Improvements Brighten Future Of Once Ailing Hospital

Carol White-Editor/Staff Writer

Russell Payne, Callahan Memorial Hospitals newly appointed administrator, said the recent change over from Rural Management to United Hospital has been hectic but smooth transition. Everyone is pleased with the change over.

United is planning to completely remodel the hospital. New ceilings, lighting, carpet and paint are just a few of the changes being made.

The brighter paint will transform the once dreary interior to a more pleasant surrounding.

All 17 rooms are private suites, with no double bed rooms. Each room will be equiped to have oxygen piped in, eliminating the oxygen tank in the toom with patient. Several of the rooms are set up similar to CCU rooms with heart monitors. This way the hospital will have 4 or 5 CCU's instead of just one.

A new nurses call and paging system is in the works, which will make patient care more efficient, making their needs more readily known to the staff.

There is a definite possibility of a

surgeon coming in on a regular basis. This will help to increase the hospital's census.

The key to the hospital's success is the communities needs and use of the facilities.

Medicare and insurance claims will be precessed by Computer providing the patient and hospital with more accuracy.

Personnel has been assigned specific jobs to ensure efficiency. Each staff member knows their job and will not be hendered by trying to do two jobs at once. This will also be beneficial to the patient.

The old black and white televisions are being replaced by remote color televisions, as well as the nurses station being equiped to monitor patients in their rooms.

Mr. Payne said the County Commissioners were by and toured the hospital. All were very pleased at the present improvements. Mr. Payne feels that they have 100% support from the county residents and their officials.

We welcome United and what they are doing to make Baird and Callahan County a better place to live.

Commissioners Meet, Approve Bid, Plan Visit To Jail, Hospital

County Commissioners met Tuesday morning at 9:30 A.M. for their monthly meeting. Appearing with business before the council were, Dora Hounshell, county treasurer, Burl Walker, jailer, Albert Lovell, Tax Apprasier, and three Eula residents.

First on the agenda was a motion to sign a 3 year lease contract with Zerex instead of a 2 year. This would save the county approximately \$14 a month. Darlene Walker told the commissioners the work by the machine saves the county even much more than the \$14.

County treasurer, Dora Hounshell discussed the county finances with the commissioners, and presented a letter she had received from the Cross Plains Volunteer Fire Department, thanking the County for the \$3,000 donation they had received for updating fire equipment.

Burl Walker, county jailer, ask the

commissioners to approve a bid made by a local firm to replace 4 windows in the jail. This was approved by the court.

Three Eula residents appeared before the court requesting county maintainance on a private road that they would deed over to the County. Members of the court agreed to look at the proposed road and the commissioners could make a ruling at the next meeting.

Albert Lovell proposed an optional homestead exemption that would be beneficial to homeowners, but would mean ranchers, farmers and utility companies would have to pay a little more. This was accepted by the commissioners.

The commissioners agreed also that they would tour the jail and hospital to view the improvements of both facilities.

The next scheduled commissioners meeting will be Nov. 8th at 9:30 A.M.

Strike Ends---Toilet Bowl To Be Played In Baird

Agreement was finally reached late in the week between all players and management in the upcoming Baird Booster Club Football Classic to be held this coming Saturday night at Bear Stadium. There had been a considerable amount of concern caused by the NFL strike, but all players agreed to participate in the gridiron classic.

The two division champions of their respective leagues; the BEARLYS and the NEARLYS, are executing with the perfection that is normally found only in the Cowboys and Oilers training camps. If Monday's final scrimmage was any indication of the intensity in the upcoming game, all area fans are in store for an old time barn burner.

If an advantage exists however, it must be given the young Bearlys team. With an average age of only 39, the Bearlys should have both a physical and mental edge over the opposing Nearlys. The Nearlys boast an average age of 41 plus. The Bearlys also seem to have the best draft choice in the area—Dr. Raul Calvo.

Elmer Graham and David Parkhill both had to miss practice Monday evening due to severe injuries, and their ability to start was called "very doubtful" by Bearly team member and Booster Club President Kenneth Robbins. Ron Baird of the Nearlys feels furtherstated that he thought such press releases were "childish, immature and uncalled for." This statement came prior to Baird's announcement that James Grant would

probably be doubtful for the contest, due to "torn ligaments, severe sprains, and chronic headaches" in the veteran quarterback of the Nearlys.

All things being considered everyone in the Baird area should make plans to attend the Gridiron Classic. Even if the game is carried on national television, the game will be blacked out in the Baird area. This will force all football fans in the area to scramble for choice seating at the stadium. Sheriff Bill Skinner has stated that "scalping" of tickets will not be tolerated, but "anytime you have a game of this magnitude, its hard to control the masses." Regular price for the contest is \$1.00 general admission. All proceeds from the game and the concession stands will go to the Baird Booster Club to benefit the sport activities of all Baird School students.

As an added attraction the Baird 6th and 7th grade band will perform at halftime of the game. Kickoff time is scheduled for Saturday, October 16, at 7:30 in Bear Stadium.

The Baird Nearlys team consists of Ron Baird, Estell Brewer, Bobby Curtis, Felton Gilmore, James Grant, Carl Gunter, Irvin Robinson, Tommy Turnbow, Robert Watson, and Darrell Wright.

The Baird Bearlys team consists of Rocky Ash, Dr. Raul Calvo, Elmer Graham, Mike Hanner, Cleo Ivy, David Parkhill, Kenneth Robbins, Henry Silba, Robby Voigts, and Gaylon Williams.

SIERRA LIGHT TO PLAY DANCE AT ABILENE CIVIC CENTER

Thelma Berry Named Clyde's "Citizen Of The Year"

The Clyde Chamber of Commerce named Thelma Berry Citizen of the year at their 11th annual awards banquet Sunday. Mrs. Berry is a Callahan County rancher and former Clyde schoolteacher.

After moving to Clyde from Wailder in 1924, she

married John Berry. They settled 6 miles north of town on what became The Berry Ranch.

She taught school for 25 years from the first to the 12th grade level. Several of her former students attended the banquet, including chamber director Bill Hawk.

Mrs. Berry who has continued to ranch since her husband's death 15 years ago is chairman of the Callahan County Historical Commission, president of the Thursday Study Club and trustee of the Texas Federation of Women's Clubs. She is a

member of the Clyde Women's Club and the Business and Professionals Women's Club.

Cruiser/Pickup Collide After High Speed Chase

A high speed chase Monday resulted in a collision between a Texas Highway patrol car and a 1982 Dodge pickup on a gravel road south of FM 18 and one mile west of FM 603.

Patrolman Phillip Dean of Baird was pursuing the pickup when it turned off on a gravel road at which time Dean nearly lost sight of the truck.

The patrol car collided with the truck when it slammed on its brakes to try and make a sharp left turn.

The cruiser was demolished and the pickup sustained only minor damage.

There were no injuries in the accident, and a Clyde man was arrested for speeding.

County Youths Attend Seminar

The Texas Farm Bureau Citizenship Seminar for junior and senior high school students was held July 19-23 on the Baylor University campus in Waco.

Attending from Callahan/Shackelford County were Brandi Henderson, granddaughter of Nell Bowden of Cross Plains, and David Hendricks, son of Mr. and Mrs. Tom Hendricks of Clyde.

The seminar, which ran for three full days, was designed to give these selected high school students a better understanding of the various forms of government and their responsibilities as citizens.

Home Economics

A new national safety campaign keying to the use of automobile safety belts and child auto safety has just been initiated and will continue until mid-1983 under the name, "Get It Together." The Extension Service is cosponsoring the educational effort

in cooperation with the U.S. Department of Agriculture, the National Extension Homemakers Council, Inc., and the nation's Department of Transportation, according to Dr. Mary Ann Shirer, health education specialist with the Extension Service. Goal of the educational program

is to help reduce death and disability statistics on automobile accidents. Many people do not believe they will be involved in an automobile accident, yet national statistics show that almost everyone can expect to be in a car crash every 10 years, she adds. For one of every 20 persons, the crash will be serious.

4-H Scholarship Highlights Agriculture Briefs

STEER EVALUATION PROGRAM

A special Steer Production and Evaluation Symposium is planned for May 20-21, 1983, at Texas A&M University. The symposium will be conducted for 4-H and FFA youth with steer projects, for beef cattle breeders and feeders, and for those involved with beef cattle breed associations or steer shows. A unique feature of the symposium will be a display of two groups of steers—one fed and managed as "show" steers and the other fed and managed as "feedlot" steers, says an associate professor of animal science at Texas A&M. The event will be in the new Animal Pavilion on the university's west campus.

Brazos Bermudagrass To Be Released

Brazos, a new bermudagrass hybrid that tops Coastal in performance, will be released through the Texas Agriculture Experiment Station's Foundation Seed Service at Texas A&M University in early 1983. Brazos has a higher level of digest-

ibility and has produced better weight gains in cattle than Coastal bermuda, says a forage scientist with the Experiment Station. To qualify for sprigs of the new grass, individuals must have their land free of other bermudagrasses and must have passed inspection by Texas Department of Agriculture officials to protect the new Brazos variety from contamination.

National Forest Products Weeks

To recognize the usefulness of forests and forest products, President Reagan has declared the week of Oct. 17-23 as National Forest Products Week. Texas boasts some 23 million acres of forest, about half of which are considered commercial forest land which is capable of providing a continuous income for timber growers. Private individuals own more than 60 percent of Texas' timberland. The timber industry has taken steps to improve harvest operations and to reduce waste in manufacturing plants, says a forestry specialist with the Texas Agricultural Extension Service, Texas A&M University System.

The challenge now is to improve forest management of timberlands.

Pioneer Funds 4-H Scholarship

Pioneer Hi-Bred International has established a \$4,000 scholarship with the Texas 4-H program, effective June 1, 1983. The scholarship will be managed through the Texas 4-H Foundation and will be available to 4-H members who are graduating high school seniors, says a 4-H and youth specialist with the Texas Agricultural

Extension Service, Texas A&M University System. Candidates for the scholarship must be planning to major in agriculture or home economics and must attend a Texas college or university.

MFT Plans Halloween Carnival

The Baird MFT met on September 13, 1982, in the school cafeteria. Discussion was opened concerning the Halloween Carnival. It was decided to hold the Carnival on Saturday, October 30th.

A vote was also taken and passed stating that the MFT would sponsor news articles and send notes home with our students urging parents to allow trick-or-treating on Saturday, October 30th, only.

The MFT, as a concerned group of parents, is asking that all parents with children in this age group please consider this proposal.

Ag Workers Slate Confab

Various aspects of the state's long-range water needs and energy potentials will be addressed during the annual conference of the Professional Agricultural Workers of Texas at the Hilton Hotel in Waco Oct. 26-27. Keynote speaker will be Dr. Herbert Grubb, Texas Department of Water Resources, Austin. Texas Commissioner of Agriculture Reagan Brown will address the annual awards banquet at 7 p.m. Oct. 26. The conference will also feature a bus tour to a land reclamation site at the Big Brown Lignite-Powered Generat-

ing Facility near Fairfield.

Changes in Small Churches

Rural or small church congregations are undergoing a lot of change due to loss of a sense of community, movement of people from urban to rural areas, absentee ownership of land and other resources, and the impact of industry, said a speaker at the recent Town and Country Church conference at Texas A&M University. The church today must have a reconciling role said Bishop Finis Crutchfield with the United Methodist Church, Houston. The church must be open to all persons—it cannot be a closed corporation.

NOTICE

IF YOU SMELL NATURAL GAS, FOLLOW THESE 3 STEPS TO SAFETY.

The natural gas industry has an excellent safety record.

The fact that you can smell natural gas is because we add a harmless chemical to it as a safety feature. Otherwise, it would be completely odorless.

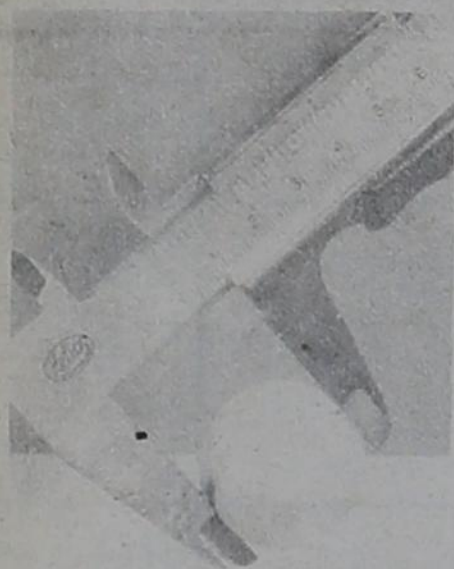

If you are outdoors and smell gas, call your local Lone Star Gas office.

If you are indoors and detect faint whiffs of what you think may be gas, investigate. It may be that a pilot light has gone out or a burner valve has been left partially open. These are corrective steps you can take yourself.

If your equipment seems to be working properly and the odor persists or intensifies, please follow these precautions:

1. Do not switch anything electrical on or off. Do not use the telephone in your own home. Do not strike a match. Do not do anything that might cause a spark.
 2. Have everyone leave the house immediately, leaving doors open to help ventilate.
 3. Go to a nearby telephone and call Lone Star Gas Company. Wait until we have found the source of the odor to determine whether it's safe for you to return to the house.
- You may never have a natural gas leak, but we want you to be informed in case one does occur. Please make sure your family is aware of these precautionary steps. And we suggest that you keep this message for future reference.

to the Club's cemetery beautification fund.

the 4-He's. Greg Gerngross, Callahan County agent, informed the members of a Halloween Carnival at Oplin that 4-H Clubs could participate by sponsoring a booth. Kim Black, club president, appointed committee to be in charge of planning and organizing the booth. The carnival will be October 30 at the Oplin Community Center.
