## Hospital District Board to vote on tax rate Sept 2nd

The Board of Directors of the Donley County Hospital District will meet in open session on Friday, September 2nd to vote on the tax rate for fiscal year 1988-89. At the present, the Board is proposing a 6% tax increase as was discussed at a public hearing on August 25th. This increase will amount to an increase of .01/\$100. The tax revenues that come into the District are used in three primary areas: (1) Retiring the District's bonded indebtedness; (2) Maintenance and operating costs of the facility; (3) Indigent health care costs. With the facility continuing to operate and provide health care to the citizens of Donley County, the costs of providing that care are increasing. There is also the need to comply with new State and Federal regulations. Once again, the public is invited to this open meeting on Friday, September 2nd, 7:00 p.m., in the Dining Room of the Medical Center Nursing Home.

**CURB AND GUTTER WORK.** Contractors have installed curbing and gutter along both sides of Bugbee for about two blocks south of Hwy 287.

Bugbee is one of the most travelled streets in Clarendon, with heavy use by school buses. When repaved, the new curbing should help prevent the

edge of the pavement from washing away in heavy rains--if it rains again one of these days.

## Bronco's open season at home Friday

CHS Broncos open season play this Friday night at Bronco Stadium against Wheeler. Game time is at 8:00 p.m. The J.V. team will play Wheeler in Wheeler Thursday night at 7:30 p.m. A reminder to all you faithful Bronco fans that season tickets are available for home games at the school.

Bronco varsity gridders scrimmaged a larger Follet team Friday night in Miami and displayed some

excellent execution on the field. It was quite apparent to the spectators the team has worked very hard this year to get where they are. Hats off to the offensive line for their performance bustin' big holes for the backs to make those long gainers. The defense also tallied high with three interceptions. This year's good team spirit and team play will make a difference both on and off the field, so get out your maroon and white,

reserve this Friday night and come support CHS Broncos. They're bustin' loose in '88.

## Firebelles to sponsor MDA rest stop

The Clarendon Firebelles, assisted by the Clarendon Firemen, will host their fourth annual rest stop for MDA. The rest stop will open around 4:00 p.m. on Friday and close approximately 4:00 p.m. Monday afternoon. It will be set up at the roadside park on the West end of town.

Free soft drinks, tea, coffee, and cookies will be given to all persons who stop by the rest stop. Donations will be accepted and all monies collected will be given to MDA for Jerry's Kids.

Any volunteers who would like to come sit at the rest stop or who would like to donate cookies will be welcome. To pass the time, games are played and sometimes the travelers join in for a break. Lots of interesting people are met from all over the country. There have been several who stop every year.

## Colt mothers to meet

Colt Mothers will meet for the first time in the 88-89 school year on Thursday, September 8, at 5:15 p.m. in the school cafeteria. Pam Fletcher, Colt Mother, said, "It is very important for every 7th and 8th grade mother to attend this meeting."

## Slow down and save a child

The heat index may not show it but the end of summer is close at hand. At least for the kiddos anyway. The 1989 school year officially begins September 1 in most areas.

For motorists, this means a return to 20 MPH school zones, school buses loading and unloading, and more children walking and riding their bicycles during peak driving periods. For kids, it means obeying traffic laws as pedestrians or bicyclists.

Parents can help make the transition from vacation to school much safer for everyone by teaching children traffic laws. If the child will walk or ride his bike, map out a safe route to school before begins. Remind them to behave properly while waiting for and riding in a school bus.

The return to school can be a stressful time for some children. Ease the tension by preparing them for their trips to and from the schoolyard.

### FIRST DAY JITTERS

"Nobody likes me at school," said the son. "The teachers don't, and the kids don't. The superintendent wants to transfer me, and the custodians hate it in for me. I don't want to go."

"You have to go," the mother insisted. "You've got something to offer

"You have to go," the mother insisted. "You're healthy. You have a lot to learn. You've got something to offer others. You are a leader. Besides, you are 49 years old. You're the principal, and you have to go to school."

## Buckle up for Back to School

Parents who "buckle up" themselves and their children could save more than a price discount during back-to-school activities this fall.

Back-to-school means new tennis shoes and notebooks and more cars on the road. Driving through mounting bottlenecks and snarled traffic with the number of vehicles exceeding holiday loads requires every precaution. "Buckling up before driving to the next shopping center or sale can be a major defense against being injured or killed," said Carla Baker, statewide coordinator for the Safe Riders Program at the Texas Department of Health.

The proper use of child safety seats is especially important during this potentially dangerous driving time. "Most accidents happen close to home in town, during peak traffic," said Baker.

Although use of child safety restraints has increased slightly since last year, the 1988 figures are still below 1986, according to the latest Texas Transportation Institute survey. After reaching a peak of nearly 60 percent in 1986, the rate of compliance with the state's 1984 child safety seat law declined to 49.9 percent in 1987 and has risen to 51.9 percent for 1988.

"Many parents see that their children have new clothes and books but then neglect them when they ride in a car or truck," said Baker. "School-age children should be buckled up securely even if the destination is a shoe store only three blocks away. And little brothers and sisters-state law requires all children under age 2 to ride in a safety seat. Because young children are more apt to be seriously injured in an accident, it's best for them to ride in a safety seat until age 4," Baker said.

A growing list of statistics continues to prove the wisdom of older children and adults using safety belts. Almost four out of five occupants who escaped serious injury in accidents on Texas roads in 1987 were wearing seat belts, according to the Texas Department of Public Safety. There were three times more fatalities in accidents where occupants did not wear safety belts.

Information on safety belt and safety seat use and on locations where low-income parents may borrow a safety seat is available from the Safe Riders Program. For information from Safe Riders, call toll-free, 1-800-252-8255.

## VFW Post No. 7782 established

The newly chartered Clarendon Post 7782 of the Veterans of Foreign Wars of the United States met again Thursday, August 18 at the Clarendon Volunteer Fire Department training room. District 13 Commander Greg Zamora, Senior Vice Commander, Ron Wilfony and Junior Vice Commander, Felix Mote were present and continued to assist and advise the Post on its organization.

Commander Zamora has pledged his assistance for as long as it takes for the local VFW Post to become fully organized. During the meeting, a new location for the Post was discussed. It was decided that the Community Center would be more suitable for the Post's purposes, and would enable those members with physical problems easier access to the meetings and Post sponsored functions.

The next meeting will be held at the Community Center on Thursday, September 1. They will continue to be held there on the first and third

Thursdays of the month until further notice. All you Veterans who have signed up and those of you who are thinking about it, come on out and join us on these dates.

Saturday, August 20, Don Brewer, Department of Texas Veterans of Foreign Wars Service Officer brought a Mobile Veterans Information Center to Clarendon. He was located on the Thruway parking lot from 9:00 a.m. until 5:00 p.m.

Several local veterans and their wives visited the Information Center and were assisted by Don. As a matter of interest, the Mobile Veterans Information Center that Don brought to Clarendon is one of five operating in the state. It is one of the many services provided for the community by the Veterans of Foreign Wars. The Information Center assists and advises all veterans, veterans' widows, and dependents. Membership in the VFW is not required to take advantage of this free service. Greg Zamora, District 13 Commander, Atha Zamora, Senior Vice-President District 13 Ladies Auxiliary, Jim Cockerham, Commander, Clarendon Post 7782, Connie Dromgoole, Post Quartermaster and several members of the new VFW Post were on hand to help Don and visit with the public about the purpose and goals of the Veterans of Foreign Wars.

**THE COWHAND WAS A LADY--** Many women ride and work cattle on Texas ranches, but Ninia Bivins (left) of the JA Cattle Co., Palo Duro, Texas, was the only woman to participate this year in the official arena competition of the eighth annual Texas Ranch Roundup. Here, she and two JA cowboys rope and brand a calf during team branding. Sponsored by Budweiser and the North Texas Rehabilitation Center,

the Texas Ranch Roundup brought cowboys, ranch hands and family members from 12 of Texas best-known ranches to Wichita Falls recently to vie for "braggin' rights" as best ranch in the state. In addition to challenging other outfits in a showdown of time-honored cowboy skills, ranch team members participated in a chuckwagon cookoff, a talent contest and First Lady competition.

**HOT CINNAMON ROLLS TEMPT HUNGRY COWBOYS --** There were no TV dinners or meals from a box at the Texas Ranch Roundup, held recently in Wichita Falls. Just the kind of hearty, homemade grub hungry cowboys have long headed

for after a day in the saddle. Darlene York (above), from the JA Cattle Co., Palo Duro, Texas, prepares a batch of hot cinnamon rolls during the annual Roundup's chuckwagon cookoff. The rolls, fresh from the oven, placed first in the baked good category.

### ACSC News

#### Disaster Legislation

Current legislation, if enacted, would authorize disaster payments. Before you plow or make other use of failed acres, producers must file an ASCS-574 (Application for Disaster Credit). We are now required to appraise all failed acres. If you must make use of the acreage prior to the time an appraisal can be performed by this office, you must leave representative strips throughout the field.

Producers who plan to harvest affected grain crops for other than grain should request appraisal prior to harvesting the crop.

Producers must maintain acceptable production evidence if the crop is sold or stored off the farm. If the crop is stored on the farm, a bin measurement service should be requested prior to disposing of any of the production.

#### 1988 High Moisture Feed Grain Loans

Producers who dispose of their high moisture grain through commercial feedlots or use on the farm, may receive a farm-stored loan on 100% of the adjusted dry weight. The producer shall, when requesting the loan, either immediately redeem the loan with certificates or substitute the eligible production. If the production is substituted, the loan cannot be redeemed with certificates. The producer shall certify that title to the commodity has not been transferred when the request for loan is made.

The moisture level of the commodity must be greater than 15.5% for corn and 14% for grain sorghum. Producer must present a scale ticket from a state approved scale showing gross weight, tare weight, date, and signature of an approved weighman. You must also present satisfactory evidence showing commodity, quantity, class moisture. Loans must be requested within 30 days after harvest of the commodity but no later than December 31, 1988.

#### Measurement Service Reminder

If you have signed up for measurement service and have not been notified that the service is completed prior to starting harvest, please let us know and we will get that farm completed so you can certify. Also be aware that when notified of the completion of the service you have only 5 working days (7 days) to come into the office and certify those acres.

#### CRP Farm Certification

Please remember that all CRP farms must certify the acreage use on an ASCS-578 before an annual payment can be made. This must be done in person in the county office.

#### Emergency Haying and Grazing of ACR and CU

The Donley County Committee made application for emergency haying and grazing of ACR and CU. The application was not approved because Donley County had not suffered a loss of 40% or more, relative to forage and grazing production. This means that there cannot be haying and grazing of these restricted acreages beginning May 15th through October 14, 1988.

#### ACR and CU Maintenance

ACR and CU acres must be maintained through December 31, 1988. Weeds must be controlled. Failure to do so could result in a payment reduction and/or the loss of all program benefits.

#### Sodbuster Reminders

You are reminded that breaking out any land that currently is in Alfalfa is a violation of the sodbuster provisions. Please do not plow any alfalfa up before checking with the Soil Conservation Service about a

conservation plan for that farm and specifically, the alfalfa acreage.

#### ACP Program Sign-up

An ACP sign-up will be held 8/29/88 through 9/09/88. There are more funds available now than we usually have this time of year. This will be a good opportunity for you to secure assistance on a conservation problem that you may be having. Come in during this period and let us see if we can help you.

#### Generic Certificates

You need to keep track of the expiration dates on your generic certificates that you receive. If these certificates expire before you sell them, you may request a reduced cash value. Please watch the expiration date. Most buyers need at least 15 days before the expiration date to re-sell them, so don't wait too long.

#### Holiday

This office will be closed September 5, 1988, for Labor Day.

Texas leads the nation in the number of hospital closures. The Texas Hospital Association in Austin reports 56 hospitals have shut their doors since 1984. There are 49 Texas counties without a single hospital. The crisis in rural health care can basically be attributed to the following factors: (1) The inability to attract physicians. This is probably the greatest problem. (2) The flight of young wage-earners from failing, rural economies. (3) Severe medical personnel shortages. (4) Rising regulatory and malpractice insurance costs. Prospective payment systems have hit rural hospitals very hard. While urban hospitals could shift some losses to other payers, rural hospitals were more likely to lose money because of their dependence on Medicare. It's not uncommon for rural hospitals to depend on Medicare for 70% of their income. Increasing costs of operation as well as the continuing need to comply with new regulations will certainly have an impact on the Medical Center Nursing Home and the long term care industry as well. Inadequate reimbursement from Medicaid

Caring People...A Lamp to the Community

Thanks to Joe and Kay Bownds for a big bag of bananas, we enjoyed them in the pudding last Thursday.

How about the crowd we had at Dance Practice on Monday, August 22nd. It was a good time night - hope to see all of you back this Monday.

A group of sixteen went to see the musical drama "Texas" on Tuesday, August 23rd. The reports were everyone had a good time. Thanks to Debbie Pounds for coordinating the trip and James Pounds for driving the bus.

Thanks to D.W. and Lucille Swain for handling the Musical Jam Session on Friday, August 26th while I attended the annual Panhandle Regional Planning Commission meeting in Amarillo. Sounds like they had a good time and lots of good music. Musicians were Forrest Denton, Maxine Denton, Creed Smith, Weldon Petty, Dick Stephens, Dee Williams and Squeaky Wilson from Perryton.

and a lack of strong participation from the private sector are major contributors to the squeeze we're now seeing in the long term care area. Steps must be taken now to plan for the changes that are most assuredly going to be made in the not too distant future. Will Donley County meet the challenge? Are we willing to look for a long range solution? We cannot afford to make the necessary changes as they confront us. We must be progressive, aggressive, and innovative enough to tackle the problem before it reaches a danger point. We must look to the future and work with each other to see those changes made for the betterment of our community.

Next week, we'll look at the "Resident's Rights Policies" of the Medical Center Nursing Home.

**Thanks goes to local 4-H K-9 Korp**

I would like to personally express to each of you, my congratulations on hosting one of the finest 4-H Dog Shows I have observed. I deeply appreciate the warmth and friendship you showed me.

As the 4-H Staff member assigned to the Dog Project, I also have had concerns about the State 4-H Dog Show and the Future of the 4-H dog project. As the parents of a soon to be 9 year old and 4-H dog show participant, I want a program that teaches not only knowledge and skills but also teach responsibility, leadership, working with others while involving the entire family.

The chance to meet and work with each of you has made me excited about what the 4-H dog program can become. With my limited knowledge in dogs; I need help in managing the dog program. I met 5-10 good folks in Amarillo, who I know are dedicated to making the 4-H dog program the most successful and fastest growing 4-H project in Texas. I look forward to our October 5th meeting in Lubbock.

At this point, I do not see any county ever topping the effort you made. I sensed a caring, loving community that stressed the values of the family. The people of Donley County and Clarendon can do whatever they set their minds to.

Thanks again.

### Get the most from freezers

The money saved by freezing fresh produce or food bought on sale can easily be eaten up by energy costs if you don't make good use of your home freezer.

A frost-free freezer costs about \$15 per month for electricity, depending upon its size and your local electric rates. You can keep your freezer from using more electricity than necessary by making sure it operates efficiently, according to Bonnie Piernot, a consumer economics specialist with the Texas Agricultural Extension Service.

"A freezer inside the home requires less energy than one kept in the garage because it doesn't have to work as hard to maintain its low temperature," she said.

"When the garage is the only space available, put the freezer against an inside wall, if possible, since it will be cooler there. If your garage has no ventilation, consider adding a roof vent for air circulation and lower temperatures," said Piernot.

The specialist said a full freezer runs more efficiently than one that's half empty. If you use your freezer very little, consider pulling the plug on it, buying only what you need for a short period and storing it in the refrigerator-freezer.

"Older freezers often use extra energy because they have leaky gaskets that let cold air escape," she said. "Test the rubber gasket by placing a piece of paper in the door and closing it. If you can pull the paper out without tearing it, the gasket needs to be replaced."

Depending upon the size of the freezer, Piernot said replacing a rubber gasket is about a \$15-25 do-it-yourself job.

"Don't freeze foods you eventually have to throw away. If your family doesn't eat zucchini, for example, freezing quarts of it will simply be a waste of money. Freeze foods you need and use most often and in amounts you can use within the recommended storage time," said the specialist.

For best quality in frozen foods, Piernot suggests checking the temperature of the freezer with a freezer thermometer to make sure it is at 0 degrees Fahrenheit or less.

"Invest in moisture-vapor proof plastic bags and wraps, freezer wrap, freezer containers or heavy duty foil

to prevent freezer burn," she said. "Don't try to cut corners by using old plastic bread bags or containers not meant for freezing since that will just reduce the quality of the food."

"Also label and date frozen food packages. Then keep a simple inventory of your freezer to tell you what's on hand and remind you to use packages of food within the recommended storage time," said the specialist.

BY NINA RIDDLESPURGER

Fred and Guy Watt attended the Inventor's Expo in Abilene recently. According to Guy the trip was a huge success. The trip was long and hot, the meeting hall was almost freezing the speakers were long-winded and he had no idea what they talked about, the beds in the motel were the most uncomfortable he ever slept in. To make matters worse his nephew and niece. Langly and Mariah Couch brought their parents, Leon and Linda from Morton and he missed most of their visit.

Recently Otis and Ester Owens had a visit from some folks from West Lake, Calif. A niece and nephew R.V. and Sue Owens and a sister-in-law who is Julia Owens visited with them and they also visited with Faye and T.E. Naylor. Naomi Kemp had a birthday on Saturday August 27th. Happy Birthday Naomi!

Rachel Adams celebrated a birthday on Monday the 29th of Aug. Hope Rachel had a great day, and Eva Hammack had a birthday on Tuesday the 30th of Aug. Hope Eva had a good birthday.

Bill and Juanell Carson recently had a visit from their daughter and grandchildren from Tulsa, Okla. They are Susan, David, Nanci and Carmen Cosby.

Bob White visited with Mary Ruth and Harold last week. Bob is from Midland and was here on business.

On Tuesday Mary Ruth took Don Blanks to Amarillo to see the eye doctor.

Jim, Jean, Kim and Tim Taylor and Robyn Beggs went to Lake City, Colo. for a few days of jeep trails and mountain climbing this last week. They all sure enjoyed the trip.

Fred and Peggy Watt had all their children home for the weekend. Leon and Linda Couch, Langly and Mariah of Morton and Su-San Couch of Amarillo joined Keith and Guy at home. **CANCER MYTH**  
Leukemia, a cancer of the blood-forming tissues, can strike men and women of all ages. Common myth says leukemia only occurs in children, but the American Cancer Society states that this disease occurs more frequently in adults than young people. Since symptoms are often tough to detect in the early stages of development, it's important to have regular health checkups, including blood tests.

labor for His kingdom. Only last week, I spotted a bumper sticker which read, "I live for weekends, holidays, and vacations. No doubt all of us have felt this way on numerous occasions, but deep down, we know that our lives would be much poorer--and not just from a monetary standpoint--if we had no jobs to go to.

Why is this? I believe God has put into us a desire to work, to produce, to accomplish, to contribute to the good of the community, and has placed His stamp of approval upon honest labor. One could rightly say that He now only approves of our being working people. He commands it. "Six days shalt thou labor and do all thy work" (Exodus 20:9). "... We beseech you, brethren, ... to do your own business, and to work with your own hands, ... that ye may walk honestly with them that are without, and that ye may have lack of nothing (I Thessalonians 4:10-12). "For even when we were with you, this we commanded you, that if any would not work, neither should he eat. For we hear that there are some which walk among you disorderly, working not at all, but are busybodies. Now them that are such we command and exhort you by our Lord Jesus Christ, that with quietness they work, and eat their own bread" (II Thessalonians 3:10). "The sleep of the laboring man is sweet, whether he eat little or much. ..." (Ecclesiastes 5:12). Having spoken of the hard work of a virtuous woman, the writer of the Proverbs says, "She stretcheth out her hand to the poor: yea, she reacheth forth her hands to the needy. (Proverbs 31:20).

Why, then, should we celebrate the fact that we have work to do? Because, He who commands our labor, He who knows our every need, sees that we need protection from the dangers of idleness. We need a continuing source of provision for ourselves and our families. We need the "sweet sleep" which honest labor brings. And we need to have that little something extra to give to those who, for whatever reason, have not been able to provide for themselves.

But perhaps a word of warning should be included here. Perhaps "how to work" is a lesson we have learned a bit too well. We have had the Protestant work ethic drilled into us for so many generations that perhaps we forget that the Word also says, "In six days the Lord made heaven and earth, the sea, and all that in them is, and rested the seventh day: wherefore the Lord blessed the sabbath day, and hallowed it" (Exodus 20:11). And in the verse just previous to this, we are told to do no work on this seventh, blessed, set-apart day. In Exodus 23:12, we have this commandment restated, with the added comment that a man's servants and animals, as well as he himself, need a time of refreshing. In the eleventh verse of that chapter, God instructs that even the land itself be given a rest once every seven years.

And so, as Labor Day approaches, we should say to each other, "Enjoy your job. It's one of God's many, many blessings to us." But we should also say, "Enjoy those days off, those vacations, those holidays. They, too, are His gifts, and we need not feel guilty about our enjoyment of them." May God grant you the blessing of meaningful, productive work, and may He grant you those times of refreshing--even this weekend--when you can relax, be renewed, and have your thoughts turned again to His love and provision of your every need.

## Labor Day Holiday

The Labor Day holiday will be the last holiday of the summer. While the motorists of Texas are making their plans for the holiday, the Texas Department of Public Safety is also making plans for Labor Day.

Major Vernon Cawthon, Regional Commander of the Texas Department of Public Safety in Lubbock, stated, "The Labor Day weekend will run from 6:00 p.m., Friday, September 2nd until 11:59 p.m., Monday, September 5th. During that time all available Department of Public Safety troopers will be on duty. These troopers have been instructed to be on the alert and direct their enforcement efforts toward those violators causing the most accidents--speeders and those who drive while drinking. Troopers are also aware that traffic deaths are sharply higher at night, there are more fatal accidents at night than daytime even though there are fewer vehicles on the road at night."

He added, "The Texas Department of Public Safety urges all Texas drivers to slow down to the legal speed limit, avoid the use of alcohol, if they plan to drive, and to use their safety belts and above all do not try to crowd a weeks vacation into 3 days."

**WORK: BLESSING OR CURSE?**  
By Jon Leggett

As we approach another Labor Day weekend, let's take a brief look at God's attitude toward work. Even a casual study of the subject reveals that the Lord has a great deal to say to us about our work. And yes, we are talking about the sort of work that we do for a living. God is interested in our secular jobs just as He is in our

for presorted mail. This could possibly represent a cost effective method for monthly billings if the City were on a computer system. City Secretary Donna Edwards was asked to check with Groom regarding their computer system to see if this would be cost effective for the City.

\*Discussion followed regarding a lot that needs to be mowed belonging to Mrs. C.A. Ragsdale. She wants to pay the City to mow the lot, but it contains a great deal of scrap iron, rock, and other materials that needs to be cleared before the mowing can be done. The Board suggested seeing if Neil Smith or B.W. Smith would want to clear the lot for the scrap iron.

\*Alderman Benny Osburn asked the maintainer operator and Water Superintendent questions concerning the grading of City streets and received their responses.

\*Roger Finch discussed with the Board the employees daily job records and if it is necessary to continue writing down each job each day as it has become time-consuming. Alderman Bivens felt the records were necessary to correlate what was being done and would like them continued. Roger Finch also discussed having each man keep records on the equipment they primarily use, and he also gave a description of the work needed on the City pickups, and discussed buying backhoe tires out of town if one is needed right a way and it appears that there will be a wait for an order to come in, and also discussed buying Texaco oil.

\*Motion was made by Alderman Paul Bivens to give City employees a 2% raise, not replace Park Taylor upon his retirement, and possibly raising salaries next June if the City can do the work without adding an extra man. The motion died for lack of a second.

\*Diane Chamberlain went over proposed Library budget figures for 1988-89. Following adjustments in

the Library budget figures to comply with her proposed figures, and an adjustment to the Water and Sewer Department. The Budget for 1988-89 fiscal year was approved.

The effective rate on the 1988-89 total tax levy was raised by 3%. Due to the increase in values by the addition of new property to the tax rolls, the taxable value of property is up a little. The effective tax rate for 1988-89 will be .51486c per \$100 valuation. Last year's effective tax rate was .51032c per \$100 valuation, so that even with the increase the taxpayer will be paying approximately the same rate as last year. The 3% increase on the total tax levy will add \$5,224.58 to the amount budgeted for street repair.

## Ashtola-Martin News

Just .40 of rain brought a cool spell that really was a boon to tired feet and aching muscles of irrigation farmers. We heard that more rail fell at Brice and are grateful for the bounty received anywhere. Our condolences to Viola Graham and her family upon the death of her uncle Raymond Hinkle.

Robert and Elizabeth Graham of Plainview spent Sunday with Mike and Viola Graham.

Eillen Brown took Cary Sue Davis to Tulsa where they got with Betty, Don and Mandy Gresham for a trip to Colorado. They visited Todd Gresham and his wife Vici at their new home at Lewisville and with Kay and Harold Green's daughter's family Janice and Randy Farley at Boulder, Colorado. Eillen was gone over a week and had a wonderful time. She says she has told all her children and grandchildren not to leave town without calling her because she might want to go too.

Della Allen called me this week to tell me she is recuperating nicely at home from her hospital stay. I failed to report that her daughter Della Spivey from Grand Prairie had a purpose for her longer visit in Clarendon. I know how much Della appreciated the purposeful visit as I had a similar one from my daughter Patricia Doerrie of Perryton earlier in the summer.

Irene Vinson and Eadith Spivey visit ed Lola Bartel last Wednesday. Thursday Eadith Spivey visited with Abby Warner.

Lloyd and Melba Risley had business in Amarillo Monday. They visited with Warren and Ruby Jewel Hardin enroute home.

The Lacy Nobles and Don Mather- sons of Claude enjoyed dominoes at

the Lloyd Risley home Monday night. Billy Jack and Frankie Green of Umberger visited Sunday afternoon with Horace and Naomi Green.

David, Clint and Lindsay Green spent Saturday night with Grand- parents H.A. Greens. Don and Katherine Williams had lunch as they came to pick the children up Sunday.

I planted turnips 15th of Aug. and watered them up. H.A. came through and announced as they came up that I needed to start over. Being near sighted it looked like a nice green stand to me. As I stay on my knees pulling weeds out to feed the calf I am beginning to agree with H.A. The calf is enjoying the tender weeds with a few turnip greens thrown in. I hope my hamburger does not have turnip flavor.

We will finish preparations for the Ashtola Reunion Thursday morning at 9 a.m. at the Community Center. All help will be appreciated.

Hazel Brandon has a niece that was injured in a car accident, Joy Spurgen. She is in Brechenridge hospital in Austin. She is out of ICU in a room and is talking about going to her mother's Romaines home when released.

J.R. and Hazel Brandon attended the funeral of a cousin Allosa Simpson at Chillicothe last Friday.

Hazel and J.R. Brandon's guests at lunch time Sunday were: Don and Jimmy Lee Matherson of Claude, Myrl and Frank Reger of Hedley and W.D. Brandon.

Naomi Green was in Amarillo Monday and visited with Paula and Maze Nuss and with Beth and "Hoss" Watts and Charlotte Payne.

Leane Thornberry of Lubbock came after Seth and Trish this weekend. She and the children and Melba Risley visited friends in Memphis.

## Martin Community reunion held

Saturday, August 13 was a special day for many former Martin residents and some who still live in and around Martin Community. Arrivals for the day began about 9:30 and continued throughout the morning. Visiting, renewing friendships and exchanging family news were the highlights of the day. After all had enjoyed a wonderful meal together, entertainment was provided by a senior citizen group "Crazy Caps" band from Amarillo. Their unique music was made from pipes, rub boards, hand saws and other useful household items. A tambourine, a drum and keyboard rounded out the music. One member of the band who sys she is 3 score and ten plus did a tap dance. Another did a jig to "Oklahoma Shuffle." Floyd Crafford provided fiddle music.

Joyce Eddings Hunt had done some research and came up with some historical facts about Martin School. Those who had been Miss Blanche Bogard's first grade students were recognized. Members of several of the early families of the community were also recognized. Maudie Jones Billingsley was recognized as a student in the year of 1917.

Thayer Acord of San Antonio, who attended school in the 1920's told of his recent rip to Alaska where he visited his brother Randall who is also a former student. Randall sent his regards and says he plans to attend next year.

Some interested and energetic person had acquired a document containing some facts about how the school came into existence. It seems, according to record, L.F. Beckner, A.H. Elliot, and A. Rhodes decided in 1908 that Martin needed a school

to serve future generations. So they voted to purchase 2 acres of land for \$15.00 from J.B. McClelland and his sister Lucy Winn. This transaction was made August 4, 1908 and recorded August 18, 1908. School was started soon there after and continued until the late 40's.

Alice Pittman of Amarillo was the oldest person present - 96 years! She is credited with having a perfect attendance to all the reunions since they were started in 1984.

Those enjoying the day were from far and near: Calif., New Mexico, Okla. and Texas.

Nelda Easterling Adams, J.T. and Margarite (Lafon) Easterling, Ray and Johnnie Lafon Fleming all from California; Fred Easterling, Farmington, N.M.; Curtis Jones, Clyde Peabody and Carroll Peabody, all of Ft. Worth; Ruby Jones Billingsley, Maudie Jones Primrose both of Farwell and Nora Billingsley, Canyon.

From Lubbock came Buster and Selma Barker Vaughn, Paul and Mary Belle Kyle, Berta Mae Pool Patterson, Nelda Patterson Turner and Winston and Nita Wood.

**Pork referendum set for September 7-8**

Pork producers in Donley County will have an opportunity to vote in a special referendum September 7-8 as authorized by the Pork Promotion, Research and Consumer Information Act of 1985.

Purpose of the referendum is to determine the continuance of the 100 percent checkoff program which provides funds for pork research and promotion to enhance the pork industry, said Ronald Gooch, county agent with the Texas Agricultural Extension Service. The checkoff is at the rate of 25 cents per \$100.00 on all hogs and pigs as well as on all imported hogs and pork products.

Referendum voting will be conducted in the county Extension office during normal business hours September 7-8.

Producers and importers unable to vote in person may request an absentee ballot from Dr. Bill Thomas, Extension Swine Specialist, Kleberg Center - Room 212, Texas A&M University, College Station, Texas 77843. Absentee ballots will be available from August 1 until the close of business on August 26. Absentee ballot return envelopes, containing the ballot and registration/certification statements, must be signed by the voter and mailed so as to be received in the County Extension office serving the county of voter residence by close of

business on September 1.

All pork producers who produced and owned porcine animals in the U.S. for sale in commerce and who are subject to assessment during the representative time period of November 1, 1986, through September 6, 1988, are eligible to vote. Importers who imported porcine animals, pork or pork products during the representative time period also are eligible to vote. Also, eligible are 4-H, FFA and other youth who owned porcine animals and are subject to assessment during the representative time period.

The Agricultural Extension Stabilization and Conservation Service will count ballots, determine the eligibility of challenged voters and ballots, and report referendum results, said Gooch.

**Texas government ends fiscal year in black**

State Comptroller Bob Bullock Friday, August 26, said Texas government will end its fiscal year next week in the black for the first time in two years.

"When the state closes its books on the 1988 fiscal year on August 31, we'll be ahead by nearly \$100 million, and that's a sure sign the Texas economy is rebounding," Bullock said.

Last year at this time, the state was in the hole \$745 million. At the end of 1986, the balance in the General Revenue Fund was a minus \$231 million.

Bullock made the announcement at the West Texas Council of the Texas Chamber of Commerce's mid-year meeting Friday morning in Abilene.

The dramatic turnaround from a large deficit to a positive balance in just one year is further evidence of Texas' strong economic recovery, Bullock said.

He said that state income from sales taxes, motor fuels, insurance, oil and natural gas and the franchise tax are all better than expected.

"It's another clear indication that the Texas economy bottomed out in the spring of 1987 and is in a sustainable recovery," Bullock said.

"Texas manufacturing is coming back because of the lower value of the dollar and increasing competitiveness of U.S. exports. Consumer spending is being buoyed by confidence that the recession brought about by the collapse of oil and real estate speculation is over and that better times are ahead," Bullock added.

Bullock said that in June he raised his revenue estimate of 1988 major fund revenues by \$319 million in anticipation of the economic improvement, but "the economy's performance has even exceeded our expectations."

Bullock's early revenue estimate for the 1990-91 state budget shows projected state income for the next session of the Legislature will be enough to cover the cost of state services at the current level for the first time in five years.
