CITIZENS FAVOR RADIO HELP FOR LOCAL SHERIFF

Short wave radio equipment is being added to the law enforcement in a number of Panhandle counties at this time, a prominent citizen stated Wednesday.

Phone bills for the sheriff's office approximate \$30 a month, according to the records. Four short wave sets, one for each car, one each in the office and the jail would total about \$150, a patrolman informed the Leader.

Donley county would not be asked to help defray expenses of the central station in Amarillo, it was learned Tuesday.

When a crime is committed, the report goes directly to the central station in Amarillo. From there it would be relayed to all the peace officers within a radius of 150 miles.

BOOM TO START.

There appears to be a boom on the way. The first inkling comes through your dear old Uncle Sam himself. This season, visitors to the national parks will each have to dig up fifty cents to enter. That means that the western people who profited from the tourists, will have less tourist trade this summer. People are not going to the great expense to reach the parks, then be held up for fifty cents a head when they get there. Here's hoping that Jackass Ickes does not persuade old Jim Farley to raise the first-class postage rate to 4 cents.

FALLING SHORT.

The New York fair outfit is constantly sending us free space dope, tickets and promise of special favors on the grounds. What we are most interested in, is a round trip ticket, hotel accommodations and things like that. Anyway, we want pay for the advertising, and will probably go see the mountains in preference to New York.

FAMILY HISTORY.

The distasteful things in life are first ignored, then ridiculed, then disputed, and then finally accepted. That's the way the idea worked around to where kids had to take castor oil.

CAN'T JOIN UNION.

It will be recalled that Winnie Ruth Judd was sent up for life a few years ago in Arizona on a charge of having chopped up a nurse, boxing the remains and shipping the whole works to California. Her 'position' inside the walls is to dress the hair of the women folks of the officials. Now the union is after her, and she can't join a union because she is a convict, and if she doesn't dress hair for the bosses, she is in bad with the whole bunch. Winnie certainly is having the time of her life, serving for life.

YAZZIE'S COMMENT.

"I ain't never been approached by the special interests since I been in the state senate," yelled a stall fed guy in the presence of Haston Yazzie down at the state capitol. Yazzie's in the presence of Haston Yazzie down at the state capitol. Yazzie's only comment was: "I bet that guy would steal Christ off the cross and come back after the nails."

STARTING EARLY.

The right kind of training beginning in the highchair, will keep many a fellow out of the electric chair.

THE WAYS OF MAN.

It apparently is easier for a lot of men to 'make' love than it is for them to make a living.

EDUCATIONAL PROGRESS.

We are progressing alright. In former days, some wise guys went into the garden and ate worms. Now it is smart to stay in the house and eat the goldfish. In 1914, it took 105 minute's work for a man to eat an electric light bulb. Today he can do the same thing in 12 minutes, and the bulbs are said to be "better than ever before," is the reason.

The white of the milky way,
The song of the lark in the morning hour
The dove call at close of day;

The smell of the grass in the meadow,
The Glory of God on the throne,
The ripple of brooks in the mountain,
The love of Christ for his own;

The beauty of light at midnight,
In the star that illumines the sky,
The life of the world in the day time,

In sky and air and sea,

GARDEN CLUB HAS ENJOYABLE PROGRAM

Members of this club met with Mrs. C. D. McDowell May 8th. Thirteen members were present. The program was given by Mrs. Braswell, assisted by Mrs. Lee Bell in a very original performance "Garden Quiz" which was enjoyable and informative. Mrs. Ellis followed with a paper on Summer Bulbs. She told the club of dozens of bulbs waiting to be planted. Bulbs are almost sure to bloom as the flower is dormant in the bulb, that is true bulbs. Many tubers such as dahlias, are not true bulbs, yet are beautiful.

A delightful hour of informal garden talk was enjoyed and the guests were served individual shortcake with coffee after which they adjourned to meet May 22nd with Mrs. Joe Goldston.

Electric Lamp Brings Brighter Nights

Shades of the old coal oil lamp! That relic of a by-gone period in West Texas history has been replaced by a new electric lamp giving several hundred times as much light.

"With this new lamp," said Chas. Lowry, local manager of the West Texas Utilities Company, "you can thread a needle in the darkest corner in the average room. It is a 500-watt lamp specially designed and manufactured at the request of our lighting department and is expected to fill a long-felt need in many homes."

The lamp, he pointed out, provides light enough for several persons in a room to perform close-seeing tasks such as reading fine print, sewing, or playing bridge, and may do away with the necessity for two or three lamp cords strung across the floor.

The company's lighting advisors soon will begin demonstrations of the lamp in Clarendon homes.

Mrs. J. H. Stegar and son Harold of Amarillo visited her mother, Mrs. J. W. Sherrod Sunday and Monday.

Wallace Expands His Vault Business

Products Manufactured In Special Building Just Completed

A special fire proof building has just been completed by L. L. Wallace north of the Gulf service station, which he operates under lease. The building became necessary to take care of the increased expansion of the demand for Wallace burial vaults.

The business was established here by the elder Mr. J. H. Wallace in 1930. After his passing, the business was continued by his son, L. L. Wallace. All of the products offered for sale by the firm are manufactured right here in Clarendon.

Two salesmen are constantly meeting those in need of the services of the firm, and the products are supplied over fifteen counties. Practically every cemetery in the district contains vaults made by the Wallace firm.

This is the only factory of the kind in this section of the state. Construction of the vaults is definitely a science within itself, and only expert workmen are employed. The quality of the product and the business methods of the firm have contributed largely to the ever increasing expansion of the firm.

BOY MUST SUBMIT TO A SPANKING

MILWAUKEE, April 29.—Edward Pichler, 19, can save his father a fine in district court by submitting to a "good old-fashioned spanking."

Edward admitted he turned in a false alarm. His mother pleaded for leniency. She told the court there were six other children besides Edward.

Judge Harvey L. Neelen agreed that a fine would work a hardship on the parents and not punish the real offender. He gave Edward his choice of a fine or "a good old-fashioned spanking."

"I'll take the licking," Edward replied.

M. Powell is visiting friends in Vernon.

Texas Highway Department

Insufficient roadway excavation was blamed for the majority of restricted sight distances on State highways of Texas by Julian Montgomery, State Highway Engineer.

The State Highway Department, cooperating with the U. S. Bureau of Public Roads, has just finished a survey of potential danger spots on all State highways. This survey disclosed 2,357 important intersections where there is insufficient view of the interesting road, and 27,948 points at which there is inadequate view of the roadway ahead.

Of all the restrictions to sight, 6,923 were caused by trees, bushes, and weeds; 236 were caused by fences or roadside signs; 570 were caused by buildings; 160 were caused by roadside structures; 20,967 are due to insufficient roadway excavation. These excavations were regarded as adequate at the time of construction, according to Montgomery, but the higher speeds of present-day vehicles have turned them into danger points.

"While the exercise of caution in passing and driving at reasonable speeds will reduce the number of accidents at these points, it is evident that greatly increased expenditure of money for highway construction is necessary in order to eliminate permanently these hazards to the driving public," Montgomery stated.

Mr. and Mrs. Adkins Mace and family of Whittenton visited relatives and friends here and at Ash-tola Sunday.

Skeletons Of Three Indians Buried 300 Years Ago Found

QUINCY, Ill., April 29.—The skeletons of three Indian braves, judged by scientists to have been buried 300 years ago, were found by WPA work-

ers. The burial was similar to other Indian burials which have been uncovered in Quincy's parks which are located on bluffs overlooking the Mississippi river.

The bodies were flexed but were not inclosed in stone crypts. The bones were in an excellent state of preservation.

FORD DEALER IS OFFERING USED CAR BARGAINS

An unusual sales idea with holiday trimmings and appeal, known as "Ford Dealers' Pre-Summer Used Car Sale," is being conducted by Ford dealers throughout the country. The program extends over the last two weeks of May and is centered around the week-end jaunts that are so popular at this time of year.

Many car owners, however, according to Doss Palmer, local Ford dealer, will take a long-range view of the sale. Liberal trade-in allowances and easy terms at this time will enable them to acquire a better car which will add to their enjoyment of the entire summer.

Many Ford dealers are emphasizing the event by decorating business fronts and outdoor lots in keeping with the occasion. The holiday spirit is to be much in evidence, but there is a more serious side to the program in that driving safely is to be brought out forcefully at all times. A large percentage of the used cars offered for sale during this period will be backed by the R & G (Renewed and Guaranteed) guarantee which means the utmost in protection to the buyer.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

Perhaps you rang the door bell or called over the telephone at the home of some flower grower this week and received no response - well, they were giving first aid to broken and bruised limbs of the plant and shrubbery family. The hail had us gardeners feeling discouraged for a few days, but in most cases the recovery seems probable.

Several homes that are over run by thick clinging vines attracted my attention this week. The M. S. Parsons home, and those of Simmons Powell and Homer McElvany are as picturesquely vine clad as the castles of old. The Seldon Bagby Apartment walls are also covered with ivy.

Glances will not reveal the hiding places of the lovely clumps of columbine that are found in Mrs. McDowell's, Mrs. Fink's, Mrs. Joe Goldston's, and other yards. They are partly hidden among the shrubbery. However, the scarlet verbena gaily beckons you in Miss Lottie Lane's lawn. The numerous mock orange shrubs at the Prewitt home are a lovely mass of green and white, and their fragrance is quite noticeable.

Our flower growers are succeeding with roses. Gorgeous blooms are seen on the bushes at Frank Bourland's, Carroll Knopp's, and various homes. Do notice the fence over run with roses at the back of the Meredith Gentry home.

Go on a garden glimpse drive, your first hour off, and then you will say with the poet, "The garden is man's place to grow."

Mrs. M. C. Reid returned Monday from Ft. Worth where she visited her sister, Mrs. John Carter three weeks while taking medical treatment.

Garlic-Parsley an Aid in HIGH BLOOD PRESSURE

Medical reports say that Garlic-Parsley concentrate has a double action in reducing high blood pressure. First, it tends to relax tightened arteries. Second, it checks or inhibits decomposition of waste matter in the bowels, a contributory cause of high blood pressure. To get concentrated garlic and parsley in odorless, tasteless form, ask for ALLIMIN. These tablets, used at regular intervals, aid in reducing blood pressure and relieving headache and dizziness caused by excessively high readings. To learn what raises your blood pressure and for medical treatment consult your doctor. ALLIMIN is for sale by all druggists. Large box, 50c. Special economy size, \$1.00.

SHIRLEY TEMPLE IN TECHNICOLOR

In answer to thousands of requests from her fans Darryl F. Zanuck presents Shirley Temple in Technicolor in "The Little Princess," 20th Century-Fox's screen version of the famous classic, which opens at the Pastime Theatre at the Saturday night Prevue.

The most impressive cast ever assembled for a Shirley Temple production supports the dimpled star in bringing the immortal story to life on the screen, headed by Richard Greene and Anita Louise and including Ian Hunter, Cesar Romero, Arthur Treacher, Mary Nash, Sybil Jason, Miles Mander and Marcia Mae Jones.

"The Little Princess," which, according to advance reports, has been acclaimed not only Shirley's finest picture, but one of the truly great films of all time, was directed by Walter Lang from a screen play by Ethel Hill and Walter Ferris. Gene Markey was associate producer.

Set in one of the most colorful periods of English history, when Queen Victoria's reign was drawing to a close, the beloved Frances Hodgson Burnett story casts Shirley as what the dimpled star herself describes as a "backwards Cinderella."

When her devoted and wealthy father, an officer in the Grenadiers, goes off to fight in the Boer War, he leaves the happy child at Miss Minchin's Exclusive School For Girls. Later, when he is reported dead—a bankrupt—the cruel Miss Minchin takes away all of Shirley's pretty clothes and turns her into a pathetic little slavey.

Mr. and Mrs. Verna Lusk and Mr. and Mrs. G. W. Estlack enjoyed a fishing trip at Groesback, Sunday.

WILLIAM SPITZER RITES HELD TUES.

Resident of Donley County Twenty Seven Years, Died In Denver

Funeral services were conducted at the cemetery here by Rev. J. Perry King, pastor of the First Baptist church, with the Blackburn-Shaw funeral home of Amarillo in charge of arrangements. Mr. Spitzer died in a Denver hospital Thursday, following a second operation within a few days.

A service was held in Denver, Colorado Saturday. The body was accompanied to Texas by two sons, George and Floyd Spitzer, and placed beside his wife who passed on in October, 1933.

He was a native of Burnt Cabins, Penn., where he was born May 20, 1856. When about eight years of age, the family moved to Ohio, and two years later to Central City, Iowa where he grew to manhood. On August 30, 1883 he married Elizabeth Jane Davidson at Manson, Iowa. To this union four sons were born. They are Ray C. of Caldwell, Idaho; George, Dan and Floyd of Denver. He has two grandsons and one great grandson.

One brother survives, John Spitzer, and a sister, Mrs. Jessie Minehart, both of whom reside at Coggon, Iowa.

In 1888 the family moved to Denver and lived there until 1900 when Pt. Collins became the family home. Mr. Spitzer moved his family to Donley county in 1909 and resided here until 1936, at which time he returned to make his home in Denver.

While Mrs. Spitzer was yet living, the two traveled much and visited their children and relatives and friends in several states. Only a year ago Mr. Spitzer had the pleasure of a trip that took him back east to Virginia, Washington, D. C. and to his birthplace which he had not seen since a lad.

He had a wide acquaintance in Donley county and a large circle of friends who will remember the kindly spirit and good neighbor of other years who was ever ready to lend a helping hand to those in distress.

County Agent, H. M. Breedlove announced this week that he would hold a demonstration of the manufacture of dairy products on June the 9th beginning at 9 o'clock in the morning and lasting all day, the demonstration to be held in the vacant Rhodes Building next door to light office at Clarendon.

Breedlove stated that in the dairy products school demonstrations would be given on the manufacture of farm butter, cottage, processed cottage and Neufchatel cheeses. Breedlove urges that all clubs in the county be represented and that all farmers bring their wives and attend this demonstration. Mr. W. V. Maddox, Extension Specialist in Dairy Manufacturing of the A&M College of Extension Service of College Station, Texas will be the principal speaker and comment on the demonstrations.

MRS. W. J. PARSONS IS BURIED WED.

Came to Clarendon In 1901 Where She Resided For 25 Years

Funeral services for Mrs. Harriet Parsons were conducted at the First Christian church here at 2:30 p. m. Wednesday. Rev. R. C. Snodgrass, pastor of the First Christian church of Amarillo officiated.

Attending the casket were Messrs. Frank Johnson, Joe Holland, Roy Clappitt, Homer Mulkey, Bennett Kerbow, Joe Goldston.

Mrs. Parsons died yesterday morning at her home, 1012 Buchanan Street, Amarillo. She was the widow of the late W. J. Parsons of Donley County. She had lived in the Panhandle 38 years, and had made her home with a daughter, Mrs. M. Kretchmar, for 13 years.

Survivors other than the daughter in Amarillo include three daughters, Mrs. J. M. Jones and Mrs. Nell Stewart of Oklahoma City, and Mrs. L. A. Talley of Tyler; two sons, Charles A. Parsons of Tonkawa, Okla., and Claude Parsons of Oklahoma City; a brother, J. H. Hudson of Upton, Cal., six grandchildren and three great grandchildren.

Mrs. Parsons was among the earliest settlers of Parker county during the days of Indian raids. Her genial nature and sweet christian character made her a general favorite among her acquaintances, and few women ever had more real friends than she.

Friends today recall the years when Mr. and Mrs. W. J. Parsons resided in their large home a block east of the 'old school,' they maintained a hospitable home where friends found a royal welcome. Their loyalty to their church found expression in entertainment of the various organizations of the church in their home. That spirit never dimmed long after the setting sun of life cast lengthening shadows upon their pathways. Their lives have been an inspiration and a guiding light for others, and their good deeds will ever be remembered by their legion of friends who pay a tribute today in sweet memory of one of Clarendon's oldest pioneer settlers.

BUFFALO LAKE TO BE OPENED TO PUBLIC IN MAY

Largest Panhandle Water Body of 1,850 Acres Is Near Canyon

While the program is incomplete, many events already have been scheduled for the two days. On Saturday, May 27, the day preceding the formal opening of the lake for recreational activities, there will be a gigantic parade in Amarillo at 11 a. m. A banquet honoring visiting governors, celebrities, and officials of the federal government and Panhandle Water Authority will be held at the Amarillo Hotel at 12:30 p. m. Climaxing the pre-dedication activities will be the Governors' Ball in the recreational building at the lake at 8 p. m. This will be an invitation affair for the visiting governors and their staffs, government representatives, Panhandle Water Authority officials and visiting celebrities.

Following the official dedication on Sunday, May 28, the Plains Boat Club will hold a regatta in which more than a hundred speed boat drivers are expected to enter.

Officially known as the Tierra Blanca Water Conservation Project, Buffalo lake will be the largest body of water in the Texas Panhandle when filled. The lake, which is only two miles off U. S. Highway 60 at Umberger, will cover 1,850 surface acres when filled, and will have 18,200 acre feet of water extending 6.3 miles. The dam is 835 feet long and 53 feet high at the deepest part of the creek bed. The government now is purchasing approximately 7,600 acres around the lake to be developed in the project.

In addition to Buffalo lake, the Panhandle Water Conservation Authority, an organization created by Texas law to serve as a state agency, is sponsoring six similar water conservation projects in the Texas Panhandle and eastern New Mexico. Other projects in the Panhandle are located on Boggy Creek near Canadian, McClellan Creek near Pampa, Rita Blanca Creek near Dalhart, Tule Creek near Tulia, Wolf Creek near Perryton, and on Running Water draw near Clovis, N. M.

Work on the projects, designed for the threefold purpose of recreation, flood control, and water and wildlife conservation, was started under supervision of the Bureau of Agricultural Economics and was transferred to the Soil Conservation Service when the Department of Agriculture was reorganized last November.

Mrs. J. Perry King of Clarendon, Mrs. E. E. King of Ballinger are guests of their sister, Mrs. H. B. Fain of Amarillo in making a tour of the East and the New York fair. They left Monday.

RIDE and WALK

By Earl (Doc) Porter

My feet are getting weary,
My eyes are almost gone.
It's getting dark as pitch,
And still twelve miles from home.
I guess you wonder why I'm here,
There's none to blame but me.
I swiped the foreman's car
Just to see how it would be.

Well I found out I guess,
Why he's so awful rusty.
Such walks as this, my friend,
Makes anybody dusty.

Next time I go out,
Just for a pleasure ride,
I'll tell you one thing sure,
I'll lead Old Paint 'long side.
