Raffle planned to benefit Judd baby

The Clarendon Volunteer Fire Department has started a fundraiser to benefit Maci Judd, the infant daughter of Kyle and April Judd. Chances are being sold for the winner's choice of four days and three nights in Orlando, Florida, or two days and two nights in Daytona Beach, Florida. The cost is \$1 per chance or 12 chances for \$10. Tickets can be obtained from any volunteer fireman or by contacting Kyle Hill. The prize winner will be announced at the rodeo on July 6.

Maci has Spinal Muscular Atrophy, which causes the muscles to shrink and makes normal living almost impossible. The little girl requires a ventilator to breathe, and the family needs \$1,300 per month to rent this piece of equipment.

Shot clinic to be given on June 17

An Immunization Clinic offering vaccines that give protection against several childhood diseases is scheduled in Clarendon at the Texas Department of Health (TDH) office on June 17, 2002.

The clinic will be held 9:00-12:00 and 1:00 to 4:00 p.m. at the TDH Clinic, which is located at Medical Drive #5 by the Medical Center Nursing Home.

Cancer program set for June 15

Look Good...Feel Better, a public service program for cancer patients will meet Saturday, June 15, 2002, from 1:00 p.m. to 3:00 p.m. at the American Cancer Society located at 3915 Bell in Amarillo.

Look Good...Feel Better is a free national public service program dedicated to teaching female cancer patients beauty techniques to help restore their appearance and self-image during cancer treatment. Through Look Good...Feel Better sessions, women learn how to cope with the appearance-related side effects of cancer treatment.

For more information, contact the American Cancer Society at 806-353-4306.

Apply now for Breedlove Fund

Applications are now being accepted for the "Flip" Breedlove Memorial Scholarship to Texas A&M University. Applications must be received before July 15, 2002, to be considered. Interested students should mail to Memorial Scholarship Fund, 8408 Horseshoe Ledge, Austin, TX 78730.

Cause of train collision still unknown

By Roger Estlack, Clarendon Enterprise

Clean up continues this week at the site of a May 28 head-on collision between two Burlington Northern Santa Fe (BNSF) trains near Clarendon.

Officials still don't know what happened to cause an eastbound coal train to be on the same stretch of single track as a westbound freight or intermodal train.

"That information isn't known yet," said BNSF spokesman Joe Faust. "The National Transportation Safety Board will make that final determination."

Faust said it is very uncommon for trains to run head-on like they did last week.

The 116-car coal train weighed 15,843 tons, and the 77-car intermodal train weighed 5,546 tons. Faust said it's not yet known how fast the trains were going but that they would

not have been going more than 49 mph.

The coal train originated in the Powder River Basin of Wyoming and was en route to Oklahoma, Texas. The intermodal train was traveling from Atlanta, Georgia, to California. No hazardous materials were carried on the train, sources say.

All four locomotives, 22 coal cars, and three stacked cars derailed in the accident.

Galen D. Shelby of Lubbock was the engineer of the coal train and was killed. He was 61 years old.

Three other crewmembers, 57-year-old Bruce Patterson, 51-year-old Ronald Gordon, and 34-year-old Rodney Torres were injured in the accident and were improving this week, BNSF officials said. Patterson was trapped under a coal car and was freed by rescue personnel and citizens.

Local law enforcement, firefighters, EMS, Texas Department of Transportation employees, and citizens responded to the emergency. Personnel also responded from area towns.

Fire Departments from Hedley, Howardwick, Memphis, Groom, McLean, Panhandle, Pampa, Claude, White Deer, Wellington, and the Texas Forest Service in Canyon all rushed to the scene. John Morrow Drilling also helped carry water for the fire departments.

Department of Public Safety Troopers from the area were called in, and officers also responded from Armstrong County and Gray County sheriffs' departments and assisted with controlling access to the scene. One Gray County deputy was made available to cover any other possible calls in Donley County.

Two vehicles from the local Associated Ambulance Authority transported train

wreck victims, and the third was dispatched on an unrelated Code 3 call, leaving Donley County without an ambulance. EMS crews from Groom, Memphis, Claude, Amarillo, and McLean were dispatched to be on standby at the accident scene and to cover any other local calls.

The Donley County Sheriff's Office requested part of the EMS help. The remainder was dispatched independently by the Amarillo Communications Center at Northwest Texas Hospital, which was monitoring the situation in Donley County via radio.

Westbound traffic on US 287 was diverted to one of the eastbound lanes for most of the day. Crews worked round the clock to reopen the railway. It was officially reopened at 5:45 a.m. the next day, and the first train came through shortly before 6 a.m.

Citizens risk own lives to save man

By Roger Estlack, Clarendon Enterprise

A railroad crewman asked volunteers not to leave him behind as they worked diligently to save his life after the train he was on collided head-on with another last Tuesday.

The heroism of those local volunteers and officials has gained widespread attention and has local citizens giving thanks for the kind of people who live in Donley County.

"The firemen, lawmen, EMS, TxDOT employees, and citizens displayed extreme heroism as they worked to rescue the train wreck victims," DPS Trooper Chad Simpson said.

Joe Neal Shadle, who drives a trash truck for the City of Clarendon, was one of the people early on the scene of the accident two miles west of Clarendon. He was stopped at the railroad crossing on FM 3257 as the eastbound coal train went by.

"I waved at those guys out of habit," Shadle said. Seconds later Shadle heard a "boom" and said the ground around him shook.

"I saw the ball of fire, and I knew there had to be people hurt."

Shadle said he radioed the sheriff's office and went to offer his assistance. He found other citizens on the scene and one railroad crewman - Bruce Patterson of Amarillo - trapped underneath a car.

"That man asked us not to leave him, and I said 'We're not gonna leave you,'" Shadle said.

Despite being surrounded by tons of coal, diesel fuel, and the burning wreckage of the locomotives, the volunteers rescued Patterson and carried him to safety.

"We got him out," Shadle said.

Emergency personnel and local citizens carry Bruce Patterson to a waiting ambulance following a head-on collision between two Burlington Northern Santa Fe trains two miles west of Clarendon last week. Rescuers freed Patterson from beneath a coal car.

"It took a lot of people." One of those people was Dan Sawyer, who volunteers with the Associated Ambulance Authority. With others' help, he dug Patterson free and said the ground was like trying to dig through concrete.

"I would dig and then crawl in the hole with a flashlight to try to see what position his leg was in," Sawyer said. "After we got three feet under him, I could see his boot and knew which way to go."

Sawyer said Mother Nature was a big help to the rescue effort. A light breeze from the northwest kept the smoke away from the rescuers, and rainfall earlier that week kept the fire from spreading from the engines. The Clarendon Volunteer Fire Department also battled to keep the fire contained and away from the trapped man.

"We did what were trained to do, and our experience paid off," Sawyer said.

Associated Ambulance Author-

ity Director Belinda Montana and Shane Ashcraft were on the first ambulance to the scene. They could see the billowing smoke as they left the ambulance service's facility on

Hwy. 70, but nothing prepared them for what they saw on the scene.

"The initial shock was overwhelming, but after that we were okay," Montana said. "In my eight years of experience, I have never seen anything like that, and I hope I never do again."

She and Ashcraft found one of the railroad crewmen, who told them how many people were involved; then Jeff and Heather King directed them to Patterson's location. Ashcraft worked with the one

crewman, preparing him for transport, as Montana joined in the effort to rescue Patterson.

"It went very, very well," she said. "I never felt like our lives were in any danger until right at the end when [Department of Public Safety] Sgt. Richard Gribble became concerned and told us to hurry."

Montana said Gribble was worried because diesel fuel was starting to stream into the area where they were located.

Among other volunteers who have been identified were Kyle Hill, Alan Fletcher, James Thomas, Mike Ritchie, Cal Thomas, Tommy Hill, Dee Thompson, and Jim Thorton. But there were other citizens and volunteers who helped, including unidentified truck drivers.

"You'll never be able to name everyone who helped," Shadle said. "I was just there, but there were others who helped and still others who were ready to relieve us."

Sources say dead man's wallet stolen

Donley County Attorney Pro Tem Kaye Messer filed charges on a Hereford man Tuesday for allegedly stealing the wallet of the engineer killed in last week's train wreck.

Antonio Valle, Jr., age 36, faces a Class A misdemeanor for stealing the wallet of G.D. Shelby of Lubbock. Valle is employed by Messer Construction Co. (no relation to the county attorney), the company working to clean up the wreckage two miles west of Clarendon.

The Donley County Sheriff's Department says two eyewitnesses saw Valle pick up Shelby's wallet after his body was removed. The witnesses say they observed Valle put the wallet in his pocket and that he did not turn it over to a supervisor. The wallet contained \$753.

The sheriff's office was assisted in its investigation by Railroad Agent G.W. Lane.

Messer said she intends to do everything she can to convict Valle.

"I'll prosecute this case to the fullest because it's pretty disgusting," she said.

If convicted, Valle could face a year in jail and a fine of up to \$4,000.

Collision makes national news

The collision of two Burlington Northern Santa Fe trains here last week put Clarendon and the Texas Panhandle in the national spotlight.

Media outlets from Amarillo were quickly on the scene, and the story was on the Associated Press wire and picked up by national broadcasters. Sources tell the ENTERPRISE the accident was also mentioned on the Rush Limbaugh show.

Hundreds of people turned to the Web site of THE CLARENDON ENTERPRISE. More than 600 people visited www.ClarendonOnline.com in the first 24 hours after the accident.

City delays livestock ordinance implementation

The Clarendon Board of Aldermen voted four to one last Tuesday to delay implementation of a new livestock ordinance so they can consider a nuisance ordinance to take its place.

As in the previous two meetings, aldermen were faced with criticism of Ordinance #340, which was passed in April.

"If you're concerned about health and safety, you need to look at the health issues of the junk cars and junk houses rather than just the livestock in town," Bill Barnes told the board.

Other citizens questioned the city's new guidelines wanting to know the origins of space requirements in the new law.

"Where did the 1,000 square feet (per head) come from?" Steve Lewis

asked. "Horses all over the United States are kept in 12x12 stalls."

Lewis, who has been involved in two court cases with the city over the previous animal ordinance, also complained that in both those cases no one from the city has ever gotten his side of the story. He said he thinks the new law singles some people out because it exempts the veterinary hospital, and he also said he didn't think he could get a permit under the new law.

"I could be denied a permit just because somebody doesn't like me," he said.

Alderman Janice Knorpp asked opponents of the ordinance to offer suggestions for solutions. Lewis asked to have the Texas Department of Health to do inspections in the city. Former sheriff Jimmy Thomp-

son urged the city to pass a nuisance ordinance to replace the livestock ordinance.

Alderman Mark White asked just what the main objection to the ordinance is.

"Is it the permit? Is it the fee? Is it the space requirement? Just what is the problem?" he asked.

To which one citizen replied, "The whole thing."

Only one citizen, Jeanie Johnson, spoke at length in favor of the livestock ordinance, saying that it is needed and asking what good any ordinance is if the city won't stand by this one.

The board asked City Attorney James Shelton to draft a nuisance ordinance to take its place and voted four to one to delay implementation. See 'City' on page 6.

Taking aim Amanda Powell lines up a shot at the basketball goal as Che Shadle looks on during her first grade class' end of school circus party at City Park last Wednesday.

The sheriff's office was assisted in its investigation by Railroad Agent G.W. Lane.

Messer said she intends to do everything she can to convict Valle.

"I'll prosecute this case to the fullest because it's pretty disgusting," she said.

If convicted, Valle could face a year in jail and a fine of up to \$4,000.

Collision makes national news

The collision of two Burlington Northern Santa Fe trains here last week put Clarendon and the Texas Panhandle in the national spotlight.

Media outlets from Amarillo were quickly on the scene, and the story was on the Associated Press wire and picked up by national broadcasters. Sources tell the ENTERPRISE the accident was also mentioned on the Rush Limbaugh show.

Hundreds of people turned to the Web site of THE CLARENCON ENTERPRISE. More than 600 people visited www.ClarendonOnline.com in the first 24 hours after the accident.

City delays livestock ordinance implementation

The Clarendon Board of Aldermen voted four to one last Tuesday to delay implementation of a new livestock ordinance so they can consider a nuisance ordinance to take its place.

As in the previous two meetings, aldermen were faced with criticism of Ordinance #340, which was passed in April.

"If you're concerned about health and safety, you need to look at the health issues of the junk cars and junk houses rather than just the livestock in town," Bill Barnes told the board.

Other citizens questioned the city's new guidelines wanting to know the origins of space requirements in the new law.

"Where did the 1,000 square feet (per head) come from?" Steve Lewis

asked. "Horses all over the United States are kept in 12x12 stalls."

Lewis, who has been involved in two court cases with the city over the previous animal ordinance, also complained that in both those cases no one from the city has ever gotten his side of the story. He said he thinks the new law singles some people out because it exempts the veterinary hospital, and he also said he didn't think he could get a permit under the new law.

"I could be denied a permit just because somebody doesn't like me," he said.

Alderman Janice Knorpp asked opponents of the ordinance to offer suggestions for solutions. Lewis asked to have the Texas Department of Health to do inspections in the city. Former sheriff Jimmy Thomp-

son urged the city to pass a nuisance ordinance to replace the livestock ordinance.

Alderman Mark White asked just what the main objection to the ordinance is.

"Is it the permit? Is it the fee? Is it the space requirement? Just what is the problem?" he asked.

To which one citizen replied, "The whole thing."

Only one citizen, Jeanie Johnson, spoke at length in favor of the livestock ordinance, saying that it is needed and asking what good any ordinance is if the city won't stand by this one.

The board asked City Attorney James Shelton to draft a nuisance ordinance to take its place and voted four to one to delay implementation

editor's
Commentary

WARNING: The following column is an editorial (i.e. an opinion, a point of view) and may contain ideas or positions with which some readers may freely disagree. It could be harmful to some people. **Read at your own risk.**

Pause to salute our local heroes

A crisis brings out the best in some people, and nowhere was that more evident than in the moments following that deadly train wreck here last week. Being your eyes and ears on the scene, I can tell you that Clarendon and Donley County should be very proud of the way our fellow citizens reacted to that horrific accident.

Our emergency personnel — the EMS, firemen, and lawmen — showed bravery and skill as they put their knowledge and talents to work in either saving a life or insuring that no one else was hurt. Even ordinary citizens showed uncommon bravery last week as they got right up next to the burning wreckage of the locomotive with diesel and coal all around them — all for the sake of saving one man that none of them had ever met before.

The adrenaline in the air was palpable as I snapped pictures and watched our people work. Although the nature of the situation was chaotic, everything seemed to be under control as everyone worked together.

Some of those who helped that day have already been named. But, as Joe Shadle said, it is impossible to name everyone. I tried to keep a list going, but I soon lost track of who was doing what when.

Engineer Bruce Patterson owes his life to several men and women in Donley County. And we owe our fellow citizens a pat on the back and a sincere thank you. In an emergency, they came through with flying colors, putting the needs of the one over the safety of themselves. It wasn't the first time many of them have put it all on the line, and it probably won't be the last. If the situation arises, they would do it again — for me or you or a complete stranger.

Our community also owes its gratitude to our Panhandle neighbors. The speed with which area towns and counties responded to the accident was amazing. West Texans like to brag about the distances which separate us, but the expanse of our region seemed to get a little smaller on May 28.

On behalf of our readers, I thank the men and women involved in last week's rescue effort. You have done us all proud, and you are our heroes.

A law worth keeping

The Clarendon Board of Aldermen are poised to repeal Ordinance 340, which regulates livestock in the city limits, and replace it with a nuisance ordinance. Doing so, however, is largely a waste of time and resources.

Last week the aldermen unnecessarily voted to delay implementation of the livestock ordinance by 30 days. They did this under the auspices of giving them time to consider alternatives. The folly with that move lies in the simple fact that Ordinance 340 would not have taken effect until 60 days after its original publication in this newspaper. That date would be June 17, 2002. The next city meeting is on June 11.

The board could have considered the ordinance again at its next meeting and still had time to delay it if it was deemed appropriate. Instead they acted in haste. What purpose did it really serve to delay the ordinance by an additional 30 days other than to stretch this whole thing out until the middle of July?

Once again, compromise still seems to be the best option to solving this problem. Some of the concerns raised by local citizens last week could really be addressed by an administrative decision. Who is going to be responsible for checking these permits? That should be the animal control officer. Who is going to determine who gets a permit for animals? Anyone able to meet the criteria set forth in the ordinance should get a permit.

The major concerns still seem to be the cost of the land permit and per head licenses and the space requirements set forth in the ordinance. The aldermen should seek a middle ground in this area, eliminating the per head license, reducing the annual land use fee to \$10, and considering reducing the space requirements.

The idea of a nuisance ordinance to replace the livestock ordinance may seem okay on the surface, but in reality it would just open a whole other can of worms. An open-ended, vague ordinance would just bog the city government down in dealing with frivolous spats between neighbors. On the other hand, a well-defined, carefully crafted nuisance ordinance which seeks to specifically restrict livestock in the city would come under the same fire that is currently warning the feet of the city fathers.

Additionally, under a nuisance ordinance, the presumption would be that it is okay for me to put a couple of horses in my back yard and keep them there until my neighbor complains. While my neighbor starts the slow wheels of City Hall turning, I could enjoy my horses behind my house in a crowded residential neighborhood. By contrast, under the livestock ordinance, the presumption is that it is *not* okay for me to keep any horse on my property unless I first go through the permitting process.

Repealing Ordinance 340 will do nothing to solve this disagreement. Writing a workable nuisance ordinance to accomplish the same goals will wind up with the same arguments. We have a workable law now. Amend it to better suit our needs and the livelihoods of some of our citizens, but do not end it. The city has spent too much time and money on this issue to simply start over from scratch.

CEDC plans to discuss hogs, dairys, tourism

"Hogs, Dairy Farms, or Tourism" is the title of a town hall meeting the Clarendon Economic Development Corporation (CEDC) will be hosting on Tuesday, June 18, 2002 at 7 p.m. to develop ways that we can bring new businesses or expand existing businesses to Clarendon and Donley County.

Your presence is not only encouraged, but it is also needed. The meeting will be at the Harned Sisters Fine Arts Auditorium at Clarendon College.

We all know that the large hog farms and large dairy operations are looking for places that they can move to in the Texas Panhandle. Most counties and cities are opposed to these operations. Normally, we hear in the news the opposition to these industries after they are already planning to

bob's Whittling

By Bob Watson

move into a county.

The CEDC would like to send a strong message to them before they start looking here that we don't want them here. A good turnout at this town hall meeting can and will send that message.

We know that these industries produce a lot of new tax monies into counties and cities; however, we must preserve our county's natural beauty, our lake, and our history.

I personally feel that we need to take

advantage of the history of Clarendon and all of Donley County. The restored Courthouse will be a large attraction.

It is a proven fact that people from the entire world want to come visit Texas. Texas has the third largest tourism industry in the United States. People are looking for places they can go to enjoy the outdoors. Birding is a tremendous pastime along with fishing and hunting.

As we work to promote Clarendon and Donley County, we must also include the cities of Howardwick and Hedley. Both have unusual things to offer visitors. Greenbelt Lake, along with the 18-hole golf course, draws many visitors.

You are invited to come and help the CEDC in choosing projects that will affect our community.

State income tax threatens economic growth

Hold on to your wallet if you ever hear someone tell you that a new state income tax will cost you less money than your current taxes.

A lot of people, including those at the liberal Center for Public Policy Priorities, are running around the state promoting a state income tax for Texas — telling us we will pay less taxes if can deduct income taxes on our federal tax form.

Don't take the bait. Their claim has a nice ring to it; we all instinctively like the idea of a magic fix, to our budgetary woes. But academic research the world over makes one thing absolutely, crystal clear: implementing an income tax is a prescription for economic disaster.

Want proof? Just compare the economies of states with income taxes with the nine U.S. states without one. You'll quickly notice that the no-income-tax states like Florida, Texas, and Nevada have much stronger economies and people moving into those states than those with income taxes.

In fact, according to Dr. Richard Vedder of Ohio University, over the past 10 years, almost 3 million American citizens moved from income tax states into no-income tax states like Texas. This is one of the great migrations in human history that has gone unnoticed by the liberal tax experts. It is equivalent to 1,000 people fleeing high tax states every day of the week except Sunday for the past 10 years.

These people and the companies that employ them moved into the Lone Star State to escape high taxes. Business after

business certainly didn't go to the expense of relocating to get higher-quality TexMex food and see better football. The moved because Texas is a better place to do business.

Few people would consider New York to have much in common with Texas. Surprisingly, however, New York has almost an identical tax system as Texas. It is roughly the same size in terms of population, has generally the same property and sales tax rates. Yet Texas is in far better shape fiscally, has higher job growth, less unemployment, lower poverty, and our population is growing, not shrinking like New York. The difference? New York has an income tax that makes its tax burden much, much greater. Apparently, people in New York don't feel that government is worth what they are paying for it.

Right now, Texas has a relatively low tax burden. Study after study shows that lower taxes are associated with higher rates of economic growth. What's more, income taxes are closely associated with increased government spending, higher taxes, and greater deficits.

The dirty little secret about the income tax that you are not being told by the progressive liberals is that it produces much more money for the government to spend than any other type of tax. Comparing the tax burdens of the various states over the past 40 years, Dr. Vedder found that states without an income tax saw their real tax burden increase by 10 percent over the period whereas states that implemented an income tax during that period saw their tax burden increase a whopping 37 percent.

No one can argue that a progressive income tax generates more revenue for the government than any other type of tax. This means less money earned by private citizens can be used for investing in their children's education, their health, their homes, their business, or to make capital available for others to invest. Instead their hard earned dollars will be given to the government to spend on the latest political fad or program of dubious value.

Sadly, state legislatures of either political party are likely to spend whatever revenues are available. And more will be available from an income tax.

It is interesting to note that for Texas' neighbor to the north, the major fiscal debate is whether Oklahoma should reject their income tax and adopt a Texas-like tax system.

In order to stimulate growth, many are saying, "Let's copy Texas!" Nothing is worth the economic harm an income tax will do to our economy.

I hope for the sake of the Lone Star State that the people and legislature turn a deaf ear to those who advocate income taxes, and instead work to reign in spending. Keep the tax system that has led to Texas' job growth and economic boom. Keep Texas in the forefront of economic tax advancement by keeping taxes low.

Put simply, there is no need for Texans to mess with income taxes.

Jeff Judson is the president and CEO of the Texas Public Policy Foundation, a non-profit, free-market, think tank with offices in San Antonio and Austin.

Fri: Salmon patties, spinach, onion rings, coleslaw, sliced peaches, corn muffin, milk, tea, coffee

Childparenting.about.com is a site for kids from kindergarten through sixth grade. It provides crafty things to do, but it also gives a fun summer reading list as well. (If you and your family enjoy arts and crafts, this site suggests looking up the web site for your favorite craft

store to get some new ideas.) Kidsource.com is the best site I found. Anyone looking for stress free summer activities will find them with Kidsource. The most practical part of this site is a calendar from the U.S. Department of Education. It gives you one activity a day for you and your kids to do together from June 3 to August 30. Some of the ideas are putting an ice cube outside to see how long it takes to melt and evaporate, learning a tongue twister, and finding three jobs in the want ads to learn about.

Whatever the activity, summer gives us a perfect chance to spend some one-on-one time with our kids. With just a little planning on our part, they will learn new things without even realizing it, and we will have the joy of seeing them grow more into the men and women they will become all too soon.

Improvements in progress at Burton Library

Burton Memorial Library remains very appreciative of abundant support from the public. Improvements are constantly possible by many of those who, through hard work and concerned hearts, want our library to be the best it can be.

A new patio is currently in progress. Burton Memorial Library wishes to express a heartfelt thanks to those responsible for this latest endeavor: Mr. Edwards and his FFA class who spent much time in hauling and concreting; incessant efforts of Buster Shields and Ernie Johnston; "next phase planning" by Mark White, Michael Tibbets, and Bob Watson; much needed assistance from Judge Jack Hall, County Commissioners, Mayor Tex Selvidge, and City Aldermen. Thank you.

After examining most recently written books on the library's "New

Books" shelves last week, I decided to treat myself to the classics before making my next reading choice. While browsing through numerous selections, I came across the Williamsburg Novels authored by Elswyth Thane, wife of noted naturalist, explorer, and author Dr. William Beebe. I read the seven-book series years ago and can almost guarantee their appealing interest to readers, especially historical fiction fans.

Thane writes with a certain charm as she individualizes her characters in a way which seems to make them come alive. Readers will delight with elements of emotion, humor, suspense, and light romance set against various historical periods.

Each of the seven individual books provides interest on its own, but readers might possibly receive more reading satisfaction if the

check it Out

By Mary Beth Nelson

novels are read in chronological sequence since they involve several generations of fictitious Sprague, Crabb, Day, and Murray families.

Dawn's Early Light, the first of the Williamsburg Novels, begins with Julian Day's arrival in Yorktown, Virginia, from Southampton in 1774. The author creates marriages, families, and suspenseful events through American Revolutionary years until a smooth transition is made into her second novel, *Yankee Stranger*. With increasing drama, the same families are involved as the southern belle marries a northern soldier during the Civil War period.

Thane's two following novels are *Ever After*, beginning with Christmas 1896, and *The Light Heart* with a 1902 beginning.

The final three in the Williamsburg series are *Kissing Kin*, *This Was Tomorrow*, and *Homing*. They fictionally continue through 1917-1941. The historic background of World Wars I and II are intermitted with peaceful years contributing warmth through characters' humor and emotion and nostalgia to readers who actually experienced those years.

You'll discover other writings by Thane, both fiction and nonfiction. She also has two plays to her credit which might entice drama readers. Her writings could easily be classified among the "golden oldies" just waiting to be discovered at Burton Memorial Library. Why not check it out?

Mr. & Mrs. Roger Elliott

George-Elliott exchange vows

Amanda Dawn George and Roger Earl Elliott, both of Childress, exchanged wedding vows on Saturday, May 11, 2002, at the Grace Family Church in Childress during a double ring ceremony officiated by Pastor Dale Sexton.

Amanda is the daughter of Leon and Carole Ward of Hedley. She is the granddaughter of Junior Hill and the late Martha Hill and the late Boots and Eunice Ward, all of Hedley.

Roger is the son of Randall Elliott of Childress and Gail Elliott of Hico. He is the grandson of J.D. and Earline Elliott of Childress and the late Earl and Irene Williams.

Registering the guests were Micky and Austin Brewer of Memphis.

David Ward played the piano and provided the vocals for the ceremony.

Taylor Ann Harbert of Denver City, Texas, served as Maid of Honor. Sue Leamon of Amarillo served as bridesmaid. Both are friends of the bride. Cami Hill, cousin of the bride, of Lubbock served as flower girl.

The Maid of Honor wore a white sleeveless, knee length dress with blue flowers and a sheer overlay. The bridesmaid wore a greenish yellow floral dress that was knee length and sleeveless with a sheer short sleeve jacket of the same color.

Stephen Elliott, cousin of the groom, of Childress served as Best Man. Shane Harris, also of Childress, served as groomsman. Harris is a friend of the groom. Jacob McDougal, cousin of the bride, of Lubbock served as ring bearer.

The groomsmen wore white shirts, Wrangler jeans, and hats.

The groom was attired in a white shirt, blue Wranglers, and a silver Stetson hat.

Given away in marriage by her gather, Leon Ward, the bride wore a sleeveless floor length white satin dress with a keyhole back. She wore a veil made by her mother, Carole Ward, which had white netting attached to a pearl comb with white satin ribbons around the hem. She carried a bouquet of white daisies, maroon daisies, bluebonnets, and sunflowers tied together with a white satin ribbon.

The church was decorated with trees that were adorned with white Christmas lights, a large white cross, white calla lilies, and a wisteria arrangement.

A reception was held at the Grace Family Church.

After a wedding trip to Ruidoso, New Mexico, the couple will make their home in Childress.

The bride is a 1993 graduate of Hedley High School. She received her Bachelor of Science from West Texas A&M University in 1997, applied Associate of Science in Physical Therapy from Amarillo College in 1999, and Emergency Medical Technician Program in 2001. She works at Childress Regional Medical Center as a physical therapist assistant and is an EMT-Basic with the Childress EMS.

The groom is a 1992 graduate of Childress High School. He served in the US Army Signal Corp and completed the Emergency Medical Technician Program in 2001. He works at Childress Medical Center as a maintenance technician and is an EMT-Basic with Childress EMS.

Harry Potter coming here

Move over, Harry Potter, Lemony Snicket is coming to town. Prepare for a literary happening at Clarendon's City Library Thursdays afternoons from 4-5PM starting in two weeks on June 20th.

Additional info in next week's award winning ENTERPRISE.

Hedley residents enjoy seeing visitors, relatives

And it rained... Sunday evening and Monday it rained. I talked with O'Neal Weatherly, and he told me that his gauge showed about 0.70 inch Sunday and 1.10 inch Monday. Now, its Tuesday it looks as if it might rain some more. I hope so.

Yesterday afternoon there were two little boys riding their skateboard and scooter and having so much fun. It was pouring rain, and they were having a ball along with their dog. I stood on my front porch and watched them playing in the rain.

Bob and Mildred Jewett attended the Jewett Family Reunion in Claude last weekend.

Nancy Mullins and her son,

Bill, attended graduation services at Stanford last weekend. Bill's daughter, Natasha Lopez, graduated. His daughter, Kendra, returned home with them. Kendra will spend the summer with them.

My mother, Lola Brown, will celebrate her 90th birthday Tuesday. We celebrated with her with a surprise party on Sunday. My brother, Leonard Mullins from Fritch, Nancy Mullins, Dan Mullins and Kelsey, Bill Mullins and Kendra, Leon and Linda Couch, Langly, Mariah, and Tisha from Post, Su-San Couch from Memphis, and I enjoyed cake and ice cream at Mother's house. Wilma Snelson stopped by for a short visit

with us.

The Johnson family enjoyed a reunion at the Lions Den in Hedley on Sunday, June 2. A covered dish lunch and visiting was enjoyed by approximately fifty Johnson cousins. Hedley hosts were S.J. Johnson, Sr.; Wilma Snelson; Cliff Johnson and Katterinna; Kaylan, Archie, Marlee, Lil Archie, Alex, and Chase Sharp; and Kale Brandon.

Others present included Grady

Helpful Web sites can help kids beat the summer blues

School has not even been out a week, and already we are hearing the "Waddle-I-Do" summertime blues. This summer adults all over our community will be searching for cures of their own as their children are at home and they say there is nothing to do.

The internet is such a helpful tool for just about any project. Here are a few web sites that promise to give you and your children more than a summer full of fun. Childfun.com has put together a group of concepts to teach your preschoolers all about this time of year.

It suggests experiments to explain what the sun does for us here on Earth, arts and crafts where kids can see grass grow in creative ways, and all kinds of favorite summertime snacks.

Childparenting.about.com is a site for kids from kindergarten through sixth grade. It provides crafty things to do, but it also gives a fun summer reading list as well. (If you and your family enjoy arts and crafts, this site suggests looking up the web site for your favorite craft

Knowles competes at BPA contest

Dustin Knowles of Hedley competed at the National Business Professionals of America contest on May 11, 2002, in Chicago. Dustin placed seventh in the Interview and Skills Applications. Dustin is the son of Anthony and Vicki Knowles of Hedley and is a graduate of Hedley High School.

Risleys celebrate 50th anniversary with stargazing trip

Maurice Risley and Mary Neal Davis Risley celebrated 50 years of marriage on May 22, 2002. Maurice gave his wife a dozen red roses and took her out to dinner.

Maurice and Mary Neal were married in the First Baptist Church in Clarendon and have lived in Clarendon all of their married life. Maurice has been in the cattle business, and Mary Neal has been associated with the Donley County State Bank. Their daughter, Janet Bennett, and her husband, Paul Bennett, live in Coppell and work in Dallas in legal fields.

To celebrate her parents' 50 years, Janet took them on a trip to the Davis Mountains to the Prude Ranch Star Party, McDonald Observatory, and Fort Davis. They spent two nights in Midland visiting Mary Neal's sister, Glenda Morrow, and her husband, Bob Morrow. On the way back, they stopped at Wolf-forth to visit their long time friend, Juanelle Stevenson Smith.

The Star Party at the Prude Ranch was fantastic! Everywhere they looked, big telescopes covered the grounds. It was Star Party Week, and 600 amateur astronomers were there from all over the nation. After an informative, but lengthy,

star program, it was announced that lights were out at 10:30. Janet and Mary Neal covered their flashlights with red tissue, and leaving Maurice looking up the *Wall Street Journal*, headed down to the football-size field which was covered with telescopes of all sizes from 10-12 inches to 36 inches. The only lights were red dots from flashlights and a soft glow from computer screens by the telescopes. They got settled in a location directly down from their cabin. The big scopes were computerized, and the owner would enter a desired site. The scope would make a big whirring sound, turn, and stop on the exact celestial location.

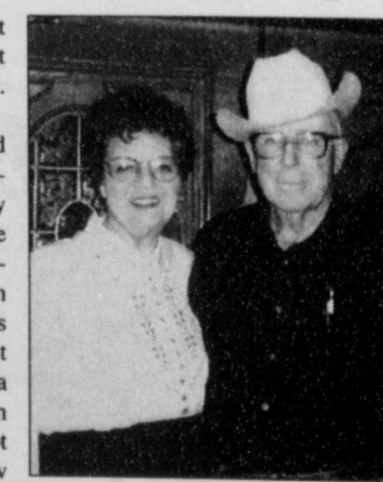

People showed them the moons of Jupiter, galaxies, smoked ringed nebulae as well as a dumb bell nebulae. They found open star clusters and globular star clusters. The best one of all was the Beehive globular cluster in the constellation Cancer. It was a huge, bright, bright ball of millions of stars. It was getting colder and at 3:00 a.m. they gave it up and trudging back up to their cabin. The next day at noon, a man asked to eat with them in the dining room. He was from Boston and the editor-in-chief of the magazine *Sky and Tele-*

scope; he was the speaker for that night. It was a fantastic party. Janet is hooked now and wants to go back. Mary Neal will go, too.

Touring the enormous McDonald Observatory Complex was enlightening. Through a smaller scope, they were able to see on TV screens the sun with gases spewing from it. Sunspots showed up also. The view on the screen had occurred eight minutes beforehand. There is only one night a month, by appointment only, that a visitor may be allowed a view from the huge observatories. This was not the night. They were unable to view the skies through other scopes either as the sky was completely overcast.

Not to be outdone, the Risleys at 11:00 p.m. went on another 22 miles to Marfa and another six to a designated site to look for the mysterious Marfa lights. They looked and looked, but no dancing balls of light appeared. After an hour, they gave it up and headed back.

Fort Davis with its old fort grounds and volcanic palisade mountain in the background was interesting. They stayed at the historic Limpia Hotel. A veranda surrounded three sides of the building, and they enjoyed sitting in the rocking chairs

Mary Neal & Maurice Risley

sipping raspberry tea.

Later, Janet surprised her parents in the car by showing her book of camping songs. Maurice had to listen to "Sipping Cider Through a Straw," "Barges," and many more. Those songs brought back many happy memories.

Coming home, Mary Neal was thinking of all the fun times they had had on the trip and asked Maurice what he enjoyed the most. He said, "I guess seeing what a good time you and Janet were having." It was a good trip.

McCoy gives local man 16 years in pen

District Judge David McCoy last month sentenced Todd Phillips of Clarendon to 16 years in the Texas Department of Criminal Justice's Institutional Division, according to information released by the district attorney's office.

Phillips, age 31, was previously accorded felony probation on November 13, 2001, on charges of attempted murder.

"It is always unfortunate when someone does not take advantage of the second chance provided through an Order of Probation," District Attorney Stuart Messer said. "When an individual does not fulfill his agreement with the court and the terms of his probation, there can be very serious consequences."

On May 23, Judge McCoy ruled that Phillips had failed to report as ordered and had failed to make his monthly payments for fines, fees, and court costs. McCoy also found that Phillips had committed the subsequent offense of forgery.

During the case, Messer presented evidence on behalf of the State of Texas, and Phillips was represented by defense attorney Lendon Ray.

Tennis camp scheduled

Coach Wade Callaway and Abby Abdullah will be hosting a tennis camp June 18 through June 20 from 8:00 a.m. to noon at the Clarendon Tennis Courts.

This camp is open to boys and girls who will be in 1st through 9th grade next year. The cost is \$40.00.

The instruction will stress the fundamentals of the game such as rules, etiquette, racket grip, groundstrokes, and net play. At the end of each day, the instructors will allow games not only to teach strategy, but also to have fun and enjoy the game of tennis.

For more information, call Wade Callaway at 874-0324.

Safe drivers

Clarendon High School students Lacey Anderberg and Ashley Horton (center) were recognized as the safest drivers moving through the Clarendon school zone for the 2001-2002 year by Reserve Deputy Jim Mincey (right) and Sheriff Butch Blackburn (left). The sheriff also presented a special certificate to Mincey for his volunteer efforts as a crossing guard at the elementary school.

Enterprise Digital Photo

Local summer reading program gets underway at Burton Library

Burton Memorial Library kicked off its summer reading program, Read Across Texas, this week.

Children in Donley County joined other children from across the state to celebrate Texas Reading Day which was held Monday.

On June 11, 18, and 25, Read Across Texas Reading Club will meet from 10:00 until 11:00 in the mornings for children ages 3 through 6. Children ages 3 and 4 need to be accompanied by an adult.

Older children ages 7 and up will meet from 3:00 until 4:30 in the afternoon. This age group will start at the City Park for games and crafts, then will walk to the library for story

time. Parents are urged to come and participate, too.

Children will be encouraged to participate in the READO program. READO is similar to Bingo. Prizes will be awarded for four corners, five in a row, Texas T, and Black Out. They will have a "Texas Star Reader Wall" for those who are star readers during the campaign.

Adults are encouraged to come and participate in the reading club, too. If you are interested in volunteering or just listening, stop by the library and sign up. Remember, don't throw anything away before you check out the wanted list at the library.

City: Aldermen consider contract for street engineering

Continued from page one.

of the livestock ordinance for 30 days. Alderman Bob Watson voted against the measure.

Ordinance #340 requires landowners to obtain a \$20 land license and a \$10 per head permit in order to keep livestock in the city limits and also prescribes space requirements and other rules for keeping livestock in the city. It would have become enforceable on June 17, 2002.

Also last Tuesday, the city began contract negotiations with engineer Gene Barber for the proposed street improvement project. Barber touted his 50-plus-year record of working with cities in the Panhandle, working on street projects, and a current pavement rehabilitation program with Westgate Mall in Amarillo.

"You're going to get my experi-

ence and not some whippersnapper cutting his teeth on your project," Barber said.

Aldermen Knorpp peppered Barber with questions regarding past projects, current projects, insurance, and the size of this workforce. Alderman Tommy Hill also questioned Barber, and Alderman Michael Tibbets moved to table the contract negotiations until a called meeting on June 6. The motion carried.

In other business, City Superintendent Jim Roberts reported that the city has been approved for a \$350,000 grant for improvements related to last year's flooding. The grant from the Texas Office for Rural Community Affairs will complement another grant already received from the US Department of Agriculture for

the same projects. The work should get underway this summer.

Mayor Tex Selvidge reported that the state had finally approved plans for the Saints' Roost Museum to renovate the old Ft. Worth & Denver Depot, which is now located on the museum grounds. Bids are now being taken on the job. The city is the sponsoring agent for the museum for its grant from the Texas Department of Transportation.

Officials with Classic Cable approached the city seeking a new franchise agreement for ten years. Aldermen instead requested a five-year contract and said they want a provision for local churches to have public access to the cable system. Classic officials also said they plan to add more channels to the local lineup

and that cable subscription rates will likely increase.

The aldermen approved a request from the Clarendon Little League to pay for electricity at McClelland Field and Hart-Moore Field this summer.

Mark C. White asked the board to consider a shooting range at the municipal airport. He said the Donley County Sheriff's Office would like to help construct an improved range, and he proposed a 25-foot wide area south of the aircraft hangers with a 12-foot earthen berm for safety. The sheriff's office would furnish the pipe and cable, dig the holes to stand the pipe, and stretch the cable for the targets. The city would do the dirt work. The aldermen approved the proposal.

Howardwick aldermen name Holladay as No. 2

The Howardwick Board of Aldermen met in regular session May 28, 2002, at 7 p.m. in Howardwick City Hall.

Alderman Donald Holladay was appointed as the city's new mayor pro-tem, and Alderman Bobby Murdock was named to assist Lynn Dishong with emergency management.

Dishong reported on the storm sirens in the city. Duane Garman said he would work on two of the sirens, and Alderman Holladay said he would check with other cities to see if they have any used sirens they want to dispose of.

Alderman Dewey Linley reported on trash in the city and said if the city could keep junk picked up and hauled off, maybe other people would stop dumping junk where they are not supposed to dump it.

After some discussion, the aldermen voted have only one city meeting per month.

In the citizens' comments forum, it was suggested to have a fence erected next to the roll-off area for the fire department tanker to stop vandalism. This item will be on the June agenda.

Masons make donation

Clarendon Masonic Lodge #700 Worshipful Master Allen H. Estlack (right) presented a check for \$1,000 to Judge Jack Hall (left) last week to help with the restoration of the 1890 Donley County Courthouse. Most of the money for the donation came from the sale of the Hedley Lodge Hall following the consolidation of the two lodges last year. Estlack said he hoped the donation by the Masons would encourage other local organizations, businesses, and individuals to do the same. Also shown here are County Treasurer Becky Jackson and Clarendon Mason Johnny Leathers, a past master of the local lodge.

Thanks, Mom. For Loving Me

Dairy Queen thanks all those who shared their special love for their mothers in our essay contest. We'd like to share with you the winning entry from Clarendon. Linda, your mother is our queen.

Daughter: Linda Horton
 Mother: Verlene LeClear
 Clarendon, TX

I am proud to have the opportunity to tell you about my mother. My mother is strong. She is packed to the brim with love and patience. I love it when others tell me I look like my mom. My goal is to not only resemble her physically, but to be exactly like her on the inside. Her faith in God has given her such an inner peace and joy and she radiates with it. I'm thankful that my mom was tough enough to teach me responsibility and discipline. She taught me compassion, empathy, and respect. Her and my father stressed the value of an education. I am walking in their footsteps as "life-long" learners. My mom is willing to help anyone who is in need. She is so generous. I wish you could meet her in person. She would enrich your life.

A Links of London bracelet courtesy of Duncan & Boyd Jewelers of Amarillo was awarded to the mom.

Stamp of approval

A reception was held at the Hedley Post Office for the HHS Class of 2002 recently. Graduating seniors were given a tour of the facility and enjoyed chips and dip, and each received a door prize. Shown here are David Evans, Dallas Moore, Amber Solis, Postmaster Caroline Robinson, Jared Naylor, Dustin Knowles, and Jordan King.

Senior Citizens enjoy trip to Gem Theatre

By Vida O'Neal

We had a small group attend the Gem Theatre Saturday night. The show was Bobby Wynn and the Kings of Western Swing. The music was wonderful, and we had a good time.

Let's go see *TEXAS* in June. The second night of the performance for this year will be Friday, June 7. We will leave at 6 p.m. for the show, and you can eat barbecue or take your own sack supper if you would like.

Tickets are \$17 for the show and \$7.50 for the supper if you wish to eat there. A donation to help with the gas will be appreciated. If you cannot go, you will need to find someone to use your ticket. The sales are final after you sign up. We will meet at the DCSC Center at 6 p.m. sharp; please be here on time so we can get on the road.

We send get well wishes out to Flo Brannigan, Elvie Shields, and Ogetha Shults.

Our sympathy goes out to the families of Clara Mae Carter, Orville Myers, and Patricia Jordan (Roberta Pittman's daughter).

Reminders:
June 10, 17, 24: Dance Club, 7 p.m.
June 11, 18: Game Night, 6 p.m.
June 12, 19, 26: Water Aerobics, 5 p.m.
June 25: Birthday/Anniversary Supper, 6 p.m.
June 28: Blood Pressure Clinic, 11 a.m.

Beautification Club holds meeting

By Millie Dishong

President Betty Hammock called the meeting of the Howard-wick Beautification Club to order at 12:30 p.m. in the City Hall meeting room. A door prize, a hanging basket of petunias, was won by a guest Mrs. Cora Bland. Betty turned the meeting over to president-elect Peggy Cock-erham.

Work is progressing on the land-scaping corner of City Park. Lois Rolland has donated the crossies for this site. The club will make the City Park its main project for this year and hope to get a bridge and play equip-ment for the park.

A garage sale was discussed for mid-September, and plans are to make this a citywide event.

A work day has been planned for May 15, 2002, at 7:00 a.m. at the Iris Patch. All members are encouraged to bring a new member for the next meeting, which will be held on June 11, 2002, at 12:00 p.m. in the City Hall meeting room.

The Lion's Tale
By Allen Estlack

Clarendon Lions Club held their regular Tuesday noon meeting June 4 with Boss Lion Jerry Woodard in charge. We had 18 members and two guests: Judy White, guest of Lion Mark White, and Russell Estlack, guest of Lion Allen Estlack.

The club answered a challenge from Clarendon Masonic Lodge #700 and voted to give \$1,000 to the Courthouse Restoration Fund. We then voted to give \$1,000 to the Clarendon College New Horizon Campaign and challenged the Masonic Lodge and other organizations to match these contributions.

Story Hour started this afternoon for the summer reading programs. And the chamber reports there is a new billboard at the intersection of Hwy 70 and US 287 boosting Clarendon. There being no new business, we were adjourned.

Obituaries
Carter

Funeral services for Clara Mae Carter, age 94, were held at 2:00 p.m. on Sunday, June 2, 2002, in the First Baptist Church in Clarendon with Rev. Truman Ledbetter, Pastor, officiating. Burial was held in Citizens Cemetery under the direction of Robertson Funeral Directors, Inc., in Clarendon.

Carter

Mrs. Carter died Thursday, May 30, 2002, in Pampa. She was born October 15, 1907, in DeLeon, Texas. She married Amul Cyrus Carter on July 24, 1927, at Camey, Arkansas. He preceded her in death on July 17, 1970. She came from Arkansas to Lelia Lake in 1928 and then moved to Clarendon in 1945. She had worked at Dixie Café, Jake's Steak Out, and Mrs. Bromley's Restaurant in Clarendon, and while at Mrs. Bromley's, was written up in *Texas Monthly* magazine as "The Fastest Waitress in the West." She later also was the cook for the Clarendon Chamber of Commerce. She joined the First Baptist Church in Lelia Lake in 1932 and later moved to a member of the First Baptist Church in Clarendon.

She was preceded in death by a sister, Lavern Howard; a brother, Guy Daniell; and a grandson Adam N. Carter on April 29, 2002.

Survivors include three sons, Garth Carter of Clarendon, Jimmy Carter of Amarillo, and Neel Carter of Miami, Texas; two sisters, Mary L. Carter of Sherman and Mavis Loe of Jefferson, Texas; 12 grandchildren; and 13 great grandchildren.

Casket bearers were Ronnie Tyra, Jerry Hicks, Larry Hicks, Johnny Carter, Jay Carter, and Craig Hoyler.

Williams

Charles S. (Bill) Williams, 81, died Thursday, May 23, 2002, from congestive heart failure in East Texas Medical Center, Tyler, Texas. Services were held in the Caudle-Rutledge Funeral Home Chapel on Saturday, May 25 for friends and family followed by graveside services and burial in the Lindale City Cemetery.

Williams

Mr. Williams was born in Ranger, Texas, June 1, 1920 and raised in the Abilene, Texas area. He married Mahdene "Dee" Williams in 1940. They lived in San Francisco where Mr. Williams was attached to the Navy on Guam during the war. They resided briefly in Memphis where Bill worked for West Texas Utilities before moving to Clarendon in 1949. After a brief partnership with Dick Chunn, Bill took over the business and established Clarendon Electric. Over the years Bill added licenses in plumbing, heating and air conditioning and was active in several professional organizations.

During his years in Clarendon, Bill was an active member of the Lions Club. In 1966 he sold the business and moved to Dimmitt, Texas, where he opened A-1 Mechanical. Mr. Williams sold A-1 mechanical in 1982 and retired to Hideaway Lakes where he enjoyed golfing, boating and fishing in his later years. He was a member of Hideaway Lake Community Church and was active in the Kiwanis Club.

Survivors include Betty Williams, his wife of 26 years, of Hideaway Lakes; two daughters, Connie W. Stewart of Galveston, and Cyndy Reynolds of Dimmitt; two grandchildren, Cherie D. Floyd of Clarendon and Christopher Reynolds of Dimmitt; and three great-grandchildren.

Crystal, James and Charlie all of Clarendon.

The family suggests memorials be to The American Heart Association.

Jordan

Memorial services for Patricia Jordan, age 70, of Amarillo, were held at 10:00 a.m. on Thursday, May 30, 2002, in the Washington Avenue Christian Church with Tom Posey and Ed Moderick officiating. Arrangements were under the direction of Griggs and Sons Funeral Directors in Amarillo.

Jordan

Mrs. Jordan died Thursday, May 23, 2002, in Amarillo. She was born and raised in Clarendon. She married Billy Jack Jordan on February 28, 1949, in Clarendon. They moved to Amarillo in 1950 and then to Belen, New Mexico, in 1977. She retired in Amarillo in 1991. She was a secretary for many years working for Plastic Fabricators, Pantex, as well as Santa Fe Railroad. She was voted Amarillo's Secretary of the Year in 1964. She was a member of the Washington Avenue Christian Church.

Survivors include her husband; a son, Kim Jordan and wife, Paula, of Canyon; a daughter, Karla McElroy and husband, B. James, of Seattle; her mother, Roberta Pittman of Clarendon; a brother, Billy Carl Pittman of Austin; two sisters, Judy Burlin and Jeanie Johnson, both of Clarendon; and four grandchildren, Jerrica Jordan, Billy Jack Jordan II, Charise McElroy, and Jared McElroy.

The family suggests memorials to Alzheimer's Association Panhandle Chapter.

Ranch estate planning seminar set

College Station- Texans can learn how to reduce their estate taxes and make effective estate planning decisions at an August 4-5 Ranch Estate Planning Seminar at the College Station Conference Center.

Corporations and partnerships; special farm land valuation; family-owned business exclusion; and more for deferring estate tax payments.

"This seminar will focus on how to make wise ranch estate planning decisions," said Dr. Wayne A. Hayenga, Texas Cooperative Extension economist-management. "The information is useful for married couples, spouses, potential estate executors, trustees, and those who want to make estate settlement less burdensome."

The 1 1/2 day seminar will run concurrently with Texas A&M University's 48th Annual Beef Cattle Short Course and Trade Show, slated on August 5-7.

The Ranch Estate Planning Seminar will cover:

- Basic estate planning devices such as wills, living trusts, estate tax deferral, gifts and property titles.
- How to treat beneficiaries
- Estate planning tools for agriculture, including the use of cor-

• The role of life insurance in estate planning and tax valuation rules

Hayenga is an attorney as well as an Extension economist. He works extensively with farmers, ranchers, and family owned firms in financial and estate tax planning.

The seminar runs from 3 p.m. to 7 p.m. on Aug. 4 (including a light snack), and from 8:30 a.m. to 4:30 p.m. on Aug. 5 (including lunch). Registration costs \$100 per person and includes printed materials, refreshments, and a meal.

Registration and other information is available by calling Sharon Whering at (979) 845-2226.

This estate planning seminar is sponsored by Texas Cooperative Extension, in cooperation with Texas and Southwestern Cattle Raisers Association.

More information on the Beef Cattle Short Course is available by calling (979)845-379.

Local 4-Hers participate in photo contest

Donley County 4-Hers Abby Patten, Paul Goetze, and Scott Fowler competed in the first annual Panhandle 4-H Photography Contest and Exhibit.

They competed against sixty-nine entries from across the panhandle who participate in the 4-H Photography Project year round.

Abby had three entries and received a red, white, and blue ribbon. Paul had five entries and received two red ribbons and three blue ribbons. Scott had three entries and received one red and two blue ribbons.

The contest and display allow youth aged 9-13 to enter photographs in 16 categories and be recognized for their skill. Senior age members (14-18) submit their photos for state competition in College Station, which will be on display June 11-13

at Texas A&M University.

The Panhandle 4-H Photo Exhibit will be on display in the Quiet Room at the Jack B. Kelley Student Center on the West Texas A&M University Campus May 22 - June 4. Exhibit hours will be Monday - Thursday 7:30 a.m.-5:30 p.m. and Friday 7:30-11:30 a.m.

Objectives of the contest include:

- To develop life skills in composition, light, story line, posing and awareness
- To encourage 4-H members to use photography as a meaningful communication tool in their lives.
- To provide a photography project showcase opportunity for 4-H members.
- To utilize photographs which can promote and strengthen the 4-H program.

Barton will be Lady Bronco Head Coach

By Sandy Anderberg

Three year Lady Bronco Assistant Basketball Coach Kathy Barton has been named as Head Coach of the Lady Bronco basketball team according to Clarendon Athletic Director Roger Hoeltzel.

Barton, a 1986 graduate of Howard Payne University, began her career as an assistant coach at CHS in 1999. Previously Barton taught and coached at McLean for two years, Nazareth for two years, and Bushland for five years.

"I am very excited about the opportunity that has been given to me," Barton said. "There is a lot of talent here, and I hope to make the best use of that talent."

Barton knows the drop from 2A to 1A will still be challenging for the Lady Broncos.

"Dropping to class 1A doesn't mean easier; it will still be tough in the athletic realm," Barton said. "Girls athletics will be exciting here for many years to come."

As of press time, Coach Barton had not yet named an assistant.

Ray, Watson play in All-Star baseball game

By Sandy Anderberg

Clarendon was well represented at the Greater West Texas Baseball Coaches Association All-Star Game Saturday, June 1, at Lubbock Christian University. Seniors Jeremy Ray and Cody Watson were selected to play in the game along with other top baseball players in the area from 1A, 2A, and 3A schools.

Nominated by Coach Danny Brittain, the duo was then selected by a committee of coaches from the area. They were chosen because of their ability to play baseball and their season statistics.

The Bronco baseball players played for the North team. They were defeated by the South, 15-12.

Ray played third base, and Watson played in right field. Ray was credited with a single, and Watson didn't make it on base but had a good hit that allowed his teammate a chance to score. Overall the young men had a great time and were excited about the chance to represent their school.

"These two young men were very deserving of this honor," Brittain said. "They were very capable of playing the positions they played. It was neat to see these kids believe they could play as well as the others selected to the team. They did a great job."

Thompson will play in Saturday Greenbelt Bowl

By Sandy Anderberg

Senior football player Brian Thompson has been selected to play in the Greenbelt Bowl Classic All-Star Football Game Saturday, June 8, at 7:00 pm. The game will be held in Childress, Texas.

Thompson was nominated by Athletic Director and Head football Coach Roger Hoeltzel. He was nominated because of his ability and leadership on the field during his 4 years at CHS. A selection committee of the Greenbelt Bowl Classic Association then makes their selections from the nominations.

Thompson has been a stand out during his time at CHS and is a very hard working and dedicated young man.

"It's really an honor for Brian to be selected to play in this game," Hoeltzel said. "I know he'll do a great job in representing our school."

Clarendon High School named the recipients of three annual awards during graduation ceremonies Friday. Kelley Lemley was named the Best Girl Athlete, and Jeremy Ray received the Fighting Heart Award and the Knorpp Cup Award.

CC sets June test dates

June testing dates have been scheduled for Clarendon College. Tests to be administered are the GED and ACT.

GED Testing (High School Equivalency Exam) will be given Monday, 10, at the Pampa Center. Registration begins at 8:30 a.m., the day of the test, and the test will begin at 9 a.m. Cost of the exam is \$60.

Clarendon College will also offer the ACT June 8. Late registration is still available for the ACT through their website www.act.org.

Two forms of ID, one must be a photo ID, are required for each test. Pre-registration is strongly encouraged. To pre-register or for more information, call Clarendon College at (806) 874-3571.

Texas Plains Region one step closer to being heritage trail

TULIA - The Texas Historical Commission (THC) and the Tulia Chamber of Commerce held an organizational meeting on May 14 to assist the Texas Plains Trail Region prepare its application for designation as an official Texas Heritage Trail.

"The meeting was a huge success. All kinds of people from museum directors to county extension agents attended. This diverse group has one thing in common," said Janie Headrick, director of THC's Texas Heritage Trails Program, "they are all interested in working together to develop the region as a heritage tourism destination."

Headrick talked about the benefits of heritage tourism to the local economy, discussed the application process, and explained the Texas Heritage Trails Program to the nearly 80 people in attendance.

The next meeting will be held in Tulia on Tuesday, June 25, from 10 a.m. to noon at the Swisher Memorial Building located at 127 SW Second.

The Texas Plains Trail Region covers the following counties in North West Texas: Armstrong, Bailey, Borden, Briscoe, Carson,

Castro, Childress, Cochran, Collingsworth, Cottle, Crosby, Dallas, Dawson, Deaf Smith, Dickens, Donley, Floyd, Foard, Gains, Garza, Gray, Hale, Hansford, Hardeman, Hartley, Hemphill, Hockley, Howard, Hutchison, Kent, King, Knox, Lamb, Lipscomb, Lubbock, Lynn, Mitchell, Moore, Motley, Ochiltree, Oldham, Parmer, Randall, Roberts, Scurry, Sherman, Swisher, Terry, Wheeler, and Yoakum.

The Texas Heritage Trails Program is a regional tourism initiative of the THC. The program helps Texas communities promote tourism, revitalize local economies, and foster community leadership through historical preservation.

For more information on the Texas Heritage Trails Program, contact Janie Headrick at 512/463-5754. For more information on the meeting, contact Linda Barnett at the Tulia Chamber of Commerce at 806/995-2296.

The Texas Historical Commission is the state agency for historic preservation. The agency administers a variety of programs to preserve the archeological, historical, and cultural resources of Texas.

Teacher pitches tent on roof

Clarendon Junior High reading teacher Jay Gage issued a challenge to his seventh grade reading class - if they could all pass the TAAS reading test, he would sleep on top of the school. As you can see, they met that challenge. Mr. Gage slept on top of the school on Friday night, May 31.

Research provides clues for ending vascular problems in diabetes patients

According to a Texas A&M University study, scientists may be one step closer in preventing endothelial dysfunction, one of the leading causes in diabetic patient mortality.

Natalie Anne Morrow, who graduated with her master's from Texas A&M in May, began the research in an attempt to see if enterocytes, absorptive cells of the small intestine, had an effect on the decrease of the plasma concentrations of arginine, an essential amino acid.

Arginine is "a nutritionally essential substance for young mammals...and adults," said Dr. Guoyao Wu, professor and university faculty fellow.

"Arginine is the physiological substrate for the synthesis of nitric oxide (NO). If arginine availability is reduced, the generation of NO is impaired, thereby contributing to endothelial dysfunction."

The endothelial cells line human blood vessels.

"The endothelium plays a critical role in regulating vascular tone and permeability by maintaining the balance of the synthesis of relaxing and constricting factors," said Wu.

The low concentrations of arginine cause the endothelium to act abnormally. They will produce superoxide anion, an oxygen free radical that "results in oxidative stress and

cell injury," Wu said.

"Furthermore, arginine itself is a scavenger of oxygen radicals, and thus when its availability is limited, the removal of these tissue-damaging molecules is reduced, thereby impairing the function of endothelial cells," Wu said.

In the experiments, Morrow and Wu took a sample of diabetic-infected rats treated with or without insulin and age-matched non-diabetic rats. They isolated enterocytes from the small intestine and obtained kidneys from both groups.

Their findings showed plasma arginine concentrations were not depleted because of the enterocyte interference. Insulin treatment prevented arginine deficiency in diabetic rats by enhancing aspartate (an amino acid) availability.

"We are now conducting a whole body experiment to find out if oral administration of arginine is beneficial to increase nitric oxide synthesis by endothelial cells and to prevent endothelial dysfunction," Wu said.

"Because endothelial dysfunction is the major factor responsible for the high rates of morbidity and mortality in diabetic patients and because over 20 million Americans suffer from diabetes, designing new means to enhance arginine availability is of enormous importance."

C-C hosts Memorial Day hospitality booth

The Clarendon Chamber of Commerce hosted a hospitality booth at the rest stop just west of Clarendon during the Memorial Day weekend.

Travelers from Minnesota, Mississippi, Florida, Houston, Vernon, and the Dallas Metroplex stopped in and enjoyed drinks from the local chamber on Friday evening. The booth was to be open on Monday but was closed due to the weather.

Members of the Chamber of Commerce Board helped with the

booth along with members of the Donley County Tourism Board, First United Methodist Church, Clarendon Volunteer Fire Department, Clarendon Firebelles, Boy Scouts, Girl Scouts, Medical Center Nursing Home, Associated Ambulance Authority, Northwest Texas Hospital, and the Burton Memorial Library. The Donley County VFW loaned their wagon for the booth. KEFH and KLSR radio station also helped with the project.

Cheerleader Camp to be held here for little misses soon

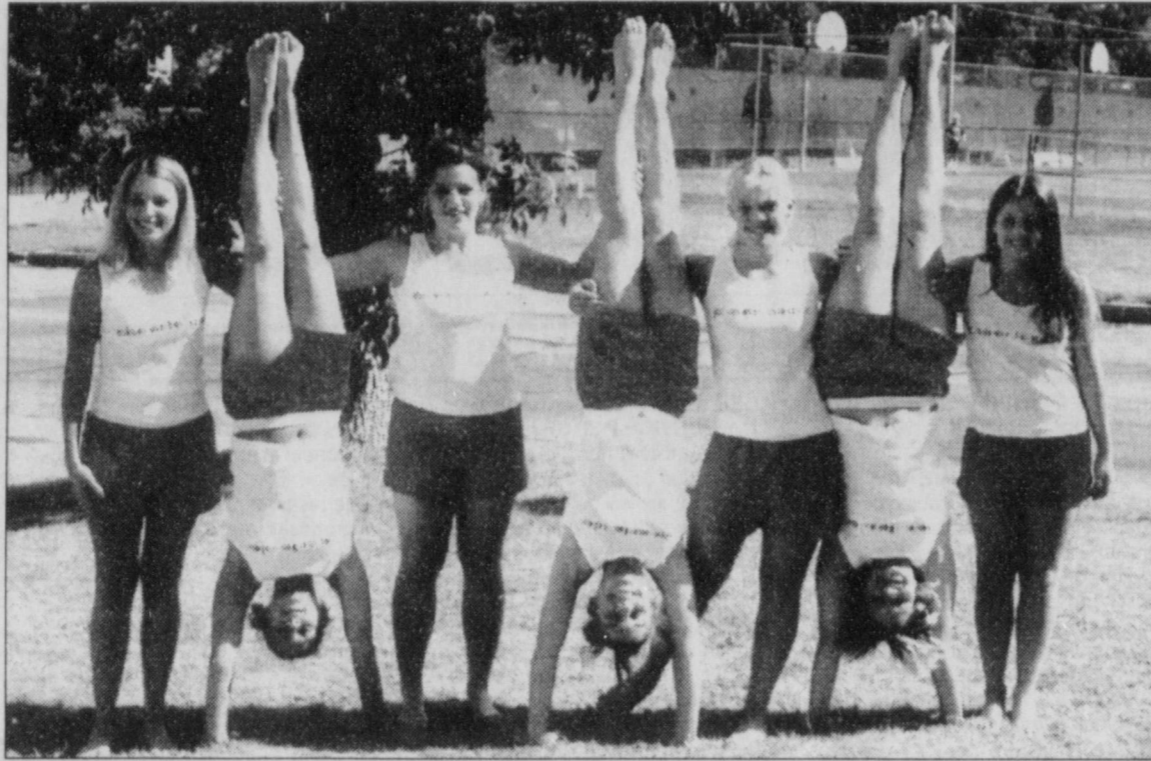

The Little Miss Cheerleader Camp will be held August 5-7 from 9:00 a.m. to 12:00 p.m. at the Clarendon school practice field.

This camp is designed to teach future cheerleaders cheers and chants. The camper will receive a T-shirt and cheer button. Participants will be cheering in one pep-rally along side the varsity cheerleaders.

Registration forms are available at the Clarendon CISD Administration Office.

If you have completed the registration form, you may mail it to Clarendon Little Miss Cheerleading Camp, Clarendon CISD, PO Box 610, Clarendon, Texas 79226, or drop it off at the Clarendon CISD Administration Office.

Deadline for completed registration forms is July 6, 2002. For any questions regarding the camp, please contact Missy Kidd at 874-3048 or Clarendon High School at 874-2181.

Heads or tails
