

Hightower, Price in 'grassroot' political meet

Jack Hightower, U.S. Representative from local District 13, and his Nov. 4 opponent for that seat Bob Price of Pampa faced off Friday night, Aug. 20, at Clarendon College at a Meet-The-Candidate confrontation.

Approximately 200 local and area citizens attended the event conducted on the campus of Clarendon College at the Harned Sisters

Fine Arts Center. Texas Farm Bureau's sponsored the meeting with Farm Bureau Representative Steve Cochran of Aspermont serving as moderator.

Format of the program allowed each candidate either one or two minutes to answer questions from a prepared list of 17. Candidates alternated answering first. More complex questions were

allowed a two-minute reply.

Each candidate was also given five minutes at the program's beginning to introduce themselves and five minutes after to sum up what they would try to accomplish if elected.

Question topics ranged from such local concerns as the high cost of farming and ranching to national questions such as gun control.

Moderator Cochran called the meeting an example of "government in action at the grass root level."

Candidate responses were along the same lines for the majority of questions, but Price made at least two derogatory references to Hightower's legislative performance this past term. Price was defeated by Hightower for this district's Representative seat in the last election.

Price criticized Hightower along with the entire Congress when he accused them

of running up the national debt to \$700 billion by passing popular legislation "just to be re-elected." Price made the statement in reply to a question concerning deficit government spending. He said, if elected, he would not "sacrifice what I believe in for votes."

Price also referred to members of the U.S. Agricultural Committee in Congress, of which Hightower is a member, as "non-farming decision makers." He said the Ag. Committee had become a "consumer committee passing welfare and food-stamp legislation," commenting that most committee members had never farmed or ranched, consequently, "they don't understand" problems faced by farmers and ranchers. He made his comments during his five minute summation.

Hightower, in his closing remarks, said his main concern was to pass legislation which would "maintain the quality of life in rural America." Specifically, he men-

tioned working to maintain rural schools and post offices.

Both Price and Hightower seemed to agree on most of the questions put to them. Concerning gun control in the U.S., Hightower replied, "I'm against it," with Price adding, "I agree with Jack." Both responses prompted much applause from the audience.

Both candidates said they did not favor regulation of natural gas production at its present rate. Concerning de-regulation, Price said he felt the U.S. was "moving in this direction."

Both also agreed that civil employees should not, in most cases, have the right to strike. Hightower qualified this by saying civil employees in "essential positions," such as firemen and policemen, should not be allowed to strike.

Grain sales to Russia were endorsed by Representative Hightower, but only on a cash basis. Price said he would sell to the Russians "in

cash," but said ultimately the wisdom of agricultural product sales to foreign nations would have to be questioned.

Both candidates commented strongly against export embargoes on U.S. agriculture products. Hightower said he would even favor legislation which would prevent the President from implementing such embargoes.

Both also came out strongly against the divestiture of major oil companies, controlling how much oil they can produce. Hightower said divestiture was similar to taking the American farmer and putting him on only 40 acres to produce for the American people.

Federal land use planning also prompted negative comments from both candidates. Price said the American farmer, the "backbone of the country, doesn't want the government telling him how to use his land. Hightower echoed these thoughts, saying he's seen too much good land taken out of production by government involvement.

When asked how he would help alleviate the high pro-

duction costs of farming and ranching. Price said he favored more research into "weather modification," the study of weather phenomenon and how to control it. Price also mentioned de-regulating natural gas to aid farmers with running irrigation engine expense.

Both Hightower and Price also agreed that such gov-

ernment organizations as the Environmental Protection Agency (EPA) and the Occupational and Safety and Health Act (OSHA) had "over-exercised" their power. Hightower called for more governmental control of these agencies and Price accused them of "creating armies of personnel to harass people."

But working landfill months away

Howardwick to apply for landfill

Howardwick officials are currently completing an application to the Texas Dept. of Health Resources for a state approved landfill, but relief to Howardwick citizens now without a place to dump their garbage is still months away.

According to Mike Sanders, lawyer for the city, the application will be sent off sometime this week, Sanders estimated. Time delay waiting for state approval of the application could take from four to six months, however.

If the landfill application is approved, a public hearing must be held for citizens wishing to oppose construc-

tion of the facility. Because of this, the landfill cannot be dug until after the hearing.

Until the landfill filing and approval is completed, Howardwick garbage will be removed by a pick-up and trailer service. Each Friday and Saturday, a trailer will be pulled around Howardwick and citizens placing their garbage beside roads will have it picked up.

There will be no charge for the service, but any citizens wishing to make a contribution to help alleviate cost of operating the trailer pick-up may do so. Contributions should be made to the Friendship Club at Howardwick.

First pickup service at Howardwick will be this weekend, Aug. 27-28.

Site for the landfill has already been approved by an official of the Texas Dept. of Health Resources Regional office in Canyon. If approved, the landfill will be constructed on a three-acre tract of land northeast of the Clarendon Country Club golf course across Hwy. 70. The area is now the site of a small airport which will have to be eliminated when the landfill is constructed.

George Howard, former Howardwick city council-

man, is leasing the land to the city for a fee of \$1 per year with an initial commitment of seven years. In all, five acres of land are being leased by the city, with two acres leased for possible expansion.

A landfill maintained by Sherwood Shores, developers of the land on which Howardwick stands, was filled in July 5 after negotiations broke down between city officials and president of the Sherwood Shores Corp. George DeArmond.

The landfill situation at Howardwick arose out of a request by DeArmond that the city submit an application to have an existing landfill located north of Howardwick approved.

That landfill had been maintained by Sherwood Shores. The city and DeArmond disagreed over possible legal problems of the city taking over the landfill facility plus the question of who would be liable for costs to bring that existing landfill up to governmental standards.

Since July 5, citizens of Howardwick have been using the Clarendon landfill located some miles from Howardwick.

When the Howardwick landfill is opened, Sanders said city ordinances would be passed to determine who could use the landfill free and who would be accessed a charge.

"For example," Sanders said, "if you had some people using a disproportionate amount of the landfill space, you'd probably have to charge them something for this use."

Property owners at Sherwood Shores buying their land after July 5th this year also present a problem to those in charge of the Howardwick landfill.

According to a property description report released by the U.S. Dept. of Housing and Urban Development (HUD), a "trash silo" is listed as currently existing at the Sherwood Shores subdivision. This was the landfill covered up July 5.

Because this landfill was maintained by Sherwood Shores and the planned facility will be maintained by the city of Howardwick, questions have arisen if Sherwood Shores property owners buying after July 5 will be eligible to dump trash at the facility.

Just who would be eligible to use the landfill would depend upon how the city ordinance was written, Sanders said.

School budget loses some state funds

Clarendon's School Board approved the 1976-77 school budget at their meeting Thursday, Aug. 12 with an expected school budget expenditure totaling less than the '75-'76 figure.

School expenses had to be cut this year, according to Clarendon Superintendent Jeff Walker, because of less expected revenue from school sources. High on this list is an approximate \$50,000 cut back on Salary and Operations (S&O) expenses normally provided by the State of Texas.

This revenue cut is the third one approved by the Texas legislature in three years. Walker said the trend in school financing is to place a greater burden on local funding for school operations.

Clarendon Public schools generated \$743,514 in revenue for the 1975-76 school year. A revenue of \$699,047 is expected this year, a difference of \$44,467.

Since 1974, every public school in Texas has lost approximately \$150,000 in state funding, about \$50,000 per year per school.

Last year, the state of Texas paid \$275,300 to the Clarendon system for S&O costs. Expected state revenue for S&O expenses this year was figured at \$215,539, a loss of \$59,761.

To make up for this loss of revenue, school expenses had to be figured closely, Walker said, along with implementing an increase in school taxes.

School enrollment figures

Clarendon schools began Monday, Aug. 23, with enrollment figures for the 1976-77 school year approximately the same as 1975-76 figures.

Total enrollment for Clarendon elementary, junior high and high school as of Tuesday was 586 students. Clarendon enrollment figures have apparently stabilized if number of students entering the system and students set to graduate are an indication. In Clarendon's two kindergarten classes this year, 44 children are enrolled. This compares to the 47 students comprising Clarendon's Senior Class of 1977.

In Clarendon's kindergarten, elementary and junior high school classes, 381 have enrolled. There are two classes in each elementary grade except for third and fifth grade. According to Junior High Principal Floyd Guinn, the third grade may later be divided into two classes.

Enrollment for grades 1-5 are: 1st grade, 44; 2nd grade, 44.

Mrs. Dorothea Ledbetter of Amarillo visited her parents, Mr. and Mrs. O.C. Watson.

Tax revenue for Clarendon schools is expected to be \$271,950 for the coming school year. In 1975-76, \$250,133 was brought in with taxes. An additional \$21,817

will be added to the school's revenue this year through the recent tax rate increase.

Expected expenses for the coming school year were approved at \$698,899, \$10,610 less than the 1975-76 school expense figure of \$709,509. Walker said this lower total was due mainly to the elimination of faculty positions at the school.

For the coming year, an elementary school aid position and one teaching job has been eliminated. The Clarendon school counselor position has also been reduced from full-time to half-time.

Eliminating the teaching "and aid job reduced expenses for the coming year an expected \$8,262. Reducing the counselor's position by half cut that salary expectation from \$10,992 last year to \$6,870 this year.

Broncho Boosters meeting

Clarendon's Broncho Booster Club will have their first meeting of the 1976 football season Tuesday, Aug. 31, at 8 p.m. at the Clarendon High School cafeteria.

Club activities for the coming season will be planned along with showing the football film of the recent Broncho scrimmage against Sanford-Fritch.

All parents and fans of the football team are invited to attend. Membership in the

Broncho Boosters is open to anyone.

During the season, the club meets each Tuesday night and shows the previous Friday's game film. Head Broncho Coach Jerry Wilson also discusses the upcoming game and gives a progress report on the Bronchos.

Visiting in the home of Mrs. T. Edd Todd were friends from Kingsville, Mr. and Mrs. D.K. Stutta.

SCRIMMAGE PREPARATION — Broncho Coach Jerry Wilson talks to the Clarendon Varsity Team minutes before their scrimmage with Sanford-Fritch Thursday night, Aug. 19. The Bronchos A

squad face another scrimmage this Thursday, Aug. 26 against Groom there. The B team will accompany them to Groom to play the Higgins Varsity squad. (Press photo by Donny L. Brown).

Church highlights 'family'

"Home and Family" will be the special theme of the Sunday school hour on Sunday, August 29 in the Clarendon Church of the Nazarene.

The largest family present, which includes any relative, will be the recipient of a family portrait, as well as a "surprise" gift of the Living Word which was made by a refuge while spending nine years in a war camp. This gift will be presented by Joan Kidd, Sunday school superintendent.

Families are important to the welfare of the church - the community - the state and the nation. Families, as well as individuals need constant encouragement and help from the message God has given the church. This message is the truth that brings real contentment and peace of heart and mind from God. Everyone is invited to these services.

INSUR-MATION
By Bright Newhouse
American Automobile Life Insurance Company

What do insurance companies do with the money they collect? How can I determine the financial stability of a particular company?

The money collected goes into the general funds of the company. It is used to meet normal expenses plus make the payments to the policyholders and beneficiaries. The balance, along with the company's reserves, are invested and earn money toward future benefit payments for the policyholders. Investments made by companies have lowered the price of some insurance so that it is less than it was 20 years ago. To determine the financial stability of an insurance company, you may write the Insurance Commissioner who will furnish you with information with which to gauge financial stability. Also available with most insurance representatives are reference books which give all the data on the sound companies.

Student evaluation course

The Department of Secondary and Higher Education, West Texas State University, in cooperation with Clarendon College, will offer a three-semester-hour credit Workshop on the Campus of Clarendon College this Fall semester. The title of the seminar will be "Techniques of Evaluation in Secondary Schools and Colleges."

The class has been designed to provide in-service study for junior high, secondary, and college teachers of the latest techniques and developments in evaluating students. Students in the class will be given time in the

workshop to become proficient in writing behavioral-observable objectives, analyzing tests, determining the discrimination index and difficulty index of test items. A special feature of the class will be a section on "practical statistics" or "statistics made easy" unit for people who shun statistics.

Dr. Thomas MacOwan, Secondary and Higher Education, will be coordinating this seminar. He had extensive public secondary school teaching and administration experience prior to his college teaching. His special teaching areas have been curriculum in the secondary schools, foundations of education, research, classroom procedures and techniques, and measurement and evaluation. Inquiries may be directed to him, phone 656-2036 or 352-6304.

The class will meet on Wednesday nights at 7:00 in the Clarendon College Administration Building. First class night will be September 1, 1976. Enrollment for the course will be on the WTSU Campus at Fall registration (8/27-28/76), or the first night, September 1, 1976.

Social security benefits

Social security benefits were being paid to residents of Donley County at a rate of \$160,518 a month at the start of 1976, Jim Talbot, social security manager in Amarillo, said today.

Of the 1,057 social security beneficiaries living in Donley County, 699 are retired workers and their dependents. Another 163 are receiving benefits as the survivors of workers who have died, and 195 are getting benefits

as disabled workers or their dependents.

In Donley County, 295 people under age 65 and 762 people age 65 and over are receiving monthly social security benefits. Of total beneficiaries 420 are men, 541 are women, and 96 are children. The children receive payments because a working father or mother has died or is getting social security disability or retirement benefits.

Reddy's helpful tips for your Home Laundry

PLAN AHEAD
Sort clothes according to type of fabric, color-fastness, degree of soil and garment construction. You'll save both hot water and electricity by doing similar items together. Accumulate a full load before running your washer.

BE SELECTIVE

Choose the cycle that is precisely appropriate for the clothes you are washing. Is a "hot" temperature setting really necessary? Except for heavily soiled items, most loads will come clean in either a cold or warm wash. Look into cold wash detergents.

Use the least amount of detergent that will get your clothes clean—most loads require only an ounce or less!

Overloading causes extra strain and wear on your equipment: check the manufacturer's recommendations for load weight. Balance your load by alternating small and large items.

FOR SAFETY SAKE

Be sure control is "off" before reaching into your washer.

If one is necessary, use only a heavy duty extension cord.

Be sure your washer is grounded. Keep dry cleaning agents, color remover and Fiberglas out of your washer. It's a good idea not to wash clothes containing cleaning fluids in your washer.

Remember REDDY Supplies the energy—but only YOU can use it wisely!

Donley County Land O' Promise

by VIRGINIA BROWDER

\$15⁷⁵

Including Tax

This pioneer history of Donley County is as colorful as variegated brake land of this eastern Panhandle country. Such salty cattlemen as Charles Goodnight and Tom Bugbee along with men of the cloth such as Henry Lewis Carhart helped to settle and civilize one of the nation's last frontiers. Author Virginia Browder covers the days of the Comanche and Comanchero, the rancher and later the farmer and the settlements and towns and communities that made up Donley County. Histories of pioneer ranch families, churches, schools, communities and businesses will make Donley County, Land O' Promise a welcome addition to Panhandle county histories.

By MRS. MARY CASTNER

ACCIDENT TUESDAY — A mother and her daughter were both killed in this accident just outside Hedley on Hwy. 287 Tuesday, Aug. 17. The family was passing through Donley County moving to the Dallas-Fort Worth area.

Mother, child killed in wreck

A mother and her 9 year old daughter were both killed in a single car wreck one-half mile west of Hedley Tuesday, Aug. 17, on Hwy. 287. The young girl, Sonia Das-

wani, was pronounced dead at the scene by Hedley Justice of the Peace Oneal Weatherly. Her mother, Kamal Daswani, died later Tuesday at an Amarillo hospital.

The mother and daughter were driving a few miles behind the father, Kishu Daswani, when the accident occurred. The family was moving to the Dallas-Fort Worth area.

BANK HOOKED — This eight pound catfish was caught by Bob Sinyard with a bank hook ring consisting of a single hook baited with a water dog and tied to a tree limb. The fish was hauled in at Lake Greenbelt Saturday, Aug. 21. (Photo courtesy Jim Milam).

Local highway patrolmen were unable to determine a definite reason for the accident. Judging by tire marks at the accident, the car first swerved into the right ditch of the east bound lane on Hwy. 287, then made another swerve back onto the highway to finally turn over in the highway's center. No other car was near the Daswani auto at the time of the wreck.

Highway patrolmen all but ruled out the possibility that the driver had fallen asleep at the wheel because the family had stopped and eaten in Clarendon just before the accident.

Funeral services for both mother and daughter were later conducted in Dallas.

Boy licensed as minister by local Baptist Church

James Thomas, son of Mr. and Mrs. Claud Thomas of Clarendon, was licensed as a minister in his honor held at the First Baptist Church, Clarendon, Sunday, August 22. The First Baptist Church licensed James after hearing him preach the evening service and after a thorough questioning of his salvation experience and call to the ministry.

James Thomas

James will be entering Hardin-Simmons University in Abilene, Texas, August 31 to begin studying for a degree in Theology. James has been attending Clarendon Jr. College this summer while serving as a full time employee of the First Baptist Church of Clarendon. James has been active in community activities. He has been involved in helping Tommy Saye with the scouting program this summer, and along with his other activities, James has found time to spend an hour each Wednesday morning teaching a Bible class in the Clarendon Medical Center rest home.

After finishing his degree in religion at Hardin-Simmons University, James plans to enter Southwestern Baptist Theological Seminary in Fort Worth, Texas, to earn a Doctor of Theology degree. James stated in public testimony to the church Sunday evening that he is interested in medicine and hopes to correlate his ministry in some way with the healing profession with a Doctor's degree in Medicine.

Randy Ward, Brenda Tobias

Tobias—Ward wedding engagement announced

The engagement of Miss Brenda Jane Tobias and Randy Neil Ward is being announced by their parents, Mr. and Mrs. Edgar Tobias of Cee Vee, Texas and Mr. and Mrs. W.A. Jackson of Clarendon.

Ward attended Clarendon Junior College.

Miss Tobias is employed at Gibbons in Clarendon. Mr. Ward is self-employed in custom hay farming.

The couple plan to make their home in Clarendon.

The wedding is planned for the evening of October 2, 1976 at 6 p.m. in the Fellowship Hall of the Church of Christ in Childress, Texas. The public is invited.

Both Miss Tobias and Mr.

Ward attended Clarendon Junior College. Miss Tobias is employed at Gibbons in Clarendon. Mr. Ward is self-employed in custom hay farming. The couple plan to make their home in Clarendon. Miss Tobias is the granddaughter of Mrs. T.A. Riddell and great-granddaughter of Mrs. C.M. Jorton of Cee Vee. Mr. Ward is the grandson of Mr. and Mrs. Clarence Ragan.

Screwworms in county

A case of screwworms was confirmed in Donley County by the Texas Screwworm Eradication Lab Thursday, Aug. 19.

Commission. Donley County Extension Agent Ronny Gooch urged all ranchers in the area to check their animals for possible evidence of screwworms.

The parasites were discovered on cattle belonging to the T.L. Roach and Son Ranch 14 miles northwest of Clarendon.

The stinging was the first within Donley County this year. Cases of screwworms had been confirmed in Collingsworth County which borders Donley earlier this year. Screwworms have also been spotted on cattle belonging to the JA Ranch near here.

Sterile screwworm flies were released on the Roach Ranch earlier this week by the Texas Animal Health

If any ranchers suspect screwworms may be on their cattle, a specimen of the worm should be brought to Gooch at his Clarendon office. The specimen will be mailed to the Texas Screwworm Eradication Lab for positive identification.

Gooch also cautioned local ranchers about doing any work to cattle which might leave open wounds. If possible, Gooch said, such work should be postponed until the first freeze of winter.

Knee-high socks are popular for the young act. Favorites are bright space dye patterns, ethnic embroidered looks and heat-transferred prints, reports Beverly Rhoades, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Fabric-stuffed dolls, animals and pillows for infants should be washable. Check for holes or weak seams and repair them before laundering. These kinds of toys absorb much moisture during washing and require a long drying time. If items are machine dryable, use the highest drying temperature setting. Stop the appliance occasionally and shake toys to redistribute stuffing—the items will then dry more evenly, says Mrs. Linda McCormack, family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Plowin' Out the Corners

There is no joke about it...I love my HOMETOWN too...When I bragged on Clarendon for a good 4th of July Celebration, and Shamrock for its St. Patrick's Day we knew all the time that Claude would soon be having its Old Settler's Day... 2500 pounds of good barbecued meat was served to almost that many people...Some-times when the money is being raised we ask ourselves if it is worth it. But, when you see the Old Timers gathered under their tent and the Boy Scouts serving them food we know that this alone is worth it all...The kids drink gallons of soda pop and lemonade, the cowboys get the daylight bucked out of them, and the parade thrills them all. Our thanks to The Legion, The Lions, the Chamber of Commerce and the others who do so much to make this day a great day. As for me

and Uncle Zeb we had the best jobs of anyone...We were sort of Greeters or Handshakers...We welcomed our Congressman, and Mr. and Mrs. Robert Wilson and his group of Girls from Girls Town...This was a pleasure and these girls were a wonderful and well behaved bunch of young ladies. Each of you come again and let Uncle Zeb say Hello to you'all...

Cops, Cops, and more Cops...And we were thankful for them...Often when I am in deep thought and cruising along peacefully the footpedal gets to hanging a little low...The blinking lights of a patrolman, and the toot of his siren stirs me with mixed emotions and excuses...But, in the long run it is good for us...The other night was a good example...Some friends and I were coming out of the edge of Amarillo. A young

fellow swooped by us at a speed that must have been well over 100...Before we could say we hoped they got him Cops began closing in from all directions. He tried a cut-off street and there was one in front. He ran over a guard rail to get back on the main highway. One followed him and crashed into his front as he swerved. In less time than you have spent reading this some five police cars had him pinned in. We were some 100 yards away watching with bugged eyes and almost listening for a bullet...Such protection at such danger. It put me to thinking...One of the greatest things we get from our Tax Dollar is Police Protection...So seldom do we say Thank You. This wild driver could have killed a dozen people. At the risk of their own lives they stopped him... Thank You Fellows. One of my dearest friends Capt. Blackwell is retiring soon. Another Great and fine Patrolman.

School Days, School Days, Dear old Golden Rule Days...Whether this is still true or not... Ready or not ready, here they come... It seems the summer passed so quickly...We stuck by the air-conditioning so closely that we never did take a trip...Speaking of school days we have a lot of memories...Out in the little two teacher schools...the boys grew so large before getting through the top grade, and sometimes they just kept on going to court the teacher...My, My, but in those days a pupil could gra-

duate from high school in the spring; take a six-weeks teaching course in the summer, and be ready to go out and teach, and perhaps get married in August...Many of the schools started early and then stopped so we could en-

joy a couple of weeks of cotton picking in the fall. And these TEACHERS...my but they were often so pretty...I can't remember just how many we fell desperately in love with...They were so un-reachable one just couldn't tell them, and the prettier they were the harder it was to tell them...We would stand sort of close to them, dust the earsors, and start the fires...I wish I had not been so bashful...I have often wondered

RECKON they could tell we were deeply in love with them?...Most of the time if they got married it meant the end of teaching...The trustees protected us older ones that much...If some lady taught in those years and felt they were loved by some pupil...please write and tell me how you felt about it...

If you have not met Rev. and Mrs. Jack Sutton, you

Mrs. Mabel Bridges entered High Plains Hospital in Amarillo Wednesday and will have eye surgery on Thursday. Good luck Mabel.

Country Club News

Well, we've had another good week at the club. The rehearsal dinner the 20th went off smoothly which is always a relief. We've had things happen at the club that, at the time, seemed like major catastrophes. Such as the time the electricity went off three hours before we had a big dinner party scheduled. There sat the un-cooked food, the club house had no air-conditioning, we couldn't find hide nor hair of the R.E.A. man, and those helping with the dinner were becoming panic stricken. Thirty minutes before the guests arrived the electricity came back on, the building cooled off, the food was cooked, and those helping breathed a tremendous sigh of relief.

Kay and Jim Hayes, and their children, were at the club Friday celebrating Kay's birthday.

Wanda and Frank Phelan entertained our State Representative, Jack Hightower, at the club Friday evening.

Sat. night there was a rather small crowd, maybe 10 or 12 couples, but the dance floor in the bar is just about right for a crowd that size — so everyone danced, visited, and had a good time.

Be sure and watch the club news for information in regard to Fall & Winter Golf Tournaments. We're going to have some Florida

Scrambles, etc. We'll try to keep you posted on upcoming events.

Today, Aug. 26th, is Ladies Play Day. Tonight we have the 7 o'clock buffet, with bingo games at 8 o'clock. The \$100 jackpot is still available to some lucky player. Wonder if Mrs. Killough will have her lucky charm with her again tonight?

Sat. the 28th, we're having a buffet at 7:30. Jean is going to serve her good fried chicken. The cost is \$3 for adults and \$1.75 for children. Please try to make reservations if you know in advance you're going.

Sunday, our noon buffet will be served from 12 o'clock until 2 o'clock.

Monday, the 30th, the ladies will be meeting for bridge and luncheon.

Surely do hope Avis Benson is feeling like her witty, funny self again soon.

Hope Carol Fowler can correct his back problem without having to have surgery. We're sorry about your accident.

Hope you'll thank Sally Gibson when you see her. She is going to re-type our club menus. Jean is lowering the price of steaks for one thing. So come out soon. Drink and eat with us. We'd love to have you.

Have a nice week.

Singers due at service

The singing Castner family will be present at the Calvary Baptist Church Sunday August 29th.

We extend a welcome to all our friends and neighbors to be present, as they are always a great blessing to all that have heard them.

They are no strangers in these parts as they have been with the Calvary Baptist Church, and the Church at Howardwick several times.

They will be singing at the 10 o'clock service, and also at the 11 o'clock service. The Castners are a singing family from Lubbock, Texas.

Bro. & Mrs. Castner and two sons and two daughters,

you will not want to miss any of these services. At the evening service which will begin at 7 o'clock, they will have the entire song service time.

This Sunday will be youth Sunday, the young peoples department will have charge of the entire service, and the youth department will receive special recognition for their great achievements in the Lord's work this summer, and they welcome their many friends to come and worship with them.

Revival still underway

The United Pentecostal Church is still in progress at the corner of Montgomery and Faker Streets.

Rev. Roy Jones is the evangelist from Little Rock, Arkansas.

The revival was started Wednesday, August 18, and Jesus has blessed each ser-

vice.

We appreciate all who come and want to invite everyone to come for the Lord to supply your needs. Jesus still heals, forgives, and gives the Holy Ghost to whomsoever will — pastor Lawrence Thompson says.

Group honors teacher

Marilyn Butler Gilger, daughter of Mr. and Mrs. Luther Butler of Lelia Lake, was recently chosen as a new member of the Outstanding Leaders in Elementary and Secondary Education, a professional teachers' group.

Only a select number of teachers are chosen each

year from across the U.S. as members of the organization. Mrs. Gilger has been an elementary music teacher in Perryton for 15 years.

She and her husband Michael have two daughters: Mrs. Pam Butts of San Angelo, and Kimberly Gilger of Perryton.

According to one researcher, marital satisfaction is lowest for couples when their children reach and progress through the school-age years. Couples indicated a decrease in satisfaction with finances, task performance, companionship, sex and relationships with children. The adolescent stage was considered to be the most problematic, reports Debby Johnson, family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Mr. and Mrs. Bill Duff and children of Richardson spent several days with Mr. and Mrs. Morgan Cox. Mrs. Duff is the daughter of Mr. and Mrs. Cox.

Berries and cherries keep best when stored unwashed in the refrigerator in a shallow container to allow air to circulate around the fruit, advises Marilyn Haggard, foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Broncho teams in scrimmage Thursday

The Clarendon Broncos and Sanford-Fritch battled it out in a controlled scrimmage at Clarendon Broncho Stadium Thursday night, Aug. 19.

A fairly large number of people from both cities attended the contest which pitted both Varsity and Junior Varsity squads against each other.

Play consisted of each team running a set number of offensive plays against the opposition's defense. If either team failed to make a first down, the ball was brought back to their own 35 yard line and they continued to run offensive plays.

In the Junior Varsity game, Clarendon and their opponents split one touch-down each. Only one touch-down was scored in the Varsity game.

Clarendon's quarterback Howard Westherton made it across the goal line only to have the play called back because of a penalty.

The Broncho's first regularly scheduled game is Sept. 3 against McLean there. They have another scrimmage this Thursday night, Aug. 26, at Groom. The Varsity will play Groom's A Team. Clarendon's Junior Varsity will accompany the Varsity and play the Higgins A Team.
