a nickel for a bottle of pop that had a wire loop sticking out the top? Did you forget to open your mouth when you tried to "yurp" soon after drinking the soda water? This happens to be just such a bottle.

The lettering on the bottle reads: H. Vossbeck & Co., Trinidad, Colorado. This bottle should be in the Donley County Museum. Mr. Tidwell will be glad to contribute the ancient reminder to the cause.

## MORRIS AND WILLIAMS ARE DELEGATES TO AREA F. F. A. MEETING

Carl Morris and Joe Williams represented the local chapter in the Area I F.F.A. meeting at Lubbock, April 6th. Morris is an area officer and Williams was area secretary in 1939. Two delegates from each of the 83 schools in the area competed in the event.

The area group voted to divide the leadership contests in such a way that the Memphis and Wellington districts will meet with the Vernon group in a sub-area meet at Childress. The next area meeting will be held in Amarillo in September in connection with the Tri-State Fair.

Elephants will act in life-like manner, they are told. While that is going on, free ice cream will be given the public between the hours of 2 and 4 Saturday afternoon.

The Norwood Pharmacy has made a number of improvements. They are proud of it and consequently want all the folks to come and take a look. With that new soda fountain, back bar, luncheonette, there has been a lot of "dressing up" done.

Read the big half page advertisement of the Norwood Pharmacy in this issue of the Leader for further information.

## PAYS FINE FOR USING WRONG TAG ON AUTO

Somehow the highway patrolmen have an uncanny way of finding out things that they are supposed to find out. When Oren Simpson of near Hedley borrowed a lone tag to use on an auto Tuesday, he felt safe. A patrolman noticed only one tag on the car. He investigated and found the tag belonged on a different car to that driven by Simpson.

The result, Simpson was brought before Judge R. C. Weatherly here and paid a fine of one dollar and costs amounting to \$12. More than the original tags would have cost him.

## Rain Covers Much of Texas

While the official rainfall in Clarendon Friday and Saturday showed only .8 according to official observer Joe Goldston's instrument, the fall is said to have been much more on the east side of the county, some sections receiving as much as two inches as a liberal estimate.

Coming at this time when most all of the farm land has been "put up," it will mean much for the early planting season. The main crop of this section is planted during May, while some prefer to wait until the first week in June.

The fall mentioned above was slow and soaked up as it fell. Practically all of the rolling land has been terraced or contoured to catch all the rainfall possible this season. Reports from over the state indicate the fall was general.

## 35th Cake Sent Fatherinlaw

Along about this time of the year, Mrs. J. C. Estlack sends a birthday cake to her fatherinlaw, Alfred Estlack Sr. Several years he made his home here with his son J. C. Estlack and family. The past winter has been spent with another son, Ray N. Estlack and family at 1922 Fifteenth street, Corpus Christi. Reared by the Ute Indians, he does not know his exact age or birth date. Consequently, he accepted April 11th as a birthday, and has been known to the white folks of Colorado since 1849, though a resident of Texas since the late 70's when he first lived at Tascosa. As an army scout, he served under Major Shilvington and Generals Crook and Custer from the Washita to the Black Hills from 1852 to 1868. Old army records indicate him to be about 97 years old at this time.

## ROBBERS GET MORE YEARS IN TRIAL AT SPEARMAN

They have yet to be tried at Pampa. Similar charges are held against them in Gray county on charges of having robbed tourists from Oklahoma who had stopped to repair a casing near Alanreed last November.

The modest violets, Johnny-jump-ups, and pansies are displaying their blossoms in secluded corners and under shrubs. There are the most exquisite pansies peeping from under some shrubs at Mrs. Tom Goldston's. And I heard some children exclaiming over the tulips they saw in Mrs. Weldman's yard and some at Mrs. Roston's and Mrs. Brumley's. They had counted the number in bloom and discussed the colors.

Please don't neglect to notice the delicate green foliage of the Chinese Elms and their clusters of blossoms. It seems that their coloring would rival the green of Ireland's songs and poems, and these trees are numerous in our town.

Such a vast amount of happiness is realized from seeing the beauty given forth by blooming plants, shrubs, and trees. It was Disraeli who said, "How fair is a garden amid the foils and passions of existence," and I am sure we too, possess this sentiment.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

Mr. Weatherman has co-operated with the gardeners wonderfully this spring, but he had us frightened for several hours Friday. For three weeks we have enjoyed a gorgeous array of blooming shrubs, such as japonica, forsythia, bridalwreath, and redbuds.

The boulevard has permitted us to have two miniature garden pilgrimages recently. First, there were the flaming japonica blooms with their glossy green leaves, and now we have the fragile unrivaled beauty of the red buds there. This one spring has contributed sufficient enjoyment for the expenditure of the boulevard. There are innumerable rebuds on private lawns as was mentioned last week.

The lilac hedges are Clarendon's dependables, as they give us some blossoms every spring and the amount varies with the temperament of the weatherman. There are many extensive hedges on various lawns, but the hush in the J. M. Steven's yard, and those in Mrs. Cauthen's lawn have a profusion of blossoms. There is a bush on the curb of the

on the Range

"...for he's a jolly good fellow"

HE'S no softie, this Modern Linerider. Like the old-time cowboy, his work calls for plenty of nerve. His face is sunburned. His muscles are hardened by many hours out-of-doors, climbing 50-foot poles and clinging tenaciously to cross-arms while dodging "hot" wires that might otherwise send him hurtling to the ground—and sudden death.

He works under tremendous pressure. Many of his jobs are like that at Clyde, struck by a tornado on June 10, 1938, in which 12 persons were killed and communications completely disrupted. Linemen rushed to the stricken area and had light and power service restored just 32 minutes after the tornado hit. Sometimes it is an immediate need for electric power, such as occurred in the McCamey area when oil first was discovered. A hundred miles of

line were built and put in operation in the world's record time of exactly 60 days.

Some are college graduates. Others have the equivalent in actual experience. All are highly trained and skilled workmen. They work hard—and play hard. They are good citizens, loyal to their communities and supporting civic enterprises. They are among the hundreds of men and women working "behind the scenes" to make Electric Service efficient, dependable and economical here. On them we bestow a title of honor—"Modern Lineriders."

**TEMPLE OF TRUTH**

By the Apostle

We like to mingle with Panhandle dirt. We have greater admiration for our Creator, and more self-respect because we can take it as it comes and still enjoy life to the fullest. We couldn't do without our sandstorms. The Holy Spirit does not dwell alone in temples built of wood and stone, but in temples built of human need and prayer where the altar is the heart of faith crowned with myriads of star jewels out in the wide open spaces and where courage is the armament that shields us from failure. Sandstorms! They just become a part of us after a while. We look forward to their coming because their going heralds glorious spring with its flowers, growing crops and songs of birds.

**EVERYDAY CHRISTIANITY.**

"Keep your chin up," is a common expression. It may be interpreted in various ways. It means that one should keep up his spirits, his optimism, his faith, his hope and an aggressive temperament to do or die. It means that one should not let anything whip him down—kill the spirit in him as we commonly term it. He should believe first in himself and have faith that if he goes ahead and does his very best, he knows that all will turn out for the best. That is the religion that Christ taught. It is the religion that he is teaching men today.

**What Life Means to a Country Editor**

The above is a dim kodak picture taken of GW and the old Apostle after a romp with their seven grandchildren more than two years ago. The picture is dim but the memory is bright. GW is on her way to Austin now to play with the girl and boy at opposite ends of the picture. Reading from left to right they are Joe Orbert and Barbara Fay in my lap, Patricia Ann, Ira Jean, Jacqueline Marie and Allen Homer in Grandmother's lap, and Margaret Rochelle—all children of four of our five sons.

Children are messengers of peace, hope and love that link earth with heaven. While our children are destined for others than ourselves as time passes, when we grandparents are regarded in the light of memory by them, and others the light of hope, may they always look back to the happy impressions made at "Grandmother's house." Love becomes a part of our lives when we start living, and the best part of living is our little folks. Our babies bring out our noblest part of life's adventures, our greatest opportunities, the most consecrated service, the sweetest comfort and our closest pact with God. They bring the discipline of love and banish isolation and mo-

Heaven's loveliness. Were I a painter, there would be spread upon canvas a scene of happy children where brave eyes of little boys, and trusting eyes of little girls surround a grandmother holding a cookie jar. Not where banners fly and bugles blow, perhaps, but where little crusaders capture the treasure jar and grandmother's heart along with it in a scene as simple as it is beautiful.

**Oklahoma Woman Oldest In Nation**

DURANT, Okla.—When she observed her 100th birthday in 1930, Mrs. Belle Airington said she saw no reason why she shouldn't live ten years longer, and she saw her belief justified Wednesday when she attained her 110th birthday at her home here. As she reached the 110th milestone of her life, Mrs. Airington, who says she remembers seeing the American soldiers returning from the Mexican War in 1836, has shown little change since she was 100 years old.

Mrs. Airington, born in Kentucky April 3, 1830, and a cook for Confederate soldiers during the Civil War, has been married twice, the second time to a fullblood Indian in Indian Territory eighty years ago.

She attributes her long life to drinking lots of water, eating all she wants and not worrying. She still has most of her original teeth.

Mrs. Airington is said to be the oldest person in Oklahoma. Dr. and Mrs. H. R. Beck are attending a Dental Convention in Dallas this week.

**MEMORY LANE**

Homer Mulkey had a special room cover made for his air conditioning machine on top of his Pastime theatre building this week.

The Panhandle Press Association will meet in Memphis Friday. Rains extending from Dalhart to east of Memphis this week.

Mrs. Helen Bates, charged with the murder of Hank Christianson January 24, 1930, was given a 5-year prison term by a jury Saturday after a trial lasting three days.

Members of the Rotary club attended a special service in their honor at the Presbyterian church Monday night. R. S. Cope was program chairman.

Next to high winds and dry weather, cows are said to be destroying more flowers and shrubbery at this time than any other calamity.

A three-day Cotton Research Congress will be sponsored by the Texas State-Wide Cotton Committee in Waco during the first week of June. Cotton production, harvesting, ginning and usage are among the topics to be studied.

Miss Lois Waggoner visited in Pampa Sunday.

**CLARENDON BIGGEST TOWN.**

Fifty years ago this week, the census was being taken. When the job was finished, Clarendon showed to be the biggest town in the Panhandle. We had exactly 1,066 inhabitants, Amarillo 849 hopefuls. Only 703 people lived in Hall county which was ahead of Collingsworth with its 357. Wheeler had 778. Childress was a booming town with 1,175. What a century will make! Employed as a ranch hand, A. H. Baker grew a crop of cane where Pampa now stands.

**HANDICAPS.**

Just for curiosity, a man asked an engineer at the depot Tuesday how long an engine would last in average use. "Well sir," said the engineer, "about thirty years, but it would last longer, perhaps, if it didn't smoke so much and have a tender behind to start with." All of which shows that railroad men of today are not hard-boiled, and have a sense of humor.

**CLEAN PANHANDLE DIRT.**

When the sand comes drifting in don't fuss. It won't do any good, and just remember that it is clean dirt. We can't have filthy dirt in a dry climate where it is filtered through the purest air on the Globe. We old-timers like our dirt. We can take it and like it. At this time of the year we expect it and get it—in blasts. It is beautiful dirt coming from the undulating plains country, or perhaps from the brink of canyons whose walls are painted in deep red, pink, purple, green and blue where it was moulded by Him in mystifying formations. We have His landscapes and desert with His beautiful carvings thrown in for good measure. But no dirty dirt and we feel clean after going through a spell of moving dirt pushed by an 80-mile wind.

**WILL VISIT RELATIVES AT CENTRAL TEXAS POINTS**

Leaving here Saturday, Mrs. J. C. Estlack expected to make an extended visit with relatives at Vernon, Wichita Falls, Bellevue, Bowie, Bridgeport, Ft. Worth and Dallas. The next stop will be at Granbury, thence to Brownwood. She will be met there by one or both of her sons from Austin, and will remain in Austin for a time. She expects to be benefitted by the lower altitude, and her health will determine the length of her stay.

The Outlook is much better for those who diversify where possible. They have found out that a "One Crop" idea does not pay. The farm "sidelines" of cream, eggs, poultry often provide a weekly pay check. It counts in paying the bills of the family. Observation has taught all of us that the ground silo, cow, sow and hen must have a place on the well regulated farm. It forms the money crop when field crops fail to come up to the standard.

WHITE TO EXPERIMENT ON SOIL CONSERVATOR

Perhaps no one has ever tried it here before. That is the belief of Frank A. White after much inquiry. He has gotten a hundred pounds of Lespedeza seed to plant where the wind and water erosion needs checking. This plant originally came from Manchuria several years ago. It is grown in a number of southern states with success. It has a deep root system, plenty of foliage and is prolific in growth. If interested, perhaps you could get a trial amount of seed out of this shipment by inquiring at the Clarendon hatchery. Mr. White will try Italian rye, too. All through the fifty years that he has been here, Mr. White has been trying new things. Many times the new idea worked out just right.

CENSUS ENUMERATORS HAVE THEIR TROUBLES

One census taker says the folks don't stay at home long enough to get their noses counted. It's like making an appointment with "the governor—or sompin'".

Going into a home, among the questions asked was: "Do you have a flush toilet?" The answer was: "Nope, a federal Chic Sale!"

"Is your home occupied or vacant?" was asked the lady answering a knock at the door. "Both," she replied looking somewhat bored. "What do you mean, 'BOTH,'" said the census taker. "Well, if you have to know, my side of the house is occupied by me. The other side is vacant; I ran my husband off Monday."

Mr. and Mrs. D. T. Lewter of Claude visited Mrs. Lewter's brother, Mr. and Mrs. R. T. Brown and family Sunday.

Mrs. Lee Bell was called to Childress Tuesday to be with her sister who is critically ill in the hospital there.

Mrs. S. W. Lowe and son spent the week end in Vernon.

Knocks Horn Flies Loose From Cattle, Then Traps Them

"The horn flies were bad and the cattle were nearly crazy. Out of the rush comes an odd cow at a dead run. She heads for the trap, goes through it, and starts grazing easy on the other side."

That is an example of the stories going the rounds about the new horn fly trap designed by W. G. Bruce of the USDA Bureau of Entomology and Plant Quarantine, and tested experimentally on several Texas ranches.

The trap resembles a carnival "crazy house" and is placed where cattle must pass through it on their way to water and in similar locations.

Weighted flaps knock off the flies and traps—placed to take advantage of the insect's habit of flying to the side when disturbed—catch them. There has been no difficulty in familiarizing livestock with the trap. Once the flies become annoying, the cattle soon learn to make for the trap.

A list of materials and an illustration of the trap—which can be built from scrap material by anyone handy with tools—may be obtained by writing to Cameron Siddall, entomologist of the Texas A&M College Extension Service, College Station, Texas.

Service Projects Under Jurisdiction of WPA Headquarters

Amarillo.—Undernourished school children have received 162,196 hot mid-day meals in school in the Amarillo area as a result of the WPA school lunch program, according to a report issued Saturday by District Manager A. A. Meredith.

Meredith's statement, summarizing physical accomplishments on WPA service projects in this section, was the third in a series of four reports detailing tangible results of four and one-half years of activity by the Federal agency.

In January of this year WPA women workers in the Amarillo territory were serving 1,249 lunches daily to youngsters from underprivileged homes in 20 public schools.

Other outstanding accomplishments were listed in this phase of the report as follows:

In WPA food preserving plants

there were canned 81,083 quarts of foodstuffs.

Housekeeping aides paid 57,955 visits to the homes of helpless and destitute families requiring home service. During December, 1939, a typical month of housekeeping aide activity, 196 families were assisted.

Women workers in WPA sewing rooms in this district have produced 922,075 garments for distribution to destitute families. In addition to garments manufactured, sewing room workers produced 72,987 household articles for distribution into the homes of the underprivileged.

Library workers employed by WPA have catalogued 44,653 volumes and have repaired or renovated 59,744 books. During December, 1939, there were circulated 36,674 books by WPA workers employed in 36 libraries and operating a bookmobile which traveled to rural areas unvisited by libraries.

Establishment of a basis for fair and equitable land tax valuation, location of underground water sources, compilation of comprehensive data regarding adequacy of school facilities, and discovery of useful natural resources, including rock and gravel for road building and other construction work, were the results of the statewide survey projects operated by WPA workers in the Amarillo district.

Results of other research and records projects were listed as follows: City ordinances have been compiled in Amarillo and Childress. In Amarillo and Berger cumulative school grade records projects have been completed. Vital statistics records, covering 68,256 birth, death and marriage certificates, have been indexed for eight county clerks. More than 183,400 deeds, court orders, district and county court minutes, surveyors' records, and property plats have been indexed for seventeen counties and more than 85,500 additional records are being indexed. In three counties 2,203 pages of county records have been transcribed and more than 1,355,000 records have been renovated, rearranged and properly stored.

**MODERN OIL BURNING KITCHEN SAVES HOUSEWIFE'S ENERGY**

There was a time when "man worked from sun to sun" and when "woman's work was never done," but modern farm equipment changed things for the man who tills the soil, and with modern kitchen equipment his wife also finds time for relaxation. Unlike the kitchen devices using piped or wired fuels, use of the range and refrigerator shown here is not limited to urban homes or those located near main highways, for they use kerosene, a fuel that is available everywhere.

**WHERE YOUR MOTOR LICENSE MONEY IS SPENT**

Most of our citizens have just paid their motor vehicle registration fees for the 1940 registration year. The average registration fee is approximately \$11. The payment of this fee should make highway users conscious of the heavy taxes they are paying for road construction and maintenance. It should give them pause and at least cause them to make inquiries as to the manner in which funds derived from motor vehicle registration fees and other automotive sales and excise taxes are being used. Motor vehicle taxpayers should be interested in seeing that they obtain the maximum in service facilities from each dollar of taxes paid.

Last year in Texas the motorists paid a net of \$19,810,918 in motor vehicle registration fees. Of this amount, \$11,318,944, or 59 per cent was retained by the various counties for local road construction and maintenance. The remaining \$7,891,973 went to the State Highway Department for construction and maintenance of state highways. This was approximately 40 per cent. The popular belief among motorists when paying their registration fees is that the state receives all or most of the license fees. Such is not the case.

Mrs. George Dickson is at home now. She has been visiting her daughter, Mrs. Jack Sifton at Amarillo for several weeks.

There were two ball games at Brice Sunday afternoon. The teams playing were Antelope and Brice. The Brice teams won both games. The scores

being South Brice 6, Antelope 5; and the Brice Wildcats 14, Brice married men 1. The two Brice teams will go to Antelope next Sunday and plan to play Clarendon the following Sunday. The Brice team didn't go to Clarendon Sunday as planned. There wasn't a sufficient amount of players present at the time the team was supposed to leave for Clarendon.

There was a small crowd present for Sunday school Sunday morning due to cold weather. The B.Y.P.U. class organized Sunday night.

**PARTNERS IN A GREAT TEXAS ENTERPRISE**

**T**EXAS farmers and ranchers received last year from oil men the huge sum of \$132,478,000 for leases and royalties as their share in this partnership.

All but seven of Texas' 254 counties now share in this cash return from leases and production on more than 50,000,000 acres of Texas land.

Then, too, the Texas farmers and ranchers sell to oil workers and their families more than \$60,000,000 worth of farm and livestock products each year.

Thus the farmers and ranchers of our state receive nearly 200 million dollars a year as their share of oil's total expenditure of 750 million dollars annually in Texas. These 200 million dollars in turn flow into every channel of Texas trade.

The Texas farmer and rancher and the oil man are partners in the development of Texas.

Jesse James Lives Again On Screen

Colorful rogues of every description have always been favorites of motion picture audiences. Now 20th Century-Fox brings Jesse James, the most famous outlaw who ever lived, to the screen in Darryl F. Zanuck's thrilling production of that name, with Tyrone Power in the title role. Director Henry King headed the location company which traveled all the way from Hollywood to the Missouri Ozarks to shoot "Jesse James" in Technicolor in the original setting where the bandit lived, loved and carried on his amazing career. Henry Fonda, Nancy Kelly and Randolph Scott are starred with Power in the picture, which catches all the sweep and color of the era that produced Jesse James. It shows how the Iron Horse, chugging farther and farther West, brought conflict as well as prosperity into the lives of the simple, hardy pioneers, whose

**F. F. A. YOUTHS ENTERTAIN WITH PICNIC APRIL 2nd**

Approximately forty F.F.A. members entertained their girl friends with a picnic to the Word ranch Tuesday afternoon. The group left school at 3:45 p. m., journeyed via truck to the ranch where they enjoyed hiking, baseball, horseshoe pitching, rope jumping, and other games until 6:15 p. m.

Wieners, marshmallows, pickles, mustard, bread, and chocolate milk were served to each of the group, and the group arrived in Clarendon at 8 p. m. In addition to the sponsor, J. R. Gillham, the group was accompanied by Mr. and Mrs. T. H. Stewart.

**D. I. BARNETT HERE**

Mr. Barnett, owner of the local gas distribution system, was down from his home in Miami Monday. He has made a very favorable impression upon the patrons of his company here through his extreme fairness and neighborly method of dealing with his fellow man. It is hoped that the family home will be established here when the change from Miami, if any, is made.

W. Z. Borron and son Dean of the Groom country were in town Wed.

**Laying Leghorn Leads List**

This is the season of the year when the "hen folks" begin to break records, set new ones and arouse the admiration of their owners. Comes now Mrs. N. L. Jones of Ashtola with a White Leghorn egg measuring 8 inches over the end, and 6 and a fourth inches in girth. It resembles an ostrich egg, as it were, and hardly could be credited to the white hen of busy breed except for the fact that Mrs. Jones knows what she is talking about.

Just how many square inches in an egg of that dimension? Or would one have to know the angle of the sharp-point to figure it out? How about this egg business anyhow?

**OKLAHOMA FOLKS HERE**

Here for the week end were Mr. and Mrs. W. T. Corneilus and daughter Wanda Lou of Altus visiting the lady's sisters, Mrs. T. Jones and Miss Cora Ferris. With them came Mrs. A. L. Ferris who spent the time with her son, Roy Ferris and wife of Chamberlain.

**Tractor Repair Work Right In Your Home Town**

WELL KNOWN MACHINE SHOP EQUIPS FOR EXCELLENT SERVICE QUICKLY

Despite the fact that the Johnson Machine Shop and Welding Works has had an excellently equipped machine shop for some time, additional equipment has recently been added. This new machinery is necessary to take care of tractor repair work on short notice.

In the past, no firm had a plant equipped for doing all kinds of tractor work. Since this work is more nearly that of a machine shop rather than a garage, Mr. Will Johnson supplemented his present equipment with all necessary machines for turning out a first-class job on tractors.

Shafts, axles, etc. are remade for instance, making the purchase of new ones unnecessary. The plant is capable of producing any form of axle, shaft, journal or boxing and such other needs as may arise.

The firm has contracted to run a series of advertisements through the Leader, the farmer's paper of Donley county, to acquaint the owners of tractors with the excellent service and savings that may be had right here at home. Read the first advertisement in the Leader this issue.

**CAR DEALER SET AFOOT**

The owner of the Palmer Motor company found himself afoot at Lubbock Tuesday after driving a Mercury over there some days ago. He sold the car and hastily put in a call for help back at headquarters. Elmer Palmer took another car over Wednesday. When a car dealer gets to the point of "hot-footing" it around, something has to be done in a hurry to relieve his predicament.

Mrs. Gal Merchant was an Amarillo visitor Saturday.

There is much excitement in Henrietta. The Lochridge oil company has brought in a well near Petrolia producing 100 barrels a day.
