Fifth Annual Club Boys' Fall Pig Show Here Thursday, October 9th

Clarendon Club Boys Take Major Prizes On Tri-State Fair Entries

PRIZES ALSO WON BY AGRICULTURAL EXHIBIT BOOTH

CLUB BOYS GATHER SHOW TWO CHAMPIONS INDIVIDUAL AWARDS.

Clarendon club boys who exhibited pigs in the swine department of the Tri-State Fair this week did not take all the major honors, but their entries dominated practically every exhibit class when awards were announced.

Two champion pigs were shown, by C. G. Kirkland and Ralph Davis, in Hampshire and Chester White classes, while other Clarendon boys won single and group entries. The county car-lot group of pigs entered by local club boys also was a first place winner. Total winnings of the group will amount to about \$300, it is reported.

Local entries which took down prizes included the following: with ranks in the order named: Poland China, single barrow 175 to 225 pounds; Billy Jack Green, first; Carl Morris, second; Gene Harrison, third; Gene Bulman, fourth.

Single Barrow 225 pounds and over—Junior Kulman, fourth; Billy Jack Green, fifth.

Pen of three heavy barrows—Billy Jack Green, first; Carl Morris, third; Gene Harrison, sixth. Duroc Jersey single barrow 175 to 225 pounds—H. A. Harrison, first and third.

Single Barrow 225 pounds and over—J. F. White, second and fifth.

Pen of three heavy barrows—H. A. Harrison, third.

Hampshire, single light barrow—Calvin Naylor, first; Travis Alexander, second; Jack Semrad, fourth; Ralph Morrow, sixth.

Single heavy barrow—G. S. Kirkland, first; Joe Smith, third; Bill Alexander, fourth; Elvyn Clay, fifth; Jack Ballew, sixth.

Pen of three heavy barrows: Bill Alexander, first.

Champion Hampshire Barrow: C. G. Kirkland.

Spotted Poland China, light single barrow—Redell Henson, first and fourth.

Single heavy barrow—Redell Henson, second.

Chester White, single light barrow—Ralph Davis, first and second; Gene White, fourth.

Champion Chester White barrow—Ralph Davis.

Also ranked high by Tri-State Fair judges were exhibits of Donley agricultural products collected and prepared for display by County Agent H. M. Breedlove as the Donley County booth. Details of the prizes won by this exhibit were not available as the News went to press, but visitors to the exhibition hall report that the county exhibit is liberally decorated with red and blue prize ribbons.

Weather

Donley county farmers looked apprehensively at low clouds gathering overhead after noon today, and wondered if the wet weather which already has made late crops later was going to last for another week or so.

The chilly dampness blew in on the Panhandle area during last weekend, and stayed long enough to deposit 1.17 inches of rain on Clarendon, much more on neighboring areas. Temperatures dropped again, reaching a new season low of 40 degrees Sunday night, and hovering in the 70's for a maximum later in the week. Maximum and minimum readings for the week were as follows:

Thursday	76	47
Friday	83	59
Saturday	91	49
Sunday	53	40
Monday	64	50
Tuesday	74	58
Wednesday	74	60

Panhandle old settlers met again in their annual Tri-State Fair session in Amarillo Wednesday, and a talk by Judge J. R. Porter of Clarendon was one of the highlights of a program on old-time education.

Judge Porter addressed the group on early day education in Donley County and the beginnings of Clarendon College, giving an interesting and comprehensive history of pioneer education methods and educators in Donley County. The group elected Sam Isaac of Canadian as its president for the coming year.

THREE BALES OF 1941 CROP HANDLED TO DATE BY LOCAL COTTON GINS

Three bales of the 1941 Donley cotton crop have been processed by Clarendon gins to date, local ginners said Thursday. 1st bale handled locally was ginned last Thursday by Clarendon Gin for C. V. Murff, of Brice. Later in the week, Fitzgerald Gin handled two bales, one weighing 435 pounds for R. L. Farris of Hedley, the other weighing 520 pounds, for M. L. Pittman of Brice.

Mrs. Regan Bryan and daughter, Donna Ree, spent the weekend in Wellington with Mrs. Bryan's parents, Mr. and Mrs. O. C. Bell.

PARITY PAYMENTS IN DONLEY TO DATE TOTAL \$39,650.58

Parity payment checks totalling \$39,650.58 have been received for distribution this season at the Donley County AAA office, according to Walter J. Flynt, local AAA secretary.

Representing 592 separate payments, this total has practically all gone into circulation already. Mr. Flynt said, as the majority of county farmers were waiting for their parity payments long before they arrived for distribution. A few applications for parity payments are still in Washington, and checks will be received for these within the next few days, it is expected.

Vernon Tucker attended the Tri-State Fair in Amarillo Monday.

McLEAN PASTOR TO FILL BAPTIST PULPIT SUNDAY

Rev. C. O. Huber, pastor of the Baptist Church at McLean, will fill the pulpit at both the morning and evening services at the Baptist Church in Clarendon Sunday, the pulpit committee of the church announced late this week.

Local Baptists are urged to attend both services and hear Rev. Huber, the third guest pastor of the church in as many weeks.

CHANGES IN AAA PROGRAM FOR '42 ANNOUNCED

Two changes in the AAA program for 1942 which are of some importance to farmers in the Donley County area were announced this week by Walter J. Flynt, local AAA secretary.

For the first time, crop allotments and yields for the 1942 crop will be made out and turned into AAA headquarters before November 1 of this year. Ordinarily, the practice is for allotments and yields to be made up after the crop for the current year is made, but this practice has been dropped so that AAA workers may begin on November 1 with work on a program connected with national defenses.

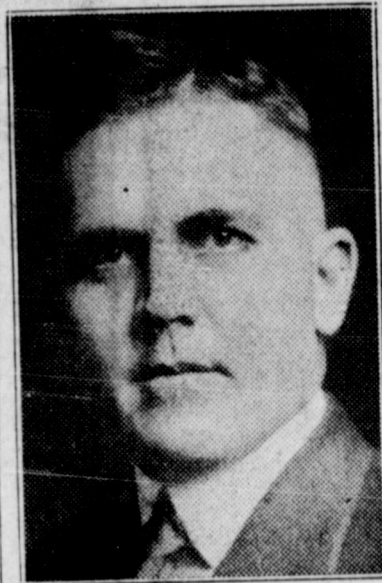

In connection with the new order for making up allotments and yields, AAA workers have been instructed to prepare 1942 yields on the basis of average crop yields from 1936 through 1940, without taking into account this year's crop. Mr. Flynt said, since the yields must be made before this year's crop is in, it will be necessary to drop back one year in averaging yields instead of figuring them on the basis of yields between 1937 and 1941.

On the good news side of the AAA farm picture, Mr. Flynt said this week that groundwork is being laid in Donley County and elsewhere for a new program of cotton crop insurance, which may be in effect for next year's crop. Crop insurance has been tried with good success on other crops, and AAA plans now seem to be to offer this protection to cotton farmers also.

H. J. EDINGTON BACK HOME

Clarendon seems more like its old self this week, with H. J. Edington on our streets again. Mr. Edington returned last week from an extended visit in California and Colorado, with friends and relatives. He has many interesting stories to relate of his experiences and observations while away.

To Amarillo

Last week Rev. J. Perry King moved with Mrs. King to Amarillo where they will reside for the present. The Kings leave hundreds of friends as they leave Clarendon, where he has been the popular pastor of the First Baptist Church for so many years. Clarendon people wish them all success and happiness in their move and will be interested in keeping up with them. Rev. King has not announced his future plans, as yet.

BRONCHOS READY TO TAKE WHEELER HERE FRIDAY

Their record in district standings marred by last week's defeat by LeFors, the Clarendon Broncos were impatient this week to get a chance at their next conference opponent, the Wheeler Mustangs, whom the Broncos will meet here Friday night.

Both teams will go on Broncho Field hoping to get a new start on their season's record. Wheeler having been romped on, 18 to 0 by Wellington last week. Another similarity in the two teams is found in the fact that Wheeler's squad his year was depleted by graduation, leaving a large array of inexperienced talent for a coach to work with. The Broncos have had the same weakness this year, and tomorrow night's game should find two fairly well matched elevens fighting for top position. Last year Clarendon waded through the Mustangs, 34 to 0, and a victory of that caliber tomorrow night would go a long way toward building up team and fan morale to a high point.

Coaches Warden and Penick have spent this week of practice in efforts to overcome some serious weaknesses in the Bronco setup the LeFors game demonstrated.

Two injuries of first string men may weaken the Broncos stating lineup somewhat, if they are unable, as seemed likely Thursday, to play by Friday night. The injured men are Dennis Rattan and C. G. Kirkland, both of whom are nursing leg injuries.

Coach Warden said Thursday that neither would be able to make the starting lineup. Rattan is a back, while Kirkland has filled an important slot at tackle.

The game will start at the usual time, but fans will find a new admission scale of prices in effect, due to the national defense program. Adult admissions will be fifty cents, plus five cents tax, while school admissions will be twenty-five cents, plus three cents tax.

J. H. HEADRICK SUCCEEDS A. G. LANE AS CITY'S NIGHTWATCHMAN

On the job this week as city nightwatchman was J. H. Headrick, former merchant here, whom city officials hired last week to fill the position vacated by the resignation of A. G. Lane. Mr. Headrick began his duties Tuesday night. Mr. Lane's retirement from a position he had held for seven years becoming effective October 1.

Mrs. R. R. Dawkins has returned home from Dequeen, Arkansas, where she was called at the illness and recent death of her mother.

FREE CLASSES IN KNITTING OFFERED BY RED CROSS

Instructions in knitting for the American Red Cross will be given every Monday and Friday from 2:00 until 5:00 at the Clarendon Hotel starting October 6, it was announced this week by Miss Charlotte Molesworth.

All women in the communities and Clarendon are urged to participate in the work as the knitting is scheduled to be completed by January 1st. All completed articles will be sent to the National Headquarters of the American Red Cross for distribution.

Coffee and doughnuts which will be donated by the committee will be served at each meeting and instructors will be on hand to assist with the classes.

WORK STARTING ON OVERPASS CONSTRUCTION

With the construction of the foreman's office shack on the right-of-way for the overpass on highway 18, over the Denver tracks in west Clarendon, the placing of barriers on the county road on the north side of the Denver, and the unloading of materials for the big job begun, Clarendon folks are realizing that the Highway Department meant business when they moved engineer J. E. West here a few days ago, for the supervising of the project.

Bell & Braden, contractors, will be placing machinery on the job in a few days, and the long awaited overpass project will be under aggressive construction, and will be connected with Highway 287 in Clarendon, and the paving north on 18 at the Sawyer place.

M. F. MANCHESTER IS NEW CHURCH OF CHRIST PASTOR

Elder M. F. Manchester, new pastor of the Church of Christ in Clarendon, filled the pulpit for services at the church last Sunday.

Elder Manchester comes to Clarendon from Woodward, Oklahoma, succeeding evangelist J. E. Moyer, who terminated a brief connection with the local church two weeks ago to move to Lubbock, where he is doing mission work. Mr. and Mrs. Manchester and their two children are at home at the Land apartment.

CANADA'S PART IN WAR DISCUSSED BY REV. C. E. HARVEY

Meeting for the first time in Caraway's refurnished Cafe the Clarendon Lions Club at Tuesday noon enjoyed an enlightening program furnished by Rev. Cecil E. Harvey, pastor of the First Christian Church of this city.

Rev. Harvey, a former member of the Claude Lions Club, and himself a Canadian, spoke from a close study of the Dominion's

Deposits in local banks were off somewhat last month, it was revealed this week when called statements of condition on September 24 were released by the three local institutions.

Total deposits for the three banks at the time of the last called statement, on June 30, were \$1,173,72. On September 24, deposits totalled \$1,137,552.14, the new statements of condition showed. The drop in deposits is a seasonal one, and steady rises from the present level are expected as the fall season moves along.

Mrs. Sim Rhodes of the J. A. Ranch is spending the week here with her mother, Mrs. Ralph Grady.

G. D. Shelley was in Lubbock over the weekend on business.

DAVE JOHNSON RETIRES

After more than thirty years connections with the hardware business in Clarendon Dave Johnson left the employ of the Thompson Hardware store on October 1st, by an agreement made months ago. Mr. Johnson plans to be a candidate for a county office in the 1942 primaries, and will make his announcement a little later.

PERTINENT PARAGRAPHS FOR "NEWSPAPER WEEK"

Throughout the United States, the week of October 1-8, is being celebrated as "Newspaper Week." That our readers may think along with America about its newspapers we are reproducing the following quotes from well-known authorities:

In times of national emergency it seems to become a patriotic necessity to reiterate truths so axiomatic to be trite. The freedom of the press and that freedom's incomputable preciousness to us is one of these self-evident truths; the fact that Americans are now asked to consider it is alarming. Such alarm, however, is all to the good if it reminds us that hardly won pearls of great price must incessantly be guarded or fought for.—Booth Tarkington, noted author.

All American citizens who have not lost their minds in the present fear can compare the American press with the servile and reptile press of Europe and give thanks for the services which their newspapers render. But celebration is not enough, Rights are not preserved by celebrations. Liberties are not kept by shouting. Any person, institution, or society that does not constantly seek improvement is on the way to decline and decay.—Charles A. Beard, noted historian.

A free press is vitally essential to the preservation of our American system of government and our way of life. Without it we could not have an informed public opinion in which minority voices are given a fair hearing. Without it our democratic institutions would perish.—Winthrop W. Aldrich, Chase National Bank, New York.

In a world of tyranny, free speech and a free press stand as a first line of defense for our way of life.—W. K. Kellogg, Kellogg Company.

A free press, in these modern times, includes not only newspapers and periodicals but radio and motion pictures. Together we have common problems and obligations. So long as America has these unfettered mediums of expression dedicated to the public service, so long will democracy be secure.—Will H. Hays, Motion Picture Producers and Distributors of America.

If you would know the value of newspapers, you need only ask yourself what would happen if we should suddenly be without them.—Cal Keller.

Freedom of the press has long been taken for granted in America. Events taking place in other parts of the world warn us to be on guard. In almost all continental Europe, freedom is dead. Our freedom is of vital concern to every citizen of the United States and Canada. But

"THE GIANT OF THE AGES"

A tribute to the newspaper profession, written back in the eighties by Arthur Elliott Sproul, still stands as one of the classics in journalism:

I came, instant upon man's midnight burst midday.
The whole round world I survey with my tireless orbs. No act escapes.
Lightnings I harness to my ponderous car, and the earth quakes beneath the onset of its wheels.
In wrath I strip the glittering rags from hypocrites high placed, who naked cower in the all-searching light:
Yet I have tender moods, when my great heart throbs fast with sympathy for the oppressed of earth.
Sweet it is, too, to me, to breathe a benediction on the head of him who—thinking of God the while, not self—pours out his bounty to uplift his race.
Power immense is mine. The puny strivings of a king I make my jest. My word is law.
Feared am I, hated oft, loved seldom—yet I would not evil do, but good.
Imperfect yet, alas! despite my strength and lofty aims, because I human am and never else can be. Yet I may come near to Christ by patience and endeavor, like the humblest.
I am what I am made—not what I would be and may yet become.
I am The Press.

JUST HUMANS

By GENE CARR

The Spider and the Fly

This is not particularly a newspaper problem. Ours are democratic nations. We need only to stop and to think what it would be like to have the press of our country shackled! Some dictator would censor every move. Our democratic way of life would be ended!

Fortunately our free press reflects democracy!

Our nearly 12,000 uncensored newspapers in the United States and Canada give us the news and not propaganda. We have 12,000 watchful editors and publishers with active staffs free to think and to write our news without censorship.—Kiwani International.

In Germany, Hitler tells the press what to print—and what not to print. Germany is "Hitlerized."

In Russia, Stalin tells the press what to print—and what not to print. Russia is "Stalinized."

In Italy, Mussolini tells the press what to print—and what not to print. Italy is "Mussolinized."

In Japan, France and all conquered countries, the press is under the heel of the dictators

In the United States, no one tells the press what to print and what not to print. Free people—free thought—free assembly and free press.

The newspapers of the United States—daily newspapers—weekly newspapers—tri-weekly newspapers—semi-weekly newspapers—bi-weekly newspapers—reflecting a free people are free to condemn all and sundry without fear of any OGPU or Gestapo—just as all Americans are privileged not only to think but to express their personal opinions—good or bad—without approval of any man, woman, political party, or anything else.

PAY SAFE! CHECK YOUR GOSSIP!

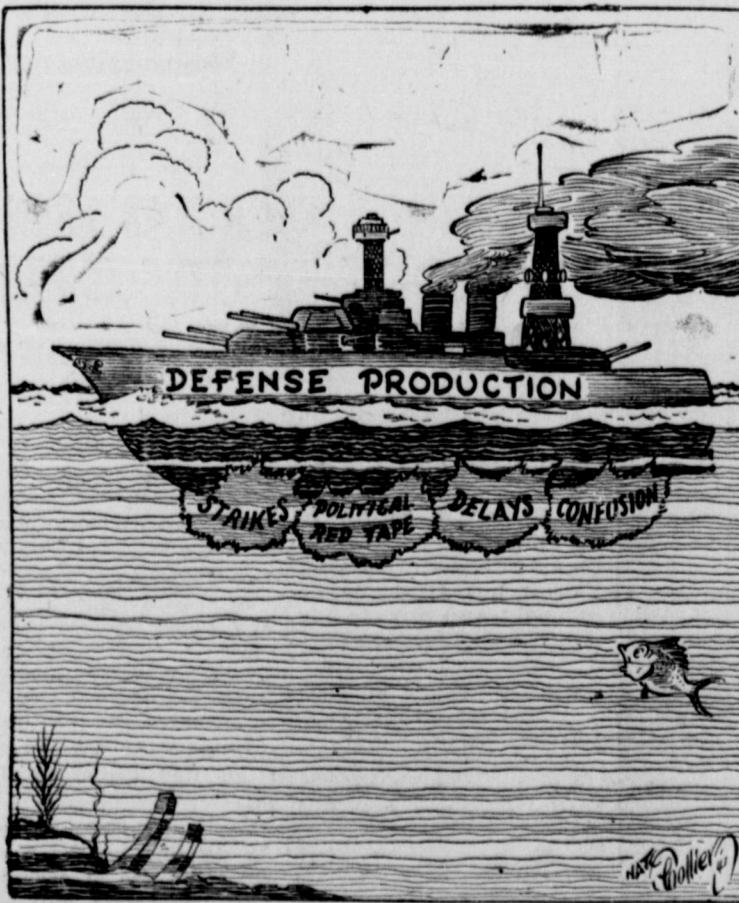

Strange it is how prone some of us are to give credence to rumors, especially so when many of them reflect in greater or less degree on friends and acquaintances.

Not too long ago we heard a rumor that reflected on the common honesty and integrity of a person who has served the community unselfishly and without reward for quite a term of years. The details were made up out of the imagination from circumstances easily checked by anyone interested, and the facts were altogether in favor of the man in question.

Parlor, barber shop, beauty shop, or street corner gossip—all carry a tremendous list in the direction of exaggeration, and distortion of the truth. It is the civilized, the decent thing to check the gossip we hear before we give it any standing—and certainly before we add to its circulation.

All the gossiping is not done by the women, but man or woman, it will pay to play safe. Check your gossip!

SCRAPE OFF THOSE BARNACLES!

Economic Highlights

Happenings That Affected the Dinner Pails, Dividend Checks and Tax Bills of Every Individual. National and International Problems Inseparable From Local Welfare.

Big news for a long time has been the vast amount of new employment created by the multi-billion dollar national defense and aid-to-the-Alies programs. Now considerable publicity and thought is being given to the unemployment which these same programs are creating.

As everyone knows, we have finally reached the point where defense needs are severely displacing our peace-time economy. The period of "business as usual" is definitely over. The dislocations will grow greater as time moves on and more and more of our resources are turned into the instruments of war. Way the wind blows is indicated by the fact that automobile production for December will be cut 48 per cent below that of the same month last year. And most economists believe that it will be necessary to make substantially greater cuts in the future.

The result is that tens of thousands of men are being discharged by factories which have a low priority rating and cannot obtain supplies, for the reason that they are not engaged in defense work. Some of these men, of course, find jobs elsewhere. But a very high proportion of them cannot. And, as a consequence, this "war unemployment" is becoming a serious problem.

The bulk of the businesses affected in this instance are relatively small. Big businesses, for the most part, are able to more readily turn to defense work, and naturally are in a better position to obtain favorable attention from the powers-that-be in Washington. So a definite movement has started on the part of little business to put up a fight for its survival—and the survival of the jobs of its employees. A short time ago, a Conference on Unemployment Due to

Priorities was held in Chicago. Delegates came from eleven Midwestern states, and included mayors, manufacturers, members of Congress, labor leaders, etc. Action taken consisted of requesting that a larger proportion of defense work be allotted to small business, and that a new system of priority allotment be established with a view to maintaining employment in "peace" industries until they could change over to a war basis.

So far, government defense heads seem to have done little to solve the problems of small business and its workers. According to Newsweek, top defense executives Donald Nelson, Leon Henderson, and Floyd Odium rejected bids to the Chicago meeting. It is apparently the Washington

view that maximum results in minimum time can be obtained by allocating defense production primarily to large industry, which is geared to top production, and which has the machines the plants, the skilled workmen, and the engineering talent necessary.

There is, obviously, a great deal of logic in this point of view. At the same time it is also obvious that our American economy cannot be perpetuated if this vast defense effort results in the death of "little business". And in some informed quarters, there is a strong belief that the priorities system can undergo considerable overhauling without slowing or endangering the arms drive. It is clear that there has been excessive over-buying in some quarters—and over-buying is only one step short of hoarding. Some companies, according to authoritative surveys, have been allowed to make purchases of strategic materials in quantities which they cannot use up for years. In the meantime, other

businesses must go without. In short, there has been a lack of equitability in the distribution of supplies.

The tremendous haste that has characterized the development of the defense program is of course partly responsible for this. There has been waste and there has been much confusion. Also, many think, there cannot be maximum efficiency until there is a consolidation of the multitudinous defense boards, and until real power is placed in the hands of one man. In the meantime, there is a fast growing demand that something be done to keep war priorities from completely disrupting the American industrial system. The head of a musical instrument company recently declared that his industry "could run on the scrap the armament

Industries in this state throw away, but I can't even get that." Many an observer believes it is time stern corrective measures were applied.

The growing number of imprisonments and executions in France is grim evidence of the size and scope of the underground anti-Nazi movement in occupied Europe.

The Allies believe this movement will continue to expand, and they frankly place great hopes on it as one of the weapons which may help defeat Hitler. Sabotage in factories slows production. Assassination of Germans makes it necessary for Hitler to use more and more troops for police duty. Britain is doing everything in her power to make this "third front" a major factor in the war.

Birth Certificate Is Important Document—How To Get Yours

Everyday people in the U. S. are wishing they had their birth certificates. Do you have a copy of your birth certificate? If so, do you know where it is; could you find it quickly? If not, do you know what to do about getting a copy of it? Please note the following carefully.

If you were born in Texas, and are living in the city or county of your birth inquire first at the city hall or county courthouse for a verification of your birth date. If you are living elsewhere in Texas, write to the Bureau of Vital Statistics in Austin and ask for a verification of your birth date, which will be given you free for school or employment purposes.

A certified copy of your birth date is the best record to have for all purposes. Such a copy costs 50 cents in Texas.

If you were born outside the state of Texas, write to the State Registrar of Vital Statistics in the capital of the state in which you were born and inquire the cost of securing a copy of your birth certificate. It is necessary to give your full name, month, day, and year of birth, father's name, mother's maiden name, street address, city and county of birth, and your present address.

If your birth date is not on record and you wish it recorded, instructions will be sent you from the Bureau of Vital Statistics of the state in which you were born.

The following uses show the value of a birth certificate and some of the occasions when you might have to produce your birth certificate.

1. As evidence of your age.
2. As proof you were born in this country.
3. In order to get a job.
4. In order to get Social Security benefits.
5. As evidence to establish the right of admission to the professions and to many public offices.
6. In order to qualify for a Civil Service position. Proof of date of birth must be furnished if you are appointed to a government position.
7. In order to obtain a passport.
8. As evidence to prove the claims of widows and orphans under the widows' and orphans' pension law.
9. As evidence of legal age to marry.
10. To qualify for military service.

One thing this country could use more of, is scrapple. Here and there are folks who will not savvy about scrapple, so I will show off and tell them.

I am thinking about scrapple on account of the mornings getting cooler. On cool mornings you can eat more. When everybody learns about scrapple for breakfast you will hear more alarm clocks going off earlier. And if you get up early, you gotta go to bed the night before, before 3 A. M. And if the nation gets to going to bed before 3 A. M., it will have a steadier head next day and we can maybe get our country half-way back to normal versus the new school, leot-owl, planned system we been putting up with. So it is easy to see what more scrapple could do for the nation.

Philadelphia scrapple or "pancakes", which some people call it, and the kind my Susie makes, is

boiled yellow cornmeal, salt and liver sausage. Fried next morning, in slices for breakfast, brother, I warn you now you will want to rush right out and buy the Mrs. a new hat or something—which is not a bad hint either, for the Mrs. to work on.

Yours with the low down,

"Keys Of The Kingdom" Reviewed At Pathfinder Guest Day Program

Opening the new club year, the Pathfinder Club was host to approximately one hundred members and guests at the Club Rooms Friday afternoon at their annual guest day program.

Mrs. C. B. Morris, the Pathfinder incoming president, introduced the guest reviewer, Mrs. Joe Coffee of Amarillo, who, after giving a short sketch of the author, very ably and entertainingly reviewed A. J. Cronin's "Keys of The Kingdom," one of the best selling novels of the year. Mrs. Coffee, in her discussion brought out the fact that the theme of the book is tolerance, particularly in religion. The story deals with a Catholic priest, who because of his tolerance, was none too successful in his own church, but because of this one characteristic, left an impression for good upon all with whom he came in contact.

Another highlight of the guest day program was Carl Hahn's "The Green Cathedral" sung by Mrs. Cecil E. Harvey who was accompanied at the piano by Mrs. H. R. Beck.

In keeping with the program theme, a large key made of marigolds formed a beautiful centerpiece for the table, and plate favor were miniature golden keys.

Other decorations were attractive bouquets of dahlias and other fall garden flowers.

In the receiving line were the hostesses, Mrs. U. J. Boston, L. E. Thompson, Mrs. C. E. Baird, Mrs. Fred Buntin, Mrs. J. L. McMurtry, Mrs. Simmons Powell, Mrs. J. T. Patman, and Miss Mabel Mongole.

BIBERSTEIN -- SMITH

Mr. and Mrs. Rayburn Smith of this city are announcing the marriage of their daughter, Jo Ann, to George Russell Biberstein of Plainview at Amarillo Monday, September 29th.

Mrs. Biberstein, a graduate of Clarendon High School, was employed as clerk in the local Draft Board at the time of her marriage.

Mr. Biberstein, son of Mr. and Mrs. George Biberstein of Attica, Kansas, is an employee of the Texas Company seismograph crew and has been stationed in this city until the company recently was transferred to Plainview where the couple will make their home at the present time.

Estelle Thornberry and Ethelyn Drennan of Canyon spent the weekend here with their parents.

Garden Glances

Presented weekly by the Garden Club

"America the beautiful lies in the hands of the gardeners!"

"Trees are always dressing up. They are loveliest in the Fall. Wearing red and yellow leaves like a lady's Spanish shawl."

The garden is a shaggy tangle now.

Not many blossoms, but berries everywhere—like gypsies tribes that come when tamer things are gone.

Some are deep maroon, some are light dull coral. A touch of frost will make them shine like flame.

Against their round, pale leaves, snow berries gleam in globes of waxy light.

For lovely effects in the garden no plant can excel the beauty berry with its violet colored fruit.

There are many berry bearers which are easily transplanted.

Study the plant habits, and supply them as nearly as possible, remembering that in the bright fruits you have something beautiful and something to attract the birds—two in one.

MISSIONARY NOTES

Zebulon Pike On The Texas Mustang

When you try to describe old-time Texas in terms of its distinctive animal life you can't be very well satisfied with the buffalo, the deer, or the wild hog. It's the famous wild mustang you think of without hesitation. That is because the wily little horse has so unique a significance in the early history of the state. For, long before it became world-renowned as an oil land—even before it was known as a cotton land or a cattle land—Texas was famed for its mustangs.

It is a historical fact that the first Anglo-American incursions into Texas, those of Philip Nolan around 1800, were incited by the lure of its horseflesh; and it is obvious, moreover, that the mustang more than anything else in the territory fascinated young Zebulon M. Pike, discoverer of Pike's Peak, who crossed Texas in 1807 and in 1811 gave the United States its earliest firsthand knowledge of the Southwest in a volume entitled "Exploratory Travels Through the Western Territories of North America."

The mustangs seem to have fascinated Pike as completely as they did because they were such perverse creatures. It was very well, he intimated, that they were so numerous 'as to afford supplies for all the savages who border on the province, the Spaniards, and vast droves for the other provinces of the United States, which find their way out, notwithstanding the trade being contraband." But they were such a nuisance.

Mustangs As Horse-Thieves
"They go in such large gangs," Pike wrote, "that it is requisite to keep an advanced guard of horsemen, in order to frighten them away." If you didn't take that precaution, he warned, before you could do anything to stop them they would have swept right by you and stolen your own horses and mules from under your nose. "A gentleman told me," he added as evidence, "he saw 700 beasts carried off at one time, not one of which was ever recovered."

It wasn't enough just to be careful out on the prairies, either, according to Pike. The mustangs' ruses came up to the very outskirts of "St. Antonio" to steal away the citizens' mounts.

The Spaniards, however, got their revenge by making a profitable business of mustang-breaking. Pike detailed their method as follows: "They built a large inclosure, with a door which enters into a smaller inclosure; from the entrance of the large pen they project wings out into the prairie to a great distance." Then they rounded up a mustang herd and drove it into the large pen.

Technique Of The Breaking-In
However, the process wasn't at all simple, for if they happened to start too many mustangs toward the pen it was too bad. Either the horses would destroy the pen utterly and get away, or they would madly trample part of the herd underfoot until dead horses were stacked up so high they formed a stile up to the fence, over which the remaining ones could easily step.

If the horsemen could get about 200 mustangs in their large pen, all was well. "They select the handsomest and youngest, noose them, and take them into the small inclosure, then turn out the others. After which, by starving, preventing them from taking any repose, and continually keeping them in motion, they subdue them by degrees, and finally break them to submit to the saddle and bridle," Pike explained.

"For this business," he concluded, "I presume there is no nation in the world superior to the Spaniards of Texas."

100 Years Ago In Texas
"The storm of politics has passed over (the election which gave Sam Houston his second presidential term) and we seem to enjoy a serene sky and a purer atmosphere. The mutterings of the angry tempest are yet heard in the distance; but they fall almost unheeded upon the fatigued ear. Political temp-

DO YOU KNOW TEXAS?

By Garland Adair

A reader of this newspaper can get the answer to any question of the fact about Texas by writing A. Garland Adair, Curator of Patriotic Exhibits, Texas Memorial Museum, Austin, Texas.

OPINION: "I sincerely believe that every school child in Texas should be given an opportunity to see "Calvacade of Texas". It has entertainment value, but it is primarily educational. The commentary recites the history and tradition of our State, and emphasizes the opportunities offered by the Texas of today. I know of no other medium through which the student could get the composite picture of Texas which is presented in this film." Q. When and where was Coke Stevenson born?

A. Coke Stevenson was born on March 20, 1888, in a log hut in the edge of Mason County, and moved to Kimble County with his parents when he was three weeks old.

Q. When was Coke Stevenson married?
A. He was married to Miss Fay Wright on December 24, 1912, at Junction, Texas.

Q. What size family does he have?
A. One son, Coke Jr. born December 27, 1913, in Junction, Texas.

Q. What does his son do?
A. He is county attorney of Kimble County, serving his second elective term.

Q. Give the education background of Coke Stevenson.
A. During a seven year period he attended a rural school for a total of 22 months.

Q. How many crippled children have been treated since the beginning of the State's program of physical restoration?
A. Approximately 5,000 children have received treatment with the State's assistance.

ests can injure those only who have forsaken the "Terra Firma" of principle and launched rashly upon the ra of speculation. To many, the storm that has just passed by, has been the source of chagrin and mortification. To them no rainbow peers forth, the bright harbinger of hope and happiness; but the dark and angry clouds that still linger in the distant horizon frown portentous with evil. We view them with careless indifference..."

The Civilian.—The editor of the Civilian in answer to a question we propounded to him in a late number, says we lie. Now to say nothing about his courtesy in this instance, we must give him credit for a method of reasoning heretofore unknown. For we believe even the most eminent logicians have never ventured to promulgate as a lie, Mr. Stuart will find it very difficult to sustain a character for veracity; for, according to his method of reasoning, it would be easy to prove that he had often been guilty of falsehood...—The Telegraph and Texas Register (Houston), September 8, 1841.

I GIVE YOU TEXAS by BOYCE HOUSE

Someone has said, nothing is easier than fault-finding; no talent; no self-denial, no brains, no characters are required to set up in the grumbling business. And the Lometa Reporter declares that taxes are what other people should pay to support our government.

Skating on ice, something unknown to Texans, can be indulged in by anybody who wishes to learn and enjoy the sport. The huge ice rink now nearing completion in the Will Rogers Memorial Coliseum in Fort Worth will be open to the public for skating each morning and afternoon and also at night except when an ice hockey game is to be played by the Fort Worth Rangers—but they play only 25 games at home during the four-month season. Experts will be on hand to give free instruction to beginners.

The R. O. T. C. camp at Edgewood Arsenal, Maryland (the summer camp for chemical warfare from over 50 colleges), according to Robert L. Fischel, student of the University of Tennessee used to be a place where, at meal-time, you heard, "Please pass the sugar" and "The bread, please" and "Thank you."

Then came those Texas Aggies. It's legend now that the first one to enter the mess hall calmly spat tobacco juice through the rafters and scored a perfect bull's-eye. They came, like the black plague in winter to darken our fair mess hall, to create confusion everlasting. "Shoot the bullneck", boomed one Texan. The meat was passed. Another Aggie yearned for some sugar. We could see it in his eye. "Sawdust!" That was his only command.

"Sand and", hissed another. One trembling camp-mate finally shook enough pepper and salt in the plate to appease his master.

"Deal one" snarled a bread-eater, having devoured a mere snack of eight pieces. The bread sailed gently through the air and was snatched in flight by an expert meat-hook. "The blood!" (pause) "The b-l-o-o-d!!!" Only white corpuscles circulated in our veins at that moment. However, the vibrating catsup bottle gave one man the clue which saved our skins.

It was once an orderly place. That was before the advent of the Texas Aggies. They sure played h— with our mess hall.

For "ways that are dark and tricks that are vain", Bret Harte would have to admit that the "heathen Chinese" he told about in his famous poem was a piker in comparison to the loan sharks with their many devious methods

HOW TO FIND LIBRARY BOOKS

The books in the school library are arranged on the shelves in numerical order to the Dewey Decimal Classification system, which separates all books into ten classes with numbers as follows: 000-099 General Work: such as encyclopedias, periodicals, newspapers, etc. 100-199 Philosophy: psychology, ethics, etc. 200-299 Religion. 300-399 Social Sciences: government, economics, law, education, etc. Examples: 353 is the number for United States Government. 370 is the number for education. 400-499 Language: readers, grammars, dictionaries etc. in all languages. 500-599 Science: mathematics, chemistry, biology, zoology. Example: 540 is the number for chemistry. 600-699 Useful Arts: medicine, agriculture, domestic economy, etc. Example: 630 is the number for agriculture. 641.5 is the number for cook books. 700-799 Fine Arts: art, music, amusements. Example: 780 is the number for music. 800-899 Literature: poems, dramas, and essays in all languages. Example: 811 American Poetry. 821 English Drama, 822 English Poetry. Novels: are grouped on the shelves separately and arranged alphabetically by authors' surnames. Examples: Dickens, Scott, Thackeray. 900-999 History: travel, collective biography, histories of all countries. Example: 973 is the number for a history of the United States. Biography: (Individual, that is where a book gives the life of only one person). Lives of individuals are arranged alphabetically by the name of the person written about. Thus, biographies of Lincoln are arranged on the shelves after those of Grant and before lives of Washington.

HOME ECONOMICS

The Executive Council of the Future Homemakers of Texas Area 1 met in Amarillo September 20, 1941. The purpose of the meeting was to make preparations for the area meeting to be held in Amarillo November 8. The Executive Council is made up of girls who are the officers of the Future Homemakers of Texas and were elected from the seventy-five schools represented in the area. The council set up certain qualifications that a girl must have to become an area officer. 1. Have a standard grade equivalent to eighty or above (with nothing less than eighty in English). 2. Know parliamentary procedure. 3. Have at least one year of Home Economics at the time she serves as an area officer. 4. Be able to speak distinctly and with ease in front of a group. 5. Be a good leader as well as a good follower. 6. Have a pleasing personality. 7. Be depended upon to fulfill her obligations. 8. Have held an office in a local chapter of the Future Homemakers of Texas. The officers for this year are: President from Groom. Vice-President from Canyon. Corresponding secretary from Groom. Recording secretary from Claude. Treasurer from Junior High School Amarillo. Reporter from Clarendon. Sponsor from Groom. Advisor from Canyon.

INITIATION OF FRESHMEN WILL BE HELD FRIDAY, OCTOBER 3

The freshmen in college are preparing to get their seige of being initiated, Friday, October 3, when their superiors, the sophomores, will give "em de works." The reporter being a freshman, was unable to get many details about their plans. In a meeting last week, the following committees were appointed: Initiation, boys: Pete Morrow, Weldon Warren, J. C. Hickerson, Fred Cooke. Girls: Betty Jo Caraway, Mildred Phelps, Mary K. Todd. Entertainment: Lou Alice Adams, Hulda Garrison, John Jay. Friday, October 3, is the day.

PEP RALLY

A most unusual and interesting pep rally was in "full swing" around seven o'clock at the head of main street last Thursday evening. Everybody was there, yelling and raving and cheering for the Broncho eleven. Keen competition was furnished by the medicine show, oh well, the group could make more noise than they could. The student body made a colorful parade as they snake marched and ran down the street to the accompaniment of part of the C. H. S. Band for you see they were dressed as hill-billies. Short dresses, straw hats, short trousers, overalls, braided hair, bonnets, corn-cob pipes, and various types of shoes made it look like pep rally would be in Dogpatch!

STUFF 'N' EVERYTHING From Still More Toasts

Judge—"Just where did the defendants auto hit you?" Sweet Young Thing—"Well, if I had been wearing a license plate, it would have been badly damaged." Accidents "How is it that you want a raise," asked the foreman. "Why, I've been and got married," said the man. "Well," replied the foreman, "I'm sorry for you I'm sure, but I can't help you. I'm only responsible for accidents that happen at the factory." A hardened motorist had just run down a jaywalker and stopped the car on top of the unfortunate man. "Hey there," yelled the motorist, peering down over the side of the car, "while you're under there just take a look at my brake rods, will you?" A married couple were knocked down by a motor car. The car dashed away. The police arrived and found the couple bursting with indignation. "Do you know the number of the car, asked the policeman. "Yes, replied the husband, "by a strange coincidence the first two numbers formed my age and second two the age of my wife." "John," said the wife, "we will let the matter drop at once." Old Gentleman: "I see that in London a man is run over every half-hour." Old Lady: "Poor Fellow." "Where did the car hit him?" asked the coroner. "At the junction of the dorsal and cervical vertebrae," replied the medical witness. And the burly foreman rose from his seat. "Man and boy, I've lived here in these parts for fifty years," he protested, ponderously, "and I've never heard of the place." Some time ago there was a head on collision on a certain railway and numbers of people were injured. When the wrecker arrived the crew began searching the wreckage before attempting to move any of the cars and found an old negro porter fast asleep in the wreckage. After waking, he was asked, "Didn't you know that you were in a wreck?" He replied, "No sah, Boss, I did feel sumpkin' kind o' jolly but I 'tout dey was a puttin' on de dinah." Father (to Sammy, coming home in a bedraggled condition) "Great Scott, how you look!" Sammy: "Yes, pa, I fell in a mudhole." Father: "What, and with your new pants on?" Sammy: Yes, I didn't have time to take them off."

BACKWARD WEEK

Backward week began with all the girls taking the boys to the Tuesday show. A large place was reserved and all that arrived on time sat together. Wednesday was do-as-you please night which ended with either going to the medicine show or riding. Thursday night the chief attraction was the dance. Most everyone was dressed as hill-billies. Naomi Morris and Lewis Chamberlain won the prizes on their costumes. The prizes were a corn-cob pipe and a bib. Friday night the girls and their dates attended the football games. Tuesday night attention was again turned to the picture show. Backward week was a get-acquainted week for the new students. Also, it is hoped that this unusual period helped to boost school spirit and to start everything off "with a bang."

SCIENCE

"Get rich and live twice as long as you originally would." This is the statement made by Mr. Hanchey in the college chemistry class. The discussion which brought about this statement was concerned with that very helpful and much needed compound water. As many people know the formula for water is H2O. Water is also known to exist in the form of "heavy" water with the formula H3O. If a person were to drink only heavy water his life span would probably be doubled. The question then arises why don't we all drink heavy water. Heavy water is found in nature but very, very, seldom. This type of water can be made in the laboratory. However, as to many good things there is a catch. The cost of making heavy water is \$3,500 per gallon. Therefore, it can be said that if a person has enough money he can buy heavy water and double his life span.

GOSSIP

At the "Backward Dance" Booie wouldn't let Billy out of her sight. Harold didn't mind going to Amarillo in the rain because he got to see Lou. Why was Annie Ree looking for the Agricultural Division at the Fair? Could Redell be the reason? Johnny Turner seemed to be quite popular with the girls at the dance. Especially Nelda Sae. We notice Betty Jo and J. W. came late. Is it because he lives so far? Didn't Clyde and Bill Andis have a good time Tuesday night. Is Marilyn Sawyer the reason Marilyn Bartlett didn't come to the dance Thursday night? Johnnie Johnson doesn't mind her height at dances because all the boys stoop to her then. Why didn't we see Margaret Fay and Buddy Saturday night? Did she stand you up Bud? Is Victor going for Sara Beth now that "Backward Week" is over? Motto for motorists: Pedestrians should be seen and not hurt.—Life

BAND ELECTS OFFICERS

Last Tuesday during the regular band period there was official election of officers. After a rousing campaign Annie Ree Porter was elected to the high position of president. Claude Hearn was elected vice-president, while Pat Grady was given the trusty position of secretary-treasurer.

FOOTBALL STUNT

Entering from the east end of the football field the Clarendon band marched the length of the field while playing. A new drill for the Clarendon Band was a weaving counter-march. Facing east the band made a letter formation of L. H. S. The L was large with the H. S. smaller and placed inside the L. In this formation the song, "Hall, Hall" was played. Next the band marched into a C. H. S., the H. S. being small again and inside the C. The march "Victory" was then played. Leaving that formation the band immediately marched from the field.

BACKWARD DANCE

Thursday evening at the Gymnasium, the Press Club sponsored a Backward Dance which was the main event during Backward Week. The crowd gathered quickly after Pep Rally and were soon swinging their partners in a true hill-billy style. The modern note for the evening was the music and it didn't originate in Dogpatch. At times the music was drowned out by the chewing of bubble gum, but that's all-right as everything has rhythm. Mr. Douglas was there taking flash bulb pictures of everything and everybody. The gaudiness of the costumes probably broke his camera! The dance ran smoothly all evening. The girls cutting in, and the boys getting rushed. As a last resort to get in, some of the boys merely rolled up the legs of their dress suits. Josie Davis said she had a hard time dancing in her boots. Lewis must believe in what the weather reporters say, anyway he came prepared. He had on his long underwear. Sara Beth looked stunning with her up-swing hair style and her new silver fox (?). Buddy had some new rope suspenders and watch chain—but no alarm clock. G. D. was sporting a new straw hat (rather out of season) and a pair of "honest to goodness" Lil Abner shoes. Everyone thought Sue Burton had "become of age" over night when she appeared in so long a dress, brilliant beaded evening bag, sun bonnet, and her great grandmother's black silk gloves. Dorothy Ann started a new style for broom-stick skirts. Just a few inches from the floor. Billy Lowe, alias Alfalfa, attracted a lot of attention from the girls anyway. The J. A. and Word ranch hands apparently went to bed early.

STUFF AN' THINGS From Still More Toasts

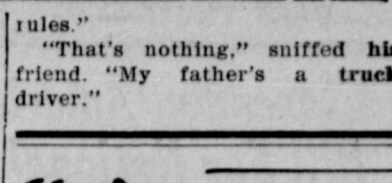

Margaret Wadsworth: "How did your father know we went out in the car yesterday?" Sue Burton: "Quite simple! Remember that gentleman we ran into? That was father." TREES (Close To Highways) I think that I shall never see Along the road, an unscrupled tree. With bark intact, and painted white. That no car ever hit at night. For every tree that's near the road Has caused some auto to be towed. Sideswiping trees is done a lot. By drivers who are not so hot. God gave them eyes so they could see. Yet any fool can hit a tree. * * * * * This is the tree, That stopped Speedy Gowt, When they picked him up He was inside out. This rock withstood A terrific whack; It bent Speed Knut He never bent back. Ben made a swift And reckless turn, His ashes repose Within this urn.

Petty Jo Caraway: (after collision) "But I insist it was my fault." Weldon Warren: "No, my dear lady, it was my fault. I could tell your car was being driven by a woman at least forty rods away and I could easily have driven over into the field and avoided this." Motorist: "Hey, you ought to look out!" Victim: "Wassa matter, you gonna back up?" If they keep on and make busses any larger, locomotives will have to stop, look, and listen at crossings. Lives of motorists remind us, On a Sunday afternoon That some drive as if they liked to Try and end them pretty soon. "My father's mayor," bragged a small boy, "and when he rides in a parade the motor cops go ahead and he doesn't have to pay any attention to any traffic rules." "That's nothing," sniffed his friend. "My father's a truck driver."

Clarendon Americans Begin To Pay Bill For National Defense Program

Along with one hundred thirty million other Americans, Clarendon folks began Wednesday to "pay the bill" for the gigantic national defense program the nation has engaged in. Wednesday was the day when a recently passed three billion dollar tax revenue bill went into effect, and the taxes it imposes effects everybody.

The new tax law brought out an immediate change in the price of amusement in Clarendon, with an announcement by Lee Bell, Pastime and Cozy Theaters manager, of new admission prices scaled to include the federal tax. The tax is approximately ten per cent on all admissions of ten cents or more, and the new price scale at local theatres has been adjusted accordingly. Details can be found in an advertisement of the theatres elsewhere in the News.

Covering purchases by Clarendon residents of a long list of consumer goods is a new ten percent blanket tax, on photographic supplies, business machines, jewelry, perfume, furs, sporting goods, radios, refrigerators and luggage. A new 1942 automobile will come a little higher, with payment of a 7 percent tax on its value, while even the drivers of old jalopies will pay five dollars per year for the privilege of riding in them. This latter is an annual "use tax" which goes into effect next February.

Going on a trip, or just an excursion if costs more than 35c,

an American traveler will have to pay a five percent tax on his fare. If he decides to telephone or telegraph instead of going in person, the tax will be 10 percent, and even local telephone calls will bear a levy of 5 percent.

New tires and tubes for the family car cost a little bit more now, with a tax of two and one-half cents a pound on the tires, four and one-half cents on tubes. Playing cards will carry 13 cents tax instead of the ten-cent impost formerly carried, and even "gopher" and wooden matches come under the new law, with a tax of two cents a thousand. This figures out at less than one cent per nicker box of wood matches, and will probably put an end to "six for a quarter" rate for this type of match.

Mr. and Mrs. America will find hard liquor an expensive indulgence, with a new tax of \$4 per gallon in effect, and they won't get off any lighter by night-clubbing for amusement, which will cost them five percent of the check. Clubs and fraternal organizations will have to collect 11 percent tax on dues from their members in the future.

Mrs. Ed Dishman and Mrs. Frank McClure are visiting in San Antonio with their sister, Mrs. Joe Kendall.

Neel Thompson of Amarillo spent the weekend here with his parents, Mr. and Mrs. L. E. Thompson.

EARL LEA VICTIM OF HEART AILMENT SUNDAY NIGHT

Mr. Earl Lea of Wills Point, died Sunday evening shortly after ten o'clock in a Terrell, Texas, hospital, the victim of a heart ailment, after a short illness.

Mr. Lea was briefly known in Clarendon, having been married here on Sept. 2, to Mrs. O. L. Fink, and his passing comes as a shock to hosts of friends who wished the couple boundless happiness a bare four weeks ago.

The Leas left Clarendon shortly after the wedding for Wills Point, the home of Mr. Lea, planning to return here after a visit there. Before Mr. Lea had completed his business affairs, he was seized with an attack of indigestion which proved to be the forerunner of a heart malady. He was carried to a hospital in Terrell where he passed away.

Mr. Lea is survived by Mrs. Lea and several children. Interment was at Wills Point, Tuesday afternoon at 3 o'clock.

Kenneth Fink, Childrens publisher and son of Mrs. Lea attended the funeral and will accompany her back to Clarendon shortly.

Mrs. Art Wullschlager and Mrs. Mike Stricklin were Amarillo visitors Friday.

Mrs. C. B. Ingram is visiting in Denton with her daughter, Mrs. J. M. Gross.

SUPERIOR LEFORS. SQUAD ROMPS ON BRONCS 26 - 6

Faced with superior weight and a wide margin of experience, Clarendon's Broncho eleven took a beating on their home field last Friday night, with the tough and scrappy LeFors Pirates riding high on a 26-6 score.

Backed by a big crowd of hometown supporters, the LeFors squad moved in on Broncho territory early in the game, and stayed there without too much trouble through four quarters. Their ground game was powerful and smooth, and a Bronco defense wall wasn't strong enough or experienced enough to stand the strain of constant battering.

Early in the first quarter, the Broncs got a break on a Pirate fumble on their own 30. Taking possession on the recovery, the Broncs ran through a surprised Pirate line on two plays and pushed over their only score. W. G. Adams carried on the scoring play. Extra point conversion was not good.

Two crack backfield aces, Oldham at full and Earhart at quarter, ran the scoring circus for the Pirates during the remainder of the game, while their teammates held well enough when the Broncs had possession of the pigskin to keep the local eleven far out of threatening distance. Operating behind a polished front wall offense, the Pirate backs made consistent, driving gains time after time on spin plays, off-tackle and end drives, and straight line plunges.

Slowing down the Broncs, and adding to margin of superiority against them, were two injuries of Bronco backs. Basil Smith, who played standout football against Claude in the season opener, injured a knee in practice earlier in the week, and though he was in play Friday night, his speed and drive was slowed enough to make him easier to bottle up than might otherwise have been possible. W. G. Adams, Bronco halfback, suffered a head injury early in the game and was pulled out of play for the duration. The game was one of the roughest local fans had seen in some years.

The Bronco starting lineup: Thornberry, LE; Wardlow, LT; Gregory LG; Spencer, C; White, RG; Kirkland, RT; Taylor, RE; Smith, QB; Shaw, LH; Adams, RH; Allison, FB.

First conference game on the Bronco schedule, the LeFors defeat placed the home eleven well down in the percentage columns in district 3-A standings. However, the season seems to be one of upsets, and local fans have plenty of reasons for hoping that the outlook will improve as the weeks unwind and the future games are played.
