Bulldogs To Open New Field House In Game With Garden City Tonite

The Clarendon College Bulldogs will play their first game in their new field house on the new college campus tonight with Garden City, Kansas as their opponent. Game time is 8 p.m.

The Bulldogs now own a 2-2 record so far in this young season and are showing great improvement with each game. New members of the team are showing faster development than anticipated and we believe we can put a highly competitive team on the court from now on through the season. Coach Lawrence Overcast stated.

The Bulldogs have defeated Midwestern Junior Varsity 81-79 and Concordia Junior College 84-36. They have been defeated by Temple Junior College 80-61 and McClendon County 78-77 in an overtime game.

Jackie Baker paces the Bulldog attack with a 20 point average. He was an all-tournament selection in the Hill County classic at Hillsboro, Texas last week end.

The Bulldogs wish to invite everyone to come out Thursday night (tonight) and see their new field house as well as have the opportunity to see the team in action.

LIONS URGE PICK UP OF FRUIT CAKES

Due to sickness, weather etc. the entire residential area was not covered in the Lions Fruit Cake Sale Tuesday night and the Lions are urging all those who wish to purchase those tasty, pre-sliced fruit cakes to pick them up at Alderson Chevrolet, George's Cleaners, Estlack Machinery, Foxworth-Galbraith Lumber Co., Donley County State Bank or Tunnell Pharmacy.

A majority already know the quality of Benson's Old Home Fruit Cake and will want one or more for Thanksgiving and Christmas. The price is only \$3.50 for a 3 pound cake. Money from the cakes goes into the Lions Crippled Children Fund so you can enjoy good eating and be helping a good cause at the same time.

Do You Care About Clarendon

For years Clarendon has waited and hoped for, yes even dreamed of an opportunity such as we now have. It has been said, "MEN DO LESS THAN THEY OUGHT UNLESS THEY DO ALL THEY CAN". The Clarendon Chamber of Commerce now makes this appeal to all who want to be part of the progress that will lead us to successful attainment of all those dreams.

A strong working Chamber of Commerce can accomplish much for our town if everybody will help support its efforts. A new membership structure has been created along with new dues. Which, as all of you know, must be, in order to operate at peak performance.

When you are contacted as a Clarendon businessman or as a good citizen of our town, feel that it is an honor to be a member of the Chamber of Commerce because together we can make our town grow and attract new people, industry, business and increase the income of present business.

We hope Clarendon grows and as Clarendon grows so will the Chamber of Commerce grow. We hope to the point that it will require the service of a full time man to take care of the many jobs which need to be done but are neglected because there is neither man power or money to take care of them.

BAPTIST YOUTH RALLY AT HEDLEY SATURDAY

CHS Basketball Gets Season Underway Tuesday Night

Coach Carl Irbeck reported both boys and girls made a good showing in their first basketball games of the season played at Hedley Tuesday night.

Clarendon boys took their game by a score of 47-34. Clarendon led in scoring throughout the game and at the close of the first quarter stood 13-1. The difference was stretched to 26-11 by halftime and the third period ended with a 34-24 tally.

Charles Louis paced the Broncos with 12 points, followed by Monroe with 10, Wayne Carter 9, Bennie Reese 7, and Steve Adams 6. Hedley was paced by Leon Ward with 24 points.

Clarendon girls won their game 59-15. In the first period of play the score stood at 19-3 and by halftime was 30-8. By the fourth quarter Clarendon led by a considerable number of points—42-13.

C. LEWIS ATTENDS JUSTICE OF PEACE MEET

NATIONAL FARM-CITY WEEK ANNOUNCED

President Johnson has designated the week of November 22-28 as 1968 National Farm-City Week, according to Monty Sowers, Work Unit Consultant with the Soil Conservation Service at Clarendon.

"Farm-City Week this year focuses attention on the quality of our resources — our environment," Sowers said. "While resources are of special concern to conservation districts, these elements of our natural environment are of critical importance to all people whether they live in the city or the country."

Bronchos Win Game; Lose Toss Of Coin

By IRVIN MEARS

The Clarendon Broncos pushed the McLean Tigers all over the field Friday night as they won their ninth game of the season while just losing one. The Clarendon win, coupled with the Wheeler win over Claude tossed District 2-A into a three-way tie for the second time in three years between Clarendon, McLean, and Wheeler. Representatives of each of the schools met at McLean Saturday morning to decide who would play Gruber in Bi-District. The Wheeler Mustangs, who upset the Broncos last week won the flip.

The Broncos completely dominated the game with 264 total yards and 15 first downs. McLean could only manage 155 yards and 10 first downs against a tenacious Broncho defense.

The first quarter was scoreless as neither team managed any offense, but in the second quarter Steve Land managed to hit paydirt on a 1 yard run with 6:49 left in the half. Phillip Longan kicked the extra point.

Land again found paydirt in the third quarter on a 1 yard run with 6:19 left in the quarter. Longan again kicked the extra point.

McLean got on the score board with 2:19 left as Joel McCarty hit end David Brown for a 12 yard TD pass. McCarty ran the extra point as Clarendon led 14-8.

Clarendon again scored in the fourth quarter as Charles Louis ran 4 yards with 8:00 left in the game. Longan's kick was good as the score stood 20-8 in favor of the Broncos.

Land led all rushers with 139 yards on 38 carries for a 3.7 average.

Even though the Broncos didn't win the flip they have nothing to be ashamed of. The entire town of Clarendon should be commended for the fine support they showed for our fine team throughout the year. All we can say is good luck in 1969.

ARCHIE SMITH STARS AT McMURRY COLLEGE

Archie Smith, a 6 ft. 1 in., 195 lb. sophomore fullback at McMurry College, Abilene played an outstanding game against Stephen F. Austin College Saturday with McMurry taking the win 30-7.

Smith, an outstanding athlete in the Clarendon schools, carried the ball 15 times for 114 yards and scored on a run of 76 yards. This is the longest run from the line of scrimmage by a McMurry back in six years.

Smith broke into the starting line up four games ago when the starting back received an injury in the Texas A & I game. In the 5 Lone Star Conference games Smith has gained 263 yards rushing averaging 4.9 per carry and is McMurry's leading rusher in conference play. He is also a top receiver.

McMurry is enjoying its finest season since 1959 with 7 wins and 2 losses. In Lone Star Conference play McMurry stands 4 wins and 2 losses. Their final game will be Saturday night of this week against Howard Payne of Brownwood. Smith will be in the starting lineup.

NEWS FROM CITY HALL

By Mayor R. L. Gilkey

Vote this Saturday on the airport referendum. It is not a bond issue, and it will not cause an increase in taxes, it is simply a vote of instruction from the people to the aldermen. It will cost us about \$33,000.00 to take advantage of the \$64,600.00 state and federal grants. Other nearby cities, as Floydada, Farwell and Levelland have completed their airports with this aid.

Canadian, Pampa, Shamrock and Miami have also received grants to build or improve their airports. What we do depends upon your vote.

An airport will not benefit any single person or group, but will help our present businesses, and future businesses and would be required by any future industry that we might acquire.

Travel has become important to all of America, not just industry alone. Travel by train or bus is becoming increasingly difficult if not impossible. Today we travel by private car or by air. If we want people to come here we must provide the means. We have the Highways, we need the Airport. We must provide this service to others who come to our city whatever their reason.

An airport is Progress. Vote "FOR" the airport referendum.

Bronchos Set Records For '68

By IRVIN MEARS

The 1968 Clarendon Broncos posted many fine records. The most outstanding one was that they posted an excellent 9-1 season record for the best record in many seasons. The final statistics and leaders are as follows:

2341 yards gained rushing and 849 yards passing for 3190 total yards; Steve Land led rushers with 1003 yards gained on 159 carries for a 6.3 average.

Don Mooring led passers with 43 completions on 77 attempts for 788 yards and 2 interceptions;

Jim Moore led receivers with 24 receptions for 437 yards;

The Broncos fumbled 16 times and recovered 20 fumbles while they intercepted 12 passes; The Broncos picked up 136 first downs while being penalized 767 yards.

Steve Land scored 12 touchdowns for 72 points;

The Broncos scored 127 points and limited their opponents to 41.

The Broncos and their coaches are to be commended for their fine play this year and these fine performances.

Herb Shields Opens Conoco Station

Herbert Shields, who has been a local milk distributor here for several years, has disposed of his milk interests and has opened the Conoco Station located four blocks west of main street on highway 287.

The station is owned by Mrs. Fred Buntin and recently had a new high ceiling canopy extended over the pump section.

We will feature all types of Conoco Products and all the usual services connected with this type of business, Shields stated.

THANKSGIVING SERVICE SUNDAY, NOVEMBER 24

A Community Thanksgiving service will be held Sunday, November 24, at 7:30 p.m. in the First Baptist Church. Rev. Owin McGarity, pastor of the First Presbyterian Church will bring the message for the evening. Other ministers will participate in the service.

Everyone is invited to attend this service.

Leader Local Rate \$4.00

Voters of the City of Clarendon will cast their ballot Saturday to assist the City Council in making a decision regarding the construction of a municipal airport for the City.

The Airport Referendum is merely a method of finding out the opinion of the people and is not a bond issue nature. If the people want and think we need a new airport then we will proceed, Mayor Gilkey stated.

It is up to the voter to make this decision Saturday in the you cast your ballot whether you attend the Clarendon airport referendum or not.

CLARENDON, TEXAS

AFL-CIO, Texas Manufacturers Association and Texas Trial Lawyers Association unveiled details of agreement on 'workmen's compensation administrative reform bill' which will go to the Legislature in January.

Proposal would raise the maximum weekly benefits for on-the-job injuries from \$35 to \$49 during time lost from work. This will cost employers 18 per cent more in insurance rates - or about \$36 million in additional annual premiums.

While employers apparently are satisfied with that, state and local government employees would also be brought under terms of the bill, and that will mean a cost to taxpayers estimated at two to three per cent of payrolls. Opposition is expected, particularly from city and county officials.

Highlights of the bill in addition to the benefit hike and coverage to all governmental workers include:

Raising total and permanent disability recovery ceiling from \$14,035 to \$19,649 and death coverage from \$12,600 to \$17,640.

Provisions for pre-hearing conferences by Industrial Accident Board examiners, to save time and money.

Encouragement of employers to continue paying part of injured employees' wages until workmen's compensation benefits begin, with reimbursement guaranteed for 10 weeks' maximum from insurance carriers.

Granting Industrial Accident Board authority to require medical evidence.

Establishment of uniform attorney fees not to exceed 25 per cent of recovery regardless of whether court appearance is necessary. (Lawyers are now limited to 15 per cent for cases settled before the Board and 30 per cent if they go to court. Board and court will set fees.) Sponsors term the bill "fair to all."

COURT SPEAKS - Reversing intermediate court, State Supreme Court held that an oil well servicing company could not be sued for damages in an illegal slant-well case even though it knew the well was out of line.

In a pair of cases, the High Court overruled lower courts and upheld State Savings and Loan Commissioner James Gerst. Commissioner had refused application of Mission Savings and Loan Association for a North-west San Antonio site, granted Richardson S&LA application and denied Guardian S&LA bid.

Some discount houses are starting to stay open both Saturdays and Sundays, in violation of blue laws which are being tested in appellate courts after a Midland district judge

FOR SELFLESS AND OUTSTANDING SERVICE - Frank Pace Jr., president of the Association of the United States Army, and former secretary of the Army, presents the George Catlett Marshall Medal to General Maxwell D. ruled them unconstitutional.

Supreme Court refused to direct Tarrant County judge to change his verdict that a Fort Worth man was insane before and after he was charged with rape of a young mother and drowning of her two children.

Court of Criminal Appeals called for a new trial in a Harrison County murder case because the state impeached its own witness.

ATTORNEY GENERAL RULES - Deaf and blind students are exempt from all fees at state colleges except property security charges and deposits, lodging, board or clothing, Atty. Gen. Crawford C. Martin said in a new opinion.

In other recent opinions, Martin concluded that:

A justice of peace has authority and duty to require a court reporter to prepare examining trial proceedings for proper court.

An administrative judge's term expires with his regular term of office, but he can be appointed for four more years after retirement.

School district personal bonding requirements are satisfied when bond is signed by a bank officer or other authorized agent, and bond so given fulfills requirements of security for funds deposited from sale of school bonds.

MAJOR COLLEGE DECISIONS DUE - Coordinating Board, College and University System will

make showdown decisions on dental, medical school and North Texas higher education needs here on December 3.

In a day-long public hearing November 11, Board heard rival bids of San Antonio and Dallas as site for the new dental school. Houston, Austin, Lubbock, Amarillo and Temple all want the next medical school. Board's staff recommendation to bring campuses at Arlington and Denton under a single "urban university" governing board received strong criticism.

FACULTY AID EXPLORED - Whatever the Coordinating Board decides, Texas obviously will need more teachers for institutions of higher education. To get those, and to keep the ones now teaching, a senate committee headed by Sen. D. Roy Harrington of Port Arthur will propose state payment of moving costs for new faculty members; group disability income insurance; free tuition for faculty members' families and free parking space.

If just a few of the proposed changes in education come about, you can see new taxes will come about, and not the least of the tax-provoking proposals will be a public school teacher pay raise of \$1,800 over the next two years.

MONEY - SAVING IDEAS LAID OUT - Senate Committee on Economy in Government, chaired by Rep. Bill Patman of Ganado, is looking at ways to save taxpayer dollars. Texas Research League, a non-profit state helper, already has given the committee a few suggestions: (1) Centralize all janitorial, schools,

mail and messenger, office supply and duplicating services, instead of allowing each agency to budget them separately;

(2) "Look at" state employee travel costs, and allow air travel when it would be cheaper than auto transportation;

(3) Convert McKnight State Tuberculosis Hospital near San Angelo into a school for the mentally retarded, and allow other TB hospitals to take indigents for illnesses other than tuberculosis;

(4) Save \$4 million a year in prison and welfare costs by providing a more efficient system of parole;

(5) Classify more "realistically" highway and road construction;

(6) Save close to \$93,000 a year by abolishing the Board of County and District Road Indebtedness and letting the treasury take care of that function;

(7) Develop a more meaningful information network than the present proliferation of electronic data processing equipment. SCHOOL FUNDS RECEIVED - Texas Education Agency has been allotted \$10 million in federal funds for elementary and secondary schools and programs for handicapped. More than \$8.4 million will go to finance supplemental education facilities statewide. Grant of \$1.2 million will help strengthen state administration and identify needs. About \$1.2 million will go to programs for handicapped. Smaller grant of \$29,405 will help strengthen arts and humanities programs in public

WATER USE REPORT READY - Water users along the Rio Grande between Falcon and Amistad reservoirs can now examine the water use report and photographs of the area at county clerks offices in Cameron, Hidalgo, Starr, Zapata, Webb, Maverick, Kinney and Val Verde counties.

Texas Water Rights Commission has completed its study of this area in preparation for adjudication of water rights. Hearings will begin next January after notices to all water users and publication in newspapers of Zapata, Jim Hogg, Webb, Maverick, Kinney, Edwards and Val Verde counties.

Commission, in first test of a new law, will then enter determination of rights which will be appealed automatically to district court. Report shows all types of water uses by farms, industries and cities.

SHORT SNOOKS

Texas Liquor Control Board will hold a public hearing here November 25 on its proposed new rules and regulations for private clubs, one of which would require permanent and recorded memberships.

Jim D. Vollers of Beaumont will succeed Leon Douglas as the state's attorney in Court of Criminal Appeals when Douglas moves up to judgeship January 1.

Undesirable predatory walking catfish will be the subject of a public hearing in Parks and Wildlife Department December 2.

American Party, which backed George Wallace for president, is opening permanent state headquarters in San Antonio.

Hospital construction programs in 42 Texas towns will get a shot in the arm under the \$15.1 million in Hill-Burton health facilities construction funds approved by the State Health Board.

State's General Revenue fund was \$86.6 million in the red as of October 31, but State Treasurer Jesse James says that doesn't mean the government was broke, because on the same day, there was \$456 million in the treasury.

Gov.-elect Preston Smith said he's asked the Texas Research League to do a detailed analysis of the organizational set-up of the governor's office to see if it can be made more modern and more responsive to needs of the state.

SEAWORTHY METAL

A modern ocean liner uses more than 100,000 pounds of nickel in corrosion - resistant equipment made from nickel alloys and in rechargeable nickel-cadmium batteries for emergency power.

Few Americans stop to realize that the USDA administers conservation programs covering nearly 81 per cent of this country's land... all the cropland, the grassland pasture and range, and the National Forests. - Secretary of Agriculture Orville L. Freeman.

Miss Karilyn Noble Weds Virgil Kidwell in Home Ceremony

Miss Karilyn Jean Noble, daughter of Mr. and Mrs. Gerald Noble of Clarendon, Texas, became the bride of Virgil Kidwell, son of Mr. and Mrs. C. L. Kidwell of Wheeler, Texas, in a ceremony Saturday evening, November 16, in the home of the bride's parents. Rev. W. R. Lawrence, pastor of the First Baptist Church, officiated at the double ring ceremony.

Appropriate wedding selections were presented by recording. Vows were exchanged against a background of candelabra and greenery with blue carnations.

The bride, presented in marriage by her father, wore a street length dress of white lace and crepe fashioned along empire lines. The lace bodice was designed with a rounded neckline and elbow length sleeves. The controlled skirt featured a lace panel to the back. Her shoulder length veil of illusion was attached to a pearl of matching lace and seed pearls and she carried a bouquet of carnations showered with streamers. Her only jewelry was a pearl necklace.

Attending the bride was her sister, Mrs. Gary Grimes of Amarillo. She wore a beige knit sheath dress accented by beige accessories and a corsage of blue carnations.

Attending the groom was his brother-in-law, D. L. Rector of Mobeetie.

Following the ceremony, the couple was honored at a reception. The serving table was laid with a white linen cloth and a floral arrangement of blue and white carnations. Appointments were crystal and silver. Misses Donna Riley and Aibeta Tackitt of Amarillo presided.

Mrs. Kidwell is a graduate of Clarendon High School and Clarendon College. She is presently employed at Data Processing in Amarillo. Mr. Kidwell is a graduate of Wheeler High School and Clarendon College and also attended West Texas State University. He is employed by the Texas Highway Department in Amarillo where the couple will make their home.

E. M. Glass of Giles attended the National Singing Convention in Plainview Sunday.

RECORDS NEEDED AT RETARDED SCHOOL

The Educable Mentally Retarded School directed by Mrs. Carl Nunn at the United Methodist Church is in need of Christmas records. The "Walt Disney" type is especially desired. Anyone having some of these records which they are not using and who would like to share them with these pupils may leave them at the basement of the church with Mrs. Nunn or one of her helpers.

Anyone wishing to give of their extra time by helping in the school may contact Mrs. Bright Newhouse. The work offers a rewarding experience and extra hands are needed at times. This school is provided for the mentally retarded and slow students.

Mrs. Carl Barker spent last week visiting her daughters at Samnorwood and McLean.

AUSTIN — General election day was a rosy one for statewide Democratic contenders.

Not only did Texas endorse liberal presidential candidate Hubert Humphrey, but also all statewide Democratic standards bearers. No incumbent congressmen lost their jobs and the partisan lineup in the state legislature remained just the way it is.

Preston Smith of Lubbock won the gubernatorial race with about 57 per cent of the votes over his opponent and first-time candidate GOPer Paul Eggers of Wichita Falls.

Ben Barnes, 30, of DeLeon will become the youngest lieutenant governor in history by virtue of his overwhelming triumph over Republican Doug DeCluitt of Waco. Barnes was the top statewide vote-getter on the ballot. All incumbent statewide officials seeking re-election won handily.

In congressional races, three Republicans seeking new terms had no great trouble, but none of their colleagues seeking to unseat incumbent Democrats were successful. Congressional lineup remains 20 Democrats to three Republicans.

Eight Republican state House members were elected — four incumbents, four newcomers. Three incumbent GOPers were defeated. Two GOP state senators were reelected. Lineup remains 142 Democrats to eight Republicans in the House, 29 Democrats to two GOPers in the State.

Boasting that no other state can compare with Texas "regarding its support of, loyalty to or victory for the Democratic party," former State Democratic Committee Chairman Will D. Davis observed:

Texas is the most populous state to have a Democratic governor and only one of the 10 largest to have solid statewide Democratic administration.

Texas was the only one in the southern and southwestern region to give Humphrey plurality; and only Texas, Washington and Hawaii west of the Mississippi voted for the Democratic presidential nominee.

MOST AMENDMENTS DEFEATED — Voters showed they are in an economy frame of mind in their decisions on 14 proposed state constitutional amendments.

They voted November 5 to cut out the state property tax, but they refused to go along with raising the state's public welfare ceiling from \$60 million to \$75 million a year or to increase legislators salaries from \$4,800 to \$8,400 annually.

Approved were changes in state employees' pension system, university fund investment liberalization, removal of the \$504 a year ceiling on contributions to teacher pensions, wiping out the property tax and clarification of a legislator's eligibility to run for other office by virtue of the termination date of his elective term.

Texas turned thumbs down on tax exemptions for warehouse-stored property, El Paso local governmental consolidations, Dallas road bonds, tax aid for Texarkana tobacco merchants, state contract changes, tax benefits for anti-pollution equipment purchasers and industrial bond issues.

NEW JOBS ANNOUNCED — Gov.-elect Preston Smith announced as his first staff selection James P. Oliver, formerly of Caldwell, to serve as executive budget director after the new administration takes over in January. Oliver currently serves as assistant director of the Legislative Budget Board.

Walter N. Corrigan of San Antonio is new chairman of Texas Research League. C. I. Wall of Amarillo is vice-chairman, and Grogan Lord of Georgetown was renamed secretary-treasurer.

C. C. Miller of Dallas is chairman of University Interscholastic League Legislative Council and B. E. McCollum of Port Neches is vice-chairman.

Glenn Biggs, formerly of Abilene and one-time executive assistant to House Speaker Barnes, has been appointed president of National Western Life Insurance

Company.
HILL-BURTON FUND APPROVED — Forty-two applicants received allocations of \$15,198,504 in federal Hill-Burton hospital construction-modernization funds through State Board of Health.

Biggest allocations of \$1 million each went to hospitals in Houston, San Antonio, Dallas, Bonham, Irving and Fort Worth. Memorial Hospital of Uvalde received two grants totalling \$865,000. Atlanta City Hospital received \$900,000; Brownfield's Terry Hospital District \$650,000; Hotel Dieu at El Paso \$855,500; Johnson City Hospital \$390,000; Community Hospital of Brazosport in Freeport \$242,090; Ballinger Memorial Hospital \$300,000; Highland General of Pampa \$321,119; St. Joseph's of El Paso \$394,313; Seton of Austin \$375,000; Denison Memorial \$210,000; Newton County Memorial \$320,350; and Mornside Manor (home for aged), San Antonio \$700,000.

Smaller amounts went to facilities in Waco, Lone Star, Jacksonville, Floresville, Hempstead, El Paso, Robert Lee, Coleman, Sterling City, Midland, Greenville, Corpus Christi, Wichita Falls, Dallas, Houston and Fort Worth.

Hill-Burton funds pay up to half of the cost of construction-modernization work.

ATTACK REDIRECTED — Texas Animal Health Commission has changed its attack on hog cholera in Texas by de-emphasizing the cure which has turned out to be a cause of the disease. Commission has been depending on the modified live-virus vaccine to combat the disease. But statistics show that, in 1967, 31 per cent of the hog cholera cases were traced back to the use of the MLV.

In 60 per cent of those cases, the vaccine was improperly used. But in the other 40 per cent, it was not. Texas statistics showed that 33 per cent of the cases were caused by use of the MLV.

So, the Commission approved a new requirement that all hogs leaving a market for destinations other than slaughter be inoculated with inactive serum. Then, if the owner wants to use the live virus, he may.

amended its regulation that all hogs entering the state must have been treated with the modified live-virus vaccine. New requirement will be the use of the inactive serum alone.

BLUE LAW SUIT — Texas Supreme Court has heard the first arguments for and against Penal Code Article 286a, which prohibits the sale of certain listed items—covering just about everything—on consecutive Saturdays and Sundays.

Suit is the State vs. Gibson's Discount Center of Midland, which—the State contends—tried to get around the law by staying open the legal six days then "leasing" its facilities and stocks to another company—created and owned by Gibson's—for the seventh day.

At the local level, a district court judge upheld Gibson's move by saying that the "Blue Law" is unconstitutional, because the items listed in the statute are vague and indefinite. In its arguments before the court, Gibson's concentrated on allegations that the state's appeal — directly to the Supreme Court from the district court — was improper and should be refused.

High Court will rule on the jurisdictional question before it gets into the substance of the case.

reading. It does our heart good to know that the wonderful work so ably begun by Mr. Farley at the Ranch is being carried forward with the same mark of greatness by those who are following after. The same goals are being achieved. And because of the good foundation even greater heights can be reached in the future. We should all remember this great institution with our gifts and in our prayers. . . .

A little bit of kindness shown to others Along Life's Way, Will make both their life and our own Grow happier with each day . . .

We love the Lord with all our heart— With all our mind and soul. We love our family and our friends, They make our life's play whole.

We were a great admirer of the late Cal Farley. . . . One could not talk with him for a moment without feeling his deep dedication to his life's work, that of boys. The following are some rules which he recommended: "Teach the boy to obey. This is the toughest job and the most important. It should begin the minute after he opens his eyes.

"Give him responsibility. Make him feel a part of the working team at home, and later he will become part of the team of whatever sphere of life he enters.

"Be specific with him. Let him know where you stand and therefore where he stands. Then his character is not confused by doubt, uncertainty or conflict.

"Live with him. Help him enjoy his youth by showing him how his boyhood years can be used to equip him for manhood.

"Love him. Let him know it. Show him that love cannot be measured by what you get or what you give but in how you conduct yourself. It is kind of a mutual respect."

The above is taken from a late issue of the Boys Ranch paper and we can all do well to keep a copy on our desk for future

Wanted: Plant Cover -- Dead or Alive

By B. D. REDING
Soil Conservation Service

For the protection of cultivated land against erosion by wind or water, nothing can take the place of continuous cover of dead or living plants, or both.

This is true regardless of location, rainfall, soil or the kind of farming or ranching enterprise.

In this area, however, the need for plant cover grows more important as conditions tend toward the dry side. At the same time getting good cover becomes a tougher job.

The job is two sided: First, a crop must be grown that will

yield good amounts of residue; second, the residues must be managed in a way that will protect the soil until a new crop covers it.

Experience and research work have taught us important lessons. We know that burning crop residues is one of the worst mistakes that can be made. Too much tillage wears out the residues and should be held to a minimum.

Leaving stubble and crop residues on the surface have proved especially valuable in the grain summer-fallow areas 12 to 15 months pass between harvest and planting. One way of leaving such stubble and keeping tillage to a minimum is by using equipment with sweeps or blades 32 inches wide or wider.

This practice is stubble mulching and is a year-round system. In it, all tillage, planting, cultivating, and harvesting is done in such a way as to keep crop residues on the surface.

When sorghums are grown separately or in rotation with wheat, the principles are the same. They involve the conservation or residues during the critical period to protect against wind, runoff, and splash erosion. The same practices help develop a soil condition that will take in moisture

faster and keep it longer.

In growing sorghums, if there is a high yield of stalks, as on irrigated land, it is safe to shred them coarsely and tuck them lightly into the soil with a disk. On dry lands, however, where yields are not so high, it is best to leave a taller stubble during winter months. For sorghums in rows 24 to 42 inches apart, the usual minimum recommended height is 15 to 18 inches. With drilled sorghums, a height of 10-12 inches is usually adequate. Stalks and straw put organic matter in the soil, something sorely needed in all cultivated land.

The wise use of crop residues takes top billing in any plan of operations in the Great Plains area.

Conservation is everyone's job. Contact the Soil Conservation Service in Clarendon to see how you can help.

COTTON CLASS NEWS

Rain and light showers halted the cotton harvest in the area the latter part of last week. Quality and character of cotton is good but effects of the rain have not been determined.

Percentage of white cotton classed the past week dropped sharply as more strippers began operation. Predominant grade was light spotted at 60 per cent. Staple lengths varied from 15/16 at 8 per cent to one inch at 34 per cent. Mike readings remained good with 77 per cent in the 3.5 to 4.9 range.

Average price per pound for mike readings of 3.5 to 4.9 were middling 21/32 at 21.59 cents per pound. The 15/16 brought 19.53 cents per pound. Demands were light. Average price for cottonseed at gin yards was \$49.00 per ton.

ATTEND NATIONAL SINGING CONVENTION

Mr. and Mrs. Doyce Graham attended the National Singing Convention in Plainview Sunday. This was the 32nd Annual Session of the National Convention of Gospel Singers and was held in Hale County Agriculture Center Saturday and with a large crowd in attendance. This is usually held in the Deep South and was the first time for this area to host the event.

ROOT STOCKS IMPORTANT TO PEACH TREES

Root knot nematodes are becoming an increasing problem to peach growers in Texas, says Jerral D. Johnson, Extension plant pathologist at Texas A&M University.

The root knot nematodes cause large swelling on the roots, and the plants appear stunted. The trees will also have a chlorotic appearance and will usually defoliate prematurely, said Johnson.

In recent greenhouse and field trials in Texas, two peach root stocks have proven resistant to most species of root knot found in the state. It is suggested that homeowners as well as commercial fruit growers in the state obtain trees that have been budded on either Nemaguard or Okinawa rootstock, added the pathologist.

Several commercial nurseries have indicated they will have most new varieties budded on these rootstocks by this planting season. Persons interested in planting peaches this year should contact their nurseryman and make sure the desired varieties will be available at planting time, cautioned Johnson.

Pam Crawford spent the week end in Dallas where she visited with Beth O'Nan.

Don't throw pumpkin seeds away. Try them roasted or toasted and salted.

Restaurant Ramblings

By Jake Lamberth

In last week's column six of the basic methods of cooking meat were explained.

The seventh is to stew. The meat is cut into uniform pieces, cubes of about two inches, to expose as much surface area to the liquid as possible. The liquid could be water or stock.

The eighth method is to fricassee. Fricasseeing is really stewing, except that fricassee is usually covered with a sauce when served.

Finally, there is poaching which means to simmer or to cook with water. Chicken is poached. So are cured or corned meats. Regular meats are never boiled.

You may be sure that chefs in the best restaurants know their stuff when it comes to the nine basic methods of cooking meat.
