Grand Jury Indicts Three

by Mary Beth Nelson

On October 4, 1993, three people were indicted by the Grand Jury. Steve Crawford was indicted for theft over \$750. Darrell Whitaker for burglary of a habitation, and Sherry Smith for forgery.

Other proceedings included two plead-outs which were filed by information. Israel Daniel Billiot was charged with aggravated assault with a deadly weapon, and sentenced to two years adjudication. Terry Durley was sentenced to five years in the penitentiary for robbery.

These are the first Donley County proceedings in which District Judge, David McCoy, has presided and District Attorney, Jim Shelton, has been involved since they recently took office.

STUDENTS AND PARENTS from Mrs. Tucker and Mrs. Gribble's rooms recently went on a field trip to see how peanuts are produced. They watched as the peanut plants were plowed up and flipped over to dry. Then they watched a combine pick up the plants and thresh out the nuts. Roy Lee Helms hosted the young scholars on his farms.

Safety Tips Offered

The Clarendon Student Council would like to remind the Trick or Treaters to follow Halloween Safety procedures by checking candy, wearing light colored costumes or reflecting paper, traveling in groups, and only going to familiar houses.

Hints for Winter

Winter driving on wet, icy, or snow covered roads is different and drivers should prepare themselves by "cold proofing" their vehicles and adjusting driving habits, according to Trooper Snider of the Texas Department of Public Safety. "Batteries, tires, windshield wiper blades, and anti-

freeze are items that need to be checked. Weak batteries should be replaced, tires should have good deep treads, and good wiper blades are vital in winter when visibility is poor," he said.

Safe driving in winter requires more patience, so Snider advises the motorist to start early, adjust their speed for road and traffic conditions and avoid sudden driving maneuvers.

Snider said, "skidding on slick roads is a major accident factor and is usually caused by driving too fast for conditions or from locking wheels when drivers slow down."

Snider stated that if a skid occurs, the driver needs to ease off the accelerator, then turn into the skid. If your car's rear end slides left, turn your steering wheel to the left; for right skids, turn right. Pump your brakes if necessary, don't lock them.

He emphasized that impatience won't get you to your destination any faster. Patience won't get you there any faster either, but he said, "It'll sure make the trip more pleasant and safe."

The Senior Citizens Dance Club held the Tuesday night dance on October 12th at the Community Building. They enjoyed a good crowd in spite of the hail storm during the early evening. Everyone appreciated Earl Irwin bringing two boxes of good

reading material to share with us along with some interesting cookbooks.

On Thursday, the HICAP volunteer, Duana Wilkinson from Pampa, was here at the Center to be available for anyone who may have questions or problems regarding medicare, medicaid or supplementing insurance. She will be back here on the 2nd Thursday, November 11th from 11 a.m. until 12:30.

fiscal/year 1993 financial statements were reviewed. The date for the annual Director's election has been set for Thursday, November 18th. The nominating committee will present a list of candidates who are willing to serve on the Board for a 2 year term if elected.

A big thanks to Darrel Harper for driving the Ford Van for us on Saturday October 16th to take a group of fifteen folks to Canadian, Texas to the Fall Foliage Festival. It was a beautiful outing for everyone. The group drove around Lake Marvin to see more of the changing of the leaves, made the rounds at the Arts and Crafts Show and ate a delicious brisket meal at noon. In the afternoon some of the folks toured the Abraham family home place and Dr. Abraham's Medical Center with the elaborate wild-life paintings. Some of the ladies went to the Quilt Show. The weather was perfect and the drive up and back was equally enjoyable.

The Birthday/Anniversary Supper will be on Tuesday evening, October 16th at 6:00 p.m. We would like for folks to dress up in Halloween costume or character for the evening fun and there will be two judges here to pick the best costume or character and prizes will be given. This hasn't been done for a long time and will be fun and different. The Program will feature Mary Hennigh and Jo Ellen Moses from the Amarillo Senior Citizens. Mary Hennigh depicts "Minnie Pearl" and Jo Ellen does a super job of her story-telling. Those who heard them a year ago really enjoyed them. Bring a dish and a friend and dress up Halloween style, if you would like to join in the fun of the season.

College Meat Team Competed

The Clarendon College Meats Judging team finished second by a mere nine points to Tarleton State University at the 13th annual High Plains Meats Judging Contest hosted by the Excel Corporation and the city of Plainview. The team competed against 16 other teams representing junior colleges and four-year institutions from across the nation at the October 2 contest. of Six Flags over Texas, the French and British pavilions at Epcot, and the new MGM Grand Hotel and Theme Park in Las Vegas and has worked on expansion projects with Knott's Berry Farm and others. The master plan for Thunder Junction is both beautiful and functional. The park consists of a turn-of-the-century Western town complete with restaurant, candy store, pottery shop, activities for children of all ages and much more. A tourist center will also be included with information on other points of interest throughout the Panhandle. Employees will be dressed in the fashions of that time.

According to Frank Hommel, owner-operator of the Bar H Working Dude Ranch, people are hungry to know all about the old cowboy days and how people lived then. Frank should know, as the ranch has had many visitors both from this country and abroad. Some cannot understand why we haven't taken advantage of our history, opening up this part of the world and improving our economy through tourism. What better way of doing this than with Thunder Junction?

With the support of area senior citizens and many other groups both public and private, the proper ground work and planning have been completed, favorable feasibility studies, architectural research and a master design plan. Now our task is to raise funding for the park itself.

I am a Volunteer In Service To America (VISTA) assigned to Yesterday's Children as a fundraiser, and I need your help. I'm sure there must be at least one person in each town in this great Panhandle of ours who feels the same way I do about the potential of this park. This is a good project which will have long-term benefits both for senior citizen programs and our area economy. If you are interested in this project or would like to help make Thunder Junction a reality, please contact me at Yesterday's Children, P.O. Box 716, Clarendon, TX 79226, (806)874-3429, or come by 318 Kearney in Clarendon.

Dear Editor,

What can Thunder Junction, the turn-of-the-century heritage park planned near Greenbelt Lake, mean to this area? As one of "Yesterday's Children", I believe it's a chance to breathe new life into the Panhandle which is very badly needed, especially in our small towns and rural communities. Have you taken a good look around you lately? How many rural communities are completely gone? Too many. How many stores in all of our small towns are out of business? Have you gone into what used to be your favorite store to buy a pair of shoes lately? Not in my town you haven't; that store is out of business. Moreover, there is no other store in this town where you can buy shoes, sheets, pillow cases and many other items we need in our daily living. Why? Our merchants cannot buy such items on large enough quantities to be competitive with the larger city merchants.

Our young people are moving away to find jobs on which to build their future. They must, there are few jobs here. This leaves the small towns and rural areas with mostly senior citizens. What will happen when we pass on, as we surely must sooner or later? You merchants who feel that your offspring's future is secure because you're leaving them the business you have worked so hard all your life to establish: who is going to be around to buy from them?

What can we do about this problem? We must do as those who settled the Panhandle did. They prayed together, worked together and fought together, enduring whatever hardships it took to develop this great land of ours. I'm sure there were times when those early settlers wondered if it was worth the effort to stay in this no-man's land when they could go back

to civilization where it was safe and comfortable. Thank God, they stayed and left us a tremendous heritage. Now it is our turn to stand shoulder to shoulder, working for one common cause: to make our Panhandle a better and more prosperous place to live. We Can Do It!

Our way is to support tourism and the Thunder Junction project of Yesterday's Children, Inc., a non-profit organization whose purpose is to establish a new, ongoing source of funding for senior citizens programs on the Panhandle. The park will be located on Highway 70 north of Clarendon, between two major highways, Interstate 40 on the north and U.S. 287 on the south. These roads are heavily traveled by tourists looking for something new to see. Let's give them that something here in the Panhandle!

According to a feasibility study by a top recreation consultant, Don Stewart of Economic Consulting Services in California, Thunder Junction could have a major impact on the Panhandle's economy. With the addition of a water park, which he recommends, Stewart predicts Thunder Junction will produce over the first five years in operation:

- *Annual revenues averaging \$8 million,
- *Annual profits averaging \$2.46 million, and
- *More than 200 on-site jobs plus numerous cottage industries.

Design plans for Thunder Junction were drawn by Ira West of the Duell Corporation, designers

Family Melodrama To Be Presented

In the days of old when cowboys were wild and bold. When villains went about their work, in every canyon they did lurk. In the days when lonely ladies were few, there came on the Tascosa Stage, two. There also came a hero to this young land. This is his story, when he was a wild young man. His heroic deeds continued to grow as he put down every dastardly foe. When ever there came a hero's job, they called for the man with the plan... our very own Donley Dan! So the dangerous deeds we tell you about our greatest man. Who's fighting spirit lives with us, throughout this land. Now, ladies and Gentlemen: Let us take you

back when this was a wild young land and meet our first hero, we call Donley Dan.

Meet Donley Dan, at the Clarendon College Theatre on Saturday, November 20 at 7 p.m., Sunday 21, 2 p.m., and Monday November 22, 7 p.m. All tickets to this family melodrama will be \$3.00. Presented by Clarendon College Theatre students and community actors.

If you love to read, but haven't discovered the advantage of the "large print" books at Burton Memorial Library, come in and ask the librarians to acquaint you with these. The books written in large print are located in an easy-to-find section of the library. Some are the library's permanent publications, but others are on a four-month rotating program with various libraries in the Texas Panhandle Library System. The books mentioned in today's column will be available at Burton through December. At that time, Mary Linn

will send them to another library as she receives a new supply.

Westerns such as Zane Gray's Robbers' Roost; Albert Butler's Get Judge Parker; and Ernest Haycox's Starlight Rider offer excitement.

Silver Chair by C.S. Lewis, the fourth book in the Chronicles of Narnia series about a fantasy kingdom, will entice your elementary or Junior High child (and so easy to read in that large print).

Food specialist and author, Sylvia Vaughn Thompson, has combined 250 versatile recipes in her book, Woman's Day Crockery Cuisine, designed for the slow crock cooker.

The Evening News, by Arthur Hailey, presents fiction based on non-fiction elements behind the scenes of studios and newsrooms.

For wholesome, lighter, romantic reading, Janet Oke's Love Comes Softly and Rosamunde Pilcher's Flowers in the Rain are in large print. Pilcher is author of The Shellseekers which remained at the top of the best-seller list for several weeks, a couple of years ago.

Sidney Sheldon fans will enjoy reading Windmill of the Gods in large print.

Classics, Kim by Rudyard Kipling and Great Expectations by Charles Dickens, are also currently in this section.

Readers Digest fans will appreciate issues of condensed books

dated from 1982-1992. These are not included in the rotation program, so you'll be glad to know they are always available.

You'll find a variety of other books in this easy-to-read print. Why not give your eyes a "break", and check it out?

Next time you see Tommie Saye, why not tell him "Thanks" for volunteering to report the weather for all these years?

Indiana Firm Discovers:

Special New cream for arthritis

CARMEL, IN (Wire Bulletin) — If you suffer from the pain of arthritis, rheumatism or bursitis, there's a small company in Carmel, Indiana that manufactures a product that you should try.

The product is called Pain-Bust-Ril, and it is a soothing medicated cream that you simply massage into your aching joints. It goes to work immediately by penetrating deep into the joints where pain begins — bringing instant relief. And what's more it will not stain or smear clothing or bed sheets.

Though the product is not widely known, it is 100% safe and users claim that there's nothing else on the market that even comes close to it. In fact, according to company president Bryan Auer . . . "we get more re-orders on this product than any of the other 33 products in our line! And people write us everyday telling us that Pain-Bust-Ril is 'the best'".

"I use PAIN BUST because I suffer from tension in my back and shoulders. I can't praise your product enough. I've used other ointments, but they don't seem to work as fast nor last as long. Thank you. Thank you . . . Thank you!" C.K.F.

"Last night when I went to sleep I rubbed some PAIN BUST on my sore aching knee. 15 minutes later I fell sound asleep and woke 8 hours later with absolutely no pain. I wish I knew about PAIN BUST long ago." B.M.S.

"I'm 72 years old and suffer from arthritis in both hands and feet. On damp, cold days I used to go out of my mind with pain. Not anymore, I now enjoy peace of mind and pain free joints. Respectfully," R.B.G.

Check Hay Quality

by Zackary Wilcox CEA-AG

Hay feeding time is approaching and it's important to know the quality of hay for a sound feeding program.

Different kinds of livestock have different nutritional requirements, and that's where hay quality enters the picture. For example, cows with young calves have higher nutritional requirements than dry cows. So it's all the more important to have a knowledge of the quality of hay being fed.

A forage test is the best way to determine the quality of hay and what supplements, if any, if any will

be needed to meet nutritional requirements of livestock consuming that hay. Producers can mail forage samples to the Extension Service's Forage Testing Laboratory at Texas A&M and get results within a week.

Forage test include protein, fiber and mineral analysis, with charges based on the number of specific test requested. A few dollars invested in forage test, can mean savings in several ways. First, it can be the savings in amounts of supplements fed each day and the cost of those supplements. But the greatest savings could be in livestock weights. For example, livestock consuming low quality hay could lose weight and value during the winter months.

Information sheets and guidelines for collecting forage samples and interpreting analyses are available at the county Extension office. So take a few minutes now to collect a hay sample and get it tested. It could make a big difference in your livestock feeding program this winter. If anyone would like additional information on this or any other subject come by or call the Extension office at 874-2141.

Companies Join Forces To Promote Farm Safety

Continental Insurance and Farm Safety 4 Just Kids have joined forces to promote FarmWise, a farm safety curriculum developed by Continental Insurance for children ages kindergarten through third grade.

The curriculum was designed to help lower the rate of preventable deaths and accidents on farms by educating children and instilling safety habits that will protect them throughout their lives. FarmWise accomplishes this by providing teachers with educational and support materials for five multidisciplinary farm safety units: Farm Machinery, Livestock, Buildings and Structures, Chemical Hazards and Outdoor Safety.

"Working with Farm Safety 4 Just Kids helps us reach the families who live and work on farms," said Tom Blandford, vice president of Continental's Farm and Crop Division. "This partnership will help promote farm safety in schools and at farm trade shows, as part of our larger effort to spread the message about the importance of high safety standards in the agricultural industry."

Farm Safety 4 Just Kids shares Continental's goal to educate communities about the importance of farm safety. The organization was started by a farm mother, Marilyn Adams, who learned this tragic lesson after losing her son, Keith, in a farm-related incident in 1986.

"Education is the key to preventing children who live, work and play on the farm from becoming morbid statistics," said Adams, founder and president of Farm Safety 4 Just Kids. "To reduce the number of childhood injuries and deaths, resources must be easily accessible for community people to provide education. Friendly and accurate farm safety curriculum material is appreciated by both professionals and community farm safety advocates."

The Continental Corporation, headquartered in New York City, is a property/casualty insurance organization with about \$5 billion in annual revenues. Its subsidiaries are leading writers of commercial, farm and personal package policies and select specialty coverage through major independent agents and brokers.
