### PRIZES TOTAL AROUND \$250 FOR WINNERS

**LOCAL ORGANIZATIONS WORKING FOR SUCCESS OF 1939 COUNTY EVENT**

Plans for the largest Donley County Fat Stock Show are rapidly coming to completion this week, as all local organizations work smoothly for the most successful event ever staged here, according to committeemen having details of the show in charge.

The show will be held in two convenient places, with the calves in the rear of the Fink building, and the sheep and hogs on the vacant lot between the West Texas Utilities and the Stewart building. A record attendance and interest is in prospect.

### Has 81st Birthday On Washington Anniversary

Judge W. A. Davis, local justice of the peace, always has cause to remember his birthday, since it comes on Feb. 22nd, Washington's birthday and a national holiday.

Judge Davis is one of the best preserved men in the country at 81, and probably the oldest justice of the peace in Texas. He came to Donley county in 1888, but did not locate here, since most of the good land had already been filed on, but located at Armstrong Switch, the present site of Claude.

Accepting congratulations on his birthday, Judge Davis said the real celebration of the event would be Sunday, when Mrs. Davis would have a big dinner for him and the children coming home to enjoy the celebration.

Mrs. T. J. Jefferies and Miss Carr of Childress visited Mrs. J. D. Jefferies Sunday.

### PETITION ASKING FOR ELECTION ON BAND TAX

**BAND PARENTS GROUP TO PRESENT PETITION TO CITY COMMISSION**

Feeling that the local band had progressed to the stage of efficiency deserving of better and more general support the Band Parents and friends of the band will shortly present to the City Commission a petition signed by a large number of property-taxpaying voters of Clarendon, asking for an election to see if city voters will favor a small tax for the upkeep of the organization.

Under the state law the city may vote up to a three-mill tax on the dollar valuation. If the necessary majority votes for the tax, the city commission will appoint a band board of supervisors who will be responsible for the band and handle its finances under orders from the commission.

If the petition is in regular form and signed by the required number of qualified voters in such an election the City Commission is required to call such election, which will likely be held on the regular city election, April 4th, next.

Proponents of the plan say that only one and a half to one and three-quarters of a mill tax will be needed to operate the band, since the band owns a valuable collection of instruments music and uniforms at the present time.

### WALLACE TO BUILD NEW STRUCTURE FOR BUSINESS

**NEW TYPE CONSTRUCTION TO BE USED IN BUILDING HERE**

Construction will begin in a few days on a 30x50 foot business building just to the rear of the Gulf Service Station, facing east on the street between the station and Wm. Cameron & Co., in the business section of Clarendon. L. L. Wallace purchased the building site from Gene Hurd and has contracted for the building to house his burial vault sales and show room.

The building is to be of a new type for Clarendon, presenting a white stucco front and the roof is to be of oval sheet iron construction. Mr. Wallace plans to utilize the fourteen feet between the building and the curb line for a grassed lawn with display of his product on either side of the concrete walk in the center.

This will add much to the appearance of that block in the business district.

### JUDGES FROM WHEELER WILL SERVE AT COUNTY MEET

Judges for the interscholastic meet at Clarendon, March 17 and 18, are to be furnished by Allen H. Kavanaugh, county superintendent of Wheeler county. Judges for the Wheeler county meet will be sent from Donley county.

### LOCAL SCHOOLS GET HAND AT LIONS CLUB

**DEAN DRENNAN REVIEWS LOCAL SCHOOL SET-UP AND PROGRESS**

With President Patrick out of town again Tuesday, Vice President Drennan was in the chair for the regular weekly luncheon, with a fair attendance on hand.

For the day's program, Lion Drennan explained the set-up of the local school system and presented some interesting facts concerning it.

Lion Gillham called the club's attention to the bill now before the state legislative bodies for state aid to Jr. Colleges. It was voted that the Lions Club endorse this bill and the secretary was

### Miss Temple Harris Resigns School Position Here

The Clarendon school system this week lost one of its most valued members when Miss Temple Harris resigned. Miss Harris has been a teacher here in the high school and both junior and senior college for about 20 years. She taught history and Latin most of the time, and was one of the most popular and loved teachers in the school. Her good nature and charm and clarity of teaching endeared her to all pupils, as well as to her fellow-faculty members. She was active in club work and in school affairs.

Miss Harris is retiring from teaching on account of her health. She will make her home in Austin. Mrs. T. H. Stewart has been employed for the remainder of this school year.

### Negro Held Here For Bondsmen In Dallas County Killing

J. D. McDonald, negro shine boy at Whitlock's Barber Shop for several weeks was arrested here Wednesday and held by Donley county officers for Dallas county officials on behalf of bondsmen who signed McDonald's bond following his alleged slaying of his brother in a crap game at Lancaster, Texas, in September, 1938.

McDonald came to Clarendon about a month ago, and was traced here by his having an aunt, Josie Allen, living here.

### REGARDLESS OF WEATHER SALE IN BIG GAIN

**LAST THURSDAY'S AUCTION TOTALS \$1,000 GAIN OVER FORMER EVENTS**

The weather jinx which has plagued the weekly Auction Sales in Clarendon every Thursday failed to slow down the momentum of the popular event here last Thursday. The gathering power of the sales was attested by a gain of over \$1,000 over the totals of any previous sale in the series and Manager Dick Bain and his fellow-workers were jubilant over the results.

Entries were all ready coming in as The News had reports this morning and today's sale, promises to continue the growing sales and service of the event, which aside from profit was launched here for the general convenience and good of Donley county people.

Through the connections of Manager Bain and Auctioneer I. S. Jamison, well-known Panhandle buyers, are being attracted to the local sales and a good market is thereby provided, as proven last week by the top prices of \$29.50 per head for some good local calves.

Such weekly sales are popular over the Panhandle in many neighboring towns and it is the purpose of the promoters to make the Thursday sale in Clarendon take its place in the first rank of such events.

### FOUR NEW SMALLPOX CASES REPORTED THIS WEEK

Four new smallpox cases were reported here this week. They were Mr. and Mrs. Sowell, Mrs. P. O. Thompson, and a daughter of Mr. and Mrs. Sam Tankersley. Since well over a thousand people, including practically all school children were vaccinated here, doctors do not expect much further development in the epidemic. While some cases have been reported to be chicken pox instead, it is believed that most of them have been smallpox. The precaution of vaccination has probably prevented its spread.

Instructions to communicate with our legislators to this effect.

Mr. Jess Adamson was introduced as a guest.

Dr. R. B. Anderson was introduced as a new member.

### NIP AND TUCK IN NEWS' WORD CONTEST

**GOOD SPELLERS AND CLOSE OBSERVERS HAVE DESPERATE TRUGGLE**

Winners in the third week of the Clarendon News Misspelled Word Contest won out after the most desperate struggle of the series this week, when fewer errors in the third week ads narrowed the battle to a nip-and-tuck fight.

One contestant dropped in Tuesday morning with his entry and found that he was too late, according to the rules. He had written his answers last Thursday afternoon, but neglected to bring them to The News office. He was a good sport and threw his labors into the waste basket, promising to work fast and get his answer in this week ON TIME which is not later than 5 o'clock Monday afternoon. The earlier the better—one winner in this

The contest in this issue of The News is the last of the present series, and the greatest number of entries and the tightest fight for the cash awards and theatre tickets is anticipated. Another series will likely be carried in The News in the next several months.

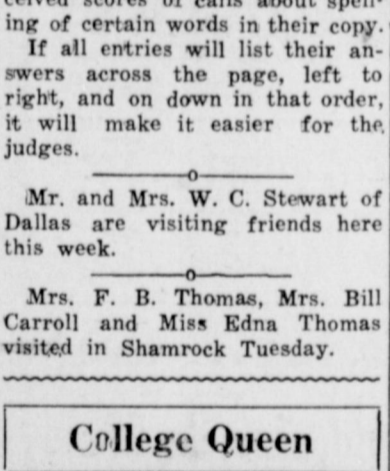

Local merchants whose ads appeared in the contest had a new impression of the reader interest maintained by The Clarendon News, the Panhandle's oldest and best read newspaper as they received scores of calls about spelling of certain words in their copy.

If all entries will list their answers across the page, left to right, and on down in that order, it will make it easier for the judges.

Mr. and Mrs. W. C. Stewart of Dallas are visiting friends here this week.

Mrs. F. B. Thomas, Mrs. Bill Carroll and Miss Edna Thomas visited in Shamrock Tuesday.

### College Queen

When students of West Texas State College of Canyon went to the polls to select their personality queen of the year, they gave this coveted honor to Miss Gaynelle Douglas of Silverton, a junior. Miss Douglas a red-haired beauty, is president of the college YWCA and is chairman of the newly formed Northwest Christian Council, a "Y" organization. She participates in many activities.

### Ralph Keys Leases John Potts Barber Shop Here

Last Friday morning Ralph Keys, well-known local barber, assumed charge of the Potts Barber Shop located next door to Parsons Bros. cleaning establishment. Following the lamentable passing of John Potts, owner of the shop, Mr. Keys made a trade with Mrs. Potts to continue the business on the same general lines.

Mr. Keys has been connected with Frank Whitlock's Barber Shop for many years, and has a large group of friends who wish him well in his new venture.

This makes to changes recently here in the barber business, Albert Johnson having installed a shop next door to Little Mercantile Co., only a few days ago.

See Mr. Keys ad in this issue of the News.

### GRAND JURY LIST OUT HERE FOR MARCH TERM

**DISTRICT COURT WILL OPEN FOR DONLEY MONDAY, MARCH 20TH**

Grand jurors for the spring term of District Court, which convenes in Clarendon, Monday, March 20th, at 9 o'clock, are being summoned this week and the list drawn for such service is as follows:

V. V. Johnson, F. R. Crisp, J. M. Garham, Raymond Farr, Clyde E. Bain, W. T. Hayter, J. M. Acord, W. C. Plunk, M. R. Allensworth, J. T. Patman, Quinn L. Aten, A. E. Ranson, W. M. Pickering, J. H. Riffle, Walter Lowe. Judge A. S. Moss will empanel the grand jury and make his charge for the term on the opening day of court as usual.

### Prospective Aggie Students Offered Opportunity

J. R. Gillham, local F. F. A. adviser, announced today that all prospective new agriculture students for the 1939-1940 term of school would be contacted in the near future in order to plan their project program for the coming school year. Gillham plans to visit all rural schools and Clarendon Junior High before the coming stock show in March.

One of the chief purposes of contacting the prospective students is to enable them to secure top registered gilts from the show pigs at a reasonable price. The majority of the pigs sell through the auction rings at Amarillo, and those desiring gilts will pick them from the local show pigs, which, if sold here, will not be taken to Amarillo.

### Haney Robertson Is Buried Here Today, Feb. 23

Funeral services were held this afternoon at 2:30 from the First Baptist Church for Haney Robertson, 68, who died Tuesday afternoon at his home here. Rev. J. Perry King officiated with the Buntin Funeral Home in charge. Interment was in the Citizens' cemetery.

Robertson was born Oct. 15, 1870 in Austin. He came west when a young man and was employed for many years on ranches near here. He worked for both the JA and RO wagons and was employed as a cowboy. Since his retirement from ranching he has made his home here.

Survivors are his wife, and seven sons, Bill Myles, Sam, Carroll, Quinby, Jack and Ray, and one daughter, Mrs. Dixie Tracy.

**TWO CLARENDON STUDENTS ON W. T. HONOR ROLL**

Two students from Clarendon are among the 52 on the honor roll for the fall semester announced by D. A. Shirley, registrar of West Texas State College. They are Allen Patman, who had four A's and one B, and Mrs. Clara Gillham who made four A's and two B's.

### PROPOSED BILL TO AID JUNIOR COLLEGES

**BILL TO GIVE \$50 PER STUDENT TO TEXAS JUNIOR COLLEGES**

Local interest this week centers about a proposed bill introduced in the state senate to give \$50 per year, per student, state aid to the several Junior Colleges of Texas. The bill was introduced by Senator George Moffett of Chilli-cothe, and has the backing of a number of senators and legislators.

The bill names the approved junior colleges of Texas who shall participate in the financial aid, and Clarendon Junior College is in the accredited list.

Proponents of the bill point out that the measure would mean a great saving to the state, as such students as freshman and sophomore rank in state colleges and universities are now costing Texas from \$150 to \$200 per year. If by aiding the junior colleges these students could be kept on their rolls for two years the savings to Texas would be from \$200 to \$300 per student. Most state schools are burdened by over-large freshman and sophomore classes anyway.

Clarendon citizens feel that aid on this basis would amount to more than \$5,000 each year, and would relieve a great strain on the schools here. It is planned to draw up petitions to be forwarded to Senator C. C. Small and Representative Eugene Worley, urging their best efforts in securing passage of the proposed measure.

It is thought by some that since junior colleges are in every section of Texas, there will be general support of the bill, which would give it a fair chance of success at this session of the legislature.

Clarendon citizens are urged to avail themselves of opportunity to sign the local petition, and do any other act that would forward the interests of the measure.

### HIWAY DEPARTMENT PLANS RE-TOPPING ON 370 AND FIRST TREATMENT NORTH

Recent announcements by the State Highway Department thru District Engineer Jim Douglas of Amarillo includes the final course of topping on U. S. Highway 370 from Clarendon to the Armstrong county line and the first course or binder on a few miles north of Clarendon on Highway 18, where the roadbed is ready.

These improvements will come along with open weather and will probably be completed before mid-summer.

Mrs. Fred Wewerka and children of El Reno, Okla., visited here over the week-end.

### INSURANCE RATE CREDIT OF 15 PER CENT STANDS

**COMMISSIONER HALL WRITES COMMENDATORY LETTER TO MAYOR HERE**

Clarendon's good fire record credit of 15 per cent, enjoyed for several years, has been continued another year, according to announcement by the First Insurance Commissioner of Texas.

This means that all fire insurance premiums paid by local citizens on Clarendon property enjoys a 15 per cent deduction on account of the good fire record maintained here during the past year.

Marvin Hall, state fire insurance commissioner has written a letter to Mayor Tom F. Connally, confirming the continuance of the credit, and commending the fire department and Fire Chief Jas. Trent for the effective work of the past year. Here is the letter:

February 15, 1939.

Hon. Tom F. Connally, Mayor of Clarendon, Clarendon, Texas.

Dear Mayor Connally:

After announcing that your fine city will again receive the good fire record credit of 15 per cent for 1939, I want to take this opportunity to commend your fire department to you for the effective work it has been doing in saving your citizens both from fire and from higher insurance costs.

Any time this department can assist you with any of your fire-fighting or fire-protection problems, please do not hesitate to command us.

With kind regards and best wishes, I am,

Cordially yours,  
MARVIN HALL,  
Fire Insurance Commissioner.

### AAA CHECKS SHOULD BE HERE SATURDAY IS INFORMATION

AAA checks for Donley county should be here Saturday, according to information secured at the county agent's office this week. A wire from College Station says payments have been certified to Dallas disbursing office on the 15th, with probability that the checks should be here on the 25th.

If a holiday was taken Wednesday on Washington's birthday by the Dallas office, the delay might hold the checks over for Monday distribution here.

Checks this year are more than a month later than in 1938, but Donley will receive her checks more promptly since the issue began in Texas, all checks being later this year over the state.

### WPA and NYA Workers Must Be U. S. Citizens and Make Affidavit of Such Fact By March 5th—Is Ruling

All WPA workers and NYA enrollees must be American citizens if they are to continue their relationship with Uncle Sam, is a new ruling out of Washington. Affidavits attesting their citizenship must be filed by March 5th, according to the order.

In a letter from Phil B. Wilson, district supervisor of NYA at Amarillo he writes:

"All young people participating in the National Youth Administration program must execute affidavits of citizenship if their employment is to be continued after March 5, 1939, J. C. Kellam, state youth director, has announced.

This step is being taken in conformity with a recent act of Congress which requires among other things the execution of citizenship affidavit forms by approximately 30,000 NYA student aid and work project employees in Texas and NYA administrative and supervisory personnel. The official forms will be mailed to participating schools in Clarendon and colleges in Clarendon, from the state NYA office in Austin and delivered to NYA project employees in Clarendon through the NYA district office in Amarillo.

We hope that NYA workers will not be required to pay notary fees in executing these affidavits, Mr. Kellam said. "Any notary public, county judge, district judge, county clerk, justice of the peace, or the judge of any court of record, is authorized to administer the oath.

The affidavit forms for all schools, colleges, and universities participating in the NYA Student Aid program must be attached to the time reports sent in for the first payroll period ending on or after March 5. Youths employed on NYA work projects will be given the forms by the persons supervising their work.

PHIL B. WILSON,  
District Supervisor.

## KEEP THE LIQUOR CONTROL BOARD

The News has no patience with the effort being made at Austin to abolish the state liquor control board. We believe it is another effort of the liquor people to reduce supervision in Texas of what liquor regulation we have, and would turn the clock back to "local enforcement," which in many counties of Texas would mean no enforcement at all.

What Texas needs is tighter liquor laws and more rigid enforcement, which is exactly opposite to what the ever-lawless liquor forces want. They want to do away with the present liquor control board, which is the reason we think it ought to stay—and be strengthened.

Citizens who realize that there is no check rein quite tight enough to hold liquor, will do well to write senator and representative and urge them to vote for the maintenance of the present liquor control board—and give them added powers of enforcement. It is either that or Texas politics will be dominated by liquor and boodle in another five years.

## DICTATORS COME HIGH—TOO HIGH

One of the favorite tricks-of-the trade of the dictators is to show how they have ended unemployment and want in their countries, and to argue from this that one-man government is the way to human happiness and prosperity. The government-dominated German press, for instance, is always publishing articles about want and starvation in America, as "proof" of their theory that democracy is a degenerate and out-of-date theory of government.

In the light of that, some figures presented by Paul Mallon, representing "months of careful personal investigation, penetrating guarded dictatorial secrets," are of exceptional interest.

In Russia, according to this survey, the average worker gets \$11 a week, and in Germany he gets \$12 to \$15. In the United States, he gets \$23.32.

In Russia, the lowest paid class of workers get \$3.60 and in Germany \$4.25. In this country they get \$4.85 (WPA minimum).

And that doesn't tell half the story. The big thing of interest to the worker anywhere is "real wages"—that is, his pay computed in terms of what it will buy rather than in terms of dollars, marks or rubles. And here the comparison is even more unfavorable to the industrial slaves of the dictators. A pound of steak costs a dollar or more in either Russia or Germany as against 38 cents here. A pound of coffee costs \$12 in Russia and \$1.25 in Germany, as against 23 cents here. A dozen eggs costs \$1.26 in Russia and 72 cents in Germany, as against 44 cents here. So it goes, down the list of necessities and luxuries.

What is responsible for our world supremacy in the workers standard of living? You can answer that in three words—the capitalist system, which encourages private enterprise. You can denounce that system all you please, but what else has brought about the industrial progress that has given us more money for less work—and has given even low paid workers things that only the favored official minority in the dictatorships can buy?

## HOLDING THE RUNAWAY

## WHEN GOOD NEIGHBORLINESS PROMOTES BAD

Texans are more interested in the Mexican situation than most other states by reason of our border-line with that republic. Texans have been outstanding in their support of a "good neighbor" policy toward our neighbor to the South, but continued acts of ill-faith and downright banditry on the part of the Cardenas administration have about exhausted the patience of citizens of the Lone Star State.

Mexico has stolen hundreds of millions of dollars worth of American-owned properties at different times—principally American Oil properties. Mexico takes these products and barter them with enemies of democracy, in Europe. What are we doing about it?

We have a remedy! The United States has no reason left to buy Mexican silver. We don't need it. Still, Mexico sells us her silver at prices that have been inflated so high above the world market, through taxation and other processes that it costs as much as domestic silver. Why continue this folly—just "to help them out." All the United States needs to do, to bad neighbor Mexico is to stop soft-soaping her. And one way to quit soft-soaping her is to quit buying her silver. That's a practical way to reform a bad neighbor.

## UNWISE CLASS LEGISLATION

The mania for regulating everybody continues to exhibit itself. Among the most recent bills introduced into the Texas Legislature is one which would prohibit the advertising of prices for eye-glasses. It would confine advertising to what is known as "educational or institutional" copy.

Now, we see no reason why an optometrist or a firm of optometrists should not have as much right to advertise their prices as a furniture store or a grocery store. The service which is rendered is dependent wholly upon the character of the individual and cannot be made a matter of legislation, except that there are general statutes which cover fraud and misrepresentation, but the advertising of prices is in itself a measure of protection to the public against fraud. And it is the customer's privilege to seek service from whom he pleases with knowledge of knowing what it is going to cost before he enters the door.

Such restrictions by legislation as are proposed could have only one tendency, and that is to make easier the charging of higher prices. Any restriction on price publication is a restraint on competition which is the life of business.

How very far this tendency to regulate and restrict is being carried was revealed Thursday by the Dispatch-Journal's Austin correspondent who pointed out that there are now bills before the Legislature to license and regulate these classes: naturopathic practitioners (those who treat ailments through diets), itinerant merchants, plumbers, librarians, blacksmiths, shorthand reporters, school janitors, real estate operators, contractors, religious practitioners, school equipment dealers, hospitals, chiropractists, loan brokers and welders.

Anyone who will read the list will agree that it is ridiculous to require the examination and licensing of workers in some of these trades or professions. The purpose in many instances, as the correspondent points out, is to selfishly restrict the number of persons who engage in these occupations. Carried to the ultimate extreme, we would have all occupations so bound round with prohibitions that we would have practically a caste system set up, with the chances slim for any person changing his occupation. And the cost of government by reason of the number of bureaus created to administer and enforce regulations continually goes higher.

The Legislature will be wise if it pitches most of these proposals into the wastebasket and confine its work to the passing of laws which are unquestionably essential to the public welfare.—Dallas Dispatch-Journal.

## WHO WANTS RACE-TRACK GAMBLING?

In this present effort to bring back horse race gambling to Texas, just who is it that wants to go backward in this matter? Well, let's enumerate:

1. The organized horse race gamblers who expect to pick the pockets of thousands of Texans who have an inherent weakness in betting on the ponies, even though they know the odds are against them.
2. The lowest form of politician, who expects to finance himself and perpetuate his life in state affairs through slush-funds dropped in his hands by the swollen-pursed promoters of the race tracks.
3. The beer and whiskey interests who know they reap millions when human vice drops to a lower level, and who pay their part of the slush-funds.
4. The hundreds of gambling addicts who let their grocery bills go unpaid, who do without clothing and any comfort of life to satisfy their ruling passion for chance. Here thousands of innocent wives and children suffer.
5. Thoughtless people who are taken in by the false claim that race track gambling aids employment and helps business.

The above is a summary of the various classes that want to break down Texas laws against race-track gambling.

The News believes there are only a scattered few in all this territory belonging to any of the above classes. Let's tell Senator Small and Eugene Worley about our opposition to any letting down of the bars against this terrible menace to prosperity and moral character. The News believes they will vote as their constituents demand on this important matter.

## NEW TACTICS IN CONGRESS

By J. E. JONES

men are being decorated with all sorts of political colors. The meetmen are being decorated with all sorts of political colors. The meet- ing occurred on St. Valentine's Day and it may be described as a typical gathering where the political whip lash was cracked. It was held as a direct result of the row that has been waging between the President and the Democratic conservatives, who gained large additions to their ranks in the recent elections. Speaker Bankhead led the leaders who told these Democrats that their absence from roll calls is helping the Republicans to defeat some of the President's measures. Of course that is why they stay away. The retort to the charge that they are not cooperating with the President was that the president wasn't cooperating with them. A sort of "you're another" attitude.

In Washington this matter is no mystery, because it is plain as day that while a large number of anti-New Deal Democrats are anxious to hold their party together, they are determined to secure recognition of their power through concealed objections of avoiding roll calls.

The country is familiar with President Roosevelt's characteristics, and it may confidently expect that he will attack and try to "purge" his own party in Congress. This may come at any time, but likely the real blasts will be deferred until he returns from his ocean trip.

It is no mystery in Washington that a break between the progressive and conservative members of Congress has already begun. We are now in the beginning of a show-down that will be lasting—even through the 1940 presidential campaign.—National Industries News Service.

## The Low Down FROM HICKORY GROVE

The other day I was thumbing around in our Webster's and, I run across the word, Yokel. And the book, it says that a yokel is a country bumkin.

And I got to thinking about it, and you know she looks maybe like the dictionary, it is not so terribly up-to-date. You see more bumpkins around in our cities than you will see in the country.

You take these moving picture and Hollywood folks we been reading about—they listened to the slickers on the boat. And they been trying to dodge through the custom house with some French jewelry, etc.—in their inside pocket. And they are being a bigger Yokel than a farmer going into Chicago and buying the post office from a guy he met on the R. R. train.

If I was setting out to fool some guy, I would hit right smack into the biggest place I could find—and pick out a sophisticated person.

## Jeff Davis Urges Support of Liquor Board By Drys

AUSTIN.—Jeff Davis of Dallas, spokesman for the United Texas Drys, today joined other prominent Texans in support of the liquor control board's policy of strict enforcement.

"The liquor control board has done a fine job of enforcing our state liquor laws and it should be retained and its powers enlarged," Mr. Davis declared in a statement at Dallas. "If we are to have regulation in some counties in our state, we need an enforcing agency to do the job of regulating."

"The expense of maintaining the liquor control board is a small item in comparison with the services rendered. Fines assessed and illegal properties confiscated amount to almost as much as the cost of maintaining the board."

Mr. Davis said his statement "expresses my personal views, as well as the views of the executive committee of United Texas Drys."

It followed similar statements by Mrs. Claude De Van Watts of Austin, president of the Texas Woman's Christian Temperance Union, and former State Senator V. A. Collins, a dry leader for 30 years.

Mrs. De Van Watts said that "if those who oppose the board investigated the splendid work it is doing they would know it is a necessity for enforcement of the law."

## NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN.—A quick funeral with few mourners, was being prepared this week for the O'Daniel transaction tax scheme, as the House committee on taxation and revenue, finished with its public hearings on the Townsend-inspired plan submitted by the governor, prepared to take up sales tax and natural resources tax bills, in the order named.

By common consent, it was agreed the transaction tax got nowhere at the hearings. Its only backers were a motley crew of men, women and children, numbering about 200, who were herded together by professional pension advocates, and marched to the capitol carrying banners. Half a dozen Townsendite professional organizers, and promoters of rival pension organizations, appeared and endorsed the O'Daniel bill. Most of them admitted they had never read it.

Meanwhile, under way in both houses was a movement by conservative leaders, to get at the social security program sensibly, by enacting legislation liberalizing the pension law somewhat, and defining "need" in definite terms. Then, accurate estimates will be made to determine the cost of pensions and other phases of social security. The next step will be, if the plan of this group works out, to attack the problem of raising whatever additional revenue is needed, but with definite knowledge of how much. Efforts also were scheduled to combine the social security program with a better governmental set-up. Some leaders were hopeful of divorcing specific functions, such as pensions, from certain individual tax sources, and getting all but the constitutional allocations of income into a general fund, from which appropriations would be made to each governmental department or function. That is an ambitious program, but one on which the governor and many legislators are thoroughly agreed. So there is some hope of achievement.

Charging that the Mexican government is threatening the Texas oil market by bartering oil from seized American and British wells to Germany and Italy, and by shipping oil into Texas, a resolution by Rep. Travis Dean, urging the federal government to insist upon fair and prompt payment of the seized oil properties, quickly passed the House this week. Dean also is author of a bill to tax all oil imported into Texas from other states or foreign countries, where a severance tax of less than that charged in Texas, has been paid at the point of origin. This bill also is intended to halt the flow of Mexican oil into Texas, where much of it has been processed and re-exported in recent months.

money to pay off millions of "dead horse" county lateral road bonds, scheduled for a showdown this week, was given a severe setback when Thomas E. McDonald chief of the U. S. Bureau of Good Roads, wired Alfred Petsch, opponent of the bill that the diversion contemplated by the bill would draw a penalty of \$4,000,000 which would be withheld from the state's federal highway allocation of about \$12,250,000 annually. The bill is being actively opposed by the Texas Good Roads Association, headed by Lowry Martin, Corsicana publisher, and the federal ruling was regarded as its probable death knell, as numerous members of both houses expressed an unwillingness to do anything that would jeopardize the state's allocation of federal road-building money.

Lobby gossip in Austin credited certain bond speculators as being the real behind-the-scenes backers of the measure. It was asserted they have brought up millions of dollars of depreciated county bonds, well in advance of the session, and that they already have made substantial profits as prices of many county bonds have gone up on the prospect of the state's credit backing them, as provided in the bill. Unfair distribution of the benefits, is shown by an analysis proving that 28 counties would get 56 per cent of the benefit, while ten counties would receive none at all and all of the remaining 216 counties only 44 per cent.

## PROGRESS IS BEING MADE

Despite disagreement between the sons and the governor over appointments, evidenced when six East Texas senators spent a morning rapping vigorously the nomination of J. C. Hunter of Abilene, as highway commissioner, and other minor issues, both houses are showing a willingness to work with the governor on constructive matters, and virtually every such suggestion made by O'Daniel has received ready cooperation in the legislative halls. Evidences are O'Daniel's recommendation for a better budgetary system, for an auditor controlled by the Legislature, for elimination of the tax commissioner's office, and similar recommendations.

Led by Will Pace, spokesman for the East Texas Group, six senators voiced their opposition to naming Hunter or any other West Texan to the highway commission. They included Joe Hill, Clay Cotton, John Redditt, Allen Shivers and Gordon Burns. Confirmation of Hunter—not because of any question of his integrity or ability but because the East Texas group seeks to preserve the geographical division of the commission which has been in effect ever since it was created—seemed doubtful at the week-end. Pace and Redditt related a hotel conference to which they were asked by Carr P. Collins, rejected highway commission nominee, a few days previous to the nomination of Hunter. They declared Collins urged them to reconsider his own nomination, and threatened that if they did not, "they would get a man from West Texas." The Senate fiercely resents any attempt by an outsider to dictate to or intimidate its members, and Collins' threat may cause rejection of Hunter.

## Sentinels of Health

Don't Neglect Them!  
Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out. Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.

## Perryton Mystery Believed Solved By Skeleton Found

PERRYTON.—A 7-year-old mystery of the disappearance of two boys whose father was found shot fatally next day was recalled by the discovery of the bones of a child on a wind-swept Panhandle ranch.

Lloyd Davis, a WPA worker, stumbled onto the skull and parts of a skeleton while making a mineral survey on the Merydith ranch, 25 miles southeast of here in Lipscomb county.

J. M. Cone, Jr., 10, and his brother, Vernon, 6, disappeared May 31, 1932. Their father was found the next day, dying from bullet wounds. A coroner returned a verdict of suicide.

Deputy Sheriff D. D. Taliaferro said he and Sheriff Sid Talley of Ochiltree county believed the bones may be that of the missing Cone child. He said they would investigate Monday at the place where the bones were found.

In 1936, Elmer and Claud Tenyson, convicts in the Oregon penitentiary, told of being hired by the father to kill his children. They said they shot Cone when he refused to pay them for murdering and burying the boys. Officers branded their story as a hoax. They were sentenced to the penitentiary in 1935 for bank robbery.

The teeth indicated the bones found today to be those of a child about 12 years old.

## Annual County School Census Will Be Taken In March

Census trustees for the common rural schools are to be chosen by the trustees of the school districts this week. The census trustee should call for his supplies at the county superintendent's office Saturday, Feb. 28th.

School census must be taken during the month of March and no child can be enumerated later than March 31st. Every effort will be made to list every child in the county between the ages of six and eighteen years.

Each child missed in the census means a loss of \$22.50 to the district in which the parents live. Should the census trustee fail to call for a list of any children, we urge the parents to report same to the principal of the school or county superintendent.

All children of scholastic age must be rendered in the district where the parents reside regardless of all conditions. Pupils will be transferred in the month of July from the districts where their grades are not taught. Pupils who are not listed in the census report can not be transferred.

## CHURCHES

CLARENDON METHODIST CHURCH J. G. Walker, Pastor

Material to make up this communication is not very satisfactory. We like to say good things, but we cannot go beyond the truth. The outlook at Goldston Sunday was not what we expected. I think we had two good services, but the attendance was short of what it should have been. About church-going time, a fresh sandstorm threatened, and it really made going a bit unpleasant, but we faced it for nine miles, and really got joy out of it, because we felt it our duty to go. Just how the people living near by felt after not going, we do not know. Maybe they have allowed their consciences to become seered. Buildings very soon become veneered by sand storms and maybe some folks' consciences become thus affected by it.

We are believing that we are due a little more serious thought on this matter. Be sure you don't pass it by as a joke. Will you allow me to direct your thinking? There will be a time when we will be called and we will have no say in the matter of going.

In Mat. 24:29, we learn that the sun will be darkened, the moon will not give her light, the stars shall fall from heaven and all powers of heaven shall be shaken. Then the Son of Man will come in clouds of heaven with powers and great glory. He shall send His angels with a great sound of a trumpet. All nations will be called to the judgment. Then you will go, sandstorm or no. Then we imagine some people would be glad to be back in Goldston community on a sandstormy day and go to church and spend the entire day trying to get right with the Lord. Our worst sandstorms would look like a bright sunny day. In Revelations, sixth chapter, we have a

description of this awful occasion: "The kings of the earth and the great men, and the chief captains, and rich men, and mighty men, and every bondman and every freeman, hid themselves in dens and in the rocks of the mountains, and said to the mountains, 'fall on us and hide us from the face of Him that sitteth upon the throne and from the wrath of the lamb!'" This will be the cry of all who have failed to prepare to meet Him in the skies. These words are not for any who may have been providentially hindered. Meet us next Sunday at Lelia Lake at 11 a. m. and 2:30 p. m. at Naylor in the evening.

FIRST METHODIST CHURCH H. C. Gordon Pastor

We rejoice that attendance upon the service of our church has been good through winter months. Now spring is approaching and we ought to grow rapidly in numbers. Be present next Sunday. A warm welcome awaits all who attend.

## KNORPP-KELLY WEDDING SOLEMNIZED SATURDAY

One of the outstanding events of the season was the marriage of Miss Margaret Anna Kelly and Walter Bugbee Knorpp. The beautiful, impressive ceremony was solemnized at high noon Saturday, February 18, at the Saint John's Episcopal Church. This marriage cemented bonds between two families who played important roles in the early development of the Panhandle Plains country.

Mrs. Knorpp is the daughter of the late Mr. and Mrs. Martin Kelly and the great granddaughter of the late Charles and Harriet Lewis who settled at Old Clarendon 60 years ago. She was reared in Clarendon by her grandmother, Mrs. B. W. Chamberlain, and was educated at the Hockaday School, Dallas and the University of Texas.

Walter Bugbee Knorpp is the youngest son of Mr. and Mrs. Wesley Knorpp of Clarendon and Long Beach, California, where the family is prominent in banking, financial and social circles. He was educated at Pomona College and University of Southern California. He is a grandson of the late Thos. S. Bugbee, one of the first Panhandle settlers.

The groom is at present connected with the Donley County State Bank of which his father is the president.

The vows were read by Bishop E. Cecil Seaman of Amarillo, as the couple and their attendants stood before an artistic background of pink gladioli, white snap-dragons and ferns, with lighted candles burning upon the altar.

Preceding the ceremony Miss Mantie Graves at the organ, played "Londonderry" and the "Melody in F." Wagner's bridal chorus from "Lohengrin" was used as a processional and Mendelssohn's Wedding March was played softly as the vows were read.

Miss Madeline Kelly, sister of

the bride, was maid of honor. She wore a soft blue print and carried a colonial bouquet of rosebuds and sweet peas. The bride, who was given in marriage by her uncle, W. J. Lewis, wore a beautiful navy blue sheer with pleated skirt and a short jacket. She carried a formal bouquet of white gardenias.

Mrs. B. W. Chamberlain, grandmother of the bride, and Mrs. Wesley Knorpp, mother of the groom, each wore a corsage of white gardenias.

The groom, who wore a dark brown business suit, was attended by Mr. Willard Hudson of Vernon. Martin Kelly, brother and W. J. Lewis, Jr., cousin of the bride, were ushers.

Immediately following the ceremony a wedding breakfast was served to relatives and close friends at the spacious home of Mr. and Mrs. Fred Chamberlain, uncle and aunt of the bride. The rooms were decorated with pink and white roses.

The beautifully arranged table was decorated with large white sweet peas and pink roses. The wedding cake was pink and white. Mrs. W. J. Lewis of Dallas presided at the coffee urn. Misses Madeline Kelly and Betty Caraway presided over the guest book.

Out-of-town guests were Miss Mary Paul and John O'Brien of the University of Texas, Mr. and Mrs. W. J. Lewis and their daughter, Miss Betty, Dallas, Mr. and Mrs. Emery Seager of Memphis, Mrs. H. G. Officer and daughter, Miss Helenita of Tulsa, Mr. and Mrs. T. L. Roach of Amarillo Mr. and Mrs. Willard Hudson of Vernon, Lieutenant and Mrs. Warren Millner, Dallas, Mr. and Mrs. J. R. Calhoun of San Antonio, Mr. and Mrs. E. T. Kelly and daughter, Dorothy, of Lubbock, Mrs. Dan Rutledge of Elk City.

The couple left on an extended honeymoon trip to California and other Pacific Coast points. They will visit the Grand Canyon en route and return to make their home in Clarendon.

The bride's traveling dress was

## Powell-de Havilland New Starring Team

Some of the best matches are made—not in Heaven, as the old saying goes—in the Hollywood casting offices. They don't have to stand the test of marriage, of course, but they do have to stand the test of the film public's romantic ideas. "I don't know what he sees in her" (or vice versa) is probably one of the most overworked sentences in the English language. And that's what the casting directors have to circumvent.

Latest result of their art is the pairing of Olivia de Havilland and Dick Powell in "Hard to Get," a delightful romantic comedy which comes to the Pastime next week. Both young stars have been in the top brackets for some time and have shared romances with the screen's leading lights, but this represents their first co-starring work, and according to advance reports, it's an ideal film match.

A special illumination display, with all the lights turned on in the \$1,500,000 electrical extravaganza, was staged for Los Angeles visitors at the California World's Fair at the "Month to Go" fete.

On Treasure Island 308 persons may drink from outdoor fountains at the same time.

## FINE RESPONSE ON REA LINES FOR DONLEY

270 IN MEETING AT ASHTOLA. GOLDSTON, LELIA LAKE YESTERDAY

Orville Couch, Rural Electrification Administration supervisor for a group of counties, including Donley, was in the county Wednesday for three meetings with farmers in the Ashtola, Goldston and Lelia Lake, neighborhoods, in co-operation with County Agent H. M. Breedlove.

The Ashtola meeting held Wednesday morning was attended by around seventy prospective farmers, and general acceptance of the REA plans was indicated, with a local committee appointed to promote the project.

At Goldston a good attendance was on hand and similar steps were taken. Wednesday evening at Lelia Lake over 125 were on hand to learn the details of the proposal, with general accord in that section of the county.

Indications are for early progress on organization and building of the lines under the REA plan in the county, according to information at the county agent's office.

### Water Rises No Higher Than Its Source

By T. C. RICHARDSON, Secretary  
Texas Breeder-Feeder Association

"You can't make a silk purse out of a sow's ear" and "a crop is no better than its seed" are equally true sayings. It is one of the most expensive "economies" (?) on the farm to plant poor seed and spend a whole season's work making a poor crop. It costs only a few cents an acre more to get the best seed available for crops like corn, sorghum, melons, tomatoes and a great many others. The difference may run into dollars on cotton, clover, alfalfa and the small grains but the best pays off at harvest time far beyond the extra cost.

But what is "good seed?" First, it is clean seed, unmixed with weeds or other crop seed. Second, it is pure seed; that is it

is bred to produce true to its name and character. Third, it is a variety adapted to the soil and climate where it is to be grown. Fourth, it is high in germinating power.  
But how are we to know all this? Most of the guesswork is eliminated by purchasing only seed which is bagged and properly labeled. Every state has seed labeling laws, and the tag tells (1) percentage of foreign seed present, (2) name of the variety, and (4) percentage of germination. As to (3) its adaption to his locality, the buyer must know by experience or look up the records from the nearest agricultural experiment station.

On the question of purity there

is a further safeguard in buying seed officially "certified" or "registered" in the name of its breeder or grower. This information is on another tag, usually colored to indicate the different grades. The highest grade is that which came last from the breeding block, the second grade

is usually a year farther removed. The reputation of the breeder is back of this tag, and it also carries the assurance of the certifying authority that the seed has been grown under its rules and inspection.

It is a risky practice to buy bulk seed either from someone

traveling through the country or from a local seed store. If it turns out to be good seed the buyer is lucky; if not he has only himself to blame. The seed peddler may be honest and the local merchant who has to face his customer afterwards surely wouldn't knowingly misrepresent

his goods. But the source of the seed is unknown, it purely is a matter of faith, and there is no germination test. Reliable local merchants would prefer to handle only properly tested and labeled seed, but for the "bargain hunters" who save a dime and lose a dollar by insisting on cheap (?)

seed. It is too late to buy seed when ahead insures getting the best you are willing to pay for, while last-minute buying sometimes means taking Hobson's choice. Read the tags, buy the best seed available, have it ready—and then don't treat it like a step-child.

**Oklahoma Chamber of Commerce Worker Is Visitor Here**

Mr. and Mrs. Bob Kniseley and little daughter, Bobbie Nell, of Wetumka, Okla., visited over the week-end here with Mr. and Mrs. George Norwood, the ladies having been schoolmates at Shawnee several years ago.

Mr. Kniseley is a former newspaper man but is at present secretary-manager of the Wetumka Chamber of Commerce and is well-known in Eastern Oklahoma for his program of work. In a visit at The News office, Mr. Kniseley was deeply interested in the FFA and 4-H Club boys work in Donley County, as evidenced by the fine display of trophies won during the past year now on display in The News show window. Mr. Kniseley says in addition to this work of the white

boys in his area, they also have a NFA Club group among the negro youths, doing the same kind of project work as the FFA boys do, and making fine progress along that line.

Mr. Kniseley complimented Donley County on its progress and indicated that with his family he would likely visit here again, with the Norwoods.
