ALVA SIMMONS OF HEDLEY IS NAMED ON DRAFT BOARD

Alva T. Simmons of Hedley was named by Gov. W. Lee O'Daniel last Saturday as a member of the Donley County Draft Board. Simmons, a ginner, farmer and pioneer resident fills the place vacated by the death of Homer Mulkey.

The other two members of the board are C. T. McMurtry, chairman, and George Ryan.

Donley County's fourth draft call is set for Feb. 7th, at which time two Clarendon men, J. H. Green and H. L. Riley, will respond. Both men are volunteers.

In the second draft, Donley sent eight men to the recruiting station. The third draft was for negroes only, but none were called from this county.

Mr. and Mrs. O. C. Watson and George, Mr. and Mrs. B. C. Antrobus, and Mrs. G. W. Antrobus, attended the Hardware Convention in Amarillo, Tuesday.

HEDLEY COUPLE USE PENNIES TO BUY MARRIAGE LICENSE

One Donley County couple evidently saved up their pennies to start themselves on the road to matrimony.

Last Saturday Miss LaVerne Wade and Herbert H. Harrison, both of Hedley, appeared in the office of the county clerk and asked for a marriage license. When the license was written out, the Groom-to-be asked Deputy Clerk Walker Lane if he would accept some pennies in payment for license. The deputy responded in the usual obliging way and the man shelled out one hundred and fifty pennies—just enough to cover the price of the license.

Mr. Lane said he got a little more than he bargained for, believing that he would not receive over five or ten pennies at the most.

C. of C. Speaker

Wes Izzard, well-known Amarillo newspaperman and radio commentator, has chosen for his subject "War Comes to the Panhandle," when he addresses the annual Chamber of Commerce banquet here next Tuesday night. Mr. Izzard's topic is most timely and no doubt will be very interesting and the Clarendon Chamber of Commerce is fortunate in having this all-informed man as its speaker.

15 COMMUNITIES ARE INVITED TO C-C BANQUET

Tickets for the annual event went on sale today at the Douglas & Goldston Drug Store, Norwood Pharmacy. The tickets can also be purchased from Clyde Douglas, J. T. Patman, John Gillham and other members of the ticket committee.

Those planning to attend are urged to buy tickets before Monday night in order that the arrangements committee may make accommodations for the number attending.

FACING SERIOUS RESPONSIBILITIES AT HOME

If we consider the whole aspect of our national situation, and can see only a little way ahead in the impending impact of huge increase in visible and concealed taxation shortly inevitable account of national defense, we cannot but realize that we are facing serious responsibilities in our local communities.

It doesn't take a prophet to foresee stupendous changes are coming upon us in our way of life and in the channels of business endeavor, but there is no man alive today able to forecast just what these changes are to be. The mightiest national effort of all history, as only Americans can do the job will produce conditions and changes which economic writers for the next half-century will be trying to chronicle—many of them in vain.

As good Americans we endorse in toto the all-out preparedness and the companion effort of all-out aid to Britain, Greece and China, but it isn't a far away thing. It is presently most present—local in a monumental, all-inclusive manner, so we must prepare ourselves for adjustments, to sacrifices in whatever measure that America, that Democracy shall not fail.

Yes, we are facing serious responsibilities of tremendous import to every citizen. Let us face them cheerfully and unafraid.

THREE PARTNERS

The defense program will furnish the acid test of our government, our industries and our workers. There can be no alibi for failure. There can be no excuse for waste of time and effort. This year, which is perhaps the most critical year in our history as a democracy, may tell whether free individual enterprise is to survive—or whether it is to be replaced by another system, in which government is the dominant factor in all our lives.

In the problem our nation faces, there are three partners. Each has vast responsibilities, for failure of either could destroy the others. One partner is industry, to which we turn for the means of defense and the implements of peace—the factories, farms and mines, the power plants which motivate the machines, the transportation systems which haul the raw materials and the finished goods—these are the backbone of America. Private industry must do a greater job than it ever did before to demonstrate its production and service superiority as its reason for existence.

The second partner is labor—the men who operate the machines and build the weapons of defense and the necessities and luxuries of peace. The responsibility of labor is crystal clear. It must work between it and industry, over the arbitration table. It must put aside petty jealousies and internal differences for the duration of the emergency, if it wishes to hold public sympathy and good will.

The third partner is government. Its financial strength depends upon taxes taken from the earnings of private industry. The duty of government now is to adopt a policy of friendly cooperation with industry, and thus help it meet the extraordinarily difficult problems it faces in order to supply the emergency needs of government.

So it's up to the three partners now. Walter Lippmann recently

GOOD ADVICE FROM THE SIDELINES

JUST HUMANS

By GENE CARR

Keeping Him In His Place

wrote, "American industry will not fail in the test . . . The world will see this year the proof that this young continent possesses the energy which, throttled down in these ten years of depression and confusion, will pour forth to astound the world."

LAWS IN RESTRAINT OF TRADE

The Department of Justice is inquiring into alleged monopolistic price-fixing in the food industry. Fortunately, it has selected Denver as the site for its most ambitious probe. As Business Week observes, the situation there is "crying for attention—literally as well as figuratively." Colorado provides an outstanding illustration of the folly of laws which make acts in restraint of trade not only legal, but obligatory.

Some years ago Colorado passed a punitive chain store tax act. But the chains kept on doing business, and so later the legislature passed a "fair trade" act, which permits manufacturers of branded products to set their minimum retail price, along with an "unfair practices" act, which prohibits selling below cost. Determination of "cost" was left in the hands of a grocers' association. Trouble came when the association—by vote of only 150 of the 1,000 Denver merchants—recently determined that cost was the actual buying price, plus a 12 per cent mark-up—or a 14 per cent mark-up in the case of stores with their own warehouses. The largest grocery chain in Colorado resigned from the association, its manager saying that the action of the association represented price hiking and profiteering and that the new basis of figuring "cost" meant a full 5 per cent jump in the price of food to the consumer.

Laws of the type passed in Colorado eliminate a free competitive system, subsidize the inefficient merchant, and penalize and in some cases destroy the efficient. They are directly opposed to the interests of consumers. The investigation by the Department of Justice should prove an eye-opener to the people of all the country.

Economic Highlights

Tax Bills of Every Individual. National and International Happenings That Affected the Dinner Pails, Dividend Checks and Problems Inseparable From Local Welfare.

A senator or representative of half a century ago, would shake his head in amazement at the congresses of recent years. Party lines, which once were almost impregnable, have cracked time and again. And now, with the introduction of the President's "all out for England" bill, they seem to have broken wide open.

Interesting commentary on this is found in the fact that the bill has been endorsed by Republican standard-bearer Wendell Willkie, with certain reservations—and that the principal Senate opposition to it is being led by a Democrat, Senator Wheeler of Montana.

Congressional reception of the bill ran the gamut of extremes. On one side, for instance, doughty Senator Johnson of California, veteran of many an historic debate, described it as "monstrous," and said that "it's up to Congress now to determine whether our government shall be as ordained or become a member of the totalitarian states." And on the other side, Senator Thomas of Utah, strongly interventionist, complained that the bill "is not as far-reaching as world events warrant. The President should have the power to send American ships with supplies in to the combat zones."

It is obvious that the real fight on this bill will take place in the Senate—opposition in the House is now almost at its all-time low in effectiveness. A number of senators who have followed the President's foreign policy so far, were rather stunned by the sweeping terms in which the measure is framed. First shock was the provision whereby this country, by executive order could repair British warships in our naval yards. That, according to lawyers, would amount to utter disregard of international law

as it applies to neutrals, and would amount to an act of war. Even so, many congressmen now regard that as merely a detail—as just one more step in a program based on the belief that the survival and ultimate victory of England, and the little countries which are aiding her, is absolutely vital to this country's security. Bigger fight may come over the clause which authorizes the President to "promulgate such rules and regulations as may be necessary to carry out the provisions of this act." That is obviously blanket authority. The debate over this bill, and other aid-England measures, is not between those who are for Britain on the one hand, and those who are opposed to or cool to England's cause, on the other. The Congress, like the American people, is close to 100 per cent pro-English. But there are many who feel it unwise to give any man unlimited powers, on the grounds that this might lead to one-man government, which is another word for dictatorship. There are others who feel that this is a lesser risk than having Congress carry on long debates every time some new step to help England seems necessary or advisable.

The bill will apparently be fought to a finish, with neither side disposed to give quarter. Intimations came from the White House a few days after its introduction to the effect that the Administration would not oppose some modifications. But Senator Wheeler and his group said that they were out to defeat the measure in entirety.

Even so, prospects now seem highly favorable to its passing, with, perhaps, some stipulations to make it less of a "blank check" measure. Wendell Willkie suggested that a time clause be

Considerable publicity has been given to a proposed "delinquent tax bill." Past-due taxes amount to a great sum and these should be collected, wherever possible. It is freely granted that the motives of individuals urging the bill are sincere. But the measure should be studied carefully before any decision is reached. To begin with, it provides that the delinquent tax list shall be "advertised" by tacking one copy at the courthouse door and one copy at some public place in each taxing unit of the county. Then all delinquents whose addresses are known are to be notified by registered letter and, if they do not pay up in 20 days, their homes and farms can be sold at public outcry on the

inserted, under which the powers would be granted for a fixed and limited term so that on some definite future date Congress would automatically review the bill again, and either continue or revoke it. Many favor this.

No one need wonder any longer about this country's neutrality. It doesn't exist. We are a non-belligerent participant in the war. Our relationship to England is about like that of Italy to Germany before Mussolini decided to go all the way. Recent polls indicate that the American public is in favor of our role as we are playing it now.

In military circles, the feeling that Hitler will soon make his supreme effort to defeat England is almost unanimous. Time is working with Britain. Hitler, the officers think, must win this year or certainly lose.

American correspondents in Germany report a feeling of complete and apparently sincere confidence on the part of Reich officials. England, some of them say, will be finished inside six months. Hitler is supposed to be perfecting his plans and organization now. The Germans still talk about new weapons too. So far, however, despite all such talk, this war hasn't produced anything but improvements on old weapons.

Britain has just adopted tighter food rationing. German diet is reported still on the downgrade. Europe will be a mighty hungry place when the war ends.

courthouse steps. If the letter never reaches the property-owner or if he is sick or dying, still there are no exceptions in the proposed law.

There is to be a new bureau created at Austin, headed by a State Delinquent Tax Supervisor at \$6,000 a year—and traveling expenses. There is to be a first assistant at \$4,800 a year—and traveling expenses; and a Second Assistant, also at \$4,800 a year—and traveling expenses; and five stenographers, at \$3,000 each—and traveling expenses; and 20 district managers at \$3,000 each—and traveling expenses. There are also to be five stenographers.

But these are not all. If the State Delinquent Tax Supervisor decides he needs more help, all he has to do is hire more and he is allowed to spend as much as 20 per cent of all the delinquent taxes he collects.

Many believe that this would be the first step in what could lead to a taxation bureau with almost life-and-death authority the rank and file of the people. And is the State Delinquent Tax Supervisor, with these tremendous powers, to be elected by the people, so he may be held accountable at the ballot box? No; he is to be appointed by two men—one of whom is elected to office by a few thousand votes in one district; the Speaker of the House; and the other is the Lieutenant Governor.

THE WHIRLWIND!

Published by the Students of Lelia Lake High School, Lelia Lake, Texas

EDITORIAL

We have begun to wonder what has happened to the basketball players. The players seem to be disinterested in attending daily practices. At the first of the season, basketball started off with a bang, but it is gradually losing its hold. Maybe it is because we have lost a few games lately. Mr. McDaniels has made basketball very interesting but he cannot do it by himself. He needs cooperation; so lets help him and start it again with great interest as if it was the first of the season. Don't become discouraged; we still have more time to win more. The coach seems to be disheartened. Let's make a smile come on his face when he sees his teams.

THE WHIRL

All the worried looks on the faces of the Lelia Lake students are not caused by worry over the "Lend-Lease" bill or any disappointing war news but by the results of one and one-half hours of labor over four examinations or so last week. Normal business is being resumed after repairs to the ego; and with these few alterations, everything will soon be running smoothly again.

I hear that Miss Rumpy is having a hard time calming her second year homemaking girls down after spending three weeks hammering and sawing. Formerly, every time one of the girls stuck her finger or spilled some boiling water, she muttered a few "gees" under her breath and let it go at that. Now, it is reported they stamp their feet and even throw things if they are convenient when things do not go exactly right. The boys, on the other hand, are so refined that Mr. McDaniels is finding it hard to get the shop work boys to work because they are afraid they will break some etiquette ruling.

Bill Read went to Canadian Sunday to visit his aunt. Mrs. Hedgecock. Charlsie Mae Reynolds is our new fourth grade pupil. She has been attending school in Clovis, New Mexico.

The Lelia Lake School Club met January 28 and discussed

the lunch project. The meeting will be in the form of a social, Tuesday evening February 11.

We wonder what all these sighs and groanings that are going on around the school house are about. We think somebody must be really in pain, or is it just the after effects of the midterm examinations? They were really a dose of bad medicine. We can't go home and cry on mommies and daddies shoulders. They will tell us we just brought it on ourselves. But maybe it isn't as bad as we think it is.

It seems like school has been almost deserted the last week. Nearly everyone in school has had a cold or gone home with the flu. Not only have our students been sick, but some of our teachers. We will be glad when every one is feeling better and our school starts running smoothly again.

There were several changes made in the old class schedule. After the students have become accustomed to this they will like it better. The sixth period classes were changed to the first period. The girls and boys basketball period changed places. The boys basket ball now comes at the last period. Some of the first period classes were changed to the fifth period.

The project of serving hot lunches in the cooking room was completed Monday. Supplies were received this week and hot lunches were served Tuesday. Mrs. Gladys Power, the supervisor of Donley County, was here Monday to help the workers, Mrs. Lowe and Mrs. K. K. Boyce. Three more workers will be assigned soon. The parents and students are helping out the project by furnishing necessary equipment. The lunches will be served in the gymnasium on a drop leaf table.

SPORTS

The Bluebirds played Samnorwood twice during the past week. In the first game, which was played at Lelia, The Bluebirds were the victors, but they allowed the Samnorwood boys a small margin in the last game. The score in the first game was Lelia 20 and Samnorwood 16 and in the last game the score was 34-33 with Samnorwood leading.

The game played at Lelia was a very close one; however it was apparent the Bluebirds were going to win by the last quarter.

At the beginning of the game at Samnorwood, it seemed the Bluebirds were in for a terrific beating. The score at the end of the first quarter was 16-4 and at the end of the half 18-6 with Samnorwood in the lead. With about 2 minutes to play the score was 26-30. The Bluebirds brought the score to a 30-30 tie at the end of the game. After two overtime periods the Samnorwood team won by a score of 34-33.

The girls basketball team came out on the short end of a 35-8 score in the game with Samnorwood last Saturday night at Samnorwood. The court being thirty feet longer than our home court gave the Bluebirds much difficulty. The other team started off fast and near the end of the game, the Bluebirds began to pep up. The Bluebirds did not think of being defeated, but worked hard until the whistle blew.

SPORT SIDELIGHTS

Ruben Boyce has been playing basket ball for three years. He is a fast player and full of energy. Ruben weighs 148 pounds, is 5 feet, 7 inches in height, has curly brown hair, hazel eyes, and light complexion. He is liked and admired by everyone for his pleasing personality and friendly ways. Ruben had little interest in the girls and worries more about his studies. He is quiet and learns more than the person who talks more. He is known for his willingness and cooperation to help at any time he is called on.

Here are some outstanding things about him:
 Hobby — Playing basket ball
 Pet Peeve — Silly girls
 Heart Interest — Beautiful girls
 Ambition — Aviator
 Favorite Radio Program—Henry Aldridge.

Virginia Carroll, a very good student in the senior class, has been going to Lelia school a long time and all during this time I have not heard one stu-

dent express any dislike for her. Although she expresses her ideas plainly, she is very easy to get along with. She is very interested in sports and to go along with this, she has ability to play basketball and any other sport. These other things about Virginia were learned in a personal chat.

Ambition: To be a school teacher
 Hobby: Basketball
 Favorite Subject: Home economics

Favorite pastime: Reading
 Favorite Radio Program: Lux Theatre

Ideal Boy: Don't care about his looks, but he must have a winning personality.

THE WIND

Miss Davis — "What would Shakespeare be doing if he were living today?"

Chester Lee: — "Drawing an old age pension."

Who brought Imogene's purse to her Monday morning? Could this person be driving a blue Plymouth?

Why does Betty Jo always sit at the back of the bus while on ball game trips?
 Could it be because of a dark headed senior?

Sometimes we wonder if there ain't a going to be some blond hair flying. It couldn't be over a certain JMC, could it?

Why did Imogene turn CLS down Saturday night? Maybe it was because of another boy. Don't tell anyone but his initials are RH.

What were Jophine and Inez whispering about last Monday? There happened to be a little accident the Saturday night before.

Why did FG and Pearl blush so in history last Tuesday? Does Mr. Wilson know a deep dark secret?

Utopia

It's a quite lovely place
 For you to spend a day.
 You will find no one studying
 But everyone at play.
 All the boys get together,
 And comment on the girls;
 While the females are out hiding;
 Wrestling with their curls.
 If you're the kind that likes a life of toll,
 Regard this place with fear,
 For you have nothing in common
 With those residing here.
 It's quite a lovely place

the project is February 6, 1941. The NYA project, sponsored by the United States Army Air Corps, is set up on a six-months' basis, and boys receive \$30.00 monthly from which approximately \$19.00 is deducted for meals, housing, laundry, medical attention, and miscellaneous items.

MUCH PUBLICITY GIVEN TO LOCAL FFA CHAPTER

The Clarendon FFA chapter, named one of the best four in America during 1940, has been receiving nation-wide publicity.

The latest publicity is a three page article including pictures appearing in the 1941 issue of the Agricultural Reader's Digest, a national farm magazine. West Texas Today, official West Texas Chamber of Commerce publication, in its January issue carried a full page article and picture of chapter members.

A half page article and a photo of the 1940 state champion carlot of barrows, owned by the local chapter, appeared in the February issue of the Progressive Farmer.

The Hampshire Herdsman, The Swine World, The Duroc Record News, The Farmer Stockman, and other farm magazines have printed stories of the local chapter's activities.

Over The Coffee
By BILL STEPHENS

Not to be outdone, or out-classed by competitors in neighboring towns, one Clarendon firm will have Dollar Day specials next Monday, the first Monday of the month when others advertise their Dollar Days.

The Clarendon Furniture Store has taken the lead in the promotion of bargain days by inserting a Dollar Day advertisement in this issue of the News, with the hopes that other local merchants will adopt the idea.

Marvin Warren, manager of the store, said the local firm would compete with its Amarillo Store and other furniture firms of that city by offering specials on Dollar Day designed to attract Donley County buyers—and keep them at home.

What's happened to that proposed NYA recreation building for Clarendon? It was discussed here some time ago, but since we have heard nothing about it. We are in need of such a building, and we should push our efforts toward securing it providing the cost is not too great.

The county commissioners last week heard a report on the N. Y. A. girls' home here and found out a number of things they didn't know — one for instance, that considerable government money is spent here maintaining the home while the county and city cost is but very little in comparison. Let's not let any one kid us that this home is not a good thing for Donley County. There are plenty of counties over the state that would jump at the chance to get such a home.

Speaking of government projects, have you been up to the football field and looked over the new rock wall which is being built by WPA workers? The Clarendon school and the community as a whole is going to be really proud of that wall for it's really a beauty.

One day recently a man walked into the local Draft Board office and handed the young lady a slip which read: "One pair of women's 'long-handle' underwear, size 42." There was plenty of local color as the young lady's face flushed red when she finished reading the note. However, she soon recovered and directed the man next door where he presumably made his purchase.

And here's one about the woman who telephoned an Atlanta, Georgia newspaper recently and asked, "How wide are your columns, please?" They gave her the answer, approximately two inches. "Thank you so much," the inquiring voice answered, "I have a recipe here which calls for a pan so many inches in diameter and there isn't a foot rule in my house. I have a copy of your paper and can figure it out from that — and bake a cake."

Apparently the dagger that Italy was holding has also stabbed Mussolini in the back.

In reference to the President's Birthday dances, here's a good headline that sums up the whole story, "Those Who Can, Will Dance; Those Who Can't, Benefit."

Pathfinder Club's Annual Tea In J. L. McMurtry Home Friday

An enjoyable affair for members of the Pathfinder Club and their guests was the Patriotic Tea given in the home of Mrs. J. L. McMurtry on Friday afternoon, Jan. 24. For the past 30 years, the event has been the outstanding social function of the year in Clarendon.

The receiving line included Mrs. J. L. McMurtry, hostess; Mrs. C. E. Bairfield, president; Mrs. C. B. Morris, president elect. Throughout the afternoon, Miss Charlotte Word gave a number of selections on the piano. Guest reader for the afternoon was Miss Mogie Routh of Amarillo, who was introduced by Mrs. Ed Dishman chairman of the social committee, and in a very gracious and pleasing manner gave two selections, "Scene In a Wood Camp," and "Bride's Conversation."

The refreshment table was a gorgeous affair decorated in keeping with the theme of Patriotism. The centerpiece was a large American flag made of seven dozen red, white and blue cut carnations. The background for the beautiful emblem of Democracy was the white linen cloth and tall white tapers, which, when lighted, gave a lovely soft glow to the surroundings.

OPEN LETTERS TO C. H. S. BANDMEMBERS

January 30, 1941
Clarendon, Texas

Dear Bandmembers:
 Just a line to remind you that the national contest is just around the corner and that this reporter has already heard some criticism on your prospective trip to Waco.

Speaking of this prospective trip may I ask you a question? Just how do you feel about the situation? Now from what I hear your chances of winning the region are just as good, if not better than they were last year. But remember the old saying, "Don't count your chickens before they hatch."

Now may I ask another question? Are you going to be caught "flatfooted" by the opposers of your trip as you were last year? Here's hoping you will work with the fact in mind that you will go to Waco if you win.

On To Waco!
Editor.

HOME MAKING REPORT

The second and third year Homemaking girls have been having round-table discussions about what the new colors, fashions and fabrics are to be like in 1941. Everything seems to be going the South American way. The inspirations for many of the new colors came from Latin America. Among the most interesting are:

Chile sauce, Lima lemon, Argentine navy, Peruvian pink, Bo gota blue, Brazilian beige, Trinidad tan, and other beige and coffee tones. Different shades of green, including almond green, seafoam green, bright green, and a soft aqua tone will be popular. The Rumba dresses are another idea from South America. They are made with a black lace or jersey top, with white lace ruffles from the hemline to the hips.

The rounded shoulder line, the long V neckline, the slim dinner skirt at front, and capes are going to be popular again. Some of the capes are long enough to cover the dress, others flare and

end at the elbow. The newest looking spring jackets have sleeves that are from wrist to fingertip length, and are easy at the waistline. Early Spring costumes have the bracelet length or below the elbow length sleeves predominating. Lingerie that is trimmed in lace and ruffles is very much the vogue, especially under nets and marquisettes. Unusual hats are smart and especially hats with gloves to match. There are many new ideas in evening headdresses, daytime accessories, and costume jewelry.

All in all, the outlook for styles in 1941 is very interesting. For what girl doesn't like to study how to improve her appearance. This is necessary as preparation for planning tailored garments for classwork, also the home project of improving the wardrobe by making new clothes and mending old ones, which many of the girls are taking.

Miscellaneous

PERSONALITY OF THE WEEK

This corner considers it an honor to introduce Miss Helena Poovey as the personality of the week in CHS. Miss Poovey is outstanding in many respects; however, the most outstanding act performed by Miss Poovey recently was an act based upon honesty.

She found and returned a sum of money lost by Imogene Spencer. Although the amount wasn't much, that means nothing. It is the fact that she returned the money.

MEET A SENIOR

Ray Bulls is the president of the Senior Class. He is an outstanding member of the class for many reasons. One of these was the grand football plays he was co-captain during the '40' season. Ray has always been one of the favorites of his class. He has a very pleasing personality and knows how to use it. He was secretary of the Junior class and vice president of the Sophomore class. He has always attended the Clarendon schools. He plans to go to college here and then go to the University of Texas. Ray has an unusual hobby, the study of people and watching different ones. He also likes to listen to the radio and music.

BAND PLAYS A NUMBER OF CONCERTS

The Clarendon High School Band will play a concert Thursday night at the College Auditorium. The program consisted of a wide variety of numbers ranging from a march by Sousa to a number of overtures. Two numbers were sight read by the band.

The band gave a concert Friday morning at the College Auditorium for the chapel program. February 2, the band is to play a concert at the Memphis High school chapel program.

The twenty fifth of February the band will go to Canyon to play a concert.

At the above concerts the band will play contest numbers. These numbers are the ones the band

will play in Amarillo at the contest in April.
 Monday night the band practiced at the band room. From time to time, until the contest, different sections of the band will have separate practices.

COLLEGE MEETS

Thursday, January 23, at the third period, the college classes met in the auditorium to discuss plans for a dance. It was decided to have a dance at the home of Ruth McDonald, Monday night. The boys were to pay twenty five cents each.

The appointed play committee announced that they were still trying to find a suitable play for the college to present.

After a few remarks by Mr. Drennan concerning the presentation of plays the meeting was adjourned.

TO THE SENIOR CLASS

Being member of the Senior class we hate to admit this, but it seems that the "40" class will keep the banner for being the most progressive class to graduate from CHS. Yes, we can use the excuse that we have been working hard on the annual and "Broncho Range." We are sure you don't want last years class to make good their boast about being the best class that ever had or ever will graduate from our school. So let's show more spirit and be able to say we beat their record.

MEET "MRS. MINIVER"

"Mrs. Miniver" is now on the shelf of the college library. It not only enlightens you about the European war; but it will teach you to recognize, and the value of home spun philosophy.

The Evening Standard said of Mrs. Miniver: "Many thousands of people have been captivated by the charming studies of Mrs. Miniver which have occurred regularly in the Court page of The Times. She and her, now famous, family have endeared themselves as few newspaper characters could ever hope to do, and she must have the satisfaction of knowing how eagerly she has been sought at breakfast time, to brighten the outlook for the day. It is a happy thought to assemble a collection of her articles in this attractive form."

Mrs. Miniver had three unpredictable children and altogether too predictable husband. The book is full of selections like the following that show the unexpected answers Mrs. Miniver received.

"No," said Susan, "they grow out of my fingertips, like a thread out of a spider. As a matter of fact my whole inside is made out of wool. One gets like that, you know, living in the Highlands the year round."

Mrs. Miniver is British, but has become an international character; she is one of the persons who has enlightened America about conditions in England.

AID TO CHINA NOW TOTALS \$1,000,000

WASHINGTON, D. C. — American Red Cross relief for Chinese victims of warfare now totals \$1,000,000, it was announced.

Supplies, including wheat and rice, drugs, surgical gauze and cotton and cloth for garments, of a valuation of \$290,000 have reached China and distribution has begun, according to cable advices from American Red Cross representatives.

Wheat, drugs, surgical materials and cloth purchased and which will be shipped as fast as transportation is available, total \$713,000.

An American Red Cross distribution system has been set up successfully in both Free and occupied China, and additional relief supplies will go forward upon advices from the American representatives on the scene, it was said. Relief being shipped is purchased from Red Cross war relief funds and from the Congressional appropriation of \$50,000,000 for victims of war in foreign countries.

Flying a quantity of vitamin B-1 tablets to China by clipper plane to combat prevalence of beri-beri, and purchase of 3,000 tons of wheat, 200 tons of denim cloth and several tons of vital drugs and surgical dressing material are the latest steps in the American Red Cross program for relief of Chinese victims of warfare, it was announced today.

Pan-American Airways has given free space in their planes to carry the much needed drugs.

The first shipment of 20,000 vitamin B-1 tablets left San Francisco on the clipper plane Dec. 20, and the same quantity was dispatched on the following flights Dec. 24 and 31. An additional 100,000 tablets will be shipped on the S. S. President Taft on December 20.

Cable advices received from Dr. J. E. Baker, director of American Red Cross China relief, stated a serious prevalence of beri-beri existed in the Hong Kong - Canton area. The tablets will be divided among the hospitals, being shipped up the Pearl river to Canton from Hong Kong Canton area. Symbols of American Defense

Tractors and tanks symbolize modern American defense. Farmers operating the machinery at top are carving out terraces which defend their soil from erosion. Soldiers operating the U. S. army tank in lower picture are practicing maneuvers which strengthen the nation's armed defense. American farmers, carrying on soil protection work under the AAA Farm Program, last year built more than 67,000 miles of terraces, enough to reach more than two and a half times around the world.

Applications For Feed Loans Are Being Received

Emergency crop feed loans for 1941 are now available to farmers in Donley County, and applications for these loans are now being received at Clarendon by Harold Himmel, Field Supervisor of the Emergency Crop and Feed Loan Section of the Farm Credit Administration.

These loans will be made, as in the past, only to farmers whose cash requirements are small and who cannot obtain a loan from any other source, including production credit associations, banks, or other private concerns or individuals.

As in former years, the money loaned will be limited to the applicant's necessary cash needs in preparing and cultivating his 1941 crops or in purchasing or producing feed for his livestock.

Borrowers who obtain loans for the production of cash crops are required to give as security a first lien on the crop financed or, in the case of loans for the purchase or production of feed for livestock, a first lien on the livestock to be fed.

Lubbock Resident Says Hoyt's Heart Burn, Gas Pains Compound Ended Constipation, and Sourness.

"But after a few doses of Hoyt's Compound, I could see a change. Now my bowels are more regular, and I eat without suffering. The pains are gone, I sleep well, have a good appetite, am gaining weight."

Hoyt's Compound is recommended and sold by the Douglas & Goldston Drug Store and is carried, for your convenience, by all druggists.

HARD BATTLE NOT SEEN ON TRUCK LOAD LIMIT

AUSTIN — The hard fight that has been waged at previous sessions of the legislature against raising the 7,000 pound truck load limit will not be made this time, according to reports around the Capitol.

One possible reason may be that the railroads are themselves operating many trucks now on the highways. Another reason may be that the rail lines can hardly argue that raising the load limit in this State (which has the lowest of the whole 48 States) will put them out of business when those same rail lines are still operating in other states which do have much higher load limits than Texas has.

Still another reason (say some observers) may be that, while Texas has been holding down the truck industry through the 7,000 pound load limit, the railroads have been charging Texas and the Southwest the highest freight rates in the nation, thus building up the rich industrial North and East at the expense of Texas — a situation that might be looked into very thoroughly at Austin if much fuss is stirred up against a reasonable increase in the truck load limit.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Don't—THAT'S THE MOST IMPORTANT THING YOU'LL HEAR TONIGHT

"When statements about Alka-Seltzer are made over the air, please, please believe them."

Mrs. Oma Catherine Jones

MILLIONS suffer less from Headache, Acid Indigestion, Distress of Colds "Morning After" and Muscular Fatigue because they have heard—and believed—Alka-Seltzer radio announcements. To these millions, the relief obtained by the use of Alka-Seltzer is worth far more than the genuine enjoyment they get from the broadcasts.

The most important parts of our radio program, both to you and to us, are the commercial announcements. Once you have tried Alka-Seltzer we believe you will agree with us. But try Alka-Seltzer because it is an unusually effective medicine not because you enjoy the radio programs.

WHY ALKA-SELTZER IS SO EFFECTIVE

The pain-relieving analgesic in Alka-Seltzer is in complete solution, ready to ease the distress as soon as you swallow it. The pain-relieving action is made more effective by alkaline buffers. The alkalinizing elements in Alka-Seltzer reduce excess stomach acidity.

Doctors Correct Statement Made On Hospital

The Clarendon News on Jan. 23 printed following in regards to statement supposedly having been made by Clarendon physicians during their meeting with Commissioners Court discussing the hospital situation: "On the other hand the local doctors maintain that to admit any other than M. D.'s would cause this hospital to lose its recognition by the American Medical Association, and eliminate the practice by resident M. D.'s and registered Nurses."

What we did say was: "If other than regular M. D.'s be permitted to enter and treat patients in our hospital, the hospital would immediately lose its affiliation with the American Hospital Association. The hospital would then become substandard and no beneficiary of any insurance agency would be permitted to remain in the hospital; nor could the hospital collect pay for even an emergency entry of such. This would preclude, therefore, any industrial, compensation, accident or hospital insurance, and our county now has quite a number so carrying, from allowing their beneficiaries to be cared for in the hospital; thus removing a substantial part of income to the hospital. Further that the physician neither had or have anything to do with making such rules." Naturally we believe your reporter did not draw a difference between the American Medical Association and the American Hospital Association; two separate and distinct organizations; neither of which has

well known writers Omar and Ryllis Goslin and sponsored by the Women's Division of the National Association of Manufacturers.

The Primer was prepared, not because the Goslins wanted to write a book, but because they were commissioned to do so. Everywhere throughout the length and breadth of this country, were requests for new study material that would help women to understand what American means to them and to the world, and this is the answer.

In 77 fascinating pages it tells the story of the American way of life in simple, everyday language.

Just why is this country different from any other country in the world? And why is our way of life worth preserving, even if it means sacrifice? What part do we, as women, play in the scheme of things, and what would happen to us and our children if it should ever come to pass that people in this country believed that individuals exist for the sake of the state instead of the state instead of individuals? These, and a thousand other vital, immediate questions are answered in "Primer for Americans," a book prepared by the

JAMES BARTLETT AMONG THOSE RECEIVING EXPERIENCE

AUSTIN — Accounting students graduating from the University of Texas will be able to say "yes," to that oft-occurring question "Have you had any experience?"

They are getting their experience while still in school by working for Texas accounting firms during the rush season.

The seventeen student accountants now at work in Texas cities include James F. Bartlett of Clarendon, Charlie Nichols Bailey of Clyde, Eugene Douglas McKinney of Waco, David Edmond Lewis, Doughty LeNeil Miller and Malcolm S. Vaughan all of Austin.

Enrolled in a brand new course at the University — the first of its kind in the United States — these students attended classes during the fall, were given a recess from January to March 18 to work as Junior accountants for firms needing temporary employees during the busy season.

The program is described as advantageous to both the accounting firm and the University by Dr. C. Aubrey Smith, professor of accounting. Firms, he said, acquire the services of "well-trained, enthusiastic, intelligent, though inexperienced, accountants," and the student has an opportunity to put into practice what he has learned in the classroom.

DALLAS HOSPITAL FOLKS LIKE OUR BABY BEEF

Here's what the folks down at the Baptist Hospital in Dallas think of Donley County's home killed, grain-fed baby beef.

On one of his trips to Dallas to see his wife who is confined at the hospital, Fred Russell took with him three nice, juicy beef-steaks which were Donley grain-fed baby beef cuts.

The steaks were only samples of the well-advertised baby beef, but Mr. Russell returned home with an order for seventy pounds which he took back with him last Thursday evening.

Hospital attendants said the steaks were the best they had ever eaten, and forced Mr. Russell to fill the order.

Mrs. Russell is considerably improved and has received a number of cards from her many friends here. She is now able to read and enjoy these cards and others who care to do so may write her.
