Mays produces first hologram at TSTI

Gary Mays recently produced a hologram as a project at TSTI. This is the first hologram to have been successfully photographed in TSTI's laser class.

A hologram is a three dimensional image filmed on glass using a laser beam instead of a camera.

This particular holographic image requires laser light for viewing and is not visible with regular lighting. It also is projected from the glass and appears to be in the same position

and distance from the glass as the original object.

During a recent visit to TSTI campus, Congressman Beau Boulter was given a tour of the laser electro-optics building, classrooms and labs. Mays' holographic setup and hologram were used to demonstrate one of the many uses of laser light.

Mays' will graduate from TSTI February 23rd and would like to pursue the field of holography.

Girl Scout cookie sales extended

Girl Scout Cookie Sales have been extended through February 8th in the Quivira Coucil. According to Celia Fowler, Executive Director, the inclement weather at the beginning of the sale made it hard for the girls to get out and sell. Arrangements have been made through Little Brownie Bakers for the sale to be extended one week. Your neighborhood Girls Scouts are taking orders for those ever-favorite Girl Scout Cookies which include: Samoas, Trefoils, Thin Mints, Chocolate Chunks, Pecan Shortees, Do-Si-Dos, and Tag-alongs. The cost is only \$2.00 per box with girls earning incentives for the number of boxes sold. Troops

also benefit from cookies sold by their girls. The amount retained by the council goes directly to girl program, camp development and maintenance and camperships which enable girls to attend resident and day camps.

Cookies will be delivered from March 9 through March 23 and you will pay for the cookies at that time. If you are not contacted for your order by February 8th you can call Maureen Butts, Clarendon Service Unit Cookie Chairman, or the Council Office at 669-6862 and your order will be given to a troop for credit. This is the only time of the year to order those delicious cookies so place your orders now!

Think About This

City sales tax received by Donley County cities in January reflected the sale tax in November 1986.

Donley County only received \$4,587.45 this is a decrease in funds of 9.12 percent.

The City of Clarendon received \$3,358.45 for that period while last year they received \$4,587.45 which is a decrease of 28.97 percent in city funds in which the city has to work with.

If that trend is kept up, the city might not have any recourse but to look at other ways of raising necessary money to run the city, it could be in the form of higher taxes, higher water bills or it might be in cutting employees which would cut the

services it performs.

Neighboring Collingsworth County was up 10.81 percent and Hall County was down only 3.13 percent, that was caused by Turkey not reporting any sales which resulted in a decrease of 100 percent. The City of Memphis had an increase of 5.88 percent and Armstrong had an increase of 22.35 percent.

CHECK YOUR FILTER

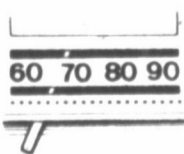

The purpose of a filter in your heating or air conditioning air blower is to catch dust or dirt before it can enter your unit. If your filter gets clogged, your unit will have to work harder to do the heating or cooling job required, and it will use more electricity.

To avoid damage to your unit and to save energy and money, be sure your filter is clean. WTU recommends checking your filter once every 30 days. Permanent types can be cleaned according to manufacturer's instructions, while non-permanent filters should be replaced.

A clean filter, along with other conservation measures you can do at home, will help you save energy and money!

Set Thermostat at 68°

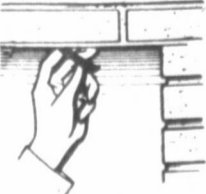

Set your thermostat at 68 degrees or lower. Turn it down at night and use an electric blanket. Turn it down even lower when you leave home for an extended period of time. Every degree you lower your thermostat will help to increase your energy savings.

Keep Damper Closed

Tightly close the damper in your fireplace when you're not using it. The same draft that is needed to help make a fire burn could circulate through your fireplace and pull warm air out of your home.

For more conservation tips, call your local WTU office.

Watt's Happening In Hedley

- by Peggy Watt

I visited for awhile Friday with Tula Ellis of Pampa. She and Jewell Quisenberry were lunching at Rhema Ranch.

Doyle and Evelyn Messer has been on the road most of the week. They went to Amarillo Tuesday on business and returned Saturday in order for Evelyn to rock Meagan all day.

Earl and Sharon Wheatly took a mini-vacation last week. They spent their spare time in Amarillo dining and generally having a good time. Lucky them.

James and Edith White had an adventure recently. During the snow storm James was taking Edith to her job in Wellington. About a mile west of Quail they got off the road and into a snowbank. When Edith didn't arrive for work her boss sent the highway department searching for her. I don't know how Edith felt about being stuck in a snowdrift with James but I wouldn't mind being stuck with Fred.

The Clarendon Press, Thursday, Feb. 5, 1987

Nookie Wiggins took Geraldine to Amarillo to see her doctor last week. She got a good report.

You know it's an imitation. But what about the many people today who have decided they are just like a banker? From stockbrokers to retailers, from credit unions to insurance men, to savings and loans, they all seem to be saying, "You don't need a banker, we'll do just as well." Oh, no they won't. Because no one else has the banker's hundreds of years of banking experience behind them. Nor do they enjoy the kind of trust that bankers do from the majority of Americans.

So why settle for an imitation when you can have a real banker at our Full Service Bank?

Shriners receive Presidential Recognition

The Shrine of North America has been recognized by President Reagan's Private Sector Initiatives Program for "extraordinary contributions" to communities across the United States.

According to Eric Johnson, the President's Private Sector Initiatives Program Director, the Shrine fraternity has demonstrated a strong public community spirit and shown how effective the Private Sector can be in addressing public needs.

The international fraternal organization is now being considered as a finalist for the top 100 Private Sector Initiative Programs in the United States, to be awarded by President Reagan at the White House later this year.

A memorandum from the President's Private Sector Program office, sent to International Shrine Headquarters in Tampa, lauded organizations that have "helped show there

is a valuable role for the private sector to play in our society," and "that many problems can be handled with the intervention of government."

The Shrine of North America has helped to cure or substantially improve the quality of life for nearly 300,000 children with orthopaedic or burn related problems, over the past 64 years, through its network of 22 Shriners Hospitals for Crippled Children. The Shriners do not charge for any of the medical services or care at the Shriners Hospitals and no local, state, federal or third party insurance payments are accepted for treatment. To date the Shrine fraternity has spent over \$1 billion in the construction and operation of its 22 Shriners Hospitals located in the continental U.S., Canada, Mexico and Hawaii.

Dr. Russell H. Anthony, Imperial Potentate of the Shrine fraternity

(the Shrine's highest official), upon notification of the award said, "We are extremely proud to be singled out for such a high honor. We have always taken great pride in the service we have been able to provide to communities across the United States, as well as Canada and Mexico." Anthony went on to say, "I'm glad to see the Shriners in cities and towns everywhere who work so hard to provide a much needed service to their communities finally receiving such a well-deserved recognition."

In 1985 the Shrine of North America was awarded the American Hospital Association citation for meritorious service for the outstanding medical care it has provided through Shriners Hospitals for Crippled Children. The Shrine was the first social organization to be named as recipient of that prestigious award.

The Shrine of North America is an international fraternity composed of

189 Shrine Temples across North America, whose membership numbers approximately 868,000. The fraternity established Shriners Hospitals for Crippled Children in 1922 and today operates 19 orthopaedic and three burns hospitals where expert medical care is provided without charge to children under the age of 18.

Bronco Basketball

The Clarendon Broncos were defeated by the Memphis Cyclones 72-33 in the final game of the first half of district play. The quickness and jumping ability of the Cyclones enabled them to take a 37-16 halftime lead. The second half was a repeat of the first in which the Broncos were unable to slow down the Cyclones

offense or penetrate their defense with much success. Clay Sharp made many good defensive plays and was the defensive player of the game. The leading scorers were James Ariola and Shawn Hermesmeyer with 11 & 8 points respectively. Ward and Ariola had 8 rebounds apiece. Jay

Gage had 5 boards. The Broncos ended the first half of loop play with a 1-4 record, tied for fourth with Shamrock and Wellington. Canadian finished with a 5-0 record for first place. The Broncos started the second half of district with a 51-30 loss to the Canadian Wildcats. A strong Wildcat defense made the score 28-9 at halftime, but a more intense Bronco team in the second half was only outscored 23-21 by Canadian, whose overall season record is 19-2. Chris Ward had an outstanding game for the Broncos: Shorting

60 percent from the field for 12 points, nine rebounds, and 3 assists. Clint Hunt played well on defense and had five rebounds. James Ariola, Jay Gage, Clay Sharp, Ken Miller and Shawn Hermesmeyer also turned in good performances. "I am really proud of this team and their effort. We did some things in the Canadian game that was unusual for us when we were behind by twenty points and the young men kept their composure," said Coach Loveless.

The Broncos travel to Quanah this Friday, host Shamrock next Tuesday for their last home game, and travel to Memphis on February 13th for the final game of the 1986-87 season. All games should start at 8:00 p.m. Comeout and support our young Bronco team.

Boys Ranch takes over Girls Town

A joint announcement was made today by Roy Turner, President of Cal Farley's Boys Ranch and Charles King, President of Girls Town USA, stating that Cal Farley's Boys Ranch will assume the control and operation of Girls Town USA. Recently the Board of Directors of Girls Town asked the Cal Farley's Board to consider assuming their operation and after several months of discussion the Boys Ranch Board unanimously agreed to accept this opportunity.

"We at Cal Farley's Boys Ranch think this is a wonderful opportunity to apply Cal Farley's philosophy of raising children to girls as well as boys," Roy Turner said. "Our main goal and concern is doing our best for each of the young ladies in Girls Town's care and to help as many children as possible."

Cal Farley's Boys Ranch, which now makes a home for nearly 400 boys between the ages of 5 and 19 years of age, has become one of the most successful child caring facilities in the country due to Cal Farley, a dedicated Board of Directors, a hard working staff, but most of all because of our friends who have supported us for from the beginning. We know they'll continue their friendship and support as we meet this great challenge and opportunity," Mr. Turner said, and we can give the same opportunities to the girls as well as the boys."

Marshall Cooper, Executive Director of Girls Town USA for 23 years stated, "We have followed the many ideas and concepts of Cal Farley's Boys Ranch since 1949 and I see this as a means of providing the best for our girls and they can have the same opportunities as the boys at the Ranch."

"Girls Town USA will continue operation as a separate organization as will Cal Farley's Boys Ranch. All the girls will be housed in present Girls Town facilities either at Whiteface, Borger, Austin or Lubbock. We have a lot to learn and we must evaluate the program on each campus and the facilities, for the best advantages of the girls. Presently there are 65 girls being cared for by Girls Town and there is a capacity of 150. The cost for each girl is about \$23,000 per year. We will continue to need good friends, helping in whatever way possible, to provide a future for the fine young folks who need us," said Roy Turner.

PARENTING TECHNIQUES (Cont.)

Last week we began to look at the subject "Parenting Techniques". We discussed in our first article on this subject the fact that every mother and father has a parenting technique, even those who are permissively silent and allow their

little rascal to display his sin nature. We also mentioned that your children's behavior reflect the parenting technique you currently use and that it may also reflect the Biblical technique which you don't use. In this weeks article let me share with you some unbiblical parenting techniques.

1. THE THREATENING PARENT
This parent tells his child what to do and expects his child to disobey initially. Therefore, when the child disobeys, the parent doesn't administer discipline, but rather repeats the command. With each repetition the command becomes louder until the final "If you don't...I'm going to..." is yelled! The voice is raised; the threat is hurried; the child responds. Unfortunately, this parent is training his child to sin by training him to disobey. He has forgotten Colossians 3:20, "Children obey your parents in all things; for this is well pleasing unto the Lord."

2. THE BRIBING PARENT
This parent barter with his child for acceptable behavior. "If you are good in the store daddy will buy you a..." is a very common proposition. Unfortunately, this parent only seeks temporary control over his child, and is teaching his child to obey for selfish reasons -- because he can get something in return.

3. THE PERMISSIVE PARENT
This parent doesn't restrain or

provide boundaries for his child. He doesn't discipline the child's behavior. This kind of parent usually feels that man is basically good and when left alone he will develop properly. This is wrong. Man is a sinner from birth (Psalm 51:5). When left alone he develops into a selfish and sometimes savage person.

These are some of the common techniques mothers and fathers use in rearing their children. They are wrong and unbiblical, and as such will produce children estranged to the ways and will of God.

Commercial Vegetable production prospects to be examined

People of Donley County who are interested in commercial vegetable production can learn about the potential as well as the problems of such a venture by attending a special program February 10 in Clarendon.

The Eastern Panhandle Commercial Vegetable Seminar will be held at 7 p.m. in the Fine Arts Auditorium at Clarendon College, said County Extension Agent Ronald Gooch. Conducted by the Texas Agricultural Extension Service and the Donley County Crops Committee, it is especially tailored to vegetable production and marketing in Collingsworth,

Donley, Gray and Wheeler counties. "We want to give producers and those thinking about vegetable production some ideas and some tools for problem solving as they make their decisions," said Dr. Roland E. Roberts, Extension vegetable specialist at Lubbock. He is coordinating the program with the four County Extension agents.

Topics and speakers will include: Soil fertility management for vegetables, Dr. Michael Hickey, Extension soil chemist, Lubbock; Soil moisture requirements and irrigation management, Leon New, Extension

irrigation specialists, Amarillo; Potential vegetable crops and production requirements, Roberts; Economic potential for vegetable production, Dr. Steve Amosson, Extension agricultural economists and management specialists; Amarillo; Business considerations for new growers, Roberts; and, Getting others to tell your story, Joe Bryant, Extension communications specialists, Lubbock.

The program is free. Additional information is available from the Donley County Extension office, telephone 874-2141.

Alzheimer's Disease adult sitter workshop

The Area Agency on Aging is planning an Adult Sitter Workshop. The workshop is scheduled for February 25, 1987 with registration at 8:30 a.m. The class will begin at 9:00 a.m. and continue until 4:30 p.m. with an hour break for lunch on your own. The workshop will be held in the PRPC conference room, 2736 West 10th, Amarillo (The Old Quarter Horse Building). Participants will develop skills to enable them to sit

with Alzheimer's disease and related disorders victims. Volunteer Adult Sitters will be able to give families a much needed break in the constant care required by persons with Alzheimer's disease or related disorders.

Materials will be provided by the Area Agency and Barbara Fowler, Randall County Extension Agent. Amarillo College will give continuing education credits.

The course is free but pre-registration is required. Registration will be limited to 35 participants. There will be a second workshop offered, that is a repeat of the material, on March 11, 1987. If you are interested in attending, please pre-register by calling Barbara Seres, 372-3381 or writing to Ms. Seres, PRPC, box 9257, Amarillo, Tx 79105.

Clinic service fees for health dept.

The Texas Department of Health announced today that the clinic, as well as all public health clinics in 25 county Texas Public Health Region I, will begin collecting fees from patients 1-15-87. The fees are to help cover what it costs the clinic to provide its services. Payment will be based on the patients' abilities to pay, allowing for income, family size, and types of treatment needed.

Because the Texas Department of Health's funds for distribution to public health clinics have been limited, and because the number of patients has increased while health care costs have soared those patients who can afford to contribute to the costs of their services will be asked to do so.

Rita Anderson, Public Health Nurse said, "Charging small fees for clinic services is a way patients can help the state pay for the minimum costs of our services, and it is a means of ensuring our continued service to all who need health care."

"I want to make it clear that no one will be denied service at our clinic because he does not have money. We just need for those who do have some

resources to help pay for the services they receive, and allow us to use the limited funds we have to deep on serving everyone. In addition, we want to urge anyone who can afford private health care to see a family physician," Anderson explained.

Fees will be collected using a sliding scale similar to those now used in assessing fees for some family planning services and in determining eligibility for the Department of Human Services' Food Stamp and AFDC programs.

"Many of our patients are already familiar with one or all of these programs, so a sliding scale as simple as the one we have designed should be easily understood. We are producing bilingual information to be handed out to our patients, and we are training all our staff to answer any questions patients might have about the new system," Anderson said.

"Every cent of the patients' contributions will go toward defraying the growing costs that have threatened the clinic's ability to continue serving all persons who need our help," Anderson said.

Weight Watchers announces modification to its weight program

Weight Watchers will get its more than 800,000 members on the move in 1987 with the introduction of its Quick Start Plus Exercise Plan and Self-Discovery Plan. According to the Department of Health and Human Services, staying overweight and not exercising regularly are among the top "unhealthy habits" in the U.S. The 1987 Weight Watchers program elements are a direct response to that fact.

Along with the Quick Start Plus Food Plan and a group support system, the Quick Start Plus Exercise and Self-Discovery Plans complete the Weight Watchers four-pronged

approach to weight control.

"Americans now eat five to ten percent fewer calories than they did 75 years ago, yet they weigh an average of five pounds more," says Dr. William McArdle, professor physical education at Queens College and exercise physiology consultant to Weight Watchers International, Inc. "Research now indicates that exercise is a significant adjunct to a weight reduction program."

Under the guidance of Dr. McArdle, Weight Watchers has created an exercise plan which incorporates activities easily into any life-style. Members will choose

Cholesterol getting to the heart of the problem

Are you afraid of things that don't go thump, thump in the night? Like your heart, for example. Heart disease is the leading cause of death in the United States, but it's probably the most misunderstood disease around.

The biggest misconception surrounding this disease centers around the roll of cholesterol. Many Americans have banished red meat from their diets because of cholesterol. If this is what you've done, take another look. The facts may pleasantly surprise you.

Coronary heart disease is caused by coronary atherosclerosis, an irregular thickening of the walls of the arteries that supply blood to the heart muscle. The primary cause or causes of atherosclerosis are not known.

Statistics have shown that persons with elevated serum cholesterol levels are more likely to develop atherosclerosis than those with normal levels. Because of this link, some scientists believe that dietary control may reduce the risk of developing heart disease. Scientific experiments, however, have yet to

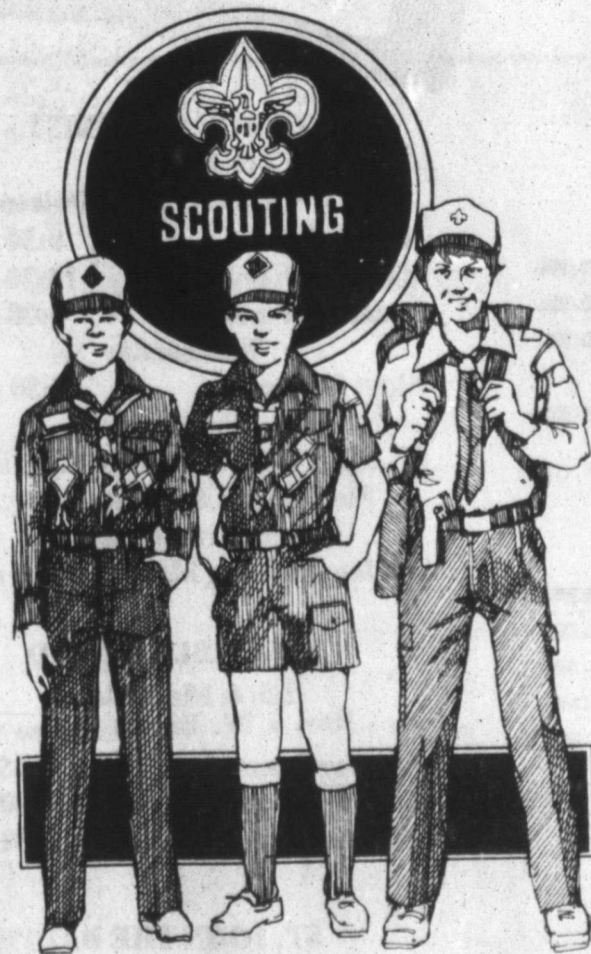

prove this hypothesis.

Even when no cholesterol is consumed, the body manufactures between 800 and 1,500 milligrams daily anyway. Cholesterol is an essential part of body chemistry and the body will fight to keep it around. Many scientists believe that high blood cholesterol is probably a sign, rather than a cause, of atherosclerosis.

Even though scientist disagree on all the causes, individuals can take certain steps to minimize risk factors generally associated with atherosclerosis. Cigarette smoking, lack of exercise, obesity, stress and high blood pressure contribute to heart disease and most scientists agree that they should be controlled.

As for cutting down on dietary cholesterol, the debate rages, but most experts agree that it can't hurt. The American Heart Association recommends 100 grams of cholesterol per day. At 65 milligrams of cholesterol per three-ounce serving, broiled top loin fits well within AHA's recommendation. So enjoy! At that low level, your heart can safely go thump, thump in the night without your tummy going grrr, grrr.

Boy Scouts of America

Celebrating the 77th anniversary of the Boy Scouts of America, our local Cub Scouts, Boy Scouts, and Explorers will take part in a variety of activities from February 8 to 14, this year's anniversary week. A traditional ceremony held on February 8 will include participation by Scout members to rededicate themselves to the Cub Scout Promise, Boy Scout Oath, or Explorer Code. As active business members of our community as well as private citizens, friends and neighbors all, we commend the valuable training that is offered to these young men.

We salute the Boy Scouts of America, the chartered organizations that use the Scouting program, and the dedicated volunteer leaders who make it all possible, as they say, "for a better life."

Circuit assembly to be held in Amarillo

"Joyfully Enduring Trials Gains God's Approval" will be the theme of the two day Circuit Assembly of Jehovah's Witnesses to be held February 7-8 at the Amarillo Civic Center Auditorium.

David McClain, local minister of Jehovah's Witnesses estimated the attendance for the convention to be over 2,000, with delegates from 20 congregations in Northeastern New Mexico and the Texas-Oklahoma Panhandles.

Robert L. Harman will be the Assembly overseer assigned to this area by the world headquarters of Jehovah's Witnesses in Brooklyn,

New York. Harman has been an ordained minister for over 30 years. He has served in more than 15 states, with 16½ years in Alaska and the Yukon territory of Canada. He has been serving this area for the past two years.

Assisting with the Assembly will be Ernie Morris, Circuit overseer for the Panhandle of Texas, parts of Oklahoma and New Mexico.

At the North Congregation, located at 1311 North Taylor, Harman spoke about the event. He said, "Saturday will take up the use of the Bible and the ministry, with the highlight being the baptism of new

ones." Sunday at 2 p.m. Harman will be the feature speaker, when his topic will be "You Can Enjoy Life In Peace Now". He said, "all sessions will be open to the public beginning Saturday 9:55 a.m. until 4:15 p.m. and Sunday 9:55 a.m. until 4 p.m., with a special invitation to the public Sunday at 2 p.m."

A RESPONSIBLE LIFE

It would be so easy to quit and say to myself, no one is interested in what I have to say, but how can I, as long as I feel his leading and hear some of you say you are enjoying the articles. To do his will is all I want for my life and yours. If what I write brings a little light into your life, it is worth all the effort. To know him and to serve him is the reason I keep inviting you to know him. One of these days, we are going to stand before him and he will ask us what we did with the life that he gave us. Don't wait too long before you ask him. I can't answer for your life. Only you can do that. "Men, this is for you." The Bible teaches that Jesus is the head of the church and gave his life for it. His word teaches that you are the head of your house. The responsibility of the Spiritual Life of that home is yours. Not your wife or your oldest son, but yours. Setting in the coffee shop on the Lord's Day is not what I read in his book about a leader. You can't divorce yourself from your place of responsibility in your home. If you are the Spiritual leader of your home this is not for you. Only to encourage you to do more for the Lord.
