Head of Family Exemption

A single person, or a married person not living with husband or wife, is entitled to a personal exemption of \$1200 for the year if he can qualify as head of a family. A head of family is "an individual who actually supports and maintains in one household one or more individuals who are closely connected with him by blood relationship, relationship by marriage or by adoption, and whose right to exercise family control and provide for these dependent individuals is based upon some moral or legal obligation."

Examples of head of family status would be a widower, or widow who maintained a home for a dependent child, or a son who supported and maintained a household for a dependent father or mother. In order to meet the test of actual support and maintenance as head of a family, the benefactor must furnish more than one-half of the support and maintenance.

The term "in one household" ordinarily means under one roof, but if a father is absent on business or a child or other dependent is away at school, or on a visit, the common home being still maintained, the head of family exemption would still apply. Where a parent is obliged to maintain his dependent children with relatives or in a boarding house while he lives elsewhere, the additional exemption may still apply. If, however, without

necessity, the dependent continuously makes his home elsewhere his benefactor is not the head of a family irrespective of the question of support.

The term "closely connected by blood relationship" applies to a person's progenitors and lineal descendants, to his brothers or sisters, whether by the whole or half blood, and to his uncles, aunts, nephews, and nieces. Irrespective of any legal obligation of the taxpayer to support such dependent relatives, a moral obligation to do so exists, and if the individual is actually supporting and maintaining in one household relatives of this degree he is entitled to head of family exemption. A taxpayer is considered to be "closely connected by marriage" with his stepisters and step-brothers, but whether his right to exercise family control and provide for these individuals is based upon some moral or legal obligation must be decided upon the facts in the particular case. The same considerations apply to the status of a taxpayer because of support furnished to his father-in-law, mother-in-law, brother-in-law, and sister-in-law. First cousins by blood, and cousins of lesser degree, are not regarded as so "closely connected by blood relationship," as to give rise to a head of family exemption.

A legal guardian who may maintain and support in his home a dependent ward is not entitled to the personal exemption as head

COMMANDOUGH!

of a family if the ward was not connected with him by relationship of blood, marriage, or adoption; nor is a taxpayer entitled to exemption as head of a family by virtue of maintenance and support of a child not legally adopted.

ly 50 per cent over 1941, while the latter year itself represented a substantial gain over the immediately preceding years, the Bureau report pointed out.

In 1942, the shifts in sources of farm income which have been indicated for several years were sharply delineated, Dr. F. A. Buechel, assistant director of the Bureau, explained. The biggest factor in the enormous farm income last year was livestock and livestock products.

While still important to agricultural prosperity, cotton was of declining importance in relation to other sources of income, Dr. Buechel declared. In 1941, cash receipts from cotton and cottonseed amounted to 41 per cent of the total farm income for that year. Cash income from livestock comprised 46 per cent of the total.

Texas Farmers Accumulate Big Bankroll In '42

Austin, Feb. 2—Texas farmers accumulated a billion-dollar bankroll in the year 1942, the University of Texas Bureau of Business Research has revealed, thus marking up their most prosperous year in history.

Far meash income was computed by the Bureau to be 908 million dollars during the year as compared with 616 million for the year 1941. Government subsidies will add about 75 million to this amount. The Bureau report also indicated that preliminary computations of farm marketings are an understatement of from 6 to 10 per cent, thus bringing the actual cash income of Texas farmers from all sources to approximately one billion dollars.

The increase in 1942 was near-

But in 1942, cash derived from cotton represented only 34 per cent of the total, while livestock had risen to nearly 50 per cent. This trend, away from cotton toward livestock and livestock products, has been evident since 1927, Dr. Buechel asserted. In that year, cotton accounted for fully two-thirds of farm income, while livestock combined with miscellaneous farm products, brought in the remaining third.

A DOLLAR SAVED, IS A DOLLAR MADE

We are now handling the nationally known, Security Foods, and by feeding same, to your pigs and calves, mixed with water or skimmed milk, you can make whole milk at two cents per gallon. Sell your cream and feed Security food, and produce a better pig or calf than you can on its mother's milk. A trial will convince you. Let us give you literature on this balanced mineral feed. You can save real dollars by feeding Security Milk Foods, and Chic-O-Line Mixed Feeds, and having all of your feed chopped and mixed properly, adding concentrates and thoroughly mix. We have the equipment to do the job, and we both lose money when you fail to let us do it. When in the market for feed of all kinds, phone us.

THE TEMPLE OF TRUTH
By the Apostle

WISE WORDS.
Way back in history it was a wise man who wrote, "cease to worry about what the future has in store, and take as a gift what-

ever the day brings forth." Then we might add that the "bridge of sighs" is the bridge of trouble that we never cross. Really, the greatest trouble which we worry most, is the trouble that never happens. Onl ythose who enjoy ill health get pleasure out of borrowing trouble.

SIGN ON TRUCK.
* You have seen some pretty cute

wording on a jellybean's jalopy in past years, but this week there was a truck parked on a side street bearing the following: "This truck stops for all railroad crossings, brunettes and redheads. Will back up a half mile for a blonde any old time."

MURDER IN PEACE.
Then there was the big gun in the pulpit, the choir murdered the

anthem, and the organist drowned the choir.

OLD TIMER.
"Member way back when eggs sold for ten cents a dozen, and any sized chicken sold for a quarter? Now each sells by the pound in most every section of the nation, and plenty high. More and more of our folks are hitting the right track by going in strong for poultry production this season. Many are already getting chicks to grab the early market price that will no doubt be plenty high.

MODERN WEAKLY POME.
Early to bed and
Early to rise, and
Your gal goes out
With other guys.

PHYSIOLOGICALLY.
Some folks are always up on their toes while still more are down at the heels.

NEWSPAPER STUFF.
The society editor being ill, the sports writer subbed for her. In writing up the wedding, he started out with: "Just before the bell rang for the main event, while the two contestants and their seconds were coming into the flower decked ring, the orchestra played Mendel and Son's wedding march from Lowe and Green."

FINANCIAL.
Every farmer who pays sixty-five cents for two fried eggs and a piece of ham cut as thin as paper, knows that he could make a fortune in the cafe business. The cafe man, when he sees the check the farmer gets for his cream and eggs, knows darn well that he could become a millionaire in a few years if he had a chance on a farm. In reality, the fellows who have nothing to do with either line of this experience, makes the most money out of the game. They are the middle men who never risk anything, and take the most of the profit. Then if a farmer talks of having the middle man cut out of the picture, he is branded as a "radical" fellow and a dangerous citizen. Great stuff!

And that war garden, or victory garden of whatever it might get to be, is not plowed yet. Ain't any one in this county plowing gardens this season?

WOODS—ELLIS

Miss Ruth Woods, daughter of Mr. and Mrs. John R. Woods of Lelia Lake, became the bride of W. H. Ellis Jr. of Clarendon, Sunday, Jan. 31, at 2 p. m. at the home of the bridegroom's uncle and aunt, Mr. and Mrs. C. W. Martin of Clarendon.

Entering to the strain of Lo-her-green wedding march, played by Miss Lucile Wallace. The ceremony was performed before the improvised altar flanked with greenery, ferns and beautiful pot plants, white and pink candles in the tall candelabra. Mrs. W. H. Ellis Sr. lighted the candles. Rev. B. C. Stonecipher officiated.

The bride wore a floor-length pink silk chiffon dress, shirred bodice with V shape neckline and white satin sandals. She carried a white Bible and a large corsage tied with blue satin ribbon. She wore a beautiful string of pearls and a watch of her mother's.

Mrs. W. E. Goodman of Lubbock, bridesmaid, wore a gold Jersey dress. She is a sister of the bridegroom.

Pvt. W. E. Goodman of L.A.F.S. served as best man.

For traveling the bride chose a gold suit with brown accessories. Immediately following the ceremony, was a reception. The three tiered wedding cake, which was surrounded with roses, miniature bride and groom, centered on a lovely lace covered table with pink and white lighted candles in crystal candelabra, was presided by Misses Ruth Richerson, County Supt. and Allie Mae Goodman at the punch bowl.

A six o'clock dinner was served to the family at the home of the bride's parents.

The young couple will make their home in Silver City, N. Mex., where the bridegroom will be employed in defense work.

Friends and relatives who attended the wedding and reception were Mesdames J. R. Woods, W. H. Ellis Jr., D. T. Goodman, B. C. Stonecipher, W. H. Ellis Sr., W. E. Goodman, C. W. Martin; Misses Ruth Richerson, Doris Kuykendall, Lucile Wallace; Messrs. B. C. Stonecipher, W. H. Ellis Jr., D. T. Goodman, Pvt. W. E. Goodman, W. H. Ellis Sr., Gene Woods and C. W. Martin.

CELEBRATES BIRTHDAY

Ira Jean Estlack celebrated her 11th birthday Thursday, Jan. 28, by having a few of her little friends for lunch.

The luncheon was served at the noon hour. The beautiful pink and white cake with white candles was placed on a reflector on the buffet. Pink and white tapers in crystal holders were at each side of the cake.

After lunch the girls went back to school and in the afternoon attended the show at the Pastime.

Those present were Mary Laddell Cox, Lama V Tatum, Scharleen Pyeatt, Juanita Carpenter, Ira Jean Estlack, Buster Bain, Gene Bryan, Edd Thomas, Billy Oliver, Bob Clifford.

MISS BLANCHE GROVES HONORED AT TEA

Miss Blanche Groves was honored guest at a seated tea, given at the Baptist Church, Monday afternoon. The guests were met at the door and directed upstairs by Mrs. A. T. Cole and Mrs. A. W. Simpson. Guests were received by Mrs. Van Kennedy, Miss Groves, Miss Vada Waldron, Mrs. L. E. Thompson and Mrs. E. L. Moody.

Mrs. Thompson had charge of the program. Hymns "America" and "Onward Christian Soldiers". Prayer by Mrs. M. M. Miller.

Mrs. Thompson, in her own pleasing manner, introduced Miss Groves, who was her college girl friend. Miss Groves brought a very stirring message on her experiences as Missionary in China for twenty-two years.

Dorothy Ann Kennedy accompanied the girls quartet from the High School as they gave two very beautiful numbers. Mrs. Guy Ament dismissed with prayer.

Mrs. Van Kennedy poured tea from a lace covered table centered with a lovely arrangement of white carnations and greenery. Mrs. Joe Goldston and her committee served in the dining room.

1930 NEEDLE CLUB

Mrs. Ralph Andis entertained the Needle Club at her home Tuesday afternoon. Mrs. Ralph Decker presided at the business meeting. Officers were elected for the new year as follows: Mrs. Fred Russell, president; Mrs. Gilmer Ayers, sec.-treas.; Mrs. Ona Tatum, reporter.

Needle work and visiting were enjoyed until a lovely salad plate refreshment was served to Mrs. Ralph Keys, guest; members, Mesdames Ralph Decker, Turner Kirby, Bill Hilliard, Jackie Phelps Ona Tatum, Ernest Hunt, Guy Wright, Gilmer Ayers, Fred Russell and hostess, Mrs. Andis.

LES BEAUX ART CLUB

The Art Club celebrated their 16th anniversary with a lovely luncheon at the home of Mrs. U. J. Boston Saturday, Jan. 30. After the luncheon was served, games were played for clever prizes.

Those present were Mesdames Geo. Bagby, L. S. Bagby, C. L. Benson, Frank Bourland, J. W. Evans, M. M. Miller, W. H. Patrick, J. D. Stocking, J. D. Swift, Homer Glascoe, Miss Mary H. Howren, and the hostesses, Mesdames M. R. Allensworth, Frank White Jr., A. B. Turner, U. J. Boston.

Miss Carrine Davis of Henrietta will be a week end guest in the home of Rev. and Mrs. E. L. Moody.

Mrs. Ross Adamson of Hedley was a Clarendon visitor Sat.

Rev. and Mrs. Grubbs left Monday for Hereford for a weeks visit.

Oscar Maxey of Dumas, spent Sunday with his wife and children.

Soldier's Kits The last of our soldier's kits have been issued. Mrs. Frank Phelan has taken 15 for her Sunday School Class and 6 were issued to Mrs. C. L. Benson for the Home Demonstration Club. Another \$5.00 donation has been received from Mrs. S. T. Sayre.

Sewing Mrs. Clyde Bridges from Hedley called for another 50 pairs of pajamas for that community. We want, to express our thanks to these ladies too for their wonderful cooperation in this work for the Red Cross.

Naomi Morris, at home for a few days vacation, made one pair of pajamas in her spare time. This shows that our young people, too, want to do their part.

Mrs. U. J. Boston, chairman of the cutting committees, has had a call to have 100 garments ready for the Ashtola community to distribute for their meeting on Thursday. This will mean hard work for our faithful cutters, but they are going to do their best. They started this week on the 260 night shirts for our sewing quota.

message goes to the soldier. We are finding the military authorities very cooperative, a needed furlough is rarely refused. By an order of the Board of War Communications, the Red Cross is given certain priorities in telephone calls. Continued caution is given against acceptance of "rumors" instead of definite information from those in authority, particularly rumors of casualties to men in overseas service. Sometimes it is said these rumors are an effort on the part of the enemy to destroy the morale of the family, and chapters are urged to report them to headquarters. A department in the Office of War Information is concerned with investigation of these "Rumor Mills." Such rumors are sometimes broadcast, claiming to give information concerning Americans held by the Japanese. The Federal Communications Commission turns these over to the War Department. Although the Merchant Marine is a civilian organization, yet it is so necessary to the war effort that Red Cross services are extended to it as to the armed forces.

ON THE HOME FRONT

With time drawing near for beginning of point rationing, the government is anxious that Americans on the Home Front not only understand the mechanics of the program, but also understand the reasons behind the plan.

- 1. Share your food with fighters protecting your home. 2. Don't hoard anything. Accept rationing cheerfully—help make it work. 3. Learn to use your ration book right. Use the 8 and 5 point stamps in settlement when possible, reserving the 1 and 2 point stamps for low-point articles.

INSURANCE FIRE • TORNADO • HAIL • AUTO AND ALL KINDRED LINES BONDS • NOTARY PUBLIC CLARENDON ABSTRACT CO. Phone 11 C. C. Powell

- 4. Use your point stamps wisely—don't run short of stamps by buying "high point" foods where "low point" foods will do. Buy only what you need. 5. Plan your family's diet carefully—plan menus ahead for a week or a month—see that everyone gets enough nourishment. 6. Eat fresh fruits and vegetables instead of canned, bottled and frozen. Use the more plentiful non-rationed foods whenever you can.

must be set aside for future of offensives and as an invasion weapon ready to go with our troops. What we are doing without now may mean victory on some battle front.

It is true that Americans at home will have less than they would like to have of the "fighting foods" that must be shipped to the fighters—canned foods, meats, milk, eggs, fats and oil. But we should not worry about the impact of rationing. We will get enough to eat. But we will have less variety and choice in our foods—particularly less of the processed fighting foods that can be canned, dried and concentrated for easy shipment to the war fronts.

Rationing of what is left for civilians prevents chislers and hoarders from getting more than they need while some get none. It gives everyone an equal opportunity to buy his fair share of the scarce foods.

Food has gone to war. American soldiers in North Africa cannot fight and win on a diet of figs and dates. Fish and chips cannot give English factory workers the strength they need to make bombs for German factories. The liberated peoples will not be able to take part in an Allied victory on black bread and water. Hitler has made the conquered people his servants by taking their food from them. We can make them a liberated and fighting people by giving food to them.

The problem of getting enough agricultural workers to assure the increased food production goals for 1943 will be partly solved by keeping as many of them as possible on the farms through deferment from selective service. The policy of deferring farm workers engaged in raising essential war crops has been extended by adding to the list of essential crops such products as tobaccos and short staple cotton, vegetable seeds, honey, ducks, geese, goats, a detailed list of fruits, and most lumber and wood products.

Under point rationing, which is scheduled to get under way around the first of March, each consumer will be allowed 5 cans of the processed foods. Only cans of eight ounces and over will be counted. Home-canned foods will not be counted. Deduction of an eight-point stamp for each can held in the family unit in excess of five cans per person will be made equally from all ration books in the family groups. Thus each book will retain at least one half of its original points for each ration period, enabling the holder to provide food variety to meet dietary requirements.

Proper Foods Are Essential In Daily Diets

AUSTIN—That the inclusion of proper foods in the daily diets plays a very important part in the maintenance of good health was stressed in a statement issued this week by Dr. Geo. W. Cox, State Health Officer.

"One of the most dreaded of all diseases, pellagra, is caused entirely by not eating the kinds of food which would insure a properly balanced diet," Dr. Cox said. "The public is prone to overlook the serious nature of pellagra. At best it is an uncomfortable and unpleasant disease, but aside from this, there is one possible result that can be very tragic. All too frequently pellagra leads to serious mental disturbances," Dr. Cox warned, "and in some cases, actual insanity."

According to the State Health Officer, pellagra is known as a disease which is no respecter of persons. There is danger of pellagra striking at any age and either sex when the diet is consistently faulty.

To make sure that the diet contains the proper pellagra-preventive elements, it should include plenty of milk daily, some fresh lean meat, and as many fresh vegetables, especially green vegetables, as possible. Tomatoes and whole wheat bread are also very valuable. Eggs contribute their share to pellagra prevention as do all varieties of fresh fruits.

"It is not the amount of food you prepare for your table, but the kind of food included in their daily diet which will protect your family from the appearance of pellagra," Dr. Cox declared.

Gov. Stevenson Urges Women To Help

Governor Coke Stevenson has issued a proclamation declaring January 15th to February 28th as WAAC Recruiting Time. He has urged all women's clubs, women's organizations and all true Texas women to rally to the call of Uncle Sam.

Governor Stevenson stated that Texas has been outstanding among the states of the Union by furnishing from 300,000 to 400,000 of its fighting sons for action. He said that Texans had been outstanding and that many Texans had been in every major battle. "Since Texas' sons have set the pace in rallying to Old Glory," the

Governor said, "Texas women will do likewise and set an example for other women of the nation in that the American Way of Life can be perpetuated only by the all-out effort of women as well as men."

Governor Stevenson asks Texas to furnish the nation one WAAC for every fighting Texan son. He said that he knew that the women of Texas would not be willing to do less than their sons, fathers, brothers and husbands.

Lieut. Colonel Marvin B. Durette, Commander of the West Texas Recruiting and Induction District, has asked the help of every West Texan in order that this district may meet its first quarter quota of 584 WAACs by March 31st.

Lieut. Colonel Durette said, "every West Texas woman who enrolls in the Women's Army

Auxiliary Corps will release a soldier for combat duty. By doing this they can and will help win this war."

Mechanical Talent Needed Now At Childress Bombardier School

CHILDRESS, Feb. 2 — Many men, women and boys from the age of 16 up, with mechanical talent, have been interviewed and hired for training at the 361st Sub-Depot of the Army Air Forces Bombardier School here.

The War Labor Board is appealing to citizens to enroll in the war effort in their own communities.

"People within a radius of thirty miles of Childress must realize that their duty is to work at the Bombardier School," asserted Capt. M. S. Huckle, commanding officer of the sub-depot. "Everyone should enroll for jobs at their local United States Employment Office."

Experienced, trained mechanics such as electricians, automobile mechanics, painters, leather and canvas workers, sheetmetal workers, welders and jewelers can be given a civil service rating if they submit a record of their experience, the officer pointed out.

"Persons who have the determination and ability to work on any part of the airplane should take the mechanic learner's examination given by the civil service board in the Childress High School" he said.

Examinations are given at 7:30

p. m. on Tuesday and Friday nights. Tests will also be given in the following towns the week of January 31, if a sufficient number of persons make requests: Wellington, Monday night; Memphis, Wednesday, and Paducah, Thursday. An examination will be held in Quanah on Monday night.

"It is imperative that people of this community rise to the occasion immediately," Capt. Huckle emphasized. "They must be trained in time to service the airplanes which will start flying at the bombardier school within a few weeks."

HOW TO MAKE YOUR MEAT GO FURTHER

Nutrition authorities say that Mrs. American Housewife's job of feeding her family is one of the most important in the war effort. For nourishing food is going a long way toward building strength and morale on the home front.

At the same time, women are being called upon to conserve food as a wartime necessity. This means they must use every ingenuity to eliminate waste and get the most out of the food they buy.

How to make their meat go further seems to be a subject of special interest, since building meals around this food is an American tradition. So home economics experts have come to the rescue with all sorts of ideas and recipes designed to extend the meat purchase as far as possible.

Here are a few of many practical ideas along this line.

BLADE END OF PORK LOIN
First meal. Blade end of the pork loin is excellent for a roast. The end cut is lower in price than the center cut. Roasting is easy when a few simple rules are followed. The roast should not be covered and no water added. A low temperature saves both meat and fuel. A bread dressing, shaped in balls and placed around the roast half an hour before it is done, will extend the servings. This roast requires 30 minutes per pound.

Second meal. The cold slices of roast pork are delicious heated in barbecue sauce.

BEEF BRISKET
First meal. Brisket cooked with beans is a delicious dish for the first serving. The beans are soaked over night and brown sugar, onion and seasonings added, then placed in a covered kettle with brisket on top. Brisket and beans should be covered with water and cooked in

a moderate oven for about three hours.

Second meal. Broiled toastwiches suggested for the second meal, are prepared by slicing left-over brisket and making into sandwiches. The sandwiches are dipped in beaten egg and milk and broiled until brown.

Third meal. The left-over meat from the brisket may be ground and combined with boiled rice and seasonings to make a stuffing for green peppers. These are baked in a hot oven until done—about 45 minutes.

LAMB SHOULDER
First meal. A stuffed lamb shoulder is a thrifty roast. The bones may be used to season vegetables or to make soup stock. A tasty stuffing is made for it by combining whole kernel corn, cracker crumbs, seasonings and minced green pepper. The roast is placed on a rack in an open pan and, about 40 minutes per pound allowed in a slow oven.

Second meal. For the next night's main dish, combine cubes of cold roast with left-over vegetables and enough gravy to hold together. Place mounds of the mixture on squares of pastry and fold over to make a triangle. Pinch the edges together. Brown in a hot oven. These are called Pasties.

Third meal. The remaining lamb "bits" may be ground and mixed with cooked oatmeal, an egg and seasonings to make Scotch Pancakes for supper or for breakfast.

Third meal. The trimmings from the roast make a surprise supper dish when combined with cream sauce and served between layers and over the top of biscuits as Pork Short Cake.

Another "Army" Of Texans

College Station — Enlisting and training a 4-H Club food production army equal to the number of Texans in the armed services is a new war-time objective of the Texas A&M College Extension Service, Director H. H. Williamson has announced.

Director Williamson estimates that there are more than half a million boys and girls between the ages of 9 and 20 on Texas farms, while the state now is said to have more than 300,000 in the various branches of the armed services.

"That means we must enroll three of every five farm boys and girls who are in the 4-H age brackets," Director Williamson explains. County agricultural and home demonstration agents will direct the training of club members, assisted by local men and women who are successful in production of leadership. Purpose of the 4-H expansion work is not only to increase the production of essential agricultural products, but also "to help rural youth develop soundly in line with democratic and Christian ideals."

YOU can count on a trustworthy engineer to stay on the right track. One of our first rules in making Coca-Cola is to buy the choicest ingredients. Another rule is to blend them with all the 57 years of skill that have made ice-cold Coca-Cola the most popular soft drink on earth.

For you, there's only one rule in order to enjoy ice-cold Coca-Cola. Be sure you get the real thing. Call for it by its full name or by its affectionate abbreviation—Coke. It's the way to get the distinctive taste and summed up goodness that make ice-cold Coca-Cola a thing unto itself. It's the way to change a commonplace thirst-quenching into the energizing pause that refreshes.

Wartime limits the supply of Coca-Cola. Those times when you cannot get it, remember: Coca-Cola, being first choice, sells out first. Ask for it each time.

With a he-man lunch, you want more than just a beverage. You want refreshment, too. That's what ice-cold Coca-Cola is... refreshment... all refreshment.

PREPARED IN COOPERATION WITH U.S. WAR DEPT. PERMISSION TO REPRODUCE IS HEREBY GRANTED

TO THE PRODUCERS OF DONLEY COUNTY:

Walter J. Flynt, Secretary
Donley County ACA

If you have not already advised us that you intend to subdivide or combine your farms in 1943, and you intend to make a change in your farm land, please notify us at once, as we intend to begin making combinations and subdivisions very soon. When you make up your mind to change your farm be sure it is to be one farming unit.

Donley County will have no war crop goals in 1943, for any of the designated war crops, but this does not mean that anyone who wishes cannot go ahead and plant all the war crops that he wants. In fact the more of these crops that are grown and harvested the more the war effort will be helped unless it damages the land permanently.

The goals that Donley County is to meet deals altogether with livestock and poultry. The increases that we are asked to make are as shown below: all cattle and calves—no increase; cows and heifers kept for milk—4% increase; sheep and lambs—no increase; hens and pullets kept for laying 9% increase is asked; sows for farrow in Spring 24% increase; sows for farrow in Fall 15% increase; total chickens raised 16% increase; turkeys raised 15% increase. I do not feel that Donley County farmers and ranchers will have any trouble reaching these goals, but we must utilize all the feed that we have

VICTORY PATTERNS

... IN THE AIR ... ON THE LAND

With enough planes in the air, the Allies can be sure of victory in the skies. Aerial victory will be insufficient, however, unless it is backed up with mammoth quantities of food—giving strength to soldiers, civilians, and oppressed people liberated from Nazi chains. Contour farming is a modern way to help assure this food. Farmers all over the nation report bigger yields of war crops through contour farming. It's the victory pattern for the land.

to put meat, dairy, and poultry products on market. The need for these products is growing by leaps and bounds, not only in our own country, but our allies and countries that are being well taken care of by our armed forces. The times are such that we cannot afford to waste time, material, machinery, or labor that can be used for the furtherance of the war effort. We must ask ourselves if we are doing all that we can do to promote the war program, and if not to proceed toward this end by the very best means available. The machinery rationing program has become a very acute

problem to farmers this year, however, with proper care of the machinery we have, I believe that we will possibly have nearly enough to meet the immediate need. Almost all types of farm machinery and equipment used in this part of the country has been rationed and the larger part of these have set quotas which cannot be exceeded. The rationed items which have quotas are: row planters (except 1 row) horse or tractor drawn; listers, with and without planter attachments; grain drills; manure spreaders; moldboard plows; spike tooth, spring tooth or disk harrows; tractor cultivators; tractors; wagons; milking machines, separators, milk coolers; sweep rakes; stackers, ensilage harvesters; feed cutters, hammermills; grain cleaner and grader; engines (1 to 10 h.p.); farm elevators; mowers; rakes; hay balers; grain binders; combines; row binders, grain threshers; ensilage cutters; corn shellers, power; hay presses; sprayers; dusters.

Other machines and equipment not controlled by quotas are: farm pumps and windmills, domestic water systems, and farm fences. These items have an executed Purchase Certificate before they can be purchased.

MISS MARY E. KIDD JOINS WAACS

DALLAS, Jan. 27 — The two soldier sons of the William D. Kidd family of Nocona and Clarendon, are getting all-out support from the sister they left behind.

The sister, Miss Mary E. Kidd, has been sworn into the Women's Army Auxiliary Corps here as an auxiliary, Col. Claude K. Rhinehard, district Army recruiting officer, announced today.

One brother of Miss Kidd, Henry L. Kidd, is in Officer Candidate School at Fort Benning, Ga. The other, Pvt. Earl D. Kidd, is overseas with General Eisenhower's invading forces in Africa.

"My brothers are giving their best in this war," Miss Kidd told Colonel Rhinehart. "I want to give my best, too, and I believe the most direct way to achieve this is to join the WAAC."

Miss Kidd is living now at Nocona with her mother. After being sworn into the WAAC, she was placed on reserve status and returned to her residence to await call to active duty.

DR. B. B. HARRIS THANKS FRIENDS IN CLARENDON

The Leader office received a letter from Dr. B. B. Harris the first of the week stating that he wished to thank his many friends and patrons for their past courtesies and favors tendered him while practicing here the past two years.

Dr. Harris is now at Stamford, Texas where he will be affiliated with Texas A&M Extension work.

Patti Quattlebaum is spending the week end with her parents, Rev. and Mrs. J. O. Quattlebaum. She will leave Sunday night to enter S.M.U. the last semester.

Home Economics Department Doing Much Interesting, Beneficial Work

The Home Making Department of the High School, under the guidance of Miss Maurice Berry, is doing much interesting and beneficial work.

Last semester the first year girls were really beginning in the construction of garments, many of them could not peddle a machine in the right direction, made not only a print dress for herself but a slip for the Red Cross. There were forty-four, size 16, slips made. This was good work for a noble cause and excellent training that these girls will need in the future. With the shortage of material and labor, more serving is to be done in the home and these girls are being prepared to meet this situation.

This semester, the second year girls are helping to make the patients in Amarillo and Hereford Hospitals more comfortable by making hot water bottle covers, bed side pockets and bed pan covers out of materials furnished by our local Red Cross Chapter.

With all the rapid changes the public is facing, most of the attention is being attracted to foods. The foods naturally are considered the staff of life, yet we must be kept clothed. The armed forces are getting most all natural textile fibers. In order for the third year girls to know the consumers angle on textile fibers, an analysis of the true fibers are being made by making the physical, chemical, and microscopic tests. Applications of these characteristics are then being made on the many materials that are now on the market. This information should be very valuable to these girls in selecting both fabrics purchased by the yard, and ready to wear garments.

The nutrition work for the girls is not being neglected by any means. Food exhibits, posters, dinners, and comparative food values have been studied and demonstrated.

A new group of girls is now

getting its first nutrition course and is responding to it nicely. Many have decided to overcome bad food habits, to learn to like new foods and try to follow the nutritional yard stick as set up by our national government. This is an excellent plan but will take cooperation of the entire family, which will lead to more victory gardens, and more home canned foods.

Why not work with the Home Making program and make this nutritional problem a community project?
