Seven Bronchos name to all district 2-AA team

Seven members of the Bronco football team has been named to thirteen positions on the District 2-AA All District team. Four members placed on the first team, three on the second team and 6 won honorable mention.

First team selections were: David Weatherton 6'0, 168 pound senior; Ken Dorris, 5'10" 160 pound senior and Arlis Thomas, 6'4" 219 pound junior won two places, one as a lineman and another as the punter.

Second team selections were: Creed Wright, David Weatherton and Arlis Thomas.

Honorable mentions were: Arlis Thomas, Ken Dorris, John Smith, Richard Gaines, and Kelly Hill.

Leading this years ballot-

ing for all-district team was Willington, placing 14 members, followed by Panhandle with 13, Quanah capture 11, Memphis took 9, Clarendon had 7 and Shamrock had 5.

Arlis Thomas was also chosen to the 1982 Globe-News Football Super Team. Arlis connected on six or seven extra point attempts and kicked two field goals for the Bronchos. His 32-yard field goal in the closing seconds provided the margin of difference in Clarendon's 9-7 win over Boys Ranch. His kickoffs consistently traveled to the opponents' 5-yard line or deeper and Coach Ted Allen said Thomas has the range to kick a 45-50 yard field goal. quotes the Globe-News in selecting Arlis for this honor.

Creed Wright

Cheese given away Tuesday

Due to the weather last week, the Government cheese was not distributed as scheduled in Donley County. In Clarendon, the cheese will be given to those eligible Tuesday, Dec. 21 from 9:30 a.m. in the old courthouse at the Community Action office downstairs.

Senior Citizens Dance

A Christmas dance will be sponsored by the Senior Citizens Center for December 21 at 8 p.m. in the Lions Hall. There will be live music and a small donation collected at the door. Come with your sweetheart and look for the mistletoe!

Chamberlain Community

The Chamberlain Community will have their annual Christmas party Friday, Dec. 17th at 7 p.m. in the community building. A covered dish supper will be served. Gifts will be exchanged, so men should bring a mans gift and a womans gift should be brought by the women.

Weather moved late shoppers night to Friday

Due to some ice and horribly cold weather, the traditional Late Night Shopping spree was postponed from Thursday, Dec. 9 until this coming Friday, Dec. 17.

All of the stores that had special ads in the paper will honor those ads this Friday. Any in-store specials advertised in last weeks paper for last Thursday will be in effect

this Friday. There will still be booths available in the Rebekah Lodge. There will be bake sales, crafts, ornaments, a jar of money, and many other

exciting things to see and buy Friday at the Rebekah Lodge.

Mrs. Santa will be revealed that night at 7:30 p.m. in Salem's. There will be a

Santa there so you can have your picture taken with him. He will announce Mrs. Santa

at 7:30. Be sure to be on hand for that activity.

Santa will be in town 16th

The Clarendon Chamber of Commerce has arranged for ole Santa to come to Clarendon, Thursday the 16th from 2 p.m. until 5 p.m. Santa will be going up and down the streets, in and out of store

passing out goodies for the good boys and girls. This may be your last chance to see Santa before he arrives on Christmas...so get your list ready and come down to see Santa Thursday.

4-H party December 20

The Donley County 4-H Christmas Party will be Monday, December 20, at 7 p.m. in the Clarendon College Cafeteria.

Each 4-H'er needs to bring a piece of fruit that will go in some fruit baskets for a community service project.

Each family is asked to bring their favorite Christmas candy or cookies for the

refreshments.

The group will go caroling and then return to the cafeteria for refreshments and games.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion or national origin.

LVNA & Fire Dept. to have auction

Persons who have made donations toward the purchase of the Jaws of Life and heart equipment the fire department is trying to purchase will be listed in next week's paper, says spokesman Mark Windsor.

Food, crafts and who-knows-what-all will be up for auction Friday evening at the

West Texas Utilities building. Proceeds will go toward the purchase of the Jaws of Life equipment and all of the goodies have been donated by the LVNA members and wives of the volunteer fire department personnel.

Bring your check book and come help. Remember, donations are more than welcome, they are tax free!

McLean fire dept. will demonstrate Jaws of Life Friday night

Friday evening during the Late Night Shopping Spree, the McLean Fire Department will demonstrate their Jaws of Life equipment in the parking lot of the first Bank and Trust of Clarendon at 7 p.m.

They will show how the

tool works to tear open a car to reach the trapped victims inside. They will use a donated car body, since the tool totally demolishes the car. Come and see first hand what all of the donations will help purchase our town to save lives.

CLARENDON COLLEGE HOMECOMING King is Norman Morgan, sophomore

from Erlace and Queen is Bobbi Dombowski, sophomore from Sierra Vista, Ariz.

They were crowned at the Thursday evening Homecoming game against Frank Phillips.

Papers to go to press early next week

Because of Christmas, the Clarendon Press will be closed the week of Christmas, Dec. 21-27. You must get ALL of your material into the newspaper office NO LATER THAN Friday, December 17. If your club has had a meeting, or has plans

for that following week, be sure you submit this news no later than Friday of this week. This deadline MUST

be adhered to in order that our Christmas paper can be in the mail by December 22. Thank you for your help.

Open House at Extension Service Office Monday

The Donley County Extension Service is sponsoring an "Open House" on Monday, December 20, from 2-4 p.m. in the County Extension office in the old courthouse.

Refreshments will be served and there will be several exhibits including "Furniture Make-Overs with Fabric" and "Christmas from a Towsack." Free

Extension pamphlets and brochures will be available. The public is invited to attend.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion or national origin.

TOTAL FOR MONTH .78
TOTAL FOR YEAR 23.43

The telephone company will undergo major change

The telephone company and its customers will undergo a major change in the way they do business with each other beginning Jan. 1 as a result of the Federal Communications Commission's deregulation of terminal equipment or customer premise equipment (CPE), the industry's terms for telephones and other equipment on the customer's end of the telephone line.

James H. Davis, operations manager for General Telephone in Memphis, outlined the upcoming changes.

Existing customers who lease telephones or other terminal equipment from the telephone company and who do not change their service can continue to do so under rates approved by the state regulatory commission. They also will continue to have the option of purchasing their own phones or other terminal equipment from General Telephone or other suppliers, but under a deregulated environment.

The change will affect new customers, and existing customers who add or change their service beginning Jan. 1.

For single-line telephone

instruments, similar to those used by most residential customers, new customers and existing customers who change their service or equipment will have the option of leasing instruments and other equipment at the regulated rate as long as the existing regulated supplies of single-line phones last. However, the company has geared its supply of regulated single-line instruments and equipment to deplete as near as possible to Jan. 1 in order to begin operating under the deregulation mandate.

As a result of the limited regulated supply, most new single-line business or residential telephone customers will only have the options after Jan. 1 of (1) renting from the telephone company at competitive rates, as dictated by the market place, or (2) purchasing their phones and other equipment from General Telephone or other suppliers at competitive prices set by the market place. General Telephone will offer a full range of basic, decorator and specialty telephone products for sale in addition to offering miscellaneous accessories

such as cords, wiring kits and automatic dialers. It will also place special orders for Unique telephone related products such as devices for the handicapped.

For multi-line telephones and systems, used mostly by businesses, including those existing customers who change their service, customers will have the options of either leasing or purchasing their equipment from a third party through the telephone company, or leasing or purchasing their equipment from other suppliers.

Maintenance of telephones and telephone systems will not change to any major degree. Existing company-owned telephones and telephone systems leased under regulated rates will continue to be maintained without charge as long as parts are available. Once the equipment cannot be repaired, and the supply of useable regulated equipment is exhausted the customer must obtain the replacement under the deregulated procedures.

For telephones and other equipment purchased by customers, the warranties are with the company manufacturing the phones or phone

systems. As with other products, the company selling or leasing the equipment may serve as the local repair center or warranty exchange, or the customer may have to deal directly with the manufacturer. General Telephones Phone Marts and local service facilities will serve as repair centers for products sold by the company to meet both company and manufacturers warranties, as well as offer on-site repairs for most products being sold. In most cases there will be charges for repair work done after the warranty has expired.

Business system customers will have the option of obtaining maintenance Agreements for equipment leased or purchased with a third party through General Telephone.

Single-lined phones will be of the plug-in type, such as those now using GTE Phone mart jacks. Customers with the old style wall wiring block will be able to purchase do-it-yourself kits that allow phones to be plugged in the new jack, or pay the appropriate charges to have the telephone company or other party make the change for

them. Because of ringing requirements for party-line service and current regulations, party-line customers should contact the telephone company prior to purchasing any phone.

Customers will be advised of the options available to them when they contact the telephone company to establish or change service.

Centennial Edition on sale Friday

Those who missed an opportunity to purchase the fantastic Donley County Centennial edition of The Clarendon Press can have a

chance to purchase one Friday during the Late Night Shopping Spree. Stop by the Rebekah Lodge and get your Christmas keepsake.

**Delegates named for
annual shorthorn
meeting**

Mr. and Mrs. James McAnear of the 7 M Polled Shorthorns Ranch has been selected as a delegate to represent Shorthorn and Polled Shorthorn breeders at the annual meeting and convention of the American Shorthorn Association (A.S.A.) in Denver, Co., January 13-17, 1983, during the National Western Livestock Show and Rodeo.

102 delegates representing 26 districts attending this meeting will be voting on policy decisions affecting the future of the beef breed. Agenda items also include election of the national officers and three persons to fill expired terms on the

A.S.A. board of directors. This meeting and other activities, will be held in conjunction with the '83 National Shorthorn Show where nearly 300 Shorthorn and Polled Shorthorn entries from across North America will be in contention for the Grand Champion honors. Class competition begins at 9:00 a.m. on Sunday, January 16, 1983, with the Best Six Head competition to take place at 7:30 p.m., prior to the rodeo performance. Judges for the event are Dr. Bill Able, Kansas State University, Manhattan, Ks.; Don Cardy, Merced, Ca., and Don Hutzel, Tiffin, Oh.

**AFC David M. Lane in
Exercie Proud Sabre '83**

Airman First Class David M. Lane, son of Mr. and Mrs. David H. Lane of Clarendon, recently participated in Exercise Proud Sabre '83, as a member of the 2052nd Communications Squadron, Keesler Air Force Base, Mississippi. This Joint Chiefs of Staff directed exercise was designed to test the mission readiness posture of units assigned to the Air

Force Communications Command. During the 12-day event, several wartime scenarios were developed and implemented which provided realism to the various exercise tasks. As a result of teamwork, mission awareness, and professionalism on everyone's part, Exercise Proud Sabre '83 was deemed to be a successful one.

The Lions Tale

BY GENE ALDERSON
The Clarendon Lions Club held its regular meeting at noon on Tuesday at the Lion Hall. There were 29 members, Lion Sweetheart Jessie Adams and 2 guests present. Following the regular opening ceremony, Boss Lion Bivens called on Lion Henson who had charge of getting the program today. Lion Henson then introduced Lee Roy Jackson who is Director of the Electronics Department at Clarendon College and Dan Molone who is Assistant Director. Mr. Jackson told us a number of things about his department. On the Clarendon campus

there are 15 students enrolled. They attend from 8:00 to 5:00 Monday through Thursday. A student takes basic electronics for the first two semesters and branch out into training as T.V. technicians, Electronic Organ technicians or computer repair technicians during the next two semesters. The Pampa campus has 50 enrolled in night classes on industrial electronics. Following the program, Boss Lion reminded everyone to turn the ticket stubs in on the ceiling fan. The drawing will be held on Saturday, Dec. 18th at 12:30 p.m. at the Lions Hall.

TDCA Job Training

The Texas Department of Community Affairs (TDCA) announced today that programs are still in operation for job training to meet the needs of private business and industry.

The theme of "Texas Working Partnership," the Texas Department of Community Affairs and local job training contractors have encouraged business and industry to hire and train eligible workers in fifteen geographic areas throughout the state. The program and funding are administered locally in all areas under TDCA sponsorship, comprising towns and counties of less than 100,000 population.

Under the authority of new federal legislation entitled the Job Training Partnership Act and the sponsorship of TDCA, local employment and training contractors serve 122 counties in Texas. These counties are in such regions as the Panhandle, South Plains, Texoma, North Central Texas, North East Texas, Brazos Valley, Deep East Texas, Concho Valley, Upper and Middle Rio Grande Valley and the Golden Crescent area of Victoria. The Job Training Partnership Act provides a one-year transition period to put the new program into effect by October 1, 1983. Funding for job training and employment will continue at the present level until final appropriations for the new program are made by Congress prior to that date.

Under current guidelines, if a worker qualifies for the existing job training program, the employer can be reimbursed up to fifty percent of the worker's wages for training costs. In addition, if the employee qualifies under one of seven specially targeted groups, such as Vietnam veterans or the handicapped, the business could be eligible for additional tax credits.

The Job Training Partnership Act was signed by President Reagan in October of this year. Job training will continue to be provided under existing CETA regulations through September 30, 1983.

Local businesses wishing specific local information about the job training and employment program may contact Texas Panhandle Community Action Corporation, which administers the program in Donley County.

The new act relies heavily on business and industry--which represent the majority of available jobs--and education to help meet unemployment and underemployment needs. Programs under the new act will be developed by business leaders, educators and government officials to meet state and local job training needs. Emphasis is placed on developing programs and plans at the local level.

The Texas Panhandle Community Action Corporation can be reached at 372-2531, in Amarillo.

For the past year, the current job training and employment program (CETA) has emphasized involvement by the private sector. Using

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

**Greenbelt Electric Coop
monthly meeting**

Greenbelt Electric Cooperative Board of Directors in their monthly meeting, November 18, 1982 voted to pay Capital Credits.

The basis for rotation is to be 3.5 per cent of each year's assigned Capital Credits up through 1981, and paying maximum amount in 1982 permitted by our mortgage lender, REA.

its other cash obligations as they come due. There will be a letter accompanying the check explaining why the check and what it represents.

This is the second time in its 44 year history that Greenbelt Electric Cooperative has paid Capital Credits back to its membership.

**Hayes
receives
diploma**

Bob Hayes receives his diploma for successfully completing the Allsup's Area Supervisor Training Course from Joe Pacheco, instructor for Allsup's Convenience Stores, Inc. The course is held in Clovis, New Mexico, home of Allsup's Corporate Headquarters, and is designed to provide a highly trained professional to meet the needs of Allsup's customers. According to Pacheco, "The course stresses public relations, operational policies and procedures, and management skills, plus it includes many other valuable training programs." Hayes graduated November 19, 1982 and will be assuming the duties as Area Supervisor Trainee in Clarendon Area with responsibilities over seven Allsup's Convenience Stores.

**Researcher says
solar power
not cost efficient**

COLLEGE STATION — Home and apartment dwellers can take several steps to trim their utility bills, but solar water heaters are not yet cost effective, say Texas A&M University energy experts.

Public acceptance of costly devices to save fossil fuels is not enough. The devices must also pay for themselves in a moderate length of time, they say.

"My figures showed that for about \$1,500 I could get a solar water heater that will save about half of my \$65 annual cost of gas-heated water," said Dr. Dale Webb, a civil engineering professor and materials specialist. "It doesn't add up."

An architecture professor suggests less costly measures and practices that can be applied to existing or new homes. Adding or installing attic insulation, cutting down on air infiltration or leaks, keeping air conditioning and heating systems properly adjusted and choosing appliances with the best energy efficiency ratios are some of the best steps for trimming utility bills.

Cotton Market Activity

Trading activity in the Altus Marketing Services territory, Friday December 10, was slow to inactive. Supplies of new crop cotton were heavy; offerings were light. Light demand was expressed for low physical price cotton, but the market for this type cotton was reported weakening as new crop cotton began deteriorating in quality. Prices were steady. Several hundred bales of better qualities (grades mostly 41 and better,

staples 34-36, mostly base mike sold at 100 to 150 points over the loan and went to fill orders from domestic mills. Mixed lots of grades 42 and better, staples 31 and 32, base mike brought about 150-200 points over the loan or 51.50 to 52.00 cents per pound.

Rain and high humidity continued to hamper harvesting. Very little harvesting activity was reported, as either fields were too wet or cotton too casey.

Producers were reported receiving mostly \$75-\$85 per ton for cottonseed.

Grade 42, staple 32, mike 3-5 to 4-9 was quoted Thursday at 51.25 cents per pound on the spot market in Dallas and 52.60 cents per pound in Lubbock. The New York Futures Contract No. 2 for March closed Thursday at 67.53, up 200 points; July 69.50, up 165 points.

USDA announced final base acreage in compliance for the 1982 crop was 11.9 million acres of upland cotton, and through November 30, growers had enrolled 798,000 base acres for the 1983 crop. The interest rate for CCC loans disbursed in December will be 9-1/8 per cent.

Prices received by farmers for upland cotton averaged 61.00 cents per pound in mid-November. This compares with 59.80 cents for the entire month of October and 60.10 cents in November 1981.

Tax changes on unemployment compensation

Individuals receiving unemployment compensation during 1982 may face higher taxes when they figure their 1982 income tax returns.

This year's new tax law (the Tax Reform and Fiscal

Responsibility Act) lowered the unemployment compensation base amounts for income tax purposes, effective with the 1982 tax year, says an economist with the Texas Agricultural Extension Ser-

vice, Texas A&M University System.

For married couples filing jointly, the base amount for 1982 is \$18,000, which is \$7,000 less than last year. For all other taxpayers except married individuals filing separately, the base amount is \$12,000 for this year, or \$8,000 less than a year ago.

BRONNIE McNABB, President of Chamber of Commerce presents two \$400.00 checks to Firemen and EMS representatives, Mark Windsor, Phil Vargas and Pat Robertson as the Chambers donation to the "Jaws of Life" and Heart machine.

ASCS News

Cotton Cards

Cotton production cards (ASCS-503) can be found at all the local gins. It is the producer's responsibility to see that the ginner has correctly filled out the entries on the card and signed it. The producer should return the card to the county office as soon as possible.

ASCS Election

Ballots for the county committee election were to have been returned by Monday, Dec. 6th. Ballots will be tabulated in this office Dec. 10th at about 9:00 a.m. Don Springer chose not to run for re-election and his position will be filled at this time. We

at the ASCS Office are sad to see Don Springer leave as he has been a great asset to the County Committee, the people in this office, and most of all to the farmers of Donley County. We hat to see him go.

ACP-LTA Sign-Up

Sign-up for our regular Conservation Program (ACP) is on going. Long Term Agreements (LTA) sign-up will run Dec. 13th thru Jan. 12th.

The 1983 practices remain the same as previous years. Everyone with a need for either of the above programs are encouraged to come by and visit with us. It should be noted that LTA agreements are for 3 to 5 years.

1983 Sign-Ups

For those of you that have signed into the program already, we are going to make your advance payments as soon as possible. If you want our 1983 advance payment made in 1982, you should sign-up as soon as possible.

Those not wanting the advance, or not wanting it paid until 1983, have until March 31st to sign-up.

In order to sign into the program, we must know your 1983 intentions, so you may need to make some planting decisions before you come in.

Farm Changes

Now is the time for you to update our records for 1983. Let us know when any of the farm information we have on file is incorrect, such as new owners, or operators, addresses, etc...

1982 Cotton Loan

Those who took part in the 1982 reduced acreage program are eligible for SLM, white, 1 1/16 inch staple, is 57.40 cents lb. Cotton loans may be obtained at the county office only. All gins in the county have agreed to use approved bagging and ties.

Interest Rate

The December interest rate is 9.125%.

Early Bird

Extention Club elect new officers

Donley County's Earlybird Extention Homemakers club met in the home of Pat McCombs December 1st. Dixie Ward from east of town attended and presented herself as a new member. We are certainly glad to have her since she has many skills we are eager to learn.

Pat's home was decorated head to toe with Christmas decorations and the table was laden with wonderful foods each member brought for our Christmas feast.

Business of interest was the election of 1983 officers. Pat McCombs will remain as president assisted by Connie Clifford and VP Maxine Hardin has been Secretary-Treasurer so long and done such a capable job that she was re-elected unanimously. Katie Dvorak was elected as reporter and Council Representative.

The club donated \$20.00 to the Jaws of Life. Pat had wrapped several lovely gifts to be given as door prize and gifts to members. Katie Dvorak won the door prize and each member got a sweet Christmas tree ornament. Homemade gifts were

A Moment for Meditation

BY INEZ G. LAWRENCE

"His name shall be called Immanuel, God with us." Mt. 1:23
"Christmas is for the children, you know" I hear

over and over again. It makes me sad for this is a serious misconception of the joyous season. The Bible says God loved the world so

Besides veterans programs available through the federal government, each state also provides supplementary benefits and privileges to men and women who served in the armed forces.

In Washington state, the Department of Veterans Affairs this year opened a statewide toll-free hotline for veterans and dependents. Illinois recently passed legislation providing up to \$1,670 to certain disabled vets for remodeling a home to meet their needs — in addition to the \$5,000 available from the Veterans Administration for this purpose.

imburses losses will qualify to itemize these losses on Schedule A beginning next year," says Lovell. He advises taxpayer's with 1982 casualty losses to consult their tax advisors regarding such things as the new alternative minimum tax, unsettled casualty claims that fall into 1983, and carry back of casualty losses to the previous year.

With the change in casualty loss deductions as well as inflation, the economist advises taxpayers to evaluate the adequacy of casualty insurance coverage on homes, autos and other assets. Since the federal government will be assuming a much smaller share of the insurance deductible, it may be necessary for many to choose smaller deductibles in insurance policies unless they are financially able to assume greater losses.

given by drawing to each member and no one got their own present and no one regretted receiving any of the delicious foods wrapped in clever packages.

Those present were: Maxine Hardin, Connie Clifford, Melba Risley, Anita Mooring, Mary Jane Smith, new member Dixie Ward, hostess Pat McCombs and Katie Dvorak.

The next meeting will be at Connie Cliffords house... at last!

Tax changes affect medical expenses

Taxpayers who itemize deductions on their income tax returns need to give careful consideration to medical expenses and casualty losses as they look at their 1982 income tax situation.

"This year's tax law (the Tax Equity and Fiscal Responsibility Act of 1982) brings about some changes in filing tax returns that taxpayers need to be aware of," says Dr. Ashley Lovell of Stephenville, and economist with the Texas Agricultural Extension Service, Texas A&M University System.

Effective Jan. 1, 1983, the new tax law increases the exclusion on medical expense deductions to 5 percent of adjusted gross income from the present 3 percent.

Also, all health insurance premiums paid by the taxpayer are treated as just another medical expense item and are subject to the 5 percent exclusion. This compares to 1982 and earlier years when taxpayers could deduct one-half of their health insurance premiums, up to \$150, with the balance subject to the 3 percent limitation.

The current 1 percent exclusion for drugs and medicines will remain the same in 1983, notes Lovell.

"All this means that in 1983 many individuals will not exceed the exclusion requirements and will not have deductible medical expenses except in extreme situations," the economist points out.

Thus Lovell advises cash basis calendar year taxpayers to consider paying outstanding drug, doctor and hospital bills by Dec. 31 if they intend to itemize medical expenses on Schedule A of their 1982 tax return.

Another consideration would be to move surgery and dental work scheduled for early 1983 into this year.

US Savings

Bond interest to increase

As of November 1, all Savings Bonds purchased and held for 5 years will earn 85 percent of the average yield on Treasury Marketable Securities. The rate will be adjusted every six months to reflect the average yield. The rate for the current six month period has not yet been published, but it is expected to be 11 percent. There is no upper limit on how much bonds will be able to earn, but there is the protection of a minimum guaranteed rate of 7.5 percent. In other words, should interest rates drop to six or seven percent, Saving Bonds will continue to earn 7.5 percent. Older Bonds automatically will benefit from the new market rate if held 5 years.

much He sent His Son to be its Saviour. There were no children involved in Bethlehem that night either. Jesus is the only child that is mentioned. The angels' announcement was to the shepherds. The message was peace on earth, good will to men. So Christmas is for everyone, grown-ups and children alike.

The wise men brought gifts to Jesus, expensive gifts of gold, frankincense and myrrh. We still give gifts at Christmas to our families, to neglected children and to the poor. The giving of gifts to others is a beautiful gesture in response to God's gift of a Saviour.

Christmas is not just for the children. Santa Claus may be only for them, but the blessed birth of our Lord: It is for all of us. It is Joy to the World.

Heritage Trails

Hall County Heritage Trails, a book written by Virginia Browder tells the history of Hall County in the Texas Panhandle. It is a compendium of places, events, and people who came to this area to establish homes, schools, business, and churches. A farming and ranching section of the Lone Star State, Hall County and its county seat of Memphis, were founded in 1890 by hardy pioneers who believed it to be the land of "the honey pot and fritter tree".

This book tells the story of the "founding fathers", their relatives and friends who, coming from all directions, put down roots and stayed to smooth the way for those who followed.

Not only the people of Memphis, but those of Salisbury, Newlin, Lakeview and Turkey, and other communities, tell of their happiness and hardships during the past ninety years, covered by two volumes of this Texas saga.

This Hall County history is being published in two volumes complete with hundreds of pictures.

Each volume is priced at \$30 but may be purchased in advance for \$50 for both volumes. The first volume will be out by Feb. 15 and the second by middle 1983. If you want your copies mailed there will be a \$2 charge for mailing and handling. If you plan to pick up your books in Memphis after they arrive, you need not include any handling charges.

You may order your book by writing Staked Plains Press, Box 799, Canyon Tx. 79015.

BURNING SENSATION

For many people, overindulgence in food is followed by a burning feeling within the chest. For some, even eating a light snack may end with what has been called HEARTBURN.

Heartburn is a vague term often used to describe what experts call ESOPHAGEAL REFLUX. The heart is not involved at all. There is simply a backup [reflux] of stomach acid into the tube [esophagus] that connects the mouth to the stomach. Normally, there is a zone of high pressure between the esophagus and the stomach to prevent such backup.

Lying down seems to initiate heartburn for many. Gravity allows stomach contents to flow into the esophagus. Elevation of the head of one's bed by six inches may provide some relief. Heartburn is more common in cigarette smokers and, therefore, quitting is often of value. Some people find that avoiding certain foods such as chocolate, coffee, alcohol and spicy or greasy foods prevents heartburn. And finally, the many antacid preparations often provide rapid relief by neutralizing stomach acids. Certain antacids contain "foaming agents" which are believed to provide additional relief from that burning sensation.

IT'S A FACT!

America's Social Security system is expected to run into large deficits soon. Then, as the baby-boom generation retires after the turn of the century, greater Social Security costs will have to be borne by fewer workers. Congress has the option of either increasing payments into the system or reducing benefits and beneficiaries.

Experts, including many members of the actuarial profession, have suggested some possible remedies to Social Security's funding problems. First, instead of indexing cost of living increases to the Consumer Price Index, these increases could be limited to wage increases.

Second, requiring all currently uncovered government

The American Academy of Actuaries, a non-profit professional association devoted to increasing public awareness of actuarial issues, has recommended a range of solutions to Congress. The Academy believes that Congress must act soon if the system is to be put back on track and public confidence restored.

workers to participate in the Social Security system would go a long way toward improving the program's funding status.

Finally, many advocate gradually increasing the retirement age from 65 to 68, a recommendation which would help lessen the strain on the system that the baby-boom generation will have when it retires.

BUSINESS OPPORTUNITIES

WEST TEXAS GAS, Inc.

A Midland based fuel supplier is looking for prime locations for a joint venture with responsible parties on gasoline-diesel sales outlets. If you now own or are going to build a modern convenience store, car wash, fast-food outlet, liquor store, or another business which is compatible with fuel sales, you should know about our programs.

In high traffic locations with volume potential we will make complete self-service installations with the latest electronic, remote control equipment and pay top commissions allowable.

West Texas Gas also has service stations for lease in select West Texas communities with good opportunities for willing workers with some capital and good credit references.

Martin-Ashtola News

By NAOMI GREEN

The Jerry Green family was in Memphis for business and visited with her parents the Haskell Talleys. They all came back to Ashtola, the men had a quail hunt and the families enjoyed a quail supper.

David and Della Spivey of Grand Prairie were in Clarendon for the weekend visiting with her mother, Della Allen and his parents the Claude Spiveys.

Mr. and Mrs. Bud Miller

from Houston visited Saturday with Mr. and Mrs. Royce Hall.

Mr. and Mrs. J.D. Wooten and Bud Butler and Wes Kelly visited Saturday with the Bill Bennetts.

Billy Hearn and Jim Vanhoover of Houston were guests of the Charlie Hearn this week.

Jason Green spent the weekend in Amarillo with Rhonda and Lori Green.

Mr. and Mrs. Burl Hollar,

Monte and Mindy went to Okla. City for the Rodeo National Finals Saturday. They visited enroute with Bill and Sible Clark at Hydro Okla.

Wes Kelly had lunch with Peggy Childress and family in Amarillo Sunday and went to Seymour to visit with Richard Kelly that afternoon.

Velma Hearn went to Memphis Friday to see her father, Frank Lyle.

Robert Wells of Gurdon Ark. visited with Flossie Reynolds Thursday, spent the night with the Steve Reynolds and attended the funeral of Price Webb.

Thursday night the Buster Emmons and the Lacy Nobles played dominoes with the Lloyd Risleys in their home.

Mr. and Mrs. Benny Clay went to Dickens County to see his brother, David and Oma Clay. They visited the T.J. Conways while there.

Danny Holland, Doug Kidd, Bill Johnson and several others went to Spearman pheasant hunting Saturday. The Danny Holland family had supper with the Doug Kidds Sunday night. Nancy cooked her pheasant with sherry and lemon juice.

Lloyd and Melba Risley made a business trip to Amarillo last Tuesday.

Velma Hearn and Flossie Reynolds went to Memphis Monday afternoon to see Mr. Frank Lyle.

Mr. and Mrs. Bud White had lunch with the L.A. Watsons Wednesday.

Geneva Johnson visited with the James Tolberts Sunday night. Evelyn has been under the weather with the flu but is feeling some better Monday.

Wayne Reynolds spent the weekend with Mark Mann.

Doss and Clara Finley managed to navigate their roads and get out to visit with Dora Joyner Sunday.

Mrs. Mary Gilly and Mrs. Gladys Posey of Claude visited with Adderine Mahaffey Monday.

Hazel Brandon attended a Delta Kappa Gamma Meeting in Memphis last Saturday.

Ranell Shadle's mother Mrs. Frankie Alexander of

Amarillo spent the weekend with Ranell.

Joe Neal, Michael and Brad Shadle and Billy Hearn and his friend Jim Vanhoover of Houston went to Gruver pheasant hunting. They had good luck and Ranell needs a recipe for cooking the birds.

Films on cancer available

Mrs. James Hayes Public Education Chairman for the Donley Unit of the American Cancer Society, has announced that films on cancer are available to local clubs, churches, organizations and employee groups interested in having an educational program on America's most feared disease.

Some of the films available include "Breast Self-Examination" which shows the simple technique of checking for unusual lumps or thickening in the breast. "The Cancer Nobody Talks About," is a film about the diagnosis of cancer of the colon. "Man Alive," a cartoon feature, is a general film showing cancer's seven warning signals. "Let's Call It Quits," an adult film, showing the humorous, yet serious side of a man as he tries to quit smoking.

A speaker can attend the film program and answer questions from the audience. Mrs. Hayes also explained that many teacher resourced are available to public and private schools.

We would also be glad to show adults the educational materials that the American Cancer Society has produced for students about health education, prevention, and detection of the disease. We know parents would like to know what their children are being taught about cancer.

Any group wishing to schedule a Cancer Society film may contact Mrs. Hayes at 874-2372 or Sandy St. John at 353-4306 at the American Cancer Society office in Amarillo.

Mr. and Mrs. W.H. McDonald

McDonalds 50th anniversary

Mr. and Mrs. Houston McDonald will be honored on their 50th wedding anniversary with a reception given Saturday December 18th from 1:30-4:00 in the fellowship hall of the Calvary Baptist Church. All their friends are invited.

The celebration is being hosted by Mr. and Mrs. Leon Hall from Amarillo; Mr. and Mrs. Bob McDonald from Kingston, Okla; and Mr. and Mrs. Kenneth Jackson also from Kingston, Okla.

Houston married the former Mav Pearl Morgan on

December 17, 1932 at McKnight, Texas. They have lived in Clarendon 17 years.

Houston works as a custodian at Clarendon College. May Pearl owns a fabric shop in their home. The couple belong to the Calvary Baptist Church. They have 5 grandchildren; Debbie Hall and Randy McDonald both from Amarillo, Jeff McDonald, Sharon Jackson and Greg Jackson all three from Kingston, Okla. They also have 4 great grandchildren, Janet, Blair, Neil and Amber Hall.

Some experts estimate that the first dogs were tamed over 12,000 years ago.

Sarah Diane Oney Bruce, Mona and Michelle Oney of Panhandle are happy to announce the arrival of a new baby girl Sarah Diane, born Thursday, Dec. 2 at Coronado Community Hospital in Pampa. She weighed 5 lbs. and 14 1/2 oz. and was 19" long.

Grandparents are J.B. and Emily Oney of Wellington and Don and Maxine Robinson of Clarendon. Great-grandmothers are Gertrude Cobb of Wellington, Lois Robinson of Clarendon, and Wanna Talley of Memphis and a great-great-grandmother Beulah Matlock of Hollis Okla.

Xi Lambda Xi

Xi Lambda Xi met last week in the home of Susan Henson. We had a wonderful business meeting in which much was accomplished. We also had a most marvelous program presented to us by Oressa Delaney who told us of the women in the Bible who were the genealogy of Mary, mother of our Saviour. It was such an enlightening program

and certainly stimulated us to think that even though we are not perfect, the Lord may require something great of us, just as he has women in the past. Thank you for this stimulating program, Oressa!

Hostess Susan and Betty Veach really laid out the goodies for those few members present. We ate heartily of wonderful homemade delicacies until we had room for no more. Those who were unable to attend certainly missed out on a spiritual and temporal feast.

Xi Lambda Xi sorority met this week, Monday, Dec. 12 in the home of Gloria Gage. It was decorated so warmly in Christmas colors and filled to capacity with all but three members. There was no program this evening, so we conducted a brief business meeting and then secret sisters exchanged gifts. There were some very special gifts and some even required cerebral strain to get them to work. (Ask Betty about that one).

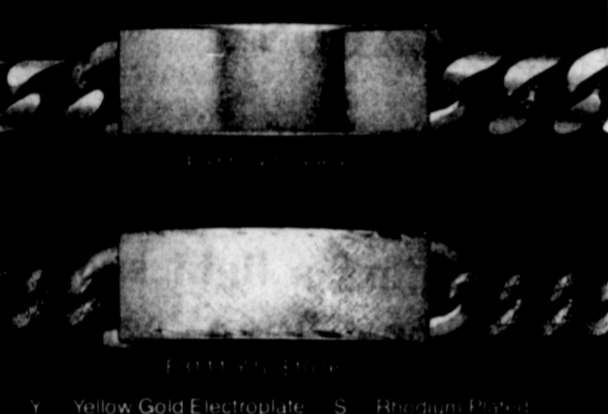

Hostess and Co-hostess Gloria and Pat McCombs presented us with a delicious novelty punch, an unusual and filling dip and other delicacies. There were many trips to and fro to the buffet table that night as well. We enjoyed fellowshiping and visiting after.

Plans are made to have the Christmas party at Frankie Hensons home December 23. Be certain to bring your baked goods to the bake sale at Rebekah Lodge Friday evening around 6 p.m. Merry Christmas sisters!

Doing MORE...With LESS!

MAKE YOUR CHRISTMAS TREE THIS YEAR FROM TRIMMINGS!

Perhaps you don't want to kill a tree for Christmas this holiday season. And maybe you don't want to purchase one of those plastic or tinsel replicas, either. Well, don't despair, because here's a way to have a "real" indoor holiday evergreen without cutting one down. Simply make your Christmas tree... from prunings!

Almost anyone should be able to find the raw material for a prunings tree. Just about any type of evergreen will do. We've used pyracantha, holly, juniper, and arborvitae as well as the more familiar (in this application, at least) spruce, pine, and fir. Rural homesteaders will probably be able to simply prune trees in the back forty... improving their woodlots while they do so. Folks in urban or suburban areas can trim branches from evergreen shrubs... or even pick up—often free of charge—trimmings from Christmas tree lots.

In order to construct a do-it-yourself tannenbaum, you'll first need to gather [1] a supply of evergreen branches from two to six feet long, [2] a big waterproof "planter" such as a plastic wastebasket or trash can, glazed ceramic pot, or large stoneware crock (don't use an ungalvanized steel container, because it might rust through after weeks of contact with water), [3] wire for fastening branches in place, and [4] enough sand or pea gravel to fill your container three-quarters full.

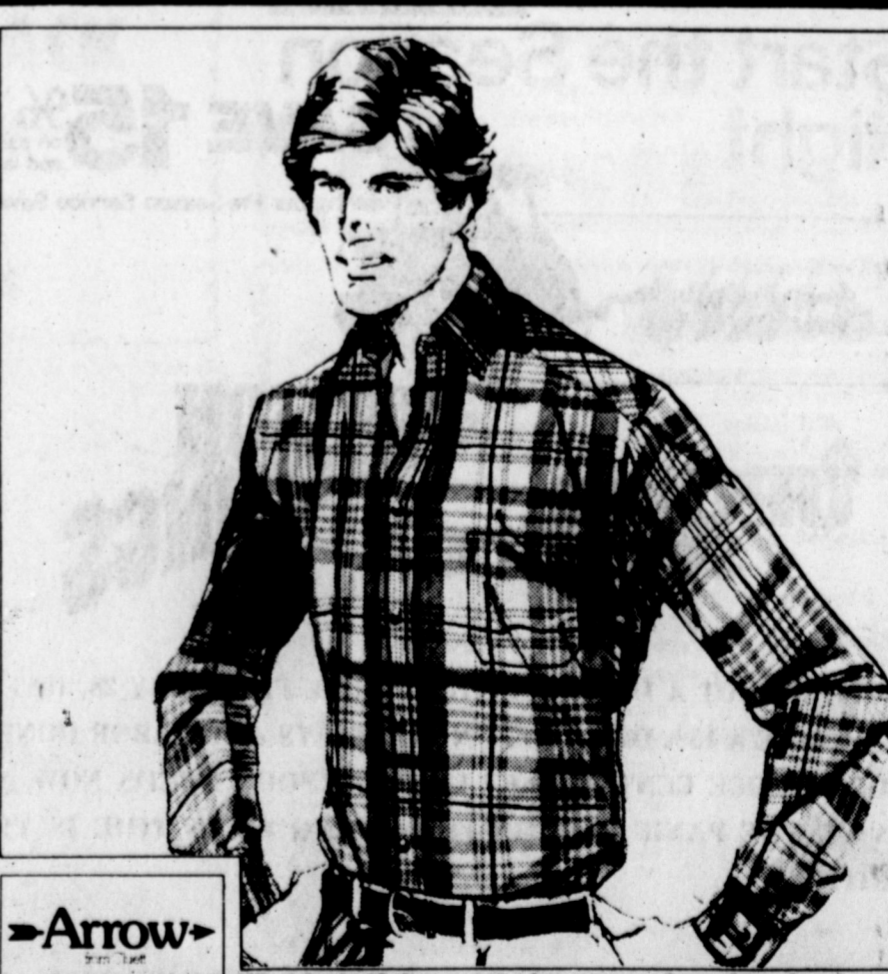

There are probably any number of ways to assemble a batch of limbs into an attractive tree. However, we've found it easiest to first center the tallest branch in the empty container, and then wire the smaller limbs to it—one by one—making sure the cut end of each branch extends down to the bottom of the container (where it can pick up moisture and stay fresh).

It's best to start with the limbs that will form the upper branches of your tree. Begin wiring them to the "trunk" at a point high enough to cause their tips to splay out prettily around the central branch (you might also want to wire these upper limbs to the trunk at regular intervals below the top tie). Then just work your way downward, attaching each consecutive whorl of branches at a point a bit lower on the trunk than the previous—higher—limbs, and allowing their ends to drape out farther to give the festive fir its taper.

Keep adding greenery, trimming it to size and shape as necessary, until your evergreen is full and symmetrical... then pour the sand or pea gravel into the container around the base of the newly created tree in order to provide ballast and anchor the branches. Finally, pour in enough water to saturate the sand or gravel thoroughly. More liquid should be added whenever the sand appears to be drying out on top.

Your homemade holiday spruce won't be quite as sturdy as would a whole tree, so it's best to deck it out with lightweight ornaments and tiny, energy-saving Christmas lights. Popcorn strings, paper snowflakes, silvered cellophane icicles, and decorations made of straw, cornhusks, or yarn are just about perfect.

For FREE additional information on Christmas trees and on THE MOTHER EARTH NEWS magazine, send your name and address and ask for Reprint No. 1948: "Apple Pulp Pomanders". Write to Doing MORE...With LESS!, 105 Stoney Mountain Road, Hendersonville, N.C. 28791. Copyright 1982 THE MOTHER EARTH NEWS, Inc.

Lelia Lake News

BY JEANIE LAUDERDALE

Barbara Helms, Pauline Kooztz, and Flossie Reynolds shopped in Amarillo Tuesday.

We would like to wish Happy Birthday to Pauline Kooztz. Her birthday was December 2nd. She was honored with a birthday supper at her daughter's, Mr. and Mrs. Roy Lee Helms. Others attending were Deb Kooztz and the Jerry Kooztz family.

Mr. and Mrs. Nolan Barrow left this Monday to visit their daughter, Sarah and Gene Chapman in Buffalo Springs. On their way home they are planning on visiting another daughter, Louise and James Wilson, in Quanah. They are to return home Wednesday.

People from Lelia Lake attending the Barry Hasty, Rhonda Massingill wedding Saturday night were Arthur and Thelma Shields, Lacy and Mary Lee Noble, Phil, Jeanie, and Shauna Lauderdale. The wedding was lovely. Nadine's nephew, Rev. Gary Stone, from Amarillo performed the ceremony. Out of town members

of the family attending the wedding were Mr. and Mrs. Maurice Hasty, Henry's brother, Keenan, Cheryl and Eric from Plainview; Ava Hasty from Austin; Ronnie, Jeanie, and Jennifer Hasty from Elkhart, Kansas.

Recent visitors with the Lacy Noble family were Janie Noble of Wharton, Debbie Taylor of Amarillo, Helen noble of Dumas and Mildred Noble of Yuma, Arizona.

The Lacy Noble family would like to use this means to reach their friends and neighbors of the Lelia Lake Community to say Thank You for the kindness shown to us now and always.

This Saturday night is Community Center. We eat at 7:00 p.m.

Ernest Chastain

Chastain new Mental Health Director

Ernest Chastain, has recently moved into our area from Baytown, Texas. He is the new Director of the Clarendon Family Service Center, which serves four counties; Donley, Armstrong, Collingsworth, and Hall.

Mr. Chastain has earned a Masters in Clinical Psychology from Stephen F. Austin in Nacogdoches. Mr. Chastain has spent 22 years in the Army Medical Corp. and retired as a Chief Warrant Officer II. During his Army career, he spent two tours in Vietnam, 10 1/2 years in Europe, 3 1/2 years in the Orient and he retired in 1979.

Carole Chastain has been married to Ernest for 25 years. They have four children: Ben, 23 and a senior business student at Stephen F. Austin; Cheryl, 22; living in Johnson City, Kansas and daughter Lee, 20, sophomore at Stephen F. Austin and adopted granddaughter Amy here.

Services at the Family Center are for everyone in the area. Chastain is in his office Tues., Wed., and Thurs. Monday he is in Wellington, Friday in Memphis.

The services offered include general counseling on family problems with children, adults, alcohol and drugs. He does after-care counseling for people who have been in state hospitals, for emotional, alcohol or drug related problems. He counsels the mentally retarded and is the point of contact for people who just do not know what to do or where to go for help of any kind.

Everything is confidential, including phone calls inquiring information. The program is funded partly by the State and by grants, but no federal money.

Services are rendered according to a sliding scale adjusted to accommodate anyone's income. Money should never be a reason NOT to obtain help from the Family Services, Chastain said.

Obituaries

Lora Mae Gilbreth

Lora Mae Gilbreth, 81, of Hedley died Wednesday December 8 in Memphis.

Services were at 10 a.m. Saturday December 11 in Hedley Baptist Church, with the Rev. Bryan Knowles, pastor, officiating. Burial was in Quail Cemetery by Guy Owens Funeral Home of Wellington.

Mr. Gilbreth was born in Oklahoma. She lived in Collingsworth County for 32 years. She moved to Hedley in 1943. She was a member of the Hedley Baptist Church. She married Preston Gilbreth in 1919 at Hedley.

Survivors include her husband; two sons, W.P. Gilbreth of Panhandle and Richard Gilbreth of Antonito, Colo.; a brother, John W. Russell of Amarillo; two sisters, Hattie Killingsworth of Fort Worth and Lulan Barnes of Amarillo; seven grandchildren and seven great-grandchildren.

Granville L. Ivey

Granville Lee Ivey, 59, of 3615 E. 15th, Amarillo, died Dec. 8, 1982.

Services were at 2 p.m. in Robertson Chapel of Memories with the Rev. Paul Heil, pastor of First Baptist Church, officiating. Burial was in Citizens Cemetery.

Mr. Ivey was born in Greenville. He had lived in Amarillo most of his life. He was a retired civil service worker from Air Force bases at Amarillo and Denver, Colo. He was a member of the Amarillo Senior Citizens Association and the Hedley American Legion. He was a U.S. Navy veteran of World War II. He was a Baptist.

Survivors include two sons, Goenn Ivey of Hedley and Wilson Ivey of Fritch; two sisters, Jewell Smith of Edwardsville, Ill.; a brother, Bill Ivey of Plymouth, Neb.; and four grandchildren.

"A Friend of Lyndon"

BY JACK MARTIN

I had a visitor in my office the other day that I felt was very interesting. He is the brother of Billie Hall of Stamford. Both of these people used to live in my home town of Memphis, Texas. He is Rufus Jones of Fredericksburg, Texas.

What makes this person interesting is the fact that he operates and maintains the area surrounding the Lyndon Johnson Ranch. Mr. Jones started working for the Texas Highway Dept. in 1946 in Austin, Texas. In 1960 he and his family moved to Fredericksburg, Texas. When Lyndon Johnson became Vice President in 1961 the state took over U.S. Highway 290 and renamed it Ranch Road 1. This is the road going past the Johnson ranch. Mr. Jones was construction superintendent in charge of building the road through the 36th President's ranch.

Mr. Jones first met Lyndon Johnson in 1963 at the ranch. When Mr. Jones

really became friends with the Johnsons was when Lady Bird Johnson started the Beautification Award program in 1970. During this time President Johnson presented Mr. Jones the Maximilian Daisy Award for the beautification of that area. This award was a check in the amount of \$500.00. Another award was a silver cup, made by a company in Tennessee that has made 100 cups for each president since Washington. Mr. Jones was also the recipient of that award. He is still wearing another gift from the President, a gold watch on which is inscribed "To Rufus from L.B.J."

A recent newspaper story told of Mrs. Johnson's donating one of President Johnson's hats to a charity. The hat was a Stetson XX Beaver, 7 1/8, and inscribed on the band was "Made especially for L.B.J." This hat brought

\$15,000 at the auction. Mr. Jones also received a hat from the president in 1972.

Mrs. Jones is still working at the ranch and still maintains a friendship with the Johnson family. Mrs. Johnson lives during the week in Austin but goes to the ranch on weekends.

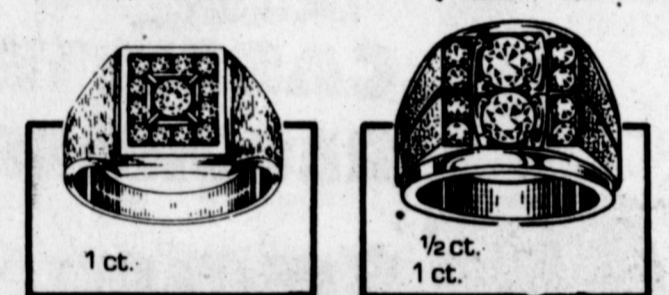

The last time Mr. Jones saw the former president was on Saturday, two days before he died. The occasion was a tree-planting ceremony. He said the president asked him, "Where did you get that goodlooking hat?" The hat had been the gift from President Johnson, so Mr. Jones jokingly replied, "From a retired farm hand down the road."

Mr. Jones spoke to the 5th and 6th grade classes at the Anson Middle School on Monday.

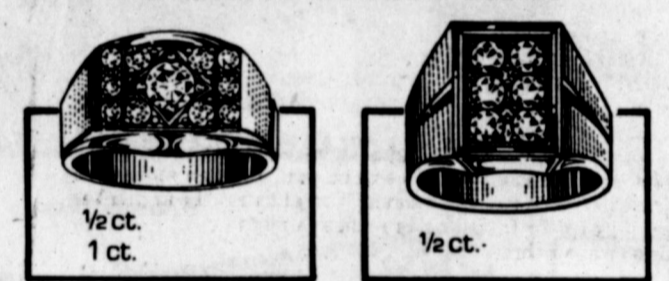

Mr. Jones is the brother of Carmen Wright of Clarendon.

FABIEN TORRES Jr. caught this 11 1/2 pound blue catfish on his trip to Corpus Christi recently.

Fish Tales

By KATIE DVORAK

While many folks were sitting in deer blinds or duck blinds, a good portion of Texas' sportsmen were plotting how to catch a trophy-sized largemouth bass.

While it may surprise the non-angling public, most genuine trophy bass are caught during the wintry December through February period.

Texas' current state record largemouth record is 15 lbs. 8 oz., caught by Alexander of Richardson at a private lake in East Texas in February. He also held the previous state record of 14 lbs. 3 oz. from a bass caught in the same lake in January!

The cold weather trophy bass theory also appears to be substantiated by records kept by the Texas Parks and Wildlife Dept. through its current "Big Fish Award" program. Anglers who document their catch of a largemouth eight pounds or larger are eligible for a certificate to commemorate their feat.

"Almost all the big fish awards for largemouth bass in the past few years were issued for fish caught during the late winter to early spring period," said Inland Fisheries Management Coordinator, Bob Bounds. Most wall-hanging large-

mouths in Texas are caught on large plastic worms, as long as 11". Another favorite is a large lead-head jig with a pork rind trailer attached. Live bait, particularly oversized minnows, also is gaining favor for big bass on some lakes.

So far, six public reservoirs in Texas have produced bass of 12 pounds or larger in the past two years. They are lakes Calaveras, Monticello, Welsh, Livingston, Houston County and Fayette Power Project.

How much steak could an 86 lb. blue cat produce? J.H. Vick of Conroe caught such a monster on a trotline October 29. The giant was 52 inches long and 36 1/2" in girth.

1926

Book Club Christmas party

The annual Christmas party for the 1926 Book Club was held Tuesday, December 7 in the home of Mr. and Mrs. J.R. Brandon. Co-hostess with Hazel was Dessa Day. The entertaining rooms were decorated with a Christmas tree, candles and other seasonal items.

The hostesses served date bars with whipped topping, candy and nuts, punch and coffee from a lovely table.

Pauline Heath introduced the guest speaker, Glenda Hawkins. Glenda read a delightful story, "The Best Christmas Pageant Ever" by Barbara Robinson. It is the story of six children having the Christmas Story for the first time and their participation in the church pageant.

A gift exchange was enjoyed by members Pauline Morris, Thelma Bairfield, Dorothy White, Mary Hazel Van Zandt, Jessie Adams, Mary Thornberry, Billie Clinton, Betty Veach, Mary Beth Nelson, Pauline Heath, Evelyn Mann, Frieda Tucker, guest Glenda Hawkins and the hostesses.

Turkey Shoot to be Saturday

Daniel Boone may have won many a Christmas dinner attending turkey shoots with old Betsy, and now is the time for all good mountain men and hot shots to get their shot guns, and go to the stomping ground to compete for either a turkey, ham, chicken or sausage.

Proceeds go to the Community Action Fund. Charges for the event vary according to which fowl or foul you go after. This should separate the eagle eyed from those with lead in their shot. Don't let this one slip past your barrel!

SANTA CLAUS IS COMING TO TOWN

Be sure and bring your kids to see him and have their picture made.

TASTY TREATS for a Merry Christmas

ARMY SGT. GORMAN and Private Jeffrey Tyler

MRS. BUTTS homemaker class: [L to R] Shalane Chamberlain, Sylvia Vasquez, Lynn Weatherston, Linné Salmon, Dori Bourque.

Pam Jack and Flossie McCampbell enjoy appetizer prepared by Army cook Tyler.

Army presents food program

Friday, December 10, the Clarendon Home Economic Department was treated with a visit from the Army.

Private Jeffrey L. Tyler, a cook from the army, came to show Mrs. Butt's classes how to make assorted garnishes from fruit and vegetables. He also showed some things to do that will make party trays more attractive.

Private Tyler is 20 years old and recently married. He has been in the Army for 2 years and 1 month and is presently stationed at Fort Ord in California.

He flew here from California to show some of the schools in our area what the Army has to offer.

Private Tyler was stationed in Korea for one year. His job was to provide food in the Army's mess hall. He said that they fed each day approximately 200 men for breakfast, 300-350 for lunch and 200 for dinner. He stressed that even though it is hard work the Army has a lot to offer for the individual.

Staff Sargent Gorman was a chef in the Army for many years. He explained all of the procedures Tyler performed and gave an enthusiastic program.

Private Tyler showed how to gussie up plain foods to help make a buffet look more appetizing. The most popular example was his magical transition from boiled egg into penquin.

Private Tyler removed a small portion of the rounded bottom of the egg so it would stand upright. He cut a small portion of the top away and replaced it with a black olive decorated with eyes and a beak. He cut another black olive in half and placed them on the side of the egg as wings and two more halves up the back of the penquin. Cloves marched up the front as buttons and the small piece from the top of the egg became a little cap while the bottom, cut in half, became the feet of our antarctic friend.

The classes learned how to make club sandwiches, how to use vegetables and fruits to create visual masterpieces and how to make even bologna look appetizing.

The two men were on the high school campus from 9 a.m. until noon.

Lady Broncos win two trophies

The Clarendon High School basketball teams were involved in two tournaments this past weekend, and each of the girls' teams came home with a trophy.

The varsity girls' team won two victories in the Lake Meredith Classic at Fritch and became the consolation champions. Having to cancel their Thursday game due to severe weather, the Lady Broncos were placed in the consolation bracket. On Friday they played River Road and won a 53-41 victory. They led the entire game. The score was 20-15, 35-31, 45-34, and 53-41 at the end of the four quarters.

Junior Post Gina Spier scored all of her 12 points in the first half to put Clarendon in the lead. Junior Forward Linda Weatherston finished with 14 points, and Junior Post Connie Garman had 9. Junior Guard Kristen Walker had 8 points on her best outside shooting game of the season.

Then on Saturday in the consolation finals the lady Broncos defeated Perryton in another solid performance against a much taller team. The maroon team led each quarter: 11-8, 23-18, 35-27, and 49-39. Linda Weatherston again led her team in scoring, this time with 20 points, a season high. Gina Spier repeated her 12 point effort of Friday, as did Kristen Walker her 8 point performance. The Lady Broncos are now 3-6 on the season and the proud winners of a fine trophy won in a tough tournament.

The unbeaten JV Lady Broncos did even better in the Childress JV tournament, winning the championship trophy. Friday they defeated Wellington 34-21, despite being behind 8-2 at the end of the first quarter. Freshman Post Janet Risley had her best game to date, with 11 points and 8 rebounds. Sophomore Post Amy Hancock had 8 points and 7 rebounds, and Sophomore Guard Shea Green had 8 points, 3 assists, and 4 steals.

On Saturday Quanah fell to Coach Sam Haynes' girls' team by the score of 35-31 in the championship game. Shea Green had 14 points and Mary Katherine Hayes had 12 rebounds for the champions, who are not 6-0 for the season.

The JV boys also competed in the Childress Tournament. They lost to Wellington on Friday in a close contest. Leading 9-6 and 19-14 at the end of the first two quarters, they fell behind in the second half and lost 38-33. Sophomore Guard Rod Keown had 10 points, 5 rebounds, and 5 steals in the game. Junior Forward Bryan Smith had 8 points and 6 rebounds.

On Saturday the team lost to Memphis by a 38-25 score. Sophomore Guard Boonie Gardner had 6 points, Rod Keown had 5, Bryan Smith had 5, and Junior Guard Creed Wright had 4. Junior

Post Dean Cearley had 10 rebounds for the still-winless team.

The boys' varsity team competed in the Fritch Tournament. Forced by the weather to cancel their first round contest with Spearman, they were advanced to the second round of the consolation bracket, where they met River Road. The Wildcats are a fine AAA team that had already won the previous week's Wellington Tournament (defeating Memphis in the process).

The Broncos played unquestionably their best game to date against River Road, but eventually lost 71-64. It was an exciting contest, with both teams pressing full court and fast-breaking. Clarendon controlled the backboards, with a remarkable 57 rebounds in the game, but the Wildcats' excellent outside shooting provided their winning margin.

Senior Forward Kelly Hill had his best game of the year with 21 points and 15 rebounds. Senior Guard David Weatherston had 9 points, 13 rebounds, 4 assists, and a "performance score" of 34, a team high thus far.

Juniors Arlis Thomas and Johnny Gaines also had good games, with 11 points and 13 rebounds and 8 points and 6 rebounds, respectively.

The Broncos are 0-8 for the season, but they are improving steadily and are confident that they can turn things around soon.

Bobcats repeat win over Broncos

When Clarendon High School's four basketball teams traveled to Childress last Tuesday, they met the same dosage of limited success that the Bobcats had allotted them in the first meeting between the two school's teams last November 30. That is, they won only one of four games.

The undefeated Lady Broncos JV team repeated their initial win over Childress (36-21 on Nov. 30), this time by a narrow 21-20 score. Starting off very slowly, the girls in maroon scored only 2 points in the first quarter and trailed 11-9 at halftime. The game was tied 15-15 at the end of the third quarter, but the visitors came through in the final quarter to garner the victory. Sophomore Forward Gayla Clifford led in scoring with 7 points.

The JV boys' team lost their game against the Bobcats by a 49-27 score. Sophomore Guard Stanley Gardner led the team with 7 points, and Junior Post Steve Shaller had 6 points and 7 rebounds. Junior Forward Bryan Smith led the team in rebounds with 8.

The varsity Lady Broncos lost their game also, but showed a lot of improvement in the process. The first loss to Childress in Clarendon had been by a 33-22 score, but this time in Childress the

maroon team came within one last-second shot of victory. The final score was 37-35. Junior Forward Linda Weatherston and Junior Post Connie Garman both had 10 points, and Senior Forward Dena Graan had 6 points in the contest.

The boys' varsity game was close and exciting also, and the Broncos showed marked improvement. Having lost the initial game with the Bobcats by 15 points

(52-37), the Broncos came within an eyelash of defeating the Childress team on their home court. Down 44-41 with 9 seconds to go, the Broncos got the ball downcourt to Junior Guard Richard Gaines, who hit a 22-foot shot at the buzzer to make the final score 44-43 in favor of the Bobcats.

The game had been tied 20-20 at halftime, but Childress ran up a 36-26 lead by the end of the third quarter. At that point the Bronco

full-court press began to click, and the visitors got back in the game but ran out of time at the end.

Three seniors led the way in the game. Forward Ray Crump had 9 points and 10 rebounds, Guard David Weatherston had 9 points, and Forward Kelly Hill had 6 points and 10 rebounds.

Texas roadsides may not be trimmed

Texas highway roadsides may not be trimmed as closely next year but a new system should trim a \$30 million annual mowing bill.

The vegetation management system being studied by the State Department of highways and public transportation (DHT), will still provide for motorists' safety, protect the road surface--and save money.

"The department spent \$30 million last year in mowing costs," DHT chief landscape architect Craig Steffens said, "but we still got some irate calls when we let our rights of way get a little shaggy."

He added that savings from that \$30 million will go to safeguard the state's multibillion investment in its highways.

Steffens said the goal of the vegetation management system is to develop the most cost effective, practical methods and concepts for managing roadside vegetation. "The discontinuance of mowing isn't our objective," he said, "However, the idea that a properly maintained highway needs to be mowed from right-of-way line to right-of-way line isn't necessarily correct."

The new system, to be initially instituted in one maintenance section in each of DHT's districts, will be studied through 1983 for a comparison of costs and labor, Steffens said.

With over a million acres of right of way along the state's 72,000 miles of highways, DHT has a lot of neighbors -- and most of them like to see the roadsides as well kept as their property.

Steffens said, "We do plan to continue mowing to the right-of-way line adjacent to cultivated, developed and urban areas. But along rangeland and untended property, we don't intend to mow except along the shoulder."

Snakes have an "egg" tooth which they use to hatch out of their shells. This tooth falls off shortly after hatching.

Regular meeting Board of Aldermen

The Board of Aldermen of the City of Clarendon met in regular session on December 7, 1982, in the Board Room, City Hall at 7:00 p.m.

Members present: Mayor Shirley Clifford, Aldermen J. G. McAnear, Lloyd McCord, Richard Bell, James Kuhn and Gene White.

Other present: City Secretary Donna Edwards, Billy Goodman, Todd Knorrp, Ann Hommel, Tex Naylor and Homer Hardin.

Minutes of the Nov. 23, 1982 meeting were read and approved.

Bills incurred by the City during the month of November 1982 were ordered paid.

Motion was made by Alderman Gene White, seconded by Alderman James Kuhn, for an ordinance approving the rate schedules to be charged by West Texas Utilities Company in the City of Clarendon, Texas, providing for an effective date for such rate schedules, and providing conditions under which such rate schedules may be changed, modified, amended or withdrawn.

Ordinance

Whereas, on September 13, 1982, West Texas Utilities Company filed with the City of Clarendon a request for an increase of approximately 9.38% in rates to be charged within the City (approximately \$20,404,166 per annum of the Company's system-wide retail basis); and

Whereas, the City, having suspended the effective date of such proposed rate increase from October 19, 1982, and having considered the same at a public hearing, is of the opinion and finds that an increase in rates should be approved.

Be It Ordained by the City Council of the City of Clarendon, Texas:

SECTION 1: That an increase in the rates, tariffs and charges of West Texas Utilities Company for electric power and energy sold within the City be approved in an amount such that the adjusted total system-wide retail operating revenues for the Company be increased \$10,198,154 per annum based on the adjusted test year ending June 30, 1982, (\$14,996,139 on a system-wide basis) which constitutes an increase of approximately 4.68%. Such Schedule of Rates and Tariffs, as approved in accordance herewith, are those under which said Company shall be authorized to render electric service and to collect charges from its customers for the

sale of electric power and energy within the corporate limits of the City until such time as said Rate Schedules may be changed, modified, amended or withdrawn, with the approval of the City Council.

SECTION 2: The attached Schedule of Rates and Tariffs, being the same Schedule of Rates and Tariffs filed with the Public Utility Commission of Texas, in its Docket No. 4716, are based upon the increase in total operating revenues prescribed herein and are hereby approved as filed. Such Schedule of Rates and Tariffs shall apply to all power and energy used by each customer as of the effective date of the rates fixed by the Public Utility Commission of Texas, but no earlier than January 7, 1983.

SECTION 3: That the action of the City Council of the City of Clarendon enacting this Ordinance constitutes, on the date of its final passage, a final determination of rates for West Texas Utilities Company within the City of Clarendon in accordance with Section 43 (e) of the Public Utility Regulatory Act.

SECTION 4: Nothing in this Ordinance contained shall be construed now or hereafter as limiting or modifying, in any manner, the right and power of the City under the law to regulate the rates and charges of West Texas Utilities Company.

SECTION 5: If for any reason any section, paragraph, subdivision, clause, phrase, word or provision of this Ordinance shall be held invalid or unconstitutional by final judgment of a court of competent jurisdiction, it shall not affect any other section, paragraph, subdivision, clause, phrase, word or provision of the Ordinance for it is the definite intent of this City that each of such be given full force and intent for its purpose.

SECTION 6: That all Ordinances, Resolutions or parts of Ordinances or Resolutions in conflict herewith are repealed to the extent of such conflict.

Passed and approved at a Regular Meeting of the Council of the City of Clarendon, Texas, this 7th day of December, 1982.

The above and foregoing Ordinance was read, passed and adopted at the meeting of the governing body of this City on the 7th day of December, 1982, by the following vote: all voted aye.

Hightower urges House to stop potential pay raise

Congressman Jack Hightower took to the House floor this week to urge his colleagues to clearly reject a potential congressional pay increase which could go into effect later this month. Hightower explained that when the current Continuing Resolution expires on December 17th, members could see an unexpected rise in their salaries of between \$2,400 and \$16,600 if Congress does not restore certain statutory restrictions previously holding pay at \$60,000 a year.

Congress had previously denied itself annual cost-of-living adjustments granted other federal employees under the law but the expiration of that legislation is the reason for the potential increase in pay. Depending on how certain legislative language is interpreted, expiration of the Resolution could result in a large, lump-sum increase or merely a 4 percent rise for 1982 only. Hightower has called for prompt action during the present lame-duck session of Congress and before Christmas adjournment to reaffirm the cap on pay and deny any pay raise for Senators and Congressmen.

"There are 11.6 million Americans out of work, the highest unemployment rate since the Great Depression," Hightower told the House. "So far this year, over 22,000 American businesses have failed...to choose a time in

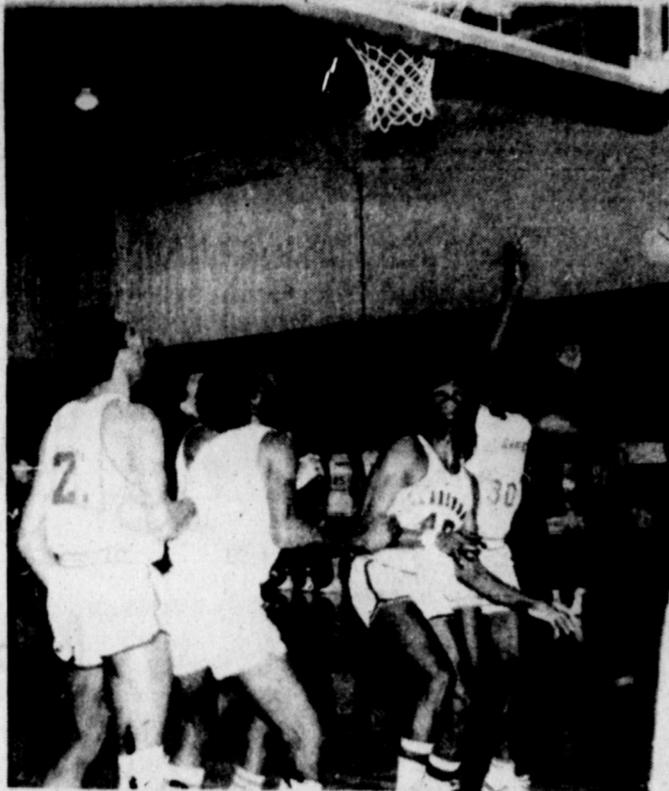

our country's history with statistics as appalling as these to allow ourselves a raise in pay is completely unconscionable, I do not understand it, nor do I condone it; and I know millions of Americans standing in unemployment lines and dipping into the last of their bank accounts will not understand it, nor will they condone it."

Hightower has been a consistent opponent of congressional pay raises and helped kill a 1981 effort to raise the House Outside Earnings Limit from its current \$9,100 to \$25,000. He also opposed the 1982 business tax deduction measure and sponsored a bill to repeal it. Hightower has opposed congressional pay hikes every time they have been proposed, and voted against pay and benefit proposals in 1977, 1978, 1979, 1980, 1981 and 1982.

FROZEN RASPBERRY DESSERT

2 cartons (6 ounces each) Yoplait Custard Style raspberry yogurt
2 cups thawed frozen whipped topping
1 package (10 ounces) frozen raspberries, partially thawed

Mix all ingredients. Pour into square pan, 9x9x2 inches. Freeze until firm, 3 to 4 hours. 12 servings.

CLARENDON COLLEGE basketball scores one for the Bulldogs Friday night, beating Frank Phillips 81-79.

Vocational Agriculture Education students earn while they learn

61,988 students in Vocational Agriculture Education earned a net profit of \$24,263,518.12 from their supervised occupational ex-

perience programs in the 1980-81 school year. This is an average of \$391.42 per student. These projects are usually livestock, poultry and

or crops. A record of expense and income is kept on each enterprise under the direction of the Vo Ag Instructor/Future Farmer of American (FFA) adviser.

Vo Ag and FFA is an elective course taught in 870 school districts in Texas. Students in Production Agriculture (I, II, III, IV) are required to carry on a successful Supervised Occupational Experience Program each year while enrolled in the course.

51,540 students during the 1981-82 school year earned a net profit of \$13,826,714.33 from their livestock, poultry and/or crop projects or a net profit of \$268.27 per student.

Students may be placed on a farm and/or ranch in lieu of carrying out a successful S.O.E.P. This farm and ranch placement teaches students the same skills as the S.O.E.P. while he/she earns money on an hourly rate. During the 1980-81 school year 339 students worked on a farm or ranch and earned \$156,727.49 or \$462.32 per student.

The Vo Ag program also offers students the opportunity to enroll in Cooperative Part-time Training. These students are Juniors and Seniors and work for 3 hours each day in an Agri-business work station and learn while they earn. 4,261 students

were in the Coop Program in 1980-81 and earned \$9,663,310.89 or \$2,267.85 per student.

5,848 vocational ag students carried out miscellaneous S.O.E.P. and earned \$616,766.01 or an average of \$105.46 per student.

1,610 vo ag teachers assisted students in carrying out successful S.O.E.P. programs in 1980-81.

TTI researcher says user fees needed to finance highways

COLLEGE STATION — Automobile owners should get used to the idea of higher fuel taxes and other fees to finance construction, repair and research on the nation's strained interstate highway system, says a transportation expert.

"Obviously, new sources of revenues — taxes and fees — will be needed to address the problems of new construction, proper rehabilitation of existing roads and to accommodate the exploding new growth in Texas," said Dr. C. V. Wootan, director of the Texas Transportation Institute, a research agency.

He said many transportation officials feel that money for building and repairing roads would come from user fees such as gasoline tax, license tag fees and earmarking sales taxes on new cars for highway purposes.

Bulova quality with quartz accuracy

BULOVA QUARTZ QUALITY

Now you can have it all: Bulova Quartz Quality...the watch that's dependable, modern, and affordable.

See our full selection of these handsome beautifully styled watches. Give the most welcome and practical gift: a fashionable Bulova Quartz watch.

And put yourself at the top of the gift list.

Branigan Jewelry

BULLDOG DRILL TEAM

Bulldog halftime dance team

Clarendon College has many creative thinkers and among them is Pat Allen who has decided that the Clarendon Bulldog basketball team needs to join the ranks

of the other teams in their conference and have a dance team entertain the crowds at half-time.

She organized seven girls into a dance team. Millie

Rogers (Alternate), Leane Price, Barbara Heppard (Captain), Delinda Shipp, Kathy Chaser, Sandra Selman and Jackie Gardner volunteered for this novel

team. This group of lovely girls worked up two stunning dance costumes, made them and also work on and create the dance routines seen at

the half-time of the Clarendon games.

Pat Allen has had some little experience as a high school cheerleader and she has sponsored the Bulldog cheerleaders until this year. The girls are very excited about this team and their enthusiasm show it.

Fitness Facts

by Dr. Richard Ryan, Consultant to the Nutrition Industry

An important recent nutritional discovery may prove effective against many heart diseases. It's called GTF which stands for Glucose Tolerance Factor Chromium.

Research has indicated that the GTF can help one better use one's blood sugar and that simply means more energy.

More importantly it may also reduce the risk of cardiovascular disease as we've learned that victims of heart attacks have a lower than average store of chromium in their systems.

In his informed opinion people with cardiovascular disease are not getting all the GTF they need.

Conversely, societies with high levels of GTF have been found to have fewer incidences of such common heart disease as arteriosclerosis.

An excellent source for this important mineral is Paradise Marketing, an Anaheim, CA company with distributors around the country that market the only Amplified GTF available.

IN AND AROUND HEDLEY

Hedley News

By DARLENE BALL

A.J. Rawl is home from the hospital. Louie Boque will get to come home soon from the hospital. Jonny Conaster is still in the Veterans hospital and progressing some what. L.D. Ball is in intensive care in the Veterans Hospital. Well! You see Santa's workshops all over Hedley. Ladies busying themselves for Santa, plus many Christmas decorations out, therefore people seem to be in the spirit of Christmas. The McPherson's went to Amarillo Sunday to enjoy a family Christmas party with brothers, sisters and children.

Miss Robin Kay Springer of Hedley was honored at a birthday party, given to her by her parents. Those who attended were: Christi Christi Helms, Michelle Clubb, Carrie and Heather

Shields, Dona Monroe, Josh and Matthew Tally, her brother, Ricky, Mr. and Mrs. Ross Springer, La Moss Springer of Canyon. Games and fun and the opening of her presents were enjoyable by all. Birthday cake and punch were served to guest. Shane Reiken, son of Mr. and Mrs. Don Reiken was home for the weekend. Shane and his wife, are going to Calif. with Mrs. Shane Reiken parents, James Dukes, to visit Shane's wife's great-grandmother. Jane Long has a new job, being room mother for Girls Town, at White Face. Mr. and Mrs. Raymond Hopper visited Sunday afternoon with Mrs. Cecil Lockhart in Memphis.

About a dozen states have recently passed laws to assist Vietnam veterans who fear long-term health damage from exposure to the herbicide Agent Orange. Thirty-three states and the District of Columbia offer care for elderly vets in state soldiers' homes.

Hedley boys played Sanmorwood in close game

The Hedley High School Boys played Sanmorwood in a close game Friday morning the 10th of December. Though the Owls played good ball they were defeated by the Sanmorwood Eagles 58-59. High scorers for the Owls were: Mike Glover 26, David Phelps 16, Brent Hall 9, Billy Mullins 6, Ricky Springer 2. Other members include Carl Cox, Thunder Denton, and Bobby Branum. The Hedley High School Girls also played in the Sanmorwood tournament. Friday, the Hedley Girls were matched with the Sanmorwood Girls and came out on top 54-45. High score for Hedley was Debbie Kennedy 21, Twannah Woodard 13, Stephanie Holland 8, Tonya Moore 6, Karen Theims 4, Debbie Clubb 2. Other members are Karen Helms and Kellie Branum.

On Saturday morning the Hedley girls were matched against the Shamrock girls. They were defeated by Shamrock 38-59. High scores were Twannah Woodard 16, Stephanie Holland 10, Tonya Moore 8, Debbie Kennedy 3, Debbie Clubb 1 and other members are Karen Helms and Kellie Branum. Later Saturday evening the Hedley girls were matched against McLean. Hedley defeated McLean 4 points in

an overtime 58-54. By winning this game the Hedley girls won 3rd place in the Sanmorwood Tournament. High score in this game was Twannah Woodard 30, Debbie Kennedy 13, Stephanie Holland 9, Tonya Moore 4,

Debbie Clubb 2. Other members are Karen Helms and Kellie Branum. Out of the 8 teams that participated in the Sanmorwood tournament the Hedley girls were awarded Sportsmanship.

"Davy's Star"

The Hedley Elementary School will be presenting "Davy's Star" on Monday, Dec. 20th at 7:30 in the school auditorium. The Christmas operetta will involve elementary students in grades K thru six.

Keith Watt

Amy Melissa Shields

Hedley Jr. High Players of the week

BY CLOVIS MCCARY

The Hedley boys Jr. High Player of the Week is William Keith Watt. Keith is 5'10" and in the eighth grade. Keith has been in Hedley all of his school years. I have coached him for four years. Keith has a real ability when it comes to running and handling a basketball. Keith leads our team and does a real good job. He has the ability to use either hand quite well. A good ball-handler is always dangerous because he can take the ball to the goal.

As his Coach, I would have to say it is a pleasure to have an eighth grader with the talents Keith has.

The Girls Jr. High Player of the Week is Amy Melissa Shields. Amy is 5'2" and in the 8th grade.

As a coach you can easily say Amy is a coach's dream. She plays anywhere you need a goo hand. If she ever objects to what you ask of her, you never know it.

I have coached Amy eight years and I have enjoyed every minute of it.

Amy is the daughter of Mack and Pat Shields and lives at Quail, where she went to school through the 5th grade. Soon after Quail School consolidated with Hedley, she and I came here to continue our endeavors. As her coach and friend I could never say enough good things about Amy.

NEWS

Talking To Your Teenagers About Alcohol

Few subjects generate as much concern—and sometimes conflict—between parents and teenagers as the subject of drinking beverage alcohol. Studies have shown that today's teenagers are likely to experiment with drinking and driving. Your reaction as a parent is extremely important. How should you handle it? What should you say?

All too often, parents and teenagers avoid talking about drinking and driving, yet open and frank discussion about the subject is vital in order to develop healthy and safe practices about alcoholic beverages—and to keep your child from contributing to the grim statistics that result from this dangerous combination.

Here are some things that have helped in talking with teenagers about drinking, according to the liquor industry's trade organization, the Distilled Spirits Council of the United States:

- Honestly explore your own behavior when drinking before you talk with your teenager.

- Be honest in expressing your feelings and in stating your own values and preferences. Encourage the same from your son or daughter.

- Be calm, firm and consistent. Remember that you're sharing ideas and information. Don't put your teenager on the witness stand or demand a confession.

"When it comes to teenage drinking and driving," says Drew Pearson of the Dallas Cowboys and Joe Theismann of the Washington Redskins, "there are no winners. Just teenagers in danger—and parents, worried and confused."

- Tell your teenager you want to hear what he has to say and to learn what he knows about drinking. Be a good listener, even when you may not agree.

- Keep to the point. No matter where the discussion leads, and no matter what kind of reaction you may get or feel, keep forcefully in mind that this discussion concerns only the question of drinking.

- Emphasize that you are concerned with the precociousness of your teenager's life. For a free booklet on this subject, write: "Straight Talk About Alcohol," Box 1197-P, Washington, DC 20013.

Wildlife Bill to help sports men

A bill to enhance the stability of wildlife populations and expand outdoor opportunities for sportsmen and others has been pre-filed with the Texas Legislature. The Texas Wildlife Conservation Act would give to the Texas Parks and Wildlife Department statewide authority for wildlife management and do away with locally specialized wildlife laws now in effect in 116 Texas counties.

The Wildlife Conservation Act will be introduced by Rep. Fred Agnich (R-Dallas). The bill will be considered in the 1983 legislative session. A committee, Texans for Wildlife Conservation, has been formed to promote the bill.

In 13 counties, locally specialized state law is in effect. These antiquated laws, first passed in 1925, are inflexible and do not provide for the needs of wildlife.

In 30 counties, Commissioners Courts have authority to veto wildlife regulations developed by the Texas Parks and Wildlife Dept., even though the Courts are not comprised of wildlife experts.

In 73 other counties, the TPWD has only partial authority to manage wildlife. A prime example of the ineffectiveness of county-by-county wildlife regulation is the Texas deer herd, which features large numbers of undersized animals due to overpopulation. Commissioners Courts have often vetoed Parks and Wildlife Dept. regulations that would provide for proper thinning of the deer herd.

Fragmented, county-by-county game laws have denied outdoor opportunities. For instance, Parks and Wildlife biologists have demonstrated that certain wildlife populations can support longer hunting seasons and more liberal bag limits than locally specialized laws and certain Commissioners Courts currently permit.

The campaign being waged by Texans for Wildlife Conservation is calling on sportsmen and others to contact their state Senator and Representative in Austin to voice support for the Texas Wildlife Conservation Act.

Contact Senator Bill Sarpalis, 402 Western St.,

Napoleon is supposed to have been terrified of shaving.

FASTER WAYS WITH MICROWAVES

Versatile chicken recipes are always a family favorite and, when prepared in a microwave oven, poultry is especially moist and tender.

Here's a recipe from a Whirlpool microwave oven cookbook for Coq Au Vin Bourgogne that is a real family pleaser and is also elegant enough to serve when company is coming. For a delightful finale to dinner you will also want to try this quick and easy to make recipe for Brandied Chocolate Sipper.

COQ AU VIN BOURGOGNE (Shown)

- 2 ounces salt pork, diced (1/2 cup)
- 1/2 pound small boiling onions, peeled
- 3 ounces fresh whole mushrooms (1 cup)
- 2 cloves garlic, minced
- 3 tablespoons all-purpose flour
- 1 cup red burgundy
- 1/2 cup chicken broth
- 1 tablespoon snipped parsley
- 1/4 teaspoon dried thyme, crushed
- 1 bay leaf
- 1 2 1/2- to 3-pound broiler-fryer, cut up
- 2 tablespoons butter or margarine, softened

In 3-quart casserole, cook salt pork, onions, mushrooms, and garlic at HIGH for 5 minutes, stirring twice. Blend in 1 tablespoon flour, 1/4 teaspoon salt, and 1/4 teaspoon pepper. Stir in burgundy, broth, parsley, thyme, and bay leaf. Add chicken, stirring to coat. Cook, covered, at MEDIUM HIGH for 25 minutes or till tender, rearranging once. Remove chicken and vegetables to platter; keep warm. Pour pan juices into

4-cup glass measure. Skim off excess fat. Add water if necessary to make 1 1/2 cups. Blend 2 tablespoons flour and butter. Using a whisk, stir into sauce. Cook at HIGH for 2 to 3 minutes or till thickened, stirring after each minute. Season. Spoon sauce over chicken. Makes 4 servings.

BRANDIED CHOCOLATE SIPPER

- 1/2 square (1/2 ounce) unsweetened chocolate, cut up
- 2 tablespoons sugar
- 1 teaspoon instant coffee powder
- Dash salt
- 1/2 cup water
- 1/2 cup light cream
- 1/2 cup milk
- 3 tablespoons brandy
- 1/4 cup frozen whipped dessert topping, thawed

In 4-cup glass measure or 1-quart casserole, combine chocolate, sugar, coffee powder, salt, and water. Cook at HIGH for 1 1/2 to 2 minutes, till chocolate melts and mixture is bubbly, stirring once. Gradually stir in cream and milk. Cook at HIGH for 1 to 1 1/2 minutes, just till heated, stirring every 30 seconds. Beat with rotary beater till smooth. Stir in brandy. Pour into mugs. Spoon whipped topping atop hot chocolate. Makes 2 servings.

MICRO TIP: Turn to your microwave oven when a recipe calls for cooked chicken. One pound takes only 12 minutes or less. Place 12 oz. of chicken in 2-quart casserole and add 1 T. water. Cook covered at HIGH for 6 to 8 minutes, turning chicken over after 1 minute. Cool and cube if desired.
