Also on the bill will be "The 3 Stooges Comedy."

The front of the theatre has recently been redecorated and other work done to improve the appearance, Mulkey said.

JA Wagon Mascot Seven Years Dies

Bill, a bulldog mascot at the JA Ranch chuck wagon for seven years was drowned on the range recently with the end of the trail in sight. Going for a drink the dog jumped into a metal reservoir which was a bit low and was unable to get out.

"Just a few lines to let you know that I am all hunky dorie. I am enjoying a little vacation with another one of my old friends, Byron Alexander. I am making the rounds with him here in Ft. Worth, seeing the town, the good looking girls and really enjoying myself."

"If you don't mind, call Bert Smith and tell him I will be home in a few days to assume management of the gins, that I am just taking a very much needed vacation, and as soon as I get back I will get the business all straightened out," Jerome writes.

Jerome is a hard worker and his many Clarendon friends will welcome him on his return.

Poisonous Medicine Not In Clarendon

While state and federal authorities investigated over a score of deaths of users of a proprietary elixir of sulfanilamide, and food and drug inspectors located in Amarillo state that some of the potent medicine was distributed in certain Panhandle towns, an investigation among the physicians and druggists by a news reporter, revealed that none was distributed in Clarendon. Sulfanilamide, long in use, is non-poisonous when administered by a competent physician.

A salesman representing the manufacturing concern making the death-dealing medicine was recently in the city but local physicians stayed "hands off" because the medicine had not been thoroughly tested and passed on by the American Medical Association.

Some 36 deaths over the nation have been attributed to personal use or administration of Elixir Sulfanilamide, the largest number of deaths occurring at Tulsa, Okla.

WILL MEET LAKEVIEW FOR TILT FRIDAY NIGHT ON COLLEGE FIELD

The Clarendon Bronchos were left in the 3-B conference cellar when they were smeared by the Mobeetic Hornets, by the lop-sided score of 52-6, at College Field Friday night.

The Bronchos could take it, and merry making was at a high pitch following the Broncho tally, the only one of the season.

Mears, Clarendon back, recovering a Hornet pass, made the locals' marker in the game.

State highway markers that are duplicated on federal highways through Donley county were being removed this week, following an order from Julian Montgomery, new state highway engineer.

"With the trend toward simplicity and elimination of confusion caused by duplicate markers some thirty-five states are using U. S. markers exclusively to the satisfaction of all concerned.

State markers on a highway that is not also a federal highway will not be removed, highway workmen said Wednesday in Clarendon.

AAA Slashes 1938 Cotton Crop By 2,000,000 Acres; 680,000 Bales Less

REGIONAL QUOTAS TO BE ALLOTTED TO SINGLE FARMS OF AREA

WASHINGTON — The AAA made a 2,000,000-acre reduction Monday in the cotton crop goal for next year.

Approving the 1938 agricultural conservation program, Secretary Wallace fixed its "goal" so far as cotton is concerned at 27,000,000 to 29,000,000 acres. The goal previously had been placed at 29,000,000 to 31,000,000 acres.

Officials of the agricultural adjustment administration said the change was decided upon because of the unusually large cotton crop this year.

The goal is to be divided by areas and individual farms, and growers required to limit their plantings to their share of it in order to qualify for government benefit payments.

680,000 Bales Less

Authorities estimated the reduction in the acreage goal would be about 680,000 bales less cotton, if yields next year averaged the normal amount to 170 pounds an acre.

In view of the government forecast of a 17,500,000-bale crop this year, AAA representatives said, the reduction was necessary to

"CHARTER NIGHT" FOR LIONS CLUB

LOCAL LIONS CELEBRATE ANNIVERSARY OF FOUNDING IN ANNUAL BANQUET

Celebrating the fifteenth anniversary of its charter presentation, the Clarendon Lions Club entertains tonight at the Home Economics demonstration room in the old Girl's Dormitory of Clarendon College, with their wives, sisters and sweethearts as honor guests.

The dinner which precedes the program will begin at 7:00 o'clock, and President H. T. Burton urges prompt arrival so there will be no delay in serving the splendid demonstration dinner which is being prepared under the direction of Miss Berry, home economics teacher of the local schools. Something new and novel in decorations will be provided and the menu for the dinner is expected to be the best ever to grace a "Charter Night" Banquet for the local Lions.

Deputy District Governor Byron A. Schatz of Paducah will be the speaker of the evening and with him will come two entertainment numbers furnished by the Paducah Lions Club, who will have several Lions present along with the Deputy Schatz.

Lion R. E. Drennan is chairman of the program committee, who will add a local number or two to make up the evening's program. It is reported that the arrangements committee has secured special favors for the ladies who are honor guests of this annual affair.

The Clarendon Lions Club was presented its charter on the evening of Oct. 28th, 1922, and has since that date celebrated the anniversary with a "Ladies' Night" banquet, usually with some official of the Lions organization present to deliver the address of the occasion.

Near a hundred have signified their intention of being present tonight for the dinner and program.

RAILROAD COMMISSION MAKES GAS SURVEY

A survey of the property of the City Gas Co., was made in Clarendon Tuesday and Wednesday of his week by representatives of the State Railroad Commission, according to D. R. Davis, local manager of the gas company.

Routine surveys by the group are being made in this part of the state of gas company properties.

keep acreage "more in line with needs."

To prevent the acreage cut from diminishing federal rewards for co-operating growers, the rate of benefit payments was increased from 2 cents a pound to 2.4 cents on the normal yield of each acre.

Other Crop Goals

The national goals and rates of payments established for other major crops were as previously announced:

Corn 92,000,000 to 96,000,000 acres, 10 cents a bushel.

Cotton 27,000,000 to 29,000,000 acres, 2.4 cents a pound.

Peanuts 1,500,000 to 1,600,000 acres, 0.2 cents a pound.

Potatoes 3,100,000 to 3,300,000 acres, 4 of 6 cents a bushel, depending on the producing area.

In addition to rewards for compliance with acreage limitations on these "soil depleting" crops, payments to co-operating farmers under the 1938 program will be based on acreage in soil-conserving crops, restoration land, non-crop pasture land, commercial orchards and commercial vegetables. Restoration land is plowed acreage returned to grass.

Officials pointed out the program still is dependent on congressional action, since the actual appropriation for next year's payments has not been made.

NO TIME FOR JUBILATION IN TEXAS

The News can see no cause for jubilation in Texas over the announcement this week of the U. S. Department of Agriculture of a two million acre reduction in cotton acreage for 1938.

Every year for the past five, foreign countries have matched every acre taken out of cotton production in America, and more, until today we face a vanishing world market and demand for our cotton. A government policy which allows California and Arizona to increase cotton acreage while demanding heavy reductions in Texas and the South, and does nothing about a tariff which loses us our cotton exports in increasing ratio is a menace to the future of Texas and the South.

If we were editing a foreign newspaper where cotton is being produced in growing volume every year, we would print with great jubilation the nearly ten percent additional cotton acreage cut in the United States. It would be big prosperity news. Here in Texas it is the reverse.

On one celebrated occasion a football player created a national sensation by running the wrong way with the ball, unconsciously aiding his opponents. A two million acre reduction on top of an accumulated cut over the past few years is like that. We are advancing the ball—the wrong way.

THERE MAY COME A TIME—

Last week the Memphis Democrat carried an editorial by Editor Claude Wells under the caption of "Attach Donley and Collingsworth?," commenting on the recent editorial of Editor David Warren of the Panhandle Herald on consolidation of county governments as a measure of economy.

The Clarendon News doubts that Texas people are yet ready for such a splendid example of pride surrender even at a considerable saving in taxation, but we have a feeling that the mounting costs of government will some day bring about a time when it will be given favorable attention, backed by mounting majorities. Of course, nobody authorized Dave Warren to wipe out Donley County's court house and county establishment by tacking us on to Hall County along with Collingsworth. It might be that the grouping would come another way around with Donley County's venerable and classic court house the seat of government for several adjoining counties, but we openly concede that the grouping would have a lot to do with local enthusiasm for the plan, until our development brings us to a point where efficiency in administration amounts more to us than pride of tradition and county boundaries.

We still believe, that there may come a time. In the meantime read what Editors Wells and Warren have to say on this out question:

"David M. Warren, editor and publisher of the Panhandle Herald, came out recently with a bold editorial showing how a large amount of taxes could be saved through

Supremacy of the People

Why does our Constitution give the final power to the people and restrict the powers granted to our government?

President John Adams, a signer of the Declaration of Independence, gives the reason:

"As the happiness of the people is the sole end of government," he says, "so the consent of the people is the only foundation of it, in reason, morality and the natural fitness of things. And, therefore, every act of government, every exercise of sovereignty against or without the consent of the people, is injustice, usurpation and tyranny."

It is a maxim that in every government there must exist somewhere a supreme sovereign, absolute and uncontrollable power; but this power resides always in the body of the people; and it never was, or can be delegated to one man or a few; the great Creator having never given to men a right to vest others with authority over them unlimited either in duration or degree.

"When kings . . . governors, or legislatures . . . instead of exercising the powers . . . stated by the Constitution . . . prostitute those powers to the purposes of oppression, to

subvert, instead of supporting a free Constitution; to destroy, instead of preserving the lives, liberties and properties of the people, they are no longer to be deemed magistrates vested with a sacred character but become public enemies and ought to be resisted. To protect us against tyranny and to preserve our liberties, our Constitution gives sovereign power only to the people, limits the powers granted to our government and obligates our courts to uphold our Constitution as "the supreme law of the land."

county consolidation. While Memphis and Hall County would probably favor a consolidation such as Editor Warren suggests, there would be other counties who would actively fight such consolidation. And the sole reason that Hall County would probably favor the combining of county governments is that this county would be benefited—Here is the editorial:

'County consolidation is a subject that will be brought up more and more in future years, but it is going to take a long time to get anywhere with the movement.

'People are proud of their small units of county government. Consolidation may enable some savings, but it is evident now that the people would rather pay more taxes and have counties about the present size. However, there should be more consolidation of tax units within the counties.

'Some of the important cities are at the edge of the counties, and consolidations could be effected, but the counties with smaller population probably would not like to be dominated by the ones with more people.

'For instance, Amarillo is at the edge of Potter County and spreads into Randall, but the latter county would not like to be run by Amarillo.

'That practically holds true for Dallam and Hartley counties, as Dalhart is on the line.

'Borger is in the south part of Hutchinson County, but Carson would not like to be attached to that county. Neither would Carson like to be a part of Gray County with Pampa as the county seat.

'Memphis is in a corner and possibly could serve Hall, Donley, and Collingsworth counties. But Memphis would never do it with the consent of Deskins Wells of the Wellington Leader and Sam Braswell of the Clarendon News or J. C. Estlack of the Donley County Leader.

'Deaf Smith is a big county and Hereford is at the edge and could possibly serve Parmer and Castro counties. Or possibly Friona could be made into a county seat to serve both Deaf Smith and Parmer counties. And there is Vega in the southern part of Oldham County that could be made a county seat for Oldham and Deaf Smith counties.

'Wheeler and Collingsworth counties could be joined with a court house at Shamrock.

'Consolidation will never take place with local votes. It will take legislative enactment to make this kind of consolidation and tax economy. This paper is not favorable to county consolidation now because it would cause too much ill will among people who should be friends."

AN ANCIENT TRUTH

Ed Kilman, staff correspondent of the Houston Post, says that within the range of his observation the people seem to be about two to one against any more taxes. He quotes an unnamed farmer as saying: "I have learned to my sorrow that no matter who you put the taxes on, the poor devil like myself pays them in the end."

The people of this country have had much experience with new taxes in recent years. And they have found that all taxes fall upon all the people. This, of course, is an ancient truth, stated over and over by the economist of all the ages, but, like a good many other truths, it is often overlooked in times of excitement and confusion.

The dollar taken for taxes is a dollar taken out of productive enterprise, no matter what may be the theory of taxation under which it is taken. Take it directly from the laborer and he will have that much less to spend for his needs. Take it from his needs. Take it from his employer and the latter will have that much less to pay the laborer, who, consequently, will have less to spend on his needs. Call it a head tax, a property tax or any other kind of a tax it will still get around to us all.—Austin Times.

AUSTIN. — The daily newspapers of Texas—by the time this mail dispatch is in type—probably will have chronicled the final passage of a "mild" omnibus tax bill by the Texas legislature's second called session, and the session will have gone into the limbo of history. Adoption by the senate, at the week-end, of a tax bill designed to raise about \$2,500,000 was regarded as guaranteeing final passage of a tax bill. But only the final hour of the session could reveal exact details of the new tax measure.

IMPORTANT SESSION

Regardless of the details, however, the special session may go down in history as the most important in eight years, for it marked what most observers here regarded as a definite indication of a return to sanity in state government. On the strength of developments brought out at the session, many believed the follow-

ing distinct trends of sentiment were revealed:

1. An end to the constant expansion of governmental functions, and its accompanying demands for more and more taxes, which was necessitated by the depression emergency, and has hung on ever since.

2. A definite demand by the taxpayers for a reduction in governmental expenditure, elimination of duplication and waste, consolidation and abolition of useless bureaus and commissions, reduction of excessive higher bracket salaries, elimination of hundreds of useless employees who have attached themselves like barnacles to the vicious patronage system of state government, and better control methods for state expenditures.

3. Restoration of the constitutional allocation of funds for the public schools, by removing the excess allocations and returning the excess to the long-suffering general fund, which was sacrificed during the depression to keep the schools going.

SENATE REGAINS PRESTIGE

Another of the more important by-products of the "tax" session has been a tremendous change in public opinion concerning the upper house of the legislature. The senate, originally designed as a deliberative body to act as a "brake" against precipitate and ill-considered action, has been the "goat" during the past few years, when everybody looked to the government to support him—by reason of its conservative refusal to go along with the house on unlimited pensions for everybody, and other exaggerations of the social security program. This time, the senate, meeting the demand for more taxes with a counter attack showing extravagance and waste in government, has found public sentiment swinging in its direction. The governor who has used the senate as a foil for his own political plans for three years, was probably more amazed than anybody in Austin, to find the old cry of "wolf," directed at the senate, found little public response this time. Even the magic formula of President Roosevelt's name, to which Allred resorted in desperation repeatedly in his message, his press conferences, and even in his own "news" column which he sends out weekly

to newspapers, failed to evoke a response from the taxpayers.

NO SECOND SESSION NOW

The outcome so demoralized the governor's plans for a second \$150,000 special session at which he planned to jam through a public utility regulation bill, that he called that off entirely. The unexpected response of the public to the senate's refusal to hike taxes greatly, and the outstanding work of the senate economy committee in pointing out government extravagance, have effectively squelched whatever sentiment there may have existed for a unicameral legislature in Texas for the present at least. That situation also thwarted other possible plans of Gov. Allred, who has been flirting with the idea of running for a third term on the unicameral issue. Unless the federal judgment materializes at the next regular session of congress, political observers here now believe that Gov. Allred will be out of public life with the expiration of his present term.

FARM RELIEF PROSPECT

Of greater concern to Texans, perhaps, than any other issue today, is what the special session of congress will do in November about a farm program. The collapse of the cotton market, in the face of a record-breaking crop this fall, has worked severe hardship on Texas farmers and Texas business. The government's emergency loan program has, due to red tape and other difficulties, been of but little practical benefit.

Marvin Jones, of Amarillo, chairman of the house agriculture committee, who probably will have more to do with the writing of the farm relief bill than any other house member, has been touring the state, conferring with farmers about the situation. He has some very definite ideas about what ought to be included in next year's program. These include, (1) continuation of the soil conservation program, with cash benefits; (2) development of the "ever-normal" granary program, insuring against both scarcity and excessive surpluses; (3) provision for graduated benefit payments to large producers, to insure tenants a fair share, and encourage the small farmer; (4) greater administration of local people, and less bureaucratic dictation from Washington.

COST IS OBSTACLE

The cost of the program, however, Jones sees as the greatest obstacle. With the declaration of President Roosevelt this week for a balanced budget, and a specific demand by the president that whatever farm relief legislation is enacted must carry with it a tax to finance it 100 per cent, the Texas leader is not optimistic.

"It would take a processing tax of at least 8 cents per pound to finance parity payment for domestically consumed cotton alone," he told this writer. "There is but \$500,000,000 of federal appropriation available for farm relief now, and congress, of course must consider the corn farmer,

COLLEGE STATION. — County home demonstration agents in Northwest Texas bring favorable reports of food preserving activities of farm women and 4-H club girls in that section.

"I have conserved 135 containers of tomatoes that I grew from three rows, each approximately 35 feet long," stated Mrs. Lloyd Edwards, co-operator in the Friendship home demonstration club in Lynn county. "Of the 135 containers, 15 are tomato juice and 10 are chili sauce." This is the amount necessary to supply her family seven times a week for four months, according to her canning budget for balanced meals for her family.

From her garden planted the latter part of June, Mrs. W. D. Appling of Middle Well home demonstration club in Moore county, has canned 14 pints of butter beans, has given her daughter-in-law enough string beans for 21 quarts and had 21 quarts of greens to can. She has 32 quarts of cucumbers brining which she plans to use for pickles and relishes.

Turnip greens, beets, blackeyed peas, and cucumbers make up the fall garden of Mrs. J. N. Morton of the Dumas home demonstration club in Moore county. The garden is located near the house, and surface irrigation is used. Old sheet iron has been used on all sides for a windbreak.

Marguerite Lewis, member of the Vivian 4-H club in Foard county, has canned 400 quarts of vegetables for her family. In addition to this Marguerite worked away from home a large part of the summer doing canning for other people. She canned about 200 containers, and she reports that there are still peas, beans, butter beans, and corn to be canned.

Mr. and Mrs. Joe Goldston spent Sunday in Paducah visiting with Mr. and Mrs. Rolle Brumley.

HAIL POPEYE!

Popeye may well be the patron saint of many people in Texas other than children, since this state leads the nation in the production of his well-advertised power food. Over six million bushels of spinach were grown in 1936, with a total value of \$1,800,000. With Winter Garden, Zavala and Dimmitt counties, as the center of this industry, the town of Crystal City has won a name as spinach capital of the world. Citizens there have even erected three statues of Popeye. There is a farm nearby of about 3,000 acres which frequently produces more spinach than any other state in the union. The crop is also grown in the lower Rio Grande Valley and around Corpus Christi.

Loans Compel '38 Program Compliance

"Those cotton producers who place their cotton in the government loan, obligate themselves to comply with the 1938 farm program," County Agent H. M. Breedlove said Wednesday in making a public statement that a few of the Donley county cotton producers believed they could place their cotton in the loan without complying with the 1938 farm program.

Breedlove also said that nearly 100 per cent of the Donley farmers thoroughly understand the technicalities of the cotton loan and subsidy regulations, with only a few misunderstandings to be ironed out within a few days.

Meeting Clarifies Agricultural Objectives of A. and M. College

COLLEGE STATION. — Texas A. and M. College will soon issue a statement on its agricultural objectives in an effort to aid farmers. The Extension Service will be charged with the responsibility of carrying the details of the plan to Texas farm and ranch families, H. H. Williamson, director of the Service, has announced.

County agricultural and home demonstration agents have been asked to submit county objectives. On the basis of this information, and of suggestions offered at a conference of some 160 leaders of agricultural affairs, held at the College on October 12, the objectives of the institution will be framed.

The present objectives and activities of the institution in regard to agriculture are built along the lines of improvement in home food supplies, home improvement, including clothing, the production, preservation, and utilization of the feed supply for both home and

commercial use, conservation and utilization of farm cash resources, the conservation of soil, water, timber, and other natural resources, including wild life, the improvement in quality of farm and ranch products, control of disease, insects, rodents, and annual parasites, co-operation with county, state, and federal agencies dealing with agriculture, development of rural leadership, and human betterment.

Representatives of various institutions, organizations and agencies who attended the conference heard President T. O. Walton point out that the ultimate objective of the institution was human betterment, which he said included the broad field of public welfare, whether it relates to social content or to economic betterment. This objective must be attained, in his opinion, through such avenues as measures designed to increase the farmer's spendable income.

BIG GAME IN NATIONAL FORESTS ON INCREASE

Big game animals—deer, bear, moose, antelope, elk, buffalo, mountain sheep, and mountain goats—have doubled in number on national Forest Service, United States Department of Agriculture.

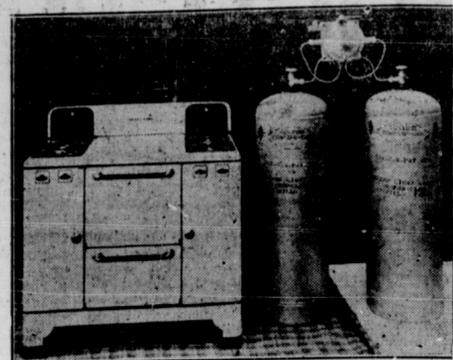

When the first big game census was taken in 1924 there were less than 700,000 animals. By 1930 the figure had grown to 1,000,000. Present estimates place the big game population at 1,700,000 animals. Deer have made the biggest increase and now total more than a million head.

State game commissions and the Biological Survey cooperate with the Forest Service in protecting big game in national forests.

Pathfinders Hear Review On Faust

Mrs. Sella Gentry and Mrs. W. H. Patrick were hostesses to the Pathfinder Club in a regular meeting, Friday afternoon at the Woman's Club rooms.

At the business meeting, Mrs. Joe Goldston, president of the club, was elected as delegate to the meeting of Federated Clubs which meets at Austin in November.

The study for the afternoon was lead by Mrs. J. L. McMurtry who reviewed the opera "Faust." The opera was very interestingly told portraying the contest between the Devil and Christianity in which the latter wins in the finish. A sextet composed of Mrs. E. D. Landreth, Mrs. H. T. Burton, Mrs. Eva Hill, Mrs. J. L. McMurtry, Mrs. Louie Thompson, and Mrs. J. H. Howze sang two numbers, "O Come, Come Away," and "Soldier's Chorus," taken from the opera. Mrs. Allen Bryan played a piano selection, "Faust's Waltz."

Refreshments were served to a large number of members and Mesdames L. S. Bagby, A. R. Letts, Newton Smith, and R. A. Chamberlain, guests.

Peek-Weller Ceremony Read

Miss Ida Juanita Weller of Dumas and Arthur Merle Peck of Sunday were united in marriage Sunday, October 24, at four-thirty o'clock, at the Baptist parsonage, with the Reverend J. Perry King, reading the ceremony.

The bride was very attractive in a tailored black satin crepe dress with black accessories. She was attended by her sister, Mrs. Carney, of Clarendon, and is the daughter of Mr. and Mrs. Q. W. Weller of Dallas.

Mr. Peek is the son of Mr. and Mrs. W. M. Peek of Hugoton, Kansas and is employed by a carbon black plant at Sunray, Texas, where the couple will make their home.

Mr. and Mrs. Peek left immediately following the ceremony for a short wedding trip to Dallas.

WE WONDER WHY:

Frances Grady and Gerald waited until midnight to go to the show?

Christine Knox and Mary K. Hardin make a special trip to town every day at noon?

Kathleen Ryan and Frances G. like to go to typing the fifth period?

J. D. Swift went to Sunnyview Sunday night?

So many girls asked Junior Warren for a date Friday?

Claudine Haley enjoyed her ride Saturday night?

Ralph Grady is wearing a black eye?

All the Home Ec. girls looked like hags last Friday?

CAN YOU IMAGINE:

Phebe Ann not chewing gum.

Dorothy and Johnnie Rhodes not fighting.

Vivian Veazy not wanting to go to Jericho.

Billie Cooke not wanting help in English.

June McMurtry not riding around in a new Buick.

Ethelyn and Rayburn not talking in History class.

Ottis not walking home with Wanda at noon.

IF YOU NEW

REV. NEWTON C. SMITH TALKS AT ASSEMBLY

Home Economic Girls Receive Initiations

On Wednesday night, October 20, about 44 first-year Home Economics girls were initiated by the second and third year girls into the mysteries of homework.

Among the rites which the girls participated in were: rolling peanuts across the floor by means of their noses; eating chocolate pie with their hands tied behind their backs; eating crackers and then whistling; washing hands in electrically-charged bowl; and hidden-shoe race.

Francis Morris, Mary K. Hardin, Reba Higgins, Floy Dell Dewey, Vivian Veazy, Dorothy Kerbow, Irma Fay Moreland, Marie Morris presided over the impressive candle-light ceremony of taking the oath of allegiance by the first-year girls.

Punch and cookies were served after the ceremonies were concluded.

On Friday the initiated students were required to wear slacks under their dresses which were worn wrong-side out and carry a potato on a stick. Those who did not go to the initiation Wednesday had to wear onions on a string around their necks also.

AGGIE BOYS BUILD TROUGHS FOR FEEDING F. F. A. PIGS

The 1st and 3rd year agriculture students are busy this week building hog feeders and troughs for use in feeding pigs for the spring show.

Approximately twenty feeders and thirty troughs will be built by boys who are feeding seventy-five pigs.

Billie Latson is not a very good chaperon—that Junior (Luttie) Warren is still looking for the right girl—that Cleo Russel hasn't found his name in the Broncho Range this year—that some high school boys are afraid of Truett Holtzclaw—WOULD YOU BE SURPRISED?

WHO'S WHO IN C. J. C.

Charlie Murphy better known as "Choppo" was born to Mr. and Mrs. C. D. Murphy on the 29th day of July, 1917. He is blue-eyed, blond, with curly hair and a penchant for the sweets of Mrs. Mc's store. He has spent all of his life in the Clarendon school system. When he grows up he wants to be the man who teaches canaries to warble.

Charlie's philosophy of life is to find the path of least resistance to the cookie stand and the longest way round to the English class. He loves moonlit nights, blondes, cookies, and canary birds. His hobby is to fall over his feet on his way to room 2, (English Room).

His favorite song is Down by the Old Mill Stream—his movie crush is Martha Raye.

Range Rider

Talk about your up and coming football team and you talk about the Broomtails from Jr. high. They get a real kick out of tackling and blocking, and that is more than yours truly can say about some boys I know. If those boys will stick together as a team, they will clean up everything in the conference. For little kids they have speed and deception, two essentials that counterbalance the lack of weight. I shouldn't say lack of weight because the boys will grow a lot before they get into real competition.

Right now I think I will stray from the straight and narrow. My predictions for the season have gone a bit screwy or slap-happy. Here's the way I picked the teams: Southwest Conference—A. & M. Big Ten Conference—Ohio State. Big Six—Nebraska. Southern Conference—Duke. Southeastern Conference—Alabama.

Out of these selections A. and M. is the only mistake (so far). While I'm talking about the big college teams, I'll try to pick a few winners. I have no Mammy Yokum or Lil Abner to go into trances for me, but with assistance of five volunteers I'll see what I can do.

A. and M. over Arkansas. Baylor over T. C. U. S. M. U. over Texas U. Texas Tech over Okla. A. and M. Notre Dame over Minnesota. Cornell over Columbia. Princeton over Harvard. Fordham over North Carolina. Ohio State over Chicago. Alabama Poly over Rice. Lakeview over Clarendon.

The last selection was just an afterthought.

There are some boys who still think Amarillo will be the champs this year. (You guys that still like Pampa come around and I'll give you their names).

Well, I've made my selections, but I'd advise you not to put money on it. My selections are about as good as the Bronchos' chance to beat McLean.

JUNIOR HIGH NEWS

The Junior High Glee Club composed of about 30 girls and directed by Miss Sirman, meets every Tuesday and Friday. They sang at P. T. A. Thursday, October 21.

The Clarendon High School Band will sponsor Cal Farley's Flying Dutchman Circus, Friday, November 26, 1937. The admission prices will be 15 and 25 cents.

Mrs. Homer Glascoe, the new Junior High librarian, has the library in very good shape now.

The Junior High Tumbling class has been discontinued until cooler weather. A football team coached by Mr. Penick and composed of about twenty-five boys who practice every afternoon has been formed to take the place of the tumbling. The team expects to play Memphis soon, but no fixed date has been set.

MEETING IS HELD FOR SENIORS TO SELECT RING

On Friday, October 22, a committee from the senior class met in the office and with the combined efforts of the committee members, Miss Headrick, and the ring salesman, three of the many attractive designs were decided upon and shown to the class.

There was a rather lengthy class discussion about the design, but after the larger part of two periods were spent a decision was reached and everyone had his or her finger measured.

The selection is an attractive design in a two-tone gold, white and yellow, with a very new curved top. The seniors expect to receive the rings in about six or eight weeks.

Invisible "black light" acting on fluorescent paint will impart new wealth of color to architectural features of the 1939 Golden Gate International Exposition.

CHURCHES

AT THE FIRST BAPTIST CHURCH

There Is Always Worship Fellowship—Service

Wake up, get up, shine up, was the slogan given to one of the New Testament churches by the Apostle Paul. They did just that very thing, and their light is still shining to the eternal glory of God and the betterment of humanity.

"I left Clarendon Saturday morning, October 16, for Conway where I met the special bus in charge of Mr. O. T. Ryan, district supervisor, who conducted thirty-seven boys from area one to Kansas City. We were gone about six days, but we were in Kansas City only three. There we attended the National Convention of F. F. A. and the American Royal Livestock Show. We also visited the Swift packing plant, the stock yards, and other interesting places."

WHAT WOULD YOU DO IF YOU HAD \$1,000 A WEEK?

A survey of C. H. S. students reveals startling facts about what uses they would make of \$1,000 a week.

Floy Dewey would buy clothes first and then start worrying about how to spend the rest.

Inetha Collier would buy a car and diamond rings.

Ruth McDonald would get an airplane, learn to fly it, and go places.

Jessie J. Tomlinson wouldn't be here.

Billie Horton would crash Hollywood.

Thelma Hardin wouldn't know what to do.

Margaret Higgins would buy everything that came along.

Lois Marie Taylor would buy a car and clothes and tour the United States (if she didn't drop dead first).

Dorothy Wilson would buy a real nice home and then give the rest to orphans.

Mary Elizabeth Ziegler would go to school in Plainview.

Ava Marie Guffin would stop being a telephone operator and travel.

Kathleen Ryan would buy the best-looking car, a whole lot of clothes, go to Europe to live, and spend lavishly.

Ethelyn Drennan would spend it. She'd buy a great big car.

Edith Shelton and Rebecca Eanes would really "go to town."

Homer C. Speed would give it to Miss Cope for passing him on his civics exam.

Jeanne McDonald would hire a chemistry partner???

Jack Gardenhire would go to California.

Looks as if the high school has two alternatives—turn the football team over to either the junior high or to the college.

At least the Bronchos gained a moral victory over Mobeetie—they scored against them and kept them from making three points after touchdowns.

"No. A horse just stepped on my hat."

LIBRARY NOTES

(By Mrs. C. A. Burton)

Magazine! Current magazines at one half to one tenth the price of new copies! At the library—Come and see them.

It is most interesting to watch the progress of Texas literature and the growth of interest in literature from year to year in Texas. The organization of the Texas Institute of Letters a year or two ago was an evidence of this. A meeting of this Institute will be held in the Hogg Memorial Auditorium at the University of Texas on Friday and Saturday of this week, the 15th and 16th of October. Stanley Walker, editor of the New York Herald-Tribune and a former student of the University, will be the principal speaker. Others who will speak are Karle Wilson Baker, Walter Webb and John O. Beatty, members of the Institute, who will discuss their new books. Plans will be completed for holding an annual writer's conference to be sponsored by Texas educational institutions. The officers of the Texas Institute of Letters are Patrick D. Moreland of Austin, president; Stanley E. Babb of Galveston, vice-president, and William H. Vann of Belton, secretary.

Karle Wilson Baker, one of the above speakers, has been known to Texas readers for some years as a poet. Only one volume of her poems is on our shelves, "Dreamers On Horseback." But Mrs. Baker, whose home is in Nacogdoches, has recently come into prominence in a new literary field with her first novel "Family Style," published in September. Besides writing poetry she had written short stories before her marriage which had appeared in the best magazines of the country. Though she had not meant for it to do so, yet marriage did interfere with literature, and the stories and poems became fewer. Then for ten years she taught English in Stephen F. Austin College in Nacogdoches, and even fewer were the products of her brain.

But from early childhood Mrs. Baker had "made up" stories, and during these years she was planning for the novel she meant to write. "Family Style" is the story of an oil field boom and is written from first hand knowledge. The author has seen oil wells come in—was in fact, with her banker husband and son in the surging crowd which witnessed the coming in of the first paying well in that section of Texas. A reviewer says of it, "Just about all of the characteristic oil field people appear in Karle Wilson Baker's 'Family Style,' a novel which presents a sustained study of the East Texas oil play. Here are to be found the serried lines of geometric derricks; highways cut into canyon-like ruts by innumerable trucks

SINGING MARINE IN LOVE

Dick Powell as a leatherneck who can sing, is the star in "The Singing Marine," Warner Bros. latest musical coming to the Pastime Theatre on Sunday, Monday and Tuesday, Oct. 31, Nov. 1 and 2. His new leading lady is Doris Weston who got her first break on Major Bowes' radio program.

Dick Powell Star Of New Film Musical

"SINGING MARINE" COMING TO PASTIME THEATRE OCT. 31, NOV. 1 - 2.

Just what the title indicates is the story of "The Singing Marine," which, with Dick Powell as its star, will have its local premiere at the Pastime Theatre on Oct. 31, Nov. 1 and 2.

Dick is a Marine—a modest buck private at the San Diego base—and he can sing. So his comrades get up a purse to send him to New York to have a try at "Major Bowes" amateur hour. At the same time, on her own, Dick's sweetheart essays to enter her voice into the competition. This is Doris Weston, a lovely and talented newcomer to movies.

She doesn't get by. The Major's famous gong stops her. But Dick becomes a tremendous success. That was just too bad! It goes to Dick's head. Spoiled by the adulation of innumerable women, and the fawning of chiselers who surround him, the young Marine forgets his comrades out on the Pacific Coast.

But after all he's only on a leave of absence from the Marines, and when, at the end of his furlough he's shipped with the rest of his company to China, he has a chance to redeem himself with a splendid bit of heroism, which restores him to everyone's good graces.

A splendid cast surrounds Dick Powell in the gay song and dance fest, including Hugh Herbert, Allen Jenkins, Doc Rockwell from vaudeville, Jane Wyman and Veda Ann Borg.

EMERGENCY FEED RATES SET FOR PART PANHANDLE

AUSTIN—Livestock raisers and railroads, which have been locked in litigation over emergency freight rates for feed in 34 counties, agreed today on a 25 per cent reduction.

Henry Bell of Fort Worth, secretary of the Texas and Southwestern Cattle Raisers Association, announced the agreement following a conference with representatives of the railroads and the Texas Sheep and Goat Raisers Association.

The rates on livestock feeds shipped into the counties, in the upper Panhandle and Southwest Texas would be three-fourths of the regular published schedules, effective as of October 1 and to expire November 30, 1937.

Commission Ordered Cut The railroads agreed to apply to state railroad commission to put the lowered rates into effect.

The commission in orders of August 24, September 8 and September 23 instructed a reduction in the regular rates of 50 per cent on hay and similar feeds and 33 1-3 per cent in cottonseed cake and grain.

Law Is Attack The railroads contended in court the orders had been issued without proper notice and hearing, were discriminatory in that they did not apply to trucks and were not justified by drought conditions. They also attacked the law under which the rate reductions were ordered.

The counties already affected are Hemphill, Kinney, Lipscomb, Ochiltree, Roberts, Terrell, Valverde, Wheeler, Hansford, Gray, Dallam, Atascosa McMullen, Webb La Salle, Sherman, Hartley, Moore, Hutchinson, Oldham, Potter, Carson, Duval, Zapata, Starr, Jim

Hogg, Frio, Bee Karnes, Kleberg, Jim Wells, Brooks, Live Oak and Randall.

Counties May Be Added It was reported a few additional counties might be added to those receiving the emergency rates.

FAKE ADVERTISING WARNING IS GIVEN

NEIGHBORING CITY STOPS SCHEMES TO NET SOLICITORS \$289 ON \$399 DEAL

The troubles being experienced by merchants of one of Clarendon's neighboring cities should be a measure of warning to merchants here against solicitors, fake advertising schemes, and other schemes that merchants are likely to fall for.

In Childress last week the Chamber of Commerce stopped schemes that would have fleeced Childress merchants of \$399 worth of advertising of questionable value.

The details as reported by the chamber of commerce office is as follows:

"One hundred and eighty dollars in merchants advertising on the back of song books; value of books to be given to the Childress public school system was only \$55. "Some \$99 in merchants advertising on school curtain (school in adjoining county).

"A year book for meritorious local organization to cost \$120 will be mimeographed for a cost of \$10 by the chamber of commerce.

"Summary: Total of three advertising "deals," \$399 (to come from local merchants pockets). Market value of song books, curtain painted locally and year book substitution of suitable form, \$110. Promoter's profits on \$399 deal, just \$289."

Since the same promoters may visit Clarendon, local merchants are warned to be on the lookout for "easy money making schemes," and when presented with such ideas, are asked to phone the Chamber of Commerce secretary, The Clarendon News and other merchants.

During a good crop season, out of town promoters are expected to make frequent visits to Donley county, but will be thwarted in their schemes if the merchants will be on their toes.
