

Students invited to participate in 1987 National Spelling Bee

Students in all public and parochial schools are invited to participate in the 1987 National Spelling Bee, co-sponsored by the Amarillo Globe-News and West Texas State University.

The Scripps Howard Newspapers, national sponsors, set the rules and limit participation to a student who will not be older than 16 by the end of the current school year or in a grade higher than the eighth.

Directors in the 46 counties assigned the AGN and WTSU have been named and are responsible for eliminations in their respective counties.

Serving as director for Donley County will be Floyd Guinn, principal of Clarendon Junior High School.

Each county champion must be named by March 14 in order to take part in the 1987 Regional Bee to be held on the WTSU campus on April 11. Vying for the 1987 Regional title will be 46 young people from parts of Texas Panhandle, Oklahoma, New Mexico and Kansas.

The 1987 district champion will go to Washington, D.C. in early June to compete in the National Spelling Bee. The trip, for two, will be provided by the Amarillo Globe-News.

There will be other awards for

some of the top district finalists.

Bee coordinator is Gene Parker, director of placement, WTSU.

"Those of us at West Texas State who assist in this outstanding program praise the Amarillo Globe-News for making this program available to our young people. The benefits certainly are a plus and we commend the newspaper for their great support in education," Parker said.

Most schools use the booklet, "Words of the Champions", containing more than 3,000 total words (an increase of 500 new words). The 1987 issue of this book is priced at only 50-cents each and is available from Jeane Bartlett, Spelling Bee Editor, Amarillo Globe-News, Box 2091, Amarillo, Texas 79166.

Orders may be placed by individuals or schools.

Additional information about the Bee is available from the county director, Parker, and Mrs. Bartlett.

Most county directors hold a Junior Bee for the younger students in grades six and under. These Junior champs will also be guests at the regional competition, but will not spell unless he or she is named county winner.

Special recognition will be given the County Junior Champions.

MR. AND MRS. GUY MILLS

Golden wedding anniversary for Mr. and Mrs. Guy Mills

Mr. and Mrs. Guy L. Mills will be observing their Golden Wedding Anniversary on October 11, 1986, between 2:00 and 4:00 p.m. in the Senior Citizen Center of Childress, 403 South Main.

The couple were united in marriage on October 9, 1936 in the home of her parents, with Pastor Carpenter of the Childress Church of Christ officiating.

Hosting the anniversary reception will be their children Mr. and Mrs. Robert L. Mills of Childress and Mr. and Mrs. Leon Sutton of Wheeler.

Mrs. Mills is the former Nina Faye McMinn, daughter of G.D. and Ruthie McMinn of Childress and Guv Lee is the son of Beve and Ethel Mills of Childress.

Mr. Mills a lifelong electrician and Mrs. Mills a Licensed Vocational Nurse are retired and live in Mangum, Oklahoma at the present.

All friends and relatives who wish to attend are invited to do so.

Whirlpool Fund donations

Donations: Dr. Linda M. Kelly, Jr. and Mrs. Doug Burgess. Memorials: Mary Thornberry, Mr. and Mrs. P.B. Gentry, Jr.; Mrs. P.B. Gentry, Sr.; in memory of Mrs. Jewel Grady. Mrs. and Mrs. Bill Thornberry in honor of all Medical Center personnel.

College Rodeo

The Clarendon Rodeo Grounds will be full of enthusiastic, talented college cowboys and cowgirls Friday afternoon, October 10th. The '86 Fall Intramural Rodeo will start at 1 p.m. and last until winners are declared for the dozen scheduled events. This will be an opportunity for the seasoned sophomores to show off and also size up the fresh freshmen. Everyone will soon know if the #3 Jiron brother is as good as they say he is. The public is invited free of charge to come out and watch real western expertise demonstrated in such traditional events as bare-

back, Saddle Bronc, Bull, and Steer Riding, Ribbon and Team Roping, and Barrel Racing. For less serious participation, enjoy Goat Tying, Hide Pull, Steer Saddling, Galf Dressing, and the Rescue Race.

For a special treat following the Rodeo, last year's Clarendon College's Cowboy Band now known professionally as Slow Motion, Earl Broshe, LeRoss Apple, Keith Owens, Don Bode, and Becky Webb, will play on the Slab for \$5.00 a couple - \$3.00 stag from 9 p.m. to 1 a.m. If rain interferes, they will set up in the college cafeteria. Y'all come!!!

Cancer Society

The Board of the Donley County Unit of the Cancer Society met Monday night in the Hospitality Room of the First Bank and Trust. Reports were given by the chairmen of various committees. Kay Hayes, Chairperson of the Education Committee, was cited for receiving the Life Saver Award for the outstanding work she and our unit did last year in bringing to our county information about early detection and treatment of cancer. This award was from the Texas Cancer Society. Officers for the 1986-87 year are: Genevieve Caldwell, President; Jeff Walker, Vice President; Helen Estlack, Secretary; Barbara Cosper, Treasurer. Melody Miller, Field Representative for the District Office presented a program entitled "Wellness is Ageless."

If any club or organization needs

an interesting and possibly life saving program, please contact an officer of the county unit for information about the wide range of free programs that are available. Women should also be aware that mammographies are available at the Harrington Cancer Center, 1500 Wallace Blvd., Amarillo on October 1, 24 and November 7, 21, from 1-5 p.m. for \$60. Interested persons should call 378-4673 in advance for an appointment.

Members of the Donley County Unit who were present for this first meeting of the year were: Darlene Spier, Jeff Walker, Barbara Cosper, Kay Hayes, Pauline Heath, Mary Ruth White, Naomi Pheilan, Leona Musgrove, Paul Bivens, Mary Hazel VanZandt, Oneta Thomas, Murrell Whitaker, Wynona Hennigh, Donna Knorpp, and Jo Schollenbarger.

AUE Halloween Carnival

The Alpha Upsilon Epsilon Chapter of Beta Sigma Phi members are planning with great excitement the 1986 AUE Halloween Carnival slated for Halloween Night, October 31 at 4:00 p.m. at the Clarendon Community Center. Any club organization or individual wishing to obtain a booth reservation can do so by

calling Jana White at 874-3257 or Rose Lemley at 874-2440. Booth reservation fee is \$10.00 and MUST BE PAID (to Jana or Rose) by October 27th.

We would like to encourage a club, organization or individual to consider sponsoring a haunted house at the carnival. This has been an attraction and big money maker in past years. To date no group, organization or individual have made plans to sponsor a haunted house. If you are interested please call today.

Community

Development Program

The City of Clarendon is currently making plans to amend the program on the City's 1985 Texas Community Development Program with the Texas Department of Community Affairs, funded by HUD. In accordance with Section 570.512 (i) of the Consolidated Community Development Block Grant Regulations, this amendment is to utilize \$36,686.65 of remaining funds to do additional sewer improvements in the original project area.

The City of Clarendon will conduct a public hearing to receive citizen input on the proposed amendment. The public hearing will be held at the City Hall, 119 Sully Street, at 7:00 p.m., Tuesday, October 14, 1986.

The City of Clarendon encourages individual citizens and citizen groups to make their views known on the proposed amendment at the hearing. The City welcomes the full participation of its citizens in the development of this amendment.

Citizens' comments may be delivered in advance to City Hall at any time prior to the public hearing. Handicapped individuals who may have difficulty in attending this meeting, please contact City Hall to arrange assistance.

For further information, contact Donna Edwards, City Secretary, City of Clarendon, telephone 874-3438.

The Clarendon Press is published every Thursday at 106 S. Kearney and entered as Second Class Mail at the post office at Clarendon, Texas. J.C. and Helen Woody, publishers and editors.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

All pictures used in The Clarendon Press which are not the property of The Clarendon Press must be picked up in 10 days from publishing date.

From The PEN of PASTOR PINION

ing." Abraham's greatest desire was to follow God.

To thirst after God means that we will discipline ourselves to be pre-occupied and consumed with God and God-thoughts at all times. I must be so determined and so desirous of hearing from God that the things of the world grow strangely dim in the light of His glorious face and His Holy Book. I must concentrate on what God wants instead of falling for the enticements that Satan puts in my path. God wants to rule in our hearts, unchallenged by our jobs, our possessions, our intellects, our spouses, our children, or our parents.

Are you thirsty? Do you want God? Are you determined to seek after God with all of your heart? As Christians, we will only enjoy life by desiring God above all else.

Senior Citizens

October 6, 1986

There are a number of hindrances, however, which prohibit us from knowing God in a better way and being what we ought to be for Him. I'm for good habits, but habits can mechanize us to the point where we feel we no longer need God. It's good to be disciplined to read the Bible, for example, but it's absolutely necessary to keep one's heart right toward reading the Bible each day. It should never become habit for habit's sake.

The soul that pants after God is not duty bound, without a heart, but someone who says, "Lord, what a privilege to get into the Work of God: Lord, what a wonderful opportunity to talk to you in prayer today; Lord, do a work in my life today!" Yet, we're so accustomed to not hearing from God that we become caught in the curse of habit and our own self-sufficiency and go through day after day with hardly a thought of God.

You may say, "But I go to church." That's wonderful! Thank God for it. A Christian ought to be in the house of God whenever the doors are open because that's God's will. But just because we come through the church doors does not make us spiritual. Our hearts must be right.

Christians whose hearts are not right may come to church and fall asleep during the preaching of the Word of God. Can you imagine the deer falling asleep as he's looking for water? Do you know what it is to be thirsty? You might be able to go without food for a few days but you won't be able to go without water. Water is all you will have on your mind. That ought to be our heart's desire. I must have God! I must know God! I must let the Lord live through my life! I must have God's best in my life! I must be about my Father's business! I must hear from God today! But if we don't stay in the Word of God and on our knees in prayer we'll not hear from God.

In addition, hidden sins severely hinder us from knowing God and being what we should be for Christ. It takes only one hidden sin to stop us from the work of the Lord and doing what we ought to for Him. Psalm 66:18 says, "If I regard iniquity in my heart, the Lord will not hear me." I can pray, spend time reading my Bible, and seek to be alone with God; but if I don't have my heart fixed on the Lord, and I have sins in my life which I am allowing to remain, God is under no obligation to hear anything I say.

Indifference, personal ambition, self-righteousness, self-interest, and materialism can also hinder the work of God in our lives and keep us from seeking after God. Abraham, on the other hand, was a man who had everything money could buy. But, as A.W. Tozer said, "Abraham had everything, but he possessed nothing."

Only had four to show for games on a very rainy Thursday - and they didn't stay very long.

Twenty-five enjoyed the Musical Jam Session on Friday, October 3, 1986. Musicians were Hugh Neuhaus, Bailey Estes, Forrest Denton, Fred Fortenberry, Clyde Hoggard, Melvin Srygley, Lucille Smith and me.

Thanks for the contributions received in September as follows; LOVE-Charles and Marie Seets, Gwenith Goldston, Maude Killian, Frank Brown, Jr. and Elaine Marshall. FACILITY USE: Fun After Fifty and Senior Citizens and Dance Group. ENDOWMENT FUND: Robert C. Jones. MEMORIALS: Eda Wallin in memory of Bob Gilchrist; Gwenith Goldston in memory of Dorothy Anne Bagwell; Mr. and Mrs. J.B. Butts in memory of Kim K. Day, Jr.; Mr. and Mrs. Royce Hall in memory of Charles C. Carter; Dorothy Manning in memory of Dr. Edwin L. Manning; Mr. and Mrs. Charlie Norton in memory of Cotton and Miriam Sursa, Sadie Foust, Billy Goldston and Marvin Jones.

Thanks to the following for their volunteer services during the month of September 1986. Alta Adkins, Della Allen, Barney Baten, Thelma Behrens, Ann Bunyan, Norma Corrigill, Lillian Eudy, Gwenith Goldston, Lenora Karnes, Amy Lawson, Henry Mann, Rosa Mears, Marie McCracken, Allene Naylor, Fred Russell, Marie Sides, Ramona Slover, Verdine Tipton, Eda Wallin, Fannie Wilson, Annie Wooten, Don Wooten and Carmen Wright. You are a great bunch of people.

Comment Period ends October 25

Public comments on provisions of the 1985 Food Security Act, commonly referred to as the Farm Bill, will be accepted by the U.S. Department of Agriculture until October 25, 1986.

The Act affects farmers if they produce crops on highly erodible land without following an approved conservation plan or if they produce crops on converted wetlands.

The provisions, widely known as "Sodbuster," "Conservation Compliance," and "Swampbuster," deny many USDA Farm program benefits

Steven Porter graduates

Air Force

Airman Steven L. Porter, son of William M. and Geline Porter of Clarendon, Texas, has graduated from Air Force basic training at Lackland Air Force Base, Texas.

During the six weeks of training the airman studied the Air Force mission, organization and customs and received special training in human relations.

In addition, airmen who complete basic training earn credits toward an associate degree through the Community College of the Air Force.

under certain conditions.

Sodbuster applies to highly erodible land broken out of grassland or woodland and cultivated for crop production after December 23, 1985.

Conservation compliance, another part of the highly erodible land provisions, applies to land that was planted to a crop at least one year during the years 1981-1985.

Sodbuster and Conservation Compliance require farmers who request certain USDA farm program benefits, and who are farming highly erodible land, to plan conservation plans approved by local conservation districts.

There is, however, a grace period for the Conservation Compliance provision. Farmers not using a conservation plan have until January 1, 1990, to develop and begin applying an approved plan. They have until January 1, 1995, to have all provisions of the plan in effect.

The other provision, Swampbuster, does not allow farmers to convert wetlands to croplands and remain eligible for USDA benefits regardless of whether or not they have an approved conservation plan.

The public comment period on the interim rules of the provisions will last until October 25, 1986. Comments should be addressed to Director, Cotton, Grain, and Rice, Price Support Division, ASCS-USDA, P.O. Box 2415, Washington, D.C. 20013, and they must be received by October 27 to be considered.

Additional information can be obtained from the Soil Conservation Service, the Agricultural Stabilization and Conservation Service, the Farmers Home Administration, or the Texas Agricultural Extension Service.

LION'S TAIL

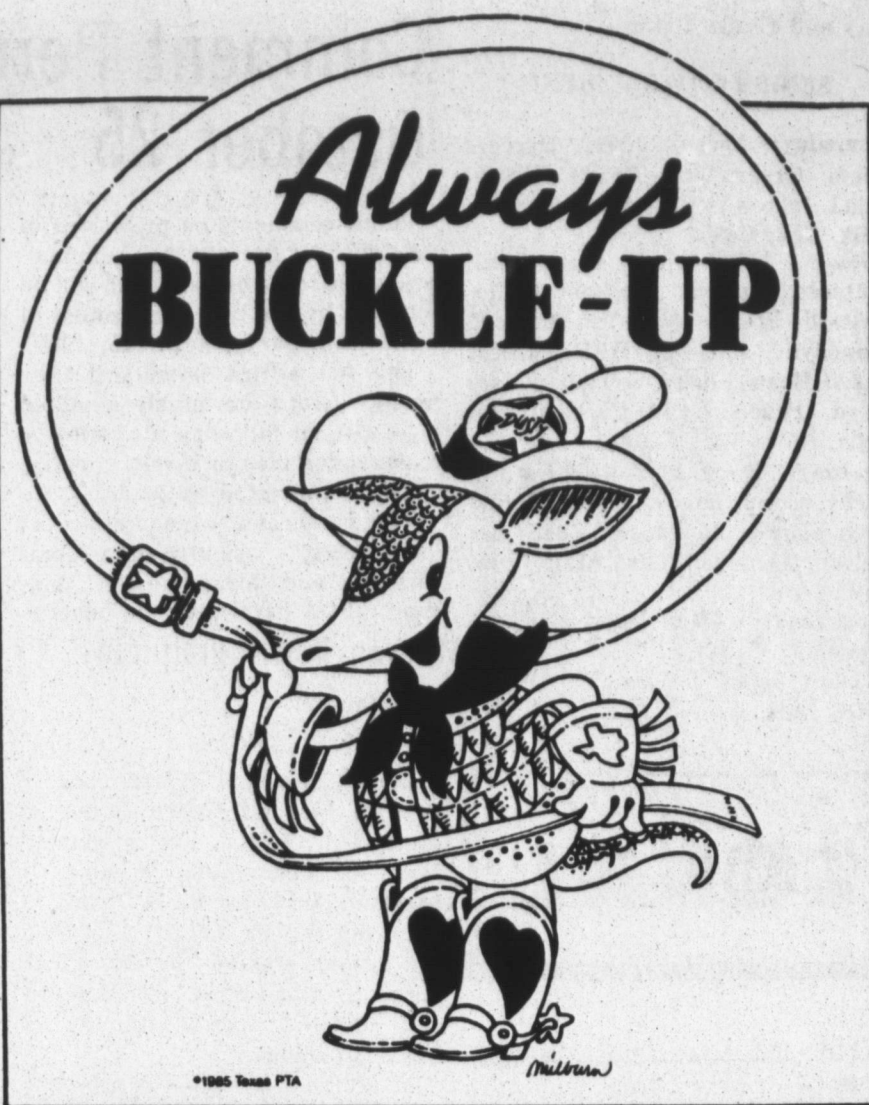

The Clarendon Lions Club met in regular meeting in the Lions Hall. There were 27 Lions present, the Lion sweetheart and three visitors. After a delicious meal the Boss Lion Jem Simmons opened the meeting in due form. Lion Tamer P.C. Messer introduced the guests who were Mr. Chet Calcote from Amarillo, a guest of Lion Todd Knorpp; Kay Bernabe and Terry B. Bernabe from Clarendon who were guests of Lion Bernabe. Lion Todd Knorpp thanked the Lions that helped with the pancake supper, a complete report was not available at this time. Program chairman Lion Smith introduced Lion Bernabe, who gave the program on adult hobby. This phase of this program consisted of model airplanes and their construction as well as flying them and entering them in contests. These planes were radio controlled. He had two complete models and one under construction. This was a very, very interesting program and well rendered. Boss Lion Jem Simmons reminded the Club of Ladies Night which will be October 21, 1986. The meeting was then closed.

PTA representative for seat belt safety at school

Dusty Dillo, the PTA representative for seat belt safety appeared on the school playground Monday afternoon to discuss buckling up for safety. He then hosted the PTA program Tuesday night. The children K-8 were shown two films, "Otto the Auto" (K-3) and "It'll Never Happen to Me" (4-8). To further encourage the children to participate in his seat belt campaign, Dusty Dillo offered the children a Dusty Dillo Fan Club Member-

ship which included a certificate of achievement, a Dusty Dillo deputy badge, and a complimentary Dairy Queen ice cream cone, if the children would buckle up for two weeks. These awards would then be distributed in the November PTA Tuesday night program. Dusty Dillo was enthusiastically portrayed by Pat Archuleta. Thanks Pat for a job well done. The Clarendon PTA would also like to thank Dairy Queen for participating in this program.

WESLEY DALE BARKER and Robert Johnson
Wesley Barker celebrates 2nd birthday

Wesley Dale Barker celebrated his second birthday Wednesday, Oct. 8th at his grandmothers, Nola Barker's home in Clarendon. To help celebrate his big day was his parents Mr. and Mrs. Clyde Johnson; his brother, Robert Johnson, his grandmother, Bea and James Bureson and family and Martin Allgren. He received alot of nice gifts and he had cake and ice cream.

Midshipman Hayworth accepted into regiment

Midshipman Brent Hayworth of Clarendon, Texas recently participated in Acceptance Day ceremonies at the U.S. Merchant Marine Academy in Kings Point, N.Y. The colorful event annually marks the official "acceptance" of freshman or plebe, class into the ranks of the Academy's regiment of midshipmen. A graduate of Clarendon High School, Midshipman Hayworth, with some 250 plebes, was administered the Academy oath by Rear Admiral Thomas A. King, the superintendent. They were later sworn in as U.S. Naval Reserve midshipmen. The plebe class reported in July to the Academy, which is operated by the Maritime Administration of the U.S. Department of Transportation, for training as future merchant marine officers. Their initial two months were spent in military training and taking introductory courses.

Primary (Baby) teeth

BY J.F. HOWELL, D.D.S.

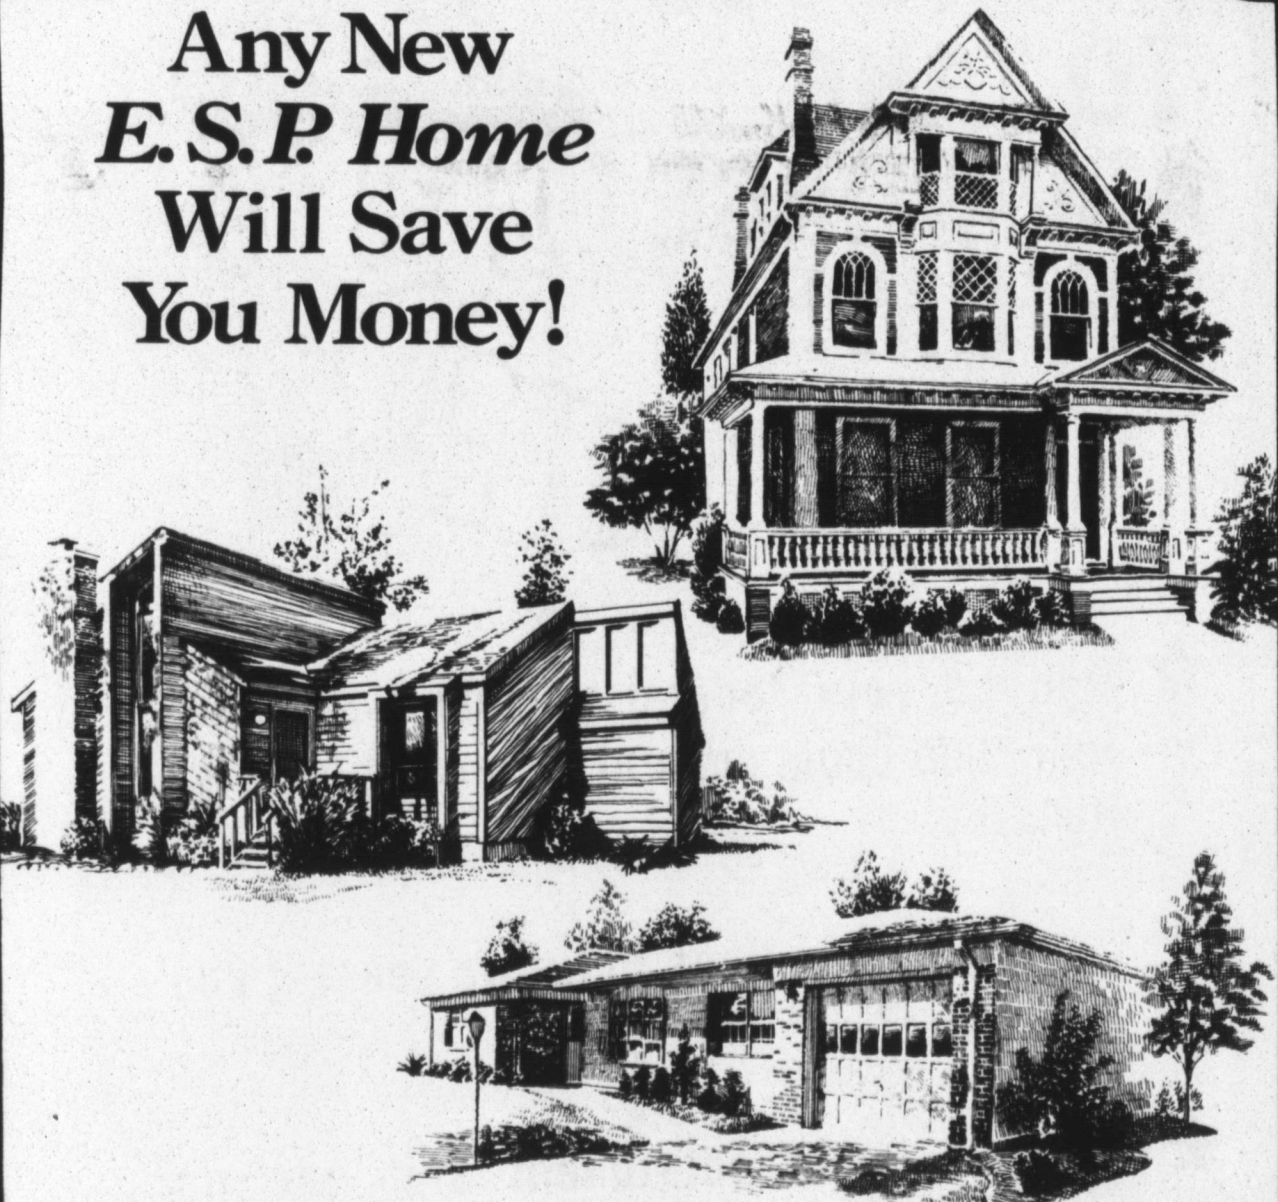

The primary teeth are extremely important to the child's future good looks and good dental health. Children who lose primary teeth too soon are much more likely to need orthodontic care (braces) later on. One of the most destructive forces in dentistry is the saying, "Don't worry about them, they are only baby teeth." This belief has caused more pain for children and more braces to be put on than almost anything else. Unless there is an obvious problem before then, the child should see a pedodontist (Children's dental specialist) at the age of three for a complete dental examination. This will cover the health and development of the teeth, gums and jaws. Any of the frequent problems of extra teeth, missing teeth, decayed teeth and other pathological conditions of the primary and permanent teeth and jaws will be found and evaluated for treatment. Evaluation of the growth and development of the jaws are particularly important because some of these problems are treatable at age three. Regular check-ups by the pedodontist from age three to age twelve will eliminate most of the dental problems the child has. The pedodontist has the necessary post graduate training, knowledge, special children's equipment and trained office personnel to properly treat small children. It seems to work better if the child

is not "prepared" for his first visit to the pedodontist. The pedodontist and his personnel are trained to manage and get along with small children. If the parent feels that the child must be prepared, then no work like drill, grind, hurt, etc. should be used. Let no one frighten the child by describing unpleasant experiences. Treat any visit to the dentist as the usual thing that is just part of everyday life. Speak of the dentist and his personnel as friends. Make appointments for small children early in the day when they are rested, not later when they are tired from playing all day or sitting in a class room. Although I enjoyed my twenty-seven years as a pedodontist, I no longer have the patience or special equipment to properly treat children. I refer all children to the two pedodontist in Amarillo. My only concern is proper treatment for the child.

Marching Contest to be at Borger Stadium

Borger Stadium is the site for the annual University Interscholastic League Marching Contest for District I. All high school bands in the High Plains area will be performing their top show of the season for ratings. The contest will be held on Saturday, October 11, 1986 beginning at 8:00 a.m. The Clarendon High School Band will be performing at 11:00 a.m. The band is under the direction of Jaime A. Testerman, assisted by Nancy Kirkland, with Drum Major Sheri Chamberlain. The contest will continue throughout the day with high school bands from class 1A through 5A participating. The Public is invited to attend this event which has proven to be spectacular in the past. An admission charge of \$1.00 will be charged to defray the expense of running the contest. Young children will be admitted free. The day has proven to be colorful and exciting in the past and this year will be no exception. For lots of fun and support of your local marching band, why not plan to attend the annual high school marching contest for the High Plains area? Support the Clarendon High School Band for this exciting event!!!!

Any New E.S.P. Home Will Save You Money!

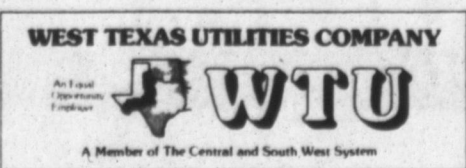

SAVE MONEY ON BILLS
You will save money in energy bills for years to come when your new home meets the requirements of WTU's NEW and IMPROVED Energy Saving Plan.

COMPARE THE SAVINGS
You can save up to twenty-six percent in home energy bills a year with an E.S.P. Home. An average 1800 square foot home will cost approximately \$775 a year to heat and cool. The same size E.S.P. Home will cost approximately \$570 a year to heat and cool. That's an annual saving of over \$200! (Energy savings may vary according to the type of home, family size and individual energy usage habits.)

CASH ALLOWANCES
The NEW and IMPROVED Energy Saving Plan also offers you LARGER cash allowances for installing energy-efficient equipment in your home. The allowances have been restructured, so now, the higher the efficiency rating of the equipment, the more money WTU will pay you through the E.S.P. program. To qualify for the cash allowances, your new home must meet the E.S.P. requirements and be served electricity by WTU.

THE NEW E.S.P. BOOK
For more information on the NEW and IMPROVED E.S.P. program, pick up your FREE copy of the new E.S.P. Book at any WTU office.

Remember REDDY Supplies the energy — but only YOU can use it safely!

4-H News

Pinion, Senior Council Delegate: Ann Marie Pafume. Junior Council Delegate: Julie Altman. Come and join us, it's alot of fun. Just call 874-2141.

By: Amy Pinion

4-H IS A FAMILY AFFAIR

4-H involves the family in fun and in work. Members select and conduct their projects with the approval and support of parents. Parents provide encouragement and much of the resources needed by the 4-H'ers for project work. The understanding parent is often the force that helps 4-H members through their beginning years of 4-H and sets the stage for a fulfilling and enriching experience as a Senior 4-H member. Why don't you decide to become a member of a winning team? JOIN 4-H TODAY!!!

4-H FOOD AND NUTRITION SIGN UP

The Food and Nutrition Project met Thursday, September 25, at 4:00 in the County Courtroom. Officers were elected as follows; President; Christina Leathers, Vice President; Sheri Hall, Secretary; Kimberly Altman, Reporter; Amy

Junior 4-H'ers Pins-n-pan

Thursday the older Junior 4-H'ers met at the Methodist Church from 4 p.m. to 5 p.m. It was led by Suzy Hall. We made calendars and wrote in all of the things we will do before the Foods and Nutrition Show. Then we had a delicious protein drink and a nutritious cake. Afterwards we discussed food and nutrition categories.

Sheri Hall, Minde Hollar, Michelle Chambliss, Laura McAnear, Kimberly Altman, Megan Williams, Katrina Leathers, Carrie Simpson, Amy Pinion and Chrissy White attended the meeting.

4-H BAKE SALE

The Donley County 4-H Food and Nutrition Group will have a bake sale on Friday, October 10th at 2:00 p.m. at Gibsons. These young people will have a variety of home baked goodies for sale. If you are having company for dinner Sunday or would like to have a cake for your family that you haven't baked yourself, stop by and help the 4-H'ers out.

Watt's Happening in Hedley

by Peggy Watt

Lisa Hill of Clarendon spent the weekend with her Hedley grandparents, Buford and Jerry Holland.

Johnny and Eddie Fisher returned Friday from Peru, Indiana visiting Johnny's family. Harold Hilmer of Yuma, Arizona returned with them for a short visit. Eddie said it rained on them all the way from Indianapolis.

Ernest and Shirley Lamberson, J.T. Jr. and Colleen Lamberson lunched last Sunday with J.T. and Helen Lamberson. Mike and Donna Lamberson, Mikala and Ashley visited during the afternoon as they returned home to Pampa from DeLeon.

J.T. Lamberson attended the sale a Wellington Thursday and the girls at the sale give him a unique birthday cake.

Dorene Conaster, Doyle and Evelyn Messer and Rachel Adams went on a foliage tour to Pagosa Springs, Colorado last week. They saw the aspens.

Darlene Ball is home from High Plains Baptist where she had arterial implants recently. She'll be going back later this month for more surgery.

Brian and Tina Hill and Tonya Moore of Clarendon surprised their grandmother with a birthday party last week. She enjoyed birthday cake and all the trimmings including a mexican food dinner. She also received several useful gifts. Gerald, Tashina Hill, Terry Moore, Joey Moore of Wetmore, Colorado and Paulette Bolden of Memphis also attended.

Connie and Mahdeene BeBord visited in Amarillo recently with their children, Troy and Connie Lee Wilson, Brad and Cory.

Johnny and Della Linville traveled to Earl, Arkansas last week. They visited Johnny's sister, Mrs. Manila Lunsford there.

Mrs. Jean Cook of San Jose, California and Mrs. Lenore Mat-

thews of Santa Rosa, California spent Tuesday night with their aunt, Ora Pearl and Woodrow Farris. They were enroute to Nashville, Tennessee.

Ethel Favor accompanied her daughter, Alice Paschal of Amarillo to Tulsa and spent several days with her other daughter, Barbara and Lynn Owens, Michael, Tim and Michelle. Ed stayed home and entertained Ethel's sister Rhonda and Oma Ray who spent sometime at Clarendon. When Ethel got home they dined one night in Hedley with Bob and Jessie Roland and another night with the Ray's. Ethel didn't stay away long enough to miss the hail last week.

Harry Rowley and Jeff of Amarillo came down Saturday and fooled around on the creek. They came back Sunday and brought Fred some homemade jelly from Harry's wife Cheryl.

Jerry and Billie Williams of Bartlesville, Oklahoma visited their aunts Etta Mae Cherry and Gladys Howell during the weekend.

Royce and Thelma Hall of Clarendon visited with D.K. and Beulah Hall Sunday.

Radell Sanders of Tulia visited his parents, D.K. and Beulah Hall Thursday.

Mrs. Eva Hansard went to Houston recently to be with her daughter, Barbara Stiles who broke her hip. Barbara is now walking without crutches. She also visited her son, Wendell Hansard. Vinona Bennett of Amarillo spent Saturday with her mother, Mrs. Eva Hansard.

Clyde and Mildred attended the Senior Citizens Musical Friday. Their granddaughter, Candi Hoggard came home with them to spend the weekend.

Betty Hoggatt took her mother, Mrs. Elmo Kennedy to the doctor in Memphis Friday. Earlier that day Woodrow and Mildred Clendennen of Amarillo visited.

Virgil and Opal McPherson visited their grandchildren, Sandy and Sherri Rogers in Amarillo recently.

Doug and Martha Lowe are visiting her parents, Alfred and Eloise Spalding. They are in the process of selling their home in Fort Worth and moving to Clarendon. Jack and Jackie Stafford joined them for lunch Sunday.

June Toft of Portland, Oregon is visiting her mother, Mrs. Gladys Howell. She'll be here until after the Cotton Festival. Gladys' daughter, Janice has also been here. Janice lives in Dallas. I can't remember her

last name. That's just another sign of old age, I guess.

A group of Hedley men attended the Texas Rangers-California Angels baseball game in Dallas over the weekend. Those attending were James Evans, Chuch Hill, Bryan Hill, Mike Darnell, Fill Hill, Ronnie Hill, Henry Stephens, Joe Lemley and Gene Floyd. They were joined there by Bob White, Jerry Weatherby, Terry Weatherby and Ray Pinkerton.

Laqueta Cox spent Tuesday night in Amarillo with Carl. Wednesday she attended memorial services in Childress for Joe Allen Thomas. Mr. Thomas and Laqueta grew up together in Northfield.

Debbie Roberts and Beckie Hill have formed a Children's Choir at the Methodist Church. Any child through Junior High age is invited to come and join the choir. They meet every Sunday afternoon, from 4:00 p.m. to 5:30 p.m. From 4:00 - 4:30 the young children work on songs for the small children. From 4:30 - 5:00 they work on 'Kid's Praise' which will be presented next year some time, and from 5:00 - 5:30 the junior high children work on music for the older children.

Sunday there were eight children at choir practice. Mrs. Roberts, Mrs. Hill, and James Edward and Timber Lee Potts were also present.

Sharyn Morrow is leaving Bailey's Can Way. When I talked to her she told me that she had met alot of wonderful people while working for Terry and JoAnn, but that she thought she needed to spend more time with her family. Her small daughter, Robyn is young enough to really need her mother. She also told me that she appreciated the way the people of Hedley had taken Robyn to their hearts and been so kind and living to her. As everyone probably knows, Earl and Sharyn adopted Robyn when she was a newborn baby. They went to Columbia, South America to get her.

Speaking of children, our son, Thunder is spending a few days at home. He lives in Amarillo and works at High Plains Baptist Hospital. I think there's a number of girls there who influence him to spend his time there instead of coming home. Oh, well, we had him for than five years and that's worth a lot. Since he came to us in May of 1980, he's changed from a skinny, almost teenager into a handsome young man. I'm proud of him.

The Hedley Eastern Star Chapter met in a regular meeting Monday, October 6th at the Lodge Hall. Worthy Matron Dorothy Brinson

presided. After the usual business meeting was held, refreshments were served by Mrs. Beth Lemons of Memphis and Jonnie Hill.

The Lodge Hall is really looking good after receiving a new coat of paint in the dining room. Later, there will be some more painting and much needed repairs done.

The Boss and J.C. went to Anson last weekend to the annual homecoming. Helen received the "Coming Home Queen" award. I don't know who could have deserved it more. She spent hours upon hours making a history, in book form, of the class of 1946 for each of her classmates. In addition to the plaque, she also received a lovely bouquet of long stemmed red roses, a homecoming mum corsage, a potted chrysanthemum, and a plaque from her fellow classmates in appreciation for the work she did in planning the homecoming. In fact she brought home every award that was given during the 2-day celebration. She even brought J.C. home with her. Congratulations Helen from Patsy, Kay and me.

HEDLEY SCHOOL MENU

Monday: Pizza, Tossed Salad, Cheese Strips, Buttered Corn, Peanut Butter and Graham Crackers, Milk.

Tuesday: Beef Stew, Cheese Strips, Cole Slaw, Cornbread, Peaches, Milk.

Wednesday: Spaghetti with Meat Sauce, Salad, Spinach, Hot Rolls, Jello, Milk.

Thursday: Steak Fingers with Gravy, Creamed Potatoes, Green Beans, Hot Rolls, Fruit, Milk.

Friday: Chili Dogs, French Fries, Onions, Pickle Relish, Carrot Cake, Milk.

There will be no classes at Hedley School on Friday October 10th on account of the Cotton Festival. Wednesday and Thursday, the students will be taking their first six weeks tests. I really don't know how the teachers can expect the kids to study for tests with the Cotton Festival taking place on Friday and Saturday. I guess they know what they're doing though.

A car that shifts manually has been estimated to get an average of two miles more per gallon of gas than a car with automatic shift.

CONSUMER ALERT

by
Jim Mattox
Attorney General

Don't Get Stuffed By Envelope Stuffing Scams

The ads make it sound like easy money. "NOW! As an independent mailer you can earn BIG MONEY in your own advertising business. We will pay you \$100 for every one hundred pieces of mail you process—just by following our simple instructions."

THE COME ON

All you have to do is send a nominal sum, usually between \$10 and \$40, and they will teach you how to make money at home. And since the ad promises that the job will have qualities that many people want— independence, prestige, being your own boss—it's not surprising that many people fall for the old envelope stuffing scam every day.

THE SCAM

Chances are if you send your money to a company that promises to teach you how to stuff envelopes for big bucks, what you will get is an instruction sheet that describes how to get others to send you money for the same scam. The instructions will look something like this:

"Place a classified ad in a national magazine or tabloid that has a high response to its classified ad section. You may use the example below as a model for your ads.

AMAZING PROFITS! Selling information by mail. Earn BIG MONEY without leaving your home. For details, send a self-address stamped envelope to _____ (put your name and address in this space).

What the instructions don't tell you is that placing such an ad can get you in trouble with the U.S. Post Office, local criminal prosecutors, or my

Consumer Protection Division.

Some operators have begun to send envelope stuffing offers, as well as other business opportunity advertisements, through the mail. But whether the come-on is read in a classified ad or arrives in the mail, people who actually send in money and then place an ad will end up competing with others who have fallen for the same trick, not to mention the company that placed the original ad. But whether the scam is pitched via on the mails or through classified ads it amounts to the same thing—deception.

THE WARNING SIGN

One of the biggest warning signs for this kind of fraud or deception is the statement that in order to get more information about the job or opportunity you must send in a fee. Anyone who wants money before giving you this kind of basic job information is someone to avoid. Regardless of the "guarantees" that accompany the ad, if you answer one of this type by sending your hard earned cash, you are very likely to get burned.

FOR MORE HELP

If you have had a problem with envelope stuffing, any other business opportunity solicitation, or any other consumer problem, please contact your nearest Consumer Protection Office. Consumer Protection offices are located in Austin, Dallas, Houston, San Antonio, McAllen, Lubbock and El Paso. The Attorney General's Office is the people's law firm. We're here to help you.

Vehicle registration system to be improved

More than \$14 million a year will be saved by the state and county governments in Texas when the highway department installs a new motor vehicle registration and title processing system.

At its September meeting, the State Highway and Public Transportation Commission approved a \$33.6 million investment to develop and implement an entirely automated system.

"Our existing system is more than 20 years old," said Bob Lanier, chairman of the highway commission. "Manual processing at the county level is duplicated at the state level. It is time-consuming and costly to both the state and to county governments."

Currently, the department needs up to six weeks to issue vehicle titles, Lanier said. The new system will be designed to record title changes instantly at the county level.

"We anticipate that counties around the state will save more than \$8 million the first year the system is in operation," Lanier said.

A study begun last January by the consulting firm of Coopers and Lybrand determined that the present system has both reliability problems and increasing operation costs, he said.

"With 14 million vehicles registered in the state today and an increase expected, the question is not 'if' we need a new system, but 'when,'" said Lanier. "By eliminating much of the time-lapse in processing registration and title fees, we're protecting about \$600 million of our state's highway revenues."

The new system, which will take about five years to design and implement, will place state equipment in each county's vehicle registration office, said Diane Neil, with the highway department's Division of Motor Vehicles in Austin.

"Some counties have independently automated their registration and title process," she said. "This will free their equipment and computer storage space for other uses, which is an added benefit to their initial savings."

"Registration clerks in each county will key vehicle information directly into the state system," Neil said. "Every county in the state will

realize a savings in both time and equipment. Direct savings in processing time will average about 60 cents per registration."

"The net savings to the highway department will be about \$2.1 million for the first year," said Neill.

Law enforcement agencies will also benefit from the new system.

"With no six-week delay in registration information, the reliability of our records for use by state and local law enforcement agencies will be greatly enhanced," Lanier said.

"We determined that this is a cost-effective step for virtually every agency involved in the registration and title process."

Pointers For Parents

Here's information from the National Center for Missing and Exploited Children on what to do if your child indicates he may have been sexually abused:

- Take the child to a private, quiet place where he can relate the story.

- It's normal for a child to fear telling you what has happened. Make it clear that telling you was the right thing to do and you'll protect him from further harm.

- Show physical affection, and express your love and confidence in your child with words and gestures.

- If you think your child may have been physically injured, have him see a doctor.

- Alert child protection agencies and other appropriate social service organizations. Law enforcement agencies must be notified.

- Consider counseling to help the child deal with any emotional consequences.

The National Center for Missing and Exploited Children sponsors a nationwide "Campaign to Protect Our Children" to focus public awareness on child safety. For free information call: 1-800-843-5678.

Clarendon attracts N. M. students

New Mexico Coaches draw athletes to friendly Texas Junior College Taken from Albuquerque Journal by Kevin Busey Journal Sports Writer

Clarendon College, a junior college of 1,200 students southeast of Amarillo, Texas, has found popularity among New Mexico athletes.

Clarendon, of the Western Junior College Athletic Conference has signed Albuquerque High's Tommy French and Kirtland Central's John Curry for men's basketball and AHS's Loretta Garcia, Manzano's Stacie French and Kirtland's Lori Stephenson for it's women's team.

AHS's Judy Shannon and Del Norte's Heather Packer also were strongly recruited by Clarendon, but chose other schools.

"We're very excited," says women's coach Dexter Irvin. "We get a lot of New Mexico kids here just to go to school. The men's coach and athletic director, Joe Mondragon, played at Bernalillo and Western New Mexico. He was women's coach for seven years and last year took over the men's team.

"I'm from Kirtland. I started the program at San Juan Community College. This opened up when Joe took the men. Both of us being from New Mexico, we went after New Mexico kids this year."

Irvin's team was 14-12 last year, 4-8 in the WJCAC, beating top-seeded Cisco in regionals before losing to Western Texas. He'll have just three returning players.

Irvin says Stacie French (6-foot-1) will play power forward. Garcia (5-5) and Stephenson (5-4) will alternate at point guard.

"We press and we're going to run," Irvin says. "They'll get all the playing time they can handle. We really stress three, four minutes of bust your gut, then we'll get somebody in for you. We'll be young, but these kids will get playing time. That's the thing about a junior college, you get playing time."

Why Clarendon? "I can't speak for anyone else," says Garcia, "but coach Irvin, he's really a super guy. Clarendon doesn't have a lot of money and he was real sincere in recruiting me. He didn't lie about money and was real honest about the program.

"What really impressed me was that the girls got along real well. It was like a family. Judy (Shannon) visited a number of places and told me that some places, the players didn't get along and bad-talked the coach. These girls did not bad-mouth coach Irvin. They spoke highly of him."

Garcia will major in mathematics. "I'm a whiz," she says, laughing.

Irvin was a junior varsity coach and varsity assistant as Stephenson rose through the Kirtland program.

"That was one of my main deciding factors," Stephenson says. "He's really easy to get along with. He's a real gentleman. All those girls at Clarendon told me how much they liked him. When he was my coach, there were never any problems.

"He makes us work hard when he coached me at Kirtland, he gave me a really strict running program. He really got us into shape."

Stephenson will major in secondary education. Fort Lewis and Adams State are transfer possibilities.

Stacie French rejected Texas-El Paso, and the University of New Mexico. She chose Clarendon, she says, because the day she was to visit UTEP, the coach resigned. UNM lost French because she wanted a school away from home.

French considered national junior college champion Odessa, then discovered at Clarendon what Stephenson and Garcia found.

"I liked the players," French says. "They just had a really tight-knit atmosphere. Everyone was really close. I think I need that, to have the unity coming out of high school. There's a lot of team unity there. It's really close, like family.

"I like the way coach Irvin recruited. He was more persistent, and as though he were not only interested in me for basketball, but really wanted me to achieve academically. He made sure you'd be happy there.

"Coach (Ken) Hefner, from Odessa, seemed all basketball.

"I had never even heard of Clarendon, where it was or anything. When coach Irvin called me, he talked like he'd known me all my life. He's real down-to-earth."

French will major in business and minor in communications.

PRPC establishes

Contract Procurement Center

The federal government spends over \$633 billion purchasing goods and services every year. The Panhandle Contract Procurement Center, opened by the Panhandle Regional Planning Commission on October 1, will help regional businesses get their share of that enormous federal pie.

The center's first director, Dickie Haney, said the contract center is an integral part of the region's economy especially when economic development is defined as any activity which brings new dollars to the community.

"It's really economic development in its purest form," Haney said. "Government outreach centers, such as ours, have become an increasingly popular tool for economic diversification and business expansion," he said, "as communities look for ways to become less dependent on single-industry economics."

The contract procurement center, funded by a start up grant from the Job Training Partnership Act (JTPA) and Economic Development divisions of the planning commission, may be just the ticket for some Panhandle communities and business people who rely on just one industry to expand or stay in business, according to Haney.

Basically, the CPC will look at the capabilities of the business to attract federal contracts, do market research on the product or service offered, and then place the business on federal bid lists. When bids are announced, the CPC helps businesses fill out the sometimes complicated federal paper work required to enter a bid.

Haney, a 1974 graduate of Borger High School, got his degree in public relations from Abilene Christian University in 1977. He worked for Phillips Petroleum Company and was a self-employed consultant before joining the PRPC staff in September.

For further information, contact: Dickie Haney, 372-3381.

State Department of Highways and Transportation

Texas motoring Virginia's vintage environs now have reason to pause at a picturesque rest area on US 11 near the town of Lexington. Sam is back home now, or at least his bronze biography is.

Sam who? Houston, of course! Born 1793 in Rockbridge County near present Lexington, Virginia—but during this Sesquicentennial year, root-tracing Texans discovered some scallawag had swiped Sam's birthplace plaque.

Texans said, "That ain't right!" Virginians agreed; they're right proud of Sam, too.

Enter the Texas Conservation Foundation, Texas Historical Commission, state legislators, and a slew of citizens who chipped in for a new bronze historical marker. Also three railroads that carried it to Virginia. Railroads to carry a historical marker?

Yep. It's permanently embedded in a 19 ton boulder of Texas Hill Country pink granite. Nobody'll swipe this one.

Virginians did their native son proud. Poured a massive foundation for the boulder, re-landscaped the whole rest area, and threw a dedication bash that made radio, television, and newspapers up and down the East Coast.

Some things just come together right. The boulder was unveiled by Texan Charlotte Darby, great-great-granddaughter of Sam Houston, who lives in (of course) Houston. Back in 1927, the first birthplace marker had been unveiled by the same Charlotte Darby, then a coed beauty queen.

Makes you want rare back and yell "AH HAAA!" doesn't it?

October has been designated as Range Management Month

October 1986 has been designated as Range Management Month by Texas Governor Mark White.

Governor White signed a proclamation on September 18th which noted that "properly managed rangelands protect watersheds, recharge aquifers and reduce sediment, ensuring water quality for both rural and urban users."

Mark E. Moseley, president of the Texas Section of the Society for Range Management, said SRM is extremely pleased with the designation of October as Range Management Month.

"October is the month most range plants produce seed and turn to their beautiful fall colors," Moseley said. "Range land occupy more than half of the state's land area; and wildlife, recreation, and livestock produced on rangeland is an important part of our economy."

He said proper management of the range resource provides forage and habitat by converting energy from the sun and combining it with water and nutrients from the soil to produce food and fiber.

"Properly managed rangelands will enhance, for future generations, a stable environment," Moseley said. "It will also yield a stable economic base."

A range conservationist with the USDA Soil Conservation Service in San Angelo, Moseley said the Texas Section of SRM helped promote the idea of range management month to increase public and producer awareness of the importance of rangelands.

A sheet of fabric softener in the wastebasket helps give a room a nice soft smell in a hurry.

GENE AND BOBBIE MOORE

Gene and Bobbie Moore at United Methodist Church

This short newsletter will let you know what is happening during the upcoming revival. Please take time to read it and to participate in the activities that have been planned just for you!

Gene and Bobbie Moore will be our speakers during the week of October 12-October 15. This is Sunday morning through Wednesday evening. Bobbie will be giving her personal testimony and will present special music during the morning worship service at 11:00 Sunday, October 12. She will then have to return to Waco where she is teaching. Gene will be with us for each service after that. We will be having luncheons each day, Monday - Wednesday at 11:45. They will include a covered dish lunch with the church providing the meat and they will conclude before 1:00. Sunday night through Wednesday night, services will be at 7:00. There will be other special events taking place in addition to the noon services and evening services. A schedule of these events is as follows:

Sunday evening at 5:00 we will celebrate **YOUTH NIGHT**. Activities will include games and pizza and soft drinks. If you are a parent or sponsor of a youth or if you would just like to support them, we need

pizzas and soft drinks. If you have already been contacted, please be sure to have your pizza cooked and ready to serve by 6:30. Youth will act as helpers in the worship service and each age level (junior high and senior high) will need to try to fill at least one of the long center pews. Surely the junior and senior high's are competitive enough to fill one pew each.

Monday evening at 5:30 we will celebrate **ADULT NIGHT** with a snack supper for all. The Adult Sunday School Classes will be responsible for the menu as follows:

Porter Class -- White Bread, Wheat Bread, Mustard, and Salad Dressing
Fellowship Class--(New Couples Class)--Chips and Dips and Ice Adventure Class--Cold Cuts or Cheese
Harmony Class--Deserts, Lettuce and Tomatoes, Pickles

If you have any questions concerning this list, contact Ruth Hancock. Each class should choose 2 representatives to act as helpers during the 7:00 service.

Tuesday evening at 6:00 we will celebrate **FAMILY NIGHT** with a desert fellowship. Each family will be responsible for bringing one desert.

National Cotton Council news

The National Cotton Council has urged USDA to continue making U.S. cotton competitive in domestic and foreign markets by retaining the marketing loan in the 1987 cotton program.

Council President Lloyd Cline said the marketing loan plan was endorsed by the industrywide organization's board of directors in an executive session here Friday afternoon.

"The marketing loan has worked exactly as intended," he said. "Our exports in the first month and a half of the new season are more than triple what they were for all 12 months of the past marketing year, and our domestic mill consumption also is moving along at a healthy clip."

The Lamesa, Texas, producer pointed out that the plan increases the competitiveness of U.S. textile mills because it allows them to buy cotton at the same price as foreign mills.

As provided under the farm act's Plan A, which the Council expressed a preference for, the cotton loan repayment rate announced on August 1 by the Secretary of Agriculture remains the same throughout the season. If the adjusted world price drops lower than the announced loan repayment rate, certificates making up the difference are issued to first handlers. These certificates can be redeemed in government-owned or loan cotton.

If an alternative to Plan A is used, industry policy-makers insisted that it include features that will preserve the current marketing system including forward sales and purchasing capabilities. These features were defined as: (1) announcement of a non-variable loan repayment rate at 80% of the loan level until the adjusted world price rises above that figure, (2) using certificates valued at the difference between the loan repayment rate and a lower adjusted world price, and (3) using a variable loan repayment rate only when the adjusted world price is above 80% of the loan.

In other recommendations, the Council asked a 15% acreage cutback from the cotton base for 1987 instead of another 25% reduction as was in effect this year. It also requested the Secretary to implement an inventory

reduction program for cotton which was not utilized last year. Under this provision -- sometimes referred to as "half-ARP -- producers who plant at least 50% of their permitted acreage to cotton would be allowed to put their remaining acreage into a conserving use, and receive deficiency payments on up to 92% of their permitted acreage.

Among other recommendation, the Council asked that:

--All certificates issued to cotton producers be generic, and that 60 days be allowed for study and comment before deciding whether first-handler certificates will be generic or cotton-specific

--Producers be allowed to plant soybeans and all other non-program crops on land reduced from conserving acreage requirements because of the \$50,000 limit on payments;

--Producers be permitted to transfer 10% of their farm base among separate crop bases on a farm;

--Cross-compliance between program crops on a farm not be required as a condition of eligibility for program benefits;

--Producers be allowed to continue adjusting crop bases due to changes in planting patterns;

--USDA encourage reasonable interpretation of the 1985 farm bill's sodbuster and highly-erodible land provisions, and not deny program benefits to producers who applying normal acceptable conservation practices to land cleared after Dec. 23, 1985.

\$40,000 grant to Cotton Foundation

The National Cotton Council's campaign to battle the rising tide of Textile imports received a boost today through a \$40,000 grant to the Cotton Foundation from Union Carbide's Agricultural Products Department.

Cotton wives' groups and agricultural organizations across the Cotton Belt have been informing consumers and retailers about the textile import situation and promoting U.S. cotton clothing during 1986 as part of the Council's "Grown and Made in The U.S.A." campaign.

The Union Carbide grant will enable cotton wives from Mississippi, Louisiana, Texas, and Oklahoma to travel to the Dallas Apparel Mart and operate a Cotton Service Center there Oct. 23-28. More than 15,000 buyers from seven Mid-South and Southwest states will attend the showing of women's and children's spring and summer lines.

To assist cotton wives in their efforts, Cotton Incorporated is publishing 17,000 directories listing manufacturers who will have U.S.-made cotton apparel in their lines during market week. These will be mailed and distributed to buyers at the mart.

"Now we can personally ask these manufacturers to make U.S. cotton clothing easily available to buyers," said Mrs. Joy Barret, a Belzoni, Miss., cotton wife who has spearheaded an extensive campaign in her state. The campaign has increased the awareness of Mississippi consumers about how many jobs in their state and the U.S. are being displaced by textile imports.

"We've had our ear to the ground during this campaign and we know people want clothing made here in this country, but it's not always easily found," Mrs. Barret said. "We're going to this market to ask the manufacturers to give the cotton industry a fighting chance to survive by making U.S.-made cotton clothing more available. And, we're certainly going to let them know their customers are clamoring for cotton."

Part of the grant money will be used to help expand the "Grown and Made in The U.S.A." campaign in other regions of the Cotton Belt.

Emory McKeithen, Union Carbide's district sales manager in Jackson, Miss., commended cotton wives for putting their initiative and ingenuity to work for cotton.

"We're all proud to be American and what finer way to show our colors than by the clothes we wear."

HEDLEY SENIOR CITIZENS MENU

health hints

Antihistamines, widely sold over the counter, are the most commonly used drugs for the relief of symptoms of seasonal allergic rhinitis, or hay fever. Yet four million people said they would rather suffer with symptoms than with the side effects of medication--sleepiness, grogginess, dulled senses.

A new drug, available by prescription, is reported to be as effective in relieving the runny nose, sneezing and itching nose and eyes as currently marketed antihistamines, Seldane, developed by Merrell Dow Pharmaceuticals, is the first antihistamine available in the U.S. that alleviates the discomfort of hay fever and produces no more drowsiness or sedation than that seen with a placebo.

The time of year in which allergies occur is influenced by climate. In areas in which winter is severe, allergies can be confined to two or three months in the spring and fall. In other parts of the country, some people experience symptoms practically all year long. The most familiar type of seasonal allergy is hay fever. It's a reaction of the body's immune system to the pollen in weeds, especially ragweed.

The apricot can be traced back to China at least four thousand years ago. The luscious fruit appeared in Greek mythology as the "golden apple."

VACCINES AND TOXOIDS

Many of the viral infections that killed thousands in the early part of this century are controlled today through the routine use of vaccines and toxoids. Parents are somewhat familiar with these biological products since they are required by most school systems prior to children beginning school. Immunization of children at various ages starting at age two months is necessary to provide protection against conditions such as pertussis, diphtheria, tetanus, polio, red measles, German measles, and mumps - the so called "childhood

diseases."

Vaccines contain small amounts of bacteria, viruses, or other organisms that have been killed or rendered noninfectious. The administration of vaccine provides the body with the ability to withstand subsequent exposures to corresponding infections.

Toxoids provide the same type of immunity as do vaccines but they do not contain organisms. Rather, toxoids are composed of small amounts of poisons called toxins that are produced by various organisms. Tetanus and diphtheria are two bacterial infections that may be prevented through the use of toxoids.

THANK YOU

We wish to thank all of our friends for their prayers and loving concern during the illness of our beloved husband and father, C.A. (Phil) Pitts. Thank you for the visits, cards, food, memorials, and flowers. We shall never forget your kindness. May God Bless each of you.

Mrs. C.A. Pitts
Mrs. and Mrs. Don Pitts, and Family
Mr. and Mrs. David Pitts and Family

THANK YOU CLARENDON

I want to give a big, heart-felt "THANK YOU", to the community of Clarendon for all of the support and encouragement shown to me, regarding my participation in the Mrs. Northwest Texas Beauty Pageant. No, I did not win the title. However, I felt deeply honored to have the privilege to be selected to participate in a pageant such as this and to know I had the whole community behind me!

A special thank you to the businesses and individuals in the businesses who had faith enough in me to sponsor me: Clarendon-Donley County Chamber of Commerce, Bivens Pharmacy, The Treasure Chest, and I.G.A. Foodliner. A very special thank you to Jim and Kathy McElroy of Greenes Dry Goods for furnishing me with my entire wardrobe-an evening gown, two formal dresses, a bathing suit and accessories for all outfits.

Our support should always go out to our community, as, I have learned now, that they will always readily lend their support.

Thank you Clarendon,
Mrs. Nancy Newhouse

You and the Law

Q: I have not been to court yet for divorce proceedings, yet our newspaper's divorce column has me listed as being divorced. How can this be? I was not notified that I was divorced. My attorney never told me. Can a person be divorced and not be informed?

A. Yes, under certain circumstances a person may be divorced without receiving personal notice. In a divorce suit, the party against whom the divorce is filed, the respondent is entitled to be personally served with the Petition for divorce by the sheriff or constable of any county in which the Respondent is to be found. However, if the location

of the Respondent is unknown, or if the Petitioner has used due diligence to make service but has been unsuccessful, notice to the Respondent by publication under Section 3.521 of the Texas Family Code is allowed.

As with other civil cases, the party against whom a default judgment has been awarded who was served notice by publication may, after filing a Petition showing good cause supported by affidavit, file a Motion for New Trial within two years after the judgment is signed.

Q: What is the maximum percentage of child support that may be assessed from a person's wages by court for arrears and current support? Is this percentage based on gross or net income?

A. The Texas Supreme Court has withdrawn the child support guidelines issued earlier this year, and there is no "maximum percentage" to be based upon either gross or net income. Child support is within the discretion of the Court. A Texas court can order either or both parents to make periodic payments or lump sum payments for the support of the child, and in determining the amount of child support, the court will consider the needs of the child, the ability of the parents to contribute to the child's support, any financial resources available for the support of the child, and any other matters it believes important.

Furthermore, it should be noted that under Section 14.43 of the Texas Family Code (effective September 1, 1985), every divorce decree signed in Texas must contain a provision whereby child support, if ordered and not paid within a period of at least 30 days, shall be automatically garnished from the wages of the obligated parent.

Send your questions to "You and the Law," State Bar of Texas, P.O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible.

Calcium Supplements:

New Craze Or Deep Concern?

Is this the year of the calcium craze?

We hear, see, and read about calcium supplements and the need for calcium in the diet almost daily. Women are bombarded with so much information about osteoporosis, that some may feel it's merely the latest health trend.

"The need for calcium is not a fad," says Dr. William A. Peck, physician-in-chief at the Jewish Hospital of St. Louis and one of the country's top authorities on osteoporosis and calcium metabolism.

"It's not a fad that by age 60, one woman in four has osteoporosis. It's not a fad that most women do not get enough calcium through foods in their diet each day. It's not a fad that osteoporosis affects 10 to 15 million people in this country, causes over 50 thousand deaths each year, and costs society about six billion dollars a year," Peck says.

Osteoporosis is characterized by stooped posture - dowager's hump - and the rib cage resting on the hips, causing a protruding abdomen. The disease is caused, at least in part, by a lack of calcium in the diet. When dietary intake is low, the body drains calcium from the skeleton. Over the span of many years, this process leads to brittle bones. The first symptom often is a broken wrist or hip, but by then the disease has reached the irreversible stage.

Peck says that osteoporosis is no longer thought of as a natural

consequence of aging. A woman needs to begin thinking about an adequate daily calcium intake and bone-strengthening exercise as early as in her 20's, while she is still building peak bone mass. Osteoporosis is a disease that may be prevented but cannot be cured.

"Public awareness of this widespread disease is still very low compared to many other serious diseases," Dr. Peck said. He noted that the average woman in this country gets only about 400 milligrams of elemental calcium each day from dairy products and other calcium-rich foods. But adult women need at least 1,000 to 1,200 milligrams of elemental calcium daily, according to Peck. Postmenopausal women need 1,500 milligrams of elemental calcium daily.

Because many women have such calcium-poor diets, physicians suggest that a calcium carbonate supplement, such as Os-Cal, should be taken. This particular supplement is not part of a new craze. It has been around for 35 years and is now available in a chewable tablet also.

According to Peck, osteoporosis is a major health problem and if women believe that it's only a calcium craze, they place themselves at risk for serious physical problems. "Today's woman must be totally informed about health issues," says Peck. Most of the people at risk for osteoporosis still don't know enough about the disease.

Congressman Beau Boulter Reports from Washington

STEP BY CAREFUL STEP

The key to achieving progress in many endeavors is to approach the challenge one step at a time. This has indeed become the case with the challenge of urging the Reagan Administration to adopt a coherent energy policy.

Up to this point, the U.S. has not had a national energy policy. This, I'm happy to say, is beginning to change. Over the past months, representatives from oil patch districts, including myself, have met with high-ranking administration officials in an attempt to bring about the type of resurgence in the oil and gas industry which will boost employment in the oil patch, and return the prosperity we so much deserve.

As your representative in Washington, D.C., I support the President's policies whenever they benefit my constituents. As a matter of record, this happens to be a majority of the time. However, when the President's policies, or the lack thereof, do not benefit the citizens of the Panhandle and North Texas, I make my opposition known in no uncertain terms.

This has been the case in regard to the dismal economic climate facing the domestic energy industry. Many jobs in our region depend on this vital industry, as does the security of our entire nation. Without a coherent energy policy that ensures price stability and the accompanying economic prosperity, the President is not adequately serving the needs of those of us who have worked so hard in making this country a safer place.

As I mentioned earlier though, this is beginning to change. The Oil and Gas Task Force which I chair in the House of Representatives has held meetings with the Vice Presi-

dent, the Treasury Secretary, the Secretary of the Interior, and the Secretary of Energy. Beyond the work of the Task Force, I have personally met with the President's National Security Advisor, and President Reagan himself.

Step by step, we have brought the President along the path we feel will result in a coherent national energy policy. This week, we took another step forward along that path.

On September 25, I introduced the House version of an energy package that Senator Phil Gramm introduced in the Senate two days earlier. Among the many important provisions in the package which seek to aid the energy industry, one provision stands out as particularly important for our region.

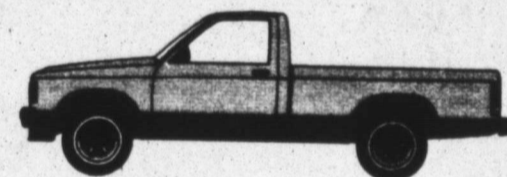

If passed, the Gramm/Boulter energy package would require the Department of Commerce, in cooperation with the National Security Council, to undertake a study to determine the economic and security impacts of imported crude petroleum. This type of study would constitute a foundation for a policy recommendation to the President regarding the question of an oil import fee.

Thus, while some Members of Congress (including myself), and some representatives of the energy industry, feel an import fee is needed, other representatives do not. This study would ensure that all parties approach the subject with the same facts.

The President, I am happy to say, has endorsed both the study, and the legislation. This study might not ensure the adoption of the national energy policy we so desperately need. For the President and the nation, however, it is a very good step forward.
