A Brilliant Success:

Light the Lights!

Clarendon, the oldest thriving settlement in the Panhandle, "lit up the town" last Monday night, for the first time in history. The event drew the largest crowd in recent memory, crowding the city sidewalks. Every major building is outlined in white lights.

The Clarendon Merchants Association sponsored the illumination, but they enlisted the help of many other community organizations. Traditionally, Clarendon has decorated the big conifer on the Courthouse lawn, but this year volunteers from the Methodist Youth Group, 4-H, the Pentecostal Church and the Young Homemakers Extension Club pitched in to decorate the courthouse square.

Clarendon Mayor Jim Sharrar and County Judge Billie Christal gave short welcoming speeches early Monday evening. The event was dedicated to Eddie Floyd, who has done so much for this community.

Terry Tamplen, president of the Ministerial Alliance and minister at the First United Methodist Church opened the Christmas season with a prayer. Then about 6:20 the official moment came, the lights went on, and the season was officially underway. Dan Hall of Calvary Baptist Church led the crowd in singing carols.

Stavenshagen Video, Bivens Pharmacy, The Grocery Store and several other merchants offered free refreshments. Most merchants in town stayed open until late Monday evening. They will also be open late each Thursday evening from Thanksgiving until Christmas.

The event was so successful that the Merchants Association is planning an even larger event for Christmas of 1992.

Holiday Safety Tips Given

State health officials warn that improperly thawed turkeys and careless food storage are two dangerous mistakes cooks should avoid during the holiday season.

Each year during the Thanksgiving and Christmas holidays, several food poisoning outbreaks occur in Texas. They usually can be traced to turkey spoilage.

Barbara Keir, director of the Public Health Nutrition program at the Texas Department of Health (TDH), said that turkey should be thawed in the refrigerator, or under running water (at 70 degrees or below).

"One common mistake is thawing the turkey at room temperature, which allows the surface to warm before the inside meat can thaw. That allows dangerous bacteria to reproduce and cause food poisoning," Keir said.

She added that thawing in a microwave oven is safe only if the food will be immediately cooked. After thawing, the turkey should be rinsed thoroughly and dried, inside and out.

Leftover meat should be cut off the bone and refrigerated. A safety rule is to freeze any portions to be kept beyond two days refrigeration. Stuffing should be stored separately.

Keir suggested the following hints for ensuring against salmonella poisoning, perhaps the most common form of food poisoning in the home.

"Prepare turkey stuffing immediately before cooking. Dry ingredients can be mixed in advance, but eggs, oysters, butter or other moist ingredients should not be added until cooking time.

"Cook the stuffing separately or stuff the bird right before cooking - not the night before.

"When fully cooked, dense portions of the turkey, such as the thighs, should have reached at least 180 degrees Fahrenheit, measured with a meat thermometer. The stuffing should reach at least 165 degrees Fahrenheit.

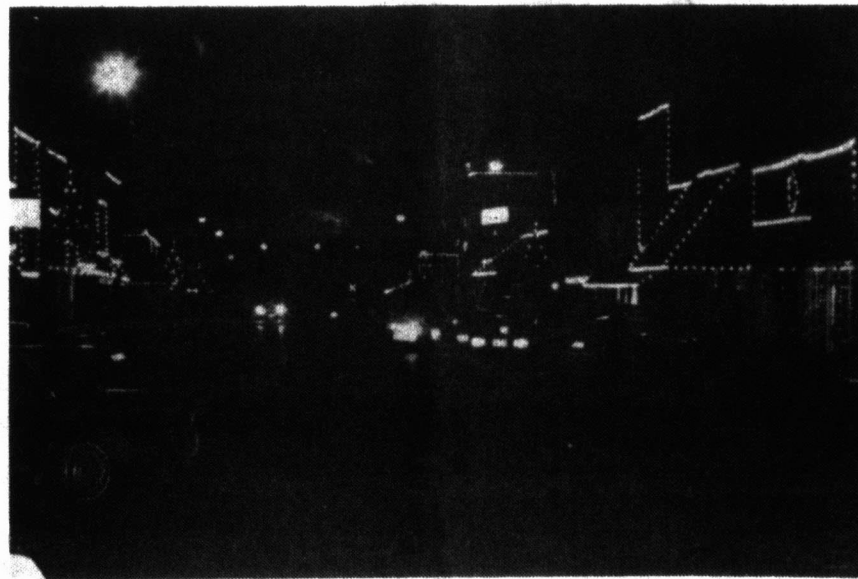

"Never leave a turkey, the stuffing, or gravy unrefrigerated for more than two hours.

"If the cook uses a microwave oven, the turkey should be rotated to ensure uniform cooking.

"Cooks should wash hands, cooking surfaces, utensils and all foods thoroughly and often during food preparations.

Thanksgiving Service Scheduled

The Donley County ministerial Alliance invites all people to attend our city Thanksgiving Service on Wednesday Evening at 7:00 p.m. at the First Baptist Church in Clarendon, Texas. Ministers from Clarendon churches and local singing groups will be participating. Offerings will be used to assist local and transient Benvolences.

CLARENDON MERCHANTS lights up main street for the Christmas season.

Texas Economy Gets Mixed Reviews

Material from State Comptroller John Sharp's office gives mixed information on the Texas economy.

In a press release, the Comptroller states, "Local sales tax rebates to Texas cities and counties are running \$123 million or 10.6 percent ahead of total payments this time last year." But at the same time, the same office released a map showing that poverty is widespread across the state.

Sales tax receipts were distorted somewhat by the fact that several counties were collecting new taxes, and many - perhaps most - counties had raised taxes this year. Counties in oil-producing areas appeared to perform better than others. The statistics reflect September sales which were remitted to Austin in October.

Donley County continued its erratic trend. September was not a particularly good month for the County. Sales were off 8.96 % for the month and off 1.22 % for the year-to-date. Yet many merchants expect October's report to be much better and November sales to be even better yet.

Clarendon was off 9.37% for the month, but only off 2% on YTD figures. Hedley was off 6.05 for September, but up 3.54 % YTD. Howard slipped 5.77 % for the month, but up 6.72 % for the longer period.

Regional statistics were similar. Claude (Armstrong Co.) was off 14.71 and 1.33 %. Briscoe was up 7.45 for the month, but up 0.23 % for 1991. Carson County was up a whopping 11.62 % for the month, but still off 10.81 YTD. Childress operated just the opposite, off 2.15 % for the month, but up 2.09 for the partial year. Collingsworth (Wellington) was off 1.59 and up 4.73 %.

The ladies Auxiliary of VFW Post 7782 is sharing Thanksgiving dinner with food baskets to local families. This is an annual affair and food baskets and gifts will also be shared during the Christmas Holidays.

Merchants To Be Open Late

The Clarendon participating merchants will stay open late on Thursday night until Christmas for your shopping convenience, beginning after Thanksgiving.

Notice To Rural Residents

The State of Texas has recently enacted legislation which prohibits the disposal of motor oil and oil filters as part of your normal waste stream. Consequently, the County will no longer be able to collect used motor oil or oil filters as part of your regular service.

Scrap metal dealers have been granted an exemption to this legislation, provided they meet certain criteria. For example, the filter must be drained for a minimum of twenty four hours before it is compacted.

In addition, used motor oil can and should be recycled. Recycling greatly reduces the volume of waste which finds its way into landfills and provides for reuse of vital resources.

The Texas Department of Health is charging money to help with the cost of keeping the clinic open. The amount of money charged will be based on family income and size, and the ability to pay.

The Clarendon News Will Be Closed Thursday & Friday For The Holidays

ECONOMY - from p. 1

Gray County slipped down 7.90 for September receipts, but was up by less than one per centum for the YTD. Hall County reported a grim 20.27 % decline for the month, but only 0.30 loss for the larger part of the year. Motley County's numbers were 11.64 % and -10.50. Randall was 5.72 and 9.97. Wheeler scored -9.89 and +7.19.

Such diverse figures suggest that there is no single powerful trend in the regional economy. Yet despite the uncertain signals, many business people are highly optimistic about prospects for the last quarter of the year. Sales seem to be recovering rapidly, and employment may be edging up.

Retirement Tea Set

A Retirement Tea honoring Bill Ellerbrook will be from 2 p.m. to 3 p.m. Monday, December 9th, in the Clarendon College Cafeteria. Antiinflammatory Medicines for Arthritis

Almost 40 million Americans suffer from one of several forms of arthritis. *Osteoarthritis* is a gradual wearing away of cartilage, the cushioning substance at the ends of bones. Cartilage loss causes bones to rub together, resulting in joint swelling and pain. *Rheumatoid arthritis* is a systematic disease that affects the membrane that lines the joints. The inflammation eventually destroys cartilage.

The primary treatment for rheumatoid arthritis pain is with a group of medicines referred to as the nonsteroidal antiinflammatory agents. These medicines can provide rapid relief from pain and joint inflammation. According to a recent report in *American Druggist*, the most popular nonsteroidal medicines are *aspirin*, *ibuprofen* and several prescription-only antiinflammatory drugs including *naproxen*, *diclofenac*, *flurbiprofen*, and *piroxicam*. These medicines produce their effect by inhibiting the body's production of hormones called *prostaglandins*.

Response to the nonsteroidal antiinflammatory agents varies from person to person. If dose adjustments are not effective in reducing pain and/or inflammation, different agents often are prescribed. Medicine side effects, which can include stomach, liver, and kidney problems, seem to occur more often in older persons.

Obituary

Ace Reid

Ace Reid, 66, cartoonist, died Saturday, November 16, 1991, at the Methodist Hospital in San Antonio.

Reid drew the famous cartoon "Cowpokes," a weekly self-syndicated cartoon which ran in more than 400 newspapers across Texas at one time. His cartoon had appeared in the Sunday business section of the San Antonio Ex-

press-News since 1953.

Reid was born in 1924 in Lelia Lake, Texas. When he was small, his family moved to Electra, where he was raised and graduated from high school. He joined the Navy after graduation and was sent to combat duty in the South Pacific during World War II. Reid began drawing cartoons while on the ship USS Lanier, for the ships newspaper called "The Sorry Salt." He returned to his ranch in Electra after the war to farm wheat, raise cattle, and drill oil.

He married Midge Parmley in 1950 and moved to Kerrville. In

the 1950's a drop in oil prices, and the loss of much of his cattle, he turned to his drawings to make a living. His weekly cartoon was carried at one time by the Fort Worth Star-Telegram, West Texas Live-stock Weekly and the Houston Chronicle.

Other survivors include his wife; a son; a sister, Doris Ernst of Fredericksburg; and two grandchildren.

Services were by Grimes Funeral Home in Kerrville, Texas.

small business concerns and small agricultural cooperatives without credit available elsewhere, and must be considered small by SBA's size standards." In addition to the agriculture-dependent businesses, nurseries may also be eligible to apply for the EIDL loans, Fronstin said.

Deadline Nears For SBA Disaster Loan Assistance

An Economic Injury Disaster Loan (EIDL) declaration was made in May 1991 affecting agriculture-dependent businesses in several West Texas counties, as a result of agricultural losses due to drought conditions January 1 through December 31, 1990. The counties involved are: Armstrong, Briscoe, Carson, Donley, Gray, Potter, Randall, and Swisher. Walter Fronstin, district director for the Lubbock office of the U. S. Small Business Administration (SBA), said today that the deadline for filing applications under that EIDL declaration is December 9, 1991. Following the regular opening ceremony, Boss Lion Robertson called the meeting to order, and Lontamer Henson introduced our guests including David and Cecilia Heugel and son Jonathan, from Amarillo. David is the First Christian Minister in Claude. They were the guest of Lion Bernabe. Tiny Bernabe was also Lion Bernabe's guest. Mike Jacobs, District Mgr. for Mutual of Omaha in Amarillo, was the guest of Lion Alderson. Program Chairman Smith introduced Leslie Schnauer of the Clarendon College Theatre Dept. who brought our program. She was assisted by one of her students, Mykla Hall, who is attending Clarendon College on the Delbert Robertson Scholarship. The College will be presenting a children's play at 2:00 p.m. on November 23rd and 24th, and at 7:00 p.m. on the 25th.

An Art Show featuring paintings by Clarendon College Students will be held in conjunction with the play.

Texas When Texas Was Free

Adobe Records in Shallowater, Texas, has released a second cut album, Texas When Texas Was Free by Andy Wilkinson, which includes a wonderful song, The Tumbleweed Christmas Tree. The song will begin to air, the day after Thanksgiving, on 168 radio stations around the country.

This story-song is about a lesson learned early in the life of Andy Wilkinson in a small Texas town at Christmas time. A true to life song that fills the heart with inspiration of the meaning of love and not money at Christmas time.

Andy Wilkinson's release titled Texas When Texas Was free is great folk and bluegrass music. His words and music will carry you back in memory to a time when life was more simple. Andy is a distant relative of Col. Charles Goodnight, who he credits for much of his interest in Texas history of the West.

Check It Out

by Mary Beth Nelson

Read any good books lately? Many of us whose favorite pastime is reading, probably have a tendency to examine the "Best Seller" list before anxiously seeking the next book we plan to read. More will be said in future articles about "Best Sellers" which are available at Burton Memorial Library. However, while visiting the City Librarian, Mary Linn Bills, last week, she used a term, "golden oldies", during our conversation concerning classics and wholesome literature which were written many years ago. The "golden oldies" expression is possibly original with Mary Linn, but with her permission, I'm adopting it into my personal vocabulary because it so amiably describes the books that I'm recommending today.

On a top shelf, at the back of the library, is a collection of fictitious novels written by Elswyth Thane, wife of Dr. Williams Beebe, a noted naturalist, explorer, and author. Thane has written fiction, non-fiction, and also two plays which might interest drama readers.

In her fiction, Thane writes with a certain charm as she individualizes her characters in a way which seems to make them come alive. I won't attempt to give titles of all her books, but will focus on a series of seven known as the "Williamsburg Novels" which include the elements of emotion, humor, suspense, and light romance set against various historical periods.

Each of the seven individual books provide interest on its own, but historical fiction fan would probably receive more reading satisfaction if the books are read in chronological sequence since the novels involve several generations of the fictitious Sprague, Crabb, Day, and Murray families.

Dawn's Early Light is the first of the Williamsburg Novels, and begins with the arrival of Julian Day in Yorktown, Virginia, from Southampton in 1774. Talented author, Elswyth Thane, creates

marriages, families, and suspenseful events through American Revolutionary years until a smooth transition is made into her second novel, Yankee Stranger. With increasing drama, the same families are involved as the southern belle marries a northern soldier during the Civil War period.

Thane's two following novels are Ever After, beginning with Christmas, 1896, and The Light Heart with 1902 beginning.

The final three in the Williamsburg series are titled Kissing Kin; This Was Tomorrow; and Homing. They fictitiously continue through the years, 1917-1941. The historical background of World War 1 and 2 intermitted with peaceful years contribute to the warmth and is evident through humor and emotion of the characters, and nostalgia to readers who actually experienced those years.

The Williamsburg Novels are only a sample of historical fiction waiting to be discovered in the library. "Golden Oldies" Why not "check it out"?

by Nina Riddlesburger

Dorothy Crawford and Pauline Kaufman recently attended the wedding of Pauline's grandson, Iman L. Crawford. The wedding was held in Amarillo. All of Pauline's children and a number of grandchildren were in Amarillo for the event.

They gave Pauline a surprise the day after the wedding. She was presented with an early Christmas gift. Pauline received a home entertainment center, which includes a new color TV, VCR, and a stereo. As you would expect, she was very proud of her early Christmas gift.

Birthday's celebrated: Paul Kyle former Hedley resident who now lives in Lubbock, Nov. 19th; Avayrilla White, Nov. 11; Geraldine Holland Nov. 21st; Sue Weatherly Nov. 22nd; and Opal Murry Nov. 23rd. Vergil and Opal McPherson celebrated their 56th wedding anniversary Nov. 23rd. They will be leaving in December for a week in the West Indies. Three of their daughters will accompany them on their trip. They are Kathy Richardson from Lawton, Okla.; Beverly Ray from Springfield, Mo.; and Carylton Kirkland from Amarillo. Just one more thing, Vergil, don't drink the kool-aid.

Billie Hunsucker celebrated her birthday the 24th of November. Billie is now living in Lubbock. Billie has been ill recently. If you would like to send her a card or letter you may do so at the following address, Lubbock Village, 4601 71st Street, Box 104, Lubbock, Texas 79424. We hope that Billie is feeling better and has a happy birthday.

Woodrow and Ora Pearl Faris will celebrate their 58th wedding anniversary Nov. 25th. Congratulations to this fine couple.

Laquita and Pick Cox went to Amarillo to celebrate the birthdays of two of their daughters. They first attended a party for Lucy Poole. They then attended a surprise party for Janette Burns

who thought she was going to friends house for dinner. Laquita said she didn't know which was the hardest on Janette the surprise party or turning 40.

Laquita and Pick have been enjoying a visit for a few days this last week from their granddaughter, Tessi Lynn Cox, three year old daughter of Carl and Becky Cox of Amarillo.

Ola Eppers is in Hall County Hospital in Memphis. Best wishes to Mrs. Eppers for a speedy recovery.

Ladies Program Included In Farm And Ranch Show

A ladies program will be included with the Farm and Ranch Show this year. Scheduled on Wednesday, December 4, registration will begin at 8:45 a.m.

A Christmas coffee, co-sponsored by Sunray Co-Op and the Potter County Extension Homemakers, will precede the series of speakers.

Gilda Bryant will discuss Biblical History Told Through Quilts, followed by "Where's the Beef--Here's the Beef" by Jeff Goodwin, Extension Associate of College Station. A Festive Foods demonstration by Mary Blinderman, Southwestern Public Service home economist, will be the concluding presentation.

Door prizes will be given by Sunray Co-Op and Beebe Lumber.

Sponsored by the Potter County Extension Home Economics committee, Alby Peters, Extension Home Economist, will be the program emcee.

Women of the area are invited. The event will coincide and be held in an adjoining room with the annual Farm and Ranch Symposium.

Changes In American Families Make A Big Difference

Significant social, economic and demographic changes in recent years have had a tremendous impact on individuals, families and family life. Families are smaller, more children live with only one parent, more mothers go to work, and more children live in poverty. Family roles and routines have changed including the tradi-

tional roles and responsibilities of mothers and fathers; and, regardless of income, parents and children spend less time together.

Although these changes are by now familiar, their causes and consequences are still not fully understood. It is clear, however, that these changes have had a profound effect on family roles and relationships. Many of the changes have resulted in negative effects on family life and a decline in quality of life for many children.

Most American children are happy and healthy and grow up in families that are loving and tend diligently to their needs. Neverthe-

less, there is ample evidence that children are worse off in 1990 than they were twenty years ago. Children are more likely to be poor today and to spend less time with their parents. Infant mortality and low birthweight are unacceptably high; one in five is reported to have a developmental delay, learning disability, or behavioral problem during childhood; and the educationally disadvantaged account for more than one-quarter of all American students.

There is little indication that these negative trends will turn around in the near future. These changes have, over time, resulted in

big differences for families and children. As we look forward to the twenty-first century, the challenge facing us is how to strengthen and provide support to families so that they can better cope with the little changes which result in big differences for individuals.

**Water Experts
Convene In Austin**

C.E. Williams, District Manager of Panhandle Ground Water Conservation District No. 3, was among water experts from across the state meeting in Austin Monday and Tuesday to identify Texas' water needs and tap into a well of shared information.

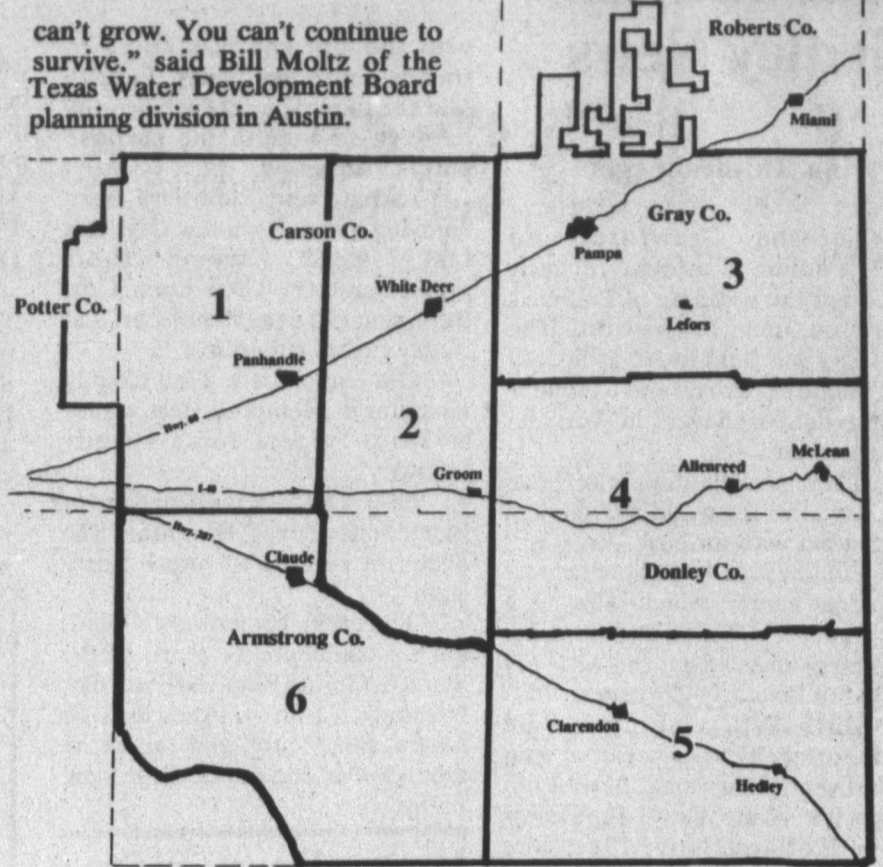

The conference, sponsored by the Texas Water Development Board and Texas Water Resources Institute, is expected to allow the experts to prioritize water research needs for the state.

Texans in every corner of the state are tied together by a common thread - the need for clean water.

"In a state as diverse as Texas

- the almost semi-tropics of East Texas to the deserts in West Texas to the fresh water surface areas in the Gulf area - water is always going to be an issue. Without water, you

can't grow. You can't continue to survive," said Bill Moltz of the Texas Water Development Board planning division in Austin.
