

## NO, NO A THOUSAND TIMES NO

When Old Clarendon moved to New Clarendon to be near the railroad, they left a small Methodist Church, which had \$28 indebtedness against it. The Methodist Church sold this little church to a church in Dalhart. Some men came over, dismantled it, put it on box cars and was shipping it to Dalhart, when some Clarendon people remembered that an Old Bell, which Carhart had shipped from Philadelphia, a rare treasure of the old south...with a heavy silver content...and could be heard, so they say, for 20 miles, was still in the Church. Wanting to preserve the Historical Bell, the men went down to the train to take the

bell off, but was met with, six gun opposition, and the Old Bell went to Dalhart. In 1936 the Les Beaux Art Club made an effort to get the Bell back, but Dalhart's reply was, "No, No, A Thousand Times No, Clarendon Can't Get Our Bell".

This is just a little bit of history which will go into the New Family History Book. Those of you which want to reserve a book and a place for your history, should come by or send it to the Clarendon Press by July 1. This will not be the final deadline, but it will be close to it. We need your help in getting these histories in as soon as possible.

## Texas Highways receives Wildflower Award

TEXAS HIGHWAYS magazine received the 1987 Wildflower Publications Award April 25, 1987. Some 300 wild flower enthusiasts attended the presentation made by Texas Woman's University at its annual Texas Wildflower Day celebration.

TWU and Gov. Bill Clements joined forces in 1980 to proclaim the fourth Saturday in April as Texas Wildflower Day.

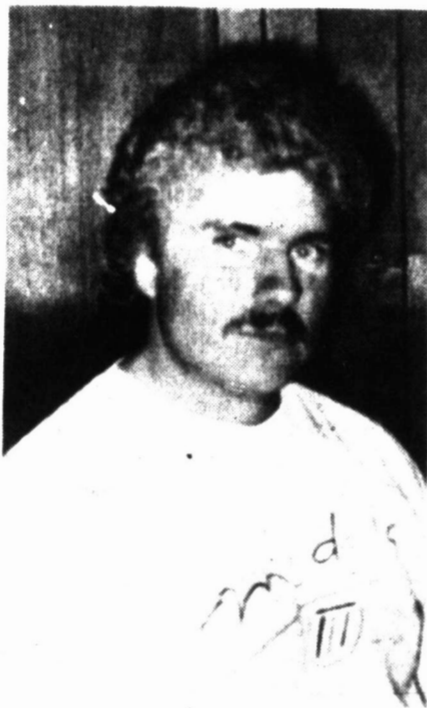

TEXAS HIGHWAYS, the state's official travel magazine, has become known worldwide for its sparkling color photographs of wild flowers and beautiful scenery. In addition to emphasizing wild flowers during various seasons, the magazine has been spotlighting a "Flower of the Month". May's choice is the showy Orange Milkweed, often called the butterfly weed. Though its roots contain poison, certain other parts are edible, and chewing gum can be made from it by those who learn how.

The May issue also features yucca, used by the Indians for food, shoes, and hand tools. The late naturalist Euell Gibbons said the Navajos used a yucca shampoo. When asked why, the Indians replied, "Have you ever seen a bald Navajo?"

TEXAS HIGHWAYS received the award for the magazine's popularization of wild flowers, particularly for each April issue which is largely devoted to their splashes of color throughout the state.

## Mammogram screening to be given May 11th

Hall County Hospital will sponsor a mammography screening at the hospital in Memphis on May 11, 1987 from 8 a.m.-5 p.m.

The testing takes less than 30 minutes and is highly recommended for women who have one or more of the following risk factors: over 35 years old; family history of breast cancer; personal history of any signs or symptoms which might indicate breast cancer; diabetes; hypertension; overweight; delayed menopause; or a woman over 35 who has never been pregnant.

Mammography is a reliable method of detecting breast cancer in early stages, often before any symptoms can be detected on a breast examination by a physician. Early detection is the most significant factor in successful treatment.

As a public service, Hall County Hospital will provide the test for \$50.00 with a \$25.00 deposit.

Mike's Pharmacy (874-3554), Bivens Pharmacy (874-3740), and Security State Bank (856-5464) have agreed to help coordinate registration in Clarendon and Hedley. The deposits are to be left with either of the three places. Please call either places for more information and for registration. Linda Kay Bell may also be contacted at 874-2484 in the evenings.

## Colt Banquet set for May 4th

The Junior High All Sports Banquet will be held Monday, May 4, 1987, at 7 p.m., in the Clarendon School Cafeteria. This banquet is to honor all students who have participated in any sport during the 1986-87 school year.

ALL WHO CAN need to meet at the school cafeteria at 2 p.m., on Monday, May 4, 1987, to help decorate the room for the banquet. We will need all parents who can possibly show up to help with this task. The more who show up, the earlier we can complete the job and go home to get ready for the banquet. Even if you can only help for a few minutes, your help will be

greatly appreciated.

We also need for everyone to plan to stay to HELP CLEAN UP after the banquet. HERE AGAIN, IF WE ALL HELP, IT WILL NOT TAKE AS LONG.

We also will have a short Colt Mothers meeting immediately following clean-up, to decide what gift we want to leave the school. We are looking at and talking about a couple of things, and we want everyone to have some input into this project. We will also need to elect a treasurer for the coming school year, 1987-88.

## Fall-seeded acreage reports due by May 15

Now that the sign-up period has ended for the 1987 wheat, feed grain, cotton and rice programs, ASCS Official Edwin Campbell says farmers who enrolled should be preparing to report their crop acres.

Acreage reports for wheat, oats, barley, rye and other small grains must be filed by 5-15-87. Campbell says some farmers reported these crops when they enrolled in the 1987 programs. Those who fail to report by the deadline will be ineligible for farm program benefits.

ASCS uses acreage reports to determine compliance with farm programs and also for history purposes. The reports contain crops and acreages planted, the uses to be made of these crops and cropland acres to be devoted to acreage conservation reserve. ASCS randomly spot checks a minimum of 15 percent of farms to verify acreage reports.

Campbell says farm program participants who report their crop acreage will be eligible for price support loans, deficiency payments and other program benefits.

## Budget proposals viewed by Governor Clements

By now, Texans across the state know our state must make some tough budget decisions. Let me explain my budget proposal.

It can be explained by a simple equation: 87 times 2 plus 2 percent.

My budget starts with what we're spending this fiscal year, 1987. That's the 87 in my equation. We spend that much each year for the next two years, '88 and '89. That's the times two in my equation. And we increase spending by 2 percent.

That's a \$36.9 billion budget, up \$766 million from this year's budget.

That's a balanced budget that cures the \$1 billion shortfall and keeps taxes at their current level.

That means spending the same amount on education as we are today and spending more on health, human services and prisons than we are today.

Some legislators and their special interest allies would like you to believe my budget cuts states spending. They say Texas can't afford to cut spending \$5.8-billion.

I agree. No one is saying cut \$5.8 billion. I'm certainly not.

The truth is my budget increases spending \$766 million from its current level of \$36.2 billion; That's the 2 percent.

The truth is this is a battle between fiscal conservatives on one side and budget busters who want to greatly expand the size, role and cost of state government on the other side.

Let's get a historical perspective. Four years ago, when I left office, the state budget for fiscal year 1983 was \$26.6 billion.

My budget recommendation for the fiscal year starting this September was 1987 is \$36.9 billion.

That's up \$10.3 billion in four years, a 39 percent increase.

In that same period education went from \$14.1 billion to \$18.8 billion, up \$4.7 billion or 33 percent.

But in the same period inflation is only up 12.1 percent.

And Texas' population was up only 7.7 percent.

It's clear: Texas state government spending and taxes increased three times faster than inflation and five-and-a-half-times as much as our population.

These are the facts. I'm not proposing we cut the budget. The budget I propose is up, not down. It's just not increasing as fast as it used to. Let me talk about some myths being bandied around by certain legislative leaders. I want to dispel these myths and get us all talking about the facts.

First, there is no such thing as a \$5.8 billion deficit. Our only deficit is \$1 billion this fiscal year. Anything more than that simply represents what someone wants Texas taxpayers to pay for.

The second myth is that I am proposing cuts that would deprive

Texans of needed human services. That's not true. The Health and Human Services budget is up, not down.

The third myth has to do with education, again, the current level of spending is maintained. No cuts.

The last and greatest myth is that taxpayers want more taxes. That's crazy. No Texan has ever approached me and said "Bill won't you please raise my taxes."

Let me translate what the big spenders are really saying when they talk about \$5.8 billion more in taxes.

The big spenders are saying they want the largest tax bill in the history of any state -- \$5.8 billion.

The big spenders are saying they want a 16 percent increase above current state spending.

That's more than inflation or population growth justifies and more than we can afford.

I want no misunderstanding on this. I will veto any attempt to raise taxes \$5.8 billion.

Texas taxpayers and job creators need a break from the endless round of tax and spending increases.

How attractive is Texas for job creation if we try to tax and spend our way out of our financial mess?

In 1984, the Legislature passed a \$4.6 billion tax bill. That discouraged business from coming to or expanding in Texas and cost jobs.

In 1986, the Legislature passed an \$872 million tax bill. That discouraged business from coming to or expanding in Texas and cost jobs.

What if, in 1987, the Legislature refuses to restrain spending and passes a \$5.8 billion tax bill?

How excited do you think business people will be about bringing jobs to Texas when we will have added \$11.2 billion in new taxes in just three short years?

That would be more in new taxes than the state government was spending when I became Governor in 1979.

What a signal to small business. 70 percent of our new jobs come from small business. Small business people are struggling and a big tax increase would sink many of them.

What a signal to taxpayers. Their tax burden has already gone up 30 percent in three short years.

I was not elected Governor to let politics as usual continue as before. The message I heard from Texans during the last year-and-a-half is that government leaders need to change their thinking.

In the last year and a half, the people of Texas made it clear to me they understand we can restrain spending without cutting essential services, even if they don't know the line-item detail of the budget.

Texans know our state agencies, boards, and commissions are not above scrutiny. They know there is an unacceptable amount of waste and fat, inefficient programs, misguided

priorities. To solve the budget problem, I took the first step. I reluctantly agreed to support an extension of the temporary tax increases approved by the Legislature last fall.

I did this with little enthusiasm. I like taxes less than I liked castor oil as a boy.

My preference is really for a tax reform measure that broadens the sales tax base, lowers the rate and continues the current revenue level.

But I endorsed the extension because I expected that, by going half-way, the legislature would meet me half-way by restraining spending.

I was mistaken. I did not get cooperation. The response of too many, especially in the Senate, was, "Bill, you've only gone half-way. Go whole-hog and support a \$5.8 billion tax bill."

The House is acting in a responsible manner, but the Senate is not receptive to restraining state spending.

The time has come for us to face reality. My message is: don't wait until the last minute of the legislative session to decide where to restrain spending.

Don't make hasty decisions that will be impossible to repent in leisure.

Legislative committees in both houses should be exploring specific, concrete ways to restrain spending.

The best thing we can do for those out of work...for those in need...for our schools...is to get our Texas economy moving again so we can create jobs and have the increased revenues from a growing economy.

Texans elected me because they trusted me to balance the budget and exercise fiscal responsibility.

Texans feel it is time for state government to draw the line.

Those who want to restrain the growth of state spending in order to get our economy moving and create jobs are on my side.

The big spenders are on the other side. They want more state government and higher taxes.

During days left in this legislative session, you will see whose side your legislators are on.

I hope you'll stand with me. If you do, we can give our Texas workers and small businesses time to catch their breath, to get back on their feet, to restart the great engine that is our Texas economy.

Imagine what we can accomplish if we say "no" to a \$5.8 billion tax bill and "yes" to restraining spending.

We will turn our economy around and create jobs.

We will put our fiscal house in order and meet head on some of the tough problems facing Texas.

We will, in short, do what is right for Texas. Future generations will say of us that we met the challenge and paved the way for a brighter, more prosperous Texas.

## May 1 last day for sign-up for ACP Cost sharing assistance

Friday, May 1, 1987, is the last day for producers wanting to control goldaster weeds to sign up for ACP cost-share assistance, according to County Extension Agent Ronald Gooch. The goldaster control practice was recently approved for cost-share assistance by the ASC state committee. One of five herbicide treatments can be applied during the bud stage of goldaster growth. This is usually between May 15 and June 5.

Donley County is under the Herbi-

side Law. A permit from the Texas Department of Agriculture is required for spraying of hormone herbicides. For additional information, contact the County Extension office or sign up for cost-share assistance in the Donley County ASCS office, Gooch said.

## Texas A&M tops other state institutions in student retention

COLLEGE STATION — Texas A&M University, which has the highest student retention rate among public colleges and universities in the state, also ranks well above the national average, according to recent figures.

Nearly 70 percent of the entering freshmen at Texas A&M receive their degrees at the end of four years, said registrar officials.

A U.S. Department of Education report found that fewer than half of all students earn a degree in the four years after high school graduation. Nationwide, one student in four took six, seven or more years to complete a degree.

Using figures for the 1983 freshman class, records show that 84 percent returned for their sophomore year, approximately 75 percent for their junior year and 72 percent for the senior year.

Texas A&M also boasted the highest retention rate for minority students among all public colleges and universities in Texas. The Coordinating Board, State College and University System reported that more than 81 percent of the undergraduate black students enrolled at Texas A&M in the fall of 1983 returned to begin the 1984-85 school year. The figures are the most current for which comparative data is available.

STATE REPRESENTATIVE  
**FOSTER WHALEY**  
P.O. BOX 2910  
AUSTIN, TEXAS 78769-2910

The final on the Senate Finance Committee report on the budget proposed a \$39.9 billion budget. If adopted by the legislature and signed by the Governor, this would require an additional tax bill in the amount of \$3.1 billion. When this is added to the \$2.9 billion so-called temporary tax, this adds up to a total tax for this session of \$6. billion additional taxes.

The House version (not yet approved by the House Appropriations Committee) would come to \$39. billion, which is \$2.2 billion over the Governor's target of \$36.8 billion.

I honestly believe three billion dollars can be cut out of either the House or Senate version and not hurt the state's services. Two of the big-ticket items are career ladder, \$850 million, and the Price Differential Index (PDI) that is well over \$1 billion. One of the finest things in H.B. 72 was the state equalization formula. This has been great for the rural and small schools all over Texas. The PDI pumped over a billion dollars into eight of the largest school districts. This money goes to the rich school districts whose constituents are making the least taxing effort. This was a log-rolling measure that did much to defeat the purpose of equalizing state aid based on financial needs of local districts.

It is predicted there will be trouble in passing the House version of the Appropriations bill. The vote will be close.

The present Appropriation bill, as proposed, will require a \$2.2 billion

tax increase above the \$2.9 billion temporary tax passed in the Special Session last summer, which was made permanent in the House in recent legislative action.

When you add up all these proposed raises and the added \$5 billion passed in the 1984 Special Session, the people of Texas will have paid \$12-\$15 billion dollars of additional tax in a period of tough times for the state.

I haven't heard of any of my local friends (who lost their jobs) expanding their family budgets.

## Schneider spearheads fund-raising for Children's Hospitals

The owners and operators of Texas Dairy Queen restaurants will be making miracles happen for thousands of children this spring through a major fund-raising program planned in conjunction with the 1987 national Children's Miracle Network Telethon, May 30-31.

Dairy Queen owners across the state will be donating a free ice cream cone to all customers making a contribution to this year's Children's Miracle Network Telethon, which donates money to children's hospitals across the country. Customers will be invited to come into any one of the more than 800 participating Dairy

Queens or simply drive through the parking lots and make a donation. In exchange they will receive a free 5 oz. cone or a coupon for a free cone from Texas Dairy Queen and free balloons provided by The Osmond Foundation, founders and producers of the Children's Miracle Network Telethon.

Dairy Queen plans to support the fund-raising program with television air time, localized newspaper advertising and point-of-sale posters and collection canisters in each Dairy Queen. The television schedule will air April 27 through May 3 and will utilize a commercial featuring Texas Dairy Queen spokesperson John Schneider.

Schneider, a multi-talented television and movie star, director, recording artist and humanitarian, has been associated with the Children's Miracle Network Telethon since its inception five years ago. This year, Schneider will again serve as national chairperson of the Telethon along with co-chairperson Marie Osmond.

Dairy Queen, which raised \$1.6 million for children's hospitals last year, is the Telethon's largest national corporate sponsor. According to Doris Richeson, Texas Dairy Queen Operators' Council president, Texas Dairy Queen operators have set a goal to collect more than \$350,000 this year, which constitutes a 25% increase over 1986.

"The concept that local communities help local children's hospitals through a national telethon is why this Telethon is, and will continue to be a success," Richeson said. "It's also why the Texas Dairy Queen system will continue to be a major participant and contributor to the Telethon."

Many Texas Dairy Queen restaurants will also be participating in a national promotion to raise even more money for the Children's Miracle Network Telethon. Under this national program, participating Dairy Queens will donate \$.50 for every "Blizzard" Flavor Treat, one of Dairy Queen's most popular ice

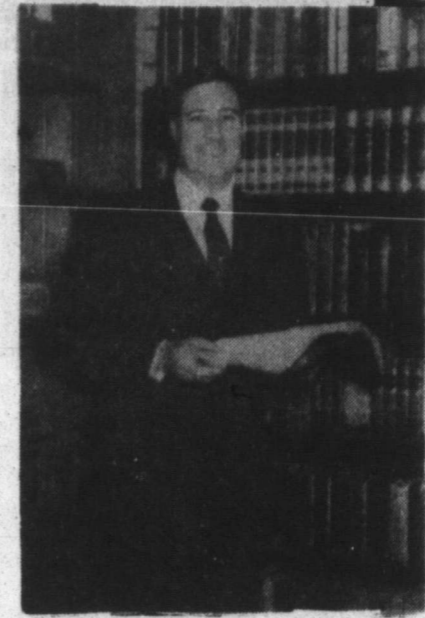

cream treats, sold during the week of the Telethon, May 25-31.

Only in its fifth year, the Children's Miracle Network Telethon has grown to become the second largest Telethon in the world with the potential to reach 80% of the TV households in the U.S. and 50% in Canada. The reason for the Telethon's success is the strong network of hospitals, stations and sponsors built by the Osmond Foundation and, more importantly, the Foundation's guarantee that 100% of all funds raised in each local market area stay in that area to benefit the hospitals and the children of the community.

This year, the Telethon will be broadcast live from Disneyland in Anaheim, California to more than 150 TV stations in the United States, Canada, Australia, Mexico and Jamaica. In Texas, the Telethon will be broadcast via satellite to TV stations in Amarillo, Austin, Corpus Christi, El Paso, Houston, Lubbock, San Antonio, Tyler, Waco and Temple. Stations in Abilene, Beaumont, Dallas/Fort Worth and Midland/Odessa will broadcast the Telethon on a limited basis.

John Schneider and Marie Osmond will be joined by co-hosts Marilyn McCoo and Merlin Olsen for the telecast of this year's Telethon. The Telethon will feature performances by many great entertainers like Bill Cosby, Robert Goulet, Rich Little and Suzanne Somers. Bob Hope, chairman of the honorary Board of Trustees of the Osmond Foundation is trying to rearrange his schedule to make a guest appearance on the Telethon, and his presence will highlight an already star-studded line-up.

### DEFILEMENT OF A NAME

In preceding weeks we have studied two attempts of Satan to defile Daniel and his companions. First there was the strategy to corrupt their mind so they would think like the world. Next there was the temptation to the flesh as he attempted to convert them to the gluttony, drunkenness and immorality of the Chaldeans. Finally we see Satan as he tries to defile their names which was the indelification of their Godly heritage.

Bible names hold particular signi-

ficance and often identify not only the family but also the worship practiced by the family. Daniels name meant God is my judge. The names of hananiah, Mishael and Azariah also showed their loyalty to Jehovah as they meant God is gracious, God is without equal and God is my helper respectively. The Babylonians knew if Daniel remained loyal to his name, he would not make a good Babylonian. And so they gave Daniel the name of Belteshazzar, meaning "BEI (a heathen deity) will protect my life". The names given to the three Hebrew children were equally filled with loyal reference to other idolatrous Chaldean gods. These names could have identified these young men with heathen worship and idols. It would have at least appeared they had violated God's commandment to have "no other god's before me".

We have a name that identifies us. That name is "Christian". It means to be like Christ. It suggests total loyalty to God and conformity to His will. But today if we are to uplift our family name, we must do so by our actions and attitudes. We must not let earthly pleasures and material possessions become the gods that identify us. When we fail to be faithful to God's house and live our lives in a reckless, carnal manner before the world, we bring reproach upon our Saviour's name. If we allow Satan to defile our testimony, we might as well let him change our name. Daniel purposed in his heart that he would not defile himself or his name. May that determination and dedication to Christ be just as fervent in us today as it was to the Hebrew children then.

## Federal Land Bank lowers interest rates offers new, low rate loan package

The Federal Land Bank of Texas will offer longterm loans to purchase rural real estate beginning May 1. These loans will feature a 10-year fixed rate.

Donald R. Rogge, president of the bank, which is the state's largest agricultural lender, said the interest rates on these loans will be 8 7/8 percent for farm loans and 9 1/8 for farm related business loans and rural home loans.

Rogge said the program, the first of its kind offered by the bank,

should encourage new purchases of agricultural real estate, thereby helping to strengthen declining land values in Texas.

The bank official also announced a reduction in the bank's variable interest rates for existing borrowers. The new rates, to take effect June 1, 1987, will be 10.25 percent interest on farm and ranch loans and 10.50 percent on rural residence and farm-related business loans.

The new program will fix the rates for 10 years and be matched by a

10-year security purchased by the bank at the time the loan is made. The rate will convert to the bank's variable rate at the end of the 10 years.

Farmers must qualify under the Land Bank's usual credit standards and use the money for new land purchases only.

Rogge said he hopes other lenders would follow the Land Bank's lead and develop programs of their own to provide credit at reasonable rates and terms for the purchase of Texas rural land.

The Federal Land Bank and 44 Federal Land Bank Associations located throughout Texas have \$2.38 billion in loans outstanding on 37,000 loans to approximately 100,000 Texas farmers and ranchers.

Those interested in more information should contact their local Federal Land Bank Association, the bank president said.

### EVERYTHING TO GAIN

Sometimes when you have some free time this week, I would ask you to sit and reflect about your past life and think of all the good times the Lord has given you-your wife [husband], children, home and friends who care. Look at the victories that have come your way because you prayed to a loving God for help.

Too many times we do not recognize the help and the leading of the Holy Spirit. Your very life revolves around the Love of God. You would not be able to have a future if it were not for a Loving Father who makes it possible. He has said, "I have sent my Son unto you to shed his blood that you may have forgiveness of all your sins." His Son who had no sin, yet he took on all the sins of the world that you may be saved. No matter what you have done in your past life He is faithful and just to forgive your sins if you only ask him. Seek him while he can be found, don't put it off. You have heard it time and time again that the Lord is coming back soon and well it may be. This is what I believe, from the time you are born until you die, this is the allotted time for you to make the Lord the Savior of your life and to accept his ways for your life. This span of time is your preparation for the life forever with Him. I have heard people say when they accept Christ in later life. "What did I wait so long to seek Him, look at all the time I have lost in serving Him." If you have never met Him, why not seek him and find out what I am writing about. You have nothing to lose and everything to gain- Everlasting life with the Lord.

The odds are there that it might. But, with medical advances, about 4 in 10 Americans will be saved from the disease — but not from the financial trauma that comes hand-in-hand with Cancer.

Overall medical costs exceed over \$10.8 billion dollars a year. Each course of therapy can run several thousands of dollars. And what about those other costs? The costs to travel back and forth to treatment facilities, lodging in strange cities, time away from your job, and other non-medical expenses?

Good news! American Bankers' CANCER AND DREAD DISEASE INSURANCE PLAN is designed to help individuals and families cope with this financial burden! Benefits are paid directly to you, unless otherwise specified, and they be used toward the medical and non-medical expenses associated not only with Cancer, but 16 other specified dread diseases!

## High Blood Pressure Month

May is designated as National High Blood Pressure Month, a good time for all adults to have their blood pressure evaluated. If the measurements are considered in the "borderline" or "high" categories, evaluation by a physician is in order.

Many hypertensive individuals benefit from medicines which lower blood pressure. A mild diuretic medicine (water pill) is often the first

medicine prescribed. Other medicines may be added to the diuretic if an appropriate response is not obtained.

High blood pressure of the mild to moderate type can sometimes be controlled without medicines. Nondrug approaches include:

- obtaining regular exercise and losing excess weight in order to place less strain on the heart and blood vessels.

- relaxing on a regular basis,
- restricting salt intake in the diet (salt holds water in the body and can increase blood pressure), and

- smoking cessation (for many persons, the chemicals in cigarette smoke will increase the blood pressure).

Jimmie Boliver was ordained as a Deacon in ordination services at the Paramount Baptist Church in Amarillo Sunday afternoon. His mother, Mrs. Joyce Boliver went up for the ceremony.

## Report cards issued

The classes at Hedley School got their fifth six weeks report cards last week. There are approximately one hundred students in the school system at Hedley. Of that one hundred, there were thirty-two students who averaged ninety or above in all their classes. There were twenty-eight who averaged above eighty in all their classes. I don't know if the kids at Hedley are very smart or if they have some very good teachers, or it it's a combination of both, but we should be proud of our school system. Sixty-two percent of the students averaged about eighty. That's pretty good! Those on the honor rolls are:

**Elementary Honor Roll**  
Matt Hill, Emory Lund, James Lee Potts, Chris Sanders, Jeremy Monroe, Jeremy Monroe, Josh Talley, Daphina Haire, obbie Longan, David Neeley, Amanda Ward and Stephen Carson received a Star for not making any grade below 90.

Jennifer Carson, Melody Gibbons, Cindy Lee, David Ward, Jana Hill, Kari Glenn, Charlotte Holt, Rachel Woodard, Angie Longan, Kenneth Imler and Shawna McCrary averaged a 90 grade.

Roy Ramirez, T.J. Turner, Christina Woodard, James Turner, Sammy Slover, Christina Schwertner, Johnny Lund, Aleisha Ralph, Jared Sims, Shanna McCrary and Tracie Shields averaged a B.

**Jr. High and High School**  
Carol Glover, Scheli Holland and Susan Phelps received a Star.

Jennifer Hill, Tanya Holland, Jason Wiggins, Curtis Neeley, Anthony Carson, Cheryl Glover and Tina Shields averaged an A.

Cheryl Glover participated in the Region 1 UIL typing contest Saturday, April 25. She didn't place high

enough to advance to the State Contest, but the fact that she competed speaks well of her ability.

## Chamber of Commerce Banquet well attended

The annual Clarendon-Donley County Chamber of Commerce Awards Banquet was held Thursday, April 23, at the Community Center with approximately 190 people attending. A committee under the direction of Carol Hinton beautifully decorated the hall in bright rainbow colors with the theme "We Make Our Own Sunshine". Jim Sharrar acted as master of ceremonies and gave the welcome address. Wilbert Bernabe gave the invocation and a delicious meal was catered by the Cattle Call Restaurant.

The awards were given out by various clubs and the Chamber of Commerce to honor those who have worked so hard for their communities, giving much of themselves to help others.

Laker Homemakers Extension Club honored Madeline Jones, as their Woman of the Year, and this award was presented by Terry Floyd. Xi Lambda Xi honored Joy Martin as their Woman of the Year, Susan Henson, club president presented the award.

Maurine Butts presented the PTA Special Recognition award to Tommy Saye for his outstanding contribution to Scouting in Donley County.

Delbert Robertson presented the Fireman of the Year to Patrick Robertson and the Rookie of the Year to Terry Ashcraft. David Davidson, president of the Clarendon-Donley County Chamber of Commerce presented their Woman of the Year to Sue Weatherly. Sue is the President of Security State Bank, Hedley. A.R. Henson of Henson's Tire Center received the Man of the Year award, while Derek Howard, son of Mr. and Mrs. Buster Howard received Youth of the Year, Derek is a senior at Clarendon High School.

Patsy Leffew received the Work Horse of the Year award, Patsy is Manager-Secretary of the Clarendon-Donley County Chamber of Commerce. Receiving the most prestigious award, the Saint's Roost Award was Hobart Moffitt, of Moffitt Hardware in Hedley.

Mrs. Florita Brannigan of Brannigan Jewelry Store in Memphis presented the people at the head table with their Memphis Pin, which says "Memphis, New Town Old Spirit", this pin is in the shape of Texas with a star where Memphis would be on the Texas map.

David Scott of West Texas Utilities

Company in Abilene was the guest speaker. David did an outstanding job, and his speech was enjoyed by everyone, if you missed this banquet and his speech you missed a lot.

Tommy Noble, the man who admitted to being the most nervous, explained about the Historical Route that the Chamber is working on. Tommy did a good job of not only being nervous but in explaining the project. Tommy, Wes Henson, and Bob Williams will be working on this project, and if you have any old pictures of Down Town Clarendon, they would like to make copies of them to use. If you have pictures, you may turn them in at West Texas utilities, where Tommy works, leave them with Wes at Hensons or bring them to the Chamber of Commerce Office.

Ken Griffith, of London, England was given a special Chamber of Commerce President's Special Award by David Davidson. Ken was in Clarendon last summer with the crew that did the Guess Jeans Commercial. He has been taking pictures all over the Panhandle for a book on the Texas Panhandle. Many Donley County people and scenes will be in this book when it is published later on in the year.

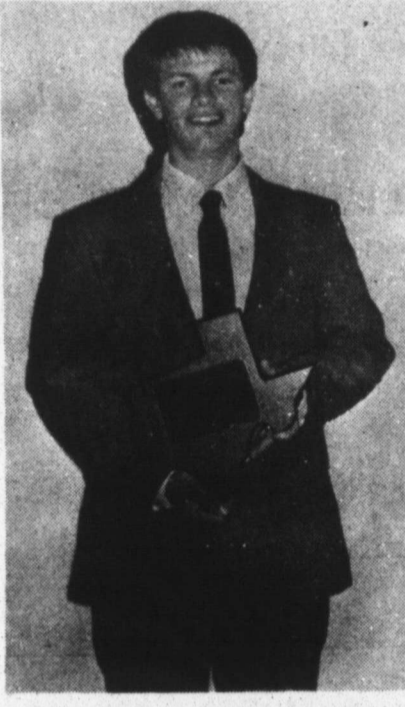

Members of the board of directors of the Chamber are: David Davidson, president; Tommy Noble, vice-president; Patricia Leffew, manager-secretary; Dana Bell, Mike Butts, Ronald Gooch, Wes Henson, Carol Hinton, Virginia James, Todd Knorpp, Dan Lewis, Eureka Mays, Shirley Petty, Jim Sharrar, Jim Shelton, Mac Stavenhagen, Randy White and Helen Woody.

### Think About This

For all things can be bought in large cities cheaper than they can in Clarendon. For instance, last Thursday, Helen Woody, Virginia and Dalton James had to go to Amarillo to pick up J.C. at the airport. Before leaving town, Helen stopped by Stavenhagen Furniture to buy a 55 inch window shade, this shade cost \$15.00. While waiting for the plane, they browsed around one of the large discount stores, Helen checked the cost of a 55 inch window shade

and it cost \$31.17. Sunday afternoon while visiting with Wayne and Sammie Doering, the new owners of Charlies BBQ, Wayne was saying he purchased some brackets to hang coats on in the bathroom, and he gave \$1.29 for them in Amarillo. While he was in Henson's he found the same bracket for 69 cents. The Doerings have renamed the BBQ place West Texas Cooking Co. Check Clarendon First...

## Horticulturist studying hybrid oaks developed in the '40s

COLLEGE STATION — It looks like a live oak — sort of. It can't reproduce itself — usually. And it comes from the same people who brought you cotton seed peanut butter, mild jalapenos and the maroon bluebonnet.

It's an Aggie oak tree, a hybrid of a live oak and an overcup oak developed in 1909 by Texas A&M horticulture professor Helge Ness. Now, horticulturist Edward McWilliams is looking for the hybrid oaks that were planted by Ness and two successors, W.S. Flory Jr. and Fred Brisson, who did research on Ness oak propagation in the '40s.

The Ness oak is one of the first hybrid

forest trees in North America. The tree is known for its unusual botanical characteristics including quick growth and unusual leaves.

Due to "hybrid vigor," the Ness oak grows faster than live oaks of similar age and, unlike the common post oak, Ness oak leaves stay on the trees through the fall until the first hard freeze of winter. But rather than staying bright green, they show fall colors of gold and pale green until they finally drop.

Unfortunately, Ness oaks also are more vulnerable to some parasites like mosses and mistletoe.

It had been believed that the Ness

oaks on the Texas A&M campus were the only species ever grown, but McWilliams has discovered several around Bryan, College Station and surrounding towns.

The first generation of Ness oaks was grown from an acorn which came from a live oak flower fertilized with overcup oak pollen. But like a mule, the hybrid of a horse and a donkey, the Ness oak is practically sterile. Each tree produces a handful of acorns, compared with the thousands produced every year by a normal tree.

Consequently, the trees must be propagated by grafting.

## Sheriffs Dept. recovers fishing equipment

By DAN LEWIS

The alertness of Donley County Deputy, Butch Blackburn, saved Greenbelt Lake Marina customers thousands of dollars in fishing equipment over the weekend.

Deputy Blackburn was camped across from the Marinas when he spotted two men going onto customer boats and docks. After a lengthy chase which resulted in one of the suspects trapped in the lake in waist deep water, Deputy Blackburn, his father Charles Blackburn Sr., Kelly Hill, Kyle Hill, Gary Thomas, Faylon

Watson of the Greenbelt Lake Patrol, and other area law enforcement officers the two men were lodged in the Donley County Jail and under the care of Donley County Sheriff Jimmy Thompson.

Good detective work resulted in a complete recovery of all of the stolen items except for 1 rod and reel belonging to marina customer and avid bass fisherman, Curtis Shaefer.

The fishing equipment was located on the roof of the Greenbelt Marinas Bait and Tackle Shop.

## Open Bass Tournament results

Syd Parker of Amarillo won 1st place money in the Greenbelt Lake Open Bass Tournament on Saturday, April 25, 1987 with 5 fish weighing in at 8 lbs. 12 ozs. Second place went to Don Cheatham with a 8 lb. 6 oz. total.

Twenty-six fishermen entered the contest and Curtis Shaefer, after being delayed for 4 hours due to his fishing tackle being on the roof of the Bait & Tackle Shop, again came through with a "Big Fish" weighing 2 lbs and 13 ozs., to win the largest fish award.

## UIL state qualifiers

Clarendon High School has qualified 2 students for the UIL State Academic Contests, May 7, 8 and 9 at The University of Texas at Austin. Qualifiers include: Renee Campbell in Newswriting coached by Kay Hayes and Sharon Bright, Prose Reading, coached by Katherine Green.

The students earned eligibility by placing first, second, and/or third at the UIL regional meet, held in Big Spring on April 25.

Each year, more than a third of the total participation in UIL activities involved academic contests, dispelling the myth of the UIL as a "sports organization," said Dr. Bailey Marshall, UIL director. "Texas has the nation's most comprehensive slate of academic contests," Marshall said. "Long before other academic-based competitions, the UIL was sponsoring contests in speech, journalism, the sciences and math. In fact, the League was created as a forensic league in 1910."

Contests range from headline writing to Lincoln-Douglas debate, from

calculator applications to poetry interpretation. Of the more than 1 million students who participated in UIL activities in 1986-87, more than half competed in one or more of the 19 general academic contests.

Many of the academic champions will also qualify for Texas Interscholastic League Foundation scholarships. During the 1986-87 school year, the TILF provided more than \$362,000 for scholarship grants to 282 college students who competed at the UIL State Academic Meet. In 1987, the TILF expects to award an estimated 300 new and renewed scholarships, valued at approximately \$400,000. The TILF funds are made possible through grants from foundations, individuals and families. Recently, the TILF reached a goal of \$1 million in endowment funds.

# Teacher Trivia answers

How well did you perform on the Trivia Quiz? If you got 41 or more right out of 45, you make an A. A score of 36-40 earns a B. Only 34-35 right deserves a C and 32-33 gets a D. If you got less than 32 correct, you failed the Trivia Quiz. Oh well, it was fun reading about the adventures and accomplishments of our teachers and trying to guess which teacher did what.

A great big THANKS to each and every teacher for participating in this endeavor. We hope it was as much fun for you to look back and remember as it was for us as readers.

## Teacher appreciation week activities

Clarendon PTA Teacher Appreciation Week got off to a great start Monday. Teachers were treated with delicious miniature loaves of bread baked by Judy Anderson of The Golden Acorn. Along with the bread each teacher received a prayer meditation written especially for teachers entitled "In Praise of Children."

On Tuesday the faculty and staff were honored with a luncheon in the Home Economics room. The menu included brisket, beans, potato casserole, green salad, rolls, and pie. The prayer meditation entitled "For Consistency" was presented to each teacher.

The highlight of the day was the Teacher Appreciation Tea Tuesday evening in the school cafeteria. The Littlest Angels Choir under the direction of Jamie Deyhle with pianist Gayla Davidson contributed to the celebration honoring our teachers by singing "Thank God for Kids." A sensitive poem entitled "Your Decision" created by former

teacher, Jamie Deyhle, touched the hearts of teachers and guests alike.

Teachers who are PTA members were presented with certificates of appreciation and those teachers who will be leaving our school district were recognized for their outstanding contributions they have made to our school system.

"Goodie bags" with discount coupons, pens, pencils, note pads, rain gauges, and other essential teaching paraphernalia were presented to the teachers on Wednesday. Thanks to Bivens, Deyhle Veterinary Services, Dairy Queen, Donley County State Bank, First Bank and Trust, Mr. Burger, The Nook, Stavenhagen Furniture, and The Treasure Chest for contributing to this "goodie bag." Your generosity and thoughtfulness is appreciated by both the teachers and PTA. The prayer meditation which accompanied the bag was entitled "During the Excitement of Holidays."

Thanks to all who worked and contributed to make the first three

days of Teacher Appreciation Week a tremendous success.

Jesus Ministry

By MIKE MIZEL

Throughout the Old Testament, blood sacrifice was the atonement for our sins, but God devised a plan unknown to any man. It would be our last chance to win. He sent His only Son to live upon the earth. He did it miraculously through a virgin birth. Jesus was circumcised and blessed according to the Jewish Law. In Him, there was no flaw. He lived a sinless life. It was perfect, you see, and then one glorious day God said, "Jesus, start your ministry!" He went around all places teaching all that He knew. The way to have eternal life was looking to the Son, glorifying the Father, and loving all others.

He started His ministry by picking some disciples. He numbered them to twelve. He did miracles, wonders, and showed many, many great signs. He healed all the sick, lame, crippled, blind. That was too much for the scribes to bear. They showed their pride. They wanted Him dead. They did not even care. They took Him to trial and charged Him with crimes for which He was innocent. They knew He was not guilty. They sentenced Him to death. It was part of that unknown plan. They made Him a crown of thorns, and put them on His head. They mocked Him by spitting on Him and by worshipping Him. That was to fulfill what the scripture had said. He carried the cross as a representation of our sins. He knew that He would be glorified because God was about to win. There they nailed Him on the tree. The Devil was shouting, "Oh, what a victory!" Little did he know that blood was spilled for you and for me. Jesus was a Lamb without spot, blemish, or stain. Oh, He suffered so much pain. He looked down upon them and forgave them out loud. I know the last thought that went through his searching mind- "Satan you're defeated and three more days your kingdom will be mine" And I know one more thought as he hung upon the tree - "God has triumphed and won the victory!"
