Lone Star files Rate Increase

Lone Star Gas Co. Manager, Mark Winsor, filed an application for a rate increase which would raise the average residential customer's monthly bill in Clarendon about \$2.30 in the winter and \$ (.30) in the summer.

Based on Lone Star's rate application, a residential customer who uses an average of six thousand cubic feet of gas a month paid \$33.84 for gas service in the winter. Under the requested rate, that same customer would pay \$36.14.

Commercial gas customers' rates would also increase under the requested rate schedule.

"Our customers are accustomed to dependable natural

gas service," says Winsor. "This rate increase is necessary to continue a high performance level and for other necessary expenses, such as maintaining and improving the local pipeline distribution system, which are vital to dependable service."

Lone Star's last rate increase in Clarendon became effective October, 1981.

"Since that time, every business, including Lone Star, has experienced increased operating expenses," says Winsor.

"And, of course, unlike other businesses that can raise their prices as expenses go up, we must apply to the city council for a rate increase. No one likes rising prices,

but any business must earn enough money to meet operating expenses and still achieve a reasonable profit. Even though our expenses have gone up, Lone Star still has one of the lowest average operating costs per customer when compared to any of the other major gas utilities in Texas."

College library designated Heritage Resource Center

The Clarendon Junior College Library has been designated a Certified Texas Heritage Resource Center by the Texas Heritage Project of the Texas Historical Foundation.

The Texas Heritage Project has initiated the establishment of Texas Heritage Resource Centers across the state to provide Texas history teachers, students and the general public with easy access to books and materials about the state. The local Texas Heritage Project representative is Mrs. Pauline Lampkin.

Winners in Wrangler Jean contest

If you guessed 24,794 stitches in the Wrangler Jeans "Count the Stitches" contest, you guessed exactly right.

The official stitch count includes: Waist-1,360; Belt Loops-910; Belt Loop & Fly Tacks-756; Band End-60; Inside Hanger-500; White Pockets & Watch Pocket-1,740; Front Pockets-580; Hem Hip Pockets-560; Set Hip Pockets-1,440; Silent "W" on Back Pockets-840; Tacks on Hanger-168; Riser-1320; Zipper-2,150; Back Rise-1,240; Inseam-5,120; Outseam-5,220; Bottom Hem-680; Wrangler Patch-150.

Three people guessed 25,000. They were Edie Robertson, Melody Moreman and Amy Alexander. Frankie Henson made two guesses; one was 24,784, which was within ten stitches and she also guessed, 25,600.

These people were the winners of the five pairs of Wranglers given away by Saye's.

Class of 73

The 1973 senior graduating class of Clarendon High School held their 10 year reunion Saturday, July 2. 37 classmates and 10 teachers attended.

The reunion started at the Clarendon College Cafeteria at 9 a.m. with the whole family getting together to remember old times and also to give everyone a chance to see each others families and find out what they have been doing for the past 10 years. At 10:30 a class picture was taken.

That afternoon at 5:00, a cookout was held for the husbands and wives at Joni Myers Chaison's home. Awards were presented to the boy and girl that had changed the most and least, the longest married couple and the couple with the most children.

The class would like to thank the ones that coordinated the reunion. They put in a lot of time, effort and money to make this reunion a huge success.

The Clarendon Press, is published every Thursday, at 106 S. Kearney and entered as Second Class Mail at the post office at Clarendon, Texas.

EVEN WHEN YOU'RE AWAY...YOUR HOME KEEPS RUNNING

You may naturally expect your home to use less electricity while you're away for a week or more. The reduction may not be as great as you think, however. That's because there are many factors that can affect your usage: weather conditions, billing periods and even vacation preparation.

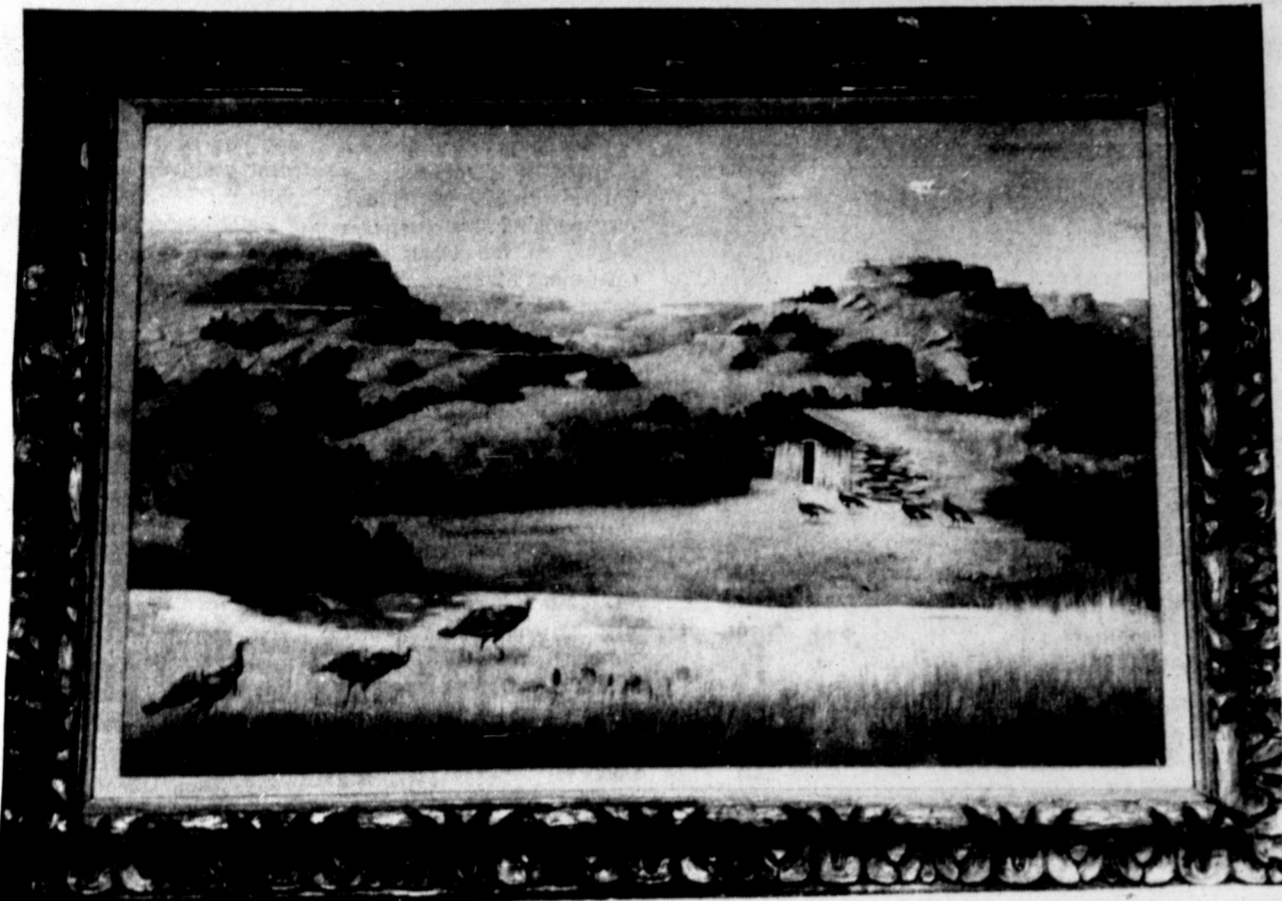

1. Very hot weather before you leave and after you return means increased use of air conditioning. This makes it difficult to compare your bill with a previous month of milder weather.
2. Hot weather causes your refrigerator/freezer to run longer, particularly if your home air conditioning is turned off while you are away.
3. If the time you're away falls within two billing periods, the reduction you expect will be split between two bills.
4. If you didn't turn off your electric hot water heater before you left it continued to keep your water hot 24 hours a day, even though you weren't there.
5. And don't forget - when getting ready for a vacation you often use more electricity than usual for cleaning, washing, drying, ironing, cooking and general preparations. The same is true about your return.

Check your meter.

If you learn to read your own meter, you can find out just how much electricity was used while you were gone. And, you'll see just how much energy you're using during the summer, the heaviest electricity consuming season, with your air conditioning operating most of the time.

Remember **WEDDY** Supplies the energy - but only **YOU** can use it wisely!

Smiths Paintings on Display

She primarily taught herself to paint by observation, reading and trial and error method. She began studying birds with her mother Mrs. Lone (W.E.) Cushing on their ranch. She has taken lessons under Don Ray, Ron

Woard, Alan Turnmond and Earldene Hudlow.

Margaret has won awards in local and area competitions including citations from the Texas Fine Arts Shows.

Lee will be a freshman at Clarendon High School and

Bill graduated from Texas A&M last fall.

Margaret Cushing Smith well known local artist has several paintings hanging in the office of the Clarendon Press. These paintings will be on display and are for sell.

You may come by the office of the paper at any time, Monday through Friday.

Margaret was raised on a ranch, and with her husband, Mike and their two sons, Lee and Bill run the Cushing ranch near Turkey.

Low-Income Homes Cooled Off

Some low-income Texas households may be eligible for help in paying their cooling bills, according to the head of the Texas Department of Human Resources.

Human Resources Commissioner Marlin W. Johnston said the assistance with paying utility bills is available to low-income households who in June 1983 received food stamps, Aid to Families with Dependent Children, Supplemental Security Income, or need-tested Veterans Administration benefits.

Potentially eligible veterans are those who receive payments under 415, 521, 541 or 542 of Title 38 of the U.S. Code or under Section 306 of the Veterans and Survivors Pension Improvement Act of 1978.

Eligibility is limited by gross income. For instance, aid is available for a one-person household having less than \$334.49 gross income per month. The gross income limit is \$546.69 for a two-person household, \$749.49 for a three-person household, \$926.49 for four persons, \$1,092.49 for five and \$1,277.49 for six.

Eligible households must be subject to energy cost increases—because of higher bills or rent due to rising utility costs. Households are eligible if they live in privately owned or rented housing even if the cost of utilities is included in the rent payment or if the household pays only a portion of its home energy costs.

Johnston said applications are mailed automatically to households which receive food stamps, AFDC, and SSI. Households receiving need-tested Veterans benefits must request an application from DHR in June.

If you have not received an application and think your household may be eligible, contact a local office of the Texas Department of Human Resources, Johnston said.

NORTH COUNTRY COORS RIDERS

North Country Coors Riders

by CLOVIS MCCARY
The North Country Coors Riders hit Clarendon over the 4th of July holidays and helped cool the hot weather at the big Saints Roost celebration.

The Riders in their colorful blue look-alike shirts with Coors on the back were also very experienced riders. They were mounted on good stout quarter horses and appaloosa horses both riders and horses moved with precision.

I might add after watching the riders perform in the arena the first two nights, we had the pleasure of meeting several of them.

On Monday the 4th, I was standing in line with several hundred people waiting to be served the delicious Barbecue when a NCCR turned to me stuck out his hand and said I'm J.W. Butler. We all

enjoyed visiting with J.W. while we waited.

Later we met the president J.B. McDougle and enjoyed a visit with him.

I noticed after meeting J.W. that all of the riders were mixing with the people and spreading good will.

We would like to say to Coors and the NCCR thanks for coming to our town and come again.

Here is a list of the North Country Coors Riders that came to Clarendon: J.B. McDougle, President, Sid Monague, V. Pres., Sue Reece, Sec., Sue Chambers, Treas., Ricky Anaya, Shelly Anaya, Roy Chambers, Sue Chamber, Danny Dry, Gail Estep, David Gaines, Carlene Gaines, Don Martin, Diane Martin, Shelton Martin, Linda Martin, Charles Martin, Ginger McDougle, Judy Montague, Jonnie

Reece, Jim Topper, Sheryl Trout, Terry Bivens, Chris Bivens, J.W. Butler, Brenda Butler.

Immunization

Clinic

Donley County Community Action Corp, 300 S. Sully, Clarendon will hold an immunization clinic offering vaccines that give protection against several childhood diseases. This is scheduled for July 25, from 10-2. This will provide protection against polio, diphtheria, lock jaw (tetanus), whooping cough (pertussis), measles, rubella and mumps. There will be no charge.

PUBLIC NOTICE

At the request of the Office of the General Counsel of the Public Utility Commission, the Commission has established Docket No. 5113 to inquire into pressing issues involving the entire telephone industry in Texas. Docket No. 5113 will deal with many issues resulting from the impending divestiture of American Telephone and Telegraph Company and Southwestern Bell Telephone Company. Some of those issues include establishing the service areas of Southwestern Bell after divestiture and assessing the impact on other telephone companies in Texas, including General Telephone Of The Southwest, of current settlement arrangements between Southwestern Bell and those companies. Additionally, Docket No. 5113 will deal with the issues arising from the Federal Communications Commission's Final Order in Docket 78-72 (the Access Charge Docket) as they impact all telephone companies, including General Telephone Company Of The Southwest. It is anticipated that Docket No. 5113 will be evidentiary in nature. **RATES FOR GENERAL TELEPHONE COMPANY OF THE SOUTHWEST MAY BE DETERMINED BY THE COMMISSION IN OR AS A RESULT OF THIS PROCEEDING.** Interested parties seeking further information or desiring to participate in Docket No. 5113 are advised to write to Rhonda Colbert Ryan, Secretary and Director of Hearings, Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757 or telephone the Public Utility Commission Consumer Affairs Division at (512)458-0223 or 458-0227, or (512) 458-0221 TTY for the deaf.

JIM SHARRAR

Sharrar assumes additional responsibilities in area

In an effort to improve customer services and relations, Jim Sharrar, Installation and Maintenance Supervisor for General Telephone for Clarendon, Hedley Claude, Happy, Panhandle, White Deer, Mobeetie, Miami, and Wheeler has been assigned the additional responsibilities of small business systems sales, ac-

ording to Jimmy Bennett, Operations Manager in Memphis.
 The Installation and Maintenance Supervisor concept is part of General Telephone's plan to return responsibility for customer service to the local area. Operations Manager, Jimmy Bennett, describes it as "...Part of an overall plan to improve our relationship with our customers and provide them with the kind of service they request. The Installation and Maintenance Supervisor initially was responsible for quality service to our customers locally and were to resolve problems that could not be taken care of through normal company channels. The sales responsibilities open up a whole new area for the Installation and Maintenance Supervisor. He is now commissioned with not only servicing customer equipment but insuring that the customer receives the correct equipment for their particular needs. The challenge of creating the correct customer/equipment mix is difficult, but I'm sure they'll meet the challenge."
 Sharrar, a native of Michigan, lives in Clarendon with his wife Venita, and their two children. He began his

career with GTE in 1965 in Installation and Maintenance in Michigan. He was transferred to Clarendon in 1981 and has held various technical positions in the company.
 Emphasizing his interest in personalizing service, Sharrar stated that he is "excited about this responsibility. I feel I know the customer's needs, his location, as well as having the technical expertise to provide our customers with tailored telephone systems." Sharrar concluded that he is also looking forward to the continuing of service improvement and serving the local community.

Wheatly - Foss Exchange Vows

On June 8, the First United Methodist Church of Hedley was the scene of the wedding of Laura Ann Wheatly and Russell Lee Foss. The exchange of vows took place at 8 o'clock. June 8 is also the wedding anniversary of the bride's grandparents, Samuel Carl and Ruth Finch Harrison, and her parents, Earl and Sharon Harrison Wheatly of Hedley.

Parents of the groom are Mr. and Mrs. Warren Foss of Denver, Colorado. Grand-

parents of the bride are Mrs. Nawasa Wheatly of Darrou-zett, Texas and Mrs. Carl Harrison of Lewisville, Texas formerly of Memphis.

Rev. Bill Watson performed the double ring ceremony before an arch trimmed with greenery and flanked by brass heart-shaped candelabras holding white tapers and decorated with greenery and lavender mums.

Organist Mrs. Joline Wilson of Wellington presented the traditional wedding

MRS. RUSSELL LEE FOSS

music and accompanied LaMoss Springer of Hedley as she sang "I Love You Truly" and "Endless Love". Jim Shadle of Clarendon accompanied by Susie Shadle sang "My Lady, My Love" during the ceremony.

Candlelighters were Sharon Alderman and Sam Harrison both of Lewisville and cousins of the bride. Sharon was dressed identically to the bridesmaids with a wristlet of lavender asters and daisies. Sam wore a beige tuxedo.

Escorted to the altar by her father and given in marriage by her parents, the bride wore a formal gown of candlelight organza over taffeta. The bodice was styled with a Queen Anne neckline and overlaid with Alencon lace trimmed in seed pearls. The long sheer sleeves were also trimmed in the lace and pearls. The skirt was A-line and extended into a chapel train. The hem of the skirt was trimmed with lace and a ruffle of crystal pleated organza. To complete her ensemble, she wore a halo of white silk flowers decorated with seed pearls and holding a fingertip length veil of sheer illusion. She carried a cascading bouquet of white stephanotis, carnations, and ivy surrounding a purple orchid.

Her wedding attire being the something new, she wore the traditional blue garter, and wore a ring borrowed from a friend. To complete the tradition, she wore a cameo that had belonged to her great-grandmother, Laura Finch, and was worn by her mother on her wedding dress. In her shoe, she had a penny bearing her birth year.

Glenda Williams of Lubbock served as maid of honor. Bridesmaids were Helen Genitski, Debbie Norris, and Carrie Schmitzell all of Amarillo. They wore identical dresses of lavender sheer over satin crepe and a halo of lavender flowers with narrow ribbon streamers. They carried nosegays of multi-colored flowers.

Dale Rowland of Amarillo

served as best man. Groomsmen were Warren Foss of Denver, father of the groom, Andy Wheatly of Hedley, brother of the bride, and Bill Babcock, Amarillo. The groomsmen also served as ushers. The men all wore beige tuxedos with candlelight shirts except the groom who wore a lavender shirt.

The ring bearer was Carl Harrison of Plano, cousin of the bride. He was dressed like the groomsmen and carried the rings on a needle-point pillow worked by the bride's mother and designed by a cousin in Temple.

Guests were registered at both the wedding and the reception by Christin Harrison of Plano and Julie Harrison of Lewisville, both cousins of the bride.

The reception was held in the Lions Club. The bride's table was covered with a white cut-work tablecloth and centered with a silver candelabra and the bride's bouquet. The four-tiered wedding cake was decorated with lavender flowers and topped with two lavender satin bells. The cake was cut and served with a cake knife given to the bride's mother as a wedding gift and used by many brides since. Punch was served from a crystal punch bowl. The groom's table was laid with a beige cut-work cloth and decorated with the bridesmaids' bouquets. The groom's cake was chocolate and decorated with chocolate roses and a lavender oval with the names of the bride and groom. Coffee was served from a silver coffee service.

Members of the house party were: Pam Dallas, of Pampa; Kay Talley, Kelley Woodard, Timber Lee Potts of Hedley; Crystal Carson of Amarillo and Lynn Skaggs of Whiteface. Rice bags were distributed by Huntlee Alderman of Lewisville, cousin of the bride.

The bride is a graduate of Hedley High School and West Texas State University and is an employee of Hertz Rent-A-Car.

The groom is also a graduate of West Texas State

University and is employed by M.L. Foss Inc. of Denver where the couple will make their home.

Pre-nuptial courtesies include a lingerie shower in the home of Mrs. Joe Robinson of Clarendon, a miscellaneous shower in the Lions Den in Hedley, and a bridal luncheon hosted by Mrs. H.R. Crawford and Mrs. Harold Smith of Memphis.

Delaney's 45th

You are invited to the celebration of the Forty-fifth Wedding Anniversary of Mr. and Mrs. Richard Delaney Sunday, the tenth of July Nineteen hundred and eighty-three from two until four o'clock at the First Methodist Church Fellow-

ship Hall, Clarendon, Texas. Children and grandchildren of the couple are hosting

the affair. Your continued friendship is the only gift we desire.

MR. AND MRS. RICHARD DELANEY

MR. AND MRS. EUGENE LEGGETT

Leggett's Celebrate 50th

Mrs. Leggett was born and reared in Clarendon. She attended public school and graduated from West Texas University and taught in Donley County for 3 years. She later taught in Oklaunion school district near Vernon. In 1960, she began teaching in Houston and taught 12 years.

In 1933, she met and married Mr. Eugene Leggett. He worked for Phillips Petroleum Co. for 41 years. They have one daughter, Paula, born in 1935. Mr. Leggett is from Lawton, OK where he grew up. He attended Oklahoma University.

On July 10th, they will

celebrate their 50th wedding anniversary in Houston.

Priscilla Sims of Lubbock will cater a reception in her honor at Kirkwood South Christian Church, 10811 Kirkfair Drive, Houston, Texas, 77089. She will assist their daughter, Paula.

Priscilla Sims is the daughter of a former Sheriff of Donley County, Guy Wright. C.A. Wright is Mrs. Leggett's brother. He still lives on the home place south of town. The place was brought and settled by her father, C.A. Wright, Sr. 75 years ago.

He had a home wedding at the Wright home 50 years ago, July 8, 1933.

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas, effective August 1, 1983, unless otherwise determined by the Commission.

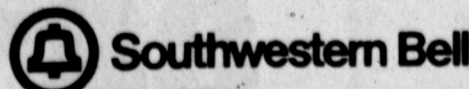

A complete copy of the new rate schedule is on file with the Texas Public Utility Commission (PUC) at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas. The Commission staff has contended in the past that all rates are subject to change as a result of Southwestern Bell's rate application.

As a result of the settlement of a lawsuit brought by the U.S. Department of Justice against AT&T, Southwestern Bell, on January 1, 1984, (or as otherwise ordered by the United States District Court) will no longer be a part of the Bell System, but will be owned by public shareholders. Under the terms of the settlement, Southwestern Bell has identified 15 areas in the state within which it may provide service, and the federal court with jurisdiction of the settlement has tentatively approved these areas, called LATAs (Local Access and Transport Area). On or about January 1, 1984, Southwestern Bell can not provide service between these LATAs, and in addition, must transfer to AT&T customer premises equipment that it leases to customers.

Southwestern Bell has filed a proposed revised rate schedule with the PUC reflecting these changes. These rates would become effective August 1, 1983, if they are not suspended by the PUC; however, it is expected that they will be suspended and that the rates ultimately set by the PUC will become effective on or about January 1, 1984. If the rates were to become effective as filed, they would produce a 48.2% increase in Southwestern Bell's unadjusted test year revenues (or a 76.36% increase in Southwestern Bell's test year revenues, adjusted to reflect the effect of Southwestern Bell's divestiture from AT&T). Any change in the rates for any interLATA services offered by AT&T or a subsidiary after January 1, 1984, could affect customers of Southwestern Bell Telephone Company.

Notice to Customers of Other Telephone Companies

While Southwestern Bell has proposed no increase in rates for intraLATA interexchange toll services, any change in those rates could also affect customers of other telephone companies. Southwestern Bell is proposing changes in the structure of the present private line and foreign exchange services. Changes in these rates may affect customers of other telephone companies. Any change in the rates for any interLATA services offered by AT&T or a subsidiary after January 1, 1984, could affect customers of other telephone companies.

Your presence is a cherished gift.
we respectfully request
no other.

Thank You

On behalf of the Outdoor Entertainment Association and all others involved in Clarendon's Annual Saint's Roost Celebration, we want to express appreciation to the hundreds who had a part in making this one of the most successful Celebrations ever. Without a doubt, this success can be attributed to the fact that hundreds of Clarendon and Donley County people, along with many friends from the entire area helped plan and then worked hard at their appointed task during the three day celebration. We could not possibly single out any one or any group because there are so many of you. But please, everyone who had a part in any of the activities — the Rodeo, the kid events, the Western Parade, Old Settlers Reunion, Fiddlers Contest, County Craft Fair, and all the other activities that made it all a rip-roaring success — give yourself an extra pat on the back.

Rev. Wayne Naylor

The Reverend Wayne Naylor of Brady, passed away Monday, July 4th in the Veterans Hospital in San Antonio. Many will remember him as the pastor of the Hedley First Baptist Church. He is the son of the late Mr. and Mrs. Carl Naylor. He was born and raised in Donley County.

His son, Wesley Naylor and aunt, Florence Baker are residents of Clarendon.

Funeral services are pending at Brady, Texas.

GREAT MOMENTS IN AMERICAN HISTORY

The time: The night of June 16, 1775, just two months after the first skirmishes between Colonial and British troops at Lexington and Concord. British Lt. Gen. Thomas Gage planned to fortify the hills on Charlestown Peninsula, across the Charles River north of Boston, after he received reinforcements from England. Bunker Hill, the highest point in Charlestown, afforded a commanding control over the harbor. The Americans heard of the plan and decided to occupy Bunker Hill before the British could. On the night of June 16, American troops moved onto the peninsula. They bypassed Bunker Hill and fortified nearby Breed's Hill because it was closer to Boston.

By the afternoon of June 17, 1775, the first pitched battle of the American Revolution was underway. The British had ferried 2,500 troops from Boston Common across the harbor to Charlestown. The Colonial troops, commanded by Colonel William Prescott, faced them from atop Breed's Hill. While the British eventually overwhelmed the volunteer militiamen, their casualties far exceeded those of the Colonists. For the Colonists, the battle had strategic importance. It united them to fight for independence.

Today, the Battle of Bunker Hill is refought 19 times daily in a theater-in-the-round adjacent to the famous USS Constitution, "Old Ironsides," the oldest vessel on the roster of commissioned ships of the U.S. Navy. The \$1.8 million, not-for-profit Bunker Hill Pavilion was built by Raytheon Company for the Bicentennial and opened on the 200th anniversary of the Battle of Bunker Hill. The Pavilion continues as one of the nation's greatest historical attractions.

The show begins every half hour from 9:30 AM to 6:30 PM. Ample free parking is available nearby and many tourists, after visiting "Old Ironsides" and the Bunker Hill Pavilion, then walk the four blocks along Boston's famous Freedom Trail, through old Charlestown to the Bunker Hill Monument and the museum of the Charlestown Historical Society.

Century Plant at Howardwick

by ALICE HOOD

Mr. and Mrs. O.A. Sturdevant of Howardwick have a very interesting plant in a small rock and cactus garden in front of their house. It is now starting to bloom out and is approximately sixteen feet tall. It is an agave or desert lily. There are over 300 species found throughout the southwest United States, Mexico and Central America. The most common species is the agave Americana, commonly called the Century Plant. It has large fleshy leaves which are spiny at the margin. In the center of these leaves, the scape, sometimes a foot in diameter at the base, reaches twenty-four to thirty-six feet high. The scape often bears as many as 4,000 flowers. It takes twelve to twenty-four years for this plant to prepare for blooming. After it flowers it dies down and new plants start from the lateral buds. It is believed that it takes a century for it to bloom again.

The Sturdevant's daughter brought them this century plant twelve years ago while they were living in Lubbock. When they moved to Howardwick four years ago they brought it with them and bedded it in a little rock and cactus garden in front of their house. They have another one but it hasn't started the scape yet. Who knows, it may grow and bloom after this one dies down!

It is very interesting to watch this plant grow the blooms and will be more interesting when it bursts out in full bloom. This beautiful and "old" plant can be viewed if you take a drive out on Walleye in Howardwick, Texas. I know Mr. and Mrs. Sturdevant are proud of their century plants.

Roeda Rattan had a number of her children, grandchildren and great grandchildren visiting over the 4th of July weekend. Those who visited were: Bernese Moreland of Rogers, Arkansas; Carl and Annesse Bennett, Helen, Keri Brandi and Micky Lineham, all from Tulsa, OK; Johnny Sue, De'Lynn, Kim, Beckie, and Susie Rattan also Rickey, Pat and Nicholes all of Clarendon. Annesse and Bernese also attended their "Class of 47" reunion. An enjoyable time was had by all.

A car that shifts manually has been estimated to get an average of two miles more per gallon of gas than a car with automatic shift.

If I Should Die Multi Media Showing

"If I Should Die..." an elaborate multi-image production dealing with the reality of death, will be presented in Wellington at the First Baptist Church, Clarendon will be taking a group leaving from the church at 5:45.

The presentation is a creation of Paragon Productions and is presented by Campus Crusade for Christ, Int'l., an interdenominational organization.

A spokesman for Paragon Productions explained that the highly unusual multi-image production portrays a love relationship between a college-age couple whose lives are permanently altered as they are propelled by sudden disaster into a confrontation with death.

The fast-moving show carries a powerful message and dramatic examination of the meaning of life, death and beyond.

The spokesman further explained that unlike traditional movie entertainment, the story line in "If I Should Die..." is communicated through the lyrics of contemporary music from Blood Sweat and Tears, Jim Croce, Black Sabbath and others.

These lyrics are precisely synchronized to more than 1100 visuals projected onto three large screens from nine computerized projectors.

ACNE

Four out of every five adolescents and many older individuals suffer from acne. Among them, about five percent develop severe acne, which can result in facial scarring and cause serious social and emotional problems. Here are some facts you may not know about this widespread health problem:

- Acne is neither caused by nor worsened by what you eat—including chocolate, fried or rich foods. The disease is not caused by poor hygiene or dirt on the skin. In fact, too much washing can excessively dry out the skin.
- Scientists are still somewhat in the dark about the

cause or causes of acne. What they do know is that a key factor in the onset of the disease is the overproduction of the body's natural oil, sebum, which can clog the hair follicles or pores. While bacteria do not actually cause an acne outbreak, bacteria present in the follicles can make the condition worse. Heredity also plays a factor in who gets acne and who doesn't.

- There is no cure for acne. However, modern acne therapy by a dermatologist (skin specialist) or your family physician may involve the use of several medications that can keep acne under control and prevent scarring.

- One of the latest developments in acne treatment is the availability of topical antibiotics (applied directly to the skin) such as Cleocin T. Your dermatologist can tell you which treatment is best for you.
- Some people think that

a good summer's tan can control acne. A tan may mask the appearance of acne, but acne occurs all year long.

COLD FACTS & FANCIES

Some people seem to be more susceptible to colds than others. Doctors have no answers as to why, nor do they have cures for the cold. Most people find relief in over-the-counter preparations, such as Coricidin[®], which they keep on hand in the medicine chest. A product of Schering Corporation, the Coricidin original formula was introduced to the medical profession as a prescription product. Many people find it most effective when taken at the first sign of a cold. ***

Howardwick News

By ALICE HOOD

The 4th of July, 1983 got off to a big boom! Campers and fire works enthusiasts started Friday evening on Sandy Beach at Lake Greenbelt, with their display of fireworks lighting up the sky and enjoying the sights and sounds.

We extend our congratulations to Annette Watson for being named Queen at the Saints Roost Pageant Friday.

Dale Robinson was the lucky person to receive the Lakers Homemakers Log Cabin Quilt.

Lena Howard received the new Kirby vacuum cleaner. C.E. Henderson got the rebuilt Kirby vacuum cleaner.

The John McVicker and Copeland family reunions combined were held at Howardwick Community Center this past weekend. There were 88 present. They had 7 McVicker brothers and sisters together for the first time in seventeen years. Those attending came from California, Arizona, Texas, Oklahoma, and Iowa and Arkansas.

Troy and Willie Moore left early Sunday morning for Hereford to have son, Roy Blevins and his wife Sandi accompany them to Phoenix, Arizona for a couple of days. Then they traveled on to Flagstaff, Grand Canyon, back to Farmington and to the Painted Desert, then returned home Sunday 3rd. nice little tour!

Heavy winds last week broke down the very proudly blooming century plant of the O.A. Sturdevants. Very sorry too since there had just been a short history of that plant to be put in the paper and I'm sure some would like to have seen it.

Mr. and Mrs. O.A. Sturdevant had their daughter,

Linda McCrary, and her daughter, Tonya, visiting for a week from Dallas. They went to Durant, OK to visit another daughter Billie June and her husband Alford Wyatt. Then they flew to San Antonio to the Sturdevant Family Reunion.

Over two hundred and fifty people attended. There were four generations of Sturdevants from all over Texas, Oklahoma and Arkansas. They visited the Alamo (the young folks did). They returned to Amarillo for the fireworks show with their grandchildren, Benny and Debbie Davis and children, then to the Tascosa Country Club for a big barbecue.

Seems like everyone had a big 4th of July!

Bob and Chlorita Long of Amarillo and great grandson James from Colorado Springs spent Sunday 3rd with the Floyd Hoods.

It is good to hear that Mr. Singleterry is doing good. He went for this check up Friday.

Nice to know Alma Bingham is back home from the hospital.

Al and Evelyn Burleson, a cousin, Ruby Tow, in Weatherford and to visit the Lain relatives, (her family). They spent the weekend (the 4th) with their children in Amarillo, Laciea and Ron Nelson and family (daughter) and Son, James, his wife Betty and family.

Blanch Davison of Hedley says "Hello" to Mary and Cecil Matthews!

Alta Reynolds and Alice Hood took in all the celebration the 4th also visited with Corene Ashcraft (Alice's aunt).

Donation to College Library

Southwest Airlines Company, based in Dallas, recently made a unique contribution to the Official Texas Heritage Resource Center located in the Clarendon College Library.

Southwest donated a copy of "Gumwrappers and Goggles," a children's book about the formation of their airline. It is creatively written and illustrated by noted children's author Winifred Barnum Newman. It captures the "Love" spirit through characterizations of the little plane who knew he could fly and Amelia, the Good Air Fairy. It imparts the message of the free enterprise system in an enjoyable and understandable manner.

Texas Heritage Resource Centers have been established in 200 libraries throughout the state and are sponsored by the Texas Heritage Project of the Texas Historical Foundation. To qualify, libraries must assemble required resource material on Texas history. There is at least one history of a successful Texas company in each center, because free enterprise is such an important part of our state's legacy. The Centers were established to aid students and teachers of Texas history and to give the general public a solid core of reliable Texana materials.

Good News Department

There may be new hope for the victims of recent unemployment and of long-term poverty. An American organization which has long been helping fight poverty around the world, is now directing some of its energies homeward. ***

The agency, World Vision, has a first-year budget of \$1.3 million for its new program designed to assist churches and existing community development agencies in finding long-term answers to poverty. While not claiming to have an overnight cure for urban poverty, World Vision hopes to contribute to the success of existing community self-help projects.

In late 1982, the manufacture and distribution of camphorated oil was declared by the U.S. Food and Drug Administration to be illegal. Why? Because this "old time" preparation contains camphor, and camphor can be a lethal poison when taken internally.

Marco Polo described camphor in the 13th century. By the 16th century, it was thought to be a cureall for virtually all bodily disorders. Today it is believed by most experts that camphor is of little benefit as a medicine. As a poison, when taken internally, it can produce nausea, vomiting, diarrhea, burning of the mouth, excitability, convulsions, failure to breathe, and death. The amount of camphor in one teaspoonful of camphorated oil is sufficient to kill a child in many instances. In 1979, there were 139 ingestions of camphorated oil in the United States.

Consumers should dispose of bottles of camphorated oil that were purchased in the past. Care should be taken to prevent ingestion (by children or adults) of nonprescription products that still contain camphor. (A variety of liniments and rubs are available that contain from one to almost 11 percent camphor.)

CELEBRATE SUMMER WITH A SALMON BARBECUE

Barbecuing in the great out-of-doors is one of America's favorite pastimes during the warm summer months. Succulent Alaska salmon fillets or steaks, grilled to perfection over glowing coals, will win approval from barbecue fans.

The salmon is brushed with a tangy lemon-butter basting sauce before being placed on the grill. When it flakes when tested with a fork, it is ready to serve. For a larger group, a whole salmon or a salmon roast is a grand selection.

Fortunately the harvest of majestic salmon from the icy waters off Alaska coincides with the summer barbecue season. Salmon is in better supply now than ever before. And, thanks to modern transportation, fresh Alaska salmon can be found in many parts of the country during the harvest.

Alaska salmon is prized for its rich yet delicate flavor, convenience and adaptability. It is an excellent source of protein and nutrients.

BARBECUED ALASKA SALMON

- 4 (4 to 6 oz. each) Alaska salmon fillets or steaks
- 3 tablespoons melted butter or margarine
- 1 tablespoon each lemon juice and white wine vinegar
- 1/4 teaspoon grated lemon peel
- 1/4 teaspoon each garlic salt and salt
- Dash bottled hot pepper sauce

Thaw salmon, if necessary. Combine remaining ingredients except salmon; generously brush both sides of salmon with mixture. Place on oiled barbecue grill flesh-side down. Barbecue on flesh side about 2 minutes; turn salmon carefully. Brush with sauce. Make a tent of foil or use barbecue cover and place over salmon. Barbecue 8 to 10 minutes longer or until salmon flakes easily when tested with a fork; baste frequently. Makes 4 servings.

Hints for Homemakers

Fully Immersible All-in-One Appliance

Newlyweds and others setting up kitchens welcome news of a new cooking appliance that does everything but broil. This one pot can serve you in dozens of ways and save space and expense by eliminating many unnecessary pots.

The pot steams, roasts, bakes, stews, simmers, blanches and deep fries. And, it's completely immersible, even dishwasher safe, with an exclusive non-stick coating inside and out for quick, easy clean-ups. Important points in today's busy world.

An exclusive Auto-Fry™ setting gives you great fried fish, chicken, onion rings and doughnuts. The accessory fry/steam basket has a Drip-Grip™ support bracket that anchors the basket above the pot for safe, thorough draining.

The same basket-doubles as a steamer for vegetables and also turns out nifty noodles, lasagna, spaghetti and kreplach.

This versatile appliance is energy-wise, too. By using this Chef's Pot from the Daze Company for counter-top cooking, you can use far less electricity or gas than for range or oven. That's really a bargain!

Moore places at State Pageant

Billie Joanna Moore, 9 year old daughter of Terry and Sherry Moore of Spearman has just returned from a weeks stay at Texas Women's University, Denton for the 1983 State Cinderella Pageant and International Modeling and Talent Association Competition at state level. She and her, Sherry and her aunt, Carrie Shaw, arrived on Tuesday 21st. Wednesday until 3:30 a.m. the next morning Jo was in constant competition in

modeling and talent. She brought home 14 trophies for her efforts, and liked winning the Sweepstakes trophy by 3 points. She was in competition with over 100 girls from all over the state of Texas and won in almost every event she entered.

The rest of the week was devoted to the pageant itself. Jo did very well in it, she held her own and competed with 58 girls. She liked only a few points making the 5 top finalists.

Jo has won the right to be in IMTA International Competition in Miami, Florida. The total trophies Jo brought home makes her a total of 65 trophies she has won since she started competition. Jo did a Jazz Indian Dance for her state talent number. Her grandmother, Joan Shaw did all the design work on the leather skirt and vest, spending over 2 months on it.

Jo's local grandparents are Mr. and Mrs. H.C. Shaw, Jr.; Bud Moore of Hobart, OK and Jean Roberts of Scurry. Jean met Terry and Sherry Sunday in Denton and Jo and Shawn went home with her for a weeks visit. Jo also has her 9th birthday while at the pageant. She also won best ad in the program book. Allen's Formal Wear of Amarillo sponsored it for her.

NEWS OF NUTRITION

A nationwide survey has found that a new source of dietary fiber promises to remedy a serious deficiency in the American diet.

Of the 1,000 Americans polled by R.H. Bruskin Associates, the majority are concerned about fiber in the diet and 18% attribute fiber deficiencies to poor eating habits, over-consumption of junk foods and difficulty in incorporating fiber rich foods in their daily diet. Fifty-two percent are receptive to one easy method for obtaining fiber—a new high fiber biscuit called FiberMed, which can be eaten as a snack or meal accompaniment.

The survey clearly shows that many Americans unknowingly are fiber deficient. While 69% of the respondents indicate that fiber is important to the diet, less than half of the total group feel they're getting the recommended 30-40

grams per day. Ironically, fifty-three percent of the group think they are getting enough fiber, yet the information they give indicates they may actually be deficient. Many cited fish and meat (16%) and dairy products (6%)—non-fibrous foods—as their major fiber sources.

Doctors note that most Americans consume only 20 grams of fiber a day, or half the recommended amount. Further, the physicians have found that fiber deficiencies may lead to an array of digestive disorders. To increase fiber intake and reduce the

risk of these diseases, they advise simple diet modifications. Physicians recommend replacing foods high in fat and sugar content with such high-fiber foods as cereals, whole-grain breads, vegetables and fruits. High fiber supplements such as FiberMed biscuits, available in drug stores nationwide, are also recommended and may be considered as a way to increase fiber intake. For more information on fiber supplements, see your pharmacist.

Statistics that shape Agriculture, from the Texas Dept. of Agriculture

CRISIS OF ABUNDANCE
Prices, Harvest Resist PIK Solution

1983 harvest figure is TCALRS estimate. Wheat price compares early June Rolling Plains prices gathered by TDA. Farm program cost is national figure estimated by U.S.D.A. and Texas A&M.

"While the Reagan administration's PIK program has been described as 'a band-aid to stem the flow of red ink' in our agricultural economy, the band-aid appears to be coming unstuck on three of its four corners," says Texas Agriculture Commissioner Jim Hightower. "The program was ballyhooed as a way to cut farm expenses this year, to reduce crop production, to raise crop prices, and to cut the cost of government farm programs. PIK is cutting input costs, but it looks like it will cause only minimal reductions in the size of this year's harvests. It will not raise prices that farmers receive, and it is likely to cost the taxpayer more than any farm program in U.S. history."

QUICK QUIZ

Like most people, you probably know that too much exposure to the sun without protection isn't good for you but you really don't know why. Here's a small quiz prepared by the makers of Coppertone Sun-a-Lotion. Test your knowledge about protecting your one and only skin.

ANSWERS: 1. False. 2. False. 3. True. 4. False. 5. True. 6. True.

COOKING CORNER

Man has been coping for thousands of years with the problems of keeping food fresh. Not surprisingly, human ingenuity has come up with some remarkable methods of preserving edibles.

Even prehistoric man dried his meat, a process still used in a number of places where sun-dried beef or pork is deemed a delicacy. American Indians devised a concoction known as pemmican, a mixture of dried meat, bone-marrow fat, dried berries and dried vegetables. A modern version made of dried meat and raisins has been carried by Arctic explorers on their expeditions.

The process of canning was devised in France at the beginning of the 19th century at the request of Napoleon, who wanted to keep food fresh for his troops. Since then, canning and freezing revolutionized the food industry.

Modern man has come up with many products to keep foods stored in our kitchens at the peak of freshness. Waxed paper was one of the earliest answers. After World War II the plastic storage bag made its debut.

Now, one company has announced the first significant development in storage bags in more than a decade. The company that first introduced the Ziploc® storage bag has come up with something even better—the first reclosable seal that really closes easily...and opens easily, too, when you want it to.

The product is the new and improved Ziploc storage bag with the "easy close zipper." Made with tough, thick, strong seals, the bags have 30% more plastic added to their zipper area. The closing seals quickly and easily, and has excellent consumer response.

Ingenious mankind has come a long way from drying meat in the sun. That is often applied to the skin with good results for people with solar keratosis. You are more susceptible if you're light-skinned, a blonde or redhead. Anyone whose job requires working many sunlit hours out of doors may also develop this condition. Farmers, fishermen and construction workers are among those most affected by the sun's power.

The symptoms of solar keratosis include red, scaly patches usually on the back of the hands or on the neck or face. Anyone with such symptoms should see a doctor. Physicians sometimes use a prescription cream or solution made by Hoffmann-La Roche Inc

Board scheduled meetings
Clarendon Independent School Board meets the second Thursday of each month at the High School Administration Building at 7:30 p.m.

Clarendon College Board of Regents meets the second Tuesday of each month at the College Administration Office. The time varies, if you would like to attend call the administration office.

The Board of Alderman for the City of Clarendon meet the second and fourth Tuesday of each month at the City Hall at 7 p.m.

The Donley County Commissioners Court meets every second Monday at 10 a.m. in the new courthouse board room.

Save Your Skin
People who live in one of the 18 sunbelt states can save their skins by avoiding the problems caused by too much exposure to the bright and sometimes intense sun. Too much sunshine can cause a skin condition called solar keratosis, which in some cases can become malignant if untreated.

The symptoms of solar keratosis include red, scaly patches usually on the back of the hands or on the neck or face. Anyone with such symptoms should see a doctor. Physicians sometimes use a prescription cream or solution made by Hoffmann-La Roche Inc

Superfast Barbecue Tips

The Fast, Easy Way To Light Charcoal

When it comes to lighting charcoal briquets, you'll never get a faster start until you've tried a chimney lighter. Even first-time barbecuers won't have a problem lighting briquets. Chimney charcoal starters are the professional way to light charcoal. They are easier, quicker and more economical than other traditional starting methods.

With the Chimney Quick Superfast Charcoal Starter, a leading chimney charcoal starter, two to four pounds of briquets are cooking ready in just 6 to 15 min.

utes without the fuss, mess and expense of liquid, or solid lighter fuels. That's less than half the time it takes with the other methods—and it's safer, too!

In a cost comparison, the Chimney Quick proves it can really save you money. Lighting costs range from 20¢ premium per pound for instant lighting briquets to 30¢ to 60¢ per cookout with liquid starter and standard briquets. The cost per cookout with the Chimney Quick is one piece of newspaper and a match, after the one-time purchase price of \$10-\$15.

To use—pour charcoal into the top section, above the wire grate. Place one sheet of crumpled newspaper in the bottom below the grate and light the newspaper with a match. In just a few minutes, the charcoal is fully lit and up to cooking temperature. Then, pour the briquets into the grill and start cooking!
